The plural of caste names and a few common Hindustāni words is formed by adding *s* in the English manner according to ordinary usage, though this is not, of course, the Hindustāni plural.

NOTE.—The rupee contains 16 annas, and an anna is of the same value as a penny. A pice is a quarter of an anna, or a farthing. Rs. 1-8 signifies one rupee and eight annas. A lakh is a hundred thousand, and a krore ten million.
