**DR. GERSON DA CUNHA** has, with unwearied friendliness, settled many references connected with the Portuguese management of Bombay. The volume is enriched by two rare French Maps of the Town and Island in 1758 and 1767 contributed by Mr. G. W. Forrest, the Officer in charge of the Records of the Government of India. The trained care and accuracy of Mr. Krishnaráo Narsinh, to which the fullness of detail in many of the chapters is due, have been aided by the industry of a young and promising worker Mr. Maganrái Keshavrái Munshi.
