The Assistant Settlement Officer's proposals regarding the enhancement in the four talukas of the maximum rates of the rebate allowance on account of karia clearance from annas 4 and 3 per acre to annas 6 and 4, respectively, for lift and flow, which are supported by the Collector and Commissioner, are approved.

4. Sanction is accorded to the Commissioner's recommendation in respect of the bhal dehs in Shahbandar, *viz.*, that the four bhal dehs (Bablo, Padwari, Takro and Batri) should be surveyed as soon as funds are available for the work, the assessment being levied by bighoti measurement till the survey is made, that in the remaining three dehs (Nind, Joshewari and Kalikot) the paka land should be similarly surveyed as soon as is feasible, while in the kacha land all makans and holdings should be roughly demarcated and all land-marks shown with a view to a regular survey later, and that in no case should leases be renewed.

5. Sanction has already been conveyed to the levy during the current year of the full old rates as recommended by the Commissioner.

6. The revised rates should be introduced during the current revenue year 1916-17, levied in and from the revenue year 1917-18 and guaranteed for a period of twenty years.

7. The petitions of objections do not disclose any grounds which would lead Government to modify the orders now passed.

8. The commendation of Government should be conveyed to Rao Bahadur Asardas Motaram for his meritorious reports.

A. F. L. BRAYNE,
Under Secretary to Government.
