No. A. C.-2738.

Bombay, 19th February 1909.

From

W. H. MICHAEL, ESQUIRE, I. C. S.,
Accountant General, Bombay ;

To

THE CHIEF SECRETARY TO GOVERNMENT,
Revenue Department, Bombay.

Sir,

As directed in paragraph 6 of Government Resolution, Revenue Department, No. 2420, dated 8th April 1903, I have the honour to submit herewith a statement showing the interest due at $3\frac{1}{2}$ per cent. on the total monthly outstanding balances of Tagái advances for the whole Presidency as compared with the interest actually received during the revenue year 1907-1908.

I have the honour to be,

Sir,

Your most obedient servant,

W. H. MICHAEL,
Accountant General.

Statement showing the interest due at $3\frac{1}{2}$ per cent. on the total monthly outstanding balance of Takávi advances for the whole Presidency, as compared with the interest actually received during the revenue year 1907-1908.

Months.	LAND IMPROVEMENT LOANS ACT.			
	Outstanding monthly balances.	Interest at $3\frac{1}{2}$ per cent.	Interest actually realized.	Gain + or loss —.
August 1907 ...	81,54,231	23,783	12,503	-11,280
September ...	81,80,139	23,713	5,814	-17,699

Total	2,19,309	96,144	-1,23,165	

W. H. MICHAEL,
Accountant General.

LAND REVENUE ADMINISTRATION REPORT, PART I, FOR THE PRESIDENCY PROPER.

The following are the reports for the year 1907-1908 of the three divisions of the Presidency Proper. The usual appendices are attached. Jamabandi returns Nos. 6 and 7 have not been appended to this report as they are now prepared decennially.

2. Season.

NORTHERN DIVISION.

2. The season was unfavourable, for the rainfall though copious, was neither timely nor well regulated. In the Gujarát Districts, a few unequally distributed showers fell in June, and it was not till after the middle of July that the rain began ceasing again finally at the end of the first week in September.

In Thána the monsoon burst promisingly, but the extraordinarily heavy and continuous downpour at the end of July retarded transplantation. The October rains failed completely, and the effect on the crops was disastrous.

Most of the early sown seeds came to nought and the land had to be resown while the later sown seeds were, in many places, washed away by the heavy rain in July and August. In Ahmedabad, Kaira and the Panch Maháls the kharif crops were scarcely worth talking about, while all unirrigated rice and most of the bájri failed completely. In Broach and Surat, however, the season was somewhat more favourable, for, in both districts, the jowári and cotton crops struggled through and yielded from a fair to normal outturn. Wheat in Ahmedabad, Kaira and Surat yielded a fair to normal crop. Cotton generally failed in Ahmedabad but was estimated at 8 annas in Kaira and at from 9 to 12 annas in Broach and Surat where it fetched high prices. In Thána early rice yielded an 8 to 10 anna crop, while the late sown variety gave an outturn of 6 to 8 annas.

Water-supply.—As the rainfall was abundant, the water-supply in tank and wells was ample everywhere, except, perhaps, to some extent in Thána.

Plague.—Plague appeared in a milder form than before in Ahmedabad, Surat and Kaira, but in the last named district it accounted for 1,879 deaths. In Broach it was confined to a few villages of Jambusar Táluka, while in the Panch Maháls it appeared in Kálol and Hálol only. In the Thána District the plague mortality decreased from 773 to 667. Váda was infected for the first time in the history of plague but the deaths numbered only 7.

Cholera.—In the Thána District there were 67 deaths from cholera. No cases occurred in any other district.

Cattle Disease.—Rinderpest which prevailed practically throughout the division carried off about 2,000 cattle in Kaira; 1,374 in Ahmedabad; 657 in Broach and 1,095 in Thána. The mortality in the Panch Maháls has not been reported but cases occurred in Kálol, Hálol and Jhálod. The services of the Veterinary Graduate were utilized in Ahmedabad in checking the epidemic, and 126 cattle were inoculated in the Viramgám Táluka.

There was a slight attack of Hæmorrhagic Septicæmia in the Olpad Táluka of the Surat District.

CENTRAL DIVISION.

The advent of the monsoon was marked by a heavy fall of rain in July and August in almost all districts of this division, but kharif crops, which promised well in the beginning, yielded only a fair harvest owing to excess of moisture.

The rainfall was generally scanty for rabi crops. The heavy early rains were good for sowing operations, but the later rains held off and the rabi crops were every where poor. The water-supply was generally sufficient. Plague was prevalent in Poona, East Khándesh, West Khándesh and Sátára, being most virulent in the tálukas of Wálwa (Sátára) and Táloda (West Khándesh). In Wálwa Táluka alone the mortality was 11,000. In the other districts, the mortality was trifling. Cholera prevailed in the districts of East Khándesh and Sátára, but the mortality was insignificant. Cattle-diseases prevailed in the districts of West Khándesh, Poona and Sátára; but except in Poona where rinderpest caused heavy loss of cattle the outbreak was mild.

SOUTHERN DIVISION.

As stated in the Land Revenue Administration Report, Part II, the monsoon set in rather late in June, and abundant rains in July and August were followed by scanty rains in September and October, with the result that the kharif crops were poor to fair in the Karnátic and fair to good in Kánara and the Konkan. Want of sufficient rain in November affected the outturn of the rabi crops also. Excepting the facts that there was partial crop failure in the Bijápúr and Indi Tálukas and a considerable contraction of the area cropped in Bijápúr and Dhárwár Districts, the season on the whole, however, may be said to be normal in the below-ghat and somewhat below normal in the above-ghat country. Locusts and wild elephants appeared in some parts of Kánara but did no damage to the crops. In some parts of Belgaum and Bijápúr crops were more or less damaged by insects.

Fodder and water-supply were sufficient.

The condition of agricultural cattle was, on the whole, good, but in the northern part of Bijápúr their number is reported to have gone down to an alarming extent. Tagái was, however, freely distributed to *boná fide* cultivators for purchase of bullocks, though it is probable that the poorness of the present season (1908-1909) may have made it difficult for cultivators to keep the cattle purchased.

The public health was good except for plague which was very bad in Belgaum. Means for inoculation were made available to the people but the results show that very little advantage was taken of the protection so offered.

3. Gross Revenue.

(Column 6 of Appendix I.)

NORTHERN DIVISION.

The gross revenue increased by Rs. 6,427, the Ahmedabad, Panch Maháls and Surat Districts reporting an increase over last year, and Kaira, Broach and Thána a decrease.

In Ahmedabad the assessment of bhata or river-bed lands which were formerly unassessed raised the gross revenue by nearly Rs. 7,000, while the growth of revenue in Panch Maháls is accounted for by the increase of assessment under the Kálol revision survey and by the assessment for the first time of a certain area of kharabo. The last mentioned cause also operated in Surat though to a smaller extent.

On the other hand, the introduction of the revision settlement into the Broach Táluka lowered the assessment demand by Rs. 2,688, while in Thána the abatement of assessment on land set apart as woodland plots resulted in a loss of Rs. 3,936.

CENTRAL DIVISION.

As compared with the figures of the preceding year, there was a net decrease of Rs. 4,731, due chiefly to the abolition of patasthal rates in

Ahmednagar and Poona Districts and to the appropriation of cultivable assessed land for public and special purposes in the districts of Ahmednagar, East Khándesh, West Khándesh, Násik and Sholápur.

SOUTHERN DIVISION.

The gross revenue, Rs. 1,06,39,629, shows a net decrease of Rs. 3,483 made up as follows:—

Belgaum	+145
Bijápur	—65	...
Dhárwár	—2,323	...
Kánara	—433	...
Kolába	+200
Ratnágiri	—1,007	...
			—3,828	+345
			Net ...	—3,483
				...

and chiefly accounted for by reduction in the rate of assessment on rice lands owing to errors in akarbands in the Dhárwár District and to reduction of assessment on warkas lands in the Rájápur Táluka of the Ratnágiri District sanctioned by Government Resolution No. 8877, dated 17th September 1906. The fall of Rs. 433 in Kánara is on account of lands taken up for forests. The increase in Belgaum is explained as being chiefly due to judi in excess of assessment and dry crop lands converted into rice lands in the Sampgaon Táluka, while that in Kolába is due to the falling in of special leases.

4. Alienations.

(Column 9 of Appendix I.)

NORTHERN DIVISION.

The net decrease of Rs. 1,366 under Alienations is accounted for as below:—

Ahmedabad	A decrease of Rs. 802 due mainly to the forfeiture of alienated land for failure to pay Government dues, and to the correction, on remeasurement, of errors in area.
Kaira	A decrease of Rs. 39½ due mainly to the forfeiture and relinquishment of inám land, and also to the acquisition of inám land for special or public purposes.
Broach	A petty decrease of Rs. 32.
Surat	A petty decrease of Rs. 81.
Thána	A decrease of Rs. 1,145 due mainly to the revision of Pátels' remuneration consequent on the introduction of the revision survey.
Panch Maháls	An increase of Rs. 1,038, practically the whole of which is accounted for by the increase of assessment on inám lands in the Kálol Táluka consequent on the introduction of the revision survey.

CENTRAL DIVISION.

There was a net increase of Rs. 3,867 principally due to the following facts:—

(1) The Akluj-Dahigaon Deshmukhi Watan in the Sholápur District which had been resumed was regranted as inám.

(2) Revision survey settlement was introduced into certain inám villages in the districts of Ahmednagar, Násik and Sátára.

(3) Allowances payable to *hakdars* in Dumala villages which had been hitherto included in judi were excluded from that item and added to net alienations.

SOUTHERN DIVISION.

Under this head occurs a net increase of Rs. 4,383, mainly due to the fact that the enhancements in revision of the assessments of shetsanadi lands in the Dhárwár District were shown under judi last year, whereas now they are brought under alienations as per Government Resolution No. 9585, dated 30th September 1907. Belgaum, Bijápur and Kolába show slight decreases of Rs. 123, Rs. 115 and Rs. 101 respectively, the decrease in Belgaum being due to changes in the mamul judi on renewal of old sanads and lapse of inám lands to Government, and in Kolába to the operation of the orders about kadim cash allowances. In Ratnágiri there is an increase of Rs. 73, chiefly owing to the inclusion for the first time in the district accounts of the assessments of the village of Math Kurd, táluka Deogad, alienated to the Bavada State.

5. Net Government Revenue.

(Column 13 of Appendix I.)

NORTHERN DIVISION.

The causes leading to the net increase of Rs. 12,202 in the revenue of the division are explained in the following table:—

District.	Increase.	Decrease.	Principal causes of increase or decrease,
1	2	3	4
	Rs.	Rs.	
Ahmedabad ...	50	...	
Kaira	15,139	Loss of assessment due to the forfeiture and relinquishment of occupied land.
Panch Maháls ...	7,597	...	Increased assessment due to the introduction of a revised survey and an increase in the jama on tálukdári lands on revision.
Broach ...	12,867	...	Increased assessment due to the restoration of lands which had been forfeited, and to the taking of new lands into occupancy.
Surat ...	5,399	...	The levy of full assessment on land held under reclamation leases previously only partly assessed and on kharabo land taken into occupancy and cultivated.
Thána ...	1,428	...	Revision of quit-rent on alienated lands.
Total ...	27,341	15,139	

CENTRAL DIVISION.

There was a net increase of Rs. 9,937 under this head over the figures of the previous year. It is shared by the districts of East Khándesh, West Khándesh and Násik principally, and is mainly due—

- (1) to much unassessed waste and forest land being assessed and given out for cultivation, and
- (2) to the revision settlement in all districts except Ahmednagar and Sholápur.

The decreases are due in the Sátára District to the forfeiture of occupied lands for non-payment of Government dues, in Ahmednagar and Poona Districts to the abolition of patasthal rates, and in Sholápur District to the alienation of the Akluj-Dabigaon Deshmukhi Watan.

SOUTHERN DIVISION.

The net ordinary fixed revenue shows a decrease of Rs. 8,975 over that of the preceding year. The decreases in the several districts are shown below:—

				Rs.
Belgaum	44
Bijápur	501
Dhárwár	6,574
Kánara	1,356
Kolába	178
Ratnágiri	322
Total ...				8,975

The decrease in Bijápur, Kánara and Kolába is due to relinquishments by occupants and forfeiture and entry as Government waste for non-payment of revenue. Increase in the revision assessment of shetsanadi lands wrongly shown under judi last year and now brought under ináms, forfeiture for arrears of land revenue and reduction of water-rates owing to deficiency in the water-supply explain the decrease in Dhárwár. In Ratnágiri a decrease of Rs. 322 occurs for the reason mentioned in paragraph 3 above.

6. Miscellaneous Revenue.

(Column 16 of Appendix I.)

NORTHERN DIVISION.

The net increase of Rs. 23,810 under this head was made up as follows:—

District.				Increase.	Decrease.
				Rs.	Rs.
Ahmedabad	17,273
Kaira	13,146
Panch Maháls	4,436
Brouch	520	...
Surat	2,537
Thána	60,687	...
Total ...				61,207	37,397

The decrease in Ahmedabad, Kaira, Panch Maháls and Surat occurred for the most part under authorized cultivation in unassessed land, unauthorized occupation of land, ground-rent, sale of grass and grazing and the produce of trees, notice fee and occasional items of fixed revenue.

For a large proportion of the increase in Thána the development of Sálsette Táluka must be considered to be responsible, the increase on account of altered assessment for the current and past years amounting to Rs. 54,171. The proceeds from the sale of the occupancy of land increased by Rs. 11,202 and from the sale of grazing by Rs. 1,955.

CENTRAL DIVISION.

There was a net decrease of Rs. 61,482 under this head. It occurred principally under the following heads in the districts noted against each of them :—

1. Rent Násik and Poona.
2. Special assessment on cultivated lands. •Poona.
3. Occasional items of fixed revenue. Násik, Sátára, Ahmednagar and Poona.
4. Revenue from authorized cultivation in unassessed land. Násik, Sátára, Poona and Sholápur.
5. Sale of land or occupancy rights. East Khándesh, West Khándesh and Poona.
6. Revenue from trees ... West Khándesh and Poona.
7. Revenue from grass and grazing. Sátára and Poona.
8. Revenue from miscellaneous products. Sholápur.
9. Proceeds from unauthorized occupation. West Khándesh, Násik, Sátára and Poona.
10. Fine for appropriating land for non-agricultural purposes. West Khándesh, Násik, Sátára, Poona and Sholápur.
11. Notice fees Násik, Sátára, Ahmednagar, Poona and Sholápur.
12. Penalty under section 148, Land Revenue Code. Sátára and Poona.
13. Other items appearing in taleband. West Khándesh, Násik, Sátára, Poona and Sholápur.

The details of the net increase or decrease in each of the seven districts are given below :—

Name of district.				Increase.	Decrease.
				Rs.	Rs.
Ahmednagar	17,960	...
East Khándesh	77,714
West Khándesh	16,514
Násik	5,766	...
Poona	6,907
Sátára	6,518	...
Sholápur	9,409	...
Total ...				39,653	1,01,135

SOUTHERN DIVISION.

The revenue under this head rose from Rs. 2,31,077 to Rs. 2,65,876. The increase of Rs. 34,799 is made up as follows :—

			Rs.	Rs.
Belgaum	+8,800	...
Bijápur	—3,468
Dhárwár	+25,787	...
Kánara	—5,693
Kolába	+3,253	...
Ratnágiri	+6,120	...
Total ...			+43,960	—9,161
Net ...			+54,799	

Large sums were realized by the sale of occupancies of lands in almost all the districts except Kánara and particularly in Dhárwár where there were sales of lands to the Railway Company and to the public at Gadag and also of resumed Dharmáyát lands at Ron, the proceeds of which were ordered by Government to be assigned to the Sanitary Committee for the maintenance of a water trough. Grass and grazing sales also fetched larger receipts than last year in Belgaum while in the neighbouring district of Dhárwár the receipts under this head fell, owing, it is reported, to a good crop of grass in private lands. There is an all round decrease under occasional items of fixed revenue

except in Ratnágiri. Fewer encroachments were brought to light in Bijápur than was the case in the previous year. Hence there is a decrease of Rs. 5,860 under unauthorized occupation for that district. The decrease against Kánara is wholly due to the special increase of last year owing to the occupancy price recovered from Sapurlo Shetti on account of Railway lands in Bád village of Kárwár Táluka sold to him, disappearing this year.

7. Remissions.

(Column 18 of Appendix I.)

NORTHERN DIVISION.

There was a net increase of Rs. 93,619 under this head, the causes leading thereto being as under :—

	Rs.
1. Introduction of revision settlements in all districts of the division, only one portion of the increased assessment being levied at first	2,96,867
2. Transfer of lands to special or public purposes	6,124
3. Failure of crops—	
Ahmedabad	89,605
Kaira	62,569
Surat	53
Thána	4
	1,52,231*
4. Death or disappearance of occupants	1,097
5. Loss by fire (Thána)	483
6. Loss by flood (Broach and Surat)	14,867
7. Remission of arrears on forfeiture of occupied land (Kaira and Broach)	7,252
8. Water-logging (Surat)	24,400
9. Remission of fine levied on the appropriation of land to non-agricultural purposes (Ahmedabad and Panch Maháls)	5,450
10. Remission of land revenue on minors' land remaining waste (Ahmedabad, Panch Maháls and Broach)	1,030
Miscellaneous	10,059
Total	5,19,860

CENTRAL DIVISION.

As compared with the previous year, there was a net decrease of Rs. 78,848 under this head. The causes for which remissions were granted during the year under report were as follows :—

	Rs.
1. Revision of survey settlement (Ahmednagar, Sátára, Sholápur and West Khándesh)	50,989
2. Land taken up for special or public purposes (Násik and Sátára)	100
3. Failure of crops (Poona and West Khándesh)	314
4. Poverty, death or desertion (Ahmednagar, Násik and West Khándesh)	3,670
5. Injury to crops by locusts or other insects
6. Loss by fire (Násik and Poona)	1,463
7. Loss by flood (Poona)	5
8. Suspension of settlement (Násik)	1,11,208
9. Excess of moisture (Poona)	3,670
10. Remission of water-rate (Poona, Sátára, Násik and Ahmednagar)	1,21,802
11. Arrears of forfeited lands (Poona, Sátára and Sholápur)	1,197
12. Other causes (all the seven districts)	1,875
Total	2,96,293

* Exclusive of those shown in column 21.

SOUTHERN DIVISION.

Remissions of current year's land revenue amounted to Rs. 1,04,763 against Rs. 2,16,865 in 1906-1907. They were due to the following causes :—

(1) Introduction of revision survey—

					Rs.
Belgaum	16
Dhárwár	78,019
Kolába	15,613
Ratnágiri	4,363
				Total	98,041

(2) Transfer of land to special or public purposes ...

(3) Failure of crops—

Bijápur	138
Dhárwár	257
				Total	395

(4) Poverty, death and desertion—

Belgaum	169
Bijápur	155
Dhárwár	479
Kánara	287
Katnágiri	6
				Total	1,046

(5) Injury to crops by locusts and other insects—

Belgaum	69
---------	-----	-----	-----	-----	----

(6) Loss by fire—

Dhárwár	30
Kolába	1,077
				Total	1,107

(7) Other causes ...

The last mentioned item includes Rs. 1,410 in Ratnágiri on account of lands held rent-free in khoti villages for religious or charitable purposes (paragraph 2 of Government Resolution No. 6852 of 8th September 1904). Besides the above, Rs. 75,321 were remitted in Belgaum under rules 6 (I) and 6 (II) of the Suspension and Remission rules, on account of previous year's suspended arrears. The information on this point is not given by the other Collectors. The figures appear to have been included in column 21 (irrecoverable balances written off on account of former years). It is probable that the greater part of the large sums shown under this head in Bijápur and Dhárwár are due to this cause. The remissions under the rules in question in Belgaum have been put in the figures for column (21) so as to bring the figures for all the districts under the same head. The amount entered in this column for Ratnágiri is said to be on account of the management expenses of khoti villages lapsed to Government.

8. Suspensions.

(Column 27 of Appendix I.)

NORTHERN DIVISION.

The net increase in suspensions due to failure of crops amounted to Rs. 21,44,819.

The increase by districts was as follows :—

					Rs.
Ahmedabad	6,68,080
Kaira	10,69,013
Panch Maháls	1,85,769
Broach	48,320
Surat	1,23,274
Thána	50,363
				Total	21,44,819

CENTRAL DIVISION.

During the year, suspensions were granted in all the districts, the total being Rs. 30,48,552 against Rs. 1,27,826 of the previous year. They were rendered necessary by the poor kharif and worse rabi crops and were based in accordance with the standing rules on estimates of the crops. It will be seen that of the total uncollected balance at the end of the year, 86 per cent. represented suspended revenue, and only Rs. 4,50,000 was unauthorizedly in arrears. Of this latter sum, the largest amounts were in Ahmednagar, Poona and Sátára, the three districts which showed the heaviest unauthorized arrears in the previous years also. There were also large balances from former years in all other districts except East and West Khándesh.

SOUTHERN DIVISION.

Suspensions on account of the failure of crops amounted to Rs. 4,12,221 against Rs. 96,287 of last year. They were granted in the Belgaum, Párasgad, Athni, Chikodi and Sampgaon Tálukas of the Belgaum District, Bijápur, Bágewádi, Indi and Sindgi Tálukas of the Bijápur District and in parts of Navalgund Táluka of the Dhárwár District. In Kolába Rs. 1,041 were due to floods in the Panvel Táluka and Rs. 375 to fire elsewhere.

Rupees 9,24,171 out of former years' suspended revenue were resuspended.

9. Revenue for Collection.

(Columns 19, 22 and 23 of Appendix I.)

NORTHERN DIVISION.

The net revenue for collection decreased by Rs. 57,607 as shown below :—

	Decrease.	Increase.
	Rs.	Rs.
Ahmedabad ...	1,01,715	...
Kaira ...	37,476	...
Panch Maháls ...	3,228	...
Broach	17,635
Surat	5,216
Thána	61,961
	1,42,419	84,812

The causes of these variations have already been referred to.

CENTRAL DIVISION.

The amount for collection (after granting remissions but without taking suspensions into account) for the year under report (column 19) shows an increase of Rs. 27,303 and that on account of the years previous to 1907-1908 (column 22) a decrease of Rs. 29,36,917. The result (column 23) was a net decrease of about 29 lákhs.

SOUTHERN DIVISION.

The amount of revenue for collection on account of the year under report was Rs. 88,80,721 (column 19) as compared with Rs. 87,42,795 in the preceding year. The increase is accounted for partly by the reasons mentioned in paragraph 6 under miscellaneous revenue and partly by the fact of the large decrease in the amount of remissions granted in Dhárwár as compared with the preceding year. The past arrears after deducting irrecoverable amounts written off (column 21) were reduced from Rs. 33,52,058 to Rs. 20,41,544. The result was a net decrease in total revenue for collection of Rs. 16,72,588.

The large increase in column 21, irrecoverable balances of former years written off, is, as has been stated above, apparently due to the working in the three above-ghat districts of the rules sanctioned by Government Resolution No. 650 of 22nd January 1907, regarding remission of three years' old revenue. Excluding suspensions shown in columns 27 and 29, the revenue for actual collection in the year under report was Rs. 95,85,873 (Rs. 84,68,500 for current year + Rs. 11,17,373 for past years).

10.—Collections.

(Columns 24, 25 and 26 of Appendix I.)

NORTHERN DIVISION.

Of the current year's demand of Rs. 74,35,234 (Rs. 96,15,057—Rs. 21,79,823 = Rs. 74,35,234), Rs. 73,44,378 were collected or 98·77 as compared with 98·28 in the preceding year.

CENTRAL DIVISION.

Out of the total revenue for collection (Rs. 1,60,08,820), a sum of Rs. 92,18,765 was collected. Without omitting the amount suspended, the percentage of collection to demand was as detailed below :—

District.	Per cent.
Ahmednagar	40
East Khándesh	98
West Khándesh	56
Násik	61
Poona	63
Sátára	93
Sholápur	54

Taking the Division as a whole, more than 71 per cent. of the revenue for collection was recovered. All districts except East Khándesh show considerable outstanding balances.

SOUTHERN DIVISION.

Out of the actual demands for the year under report and former years as stated under head 9, Rs. 82,75,200 and Rs. 8,52,313 or 97·7 and 76·2 per cent. respectively, were collected against 97·6 and 86·7, respectively, in 1906-1907. The total collections of the year amounted to Rs. 91,27,513 on a demand of Rs. 95,85,873 or 95·2 per cent. against 95·5 per cent. of last year. The district percentages are contrasted below with those of the previous year :—

District.	For current year.		For former years.	
	1907-08.	1906-07.	1907-08.	1906-07.
Belgaum	98·4	97·5	72·1	88·7
Bijápur	95·	96·6	82·2	89·1
Dhárwár	96·8	96·4	83·5	90·3
Kánara	99·3	99·1	74·5	90·5
Kolába	99·9	99·9	67·4	97·1
Ratnágiri	97·7	97·3	19·2	43·7
Division	97·7	97·6	76·2	86·7

The total collections. Rs. 91,27,513 exceeded the total dues for the year, Rs. 88,80,721.

11.—Balance.

(Columns 27—31 of Appendix I and Appendix II.)

NORTHERN DIVISION.

The serious failure of crops alluded to above necessitated the suspension of a large amount of assessment due for collection and the outstanding balance at the close of the year was Rs. 17,15,684 in excess of the figures of the previous year. Appendix No. II shows that of the total outstanding balance of Rs. 29,27,968, some Rs. 3,26,607 are irrecoverable. For the bulk of the irrecoverable portion, that is to say, for about two and a half lakhs, the Kaira District is responsible; a portion of the amount has already been written off and the remainder will shortly be written off. Excluding previous years from consideration, the outstanding balance amounted to Rs. 22,70,679, and the collection of Rs. 21,79,823 was formally suspended; the unauthorised arrears of the year under report therefore amounted to Rs. 90,856.

CENTRAL DIVISION.

Appendix II shows the amounts of balances that remained outstanding on the 1st August 1908. Of the balances for collection, *viz.*, Rs. 67,90,055 less than 23 per cent. are estimated as irrecoverable. Column 6 of Appendix II includes amounts suspended with sanction.

SOUTHERN DIVISION.

(Appendix II.)

The balances outstanding at the end of the year amounted to Rs. 17,94,752 against Rs. 24,57,849 or 16·4 against 19·5 per cent. of the gross demand appearing in column 23. Out of this, however, the unsus-
suspended arrears were only Rs. 4,58,360 or 4·2 per cent. of the amount set down for collection in the year against 3·7 per cent. of last year. For districts these percentages are as per margin. The remainder was either suspended or resuspended. Appendix II, column 8, will show that the Collectors estimate that out of unsus-
suspended arrears only about Rs. 1,88,271 are irrecoverable. This is, however, a mere guess and, as

District.	Percentage of unauthorized arrears of current year to current year's demand.	Percentage of unauthorized arrears out of demand for former years to that demand.
Belgám	1·6	27·9
Bijápúr	3·9	17·3
Dhárwár	3·2	16·5
Kánara	0·7	25·5
Kolába	0·03	32·6
Ratnágiri	2·2	60·8

stated by the Collector of Bijápúr in his report, given a good year and practically the whole of these arrears will be paid in. The whole of the arrears in Kánara are unauthorized and most of them occur in Yellápúr alone. The Collector explains that "certain lands bordering on or surrounded by thick forests, and others which could not be cultivated owing to the malarious climate and paucity of tenants, remained uncultivated and recourse had to be had to coercive measures to recover the revenue. Several *prakarns* in which forfeitures have been ordered are still pending disposal and this accounts for the high figure of arrears. A greater part of the above sum is reported as likely to be recovered as shown in Return No. 3, the lands forfeited being sold by auction, when necessary, though on such occasions bidders are not always forthcoming."

The Kolába balances are trifling. In Ratnágiri, out of the total balance of Rs. 89,726, Rs. 78,367 are on account of management expenses for khoti attached villages which will be recovered when the villages are released or written off when they lapse.

12.—Takavi Advances, Recoveries and Balances.

(Appendix III.)

NORTHERN DIVISION.

Advances made under the two Acts totalled Rs. 1,29,103 and Rs. 8,25,853 against Rs. 17,670 and Rs. 1,96,652, respectively, in the preceding year, an increase in the aggregate of Rs. 7,40,639.

The unfavourable season of course involved more than the ordinary amount of assistance to needy ryots.

Of the total amount outstanding under both Acts, *viz.*, Rs. 33,36,575, Rs. 4,48,442 were due in the year under report, Rs. 9,74,518 representing arrears of past years. Of the former, Rs. 2,10,899 were collected and Rs. 3,735 written off as irrecoverable. Of the latter, Rs. 77,258 were collected and Rs. 7,435 written off.

The percentage of collection to demands (including arrears) in the year under report was :—

			Act XIX of 1888.	Act XII of 1884.
Ahmedabad 10·70	10·72
Kaira 11·33	2·89
Panch Maháls 66·08	70·13
Broach 81·24	77·03
Surat 92·22	61·01
Thána 71·69	86·03
		
		Division	... 23·86	19·43

The poor percentages in the cases of Ahmedabad and Kaira were apparently due to the failure of the crops.

The following table describes the net financial results to the State of its agricultural loans business during the year under report and the five preceding years :—

Year.	Advances made.	Collections, etc.		Amount written off.
		Principal.	Interest.	
	Rs.	Rs.	Rs.	Rs.
Balance outstanding on 1st August 1902	71,88,226
1902-03	6,10,498	11,47,068	37,823	14,49,130
1903-04	1,98,602	16,59,218	86,430	1,64,664
1904-05	8,77,287	3,16,714	24,802	6,826
1905-06	3,01,869	11,78,260	83,529	2,164
1906-07	2,14,322	10,71,831	1,34,676	7,999
1907-08	9,54,961	3,00,085	40,013	13,945

CENTRAL DIVISION.

12. The total amount advanced as takávi during the year was Rs. 13,60,493.

The percentage of collection on demand was as follows :—

Districts.	Act XIX of 1883.	Act XII of 1884.
East Khándesh	92.04	74.66
West Khándesh	51.11	23.39
Násik	29.83	15.28
Sátára	23.65	36.28
Sholápur	12.72	7.16

The details for Ahmednagar and Poona cannot be given as the new system of accounts has been introduced in those districts.

As compared with the previous year, West Khándesh and Sholápur show a low percentage of collection, chiefly due to the grant of suspensions.

The following amounts are reported to have been misapplied :—

Rs. 7,810	in the district of East Khándesh.
Rs. 1,055	do. Sátára.
Rs. 2,479	do. Sholápur.
Rs. 2,270	do. Poona.

Of the balances in columns 21 and 22 of Appendix III, the following amounts are reported to have been suspended by the Collectors in their respective districts :—

District.	Rs.
Ahmednagar	2,68,161
Sholápur	4,67,109

The Collectors of other districts have not furnished similar information.

The following statement shows the net financial results to the State of its agricultural loan business during the year under report and each of the five preceding years :—

Year.	Total amount of advances made.		Total recoveries made.		Interest recovered.		Amount written off.	
	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Balance outstanding on 1st August 1902 ...	1,30,939	3,77,827
Do. 1902-03 ...	2,08,173	7,24,136	4,36,587	4,35,223	88,394	28,199	4,753	9,46,269
Do. 1903-04 ...	89,248	1,88,845	5,82,743	10,23,444	1,09,518	36,933	24,756	2,89,584
Do. 1904-05 ...	2,41,548	3,10,422	2,50,612	2,53,483	49,468	12,029	1,819	3,12,551
Do. 1905-06 ...	6,35,287	13,45,300	1,87,443	1,59,569	39,218	9,364	4,803	30,663
Do. 1906-07 ...	1,64,512	2,91,927	4,37,625	6,05,740	1,84,351	58,788	1,500	2,920
Do. 1907-08 ...	13,60,493		4,80,962		1,45,252		89,398	

SOUTHERN DIVISION.

The total amounts advanced during the year under report were Rs. 1,20,413 under the Land Improvement Loans Act and Rs. 1,54,087 under the Agriculturists' Loans Act against Rs. 1,51,190 and Rs. 2,13,461, respectively, granted in 1906-1907 and Rs. 5,21,052 and Rs. 5,56,580 in 1905-1906. The decrease, it will be noticed, occurs mostly in the above-ghát districts where new transactions have been greatly curtailed owing to the pressing necessity for a settlement of the large outstanding arrears of previous years, of which there were over 22 lakhs at the beginning and over 14 lakhs still outstanding at the end of the year under report. Rs. 11,121 out of the amounts advanced during the year were due for recovery in the same year. This sum, added to previous outstandings, brought the total amount due for collection under both the Acts to Rs. 22,34,280 against Rs. 24,38,629 and the collections amounted to Rs. 8,73,888 against Rs. 9,13,962. They show the following percentages:—

			1907-1908.	1906-1907.
Under Act XIX of 1883	32.3	28.4
Under Act XII of 1884	43.7	45.7
Under both the Acts together	36.4	35.

Besides the above collections, instalments amounting to Rs. 59,100 against Rs. 60,082 were recovered on account of future years. By districts the results are as follows:—

				Under Act XIX of 1883.	Under Act XII of 1884.
Belgaum	22.2	26.1
Bijápúr	31.5	27.9
Dhárwár	72.8	73.7
Kánara	86.9	68.7
Kolába	90.3	95.8
Ratnágiri	84.1	95.3

Outstanding arrears in Belgaum and Bijápúr are heavy and reports are awaited from the Collectors after the special inquiries which have been recently undertaken are completed. An insignificant amount was written off and it was mostly in Bijápúr. The following statement shows the net financial results to the State of these transactions during 1907-1908 and the five preceding years:—

Year.	Total amount of advances under		Balances of advances of previous year's outstanding.		Total.	
	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.
1	2	3	4	5	6	7
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1902-03	1,88,912	3,46,152	34,08,970	11,35,644	35,97,282	14,81,796
1903-04	2,51,993	76,834	33,40,310	12,59,172	36,92,303	13,36,096
1904-05	2,09,230	93,064	31,31,841	8,56,602	33,41,071	9,49,666
1905-06	5,21,052	5,56,580	30,06,118	6,84,217	35,27,170	12,40,797
1906-07	1,51,190	2,13,461	32,94,961	11,47,380	34,46,151	13,60,841
1907-08	1,20,413	1,54,087	29,57,975	9,32,174	30,78,388	10,86,261

Year.	Total recoveries.		Amount written off.		Balance remaining outstanding.		Interest recovered.	
	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.	Act XIX of 1883.	Act XII of 1884.
1	8	9	10	11	12	13	14	15
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
1902-03	2,56,998	1,44,330	10	78,807	33,40,274	12,58,659	64,260	7,905
1903-04	4,63,291	4,78,300	197	85	31,26,815	8,57,121	1,17,465	21,962
1904-05	3,47,849	2,07,756	175	59,108	29,93,047	6,82,802	81,438	25,564
1905-06	2,17,851	85,523	1,474	7,618	33,07,845	11,47,626	50,195	5,112
1906-07	4,85,716	4,28,248	2,493	319	29,57,937	9,32,274	1,22,888	31,040
1907-08	5,12,686	3,61,202	1,294	185	25,61,408	7,24,874	1,59,415	31,649

13.—Areas.

(Appendix IV.)

NORTHERN DIVISION.

The net increase of 5,683 acres in the area of occupied assessed land (column 12) which was contributed to by all districts in the Division is thus explained:—

		Increase.	Acres.
(1)	Assessed land newly taken up	27,864
(2)	Unassessed land newly occupied and assessed	4,390
(3)	Restoration of forfeited land on account of cancellation of orders of forfeiture, principally in Kaira	371
(4)	Land hitherto set aside for forest and other special purposes given out for cultivation	311
(5)	Miscellaneous	3,755
Total increase			36,691

		Decrease.	Acres.
(1)	Relinquished land remaining unoccupied	18,696
(2)	Forfeited land remaining unoccupied	9,749
(3)	Land set apart for public and special purposes	853
(4)	Miscellaneous	1,710
Total decrease			31,008

In the expectation of favourable rains new land was taken up somewhat more freely than usual.

CENTRAL DIVISION.

13. Jamábandi Return No. 5 shows the distribution of lands in each of the seven districts. A comparison of the cultivable occupied area (column 12) in 1907-1908 with the corresponding area for the previous year shows a net increase of 33,313 acres. In all, 49,582 acres of unoccupied land were newly brought under cultivation as shown in the margin; while there were decreases in Násik, Poona and Sátára Districts on account of forfeitures and relinquishments as shown in the margin.

	Acres.
Ahmednagar	... 1,005
East Khándesh	... 5,760
West Khándesh	... 31,296
Násik	... 10,258
Poona	... 171
Sátára	... 490
Dholápur	... 582
Total	... 49,582

Forfeitures.	
Poona	... 612
Násik	... 6,521
Sátára	... 1,298
	8,431

Relinquishments.	
Násik	... 4,528
Sátára	... 68
	4,596

The large increase of cultivation in West Khándesh (especially in Nandurbár and Pimpalner Tálukas) is satisfactory as indicating the opening out of the more remote part of the district.

SOUTHERN DIVISION.

The area of assessed occupied land (column 12) fell off by 601 acres, though there was an increase in the Ratnágiri (775) and Dhárwár (1,041) Districts owing to unoccupied waste lands being newly brought under cultivation. The decreases in the Belgaum and Bijápúr Districts were mainly due to forfeiture of 936 acres in the former and 2,761 acres in the latter, though in these

districts, 887 and 1,612 acres, respectively, were newly taken up for cultivation. Relinquishments account for the decrease in Kánara. In Kolába the decrease seems to be nominal, being due to correction of figures wrongly shown as occupied in the last year's return. There is a large increase of 10,735 acres in Kánara under column 6 (Forests), while there is a corresponding decrease of 10,338 under column 7 (Land set apart for public purposes). There are similar variations in Kolába under columns 6 and 7. These variations have not been explained by the Collectors.

14.—Average Incidence of Land Revenue.

(Appendix V.)

NORTHERN DIVISION.

Changes in the average incidence of land revenue per head of population and per acre of fully assessed area are too insignificant to need comment.

CENTRAL DIVISION.

There is no variation from the previous year.

SOUTHERN DIVISION.

The incidence of land revenue per head of population and per acre of net cropped area in the surveyed Government rayatwari villages (columns 15 and 20) is shown below :—

	1907-1908.		1906-1907.	
	Column 15.	Column 20.	Column 15.	Column 20.
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Belgaum	1 13 1	1 6 4	1 12 11	1 13 1
Bijápur	2 1 6	0 10 0	2 1 6	0 9 8
Dhárwár	2 8 5	1 8 7	2 6 5	1 6 8
Kánara	2 3 1	4 5 10	2 3 4	4 5 3
Kolába	2 9 7	4 10 6	2 9 4	4 9 3
Ratnágiri	0 13 9	1 14 7	0 13 8	2 0 7
For the Division	2 1 6	1 0 8	2 0 11	1 7 2

The large decrease of nearly 7 annas in the incidence on net cropped area in Belgaum is due to a more extensive cultivation of bájri and of cotton. In Dhárwár less remissions being granted during the year, the revenue collected was larger than last year, while the net cropped area decreased by about 33,000 acres. The incidence therefore under columns 15 and 20 has increased appreciably. In Bijápur also the net cropped area decreased considerably, but there was a corresponding fall in the revenue demand and therefore there is only a slight variation in the incidences. In other places the variations are unimportant.

15.—Coercive Process.

(Appendix VI.)

NORTHERN DIVISION.

The number of notices issued decreased by 18,352, the number being arrived at as follows :—

Ahmedabad	8,215
Kaira	4,631
Panch Maháls	1,290
Broach	1,857
Surat	782
Thána	1,577
					18,352

The table next following shows that cases of the infliction of a penalty under Section 148 of the Land Revenue Code dropped from 296 to 234 :—

<i>Decrease.</i>			<i>Increase.</i>		
Kaira	...	58	Ahmedabad	...	35
Panch Maháls	...	23	Thána	...	17
Broach	...	9			
Surat	...	24			
		114			52
	Total	...	Total	...	

Distraints decreased from 315 to 215 as under :—

<i>Decrease.</i>			<i>Increase.</i>		
Kaira	...	34	Ahmedabad	...	13
Broach	...	70	Panch Maháls	...	2
Surat	...	39	Thána	...	28
		143			43
	Total	...	Total	...	

while forfeitures numbered 967 against 992 in the previous year.

In Thána nine arrests were made under Section 157 of the Land Revenue Code, but, in every case, execution of the warrant resulted in the immediate payment of the sum due.

CENTRAL DIVISION.

The number of notices issued under Section 152 (column 3) decreased from 69,688 to 45,691, that is, by about one-third, though there were slight increases in East and West Khándesh. Cases of penalty under Section 148 of the Land Revenue Code increased from 194 to 229. The increase was greatest in Ahmednagar and Násik.

The number of persons proceeded against under Section 154 of the Land Revenue Code fell from 1,882 to 821, that is, by about 56 per cent.

Notices for forfeiture under Section 153 fell from 6,755 to 4,309, that is, by about 36 per cent. This satisfactory decrease in the number of coercive processes is no doubt due to the liberality and promptitude with which suspensions were granted during the year.

SOUTHERN DIVISION.

The number of notices issued under Section 152 was considerably less than in the preceding year, *viz.*, 13,672 against 19,521. The decrease occurred in all the districts except Ratnágiri and is most noticeable for Bijápur, Dhárwár and Kōlába. This satisfactory result, the Collector of Bijápur says, was due

partly to the enforcement of the principle that notices need not be issued in cases where it is not proposed to employ compulsory processes. In Dhárwár it is ascribed to a favourable outturn of crops and in Kolába to promptness in recovering the revenue. On the other hand, penalty under Section 148 would appear to have been imposed more freely than before, there being 543 cases against 416. Recourse to this section appears necessary to meet cases of contumacy.

There was a decrease in the more serious forms of compulsion employed, *viz.*, under Sections 154 and 153, the numbers of cases falling off from 334 and 349 to 276 and 323, respectively. Increase is noticeable, however, in the area of land declared forfeited—6,490 acres against 5,060 of the preceding year. Bijapur, Dhárwár and Kánara have contributed to this increase. The Collector of Bijápur remarks :—

“As a rule land was not ordered to be forfeited unless the parties concerned were reported to be wilful defaulters. The restricted tenure is viewed with considerable disfavour in this district; but I made it a rule to restore forfeited lands on that tenure when payment was made after order of forfeiture. But I had to revise my orders in some cases because it appeared that the payees had obtained the money on the security of the lands and this security would of course be destroyed by the alteration of the tenure”.

For the Dhárwár District it is reported that the “forfeiture related generally to cases several years old in which there was also no desire to retain the lands,” while for Kánara it is mentioned that the “lands concerned bordered on forests and were unsuitable for cultivation.”

16.—Miscellaneous Land Revenue not included in the Taleband.

NORTHERN DIVISION.

There was an increase of Rs. 27,712 under this head. This was due chiefly to—

- (1) the recovery of the capitalized value of the abatement of land revenue of the Railway C class lands (Government Resolution No. 518, dated the 9th February 1907, Public Works Department, Railway) and
- (2) a contribution made by the District Local Board, Ahmedabad, towards the cost of repairs to chowras in that district.

The details of assessed and unassessed land given out for babul plantation in the Ahmedabad (excluding unassessed *Bhata* land of the Khári at Jahanu and Bhuvaidi) and Kaira Districts are as under :—

	Acres.
Land under plantation at the beginning of the year in Daskroi, Dholka, Sánad and Parántij	3,682
<i>Add</i> —Land given out in the year under report in 29 villages of Daskroi, Viramgám and Parántij Tálukas of the Ahmedabad District and Nadiád, Thásra and Mehemadabad Tálukas of the Kaira District	4,647
Total ...	<u>8,329</u>

No areas were cleared during the year.

CENTRAL DIVISION.

As compared with the figures in column 32 of Appendix I of the preceding year, there was a net increase of Rs. 42,261 under this head; of this Poona accounts for Rs. 25,958.

SOUTHERN DIVISION.

The revenue under this head amounted to Rs. 28,044 against Rs. 20,706.			The increase occurs throughout the Division as shown in the margin. Items under the head are fluctuating and call for no remarks. In Bijápur, however, the revenue has risen from 2,364 to 6,164 owing, it is reported, to the receipt of a large amount of fees for mineral prospecting licenses and the pay of Circle Inspectors deputed to dispose of private measurement cases.

17.—Refunds.

NORTHERN DIVISION.

Refunds amounting to Rs. 9,810 were made during the year under report. The figures by districts are as under :—

					Rs.
Ahmedabad	510
Kaira	282
Panch Maháls	467
Broach	59
Surat	2,035
Thána	6,457
Total	...				<u>9,810</u>

For the most part these refunds were necessitated by over-collections and the withholding of sanction to auctions held in which bidders had deposited a percentage of their bids.

APPENDICES.

LAND REVENUE ADMINISTRATION REPORT, PART I, SIND.

The following is the report for the year 1907-1908 of Sind. The usual appendices are attached. Jamábandi Returns Nos. 6 and 7 have not been appended to this report, as they are now prepared decennially.

2.—Season.

The year was one of the most unfavourable on record. The river rose late and remained at a low level during the greater portion of the inundation season. On the 1st July the Bukkur gauge registered only 8 feet 9 inches. Nine feet were reached on the 5th idem. A height of 13 feet, which is considered a fair irrigational level for the province, was not reached till the 13th August and was maintained only up to the 23rd of the same month, *i.e.*, altogether for 11 days against 84 days in the previous year, 86 days in 1905-06 and 40 days in 1904-05. The result was a serious decrease in the cultivated area and revenue, the falling off in the former amounting to more than 6 lákhs of acres and in latter to 20 lákhs of rupees. On the other hand, the rainfall was sufficient and there was a substantial rise in the area of cultivation in the Kohistan of the Karáchi District and the Desert tálukas of the Thar and Párkar District. In the latter tract, however, much of the rain was unseasonable and the outturn of the crops was seriously affected for want of a few timely showers.

The public health was on the whole good except for plague which ran its usual course in the town of Karáchi and made its appearance in the towns of Lárkána and Tatta and for cholera which broke out in parts of the Karáchi and Hyderabad Districts.

The condition of cattle was generally satisfactory, but, except in the Kohistan and Desert and in certain low-lying tracts, there was a great scarcity of fodder. There was an outbreak of 'fluke' among buffaloes in the Tatta Táluka, and of rinderpest among cattle in Karáchi, resulting in a total mortality of 100. Two slight outbreaks of anthrax, which carried off 31 head of cattle, and one of Hæmorrhagic Septicæmia in which 122 head of cattle died, occurred in the Sukkur District.

3.—Gross Revenue.

(Column 6 of *Appendix I.*)

The net increase of nearly 9 lákhs under this head is not of course due to any improvement in the amount of land revenue payable to Government, for, as already stated, the season was a most unfavourable one, but to the constant fluctuations which arise either from changes in the area of unoccupied cultivable land, assessed and unassessed, the revenue of which, calculated at an average rate deduced from the figures of the assessment of cultivated area is included in 'Gross Revenue', or from variations in this average rate. Thus in the year under report an increase of 6 lákhs took place in the Sukkur District owing to the correction of a mistake by which last year an area of 200,000 acres of cultivable area was wrongly classed as uncultivable in the accounts of the Rohri Táluka; and in the Thar and Párkar District there was an increase of $7\frac{1}{2}$ lákhs on account of the enhancement under revised settlements of the assessment rates in the Umarkot and Pithoro Tálukas. The decreases of $3\frac{1}{3}$ lákhs and $1\frac{1}{4}$ lákhs occurring in the Hyderabad and Karáchi Districts respectively are attributable to a reduction in the average rate above referred to. This reduction again was due to the fact that as the water-supply was insufficient more lightly assessed methods of irrigation were generally adopted.

4.—Alienations.

(Column 9 of Appendix I.)

Almost all the districts contribute to the small increase of Rs. 12,000 which occurs under this head and is due to a decrease of cultivation in the jághir areas, and a corresponding increase in the calculation of the amount of alienated revenue. In the Thar and Párkar District, a part of the increase is also accounted for by the recent revision of assessment rates in the Umarnot and Pithoro Tálukas.

5.—Net Government Revenue.

(Column 13 of Appendix I.)

The falling off of 19½ lákhs under this head is entirely the result of the low inundation of the year, which affected the water-supply of nearly every canal in the province, not even excepting the Jámráo Canal, which may be said to have really failed for the first time. The largest decreases are in the Lárkána, Hyderabad and Thar and Párkar Districts.

The figures in column 13 are inclusive of *hakabo* (water rate) levied on alienated holdings, amounting to Rs. 80,000, and of the water cess levied in the Tando Bago dehs referred to in the last report, amounting to Rs. 4,000. Both of these items are credited to the Public Works Department.

6.—Miscellaneous Government Revenue as shown in the Talebands.

(Column 16 of Appendix I.)

The district figures under this head, specially those for the Sukkur, Hyderabad and Thar and Párkar Districts, show marked fluctuations, though the net result for the province amounts to a decrease of only Rs. 29,000 on last year's total of a little over 7 lákhs. In the first named district the greater part of the increase of Rs. 51,000 occurs in the Shikárpur Táluka where large sums were realized by the sale of unoccupied lands and of the right to remove *jungle* growth from lands under command of the new Choi Canal. The decrease in the other two districts has been caused chiefly by (1) a falling off in the realizations from the sale of occupancies principally on the Jamrao Canal and (2) a contraction in the area cultivated unauthorisedly, the assessment and fines leviable on which are credited to this head.

7.—Remissions.

(Column 20 of Appendix I.)

The total amount of land revenue remitted during the year was Rs. 5,93,000, as compared with Rs. 5,25,000 in the previous year. Deficiency of water was the chief cause, and this accounted for more than 4 lákhs or 68 per cent. of the total. On the other hand, floods or breaches which necessitated the remission of Rs. 1,66,000 last year were responsible for only Rs. 24,000 in the year under report. Remissions granted on time-expired fallow numbers were also comparatively small amounting to Rs. 34,000 only as against a little over a lách in the past year, the reason for the falling off being that owing to the unfavourable inundation, the year 1907-1908 was ordered by the Commissioner to be omitted from the calculation of the fallow period. The great contraction of cultivation on the Jámráo naturally caused a decrease in the amount of remission granted to colonists under the terms of their grants, the figure being Rs. 17,000 against Rs. 67,500 in the previous year. Remission due to damage to crops from locusts and other insects and to loss caused by frost amounted this year to Rs. 29,000 and Rs. 11,000 respectively against Rs. 39,000 and Rs. 5,000 in 1906-1907.

8.—Suspensions.

(Column 33 of Appendix I.)

Suspensions are seldom granted in Sind with reference to whole tracts, but postponements of recovery of revenue are granted in the case of individual holdings when good cause can be shown for the same. The amount of land revenue under postponement at the end of the year was Rs. 4,96,000, of which Rs. 2,32,000 belong to the year under report and Rs. 2,04,000 to previous years. As these figures are included in the balances outstanding at the close of the year, they will be dealt with in paragraph 11 below.

9.—Revenue for collection.

(Column 21 of Appendix I.)

As a natural result of the poor inundation, there is a considerable falling off in the net demand of land revenue which stood at 89½ lakhs or 20½ lakhs less than in 1906-1907. Adding the previous year's balances, the amount for collection was Rs. 98,16,000 against Rs. 1,17,19,000, the corresponding figure for the previous year.

10.—Collections.

(Column 32 of Appendix I.)

The total collections of the current year's revenue amounted to Rs. 84,28,000 out of a total demand of Rs. 89,55,000 or 94.11 per cent., against 95 per cent., in the past year, while the percentage of the recoveries of past years' arrears (46.5) was actually a little higher than that for 1906-1907 (45.9). Considering the unfavourable character of the year, these results are obviously satisfactory, the more so because, as will be noticed from paragraph 15 below, the number of coercive processes employed in effecting the recoveries was smaller than in the previous year. The high prices of grain which ruled throughout the year no doubt greatly facilitated the task of collection. Under Government Resolution No. 5420, dated 2nd August 1890, the collections of land revenue, including miscellaneous items not brought to account in the jamabandi, are to be compared with the collections shown in the Accountant General's books. The difference amounts to Rs. 18,406 and is explained in Statement A. An excess of Rs. 29,949 in the Accountant General's figure is due to (1) over collections, (2) collections on account of future years and (3) inclusion of recoveries on account of boundary marks which were not brought to account in the jamabandi of the year. On the other hand, the figures in Jamabandi Return No. 1 show an excess of Rs. 11,543, of which Rs. 11,124 represent adjustments of errors in accounts, and Rs. 419 represent collections made during the preceding year.

11.—Balances.

(Columns 33—37 of Appendix I and Appendix II.)

The total outstanding balances at the close of the year, including the past year's arrears amounted to Rs. 9,87,276 against Rs. 9,50,939 in the preceding year. Deducting the amounts which were remitted or written off after the close of the year, the balances are reduced to Rs. 9,08,426 or only Rs. 47,000 more than the corresponding figure for 1906-1907. Of this, Rs. 33,736 have been collected since the close of the year, leaving the unrecovered balance at Rs. 8,74,691, Rs. 4,28,269 belonging to the year under report and Rs. 4,46,422 to previous years. Out of the total unrecovered balance just referred to, (a) Rs. 4,47,645 are under postponement granted by competent authority, of which Rs. 2,436 in the Larkana District are the subject of correspondence with a view to remission, (b) Rs. 16,291 are the subject of correspondence for postponement, (c) Rs. 1,08,119 are due from the Manager, Incumbered Estates in Sind, (d) Rs. 2,45,368 are under process for recovery, (e) the remaining Rs. 57,267 are mostly due on account of occupancy fees recoverable in future years. Except under (a), the above figures compare favourably with those of

the preceding year. Most of the increase under head (a) occurs in the Hyderabad, Thar and Párkar and Karáchi Districts. In the Hyderabad and Thar and Párkar Districts it was found necessary to accord liberal treatment to the zamindárs in the matter of granting postponements; while, in the Karáchi District, the widespread damage caused by floods in July 1908, just before the last instalment fell due, necessitated the suspension of all measures for the collection of revenue in the tracts affected. The progress in the recovery of past years' arrears in the Upper Sind Frontier District was satisfactory, considering the character of the season.

As required by Government Resolution No. 5140, dated 22nd July 1890, the previous years' balances, which were shown as recoverable in Appendix II and which were not recovered in the year under report, have to be separately accounted for. Such balances amounted to Rs. 4,55,747. Of this amount Rs. 9,325 were recovered after the close of the year, leaving a balance of Rs. 4,46,422, which is accounted for in a separate Statement B.

12.—Taka'vi Advances.

(Appendix III.)

Details of takávi advances under Acts XIX of 1883 and XII of 1884 are given in Appendix III. The total amount advanced is Rs. 3,09,705 under the Land Improvement Loans Act and Rs. 3,15,541 under the Agriculturists Loans Act against Rs. 2,78,101 and Rs. 2,34,017 respectively. The increase occurs chiefly in the Lárkána, Hyderabad and Karáchi Districts and is mainly to be ascribed to the excellent inundation of the current year 1908-1909, field operations in connection with which were of course commenced at the end of the year under report. In the Karáchi District an extraordinary demand for takávi arose out of the floods referred to in the preceding paragraph. The loans under the Land Improvement Loans Act were mostly granted for the construction of wells and clearance of karias, and those under the Agriculturists Loans Act for the purchase of seed and cattle.

Out of the total amount of advances which stood unrecovered at the beginning of the year under report, *viz.*, Rs. 22,14,731, a sum of Rs. 5,07,554 was collected and Rs. 2,724 were remitted during the year, leaving a balance of Rs. 17,04,453. This sum includes Rs. 13,41,851 which are due for collection in 1908-1909 and subsequent years. The remainder Rs. 3,62,601 is composed of Rs. 1,82,719 on account of arrears of previous years and Rs. 1,79,883 which are due within the year under report. Of the former, Rs. 6,525 have been recovered and Rs. 100 have been remitted since the beginning of the year. Statement C shows how the remaining arrears are accounted for. The information required by paragraph 5 of Government of India's No. 2155-321-7, dated 3rd October 1901, regarding the amount of agricultural loan business is embodied in Statement D.

13.—Area.

(Appendix IV.)

The slight increase of 10,000 acres (or 15 square miles) in the area of the province (column 3) calls for no explanation. The net increase of 112,000 acres in the figures of column 4, and the decrease of 185,000 acres appearing under the head uncultivable land (column 5) are the result chiefly of (a) the rectification of the error in the accounts of the Rohri Táluka in the Sukkur District, referred to in paragraph 3 above and (b) survey operations conducted in the Hyderabad District, in the course of which an area of about 70,000 acres which had previously belonged to the head 'unassessed cultivable' was classed as 'uncultivable.' The following table exhibits the areas taken up and relinquished in each district during the year under report.—

No.	District.	Area taken up.			Area thrown up, including fallows.
		Unoccupied land taken up.	Unassessed land brought into occupation and assessed.	Total.	
1	2	3	4	5	6
		Acres.	Acres.	Acres.	Acres.
1	Upper Sind Frontier	6,373	1,226	7,599	522
2	Sukkur	8,026	220	8,246	395
3	Lárkána	4,390	519	4,909	200
4	Hyderabad	71,214	5,686	76,900	9,643
5	Karáchi	13,042	1,452	14,494	...
6	Thar and Párkar	15,888	3,095	18,983	8,845
	Total for 1907-08	118,933	12,198	131,131	19,605
	Total for 1906-07	170,913	11,846	182,759	13,511

The area taken up has fallen off by 30 per cent. The decrease has occurred in all districts except Upper Sind Frontier and is most marked in the Hyderabad and Thar and Párkar Districts. Part of it must be attributed to the unsatisfactory character of the inundation, but, in the two districts just named, it is also due to the fact that there is now very little land available for grant on the new canals. In the Hyderabad District, further, the desirability of restricting grants of land, as affecting the financial prospects of the projected Indus Left Bank Canal, has been generally kept in view. The extent to which this policy of curtailing grants in the districts to be affected by the projected perennial canals is to be followed has formed the subject of a separate report, which is now under the consideration of Government. The increase in the Upper Sind Frontier District is due to a larger area than in the past year having been taken up on Begári Canal, consequent on the removal during the year in certain tracts watered by this canal of the restriction on the grant of land previously in force.

The area relinquished shows an increase of 6,000 acres. Almost all of it occurs in the Colonization area in the Hyderabad and Thar and Párkar Districts. The area appearing against the Upper Sind Frontier District consists largely of lands resigned in exchange for new lands. The information required by Government Resolution No. 8294, dated 20th November 1899, is given in the subjoined statement :—

District.	Area of land granted free.	Land granted on payment of Malkano.		Land sold by auction.	
		Area.	Amount obtained.	Area.	Amount obtained.
	Acres.	Acres.	Rs.	Acres.	Rs.
Upper Sind Frontier	3,879	3,107	7,829	4	220
Sukkur	1,748	6,303	14,570	15	1,146
Lárkána	178	2,926	22,445	69	2,248
Hyderabad	5,277	4,744	1,13,239	252	2,790
Karáchi	7,587	4,423	8,872	24	57
Thar and Párkar	8,289	10,104	58,397	208	4,985
Total	27,008	76,607	2,25,352	572	11,446

The difference of 26,944 acres between the total of the areas accounted for in this statement and the total given in column 5 of the preceding statement represents the area of fallow-forfeited and relinquished land restored to the

original occupants on the payment of arrears or otherwise. Of the total area granted free of malkano, 8,000 acres were given on the Jamrao as peasant grants. The remaining area is composed of petty grants made in lieu of lands relinquished or in consideration of frontage claims. The aggregate realizations from malkano are smaller than in the previous year, but the average rate per acre is higher, being Rs. 3-1-0 against Rs. 2-14-0 in 1906-07.

14.—Average Incidence of Land Revenue.

(Appendix V.)

There has been a fall in the average incidence of land revenue per head of population and per acre (columns 19, 32 and 36) owing to the unfavourable inundation. The slight increase of 2 pies in column 31 calls for no remark.

15.—Coercive Processes.

(Appendix VI.)

There is a slight increase in the number of notices issued in the Upper Sind, Lárkána and Karáchi Districts but it is more than counterbalanced by the decrease observable in the remaining three districts, and the net result is a falling off of nearly 4,000 notices on the provincial totals. There is likewise a decrease in the more severe forms of processes. A most noticeable thing is the continued absence of resort to section 148 of the Land Revenue Code in the Hyderabad and Thar and Párkar Districts, and the attention of the Collectors and Deputy Commissioners is being drawn to this matter.

As usual the forfeitures shown in the statement are mostly those carried out under the Sind Fallow Rules.

16.—Miscellaneous Revenue not included in the Talebands.

The revenue under this head amounted to Rs. 72,645 against Rs. 73,637 in the preceding year. The decrease is due to a falling off in the receipts under the head "Interest on loans under the Land Improvement and Agriculturists Loans Acts."

Annual Reports.

Land Revenue Administration Report, Part I,
of the Bombay Presidency, including Sind,
for the year 1907-08.

No. 10430.

REVENUE DEPARTMENT.

Bombay Castle, 28th October 1909.

Letter from the Accountant General, No. A.C.—2738, dated 19th February 1909—Submitting, with reference to paragraph 6 of Government Resolution, Revenue Department, No. 2420, dated 8th April 1903, a statement showing for the revenue year 1907-08 the interest due at 3½ per cent. on the total monthly outstanding balances of takávi advances for the whole Presidency as compared with the interest actually received.

Letter from the Commissioner, S. D., No. 558, dated 19th February 1909.

Letter from the Commissioner, N. D., No. 882, dated 26th February 1909.

Letter from the Commissioner, C. D., No. c.—1279, dated 3rd May 1909.

Letter from the Commissioner in Sind, No. 2133, dated 10th June 1909.

Submitting the Land Revenue Administration Reports, Part I, of their respective charges for the year 1907-08.

RESOLUTION.—The jamabandi returns for 1907-08 afford ample evidence of the unfavourable nature of the season. The total demand in the Presidency proper amounted to 307 lakhs for the current year and 90½ lakhs on account of suspended revenue and arrears of previous years. The automatic operation of the remission rules, combined with other causes, reduced the latter figure by 24 lakhs, so that the final demand was 373½ lakhs. Of this sum, only 258½ lakhs had been realised by the end of the year, 91 lakhs were suspended, and the unauthorised arrears amounted to 24½ lakhs. The latter figure exceeds that of the previous year by 1½ lakh only. In the Southern Division the total balance outstanding at the end of the year was less by 6½ lakhs than at the end of the previous year; but in the other two Divisions, the only district in which a reduction (¼ lakhs) was effected was Sátára, which suffered less than other districts from the vagaries of the rainfall: the increases in the remaining districts operated to swell the total of authorised and unauthorised arrears to 115 lakhs. The balances of unsuspended arrears are still disproportionately large in several districts (*e. g.*, Ahmednagar and Poona), and the Governor in Council trusts that every effort will be made to reduce them. About 20 lakhs of the balance are reported to be irrecoverable, while of a further 12½ lakhs the recovery is doubtful. It is very desirable that such sums should not continue to be shown in the accounts any longer than may be necessary to verify the propriety of writing them off.

2 In Sind the low inundation resulted in a contraction in the cultivated area of more than six lakhs of acres and in the revenue demand of about 20 lakhs of rupees. The total for collection, including outstanding on account of previous years, was 98 lakhs, and of this 83 lakhs had been collected before the close of the year. The Governor in Council concurs in the opinion expressed by the Commissioner in Sind that considering the unfavourable character of the year, the figures are satisfactory. The outstanding balance of 9½ lakhs was very little in excess of that of the previous year, while there was an actual reduction of nearly two lakhs in the unauthorised arrears. The attention of the Commissioner in Sind has already been drawn to the undesirability of allowing the estates under Government management to fall into arrears with their payments of land revenue. The amount due from the Manager, Incumbered Estates, though less than at the close of the preceding year, was still more than a lakh of rupees.

3. In a year of partial crop failure such as that under review, the figure of the final demand on account of land revenue depends very largely on the anna valuations made by the district officers, and the proportion borne by realisations to that demand affords a fair means for estimating the accuracy

of those valuations. The combined figures for the whole Presidency show that at the close of the year there was an actual decrease in the total amount of unauthorised arrears as compared with the figures of the previous year. That this result was obtained without any undue pressure is shown by the figures given in Appendix VI, which indicate that only in the most clearly proved cases of contumacy was use made of the powers under sections 148, 153, 154, 155 and 157 of the Land Revenue Code. There was also a very large decrease in the number of notices issued, in accordance with the principle, which has the approval of the Governor in Council, that such notices should not be issued in cases where there is no intention of enforcing collections by resort to severer measures. The Governor in Council has no hesitation in according his appreciation of the careful and sympathetic manner in which the district officers made their anna valuations, ensuring thereby the satisfactory working of the Suspension and Remission Rules.

4. The figures for tagávi advances and recoveries are further evidence of the liberal treatment granted to the rayats. Over 32 lákhs were advanced during the year, while collections of principal amounted to 21½ lákhs only. The interest recovered on a total outstanding balance, which varied from 144 lákhs at the beginning to 156 lákhs at the end of the year, was only 4½ lákhs, a sum less by more than half a lákhs than the 3½ per cent., which represents the minimum at which Government can, if the cost of distribution and collection be omitted from consideration, make advances without actual financial loss. Besides this, sums aggregating more than half a lákhs were remitted and written off as irrecoverable during the year. In the Konkan districts, Surat, Broach and East Khándesh, recoveries, especially under the Land Improvement Loans Act, were satisfactory; but elsewhere as in Ahmedabad, Kaira and Sholápur, the collections amounted to little more than 10 per cent. of the demand. While recognising that leniency was necessitated by the prevalence of unfavourable agricultural conditions, the Governor in Council considers that in some cases larger recoveries might have been made of instalments due under the Land Improvement Loans Act. These loans are in most cases granted for the construction of wells, the benefit of which is especially felt in years of scanty rainfall and high prices. He desires once more to impress on officers the importance of not allowing to become prevalent any idea that default in the payment of tagávi will lead to ultimate remission. The present favourable season should afford an opportunity for the collection of a large proportion of the arrears.

H. B. CLAYTON,

Under Secretary to Government.
