

THE
ADMINISTRATION REPORT
OF
THE POONA CITY MUNICIPALITY
FOR
1894-95.

I. Date of Establishment.

The Poona City Municipality was established in 1856-57.

II. Population.

2. The Population of the City proper, Bhamburda, and Gultekdi, which form part of the Municipal District, is, according to the census of 1891, as follows :—

	Males.		Females.		Total.
(a) City.....	60659		54562		115221
(b) Bhamburda.....	1733		1601		3334
(c) Gultekdi.....	137		98		235
	62,529		56,261		1,18,790

III. Municipal Boundaries.

3. The boundaries of the Municipal District remained in the year under report as before, *i. e.*, as below :—

North. The southern side of the Wellesley or Kirki road from the Bolai quarry west-wards to the G. I. P. Railway over bridge, thence the line of the said Railway up to the level crossing No. 65 in Bhamburda on the Poona and Ganeshkhind Road, thence along the southern side of that road up to its junction with the road from Kirki to Lakdipul.

East. The western side of the road from the Bolai quarry towards the Synagogue up to the commencement of the approach to the City going by the south of Ghorpade's Takia and Babaji Manaji's coach factory, thence a straight line to the western end of the bridge on the Manik Nala near Sachapir ; thence the Poona Military Cantonment boundary as far as the south-eastern corner of Survey No. 95 in the village of Munjeri.

South. The southern boundary of Survey Nos. 95, 107, 106, 105, 104, 98, 221, 219 of the village of Munjeri and the northern side of the road to Singhar from the Swars' Police Station to the bridge on the Ambil Odha near the village of Parvati.

West. The eastern side of the road from Kirki to Lakdipul from its junction with the Ganeshkhind Road to the north-west corner of Survey No. 71 in the village of Bhamburda, thence a line drawn round the Survey Nos. 71, 72, and 73 in the same

V23156, 61r

65

3217

village so as to include those numbers, thence the river Mutha from the Lakdipul to the Ambil Odha, thence the Ambil Odha, as far as the bridge on the road to Singhar near the village of Parvati next the eastern side of the Satara road from the Swars' Police Station to the south-west corner of Survey No. 219 in the village of Munjeri.

IV. Number of Meetings.

4. In the year under report there were 55 meetings of the General Committee, as against 51 held in 1892-93 and 1893-94 ; and 312 items of business were disposed of, as against 286 and 252 disposed of respectively in the said two years. In no case papers were circulated for votes under section 29 of the Municipal Act of 1884. During the year under report 4 more meetings were held and a larger amount of business was done in the year.

5. With regard to the attendance of elected and nominated members, appendix A will show that, out of 20 elected members nearly 10 attended all meetings, as against 10.8 and 11.9 in 1893-94 and 1892-93, while out of 10 nominated members more than 4 attended all meetings in 1894-95 ; in 1893-94 and 1892-93 the attendance of nominated members was 5.3 and 6.6 respectively.

6. As regards the attendance of the individual Commissioners, it is gratifying to note that Mr. R. D. Moghe attended all the meetings held in the year under report ; Messrs. K. C. Dhole and K. V. Mudliar attended 53 and 50 meetings respectively ; Messrs. G. G. Gokhale and S. N. Natu attended more than $\frac{4}{5}$ ths of the meetings. Messrs. Sayad Sirajudin, M. B. Namjoshi, G. B. Rishi, R. R. Agasti, S. A. Chobhe, attended more than $\frac{2}{3}$ ds of the meetings ; Messrs B. Lagwankar, and W. P. Bhavo, attended more than half but less than $\frac{2}{3}$ ds of the meetings. Messrs. W. Thomson, W. B. Kanitkar, V. R. Ghole, Mawal, C. V. Natu, and Adhikari attended more than $\frac{1}{3}$ rd of the meetings, and Messrs. N. B. Kanitkar, Ramnarayan, A. H. Plunkett, D. Smith, M. H. Dastur, Dhakjee K., B. H. Chiplonkar, R. Bhaichand, N. R. Bhore, and W. N. Chip-lonkar attended less than one-third of the meetings.

7. In the year under report the Managing Committee consisted of 1. Mr. R. D. Moghe, who was Chairman, 2. Rao Bahadur Wasudeo Bapujee Kanitkar upto 20th December 1894 and Mr. N. V. Mawal from 9th January 1895 on the former resigning his seat, 3. Mr. K. C. Dhole, 4. Dr. S. A. Chobhe, 5. Mr. W. P. Bhavo, 6. Mr. S. S. Abdul Fattah Moulvi upto 20th December 1894 on which day his resignation of his seat on the Managing Committee was accepted, and Mr. M. B. Namjoshi was elected in his place on the 14th March 1895, and 7. Mr. Balshastri Lagwankar.

The Committee met 48 times to transact business as against 60 in 1893-94 and 71 in 1892-93. 1595 cases were disposed of in these meetings and 167 cases were disposed of by circulars in 1894-95, as against 1792 and 13 in 1893-94 and 1546 and 15 in 1892-93 respectively. Though the number of meetings is smaller this year as compared with that of the previous years, the amount of business transacted at each meeting was much larger.

8. Appendix C gives the average attendance of the members of the Managing Committee at the 48 meetings held in the year. It was 5.8 in the year under report as against 6.1 and 6.2 in 1893-94 and 1892-93 respectively.

9. Out of 48 meetings Messrs R. D. Moghe and K. C. Dhole attended every one, Messrs. Chobhe and Bhavo attended each 44 meetings, Mr. Lagwankar 42, Messrs. W. B. Kanitkar and S. S. Moulvi attended 22 and 17 meetings respectively, as they resigned their seats before the year closed.

10. There was no change in the constitution of the Municipal Board, which in the year under report consisted, as before, of 20 elected and 10 nominated members, with a President elected by themselves.

11. The personnel has, however, undergone a great change. The triennial period having been over with the 31st of March 1895, the members on the Board in the preceding year went out of office and new members took office on the 1st of April 1895. They elected the Honorable Sirdar Khan Bahadur Dorabji Padamji for the President's post for the triennial period commencing with the 1st of April 1895.

12. The triennial ward and general elections took place on the 2nd and 9th of March 1895 respectively as notified by the Collector of Poona. From appendix R it will be seen that out of 7382 and 1339 voters for ward and general elections respectively, 3034 and 902 voters went to the Poll and recorded their votes. 66 candidates came forward to contest the 16 seats at the Ward Elections and 10 candidates for the 4 seats at the General Elections. Of the 20 elected members on the Board in the year under report, 10 are by caste Brahmins, 3 Gujrathis, 2 Marwadis, 2 Marathas, 1 Shimpi, 1 Pardeshi Kumbhar, and 1 Mudliar; and by profession 4 are merchants, 3 Government Servants, 3 Medical Practitioners, 3 Landlords and Money-lenders, 3 Money-lenders, 2 Sirdars and 2 Pleaders. Of these 20, 13 are new members:

13. Of the 10 nominated members 2 are Europeans, 1 Eurasian, 3 Mahomedans, 2 Parsis, 1 Brahmin, and 1 Prabhu, and according to profession they are 4 Government Servants, 2 Honorary Magistrates, 1 Inamdar, 1 Pensioner, 1 Sirdar and Landlord, and 1 Deputy High Priest of the Parsis in the Deccan. Of the 10, seven were on the Board during the previous three years.

V. Imposts.

14. There were no changes in the impost in the year under report.

VI. Income.

15. The income of the Municipality in the year under report was, as compared with that of the previous year, as follows :—

HEAD OF REVENUE.	Income in 1892-93.			Income in 1893-94.			Income in 1894-95.			Increase.			Decrease.		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

16. *Octroi.* The area under the administration of the City Municipality for Octroi purposes includes, in addition to the City Municipal District, those under the administration of the Suburban Municipality and the Cantonment Committee. It levies Octroi duty on all articles mentioned in the schedule and imported into the said three areas, and deducting the amount of refund made for exports and the establishment and other charges from the gross revenue, distributes the remainder between the three bodies. The Municipal Commissioners at their meeting held on the 15th March 1895, agreed to distribute the Octroi duty from the 1st of April 1895 according to the population test at the request of the Suburban Municipality and the Cantonment Committee and the recommendation of Government. The Municipality in agreeing to this proposal have reserved to themselves the right of making alterations in the conditions agreed to if they think it proper to do so, after three years, on the statistics of the next three years proving that the population test is not a safe test in the matter.

17. The gross revenue from Octroi amounted in the year 1894-95 to Rs. 184,746-4-8 as against Rs. 185,838-7-2 in the previous year. The small decrease is due to ordinary fluctuations in the trade of the City.

18. Out of the gross revenue of Rs. 184,746-4-8, Rs. 4,000 were paid to the Suburban Municipality, Rs. 33,454-11-10 to the Cantonment Committee, Rs. 20,838-6-9 were refunded on account of exports, the establishment and other charges, such as contingencies, repairs, &c., amounted to Rs. 13,771-0-5. Deducting these from the gross income the City Municipality had a net income of Rs. 112,682-1-8 from Octroi. The amount of Rs. 126,453-2-1 shown in column 3 against "Octroi" in the table given in para 15 includes the net income from Octroi as shown above and the establishment and other charges amounting to Rs. 13,771-0-5.

19. The amount of Rs. 20,838-6-9 was, as mentioned above, refunded on account of exports out of the Octroi cordon in 1894-95 against Rs. 25,980-10-8 refunded in 1893-94. There is a decrease of Rs. 5,142 in the amount of the refund granted during the year under report, as compared with that in 1893-94. The decrease is due to ordinary fluctuations in business. The Municipality is trying to prevent Octroi from operating as, and degenerating into, transit duties, hampering the inland trade of the country. Government would certainly rejoice to find that the rules are worked in the liberal spirit, in which they were conceived, affording facilities to traders claiming refunds of duty and generally removing all possible obstacles from their way.

20. For another mode of testing the working of the Octroi system, reference may be made to the following table, which gives the average consumption of each of the 8 classes of articles. It is necessary to remark that the average consumption per head is calculated with reference to a total population of 161,392 souls, residing in the City, the Suburban, and the Cantonment limits; the City Municipality being, as mentioned in para 16, in charge of the Octroi Department for the three bodies combined:—

Class.	Names of articles.	Standard of consumption fixed by the Municipality according to local circumstances.	Standard of consumption fixed by Government.	Average consumption per head.		
				M.	Seers.	Tolas.
I.	Grain	7 Maunds.	7 Maunds.	8	2	21
	Sugar	6 Seers.	5 to 6 Seers.	...	9	63
	Ghee.....	5 Do.	3 to 4 Do.	...	3	59
III.	Oil	6 Do.	4½ Seers.	...	6	38
V.	Gums, spices ...	2 Rs.	1 to 1½ Re.	Rs.	As.	P.
				2	6	7
VI.	Tobacco	4 Seers.	4 Seers.	M.	Seers.	Tolas.
				0	1	45
VII.	Piece Goods.....	8 Rs.	4 to 6 Rs.	Rs.	As.	P.
				9	15	2
VIII.	Metal.....	2 Rs.	1½ to 2 Rs.	1	14	11

21. From the foregoing table it will appear that Ghee, Tobacco, and Metal are actually below the standard and require no comment. Sugar and oil exceed the standard. There is a very large trade in these articles in Poona, for which purpose large quantities of sugar and oil seeds are imported into the City for being manufactured into sweet-meats and oil. These articles do not remain in Poona, but are exported; they are, however, sent out in quantities too small to entitle them to claim refund. Grain, gums, spices, and piece-goods, exceed the standard a little. It is not, however, an excess due to defective refund rules. The excess represents the consumption of these articles by a large body of non-resident population and of casual visitors to Poona. A large number of visitors, or in other words a large floating population, in the City, the Suburbs, and the Cantonment, and a large rural population in the vicinity of Poona, who draw their supplies from the City Markets in quantities not entitled to refunds, consume not an inconsiderable portion of the imports of the City, but are left out of account in calculating average consumption per head, which has reference to the permanent population only.

22. Appendices E and L give information about gross imports, exports, and the net imports, of all classes of articles, in lump, and the individual articles.

23. *House, Conservancy, and Wheel Tax.*—The Municipal income from these sources amounted to Rs. 27,398-11-7, 27,944-15-5 and 4,929-3-10 respectively as against 31,384-7-9, 35,103-5-0 and 4,461-13-6 collected in 1893-94. The decrease in the case of House tax and Halalcore cess is due to the fact that there was a smaller amount of arrears to be collected in the year under report. The arrears of these (House tax and Halalcore cess) taxes were at the end of 1892-93, Rs. 27,696-9-1, of 1893-94, Rs. 12,583-3-5 and of 1894-95, Rs. 6061-4-10. It will be perceived from the results that the Municipality has been trying to reduce the amounts of arrears to a minimum.

24. For information regarding the state of arrears of Municipal dues from these three sources reference is invited to appendix F. It will appear that the balances remaining unrecovered on account of these three sources on the 1st of April last were Rs. 2,088-2-4, Rs. 3,377-2-6, and Rs. 164 as against Rs. 5,446-2-11, Rs. 7,137-0-6, and Rs. 453-2-0 respectively on the 1st of April 1894. The total outstanding balances would thus appear to have been reduced from Rs. 13,036-5-5 to Rs. 6,529-4-10 and it is hoped that they would go still lower by the end of the current year.

25. As usual applications were made to the Magistrate for the recovery of the outstanding balances in time, and an establishment consisting of

- 1 Clerk on Rs. 25.
- 1 Clerk on Rs. 20.
- 1 Do on Rs. 15.
- 2 Karkuns on Rs. 10 each.
- 1 Do on Rs. 9.
- 2 Peons on Rs. 7 each.

was allowed to the Special First Class Magistrate.

Two Karkuns, each on Rs. 10, were also allowed for a part of the year to help the Benches of Magistrates in the disposal of recovery cases. In the year under report the City Magistrate disposed of 59 cases, the A and B Benches of Magistrates 298 and 136 cases respectively, and the Special First Class Magistrate for Municipal cases, 4631 cases. Thus the Magistrates helped the Municipality, in the year under report, in recovering Rs. 11,053-7-4, by disposing of 5,124 recovery cases. Thanks are due to all Magistrates for the energy and zeal with which they disposed of the Municipal cases. The Municipality acknowledges with thanks the great assistance it received from the Special Honorary Magistrate Mr. D. D. Adhikari, who alone recovered Rs. 9,623-6-3. In consequence of representations made by the Municipality, Government appointed a First Class Special Magistrate to dispose of Municipal cases in connection with the recovery of their dues and the result has been satisfactory. The Court of the Honorary 3rd Class Magistrate for Municipal cases was abolished in the year under report.

26. *Tax on professions and trades.*—The amount of Rs. 1,128 is made up of fees levied on bands of music at two annas a day for every kind of music played in the street. The increase is due to a larger number of marriages and other ceremonies, necessitating music, having taken place in the year under report.

27. *Water-rates.*—Water-rates are charged at one rupee, one rupee and eight annas, and two rupees per month for every $\frac{1}{2}$ ", $\frac{3}{4}$ " and 1" house connections, of which there were in the year under report, 1985, 58, and 52, as against 1890, 53 and 46 respectively. The Income from this source of revenue was Rs. 22,326-0-10 as against Rs. 24,757-12-0 in 1893-94. The decrease is due to a smaller amount of rates being paid in this year in advance. In 1893-94 the amount paid in advance was Rs. 5,100 whereas in the year under report it was Rs. 2,073 only.

28. *Others—Trade Registration Fee.*—Rs. 11,154-12-3 were realised from this source of revenue as against Rs. 10,941-15-10 in 1893-94.

29. *Pounds.*—The decrease of Rs. 150-3-0 is due to increased income on account of larger number of stray animals being impounded.

30. *Hackney carriages.*—This represents the realizations under the Conveyance Act. The decrease, Rs. 40-4-0 being slight, does not require to be explained.

31. Fees are charged for the occupation of streets and other public open places at 4 annas a yard per day, by depositing building materials, putting up booths, shops, and mandavs, and Rs. 1,101-1-2 were realised from this source in the year under report as against Rs. 790-13-11 in 1893-94. At the request of the Municipal Commissioners, the Commissioner C. D. sanctioned a revised scale of fees to be levied for occupying roads and open spaces by the public. The revised rule has been put in force from the beginning of the current year. The revised rule runs thus:—Whenever permission is given to occupy land under sections 48, 49 and 51, a license fee of 6 pies per square yard per diem shall be levied from the person to whom such permission may be given, if the land permitted to be so occupied is a public street or lane, over which the public have a right of way, while for a similar license under section 48, a fee of 3 pies per square yard per diem shall be levied from the person to whom such permission is given, if the land permitted to be so occupied is only a public open space other than a street provided that when any street or other open space vested in the Municipality is required to be occupied under section 48 for a public religious ceremonial the Municipality shall remit the whole of the license fee leviable under this Rule and that when the same is required to be occupied for any other public ceremonial the Municipality may remit the whole or a part of the said license fee provided further that not more than one-fourth of the total width of the Road space between two opposite houses is allowed to be occupied.

32. *Sale proceeds of lands and produce of lands.*—The income of Rs. 1,263-6-0 is made up of the following items, as compared with those for the previous year.

	1894-95	1893-94.
Sale proceeds of land.....	527- 7-9	130-3- 1
„ „ Silt from Katraj Tank...	426- 0-0	306-0- 0
„ „ of articles from the Municipal Garden at		
„ „ the Night Soil Depot	90-14-3	41-7- 9
„ „ of grass from the Parvati Tank	208- 8-0	278-0- 0
„ „ of sand from Nalas	10- 8-0	15-4- 0
„ „ of silt from the Nagzeri Nalu	0- 0-0	50-2- 0
	1,263- 6-0	821-0-10

The nature of the items mentioned above does not require much explanation as regards increase or decrease. They are due to ordinary fluctuations in transactions.

33. Conservancy receipts include the sale proceeds of pondrette and street-sweepings which were Rs. 31,195-8-0 and Rs. 600 in 1894-95 respectively as against Rs. 42,993-0-0 and Rs. 1,100 realised in 1893-94. The decrease is due to the abnormally low market rates of “gul” during the year under report. This seems to have reduced the profits on sugar-cane and many cultivators were not, it appears, able to offer high prices for pondrette. 888 heaps of pondrette were sold for the amount above mentioned, leaving at the end of the year 24 heaps unsold.

34. *Fees and Revenue from Educational Institutions.*—The income under this head is made up of school-fees, which yielded in the year under report Rs. 4,026-12-0 as against Rs. 3,973-13-0 in the previous year, and of the rent of a piece of land transferred to the School Board by Government, which amounted to Rs. 326-10-6. The income from this source was in 1893-94 Rs. 140-10-0. The increase in School-fees is due to increase in the number of paying students, and the increase in the rent of land is due to an instalment of the rent, which was in arrears, being paid in the year under report.

35. *Markets and Slaughter-houses.*—There are in the City two vegetable and six mutton markets, with 418 and 74 stalls respectively. The Plunkett vegetable market and the Reay Market brought in Rs. 42-4-3 and Rs. 11,446-15-3 as against Rs. 56-8-6 and Rs. 11,240-14-3 respectively ; while the mutton markets yielded Rs. 1,337-6-0 against Rs. 1,141-0-0 in 1893-94. The increase is due to stalls having risen in value owing to keener competition amongst the bidders. Besides the above, petty Bazars are held twice a week in Shanwar on the old Mandai ground and daily in Raviwar (Bhajiali) for the sale of fruits, vegetables, and other articles &c. In 1894-95 the income from the old Mandai amounted to Rs. 514-6-6 as against Rs. 722-12-6 in the previous year. The income from petty squatters allowed in Budhwar and Raviwar Peth, under licenses issued to them, amounted to Rs. 186-9-0 and Rs. 42-13-0 respectively. Licenses are not issued to the squatters in Bhajiali Raviwar from the current year in order to prevent the petty dealers from occupying the Road-side gutters for their temporary stalls.

36. The Slaughter-houses brought in Rs. 1,815-12-6 as against Rs. 1,510-13-0 in the previous year. The revenue from slaughter-houses consists of fees charged at 6 pies per sheep slaughtered in the Municipal slaughter-houses, attached to the six meat markets. The increase of Rs. 304-15-6 is due to a larger number of sheep examined and allowed to be slaughtered at the Municipal slaughter-houses.

37. *Fines under the Municipal and other Acts.*—The fines under the Municipal Acts of 1873 and 1884 amounted to Rs. 785-6-0 as against Rs. 2,476-4-3 recovered in 1893-94. The decrease is due to a very large number of recovery cases being disposed of in 1893-94 and a fewer only in 1894-95. The fines under the Police Act (IV. of 1890) and the Conveyance Act (VI of 1863) amounted to Rs. 383-2-4 and Rs. 57-14-0 respectively. It may be remarked in connection with this subject that the amounts mentioned above do not represent the whole of the fines levied in the year ; all the fines levied in the beginning are credited into the Government Treasury in payment of the Municipal share, which amounts to Rs. 624 a year, of the additional establishment sanctioned by Government for the City Magistrate's office. The fines are remitted to the Municipality after the amount of Rs. 624 is made up.

38. *Interest on investment.*—The Municipality does not get anything by way of interest on money deposited in the Bombay Bank. The Bank declined to accept deposits at interest, while section 26 of the Municipal Act of 1873, does not authorize surplus balances being deposited with any other Bank.

39. *Grant from Government.*—The amount entered under this head is the contribution made by Government towards the maintenance of Municipal schools. The grant has been fixed at Rs. 6,540 per annum under G. R. No. 153 dated 24th January 1894 Educational Department. In the year under report it was as below :—

	1893-94	1894-95.
(1) For primary schools.....	7482- 0-0	4905-0-0
(2) Technical Do.	698- 9-2	751-0-0
(3) Building schools	2289-13-2	0 -0-0
(4) Machinery	1500- 0-0	0 -0-0
	11,970- 6-4	5,656-0-0

The decrease is due to the 4th instalment of the grant being not received before the close of the year under report.

40. Local funds on lands in the Municipal area amounted to Rs. 189-8-0. The Mamledar collects the cess and pays into the Municipal Treasury the share due to the Municipality.

41. *Contributions.*—The income under this head was Rs. 169. Rs. 47 were received from Mrs. Kirkham for prizes to girls, Rs. 75 from Sirdar B. R. Natu in aid of the Jubilee Technical school. Rs. 24 represent the interest from Mr. K. C. Dhole's donation of Rs. 300 and Rs. 20 were paid by Rao Bahadur N. J. Kirtane for purchase of articles required at the play-ground attached to Boys' school No. I. Rs. 3 were awarded by the Agricultural Society for flower-pots exhibited by the Municipality.

42. *Revenue on account of services rendered to private persons.*—This consists of fees charged for the use of Municipal tools by private persons, which amounted to Rs. 108-4-6; the comparing fees to Rs. 35-15-0; and the commission charged on work executed in the Municipal Technical School for private persons amounting to Rs. 145-7-0 as against Rs. 94-5-3, Rs. 40-11-0 and Rs. 96-9-5 respectively realised in 1893-94. The increase of Rs. 58-1-1 is chiefly due to more work done by commission at the Municipal work-shop in the year under report.

43. *Other items.*—This consists of deposits lapsing to the Municipality to the amount of Rs. 265-5-8, and sale proceeds of flower-pots made in the work-shop which were Rs. 48-3-0.

44. *Deposits.*—The deposits amounted to Rs. 36,556-13-6 on the 31st March 1895, while they had amounted to Rs. 20,609-1-0 in 1893-94. The increase is due to a larger amount of money being held in deposit for various reasons.

45. To sum up the description of the receipts, the total income in 1894-95 amounted to Rs. 321,430-5-5 as against Rs. 334,203-9-0 in 1893-94, showing a decrease of Rs. 12,773-3-7. The detailed causes of increase and decrease having been noted in the preceding paragraphs no further explanation would appear necessary. The following statement will, however, prove interesting, as comparing the several items and their relative proportions to each other and to the whole:—

48. *General Administration-office establishment.* The expenditure under this head represents the cost of the establishment in the President's, the Secretary's, the Accountant's, the Honorary Magistrates' offices, the work-shop and the Municipal press. It also includes contingencies, office rent, and honorarium paid to Municipal auditors. The increase in expenditure is due to rent of office accommodation and the increased establishment provided to the Honorary Special Magistrate F. C. for Municipal recovery cases.

49. *Collection of Municipal Taxes.* This item includes the cost of the establishment at the 17 octroi toll bars, for 9 wards for the collection of assessed taxes, in the office of the Secretary, and a few hands in the Honorary Magistrate's office. By means of these agencies the Municipality collected Rs. 60,272-14-10 as House, Bhanghi and Wheel tax, and Rs. 184,746-4-8 as octroi duty at a cost of Rs. 5-10-5 and Rs. 5-11-10 per cent. respectively, the octroi and the assessed taxes establishments having cost Rs. 10612-6-8 and Rs. 3408-2-7 respectively. During the year under report two new octroi Nakas were built, one on the road leading to Hadapsor, and the other on the Road leading to Ganeshkhind. Both these Nakas cost Rs. 1,863-13-8 for their construction. The repairs executed to the existing Nakas cost Rs. 113-5-11.

50. *Pensions and Gratuities.*—Rs. 872 represent the amount of Gratuity given to Municipal Servants during the year under report. This includes Rs. 600 granted to the Accountant, who retired on account of impaired sight after more than 25 years' service.

51. *Refunds.*—No refunds were granted during the year under report, on account of Bhanghi, Wheel and House tax.

52. *Public Safety—Fire.*—The expenditure on Fire consists of the cost of establishment, consisting of two Steam Engine drivers, ten Fire Engine Lascars, engaged on two steam and four manual engines, which was Rs. 1400-12-9, and many other items, such as the purchase of a new Steam Fire Engine at Rs. 3644-8-0, of Fire Engine articles and appliances, at Rs. 1992-1-2, of new Fire Plugs, at Rs. 1929-0-6, and uniforms to Fire Engine Lascars at Rs. 141-6-0.

53. During the year under report a new Fire Engine Shed was constructed near Daruwala Bridge at a cost of Rs. 838-11-10 and a Fire Engine located there. Last year the total number of Plugs put up at different places in order to make water from mains available at convenient places for extinguishing fires was 805. 281 new Fire plugs were purchased during the year under report out of which 58 were put up. Thus the total number of these fire plugs was 863 by the end of the official year. Rs. 383-14-3 were spent on the repairs to Fire Engines and appliances and Rs. 160 were paid to Government on account of rent of the Telephone wires put up within the Municipal District.

54. It will thus appear that the Municipality spent during the year under report more than Rs. 11000 on the protection of properties and lives from fire. Appendix M. shows the number of fires that took place in the year under report. There was no loss of life. The estimated loss of property was Rs. 2682. Almost all corners of the City being now connected with the Fire Engine stations by Telephones, Fire Engines arrive at the scene of fire within a very short time, and as a rule the Steam Fire Engines succeed in checking the progress of fire and getting it under control within a few minutes of their arrival on the spot. A new Fire Engine is proposed to be put up near Kumbhar Ves Dharan for the convenience of the localities situated in its vicinity.

55. *Lighting.*—At the commencement of the year under report there were 1292 street lamps. This number was increased from time to time in the course of the year to

1404. These were maintained by a staff of 48 lamp-lighters, and 3 mokadams. The expenditure on lighting consists of the cost of establishment, which was Rupees 2985-12-4, of Kerosine oil purchased for Rs. 11,969-3-10, and of chimneys, wicks and wick-holders purchased for Rs. 1706-12-0. Thus the total expenditure on street lighting was Rs. 16,661-12-2, in 1894-95, as against Rs. 15,437-0-4 in the previous year. The increase of Rs. 1,224-11-10 was due to the increased quantity of oil required, and additional lamps put up.

56. *Repairs to Police chaokies.*—This is a new charge borne by the Municipality since 1893-94. An estimate is sent to the Municipality by the Superintendent of Police of the cost of repairs to the Chaokies in the Municipal limits. Rs. 521-2-7 were remitted to him during the year as per his estimate, and Rs. 502 in 1893-94. The cost was incurred under protest as the Municipality does not admit its liability to the charge thrown on it. It is to be recollected that Municipalities were relieved of all Police charges by the Government of India in consideration of the charges undertaken by the Municipality on account of primary education.

57. *Rewards for the destruction of wild animals.*—This expenditure consists of the cost of destroying stray dogs, which are killed by means of strychnine powders mixed with wheat and ghee. Rs. 70-7-8 were spent on this head in 1894-95, Rs. 151-3-8 in 1893-94 and Rs. 204-9-8 in 1892-93. The gradual decrease in the expenditure shows that the number of stray dogs in the City is decreasing every year. This work is done by the Police, the Municipality supplying the necessary articles. It may be noted here that no claim for rewards for the destruction of snakes were received, though the Municipality is willing to give rewards and has given publicity to this fact. It is moreover not very likely that in a populated City like Poona there would be any great necessity for persons exerting themselves in this behalf in expectation of claiming rewards.

58. *Water-Supply.—Capital outlay.* There are five sources of water-supply to the area under the administration of this Municipality, viz., Raste's and Nana Fadnavi's and Chondhari's wells, and Katraj and Khadakwasla tanks. Out of these the first two are private ones, maintained by private persons, viz., by the Rastes and the family of the well-known Nana Fadnavis. The Chondhari's water-works have been purchased by the Municipality. The Katraj works are in charge of the Municipality. The Municipality is entitled to draw 7,50,000 gallons of water from the canal daily. The Nana Fadnavis well feeds two Hands, which are open to the public. The Raste's aqueduct feeds one Hand in Rastia's Wada. Besides these there are many private, and a few public wells, which supply water for washing and other purposes.

59. Rs. 11,262-8-9 were paid to Government as water-rate for the canal water during the year under report, as against Rs. 10,005-4-3 paid in 1893-94. The annual amount due to Government is Rs. 10,000. The extra amount of Rs. 1,262-8-9 was paid to Government on account of excess water drawn from the Canal over the stipulated quantity, owing to the failure of the Katraj Tank towards the end of the year under report.

60. When more than 16 years back the water-mains were originally laid, the number of house-connections fed by them was very small. It has, however, greatly increased latterly, making it absolutely necessary to substitute pipes of larger dimensions for smaller ones. Accordingly during the year under report new water pipes were put up at several places. 8" pipes were laid in Modikhana, Bhawani Peth, and from Budhwar Chank to Motichauk at a cost of Rs. 6,591-0-1, 4" pipes in Lalbazar, Nana's Peth, Dane ali and Badhai ali in Raviwar, cost Rs. 850-1-6, 3" pipes in Gondhale ali, Budhwar, and Shinde ali in Shukrawar, cost Rs. 670-8-0, and 2" pipes in Hasabnis lane

in Shanwar, and Dal ali in Mangalwar, cost Rs. 31-1-0, a 12" meter attached to the main pipe in Ghorpade Peth cost Rs. 446-9-0; all these cost the Municipality Rs. 8,589-3-7.

61. The Katraj Tank which supplies water to some parts of the town had Rs. 244-9-1 spent on it in the year under report, as against Rs. 252-3-1 in 1893-94 for removing silt therefrom.

62. *Establishment.*—The establishment on water-works consists of one temporary Inspector, 7 turn cocks, one fitter, and one diver, costing Rs. 980-4-6 as against Rs. 874-14-0 in 1893-94. The increase is due to the appointment of an Inspector for four months in the hot season to regulate and economise the water-supply during the period, and to attend to complaints from house-owners regarding insufficiency or stoppage of water-supply at their houses; when the Katraj Tank fails or shows signs of failure, water is supplied to house-owners, at fixed hours daily.

63. *Repairs.* The repairs to water-works cost Rs. 3,048-5-4 and consisted of repairs to public stand-pipes, water-mains, repairs to stop-valves, removal of moss from the river, and cleaning of public cisterns and keeping them in good order. In 1893-94 the expenditure on this head was Rs. 3,384-5-9.

64. From the foregoing it will appear that the total cost to the Municipality on account of water-supply, including new water-pipes, stand-pipes, repairs to Katraj and Chondhari's aqueducts, and water-rates to Government, was Rs. 24,700-10-1 as against Rs. 16,061-11-2 in 1893-94. The increase is due to a large amount, Rs. 8,589-3-7, spent on new water-pipes as mentioned in paragraph 60 of this report.

65. *Drainage-Capital Outlay.*—With reference to the question of new drains it has to be remembered that the Municipality has referred the drainage question—the schemes prepared by Colonel Ducat and Rao Bahadur G. A. Bhat, M. A., L. C. E.—to Government for favour of their advice as regards the most suitable mode of draining Poona, and until that question is disposed of in a satisfactory manner and the sites for sewage farms finally decided upon, the Municipality cannot undertake to construct new drains on a very large scale. Drains are, however, constructed in localities where they can no longer be held over without danger to public health.

66. New U-shaped gutters were built at several places in the City, such as, Hamal ali in Bhowani, Kabirpanthi math and Mochi ali in Nanas Peth, near Kamatis Kundi, and Bara Imam in Shukrawar, near Narpatgir's gate in Somwar, and Huzur Paga in Shanwar, at Bhatigate in Rastia's Peth, and Dalvi's Bakhal in Vetal and in Dhangar ali in Narayan. The total length of the U-shaped gutters built in these localities was 3659 running feet and they cost Rs. 4,427-14-7. During the year 1893-94, the expenditure on this head was Rs. 7,746-0-11. There are now 50,812 running feet of U-shaped gutters in the City.

67. *Establishment and repairs to drains.*—In a portion of the City there are underground drains built by the Peshwas, with which the house and privy "moris" are connected. They get choked in places and require to be annually repaired and kept clean by removing silt therefrom. The expenditure on this account was in 1894-95 Rs. 6883-2-6 as against Rs. 7,292-15-5 in the previous year. The road-side gutters are also repaired and cleansed for the monsoon and Rs. 1,713-11-1 were spent for this purpose as against Rs. 2,494-1-2 spent in the previous year. The decrease of Rs. 1,190-3-0 is due to more work done in the previous two years, the amount in 1892-93 being Rs. 8,722-11-6.

68. *Conservancy, including Road-cleaning and watering, and Latrines.*—Conservancy is a very comprehensive head and requires to be divided into sub-heads, which are as under :—

	1892-93.	1893-94.	1894-95.
A. General supervising establishment.	8053-11-5	8196-13-7	8414-6-10
B. Road-cleaning	11725- 9-2	12871- 4-0	12643-11-8
C. Bhangi Service	49853-14-9	51474- 5-5	51634-13-9
D. Night Soil Depot	14097- 5-5	17515-14-7	13830-12-3
E. Latrines	2052-12-1	1295-6-11	1989- 0-0
F. Urinals	130-11-10	76- 3-2	430- 8-6
G. Road-watering	2716- 7- 8	4122-11-0	2970-12-10
Total Rs.	88630-8-4	95552-10-8	91914-1-10

During the year under report the Municipal outlay on Conservancy was Rs. 9,1914-1-10 as against Rs. 95,552-10-8 in 1893-94, and Rs. 88,630-8-4 in 1892-93. It will thus be seen that the Municipality spent in each of these 3 years more than $\frac{1}{4}$ of their revenue on the sanitation of the City.

69. The general supervising establishment consists of one Health Officer, two Head Inspectors, 6 Ward Inspectors, and 33 Mokadams. The cost of establishment in 1894-95 was Rs. 8,414-6-10 as against Rs. 8,186-13-7 in 1893-94. The increase is due to the salaries paid to persons holding acting appointments for permanent incumbents, who took privilege leave during the year under report and to an increased pay given to an Inspector in the Conservancy Department.

70. Road-cleaning is done by means of 171 Road-sweepers, who sweep and clean roads, road-side spaces, lanes, open spaces, &c. and collect and deposit the sweepings in dust-bins, which are provided at 350 places. The house-owners also throw house-sweepings therein. During the current year the Municipality sanctioned 15 additional sweepers to strengthen the present staff of 171 Road-sweepers, with a view to have the lanes and bye-lanes more thoroughly cleaned. The pay of the sweepers varies from Rs. 4 to 5, according to the length of their services in the Municipality. Those who have served more than 5 years get Rs. 5 per mensem.

71. The work of removing the contents of dust-bins twice a day is done by contract. The contractor removes all rubbish out of the City and delivers over to the Municipality 2500 cubic feet of rubbish every day at the Ash Depot and appropriates the rest for his own use. In addition to the daily supply of 2500 cubic feet of rubbish the contractor supplied 60,000 cubic feet of rubbish free of cost in the year under report and also gave Rs. 600 for permission to work out the contract. The rubbish is burnt into ashes, which are used in manufacturing pondrette. The Municipality provides the contractor with 30 rubbish carts without bullocks. If he wants more he employs them at his expense.

72. Besides the cost of establishment for this work, which was Rs. 9,693-12-6, the Municipality spent Rs. 896-10-9 on making new carts, and Rs. 743-6-5 on repairing old ones. 33 new dust-bins were made in the year under report at a cost of Rs. 418-6-5; some dust-bins were repaired at a cost of Rs. 720-7-7. The sweepers were each paid one rupee as an annual contingent allowance for brooms and baskets, which amounted to Rs. 171. The total expenditure on this head was, therefore, Rs. 12,643-11-8 as against Rs. 12,871-4-0 in 1893-94. The increase is due to the increased pay given to the sweepers and to more money spent on new carts.

73. *Bhangi Service*.—The Bhangi establishment consists of 304 Bhangis. They serve all private and public latrines, of which there were in the year under report 7898 and 78 (with 377 seats) respectively. It is also the duty of Bhangis to patrol streets, lanes, and open spaces, and to keep them clean. In addition to the Bhangis serving privies, public and private, there is an establishment of 19 Bhists and 13 bullock carts employed to remove the contents of cess pits in parts, where there are no drains.

74. The Bhangis remove night soil by means of baskets from privies and empty them into Iron Barrel Carts, placed in different parts of the City. When full these carts are removed, by bullocks and drivers provided by a contractor, who charged Rs. 24-7-0 a month for a pair of bullocks and a driver, to the night Soil Depot, which is about 3 miles south of Poona.

75. The cost of the Bhangi establishment amounted in the year under report to Rs. 33,729-15-11 as against Rs. 32,940-5-10 in 1893-94. The removal of night soil to the Depot in iron barrel carts cost Rs. 9,492-14-0 as against Rs. 10,672-12-11 in the previous year. The iron barrel carts require constant repairs and at times renewals. The repairs cost Rs. 2,248-0-11 as against Rs. 2,084-12-11 in the previous year; 18 new carts were made in the Municipal workshop at a cost of Rs. 2,777-8-7 and 10 new carts were made in 1893-94 which cost Rs. 1,654-4-0. The miscellaneous items such as supplying the Bhangis with brooms and baskets and disinfectants in connection with this branch of the Municipal service cost Rs. 930-6-0 as against Rs. 812-0-8 in 1893-94. These figures show that more money was spent on new carts, repairs to old ones, and on contingencies, such as brooms, disinfectants &c. than that spent in the year 1893-94.

76. *Night Soil Depot*.—As mentioned in para 74 night soil is removed to the Depot at Bibiachi Wadi. It is deposited in pans, of which there were 212 on the 31st of March last, some of which are covered with grass chapars for use in the rainy season. Night soil is mixed with ashes, exposed to sun and air, and turned into pondrette, which is sold by public auction by heaps. A portion of the night soil is buried into trenches, which are covered over with rubbish, in the rainy season, when the sun drying process cannot be attempted on account of wet weather. Night soil thrown into trenches is allowed to remain there well-covered over with good rubbish till the end of November every year, when it is mixed with ashes, allowed to dry, and made into heaps, and sold along with other pondrette. It may be mentioned here that the latter kind of pondrette is not very popular with cultivators, who offer comparatively lower prices for it. This system means loss of revenue to the Municipality, but the process is followed in the monsoon with a view to prevent the Depot from becoming a nuisance to the public.

77. In the year under report 11712 tons of Night Soil were, with 14,456 cart-loads of ashes, made into 878 heaps of manure, a heap being equal to 20 cart-loads, and each cart-load equal to 40 Ghamelas; of these and the balance of 34 heaps that were on hand on the first of April 1894. 888 heaps were sold for Rs. 31,220-8-0 leaving a balance, on the 31st March 1895, of 24 heaps to be disposed of in 1895-96.

78. The Night Soil Depot, though a source of a large income as mentioned above, is also a place that requires a large outlay of money, care, time, and attention, on the part of those responsible for it. In the year under report the Municipal expenditure on several works at the Depot amounted to Rs. 13,830-12-3. The Depot is under the immediate control of the Health officer and the Secretary. Dr. S. A. Chobhe visited it almost twice a month, in order to supervise the auction sales of Pondrette held periodically there and took great interest in it. At his suggestion a small garden of flower plants &c. was laid out there in the year under report with a view to make the depot as agreeable as

possible to visitors and to neutralise the smells arising therefrom in course of time by the help of trees. Mr. Plunkett, City Magistrate Poona, visited it once a quarter, and found it in a satisfactory state.

79. In the year under report several improvements were effected at the Night Soil Depot. A small garden was laid out at a cost of Rs. 355-6-2. With a view to give greater time to the pans in use and allow manure to be exposed to sun and air for a longer period without causing inconvenience, the number of pans has been increased. In the year under report 10 new pans were constructed at a cost of Rs. 847-7-10 and in 1893-94, 45 pans were constructed at a cost of Rs. 2357-15-9; Grass chapars, to cover some of these pans, were put up at a cost of Rs. 2856-8-10, a shed for Rakhwaldur, and a shed for ashes at the Depot, were built at a cost of Rs. 115-11-3 and 149-6-11 respectively. The repairs to pans, roads at the Depot, and the cleaning of gutters, cost Rs. 893-0-1, 713-6-6 and 620-10-3 respectively. Sundry repairs Rs. 98-3-1. Thus it will be seen that Rs. 6,749-12-11 were spent on the works mentioned above, and the Municipality spared neither pains nor money to prevent the Depot from being a nuisance.

80. The supervising establishment at the Depot consists of an Inspector, two Mokadams, and two watchmen. In the monsoon when it requires the greatest amount of care and attention, without which it always threatens to prove a nuisance on account of the wet weather and south-westerly winds then blowing, an extra Inspector is appointed to help the permanent staff. The cost of establishment at the Night Soil and the Ash Depot, which is a necessary complement of the former, was, in the year under report, Rs. 5,242-6-11 as against Rs. 5,631-12-9 in 1893-94.

81. As mentioned in para 71 the contractor delivers over to the Municipality 2500 cubic feet of rubbish every day. In addition to this quantity the Municipality got 60,000 cubic feet free of cost. Thus the Municipality had delivered to it in the year 1893-94 at the Depot on the Satara road 972,500 cubic feet of rubbish, the money value of which may be estimated at Rs. 24,000, at Rs. 2-8-0 a 100 cubic feet. The whole quantity of this rubbish was burnt into 14,416 cart-loads of ashes. At the commencement of the year under report there were 1,220 cart-loads of ashes in store, while the year closed with 1,180 cart-loads in stock. Thus in the year under report 14,336 cart-loads of ashes were mixed with Night Soil in making manure. The ashes made at this place were transmitted to the Night Soil Depot at a cost of Rs. 1706-3-5.

82. *Latrines—New.*—There are, as mentioned above, in the Municipal limits public latrines at 78 different places with a provision of 377 seats. During the year under report Rs. 1,150-3-1 were spent on building new latrines, one was built at Bhoi ali, in Kasba at a cost of Rs. 340-12-7, and the other near “Gundacha Ganpati” in the same Peth, which cost Rs. 236-1-10. Rs. 355-4-8 were spent on an Iron latrine of 3 seats made at the Municipal Work-Shop and Rs. 218-0-0 on the shoot and bucket system latrines. Both these were put up near Khajina well and in Ganj Peth respectively.

83. *Latrines—Repairs to.*—The important item under this head is the pavement of latrines. With a view to prevent ablution-water soaking into the soil and to secure cleanliness in latrines, the Municipality has been for the last 4 years providing pavements to public latrines in the City. Accordingly in the year under report public latrines in Bhoi ali and near “Gundacha Ganapati” in Kasba, near “Khajina wihir” in Sadashiv were provided with pavements. The latrines near the Filter works, Swar gate, and Zagdyachi-wadi in Shukrawar, and those near “Khajina wihir,” Bhikardas Gate, and in Kunte’s lane, had their doors and sides painted and otherwise repaired. The pavements cost Rs. 670-8-3 and the painting Rs. 168-4-8, total Rs. 838-12-11.

84. *Urinals*.—There are in the City 71 urinals provided at different places, the total length of which was 2718 running feet. No new urinal was built during the year under report. The urinals existing near Deoji Bowa's Math, Apa Balwant's wada, and Aginpir, and those in Dhamdhere's, Mahajan and Fadke's wada lanes, and in the Reay market, Khan ali and Juna Kot, were improved with cut stone pavements, at a cost of Rs. 430-8-10. There was no need for a new urinal during the year under report.

85. The important roads in the City are watered once a day in the morning in the cold weather and twice in the hot. The watering commenced on the 1st of April 1894 and closed on 30th June 1894. It recommenced on 1st December 1894 and again closed on the 31st March 1895. In the year under report the road-watering was done on an average by 11 carts at a cost of Rs. 2,970-12-10. With a view to diminish the strain on the street water mains, from which water was previously drawn for the purpose, well water is used for road-watering more largely and pumps have been put up on some wells for supplying water for road-watering purposes.

86. The establishment of bullocks and drivers cost in the year under report Rs. 1547-15-4, as against 2,345-4-11 in 1893-94. 4 new carts were made at a cost of Rs. 496-7-3 and the old ones repaired for Rs. 550-12-5. A pump was purchased and put up by the side of the Bridge in Ganesh Peth for drawing water from the Nagzari stream for watering the roads at a cost of Rs. 279-6-8. The total cost on street-watering was Rs. 2,970-12-10 as against Rs. 4,122-11-0 spent in 1893-94. The decrease is due to road-watering establishment having cost Rs. 1,547-15-4 instead of Rs. 2,345-4-11 in the previous year.

87. *Hospitals and Dispensaries*.—There are 5 Municipal Dispensaries in 5 different parts of the City, *viz.*, 1 in Shanwar, 1 in Nana's, 1 in Kasba, 2 in Shukrawar Peths. In the first three Dispensaries there is an establishment of three Medical Officers, who are all retired 1st Class Hospital Assistants, 6 compounders, 3 nurses, and other Dispensary servants. The fourth Dispensary in Shukrawar was opened on the 19th of October 1893. It is purely a Native Dispensary where Native drugs only are used and Native treatment followed. It was under the management of Mr. Balshastri Lagvankar, one of the elected Municipal Commissioners till the end of the year under report. Since then, though he has ceased to be a Municipal Commissioner, the general management of the Dispensary has been entrusted to him. A native medical officer has been now in charge of the Dispensary.

88. The fifth Dispensary was opened on 1st of September 1894 solely for the treatment of females and children. It is located in a portion of the building known as Bhate's Dharmasalla in Shukrawar. It is placed under the management of Mrs. Stephens M. D. who is paid, for the present, Rs. 100 per mensem. An establishment consisting of one assistant on Rs. 27, one compounder on Rs. 12, one writer on Rs. 12, and one peon on Rs. 7 has been supplied to her.

89. Medical relief was afforded at these Dispensaries to 89,365 patients. The Shanwar Peth Dispensary treated 17,798 patients, the Kasba Peth 15,282, and the Nana's Peth 24,744. The "Deshi (Native) Dawakhana" gave relief to 28,358 patients. The Dispensary for females and children treated 3,183 patients. At each of these dispensaries the daily average attendance was 120.6, 80.9, 102.9, 304.0, and 50.0 respectively. The number of patients treated and the daily average attendance will show that the Municipal Dispensaries are very useful and popular institutions and are doing good work.

90. The Dispensary Establishment mentioned in para 87 with the exception of that at the "Deshi Dawakhana," and the female dispensary, cost Rs. 2,228-1-7 and the

House accommodation Rs. 213-15-4 in the year under report, as against Rs. 2,280-4-4 and Rs. 287 in the previous year. The cost of medicines was Rs. 2,812-11-4. The establishment and the maintenance of the Deshi Dawakhana and Dispensary for females and children cost Rs. 2,122-13-10 and 2,973-3-8 respectively. Thus the maintenance of the charitable dispensaries cost the Municipality Rs. 10,350-13-9 in 1894-95 as against Rs. 8,057-0-7 in 1893-94. The increase is due to the charges incurred for the maintenance of the Dispensary for females and children.

91. *Infirm Asylum*.—Provision has also been made by the Municipality for the Infirm. The Municipality makes a contribution of Rs. 1,200 a year towards the maintenance of the Infirm asylum, which is under the management of a Local Committee, with the Collector and District Magistrate of Poona as its President. The asylum feeds and houses the old, blind, and others requiring help. In the year under report the Municipality paid Rs. 1,300 as against Rs. 1,000 paid in 1893-94. The increase is due to a few instalments of the past year being paid in the year under report.

92. *Cholera*.—Cholera broke out in the year under report on the 28th of April 1894 and lasted till the end of August. There were 181 attacks, of which 111 proved fatal. In 1893-94 there were 226 attacks and 136 deaths. The figures of the past five years show that this disease has been on the decrease. In 1890-91, the attacks and deaths were 42 and 25 respectively and in 1891-92 they were 529 and 223, in 1892-93, 361 and 168, in 1893-94, 226 and 136, and in 1894-95, 181 and 111 respectively. In May, 1894 this disease was raging in many towns and villages of the Southern Maratha Country and principally in Satara, Wai and Saswad. During this month the majority of cases that occurred in the City were amongst visitors, who arrived here from affected places. Of the 18 Peths, Kasba suffered most 30 attacks and 20 deaths having occurred in that Peth, and the cause of this might be attributed to the damp houses where the deaths are reported to have occurred. Every precaution was taken to check its spread. Disinfectants were largely used and all affected and close places disinfected. In addition to the permanent staff of Hospital assistants and other medical servants, two special medical officers with the necessary establishment of assistants and servants were engaged for the treatment of the affected. Cholera sheds were erected on the Hadapsar Road, and on the Lakdipul Road for the treatment of affected pilgrims, who returned from Pandharpur and Alandi in the months of July and August 1894. In these sheds the affected persons were detained and they were not allowed to enter the City until they recovered. Thus the Municipality did every thing in its power to check the spread of the disease, to stamp it out as early as possible, and to give relief to those who were affected.

93. The medicines, disinfectants, and the temporary staff of medical men and others, engaged for the purpose mentioned above, cost the Municipality Rs. 1525-5-5. Thus it will be seen that on charitable dispensaries, the Infirm asylum, and cholera arrangements, the expenditure by the Municipality was in the year under report, Rs. 13,176-3-2, while it was in the previous year Rs. 10,468-13-1.

94. *Vaccination*.—The vaccination in the City is in charge of the Government Sanitary Department. The Sanitary Commissioner to the Government of Bombay appoints vaccinators and peons, who work under his orders, the Municipality only finding funds for the purpose. There are two vaccinators with two peons under them, who are supplied with calves, men, and other necessities by the Municipality. In the year under report 3,641 vaccine operations were performed as against 3,894 and 4,124 performed in 1893-94 and 1892-93. The Municipal expenditure under this head was Rs. 732-0-0 as against Rs. 717-4-8 in 1893-94 on account of the establishment, and Rs. 760-4-1 as

against Rs. 737-1-8 spent in 1893-94 on account of contingencies, including the purchase of calves for lymph, uniforms to servants &c. The slight increase is due to more money spent on contingent expenses such as purchase of calves &c.

95. *Markets and Slaughter-Houses.*—Markets :—There are two vegetable markets and six meat markets ; of these the Reay Market is the most important. It is looked after by a staff of one Inspector, two Karkuns, 4 Police Constables, two night watchmen, two mokadams, three peons, 2 lamp-lighters, 4 coolies, 2 sweepers, and one bhanghi. The annual cost of this establishment was in the year under report Rs. 2,071-1-4. The market administration was as usual under the direct supervision of a Sub-Committee consisting of Messrs. S. N. Nattu, who was Chairman, K. C. Dhole, N. V. Mawal, R. R. Agasti, D. D. Adhikari and Ramnarayan Amerchand.

96. The Reay Market Establishment cost Rs. 2,111-2-5 in the year under report as against Rs. 2,002-12-7 in the previous year. The amount includes the salaries of the establishments maintained for supervising (a) the old Mandai Bazar, where the dealers sell fuel, kadba, and dry fish and (b) squatters in Ganesh Peth who sell vegetables on the road-side gutters. In front of the Shanwar wada a bi-weekly Bazar is held on every Wednesday and Sunday evening, and it is supervised by a special Mocadam and the establishment at the Reay Market.

97. The meat markets in the City were repaired at a cost of Rs. 251-14-8. With a view to prevent persons committing nuisance round about the Reay Market building and also to improve its appearance on all sides small gardens are laid out in patches round about the stone-wall. A row of trees has been planted in line to the west and east of the building in front of the Burud and Warai Shops in the open compound. The grounds in the Market compound have been improved by being sanded in places. The Market building was painted and oiled from inside. The maintenance of the small gardens and the painting and other petty repairs cost Rs. 1,362-4-1. The Reay Market tower has been under construction since 1893-94, in which year Rs. 10,83-0-0 were spent on it and in the year under report Rs. 11,050 were spent on the said work. The tower has been raised to the third story which is covered by the roof. The work is being done by contract under the supervision of Rao Bahadur V. B. Kanitkar, who supervised the construction of the main building.

98. The Slaughter-houses attached to the meat markets are looked after by mokadams in charge of meat markets. They enforce the bye-laws and regulate the conduct of business at these places. The cost on establishment was Rs. 1,073-13-11. All sheep and goats are slaughtered in the slaughter-houses, and cows and bullocks are slaughtered in the Cantonment slaughter-house at Kondva. The Municipality has provided a cart drawn by two bullocks and a driver at a cost of Rs. 16-8-0 per month for bringing beef into the City.

99. *Pounds.*—There is one cattle-pound in the City and another at Bhamburda. and these pounds are respectively in charge of the Police and the Police Patil, who levy fees on impounded cattle and remit them into the Municipal Treasury. All bills of expenditure in connection with them are paid by the Municipality. There is an establishment of one Karkun, who is the Pound-keeper, and two Police Constables, who move about streets and lanes and catch stray cattle and impound them. The pound at Bhamburda is managed by the Police Patil of the place with the help of the Kulkarni. The total cost to the Municipality on account of the Pound was Rs. 419-13-8 as against Rs. 334-3-10 in 1893-94.

100. *Public Gardens.*—There is a Municipal garden in Budhwar Peth on the site of the old Budhwar Wada. The expenditure on this head was Rs. 289-12-5 in the year under report as against Rs. 288-11-11 in the previous year. During the year under report 150 new flower-pots with plants were purchased and put up at the garden, with a special “Mali” and the necessary number of begaris to look after it. It is the only public garden in the heart of the City, for the recreation of the people, by whom it is much appreciated.

101. *Road-side trees.*—New trees were planted in the course of the year under report along road-sides in Nana’s Peth. The trees planted in the previous year were maintained. The cost on this account was Rs. 292-0-10. In the year under report 79 small trees were planted in the places where those put up last year, had dried up.

102. *Registration of Births and Deaths.*—Information of births and deaths is collected by Road-sweepers, whose daily duties take them almost to every door, and who are thus in a far better position than any other public agency to collect correct information on the subject. They are paid for their labour, at the rate of $\frac{1}{2}$ and $\frac{1}{4}$ of an anna for every birth and death reported by them at the Municipal office. The Ward Mokadams and Inspectors check the information. The Police constables on duty in the City also collect information about these domestic occurrences, which helps to check the statistics collected by the Municipal agency. The sweepers make their reports to the Registrar of vital statistics, who keeps up the registers of births and deaths. In the year under report 3637 births and 3515 deaths were reported.

103. The expenditure under this head consists of the cost of establishment, which was Rs. 204, and rewards paid to sweepers, as mentioned above, amounted to Rs. 147-10-6. The total expenditure under this head was Rs. 351-10-6 as against Rs. 371-9-0 in 1893-94. The decrease is due to smaller number of births and deaths reported by the sweepers. There were in the year under report 3637 births and 3515 deaths as against 4370 births and 3160 deaths reported in the year preceding, giving a birth and death rate of 30.5 and 29.59 per thousand as against 36.78 and 26.60 respectively in the previous year. The increase in the death rate is due to an increase in the number of deaths from “fever and other causes.” Of the 3637 births, 2081 were, those of males and 1556 of females and of the 3515 deaths, 1806 were those of males and 1709 of females. Thus it would appear that males and females were born in the proportion of 100 to 74.7 and died in that of 100 to 94.6 respectively. 942 infants or children under 5 years and 779 old persons above 60 died in the year under report as against 1039 infants and 450 old persons in 1893-94. For further information regarding the causes and variations in the death and birth rates in the several Peths a reference may be made to the report of the Health officer. Appendix I.

104. *Public Works Establishment.*—The permanent establishment of the Public Works Department of the Municipality consists of the Engineer, on a salary of Rs. 150 with a horse allowance of Rs. 25 per mensem, an overseer, a draftsman, two sub-overseers, six time-keepers, one clerk and one karkan, one peon, and one office-watchman. The total cost of the establishment in the year under report was Rs. 4,400-1-8, as against 4,547-0-0 in 1893-94. The decrease is not much. In addition to the permanent establishment a temporary establishment of maistries and mokadams is engaged according to the exigencies of works in progress, and charged accordingly.

105. *Buildings.*—A retaining wall near mahar and mangs houses in Mangalwar Peth was built at a cost of Rs. 226-15-11.

106. *Repairs to Buildings.*—The parapet walls of bridges were repaired at a cost of Rs. 301-0-8, and Rs. 135-8-0 were spent in maintaining the cremation ghat in order.

107. *Road-Repairs.*—"Road repairs" is one of the most important works, that the Public Works Department of the Municipality has to do, and includes metalling and levelling some, and murruming other roads; it also includes patching of roads in places, removing of slush in the monsoon, and brick-bats from off the road surface. The total cost on road-repairs amounted to Rs. 28,267-10-4 in the year under report as against Rs. 27,081-9-3 in 1893-94, and Rs. 24,741-12-11 in 1892-93, showing an increase of Rs. 1,186-1-1. If the amount paid for compensation for lands acquired for widening roads, in the year under report be added to this expenditure, the roads would appear to have cost Rs. 47,865-9-8 as against Rs. 45,894-3-9, in the previous year and Rs. 36,539-11-1 in 1892-93. The increase is due to more set backs being ordered and more roads repaired in 1894-95.

108. *Metalling.*—There are in the City 30 miles of roads and 18 miles of lanes. It cannot therefore be expected that all the roads would be repaired even once a year. There are on the other hand some roads, which owing to the very heavy traffic on them would require to be repaired even twice a year. Some roads are therefore repaired once a year, while others are either taken up according to the urgency of repairs or the funds available for the purpose. All the important roads in Bhowani, Nana, Raste, Kasba, Rawiwar, Ganj, Shukrawar, Sadashiv, Shanwar, and Budhwar Peths and those at Bhamburda were repaired in some places entirely by metal and in others by murrum only, during the year under report. The total length of roads thus repaired in the year under report was 59,173 running feet, making an area of 11,83,442 square feet. 185,202 cubic feet of metal and 106,075 cubic feet of murrum were used and cost Rs. 8,102-9-9 and 2,436-6-2 respectively. The labour charges in connection with this work amounted to Rs. 10,727-14-2.

109. *Road Patching.*—As mentioned above minor roads could not be, for want of funds, regularly repaired; they were to be kept in order nevertheless. The only method to do so was therefore to patch them in places where necessary. All such roads were kept in good order by patches. This work was spread over the whole of the Municipal District. 623,450 square feet of road surface was patched at a cost of Rs. 4,049-14-7 during the year under report, as against 690,600 square feet thus repaired at a cost of Rs. 5,187-2-2 in the previous year.

110. Among works done to keep the roads in good order may be mentioned slush-removing. The principal thoroughfares get muddy on wet days. To make them passable mud is removed by begaris. Brick-bats, stones, and other materials are also thrown by house-owners on roads, lanes, open spaces, causing obstruction to traffic; they are removed by the Municipality, and the places kept clear of obstructions. The removal of slush and brick-bats and keeping the road in good order otherwise was done in the year under report at a cost of Rs. 1,363-10-9.

111. *Improvement of lanes.*—Besides the roads, which require repairs, patching, removal of slush, brick-bats and stones, there is a good length of lanes, which also demand attention and outlay. By constant use they become uneven, they also become muddy. The first step to improve them consists in levelling and sanding their surface. 231,763 square feet of lane surface was repaired with 27,120 cubic feet of sand, at a cost of Rs. 1,569-8-4.

112. Another and a very useful and important measure to improve roads is road-widening. As has been mentioned in previous reports the Municipality had appointed a

sub-Committee of two experienced engineers on the Board to determine beforehand houses and other properties along the City roads, which require to be set back. The Committee had submitted its report and plans to the General Body with houses and other properties recommended to be acquired marked therein. The General Body has adopted the plans and recommendations of the sub-Committee. Instructions have been given to the Managing Committee to give effect to the proposals of the Committee and to set back or forward houses as need be, while disposing of notices given under section 33 of the Municipal Act of 1873.

113. Accordingly the Managing Committee ordered set backs in 216 cases in the year under report as against 271 set backs ordered in the previous year. The area of private ground under buildings thus ordered to be added to roads was in the year under report 40,492 square feet. As in many of these it was not possible to settle compensation and pay it off before the end of the year, it is not possible to know now what the area actually added to roads and to be added would cost. The Municipal expenditure on road-widening in the year under report was Rs. 19,597-15-4, as against Rs. 13,205-7-11 in 1893-94. It includes besides the price of land acquired (*Vide* appendix Q) the cost of executing and registering sale deeds, and also the fees paid to Municipal arbitrators appointed under section 81 of the Municipal Act, 1873, to settle compensation.

114. *Widening of bridges.*—The Ganesh Peth bridge being very narrow and crooked was inconvenient for traffic. In 1893-94 the Municipality proposed to reconstruct it and make it wider. The work was commenced on the 5th of December 1893 and the work that was done till the end of March 1894, cost the Municipality Rs. 3,049-12-5. It was continued in the year under report and completed with an additional cost of Rs. 7,344-10-8. This work was done under the supervision of Rao Bahadur W. B. Kanitkar, to whom the thanks of the Commissioners are due for his experienced and skilful supervision.

115. The sign-boards within the Municipal limits put up in different places at squares, in streets, and at public cisterns, indicating the names of streets, and warning people not to commit nuisance at cisterns &c., require to be repainted. During the year under report this work was done at a cost of Rs. 83-4-6, which includes the cost of a few new sign-boards added to the existing number. Prickly-pear is one of the many items of improvement that has recently attracted the attention of Government. This Municipality has been taking steps for the removal of the overgrowth of prickly-pear. Notices were issued to House-owners asking them to cut down the growth to the required height and width. The prickly-pear on public ground is removed by the Municipality by their own agency. This year the cost of the removal was Rs. 239-1-5 as against Rs. 281-2-6 in 1893-94. The public and the private grounds, which had the prickly-pear cut or trimmed and removed therefrom during the year under report were 58,400 and 55,908 in square feet respectively.

116. *Stores.*—The expenditure under this head represents the cost price of tools and plant purchased for the engineering and other departments. The purchases amounted to Rs. 132-11-6 as against Rs. 398-6-2 in 1893-94. The articles purchased are entered in the dead Stock list.

117. *Public Instruction—Schools and Colleges.*—The Educational Department of the Municipality is administered by a School Board of 6 members, elected every year out of the 30 on the General Committee, assisted by a Secretary, who is also Secretary to the Municipality, and an office establishment of one clerk and one peon. In the year under report Messrs. S. S. Abdul Fattah Moulvi B. A., Waman Prabhakar Bhawe, Narayen Bapuji Kanitkar, Mahadeo Balal Namjoshi, Raghunath Daji Nagarkar, for a portion of the year,

who was succeeded on his resignation by Mr. K. C. Dhole, were members, with Dr. A. W. Thomson of the College of Science Poona, as Chairman of the Board.

118. The Municipality maintained, in the year under report, 18 day and 10 night schools for boys and 13 day schools for girls giving education to 1919 boys and 21 girls in the 18 day schools, 190 boys in the 10 night schools, and 807 girls and 22 boys in the 13 girls schools, and a Technical School attended by 55 boys and 3 girls. Thus the total number of pupils on the 31st of March 1895 was 3017, as against 2923 in 1893-94. To conduct these schools there was maintained a staff of 104 male and 18 female teachers, whose salaries with the pension fund due thereon amounted to Rs. 16,946-12-6; while in 1893-94 it was Rs. 16,604-6-3. The increase is due to the pay of 5 male and 3 female additional teachers engaged in the year under report. For details a reference may be made to the report of the School Board appendix J. The establishment of one clerk and one peon cost Rs. 468 on account of salaries, and the expenditure on contingencies amounted to Rs. 449-14-7.

119. Besides the expenditure on salaries of Masters and Mistresses with their pension fund, the Municipality had to pay as house-rent for School-houses, Rs. 2,988-2-11 during the year, prizes to teachers to the amount of Rs. 50. The cost of repairs to School-houses was Rs. 252-8-8, School-furniture Rs. 420-14-1, new books and maps Rs. 97-5-1, sweetmeats to girls Rs. 905-1-11, including sewing materials, prizes to boys Rs. 604-7-5, Gymnastic apparatus supplied to Schools Rs. 50-7-9, Repairs to books and maps Rs. 101-0-10. Thus the total of these items was Rs. 5,470-0-8.

120. In order to have school-houses of their own, the School Board try to build school-houses as funds permit. The plans and estimates for the Technical School and a shed attached to the said School have been finally approved of by the Chief Engineer C. D. and Government. The estimates amount to Rs. 16,584 and Rs. 6000 respectively. Government has promised a grant in aid of these buildings to the extent of Rs. 10,886 as per their Resolution No. 2223 dated the 25th October 1894 Educational Department. A site is being acquired under the Land Acquisition Act for Boys School No. 5 in Sadashive Peth, and the work will probably be taken up in hand in the current year on Government approving of plans and estimates, and promising a grant for the work. The work of the Technical School and the work shed has been commenced in the current year and will be completed before the next report is submitted.

121. Thus the total Municipal expenditure on primary education including salaries, contingencies, furniture, scholarships, prizes &c., amounted to Rs. 23,334-11-9 in the year under report as against Rs. 22,624-7-8 in 1893-94. The increase of Rs. 710-4-1 is due to the salary of additional teachers engaged, and more money spent on account of house rent and prizes, in the year under report.

122. The Municipal primary schools were examined by the Deputy Educational Inspector of the Poona Division and his Assistants. The Examination commenced on the 9th of July 1894 and lasted till the 31st of August 1894. 1362 and 87 boys from day and night schools, and 218 girls from girls schools, were presented for examination under the various standards; out of these 632 and 47 boys from boys day and night schools, and 146 girls from girls schools passed under all the heads of the several standards. Thus the day and night schools and the girls schools would appear to have passed 46.4, 54, and 66.9 per cent. respectively of the total presented for examination.

123. *The Municipal Technical School.*—This institution is now attended by 58 students of various castes—namely—16 Brahmins, 35 other Hindus, 2 Mohamedans, 2 Parsis, 1 Jew and 2 Christians; all the students in this school learn Drawing and in

addition one trade. Amongst the subjects taught in the School are carpentry, smithy, painting, turning, fitting and ordinary and machine drawing. The Drawing Class has an attendance of 55 boys, 2 girls, and 1 school mistress. The Technical School has been under the supervision of a Superintendent, Mr. K. K. Bhappu, a distinguished student of the Bombay Technical Institute, and the able guidance of Dr. Thomson, Chairman of the School Board.

124. The Technical School was examined by Dr. A. W. Thomson, as Professor of Engineering of the College of Science, on the 24th January last. The following will give information regarding the number of boys presented and passed in various trades.

No.	Subjects.	Students Presented.	Passed.
1.	Drawing ...	54	43
2.	Carpentry....	27	18
3.	Smithy	5	5
4.	Painting.....	8	8
5.	Turning	3	3
6.	Machine Drawing	8	8

The Technical School sent up 21 students for the 1st Grade and two for the 2nd Grade Art Examination, held in Poona in April last. Of the 21 students 12 got certificates as against 8 out of 23, in the previous year, and of the 2 candidates in the 2nd Grade, one got a certificate and the other, Maruti Piraji Jadhav, obtained a prize for Lineal prospective. Thus it would appear that the result of these examinations has been satisfactory as compared with that of the previous year.

125. While teaching different trades to the students, the School does a good deal of work for the Municipality and private gentlemen. New Night Soil carts, rubbish carts, dust-bins, chairs, boxes, tables, frames, and several other articles were made in the School; all repairs to carts, dust-bins, and other articles are also executed here. For work done at the Technical School for private persons the Municipality charges commission at 10 per cent. on the charges for labour. Such commission amounted to Rs. 145-7-9 in the year under report.

126. The total expenditure on this School amounted to Rs. 3,892-1-4 in the year under report as against Rs. 6,197-1-5 in 1893-94. The decrease is due to expenditure not incurred in 1894-95, on the purchase of machinery which was Rs. 3,000 in 1893-94. For further details *vide* appendix J.

127. *Grants-in-aid to private educational institutions.*—The Municipality, while maintaining the schools transferred to its charge by Government in 1884, and those subsequently opened by it, helps private educational institutions. In the year under report the Municipality made grants to the following institutions.

<i>Grants made for free Studentships.</i>			1893-94.	1894-95.
A.	The New English School.....		364-0-0	335-0-0
B.	The Poona High School		147-0-0	156-0-0
C.	The Ornela's School		30-0-0	33-0-0
D.	The City English School		37-0-0	36-0-0
E.	The Fergusson College		180-0-0	180-0-0
F.	The Nutan Marathi Vidyalaya		143-0-0	169-0-0
G.	The Native Institution		199-0-0	191-0-0

Grants made for Scholarships for boys of backward classes.

H.	The New English School.....		0-0-0	70-0-0
I.	The Native Institution		0-0-0	40-0-0
J.	The Poona High School		0-0-0	30-0-0
K.	The Orniella's School		0-0-0	10-0-0
L.	The City English School		0-0-0	10-0-0
M.	The Nutan Marathi Vidyalaya		0-0-0	40-0-0

Grants made in general aid of the Institutions.

N.	The Marathi Indigenons and Urdu Schools.	968-10-6	964-1-6
O.	The Veterinary School	200-0-0	0-0-0
P.	The Sanskrit Path Shalla ...	62-8-0	50-0-0
Q.	The Female High School ...	400-0-0	} 200-0-0
R.	The Primary Girl School ...	50-0-0	
		2,821- 2-6	2,514-1-6

128. The grants to the first seven institutions were made for free studentships, while those to the next 6 institutions were made for Scholarships for boys of backward classes, and those to the rest for general maintenance. The decrease in expenditure is due to the grant not being paid to the Veterinary School in the year under report.

Libraries and Museums.—In the year under report the Municipality made the following grants to the Libraries in the city.

The Native General Library.....	Rs. 200- 0-0
The Municipal Library	„ 196-10-8
The Hindustani Library.....	„ 50- 0-0
The Vetal Peth Library.....	„ 25- 0-0
The Rastias Peth Library.....	„ 50- 0-0
The Jews Reading Room	„ 25- 0-0
546-10-8	

129. *Contributions.*—Rs. 2,070 were paid to Government as contribution under the High Way Act.

130. *Other Charges.*—They include expenditure on account of the following items :

	1893-94	1894-95
1. Plates to carriages.....	69- 2-6	68- 0-7
2. Election	193- 1-0	1,361- 6-4
3. Numbering of houses	21- 4-5	0- 0-0
4. Law charges	1,162-11-2	799-12-7
5. Correcting City Survey Maps...	0- 0-0	577-14-8
1,446 -3-1		2,807-2-2

The very nature of the items, which are not of a permanent character, does not require any explanation regarding increase and decrease. The changes are due to the usual fluctuations in transactions.

131. *Advance.*—An advance of Rs. 2,455 was made to Heads of Departments for meeting charges of urgent character before formal sanction of the competent authorities is obtained.

132. *Deposits.*—The amount of deposits repaid in 1894-95 was Rs. 19,859-9-3 as against Rs. 10,732-0-11. The increase is due to larger amounts paid in the year under report.

133. Having given the details of expenditure and having explained the causes of increase and decrease under various heads, it would be interesting to see how the principal heads stand in comparison to each other and with the total.

Heads.	1893-94				1894-95.			
	Amount.			Percentage.	Amount.			Percentage.
A. General Administration and collection charges.....	35,115	3	3	10.98	37,148	1	0	10.71
B. Public Safety	22,352	4	0	6.99	28,272	7	5	8.15
C. Public Health and Convenience	2,14,912	9	6	67.25	2,23,899	13	9	64.56
D. Public Instruction	31,960	15	7	10.00	30,287	9	3	8.73
E. Contributions.....	2,070	0	0	.64	2,070	0	0	.60
F. Miscellaneous	1,446	3	1	.45	2,807	2	2	.81
G. Extraordinary and Debt.....	11,707	0	11	3.69	22,314	9	5	6.44
Total.....	3,19,564	4	4	100	3,46,799	11	0	100

VIII Balance.

134. The Municipal balances, on hand in the Municipal Office and in the Bank of Bombay on the 1st of April 1894 and 1895, were 81,715-15-1 and 56,346-9-6 respectively. As remarked in para 38 no part of this amount was held in deposit at interest, the Bombay Bank having refused to accept deposits at interest.

IX Dead Stock.

135. Appendix H. gives information regarding the Dead Stock at the end of the year under report.

X Audit of Accounts.

136. The Municipal accounts were audited by Mr. Ganesh Waman Fatak of the Superintending Engineer's Office, who having resigned his office as an auditor, from the 3rd of January 1895 was succeeded by Mr. Rajaram Chinnaji Gupte, a pensioned Accountant in the Public Works Department for the remaining period of the official year, and Mr. Moreshwar Sakhararam Chitnis, a Government Pensioner. No payment is made without a bill being framed for it, and signed and examined by the Municipal Accountant, the Secretary, the Municipal auditors, a member of the Managing Committee, and sanctioned by the Managing Committee, and countersigned by the Chairman of the latter. The report of the auditors, Appendix K., will show that the accounts were kept well.

137. The Annual and the Quarterly accounts were published in a Local newspaper, and in addition copies thereof were also distributed amongst rate-payers for their information.

XI Municipal Wants.

138. The wants of a Municipality, like those of a nation or a family, are necessarily many, and will always remain so. It can hardly be expected, therefore, that all of them should be referred to in such a report. It is the urgent wants only that require

special notice. A few urgent wants may be referred to here. The following will show what progress the Municipality has made till the close of the year in those matters.

139. *Water-supply.* With regard to the question of Filter Works the following account was given last year regarding the progress made towards the preparation of a project :—

“The Filter Works project was prepared by Rao Bahadur Gangadhar Anant Bhat M. A. L. C. E., and was approved of by Government. The sites selected by Mr. Bhat for the proposed work were notified under the Land Acquisition Act, and the Municipality was about to take possession of the sites with a view to the commencement of the work, when it received intimation of the appointment of a Sanitary Board, consisting of the Sanitary Commissioner for the Government of Bombay, and Mr. S. B. Doig, M. Inst. C.E. as Sanitary Engineer. It was then deemed expedient to refer Mr. Bhat's project to Mr. Doig for favour of his opinion. Having inspected the sites selected by Mr. Bhat for the purpose and having examined the project, Mr. Doig made his report. He was of opinion that the sites were not suitable, and that the project required some alterations. The Corporation then requested him to prepare a new project for Filter Works. He accordingly sketched out two alternative projects for the consideration of the Municipality. The Municipality adopted one of them ; according to the project adopted by the Municipality on the recommendation of Mr. Doig the whole of the water-supply of the City, *viz.*, 18 laks of gallons a day, is to be drawn from the Mutha Canal, and Rs. 13,000 are to be paid yearly to Government instead of Rs. 10,000 as at present. A representation was accordingly addressed to Government through the Collector of Poona early in the year under report (1893-94) requesting it to grant the concession, *viz.*, to give the City its whole daily supply of 18 laks of gallons for Rs. 13,000 a year. Early in the year under report Government informed the Municipality that, a proposal was made to the Government of India regarding water-supply to the City from the Khadakwasla Canal, and had asked for certain information on the same subject. The information asked for was supplied to the Collector of Poona, through whom the reference was made by Government, on the 15th September 1893.”

A reply was received in the year under report wherein Government propose the following terms for the acceptance of the Municipality.—

- (a) That Government will be prepared to increase the present Canal supply from $7\frac{1}{2}$ to 18 lakhs gallons, provided that the Municipality agree to use canal water only.
- (b) That the rate at present charged for the daily supply of $7\frac{1}{2}$ lakhs gallons be extended to the whole quantity subject to a minimum payment of Rs. 20,000 per annum, in lieu of the present annual minimum payment of Rs. 10,000.
- (c) That Government will not accept responsibility for any loss or injury in consequence of damage to works or machinery belonging to or connected with the Canal, or its supply reservoir, or for any causes (including scarcity of water) beyond their control.
- (d) That the agreement to be for 30 years.

The Municipality have appointed a sub-Committee to consider the desirability of otherwise of accepting the terms. The Committee has not yet submitted its report.

140. *Drainage.*—As mentioned in the last year's report the Drainage projects prepared by Colonel Ducat R. E. and Rao Bahadur Gangadhar Anant Bhat have been submitted to Government for their opinion regarding the suitability or otherwise of one or

eth other of them. The question was referred by Government to more than two special Committees for report on its several bearings such as the necessity or otherwise of a joint scheme for the City and the Cantonment of Poona, selection of a suitable site for a Sewage farm, sufficiency of the area of the site &c. Again on 18th July 1893 Government appointed another Committee consisting of several Medical, Sanitary, and Engineering Officers of Government, and a representative of this Municipality, who was the President himself. The said Committee has submitted its report and has selected a site about 6 miles from Poona for a Sewage farm. Government referred the report to this Municipality for an expression of opinion as to whether, in the event of the water carriage system in underground sewers being adopted, the site selected for a sewage farm would meet with the approval of the Municipality. The Municipal Commissioners have communicated their views on the subject to Government in the year under report. The Commissioners saw no objection on sanitary grounds to the site proposed by the Joint Committee. It was, however, objectionable on the ground of its great distance from the city, and the heavy, almost prohibitive, initiative and the maintenance charges.

141. An extra mural slaughter house is another of the important wants of the Municipality and in the course of the year under report the Municipality has made good progress in the matter. A site has been selected for the purpose, and the City Magistrate has been taking steps to acquire it and it is hoped that the acquisition will soon be completed and that the Municipality will be in a position to commence work before the current year has much advanced. The delay in the selection of a suitable site was due to the peculiar situation of the city, which was pointed out last year in the following words:—

“ This difficulty has been much enhanced by the peculiar situation of Poona. It has the Cantonment to the East, the Civil lines and other European residences to the North, the Canal, the Ash Depot, the N. S. Depot, and Rifle Ranges to the South, all of which do not admit of a slaughter-house being constructed in those directions; the undesirability of having a slaughter-house to the west of the city is quite apparent. ”

142. The want of a Municipal Office, spacious enough to accommodate all the principal and the branch offices of the Municipality, is felt more and more keenly every day. The house newly purchased by the Municipality abutting on the Reay Market Compound, and the Central Tower, that is under construction, will, when the latter is completed, largely minimise the inconvenience.

XII General Remarks.

143. The Municipality places on record its sense of appreciation of the work done by the Managing, the Market, the School, and other Special Committees, and of the manner in which the Municipal Officers discharged their duties.

Poona, }
August 1895.

DO RABJEE PUDUMJEE,

President,
City Municipality,
Poona.

LIST OF APPENDICES ACCOMPANYING THE ADMINISTRATION REPORT

OF THE

POONA CITY MUNICIPALITY.

FOR 1894-95.

General

- A. Statement showing the number of meetings of the General Committee.
- B. Statement showing the attendance of Municipal Commissioners at the meetings of the General Committee.
- C. Statement showing the number of meetings of the Managing Committee.
- D. Statement showing the attendance of the members of the Managing Committee.
- E. Statement showing imports, exports and net imports of the duty paid articles during the year 1894-95.
- F. Statement showing outstandings of assessed taxes on 31st March 1895.
- G. Statement showing the results of prosecutions for Municipal offences.
- H. Statement showing Municipal property as it stood on 1st April 1895.
- I. Report of the Health Officer on the working of the Department for the year 1894-95 with its appendices.
- J. Report of the School Board on the Administration of Municipal Schools &c.
- K. Report of the Auditors for the year 1894-95.

Subsidiary

- L. Statement of gross and net imports and exports.
- M. Statement showing Fires in the City of Poona during the year.
- N. Statement showing Street lamps in Poona City during the year 1894-95
- O. Statement showing the consumption of Canal water during the year 1894-95.
- P. Statement showing streets watered in Poona City in 1894-95.
- Q. Statement showing lands purchased in 1894-95 for municipal purposes.
- R. Report of the Municipal triennial Elections held in 1894-95.
- S. Statement showing lands sold by the Municipality in 1894-95.

POONA CITY MUNICIPALITY.

Appendix (I)

Report of the Health Officer on the working of the Department for the year 1894-95.

From

Dr. SORAB C. HORMUSJEE

M. D., D. P. H., L. R. C. P. (Lond.); M. R. C. S.,

Health Officer City Municipality Poona

To

B. B. PRADHAN Esq.,

Ag. Secretary,

City Municipality Poona.

SIR,

I have the honour to submit the Annual Report of the Health Department of the Poona City Municipality for the year 1894-95.

Births :—The total number of births registered during the year under review was 3637, being 733 less than the number recorded in the previous year. The birth-rate is equal to 30.5 per 1000 of population. Of the 3637 births, 2031 were those of males, and 1556 of females giving a proportion of 100 males to 74.7 females. Taking the number of births by Peths, the largest number was recorded from Kusba and Gunj Peths, and the lowest from Nyahal Peth. The largest number of births was recorded in the months of April, January, and November, and the lowest in the months of February, March, and September. Appendix. A.

Deaths :—The total number of deaths registered during the year under review, was 3515 giving a death-rate of 29.59 per 1000 of population. There were 355 deaths more than in the previous year. The total enhanced mortality was chiefly due to an increase in the number of deaths from "Fevers" and "Other Causes." But as compared with the previous year there was a marked diminution in the mortality from Cholera, Small-pox, and Measles as will be seen from the following table:—

Years.	Cholera	Measles.	Small-pox.
1893	136	78	114
1894	111	15	27

The greatest number of deaths took place in the month of August, and the lowest in the month of March. Appendix B.

Mortality according to sex :—Of the total number of persons who died,

viz. 3515, 1806 were males, and 1709 females, giving a proportion of 100 males to 94.6 females.

Mortality according to Peths:—From Gunj Peth the largest number of deaths was recorded, viz. 489, and the lowest from Nyahal Peth. The largest death-rate of 47.70 was recorded from Ghorpade Peth, and the lowest of 22.12 from Shanwar Peth.

Mortality according to Age:—Of the 3515 persons that died, 942 were children under 5 years of age. In other words the Infant mortality was 26.7 per cent. In the previous year 1039 children died under 5 years of age out of a total of 3160 deaths. As compared with the previous two years, there was a great diminution in the Infant mortality as the following table will show.

Years.	Total number of deaths	Deaths among Infants.
1892	3316	1249
1893	3160	1039
1894	3515	942

The senile mortality on the other hand shows a remarkable increase during the year under review, as compared with the previous two years.

Years.	Total number of deaths.	Deaths above the age of 60 years
1892	3316	468
1893	3160	450
1894	3515	779

Between the ages of one and 15, the male mortality is greater than the female, but between the ages of 15 and 20, and 20 and 30, more females die than males :—

From 1 to 15 years.		From 15 to 30 years.	
Males	Females	Males	Females
482	450	247	303

*Mortality according to classes:—*The number of deaths amongst the different races in the city was as follows:—

Hindus (High Caste)	494
Hindus (other caste)	2587
Mahomedans	370
Jains	42
Christians	6
Parsees	2
Other castes	14
Total	3515

*Cholera:—*111 deaths were recorded from this disease out of a total of 181 attacks. The figures for the previous year were 226 attacks and 136 deaths. The following table shows the number of attacks and deaths from this disease during the last five years:—

Years.	Attacks.	Deaths.
1890-91	42	25
1891-92	529	223
1892-93	361	168
1893-94	226	136
1894-95	181	111

Thus it will be seen that from the years 1891-92 there has been a marked decrease in the number of attacks and deaths from this disease. Appendix C.

During the year under report, Cholera commenced on the 28th April and lasted till the end of August. During the month of May this disease was raging in most of the Southern Mahratta towns and villages—notably in Satara, Wai, and Saswad. During this month the majority of cases that occurred in our city, were amongst outsiders, i. e. those that were recent arrivals from the above mentioned affected places. Thus in this month there were in all 42 attacks and 29 deaths. Out of these there were 25 attacks and 16 deaths amongst outsiders.

In the month of June this disease abated a little, but again in July and August it increased.

There were in all 181 cases, and of that number 111 proved fatal! The following statement shows the Peths affected, with the attacks and deaths, and the relation they bear to the number of damp houses in each of the Peths:—

No.	Peths.	Attacks.	Deaths.	No. of damp houses.
1.	Kasba	30	20	20
2.	Shukrawar	25	18	19
3.	Sadashiva	21	8	21
4.	Nana's	19	8	18
5.	Ravivar	17	12	15
6.	Shanwar	12	10	12
7.	Ganj	12	6	12
8.	Budhwar	11	7	7
9.	Bhowani	6	3	5
10.	Vetal... ..	5	3	3
11.	Nayhal	5	2	5
12.	Somwar	4	4	4
13.	Narayan	4	2	4
14.	Raste... ..	2	2	2
15.	Ghorpade	2	2	2
16.	Bhamburda	2	1	2
17.	Mangalwar	2	1	2
18.	Ganesh	1	1	1
19.	Mushafarjang	1	1	1

From the above statement it will be seen that Kasba Peth suffered most, 30 attacks and 20 deaths having occurred in that portion of the city. It will also be seen that almost all the cases occurred in those houses which had damp floors, thus indicating some relation between this disease and the water-logged condition of our soil.

The following statement gives the mortality of this disease by castes, from which it will be seen that of the total number, 20 were Brahmins, 80 Hindus of other caste, 10 Mahomedans, and one Jew:—

No.	Peths.	Deaths by Castes.				Total
		Brahmins.	Hindus other Caste.	Mahomedans.	Jews.	
1.	Kasba.	6	14	0	0	20
2.	Shukrawar.	2	16	0	0	18
3.	Sadashiva.	4	4	0	0	8
4.	Nana's.	0	7	1	0	8
5.	Ravivar.	0	6	6	0	12
6.	Shanwar.	2	8	0	0	10
7.	Ganj.	2	4	0	0	6
8.	Budhwar.	3	4	0	0	7
9.	Bhowani.	0	3	0	0	3
10.	Vetal.	0	3	0	0	3
11.	Nyahal.	0	2	0	0	2
12.	Somwar.	0	4	0	0	4
13.	Narayan.	0	2	0	0	2
14.	Raste	1	0	0	1	2
15.	Ghorpade.	0	0	2	0	2
16.	Bhamburda.	0	1	0	0	1
17.	Mangalwar.	0	1	0	0	1
18.	Ganesh.	0	0	0	0	1
19.	Mushafargunj.	0	0	1	0	1
		20	80	10	1	111

The short statement given below shows the deaths by age-periods, from which it will be seen that the majority of the fatal cases were adults of 20 years of age and upwards :—

Age-period.								Number of Deaths.				
Under 1 year	...	...	...	...	...	...	...	...	...	...	...	...
1 and under 5 years	...	...	...	...	...	...	...	...	...	...	...	1

30 ... 40	...	...	...	...	...	...	...	...	...	...	...	20
40 ... 50	...	...	...	...	...	...	...	...	...	...	...	18
50 ... 60	...	...	...	...	...	...	...	...	...	...	...	10
60 and upwards	...	...	...	...	...	...	...	...	...	...	...	4
Total								111				

As usual, all due measures were taken for checking the progress of the disease and for giving relief to those that suffered from it. Disinfectants were liberally used. All affected houses and localities were fumigated with Sulphur and Dammar. Two Hospital Assistants with the necessary staff of assistants & servants were engaged for the treatment of the sick. Cholera sheds were erected, as usual, on the Hadapsar Road and on the Lakdipool Road for the treatment of affected pilgrims, who returned from Pandharpur, and Alandi in the months of July and August. Thus all that could be done was done, to minimize and check the progress of this disease.

Small-pox:—There were 27 deaths from this disease, as against 114 in the previous year. Of the 27 persons that died, 20 were males and 7 females.

Measles:—The mortality from this disease was 63 less than in the previous year. There were only 15 deaths recorded from this disease.

Fevers:—There was an increase of 153 deaths from these diseases as compared with last year. 1787 deaths were ascribed to "Fevers" or 50·8 per cent. of the total number of deaths. The following statement shows the deaths from "Fevers" for the last 5 years:—

Years	Deaths from "Fevers"	Total number of deaths
1890-91	1180	2134
1891-12	1716	3157
1892-93	1704	3316
1893-94	1634	3160
1894-95	1787	3515

Bowel complaints:—Under this heading 145 deaths were recorded being 3 more than in the previous year.

Accidents:—43 deaths were attributed to “accidents” including cases of suicide, being one more than the number recorded in the previous year.

Other Causes:—1382 deaths were put down under this head, of which 681 were of males, and 701 of females. In the previous year there were 1019 deaths from other causes.

Inspectors & Mokadums:—The number of Ward Inspectors was reduced from 9 to 6. The number of Mokadums was the same as in the previous year.

Bhungees:—The number of these is 304.

Bhungy-bhisties:—There are 19 Pakhali bhisties and 13 bullock carts for removing the sullage of the undrained portion of the city.

Urinals:—There are 71 urinals in the different parts of the city.

Privies:—There are 7898 privies in use in the different Peths of the city. During the year under review 295 notices were issued for the repair or alteration of private privies.

Public Latrines:—There are 78 public latrines with 377 seats in use.

Night soil carts:—There are 80 of these, of which between 60 and 65 are in daily use.

Night soil:—The total quantity of night soil removed from the city during the year under review, was 11712 Tons 15 cwts. or 32.09 Tons per day.

Manure works:—The total number of heaps of manure produced during the year was 912 and the sales by auction realized Rs. 31220-8-0 as against 43009 Rs. in the previous year.

Road-Sweepers:—The number of these was 171.

Dust-bins:—There are 350 dust-bins.

Rubbish carts:—There are 40 carts for removing kutchra.

Rubbish:—The total quantity of kutchra removed by the Contractor to the kutchra Depot and handed over to the Municipality was 9725 barasses.

Slaughter Yards:—There are six of these in the city. It is proposed to do away with these, and one central extra-mural slaughter-house is to be constructed this year.

Vaccination:—3641 children were vaccinated during the year under review, as against 3965 in the previous year.

*Prosecutions:—*During the year under review 3036 prosecutions took place under the Municipal Act. The result of these prosecutions was, that in 357 cases the accused were fined, 172 were acquitted, and 2312 were compromised.

I have the honour to be,

Sir,

Your most obedient servant,

SORAB C. HORMUSJEE,

Health Officer,

P. M. C.

V23156, 61r

APPENDIX J.
TO
THE ADMINISTRATION REPORT
OF
THE POONA CITY MUNICIPALITY.
FOR
1894-95.

THE ADMINISTRATION REPORT OF THE SCHOOL BOARD.

FROM

DR. A. W. THOMSON,

Chairman School Board,

POONA.

TO

THE HONORABLE KHAN BAHADUR

SARDAR DORABJEE PUDUMJEE,

President,

Poona City Municipality.

School Board Office,

July 1895.

SIR,

I have the honor to submit the following report on the administration of the Municipal schools for the year 1894-95.

School Board for the year 1894-95 consisted of

1. Myself ;
2. Syed Sirajudin Abdul
Fattah Moulvi Esquire B. A. ;
3. V. P. Bhave Esquire;
4. N. B. Kanitkar Esquire ;
5. M. B. Namjoshi Esquire ;
6. R. D. Nagarkar Esquire ; and
7. K. C. Dhole Esquire.

I was, as you know, Chairman of the Board in the year under report. Mr. R. D. Nagarkar resigned his office, and in his place Mr. K. C. Dhole was elected a Member of the School Board in June 1894.

3. There were 16 meetings of the School Board in the year under report, as against 15 in 1893-94. The following statement will show the attendance of the Members of the Board:—

No.	Name.	Number of meetings attended.
1	Dr. A. W. Thomson	16
2	Syed Sirajudin Abdul Fattah Moulvi, Esquire B. A. ...	12
3	V. P. Bhawe Esquire	16
4	N. B. Kanitkar Esquire	7
5	M. B. Namjoshi Esquire	5
6	R. D. Nagarkar Esquire	2
7	K. C. Dhole Esquire	12

With the exception of Messrs. Namjoshi and Kanitkar, who on account of other engagements could not attend more frequently, all the other Members attended at least three-fourths of the number of meetings. It is gratifying to note that Mr. Bhawe attended all meetings.

4. At these meetings 329 cases were disposed of, as against 239 in the previous year. Besides these, 16 cases were circulated for written votes amongst the Members of the Board as against 63 so circulated in 1893-94. Besides this work the Members of the Board had to inspect the schools in their charge. I paid to schools in my charge 16 visits, and many to the Technical School; Mr. Syed Sirajudin paid 14, Mr. Bhawe 54, and Mr. Dhole 12, Messrs. Namjoshi and Kanitkar could not visit the schools in their charge. Mr. Bhawe would appear to have visited almost all the schools, for which the Board is thankful to him.

5. The number of schools including the Technical school, was, during the year under report 42 as against 39 in the last year. In the year under report three new schools were opened. A boys' school was much needed in Mominpura for the Mahomedans, a girls' school has also been opened for the same community and in the same locality. One more night school was opened in the same locality and for the same community. There are now 14 Boys' day schools, 9 Night schools and 10 Girls' schools teaching Marathi Standards, 1 Guzerathi School, 7 Hindustani schools, three for boys and three for girls and one Night school teaching Urdu Standards. The Technical school teaches different trades such as carpentry, smithy, turning &c. Out of the above schools six are entirely free, two being for the use of the children of Mahars and Mangs and four for the Mahomedans and the other backward classes.

6. The number of pupils receiving education at the 41 institutions has increased from 2849 to 2959 in the year, and that in the Technical school on account of building operations has fallen a little. The increase consists of 35 pupils in the boys' schools and 75 in the girls' schools.

7. The following table shows the pupils by castes:—

Castes	Boys' schools		Night schools		Girls' schools		Total.	
	31st March 1895	31st March 1894	31st March 1895	31st March 1894	31st March 1895	31st March 1894	31st March 1895	31st March 1894
Brahmins	826	841	1	2	379	304	1206	1147
Other Hindus	786	797	140	140	319	357	1245	1294
Mahars and Mangs	52	61	26	29	0	0	78	90
Mahomedans	269	208	23	2	131	91	423	301
Jews	6	11	0	0	0	0	6	11
Christians	1	4	0	0	0	2	1	6
Total	1940	1922	190	173	829	754	2959	2849

It is satisfactory to note that there is an increase in the number of Mahomedans. A slight decrease is observable in the number of other Hindus attending boys' and girls' schools; but the number of pupils in the Night schools also shows an increase.

8. The following table gives the professions of parents and guardians of boys and girls attending the Municipal primary schools on the 31st March 1895:—

No.	Occupation	Boys' schools	Night-schools	Girls' schools	Total
1	Inamdars	27	0	16	43
2	Government servants	333	1	222	556
3	Private servants	292	36	137	465
4	Merchants	435	17	148	600
5	Agriculturists	119	11	5	135
6	Labourers	233	57	15	435
7	Other occupations	501	68	156	725
	Total	1940	190	829	2959

It is gratifying to note that the number of the classes other than the Inamdars, Government servants, and agriculturists has been greatly increased as compared with that of last year. The labouring classes would appear to have availed themselves of the educational institutions.

The private servants, merchants, labourers, and other occupations would seem to have sent their boys and girls to school more largely than any other classes. The number of agriculturists appears indeed to be very small, as compared with the others, but it has to be remembered that in a city like Poona there are not many who are returned as pure agriculturists. The number of other occupations shows an increase in the day and night schools.

9. The students attending the Municipal schools may be classified according to their ages as follows:—

Schools.	5 to 8 years.	8 to 12 years.	12 to 15 years.	Above 15 years.	Total.
Boys' schools	461	965	416	98	1940
Night schools	...	19	74	97	190
Girls' schools	445	358	25	1	829
Total.....	906	1342	515	196	2959

It will be observed that there are 358 girls who are above 8 and below 12, and 25 above 12 years; any one who knows the habits and manners of the Hindus well will be glad to find that there are as many as 25 girls above 12 years attending the schools.

10. The civil condition of the pupils is as follows:—

Schools.	Married.	Unmarried.	Total.
Boys' schools	132	1808	1940
Night-schools	75	115 "	190
Girls' schools	37	792	829
Total.....	244	2715	2959

These figures will be found to be satisfactory both as regards boys and girls. They show that only seven per cent. of the boys and four per cent. of the girls are married, and that girls do continue to attend schools even after they are married. Out of 1940, 1808 boys are unmarried and out of 829, 37 married girls continue to receive their education.

11. The average number on the roll and the daily attendance are as follows:—

Schools	Average number on roll				Average daily attendance			
	1894-95	1893-94	Increase	Decrease	1894-95	1893-94	Increase	Decrease
Boys' Day-Schools	1969	1842	127	0	1563	1599	0	36
Boys' Night-Schools	202	174	28	0	102	90	12	0
Girls' Day-Schools	805	758	47	0	511	463	48	0
Total	2976	2774	202	0	2176	2152	60	36

The number of boys and girls has on the whole increased by 202. The average daily attendance in the girls' and night-schools has increased with the number on roll.

12. There were on the 31st of March 1895, 122 teachers as against 114 in the previous year in the primary schools; of these 104 were males and 18 females. The establishment was distributed as follows:—

Schools.	Head Masters		Head Mistresses		Male Assistants		Female Assistants		Total		Total number of trained and untrained teachers
	Trained	Untrained	Trained	Untrained	Trained	Untrained	Trained	Untrained	Trained	Untrained	
Boys' schools ...	12	6	0	0	18	43	0	0	30	49	79
Night-schools...	5	5	0	0	0	0	0	0	5	5	10
Girls' schools...	0	2	9	2	1	12	0	7	10	23	33
Total.....	17	13	9	2	19	55	0	7	45	77	122
Total of trained and untrained teachers.	30		11		74		7		122		122

For details regarding the distribution of students among trained and untrained teachers vide Appendix A.

As regards their qualifications it may be noted that out of a total of 30 Head Masters and 11 Head Mistresses, 26 are trained and 15 untrained, and out of 74 male and 7 female assistants 19 are trained and 62 untrained. Out of these 15 and 62 untrained Head Masters and assistants, only 2 and 32 have passed the Public Service examination and the remaining 13 and 30 are without any educational test but they are all of them persons of a very long standing in the Department. The Board has now made it a

point to engage trained men in the Municipal schools as far as possible and as a matter of fact some 6 new trained teachers have been engaged in the year.

13. The Municipal Schools were examined by the Deputy Educational Inspector and his Assistants. In the year under report the schools were examined by Rao Saheb Vinayak Krishna Gore and his Assistants Messrs. N. M. Sathe, R. A. Gaffoor Lalla, and N. S. Mahajan. The examination commenced on 9th July and finished on 31st August 1894.

14. 1362 pupils from Boys Day schools, 87 from Night schools, and 218, from Girls schools were presented for examination, out of whom 632, 47 and 146 respectively passed in all the subjects.

The following table shows the result of the examination that took place in 1894 as compared with that of the previous year.

Standards	1894-95									1893-94								
	Presented.			Passed.			Percentage.			Presented			Passed.			Percentage.		
	Boys schools	Night schools	Girls schools	Boys schools	Night schools	Girls schools	Boys schools	Night schools	Girls schools	Boys schools	Night schools	Girls schools	Boys schools	Night schools	Girls schools	Boys schools	Night schools	Girls schools
VI	15	0	4	8	0	2	53.3	0	50	25	0	3	7	0	0	28	0	0
V	142	0	1	80	0	1	53.6	0	100	126	0	3	58	0	0	46	0	0
IV	174	2	10	117	0	7	42.7	0	70	247	0	17	76	0	8	30.7	0	47
III	358	15	39	135	7	23	37.7	46.6	58.9	351	15	26	128	3	14	36.4	20	53.8
II	308	30	68	127	13	39	41.2	43.3	57.3	332	25	68	109	11	33	32.8	44	48.5
I	258	40	96	165	27	74	63.9	57.5	77	272	39	112	172	26	61	63.2	66.6	54.4
Total..	1362	87	218	632	47	146	46.4	54	66.9	1353	79	229	550	40	116	40.6	50.6	50.9

Vide also Appendix B.

15. 2553 pupils including infants or 86 per cent of the total number of students on the roll were presented for examination, of these 1667 were presented under the several standards; and 825 *i. e.* 49.4 of those presented, passed under all the heads. It will thus appear that the boys schools passed on the whole 46.4 per cent, and the girls 66.9 per cent of those sent up for the examination. The night Schools would also appear to have passed 54 per cent. The Schools did on the whole much better in the year under report than in the previous year. The percentages shown in the table speak well of the efficiency of the Municipal schools and reflect credit on the teaching staff.

16. Out of 10 boys sent up for the 3rd Grade Public Service Examina-

tion 6 and 4 were from boys schools Nos 1 and 2 respectively. Of these 3 from boys school No 1 and 1 from boys school No 2 passed. School No. 1 would thus appear to have passed 50 per cent of those sent up to the examination.

17 With regard to the Jubilee Technical School I beg to state that there were on the roll 53 students on the 31st of March 1895; of these 55 were males and 3 females, who received their lessons in drawing, carpentry, smithy, painting, turning, machine drawing, and primary education. The attendance in these classes was as below:—

No.	Class.	No. of students on 31st March 1895.	No. of students on 31st March 1894.
1	Drawing	58	74
2	Carpentry	30	44
3	Smithy	5	7
4	Sign painting	14	15
5	Turning	4	5
6	Machine drawing	9	3
7	Primary education	15	23

Out of 53 there were 16 Brahmins, 35 other Hindus, 2 Mahomedans, 2 Parsis, 1 Jew, and 2 Christians.

The average number on the roll and the average daily attendance during the year under report were 51 and 36 as against 61 and 39 respectively in 1893-94.

The Technical School was opened in December 1889. There were about 10 boys on the roll on the 31st March 1890; the number rose to 36 in March 1891, to 57 in March 1892, to 58 in March 1893, to 74 in March 1894, and now in March 1895 it was 58. The falling off in numbers is due to the fact that building operations in connection with the new school were going on, and no efforts were made to get pupils for the classes. The school has shown decidedly healthy growth. It would be necessary to mention here that the Drawing class is attended by all pupils, and in addition the other classes according to their liking.

18. Separate teachers are provided for these technical classes. There is a Superintendent of the Technical School on a salary of Rs 55 rising to Rs 75 p. m. The present incumbent Mr. Kwasji Kharshetji Bhappu is a graduate of the Bombay Technical School. There is one Drawing Master who has passed the 3rd Grade Examination of the School of Art, Bombay, on a salary of Rs 50 p. m. Besides these one carpenter, one smith, one painter, and one teacher for the primary class are engaged by the Board in the school. The Drawing class is attended by all boys and girls, while the other classes are as mentioned above attended by boys according to their

taste. Only such boys attend the primary class as had received no education elsewhere. Scholarships and wages were given to pupils in the year under report in order to encourage deserving boys to receive professional education.

19. The Technical school was examined by me in my capacity as Professor of Engineering of the Poona College of Science on the 24 of January 1895, and the following table will give the result of the examination:—

Subjects	1894-95		1893-94	
	Presented	Passed	Presented	Passed
Drawing	54	43	66	28
Carpentry	27	18	42	36
Smithy	5	5	6	6
Sign Panting	8	8	12	5
Turning	3	3	2	2
Machine Drawing	8	8	1	0

The primary class was examined by the Assistant Deputy Educational Inspector, Poona, on the 7th November 1894. Out of 10 boys presented, 4 passed in the examination.

I am glad to mention here that the examination results were very satisfactory. For further details regarding this examination reference may be made to the Inspection Report made by me to the Director of Public Instruction, copy of which was supplied to the Municipality (vide Appendix C and also Appendix D of this report.)

20. The First and the Second Grade Art Examination was held in April 1895 in the Poona High School under the supervision of the Head Master of the School. Questions were drawn up and answers examined by the Superintendent of the Arts School at Bombay. The Technical schoolsent up 21 students for the First Grade and 2 for the Second Grade Art Examination as against 23 and 4 in the previous year. Of the 21 students sent up, 12 got certificates as against 8 in the previous year.

The following students were awarded certificates of the First Grade:—

1 R. G. Agashe. 2 K. N. Deodhar. 3 G. B. Gate. 4 L. L. Gujar.
5 S. N. Kuwar. 6 S. N. Kale. 7 S. Y. Mane. 8 G. B. Pardeshi.
9 S. V. Palivale. 10 A. G. Parvate. 11 S. B. Phatak. 12 P. W. Vaidya.

Of the 2 students sent up for the Second Grade Mrs. Chandrabai Sinda, Head Mistress of Girls School No. 2, got the certificate. One Maruti Piraji Jadhav, who failed in one subject, obtained a prize in the Second Grade in Linear Perspective. The results would thus appear encouraging.

21. There are Drawing Classes attached to 8 boys' and 7 girls'

schools. They are attended by 219 boys and 75 girls as against 202 and 77 in the last year. They are taught drawing by the Drawing Master, 2 male Assistants and 2 School Mistresses. These Classes serve the purpose of creating a taste for drawing in boys and girls when they are young.

22. The Educational Inspector C. D. at the request of the School Board kindly arranged to examine these students in drawing on the 4th of August 1894 in the Poona High School by the Drawing Master of the School with a view to test their progress. Out of 30 pupils, of whom 10 were girls, presented for this examination, 40 passed the examination out of these 21 passed with credit. Four drawings were marked "excellent" and six "good." On the whole the results are satisfactory and are creditable to the Drawing master.

23. The following table will give information regarding the Funds at the disposal of the School Board in 1894-95.

No.	Item.	Actuals 1894-95			Actuals 1893-94			Increase			Decrease		
		Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.

	(b) to the schools opened by the Municipality	0	0	0	942	0	0	0	0	0	942	0	0
	(c) to the Technical school	751	0	0	698	9	2	52	6	10	0	0	0
3	Grant-in-aid for Machinery	0	0	0	15	0	0	0	0	0	15	0	0
4	Grant-in-aid to school building	0	0	0	2289	13	2	0	0	0	2289	13	2
5	Income from land attached to free school	326	8	6	149	8	0	177	0	6	0	0	0
6	$\frac{1}{8}$ share of the Local Fund cess on land within Municipal limits	189	8	0	225	4	0	0	0	0	35	1	0
7	Technical school fees, commission &c.	193	10	9	126	13	8	66	13	1	0	0	0
8	Ground rent in Nana's Peth school... ..	0	2	0	0	2	0	0	0	0	0	0	0
9	Donations												
	(a) For the Jubilee Fund	75	0	0	0	0	0	75	0	0	0	0	0
	(b) For prizes to Municipal schools	47	0	0	0	0	0	47	0	0	0	0	0
	(c) For prize to the Technical school	3	0	0	0	0	0	3	0	0	0	0	0
	(d) For the play ground	20	0	0	0	0	0	20	0	0	0	0	0
	(e) In the way of Interest on Promisory notes of Mr. Dhole for awarding prizes	24	0	0	0	0	0	24	0	0	0	0	0
10	Miscellaneous... ..	1	3	9	0	0	0	1	3	9	0	0	0
11	Municipal grant	45002	3	0	39297	1	0	5705	2	0	0	0	0
	Total Rs.	55565	0	0	55743	0	0	6224	9	2	6402	9	2

24. The increase in the school fees was due to the paying students having increased in number. The increase would have been still greater but the rates of school fees for Mahomedan children in all Municipal schools have been reduced to $\frac{1}{2}$ of the present rates with the permission of the Director of Public Instruction for giving encouragement to the boys of that community.

25. Grants.—

The grant-in-aid received from Government for primary schools during the year under report amounted to Rs. 4905. The grant-in-aid originally fixed by Government was with respect to the 16 contract schools and was Rs. 3654. It was increased by them from the 1st of April 1893 to Rs. 6540 for 38 schools including contract schools and schools opened by the Municipality since the 1st of December 1884, when the schools were transferred to the Municipality, by Government. Out of this fixed grant of Rs. 6540, Rupees 1635 were due for the quarter of the year under report but were not paid before the 1st April 1895. This amount has been lately received by the Municipality.

26. Grant-in-aid for Machinery.

No new machinery having been purchased in the year under report no grant was claimed and received—which will explain the decrease. The schools not included in the original contract having now been included in the contract there was no separate grant under that head.

27. Grant-in-aid to School buildings.

No new school house having been built in the year under report no grant was claimed—which will explain the decrease under this head. Government have been pleased to sanction building grants for the erection of the Technical School and the work-shed attached to it. The works are in progress. When they are completed, the sanctioned grants will be claimed.

28. Revenue from Land.—

Survey No. 7 of the Poona city has been on the 1st of December 1884 transferred to the Municipality by Government and the revenue derived from it is utilized in supporting the free school in Nana's Peth. The increase in the revenue for the School land is due to the tenant having paid the arrears due for the previous years. Steps are being taken to recover all the arrears.

29. The decrease in other items is slight and need not be noticed.

30. Donations.—

The income under this head was Rs. 169. Rs. 47 were received from Mrs. Kirkham for prizes to girls; Rs. 75 from Sardar B. R. Natu, in aid of the Jubilee Technical School; Rs. 24 represent the interest from Mr. K O Dhole's donation of Rs. 300, Rs. 20 were paid by Rao Babadur N. J. Kirtane for purchase of articles required at the play ground attached to Boys'

School No. 1, and Rs. 3 were awarded by the Agri-Horticultural Society for flower pots exhibited by the Municipality. Mrs. A. W. Thomson was kind enough to present three nice terrestrial globes, one for the use of the Bhamburda day school and two for the girls schools Nos. 2 and 4 for which the Board is very thankful to her.

31. The funds at the disposal of the Board, were made up as under :—

A.—Budget for 1893-94.....	Rs. 55,743	
B.—Actual expenditure in 1893-94	„ 31,994	
C.—Balance to the credit of the Board on the 1st of April 1894.....	„ 23,749	
D.—Deduct deficit in the estimated income for 1893-94:—		
(a) Estimated income for 1893-94 ...Rs. 25,830		} „ 9,350
(b) Actual income in 1893-94..... „ 16,480		
Total.....Rs. 9,350		
E.—Net Balance to the credit of the Board on 1st of April 1894	„ 14,399	
F.—Estimated income for 1894-95	„ 24,267	
G.—Municipal grant „	„ 16,899	
H.—Estimated expenditure for 1894-95.....	„ 55,565	

32. The expenditure on schools and other educational institutions in 1894-95 was as below :—

Total Rs...		55,565	0	0	55,743	0	0	4021	5	6	4199	5

33. The expenditure on salaries to Masters and Mistresses and the pension fund would appear to have increased by Rs. 342-6-3. The increase is due to promotions being given to 12 teachers since 1st March 1894, the total amount of promotions amounting to Rs. 14 p. m.; four trained teachers having each 12 Rs. certificate were engaged by the Board on Rs. 11 each p. m., by abolishing 4 places of Rs. 7 each; 4 extra teachers were, at the request of the School Masters and Mistresses, engaged in Boys schools Nos. 6 and 10 and Girls schools Nos. 10 and 11 each; three new Urdu Schools for Mahomedan children were opened in the year under report for which the Board had to maintain an establishment of 4 extra teachers at a cost of Rs. 35 p. m. It will be found that the Board did much by way of improving the efficiency of teachers and supplying a sufficient number of masters and mistresses.

34. House rent.—

The increase in the house rent was due to additional house accommodations being procured for boys schools Nos. 2, 5 and 13, and girls schools Nos. 8 and 9. The total monthly expenditure has increased by Rs. 25-8-0 p. m. In connection with the subject of house rent it gives me much pleasure to refer here to the gift of Rao Bahadur Hari Raoji Chiplonkar who was pleased to place at the disposal of the Board a strong, spacious and splendid building for a school house to be named after his deceased father-in-law "Bholagir Buwa." The offer was accepted with thanks by the General Committee. School No. 4 was removed to the new building in the month of October last and the Board took that opportunity to personally thank the Rao Bahadur for his liberal gift. The Board trusts that the example of the Rao Bahadur would be followed by the other wealthy gentlemen of the town.

35. Technical School.

The increase in this item is due to the appointment of a Superintendent for the Technical School on a salary of Rs. 55 p. m. and to the purchase of some pulleys and belts for the School.

36. The increases and decreases in other items are very slight and need not be dwelt upon here. The decrease in some items such as gymnasia, furniture &c. does not require much explanation, it being due to ordinary necessities of work. The Government having represented the desirability of the Municipality helping the Veterinary School at Poona, a grant of Rs. 240 was paid in 1893-94. A similar grant has been promised for the next three years.

37. Prizes &c.

A general prize distribution ceremony was performed in the Reay Market in December last under the presidency of Mr. G. Jacob, District Judge Poona, who distributed prizes to the successful students of Municipal Schools in the presence of a large gathering of ladies and gentlemen from the City and the Cantonment. As usual, flowers, attar, pan, &c. were distributed and the ceremony passed off without any hitch. The President made a few complimentary remarks regarding the good work done by the Municipality. The Board is thankful to Mr. Jacob for having consented to preside on the occasion.

The Board acknowledges with thanks the gifts of books made by Messrs N. B. Kanitker, and R. G. Sapkar to be awarded as prizes to students. The same gentlemen were kind enough to make similar gifts the previous years also.

38. Scholarships to boys and girls.

With a view to infuse a spirit of healthy competition between the different schools under the Board, a general Competitive examination of selected boys and girls from the Municipal and aided schools was held, and scholarships were awarded to boys and girls according to the results of the examination. The examination was conducted by Messrs. V. S. Deshmukh, B. A. Assistant Master in the Poona High School, W. P. Paranjpe, the formerly Principal of the Training College in the Berars, B. W. Joglekar and N. D. Joshi of the Poona Training College. On behalf of the School Board I beg to offer to those gentlemen the best thanks of the Board for their trouble. Of the 13 scholarships competed for by the Boys Schools, Mr. Gharpure's School gained 5, Gogte's three, and Messrs Suktankar's, Tilak's, Govitriker's, Walimbe's and Mr. M. R. Kelkar's schools one each.

Of the six scholarships open for competition to girls schools, Mrs. Champabai Thakur's school got three, Mrs. Mathurabai Joshi's, Mrs. Anusayabai Gate's and Mrs. Radhabai Wagh's Schools got one each. The examination serves the purpose of testing the comparative efficiency of the different schools and creates a zeal for work both in the students and the teachers.

39. With a view to encourage the teachers to attain proficiency in the art of teaching and to be always progressive the Board gives prizes to teachers according to the result of a competitive examination where the teaching capacities of teachers are tested. There were 21 candidates for this examination under all the standards and in all the subjects. At the request of the Board Rao Bahadurs N. B. Dandekar, and S. B. Jathar, and Rao Sahebs K. N. Sane, and N. B. Godbole kindly conducted the examination. The candidates were asked to teach a subject in the presence of the Examiners. Mr. V. G. Kale, Assistant Master in boys school No. 7, satisfied the examiners in teaching Mathematics, and Mr. L. A. Patil, Assistant Master in boys school No. 8 in Modi writing, and Mr. S. A. Atre, Head Master of boys school No. 14, in teaching an infant class. They all got prizes of Rs. 10 each. Mrs Champabai Thakur, Head Mistress of girls school No. 1 and Mrs. Anusayabai Gate of girls school No. 4 taught an infant class and Modi writing respectively, and secured a prize of Rs. 10 each. The Board is very thankful to the gentlemen who conducted the examination—which must have caused them much inconvenience.

40. School houses.

The Board proposes to build this year a good Technical School at a cost of Rs. 16584 and also a work-shed for the school at a cost of Rs. 6000. The plans and estimates have been approved by the Chief Engineer C. D. Government has been pleased to sanction a grant of Rs. 10886 for these two buildings in their Re. No. 2223 of 25 October 1894, Educational Department. The work has been commenced in this year. The work of the shed has been more than half finished,

The Board also proposes to build a schoolhouse for boys school No. 5 in Sadashiv Peth at a cost of Rs. 12000. A necessary plot of ground has been acquired by the City Magistrate of Poona under the Land Acquisition Act at a cost of Rs. 4010-10-0. The owner of the land has not however accepted the price as yet. On the acquisition being completed and a grant sanctioned by Government the Board will take steps to commence the work.

An estimate for constructing an iron railing round the Bhamburda School house has been approved by Government and a grant of Rs. 149 has been promised. The work will be finished soon.

41. The table given in para 31 will show that in addition to the maintenance of the Municipal schools, which already cost a good deal to the Municipality, the latter extends its support also to private institutions such as indigenous schools conducted in Marathi and Urdu. A grant of Rs. 964-1-6 was made for the purpose. The Female High School, the Sanskrit Pathshala and others received grants from the Municipality. With a view to help deserving boys of poor families in the prosecution of their studies the Municipality maintains free studentships in the Institutions mentioned in the table given above. A sum of Rs. 200 was distributed among the same institutions for awarding scholarships to pupils of backward classes with a view to give encouragement to them in the prosecution of their studies. The distribution was as shown below.

New English School.....	Rs. 70
Native Institution	„ 40
High School	„ 30
Ornella's School	„ 10
City English School.....	„ 10
Nutan Marathi Vidyalaya	„ 40
Total.....	„ 200

37 Registered indigenous Marathi Schools which were attended by 3011 pupils were given grants by the Municipality, amounting to Rs. 540-1-6 in aid of furniture, house rent &c. and 4 Urdu Schools attended by 143 boys and 49 girls were given grants amounting to Rs. 424 for general efficiency.

42. It would be interesting to know what the Municipal expenditure on education amounted to in 1885-86 when the schools were transferred to the Municipality and how it went on increasing upto the end of the year 1894-95. The following table will give the necessary information.

Year.	Primary			Others			Total		
	Rs.	a.	p.	Rs.	a.	p.	Rs.	a.	p.
1885-86	13,293	0	9	3209	10	0	16,502	10	9
1886-87	14,248	2	0	3034	2	8	17,282	4	8
1887-88	14,962	0	3	3363	1	4	18,325	1	7
1888-89	16,890	0	0	4334	0	0	21,224	0	0
1889-90	18,657	12	11	4114	15	0	22,772	11	11
1890-91	20,895	2	11	6230	11	3	27,125	14	2
1891-92	22,188	4	5	4530	9	8	26,728	14	1
1892-93	24,743	5	1	12,961	4	10	37,404	9	11
1893-94	23,212	0	5	7907	0	11	31,119	1	4
1894-95	23,895	3	9	5,474	10	11	29,369	14	8

It will be seen from the foregoing that the Municipality has made ample provision for education in the Municipal District, and that it bears a respectable proportion to the total income and expenditure of the Municipality.

43. General Remarks.

As usual the annual conference of School Masters was held on the 21st January 1895 and that of School Mistresses on the 28th January 1895. Such conferences afford an opportunity to the teachers and the Board to meet once a year and to personally discuss educational and other questions in connection with the administration of Municipal schools.

44. Mr. Wamanrao Paranjpe some time Principal of the Training College, Berars, and an Honorary Deputy Educational Inspector of Municipal schools, Poona, paid in the year under report no less than 177 visits to all the Municipal schools. The Board tenders its thanks to Mr. Paranjpe for the zeal and the energy with which he has been performing his honorary duties. Thirty visits to schools were paid by members on school committees and 27 by other gentlemen. From this you will see what interest these gentlemen take in the education of their children. Mr. V. P. Bhawe, a very

useful and experienced member of the School Board ceased to be a member of the Municipality from the 1st of April 1895; and the Board appointed him an additional Honorary Deputy Educational Inspector of Municipal Schools Poona.

45. I take this opportunity to acknowledge with gratitude the kindly and sympathetic co-operation and help I had the pleasure to receive in the course of this and the previous years at the hands of my colleagues on the Board, all of whom discharged the duties of their Honorary Offices with interest and care. The Secretary to the Board discharged his duties satisfactorily as before. The School Board clerk, Mr. Mokashi, continued to do his duty with intelligence and zeal.

I have the honor to be,

Sir,

Your most obedient servant,

ARTHUR W. THOMSON D. Sc.,

Chairman School Board,

Municipality Poona.

POONA CITY MUNICIPALITY.

Appendix K. to the Administration Report for the year 1894-95.

From

THE MUNICIPAL AUDITORS,

POONA.

To

The Honorable, Sirdar

KHAN BAHADUR DORABJI PADAMJI

President, City Municipality,

Poona.

Poona Municipal Office,

28th April 1895.

SIR,

We have the honor to report that the municipal accounts of Receipts and Expenditure for the year 1894-95 submitted to us from month to month during the said year, were duly audited and found to be correct.

2. During the year under report, the accounts of the 1st three quarters were audited by Messrs. G. W. Phatak and M. S. Chitnis and the former having resigned his appointment on the 3rd of January 1895, Mr. R. C. Gupte was appointed in February 1895 in his place.

3. The revenue realized during 1894-95, Rs. 441702-12-3 plus the balance in hand at the beginning of the year Rs. 81715-15-1, amounted to Rs. 523418-11-4. The expenditure during the year under report amounted to Rs. 467072-1-10 leaving a balance of Rs. 56346-9-6 on the 1st of April 1895.

4. The revenues from the Octroi, the Trade Registration fees, and the income from the markets have nearly approximated the estimated amounts of the Budget. The receipts from the Bhangi cess, water rate, and house tax, are rather below the estimate. There is a marked decrease in the receipts from the sale of Poudrette during the year.

5. Under the pre-audit system, all the bills prepared by the Accountant according to the standard form are submitted to us for examination with the vouchers. All bills found to be incorrect and inadmissible are returned to the Secretary with the statement of objections endorsed on them. The Secretary issues orders to the Accountant to correct the inaccuracies and give explanations to the objections raised. When the Auditors are satisfied that the bills are correct in every respect, they are finally passed by them. They are subsequently sent to a member of the Managing Committee specially appointed by them for their scrutiny. All the bills are finally sanctioned

by the Managing Committee after they are thus examined by the Accountant the Auditors and the member in charge of the bills and payments, are made to parties thereafter. By this system the chances of the inaccuracies are avoided though it entails extra labor on the Auditors.

6. We examined the following Registers kept according to Audit rule 35.

- 1 Service Register of Municipal Establishment.
- 2 Register of Securities taken from members of the establishment
- 3 Leave Register.
- 4 Register of Lands purchased by the Municipality.
- 5 —Do— Lands sold by the Municipality.
- 6 "Farist" of the Records.

With the exception of Register No. 2 all the Registers were found to be complete.

With regard to Register No. 2 "Register of Securities" we beg to state that securities have not been taken from the Superintendent of Municipal Revenues, his Assistants, and some Karkuns in the Octroi and Collection Department. These persons have to deal with money transactions and under Rule 20 of the Municipal Rules their securities are necessary.

Entries regarding the solvency and life certificates of some of the sureties have not been made in the Register.

7. We beg to suggest that

- (1) The budget of receipts and disbursements be prepared and got sanctioned, if possible, before the 1st of April each year.
- (2) Outstanding balances due to and from private persons for whom work has been done in the Municipal work shop be adjusted as early as convenient.

8. In conclusion we have much pleasure to acknowledge with thanks the assistance rendered to us by the Secretary, Mr. M. K. Kumthekar, and by the Acting Accountant Mr. Kashinath Ramachandra Modak.

We have the honor to be,

Sir,

Your most obedient servants,

M. S. CHITNIS,

R. C. GUPTE,

Auditors.

Poona Municipal Office
1st June 1895

M. K. Kumthekar,
Secretary.

POONA CITY MUNICIPALITY.

APPENDIX—R TO THE ADMINISTRATION REPORT FOR 1894-95.

No. 4373 of 1895.

From

THE PRESIDENT,

City Municipality

Poona.

To

THE COLLECTOR,

Poona District.

Poona Municipal Office,

13th March 1895.

Sir,

I have the honor to report that the triennial Municipal Ward elections and General elections took place on the 2nd and 9th of March 1895 respectively as notified by you.

2. Appendix A to this letter gives the names with stations in life of the Candidates who polled the highest number of votes at the ward and general elections and who were therefore declared to be duly elected Municipal Commissioners under rule 23 of the Election Rules on 5th and 11th of March 1895.

3. I have the honor to request that you will under Rule 27 kindly cause the result to be notified in the Bombay Government Gazette.

4. Of the 20 elected Municipal Commissioners 10 are by caste Brahmins, 3 Gujrathies, 2 Marwadis, 2 Marathas, 1 Shimpi, 1 Pardeshi Kumbhar and 1 Mudliar and by profession 4 are Merchants, 3 Government Servants, 3 Medical Practitioners, 3 Land Lords and money lenders, 3 money lenders, 2 Sirdars and Land Lords, and 2 Pleaders (of whom one is pleader and journalist). Of these 20, thirteen are new Commissioners.

5. Appendices B. and C. show the names of persons who had come forth as Candidates for the Ward and General elections.

6. A reference to Appendices D. and E. will show that of the total number of voters which was 7382 and 1339 for Ward and General elections respectively 3034 and 902 voters gave their votes. Thus in the General elections more than 67 per cent of the voters availed themselves of the elective franchise and in the ward elections at ward No. VI (Kasba) more than 62 per cent of votes were polled, and at wards Nos. I Narayen, IV Budhwar, VIII Raviwar, X and XI Shukrawar, and XVI Somwar the votes polled were more than 50 per cent. If allowance be made for a number of voters who were absent from Poona and who were prevented by unavoidable causes from giving their votes it would appear that the privilege was this year much more largely availed of and appreciated than before.

I have the honor to be,

Sir,

Your most obedient servant.

DORABJEE PUDUMJEE,

President

City Municipality Poona.
