Sir Harris Nicolas has produced the first comprehensive History of the British Orders of Knighthood; and it is one of the most elaborately prepared and splendidly printed works that ever issued from the press. The Author appears to us to have neglected no sources of information, and to have exhausted them, as far as regards the general scope and purpose of the inquiry. The Graphical Illustrations are such as become a work of this character upon such a subject; and, of course, a lavish cost. The resources of the recently revived art of wood-engraving have been combined with the new art of printing in colours, so as to produce a rich effect, almost rivalling that of the monastic illuminations. Such a book is sure of a place in every great library. It contains matter calculated to interest extensive classes of readers, and we hope by our specimen to excite their curiosity. — *Quarterly Review*.
