PREFACE

THIS work has, by permission, been based upon the records of the Government of India, but is no way whatever to be regarded as having any official authority. It professes to give no more than an outline of the policy pursued on Indian Railways, and the Author has designedly abstained from criticism, and from the assertion of his own views. It is hoped that it may be of interest, if not of some use, to those connected with Indian Railways, and perhaps to a wider circle of readers.

H. B.

CALCUTTA,
January 1894.
