LIST OF TABLES	7
LIST OF DIAGRAMS	9
CHAPTER	
I. THE MOUNTING COST OF EDUCATION	13
The increasing number of school children	13
The increasing cost of education	17
Trends of attendance and cost	19
An analysis of expenditure	21
Summary	23
II. INDEX NUMBERS FOR TEACHERS' SALARIES	25
The method of the index number	26
The Aldrich Report	29
Four index numbers for teachers' salaries	30
Trends of the four index numbers	35
Percentage increases 1841 to 1920	40
Trends in the past five years	43
Summary	44
III. TEACHERS' SALARIES AND THE COST OF LIVING	46
Price changes 1841 to 1919	46
Changes in standards of living	47
A cost of living index number	50
Food as a basis	51
The trend of the index number	54
Teachers' salaries and the cost of living	56
The situation reversed, 1915 to 1920	57
Wage and cost trends for women teachers	59
Summary	63
IV. SALARIES OF TEACHERS AND OF OTHER WORKERS	65
Wages and the cost of living	65
Wage index numbers for 80 years	67
Wages of other workers	71
Country teachers and unskilled laborers	72
City teachers and artisans	76

CHAPTER	PAGE
Per cent increases in salaries and wages	79
The trend since 1915	81
The wage value of the teacher's salary	81
The artisan's wage a working standard	85
Summary	86
V. THE TREND OF BUILDING COSTS	88
An index number for building costs	90
Increases 1913 to 1920	94
Actual costs in Cleveland	97
An index of cost changes	99
Summary	105
VI. DOUBLING THE SCHOOL BUDGET	107
Salary levels	107
New buildings	110
Other expenditures	112
A summary estimate	114
Will prices and wages fall?	115
Summary	117
VII. SOURCES OF INCOME	119
The general property tax	120
School costs outstrip property values	121
Keeping down the tax rate	126
An increasing share for schools	128
Sources of increased revenues	130
Summary	134
APPENDIX I.—Method of determining trend lines	136
INDEX	141

LIST OF TABLES

TABLE	PAGE
1. Average daily attendance and annual expenditure in public schools of the United States. 1870 to 1918	15
2. Average weekly salaries of teachers. 1841 to 1920	32
3. Teachers' salaries from 1915 to 1920, in per cents of figures for 1915	43
4. Costs in cents of certain necessities	47
5. Weekly wages of laborers, artisans, and teachers	49
6. Index numbers for wholesale commodity prices and retail food prices—two wars	50
7. Cost of living per week from 1841 to 1920 for a small family using the same amounts of the same commodities over the entire period	54
8. Weekly wages of laborers and artisans. 1841 to 1920	71
9. Wages in the building trades, 1913 to 1920, in 10 cities, in per cents of figures for 1913	95
10. Cost in cents per cubic foot of school buildings constructed in Cleveland. 1913 to 1919	98
11. Cost per cubic foot of school buildings constructed in Cleveland, 1913 to 1919, in per cents of figures for 1913	100
12. Cost in cents per cubic foot of general construction of elementary school buildings in New York City according to lowest bids received each month in 1919 and 1920, and per cent these costs were of 1913 figures	101
13. Cost per unit class room of a 16-room elementary school in Boston. 1916 and December, 1919	103

TABLE	PAGE
14. School expenditures in the United States other than salaries and outlays. 1918	113
15. School costs in 1920 for each \$1,000 spent in 1915	115
16. Per cent of school revenue derived from different sources	119
17. Assessed value of property and current expenses of schools per inhabitant in 40 cities. 1880 to 1918	123

LIST OF DIAGRAMS

DIAGRAM	PAGE
1. Average daily attendance at public schools in the United States. 1870 to 1918	16
2. Annual expenditures for public education in the United States. 1870 to 1918	18
3. Trends of average daily attendance and expenditures, 1870 to 1918, in per cents of figures for 1870	20
4. Per cents different items were of total school expenditures in the United States in the year 1917-18	22
5. Weekly salaries of women teachers in rural schools. 1841 to 1920	26
6. Weekly salaries of men and women teachers in rural schools. 1841 to 1920	36
7. Weekly salaries of men and women teachers in city schools. 1841 to 1920	37
8. Trends of weekly salaries of men and women teachers in rural and city schools. 1841 to 1920	39
9. Trends of teachers' salaries in per cents of the figures for 1841	41
10. Cost of living per week from 1841 to 1920 for a small family using the same amounts of the same commodities over the entire period	55
11. Trends of teachers' salaries compared with the trend of the cost of living, in per cents of the figures for 1841	57
12. Teachers' salaries and the cost of living each year from 1915 to 1920 in per cents of the figures for 1915	58
13. Average weekly salaries of women teachers in rural and city schools compared with the cost of living. 1841 to 1920	59
14. Per cent the average salary of women teachers was of the cost of living each year from 1841 to 1920	61
15. Weekly wages of laborers and artisans. 1841 to 1920	69

16. Weekly salaries of men and women teachers in rural schools compared with weekly wages of laborers. 1841 to 1920	74
17. Trends of salaries of men and women teachers in rural schools compared with trend of wages of laborers. 1841 to 1915	75
18. Weekly salaries of men and women teachers in city schools compared with weekly wages of artisans. 1841 to 1920	77
19. Trends of salaries of men and women teachers in city schools compared with trend of artisans' wages. 1841 to 1915	78
20. Trends of salaries of teachers compared with the trends of wages of laborers and artisans. 1841 to 1915	80
21. Salaries of teachers and wages of laborers and artisans each year from 1915 to 1920 in per cents of the figures for 1915	81
22. Per cent the average salary of women teachers was of the wages of laborers each year. 1841 to 1920	83
23. Per cent the average salary of women teachers was of the wages of artisans each year. 1841 to 1920	84
24. Per cent of school expenditures in the United States devoted to sites, buildings, and equipment at five year intervals. 1890 to 1918	89
25. Relative prices of lumber and building materials from 1841 to 1920, in per cents of the figures for 1860	91
26. Trends of artisans' wages, the cost of building materials, and estimated cost of building, in per cents of the figures for 1841	93
27. The cost of building materials, the wages of artisans and laborers, and the estimated cost of building each year from 1913 to 1920, in per cents of the figures for 1913	96
28. Cost per cubic foot of different elements of buildings constructed in Cleveland from 1913 to 1919	99
29. Outlays for schools for each inhabitant in cities of more than 30,000 population. 1915 to 1918	111
30. Sources of net revenue receipts of 146 cities in 1918	120

DIAGRAM

PAGE

31. Assessed value of property and school current expenditures for each inhabitant in 40 cities from 1880 to 1918 in per cents of 1880 levels	125
32. School costs for each \$1,000 of assessed value of property in 40 cities. 1880 to 1918	126
33. Methods of meeting advancing municipal costs in 40 cities	127
34. Departmental expenses of cities of more than 30,000 population in 1918	129
