

**Explanatory note to statements showing general progress of co-operative societies in the several provinces during the year 1915-16.**

The statements below, both abstract and general, have been recast since last year on lines recommended by the Committee on Co-operation with a view to greater simplicity and clearness. The abstract tables indicate some of the leading features of progress in the co-operative movement during the past year, and show the numbers of societies and members, and the working capital both for the whole of India and by Provinces. In comparing the figures for the year 1915-16 with the figures for previous years in Abstract Statements II and III the following points should be borne in mind :—

- (i) that in the case of Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies ;
- (ii) that the figure for the number of members of agricultural societies given in Abstract Statement II no longer includes the number of members of Insurance Societies as these are not given in Statement E ;
- (iii) that the figures for working capital given in Abstract Statement III no longer include the working capital of Unions, Insurance and Re-insurance Societies as these are not furnished in Statements D, E and F respectively ;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Abstract Statement III from the head "loans and deposits held at the end of the year from members" to the head "loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided ; and
- (v) that the figure given for the year 1915-16 against the head "loans and deposits held at the end of the year from individual non-members" includes all loans and deposits held by Central and Provincial Banks from individuals, as the Provincial returns do not indicate how much of these has been received from individual members.

The general statements give a detailed record of the main statistics relating to co-operative societies in the several provinces in India during the year 1915-16. The figures are taken from the advance tabular statements forwarded by the Registrars of Co-operative Societies for the last year and relate to societies of a co-operative nature in all the British provinces except Delhi, the North-West Frontier Province and Baluchistan, where the movement has as yet made little progress. Figures for the Native States of Mysore and Baroda have been included.

*Statement A* exhibits the operations of Central Banks and shows figures separately for Provincial Banks and for Central Banks including District Banks, Banking Unions and all other societies constituted with the object of lending to individual societies and tapping deposits from a larger area than that of the primary agricultural or non-agricultural society. The figures for Unions other than Banking Unions have been excluded from this statement and are shown in a separate Statement D. The total number of Banks has risen during the year from 234 to 244, with a membership and working capital of 47,776 and Rs. 400 lakhs as against 44,814 and Rs. 343 lakhs respectively last year. The net profit resulting from the operations of these Banks has increased to Rs. 7,09,650.

*Statements B and C* show the operations of the agricultural and non-agricultural primary societies in the same form. It will be observed that the number of such societies has increased during the year from 15,954 agricultural and 921 non-agricultural to 17,729 agricultural (excluding insurance and re-insurance

societies) and 1,019 non-agricultural societies respectively. The total membership and working capital at the close of the year were as follows :—

	No. of members.	Capital. Rs.
Agricultural .. .. .	7,16,858	516 lakhs
Non-agricultural .. .. .	1,48,195	116 „
Total .. .. .	8,65,053	632 „

The following are the profits resulting from the operations of these societies :—

	Rs.
Agricultural societies .. .. .	19,88,401
Non-agricultural societies .. .. .	5,18,346
Total .. .. .	25,06,747

*Statement D* shows the operations of Unions which either supervise only or both supervise and guarantee. Unions which do banking business are classed as Central Banks and are included in *Statement A*.

*Statement E* shows the operations of insurance societies. These societies at present exist in Bengal, United Provinces, Burma and Coorg only, and the only form of insurance in which they deal is cattle insurance.

*Statement F* exhibits statistics pertaining to central re-insurance societies, that is to say, societies which, in return for a definite share of the insurance premia of the affiliated societies, undertake a definite share of their risks. The only society of this type at present exists in Burma.

## ABSTRACT.

# Progress of the Co-operative Movement in India. 1907-17.

## The Co-operative Statistics 1916-17

for each separate area are shown thus:—

Additions during the year are shown in black thus: . . . . .

NOTE—It will be seen that capital is increasing slightly faster than membership, being now nearly Rs. 117 per member.

The proportion of small agricultural societies has so increased that the average membership is now less than 46, & the capital only Rs. 5309 per society
