

**Explanatory note to statements showing general progress of co-operative societies
in the several Provinces during the year 1916-17.**

The statements below, both abstract and general, have been compiled on the lines recommended by the Committee on Co-operation. The abstract tables indicate some of the leading features of progress in the co-operative movement during the past year, and show the numbers of societies and members, and the working capital both for the whole of India and by Provinces. These abstracts are illustrated by diagrams in the Frontispiece and also in the Population Map at the end of the tables. In comparing the figures for the year 1916-17 with the figures for years prior to 1915-16 in Abstract Statements II and III the following points should be borne in mind :—

- (i) that in the case of Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies;
- (ii) that the figure for the number of members of agricultural societies given in Abstract Statement II no longer includes the number of members of Cattle Insurance Societies as these are not given in Statement E;
- (iii) that the figures for working capital given in Abstract Statement III no longer include the working capital of Unions, Cattle Insurance and Re-insurance Societies as these are not furnished in Statements D, E and F respectively;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Abstract Statement III from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided; and
- (v) that with effect from the same year the figure given against the head "Loans and deposits held at the end of the year from individual non-members" includes all loans and deposits held by Central and Provincial Banks from individuals, as the Provincial returns do not indicate how much of these has been received from individual members.

The general statements give a detailed record of the main statistics relating to co-operative societies in the several provinces in India during the year 1916-17. The figures are taken from the advance tabular statements forwarded by the Registrars of Co-operative Societies for the last year and relate to societies of a co-operative nature in all the British Provinces except Delhi, the North-West Frontier Province and Baluchistan, where the movement has as yet made little progress. Figures for the Native States of Mysore and Baroda have been included.

Statement A exhibits the operations of Central Banks and shows figures separately for Provincial Banks and for Central Banks including District Banks, Banking Unions and all other societies constituted with the object of lending to individual societies and tapping deposits from a larger area than that of the primary agricultural or non-agricultural society. The figures for Unions other than Banking Unions have been excluded from this statement and are shown in a separate Statement D. The total number of Banks has risen during the year from 244 to 262, with a membership and working capital of 76,195 and Rs. 450 lakhs as against 47,776 and Rs. 400 lakhs respectively last year. The net profit resulting from the operations of these Banks has increased to Rs. 8,68,705.

Statements B and C show the operations of the agricultural and non-agricultural primary societies in the same form. It will be observed that the number of such societies has increased during the year from 17,723 agricultural and 1,019 non-agricultural to 20,725 agricultural (excluding insurance and re-insurance

societies) and 1,209 non-agricultural societies respectively. The total membership and working capital at the close of the year were as follows :—

	No. of members.	Capital. Rs.
Agricultural	7,84,252	596 lakhs.
Non-agricultural	1,76,708	147 „
Total	9,60,960	743 „

The following are the profits resulting from the operations of these societies :—

	Rs.
Agricultural societies	17,75,815
Non-agricultural societies	6,56,379
Total	24,32,194

Statement D shows the operations of Unions which either supervise only or both supervise and guarantee. Unions which do banking business are classed as Central Banks and are included in *Statement A*.

Statement E shows the operations of cattle insurance societies. These societies at present exist in Bombay, Bengal, United Provinces, Burma and Coorg only.

Statement F exhibits statistics pertaining to central re-insurance societies, that is to say, societies which, in return for a definite share of the insurance premia of the affiliated societies, undertake a definite share of their risks. The only society of this type at present exists in Burma.

India

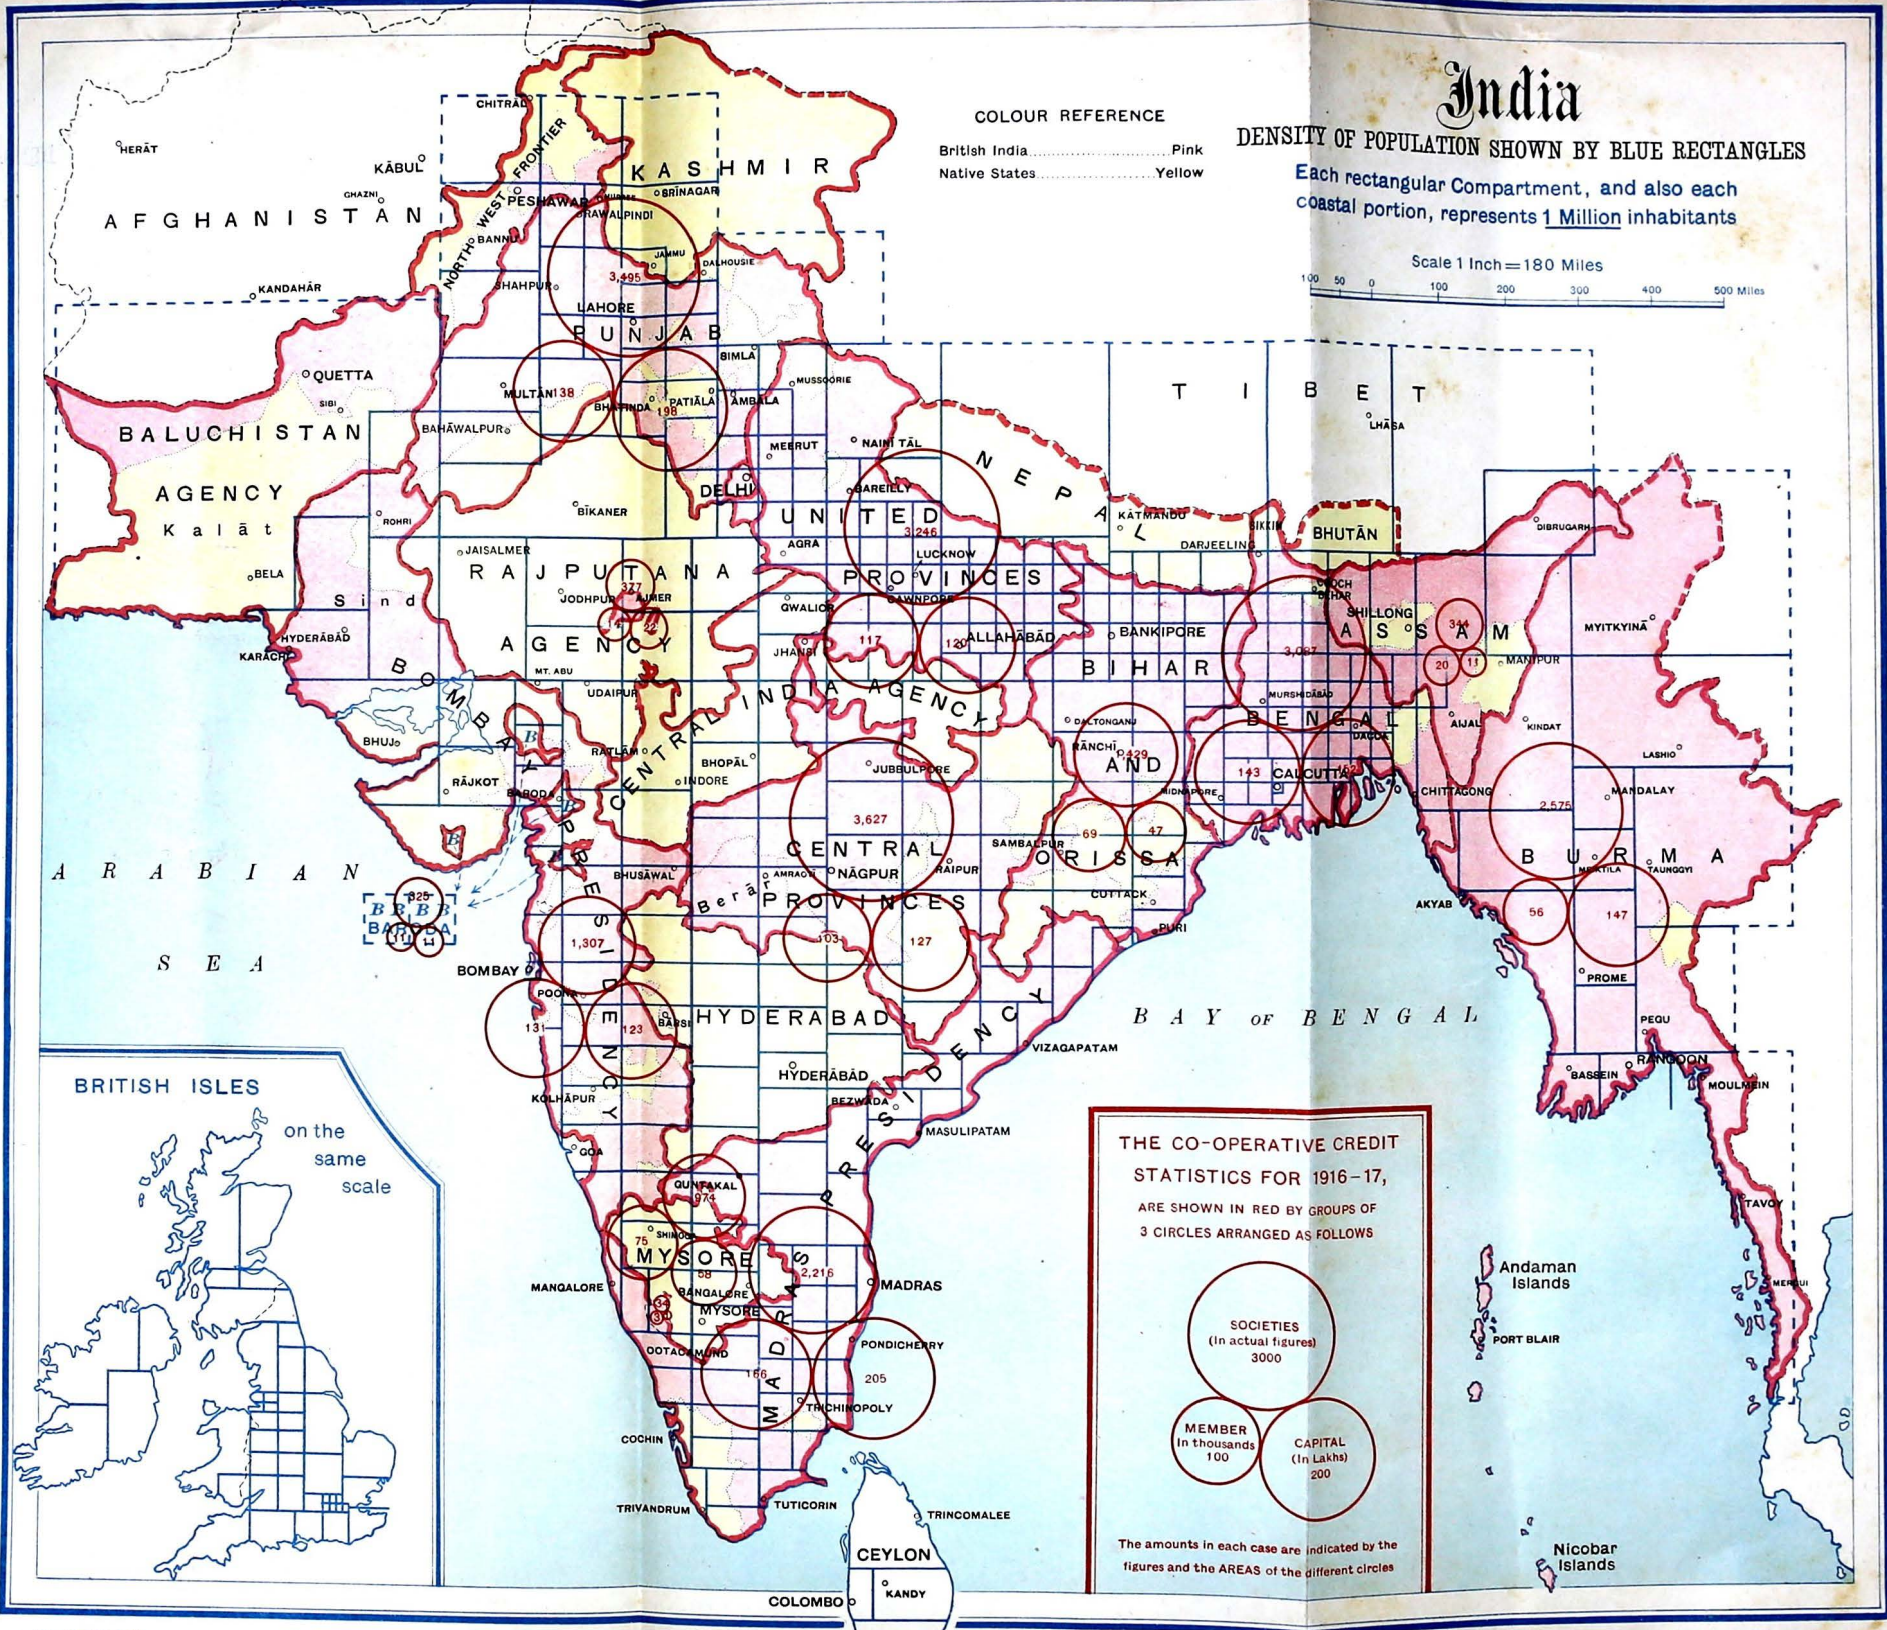

DENSITY OF POPULATION SHOWN BY BLUE RECTANGLES

Each rectangular Compartment, and also each coastal portion, represents 1 Million inhabitants

COLOUR REFERENCE

British India Pink
Native States Yellow

Scale 1 Inch = 180 Miles

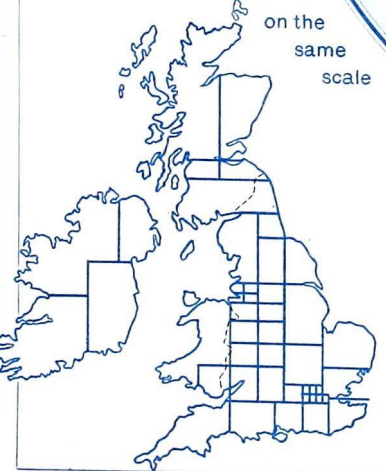

THE CO-OPERATIVE CREDIT STATISTICS FOR 1916-17,
ARE SHOWN IN RED BY GROUPS OF 3 CIRCLES ARRANGED AS FOLLOWS

SOCIETIES (In actual figures) 3000	
MEMBER In thousands 100	CAPITAL (In Lakhs) 200

The amounts in each case are indicated by the figures and the AREAS of the different circles

BRITISH ISLES

on the same scale

Progress of the Co-operative Movement in India. 1907-18.

NOTE - Capital is increasing slightly faster than membership, being now nearly Rs. 136 per member, and the proportion of societies has so increased that the average membership is now less than 40. The capital is Rs. 5441 per society.

The CO-OPERATIVE STATISTICS for 1917-18 are shown below in CIRCLES, whose areas are proportional to the POPULATION of each Province. The SHADED SECTORS represent the three principal statistics, as shown. The AREAS of related sectors are proportional to the statistics concerned. The INCLUDED ANGLES show the relation of statistics to Population.

COORG and AJMER
For ● and ● the statistics are too large to be shown.
