PREFACE

The last edition of Fertiliser Statistics, published in June 1961, related to the calendar year 1960. It has now been decided to present annual statistics in future for the fertiliser year (July-June) in conformity with international practice. The present publication is designed to bridge the gap between the calendar year 1960 and the fertiliser year July 1960—June 1961.

This should be regarded as a supplement to Fertiliser Statistics 1960. As such, it is limited to bring forward up to the end of June 1961 statistical information contained in Part I of Fertiliser Statistics 1960.

NOTES, ABBREVIATIONS AND SIGNS

The source from which the data have been derived is indicated at the bottom of each table. Where no source is given for a particular table, it should be understood that the data have been collected and tabulated by the F.A.I.

In all tables, unless otherwise stated, the years refer to calendar or fertiliser years, as the case may be. For example, the year 1958 refers to the calendar year ending December 31, 1958 and 1957-58 refers to the fertiliser year ending June 30, 1958.

Wherever special notes are required with reference to a particular table, they are given at the bottom of the table. The following abbreviations and symbols are used :

- @ estimated
- + unofficial
- negligible or nil or entry not applicable
 - * incomplete data
 - ** data for the preceding or the following year have been repeated
