No. 153-GR.-S.  
GOVERNMENT OF THE  
CENTRAL PROVINCES AND BERAR  
EDUCATION DEPARTMENT

---

*Nagpur, the 14th March 1941.*

READ—

The Annual Report of the Director of Public Instruction, Central Provinces and Berar, on the state and progress of education in the Central Provinces and Berar for the year ending the 31st March 1940.

RESOLUTION

During the year under review the number of educational institutions increased by 243 and that of pupils by 17,572. The number of Muslim pupils increased by 2,703.

2. Considering their population and importance in the Province, the aboriginal tribes were poorly represented in the University examinations. A scheme for the provision of better and more suitable educational facilities for these tribes is being prepared by Mr. W. V. Grigson, I.C.S.

3. The weak points in the administration and control of primary education, which were mentioned in the previous year's report, still persist. Transfers of teachers continue to be in general excessive, and otherwise also the conditions of their service are unattractive. The local bodies will, it is hoped, give due consideration to the advice of departmental officers and co-operate with them in raising the standard of primary education.

4. A very considerable fall in the enrolment of pupils in Vidya Mandirs is ascribed to economic reasons, but the subsidence of the first flush of enthusiasm for a new idea is also likely to be partly responsible. Those Vidya Mandirs, which are not economical and efficient, are being closed. The Central Provinces and Berar Vidya Mandir Act received the assent of His Excellency the Governor in March 1940. The basic syllabus is being tried out on a restricted scale and its financial and administrative implications are being studied under controlled conditions.

5. Government note with satisfaction that there is a striking increase in the number of girls reading in schools and colleges. The policy adopted by the department in 1937 of admitting girls freely into boys' schools has resulted in an increase of girls in high schools in towns, where no separate girls' high schools exist.

It is too early to say whether co-education in secondary schools and colleges has proved altogether a success. The more modern amongst the parents clearly welcome it.

6. Government records with regret that many of the new schemes sponsored have not elicited the amount of public support that might have been expected. This dictum applies more particularly to the Vidya Mandir scheme, adult education and the scheme for continuation classes. Other schemes, such as the Physical Welfare scheme, could not be proceeded with owing to financial stringency.

D. R. RUTNAM,

*Secy. to Govt., C. P. & Berar, Education Dept.*

# REPORT ON THE STATE AND PROGRESS OF EDUCATION IN THE CENTRAL PROVINCES AND BERAR FOR THE YEAR 1939-40

[Figures in brackets indicate those for the previous year.]

## CHAPTER I.—GENERAL

**1. General Survey.**—The total number of educational institutions in the province increased by 243 from 6,616 to 6,859. These include 6,194 [5,951] recognized and 665 [665] unrecognized institutions. The total number of pupils under instruction increased by 17,572 from 530,128 to 547,700, the number in recognized institutions rising from 505,124 to 521,497 and that in unrecognized institutions from 25,004 to 26,203.

During the year under report, the percentage of pupils under instruction to the Population of the Province was 3.53 [3.42]. The percentage of male pupils to male population stands at 5.69 [5.59] and that for girls at 1.37 [1.25].

**2. Main Events of the Year.**—(1) A committee was appointed to make a report to Government on matters connected with Secondary Education in the Central Provinces and Berar.

(2) The Government Marathi High School, Amraoti, was converted into a residential high school from the 1st July 1939.

(3) The Vidya Mandir Training Institute, Wardha, was started with effect from the 1st July 1939 for the training of Normal School staff in Basic Syllabus.

(4) The middle school scholarship examination was abolished.

(5) The scholarships were converted into stipends and sanction was given to award them on the criterion of poverty-cum-merit.

(6) Consequent on Government's decision to implement the Wardha Syllabus, no admissions were made to the first year class in the Normal Schools.

(7) The District Council, Betul, introduced compulsory primary education for girls in 39 centres in Betul district.

(8) The Central Provinces and Berar Vidya Mandir Act was passed.

**3. Administration.**—Dr. G. G. R. Hunter, I.E.S., officiated as Director of Public Instruction and Secretary to Government in the Education Department from 1st April to 17th September 1939 and Dr. A. C. Sen Gupta, I.E.S., from the 18th September to the end of the year under review. Two additional posts of Deputy Directors for the inspection of High Schools were created with effect from the 9th December 1939 and the post of the Officer on Special Duty was abolished from that date. No new appointments were made to the Provincial Educational Service, Class I.

4. **Inspecting Agencies.**—The inspecting staff and the number of school (excluding European schools) of various grades in 1939-40 are shown in the table below :—

Inspecting Staff—		Number of officers	
		For boys	For girls
Director of Public Instruction	..	..	1
Deputy Directors of Public Instruction	..	..	5
District Inspectors of Schools	..	..	19
Assistant District Inspectors of Schools	..	..	66
Inspectresses of Schools	..	..	2
Assistant Inspectresses of Schools	..	..	4
Number of Schools—		For boys	For girls
High Schools	..	..	92
Indian-English Middle Schools	..	..	221
Middle Schools	..	..	372
Primary Schools	..	..	4,749
Normal Schools	..	..	8
Special Schools	..	..	92
Total		..	5,534
			608

5. **Expenditure.**—Expenditure on education under various kinds of institutions is shown in the table below :—

Heads of expenditure  (1)	Expenditure in		Increase or decrease  (4)  Rs.	
	1938-39	1939-40		
	(2) Rs.	(3) Rs.		
<i>Direct Expenditure.</i>				
<b>Institutions for males—</b>				
University	..	1,63,198	1,92,084	+28,886
High School Education Board	..	70,837	77,279	+6,442
Arts and Science Colleges	..	6,73,535	7,25,257	+51,722
Professional Colleges	..	1,63,790	1,82,111	+18,321
High Schools	..	11,96,450	12,19,939	+23,489
Indian-English Middle Schools	..	12,89,890	13,36,797	+46,907
Middle Schools	..	8,70,673	8,53,225	-17,448
Primary Schools	..	35,73,680	36,29,869	+56,189
Normal Schools	..	2,18,612	1,58,671	-59,941
Other Special Schools	..	2,35,207	2,84,119	+48,912
Total	..	84,55,872	86,59,351	+2,03,479
<b>Institutions for females—</b>				
Arts and Science Colleges	..	19,259	24,137	+4,878
Professional Colleges	..	..	..	..
High Schools	..	1,35,622	1,42,437	+6,815
Indian-English Middle Schools	..	1,46,412	1,66,556	+20,144
Middle Schools	..	91,722	93,820	+2,098
Primary Schools	..	5,66,324	6,05,498	+39,174
Normal Schools	..	68,286	57,513	-10,773
Other Special Schools	..	30,811	23,444	-7,367
Total	..	10,58,436	11,13,405	+54,969
Total Direct Expenditure	..	95,14,308	97,72,756	+2,58,448

Heads of expenditure (1)	Expenditure in		Increase or decrease (4) Rs.
	1938-39	1939-40	
	(2) Rs.	(3) Rs.	
<i>Indirect Expenditure.</i>			
Direction ..	1,25,797	1,30,111	+4,314
Inspection ..	3,21,523	3,57,255	+35,732
Building and furniture ..	6,14,820	5,64,469	-50,351
Miscellaneous ..	9,85,801	11,29,494	+1,43,693
Total ..	20,47,941	21,81,329	+1,33,388
Grand Total ..	1,15,62,249	1,19,54,085	+3,91,836

The total expenditure on education increased by Rs. 3,91,836 from Rs. 1,15,62,249 to Rs. 1,19,54,085. The increase is shared by all kinds of institutions except Normal Schools for Males and Females, Middle Schools for boys and Special Schools for girls in which the expenditure decreased. The total increase appears to be due to the normal expansion of educational activities during the year under review.

6. Numbers.—The following tables give the number of institutions of all kinds and the enrolment in them (including Anglo-Indian and European schools):—

Kind of institution (1)	Institutions for males		Increase or decrease (4)	Institutions for females		Increase or decrease (7)
	1938-39	1939-40		1938-39	1939-40	
	(2)	(3)		(5)	(6)	
<b>Recognized institutions—</b>						
Arts and Science Colleges.	11	11	..	1	1	..
Professional Colleges	4	4	..	..	..	..
High Schools ..	91	96	+5	14	18	+4
Indian-English Middle Schools.	214	225	+11	38	47	+9
Middle Schools ..	379	372	-7	44	41	-3
Primary Schools ..	4,579	4,755	+176	494	511	+17

Other Special Schools	63	92	+29	5	6	+1
Total ..	5,349	5,563	+214	602	631	+29
Unrecognized institutions.	621	630	+9	44	35	-9
Grand Total ..	5,970	6,193	+223	646	666	+20

Kind of institutions	Institutions for males		Increase or decrease	Institutions for females		Increase or decrease
	1938-39	1939-40		1938-39	1939-40	
(1)	(2)	(3)	(4)	(5)	(6)	(7)
<b>Recognized institutions—</b>						
Arts and Science Colleges.	2,997	3,007	+10	79	84	+5
Professional Colleges	775	830	+55	..	..	..
High Schools	12,942	12,030	-912	740	881	+141
Indian-English Middle Schools.	31,522	34,475	+2,953	3,602	4,334	+732
Middle Schools	72,221	69,171	-3,050	6,219	6,603	+384
Primary Schools	328,492	341,455	+12,963	40,724	43,730	+3,006
Normal Schools	974	410	-564	321	199	-122
Other Special Schools	3,107	3,570	+463	409	718	+309
<b>Total</b>	<b>453,030</b>	<b>464,948</b>	<b>+11,918</b>	<b>52,094</b>	<b>56,549</b>	<b>+4,455</b>
Unrecognized institutions.	23,014	24,246	+1,232	1,990	1,957	-33
<b>Grand Total</b>	<b>476,044</b>	<b>489,194</b>	<b>+13,150</b>	<b>54,084</b>	<b>58,506</b>	<b>+4,422</b>

The number of institutions for males has increased by 223 and that of females by 20.

It is pleasing to record that the enrolment in recognized institutions for males increased by 11,918 and in those for females by 4,455. Enrolment in unrecognized institutions for males rose by 1,232 and in those for females decreased by 33. The decrease in numbers in Normal Schools is due to the fact that no new admissions were made in Normal Schools during the year under review.

The total number of institutions of all kinds in the province under various managements with their enrolment is given in the table below :—

Management	Institutions			
	1938-39	1939-40	Increase or decrease	Percentage of increase or decrease
(1)	(2)	(3)	(4)	(5)
<b>Recognized institutions—</b>				
Government	.. 402	421	+19	4.72
District Council	.. 4,281	4,370	+89	2.08
Municipal	.. 688	721	+33	4.79
<b>Private—</b>				
Aided	.. 405	510	+105	25.92
Unaided	.. 175	172	-3	1.71
<b>Total</b>	<b>5,951</b>	<b>6,194</b>	<b>+243</b>	<b>4.08</b>
Unrecognized institutions	.. 665	665	..	..
<b>Grand Total</b>	<b>6,616</b>	<b>6,859</b>	<b>+243</b>	<b>3.67</b>

Management	Enrolment			
	1938-39	1939-40	Increase or decrease	Percentage of increase or decrease
(1)	(6)	(7)	(8)	(9)
<b>Recognized institutions—</b>				
Government	.. 44,040	44,392	+352	.79
District Council	.. 301,264	305,186	+3,922	1.30
Municipal	.. 106,310	111,563	+5,253	4.94
<b>Private—</b>				
Aided	.. 42,637	47,726	+5,089	11.94
Unaided	.. 10,873	12,630	+1,757	16.16
Total	.. 505,124	521,497	+16,373	3.24
Unrecognized institutions	.. 25,004	26,203	+1,199	4.79
Grand Total	.. 530,128	547,700	+17,572	3.32

There has been a slight decrease in the number of unaided institutions. The increase in the total enrolment is shared by all types of institutions. The increase in the number of Government institutions is chiefly due to the opening of Primary Schools in forest villages by the Forest Department.

## CHAPTER II.—THE UNIVERSITY

Mr. T. J. Kedar was Vice-Chancellor of the Nagpur University during the year under review.

**7. New Activities.**—The University has decided to build up a small Publications Fund for the purpose of financing the publication of such books and papers as the University may select and in certain cases, for payment of grants for publications of research work done in the University.

It has been decided to institute courses in Commerce in the University, and Ordinances, prescribing the conditions of admission to the Intermediate Examination in Commerce and the Examination for the degree of Bachelor of Commerce have been framed.

**8. Building Programme.**—The new building of the College of Law has been completed and occupied. The building of the University Hostel for post-graduate students has also been completed and is in use. The construction of the main building of the Laxminarayan Institute of Technology is progressing satisfactorily.

**9. University Legislation.**—A large number of ordinances was issued during the year. The examination fees payable by candidates for the examinations in Oriental Learning have been reduced, the class of students who take these examinations being comparatively poor.

One Ordinance made during the year was the Test in Shooting Ordinance passed by the Executive Council on the 7th December 1939, which provides that "no male student prosecuting a course for the B. A. (Pass) or B. Sc. (Pass) Examination in a college at Nagpur shall be admitted to the examination unless he has passed a qualification test in shooting, which shall be prescribed by the Board of Physical Welfare". The operation of the Ordinance has, however, been postponed for the present.

**10. Examinations.**—The University Examinations of 1940 commenced on the 21st February, and concluded on the 19th April. The total number of candidates registered for the examination was 3,007 as against 3,021 in 1939, 1,386 in 1930 and 767 in 1924. The number of candidates presented by Colleges was 2,219 [2,027]. The number of non-collegiate candidates was as follows :—

	1939	1940
(1) Women candidates (under Statute 29) ..	94	113
(2) Ex-students ..	491	425
(3) Teacher candidates ..	109	112
(4) Librarians and Library clerks ..	1	1
(5) Non-collegiate candidates for the M. A., M. Sc. and L.L. M. Examinations	218	24
(6) Non-collegiate candidates for the Examinations in Oriental Learning.	31	71
(7) Compartmental candidates ..	50	46
Total ..	994	787

The decrease in the number of non-collegiate candidates is mainly due to the residential conditions, recently imposed. The number of women candidates was as follows :—

	1939	1940
Women candidates from Colleges ..	118	142
Non-collegiate women candidates ..	94	113
Total ..	212	255

Of the 255 women examinees, 146 were successful at the various examinations, including 88 at the Intermediate Examination, 36 at B. A., 1 at the B. Sc., and 3 at the final L.L. B. Out of the seven candidates successful in the First Division at the B. A. Examination of the year, two were women candidates.

The total number of the Backward Class candidates was 62 as against 56 in 1939; 24 of them were successful. The details about these 24 candidates are given below :—

Examinations (1)	Number of successful examinees (2)	Caste	
		Harijan (3)	Aboriginal Tribe (4)
1. Intermediate (Arts and Science) ..	13	9 Mahars 1 Harijan. 1 Katia.	2 Gonds
2. B. A. ..	3	2 Mahars	1 Banjara.
3. Previous L.L. B. ..	3	3 Mahars.	
4. Final L.L. B. ..	4	3 Mahars	1 Banjara.
5. First Engineering ..	1	1 Mahar.	

The following table compares the University results in various examinations held during the years 1939 and 1940 :—

Examinations (1)	Number of candidates admitted		Number present		Number passed		Percentage of passes	
	1939 (2)	1940 (3)	1939 (4)	1940 (5)	1939 (6)	1940 (7)	1939 (8)	1940 (9)

**11. Osmania Students.**—With a view to enable the ex-students of Osmania University admitted to Nagpur University in February-March 1939, to complete their courses, some of the University Examinations of 1939 were held again in July-August. Most of the students have now returned to their old University; but some of them are still continuing their education at Nagpur University.

**12. University College of Law, Nagpur.**—The College now meets in its new building on the Amraoti road. The total number of admissions to the University College of Law on the 1st September 1939 was 365 as against 394 in 1938. In addition, 74 more

students were admitted to the College in September on the publication of the results of the special examinations held in July-August 1939.

**13. Affiliated Colleges.**—No new colleges were admitted to the privileges of the University during the year. The admission of the College of Commerce, Wardha, has been under consideration.

**14. University Library.**—The number of volumes added to the library during the year was 2,697, bringing the total number to 36,500.

A scheme for collection of valuable old manuscripts of the province is under the consideration of the University.

**15. University Training Corps.**—The strength of the University Training Corps on the 31st March 1940, was 312 [322]. The Annual Camp was held at Kamptee from the 23rd October to the 6th November 1939. The "Platoon Efficiency Cup" for the year was won by Platoon No. 1 (Morris College).

**16. Finance.**—The total income for the year (exclusive of the opening balance and debt heads) was Rs. 2,31,126-12-0 and the total expenditure (exclusive of the debt head) Rs. 3,16,407-6-0, which includes a sum of Rs. 72,171-12-6 on the new building of the University College of Law; Rs. 2,290-14-6 on the preparation of the University play-grounds; Rs. 14,179-1-6 on purchase of books for the University Library and Rs. 1,494-2-9 on the purchase of books for the Law College Library. The  $11\frac{1}{4}$  per cent. cut in the Government grant was repeated during the year.

**17. Students' Information Bureau.**—The number of students seeking advice and information with regard to British Universities and other educational institutions was much smaller than that in previous year 53 [160]. The fall in number is due to the war conditions prevailing in Europe.

**18. The Laxminarayan Bequest.**—The foundation work of the main building of the Laxminarayan Institute of Technology commenced on 1st October 1939 and the construction of the ground floor is now nearing completion. Dr. R. S. Thakur is preparing the plans for the fitting and equipment of the laboratories of the Institute. The market value of the Bequest Funds has decreased on account of the war conditions.

### CHAPTER III.—ARTS AND SCIENCE COLLEGES

**19. Institutions.**—The number of colleges remained the same as last year, *i.e.*, 12. Of these 12 colleges, 4 are maintained by Government, 1 by a Christian Mission and 7 by other private bodies. Of the 8 non-Government Arts Colleges, 4 are aided by Government and 4 are unaided.

20. **Enrolment.**—The following comparative table shows the numbers in the years 1938-39 and 1939-40 :—

Colleges	Enrolment		Increase or decrease
	1938-39	1939-40	
(1)	(2)	(3)	(4)
<i>Government.</i>			
Morris College, Nagpur .. ..	660	708	+48
College of Science, Nagpur .. ..	463	454	-9
Robertson College, Jubbulpore .. ..	430	295	-135
King Edward College, Amraoti .. ..	331	313	-18
<i>Aided.</i>			
Hislop College, Nagpur .. ..	393	466	+73
Hitkarini City College, Jubbulpore .. ..	239	238	-1
City College, Nagpur .. ..	320	274	-46
Central College for Women, Nagpur .. ..	79	84	+5
<i>Unaided.</i>			
Rajkumar College, Raipur .. ..	2	6	+4
Wasudeo Art. College, Wardha .. ..	75	71	-4
Chhatisgarh College, Raipur .. ..	51	109	+58
Sitabai Arts College, Akola .. ..	33	73	+40
Total .. ..	3,076	3,091	+15

The decrease of 135 students at the Robertson College, Jubbulpore, is attributed to the exclusion of ex-Osmania students who left the college after finishing the course in June 1939. There has been a decrease in the number of students in the King Edward College, Amraoti, and the City College, Nagpur. The total enrolment has, however, increased by 15 from 3,076 to 3,091.

The number of women students attending colleges during the year under report was as below :—

	Number of women students
(1) Morris College, Nagpur .. ..	94
(2) College of Science, Nagpur .. ..	26
(3) Robertson College, Jubbulpore .. ..	3
(4) King Edward College, Amraoti .. ..	27
(5) Hislop College, Nagpur .. ..	10
(6) Hitkarini City College, Jubbulpore .. ..	20
(7) City College, Nagpur .. ..	3
(8) Sitabai Arts College, Akola .. ..	24
(9) Chhatisgarh Arts College, Raipur .. ..	5
(10) Central College for Women, Nagpur .. ..	84
Total .. ..	296

The total enrolment of women students in colleges increased by 50 from 246 to 296.

21. **Accommodation.**—Plans and estimates for a new building for the Central College for Women, Nagpur, for which a site has been selected, are being prepared. The present accommodation

of the college, is both costly and unsuitable. The Morris College, Nagpur, continued to meet in the old building, which is inadequate for the growing needs of the College.

**22. Equipment.**—Considerable difficulty was experienced during the year in obtaining chemicals for science laboratories owing to war conditions. Increased allotments are needed for scientific appliances and chemicals.

**23. Hostels.**—The number of resident pupils has decreased from 637 to 570. The decrease is chiefly noticeable in the hostels attached to Robertson College, Jabulpore, and King Edward College, Amraoti. The fall in the number of boarders in the Hostel of the Robertson College, Jabulpore, is due to the departure of the ex-Osmania students who had joined the hostel temporarily. The management of the hostels is reported to be satisfactory.

**24. Libraries.**—The Hislop College, Nagpur, spent nearly Rs. 1,700 on the library and 439 volumes were purchased. Hardly any new additions were made to the library in the Central College for Women, Nagpur, owing to the lack of funds. The Principal, Science College, Nagpur, emphasises the need of improving the college library by obtaining suitable books and journals for the use of post-graduate students and research workers.

**25. Research work.**—The Principal, Science College, reports :

“The number of research papers published by the member of Staff and the increasing number of students who have been carrying out research work gives an indication of the steady growth of research in this College. Increased grants are necessary to improve the equipment of this College and to provide the apparatus and materials necessary for scientific research. It is also necessary to award some scholarships to deserving students to enable them to carry out research work in this College.”

**26. Finance.**—The following table gives a comparative statement of expenditure on Arts and Science Colleges in the province. The average cost per student has increased to Rs. 242-7-1 [Rs. 225-3-7].

Arts and Science Colleges	Expenditure		Increase or decrease	Average cost per student	
	1938-39	1939-40		1938-39	1939-40
	(1)	(2)		(3)	(4)
	Rs.	Rs.	Rs.	Rs. a. p.	Rs. a. p.
Government Colleges ..	5,47,485	5,68,883	+21,398	290 9 7	321 6 5
Private Colleges—					
Aided (Men) ..	85,448	114,484	+29,036	134 12 5	117 8 8
Aided (Women) ..	19,259	24,137	+4,878	243 12 7	287 5 6
Unaided ..	40,602	41,890	+1,288	84 12 3	161 11. 9
<b>Total ..</b>	<b>6,92,794</b>	<b>7,49,394</b>	<b>+56,600</b>	<b>225 3 7</b>	<b>242 7 1</b>

The increase in expenditure in Government Colleges is due to the annual increments in salaries and to the fact that the Principal, King Edward College, Amraoti, was in the previous year on leave in England where his salary was drawn.

**27. Physical Education and Medical Examination.**—The University Medical Inspectors examined all the students. Some of the Colleges have their own Medical Officers. The Principal, King Edward College, Amraoti, reports that a class of home-nursing for the women students of the College was conducted by the Matron of Irwin Hospital, Amraoti.

The general physique of the students of the Hitkarini City College, Jubbulpore, is reported to be the best among all the Colleges in the University.

**28. College Life and Discipline.**—During the year under review, there was a strike in the Hislop College, Nagpur, which lasted for two days, the 29th and 30th January. This was reported to be due to the detention of 15 students in the senior Intermediate and senior B.A. classes. The unpunctuality in the payment of fees has been reported from the Robertson College, Jubbulpore; otherwise there is nothing to note under this head.

#### CHAPTER IV.—SECONDARY EDUCATION FOR BOYS (EXCLUDING EUROPEAN SCHOOLS)

##### A.—HIGH SCHOOLS AND INDIAN-ENGLISH MIDDLE SCHOOLS

**29. Institutions.**—The number of recognized high and middle schools under different managements in the year under report as compared with the previous year is seen from the following figures :—

Management	High schools		Increase or decrease	Indian English middle schools		Increase or decrease
	1938-39	1939-40		1938-39	1939-40	
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Government	.. 26	26	..	48	47	-1
District Council	.. ..	..	..	1	1	..
Municipal	.. 15	17	+2	50	53	+3
Private—						
Aided	.. 32	33	+1	82	86	+4
Unaided	.. 14	16	+2	29	34	+5
<b>Total</b>	.. 87	92	+5	210	221	+11

There was an increase of five in the number of high schools and of 11 in the number of middle schools.

30. **Enrolment.**—The following statement shows the enrolment in the above schools in the year under report compared with that in the previous year :—

Management	Pupils in high schools		Increase or decrease	Pupils in Indian-English middle schools and middle department of high schools		Increase or decrease
	1938-39	1939-40		1938-39	1939-40	
	(1)	(2)	(3)	(4)	(5)	(6)
Government	.. 4,865	4,673	-192	6,552	6,706	+154
District Council	.. ..	..	..	102	120	+18
Municipal	.. 1,992	1,457	-535	10,054	10,714	+660
Private—						
Aided	.. 4,931	4,590	-341	11,258	12,903	+1,645
Unaided	.. 986	1,149	+163	3,194	3,679	+485
<b>Total</b>	.. 12,774	11,869	-905	31,160	34,122	+2,962

The enrolment of high schools has decreased by 905. This is due to general economic depression. The enrolment in middle schools has, however, increased from 31,160 to 34,122. On the whole, the number in secondary schools has increased by 2,962. The numbers indicate that the rate of progress in middle schools has been well maintained.

31. **Hostels.**—The number of boarders increased by 304 from 2,441 to 2,745. The accommodation in hostels attached to some of the Government high schools in Berar is not being fully utilised mainly because of economic conditions.

32. **Expenditure.**—The table below gives the expenditure on these schools from various sources during 1939-40 :—

Expenditure from	Expenditure on high schools		
	1938-39	1939-40	Increase or decrease
(1)	(2)	(3)	(4)
	Rs.	Rs.	Rs.
Government Funds	.. 4,74,126	4,60,370	-13,756
District Board Funds	.. ..	..	..
Municipal Funds	.. 28,134	23,638	-4,496
Fees	.. 5,50,994	5,78,861	+27,867
Other sources	.. 96,682	1,17,256	+20,574
<b>Total</b>	.. 11,49,936	11,80,125	+30,189

Expenditure from  (1)	Expenditure on Indian-English middle schools and middle department of high schools.		
	1938-39		Increase or decrease (7)
	1938-39	1939-40	
	Rs.	Rs.	Rs.
Government Funds ..	4,62,546	5,05,012	+42,466
District Board Funds ..	4,168	5,368	+1,200
Municipal Funds ..	1,09,689	1,06,649	-3,040
Fees ..	5,42,108	5,61,360	+19,252
Other sources ..	1,17,144	1,11,190	-5,954
Total ..	12,35,655	12,89,579	+53,924

Thus the total expenditure on high and middle schools increased by 84,113. The expenditure on high schools increased by 30,189 and that on middle schools by 53,924.

**33. Buildings and Equipment.**—Additional accommodation is required in the Government High Schools, Chhindwara and Basim, and the Indian-English Middle Schools at Kamptee, Sironcha and Brahmपुरi. The building of the Bengal-Nagpur Railway Middle School at Nainpur was improved by addition of two class rooms. The Municipal High School, Bina, meets in a rented building situated in unhealthy surroundings. Girls' sections of Maharashtra High School at Jubbulpore meet in a rented building. The buildings of the Municipal High School, Itarsi, and the Private High School, Hoshangabad, need extension. Generally speaking, the accommodation and the equipment are satisfactory in most of the Government schools and inadequate in most of the non-Government schools.

**34. Teaching Staff.**—The number of trained and untrained teachers under different managements is given in the table below :—

Management  (1)	Trained		Untrained	
	1938-39	1939-40	1938-39	1939-40
	(2)	(3)	(4)	(5)
<b>High Schools—</b>				
Government ..	312	300	34	22
Municipal ..	58	52	69	59
Aided ..	144	138	241	246
Unaided ..	16	22	87	98
Total ..	530	512	431	425
<b>Indian-English Middle Schools—</b>				
Government ..	298	301	46	38
District Council and Municipal ..	261	323	224	215
Aided ..	220	214	344	301
Unaided ..	23	45	127	198
Total ..	802	883	741	752

Management (1)	Total		Percentage of trained teachers	
	1938-39 (6)	1939-40 (7)	1938-39 (8)	1939-40 (9)
	High Schools—			
Government	346	322	90.2	96.3
Municipal	127	111	45.7	46.8
Aided	385	384	37.4	36.6
Unaided	103	120	15.5	18.3
Total	961	937	55.2	55.7
Indian-English Middle Schools—				
Government	344	339	86.6	88.7
District Council and Municipal	485	538	53.8	60.0
Aided	564	515	39.4	41.5
Unaided	150	243	15.3	18.5
Total	1,543	1,635	52.0	54.0

The number of trained teachers shows a decrease by 18 in high schools. In the Indian-English middle schools, the number of trained men has risen from 802 to 883. The unaided schools are mainly staffed by untrained teachers, the percentage of trained men in these schools being a little over 18. The percentage of aided Indian English middle schools in respect of trained teachers has slightly improved, while that in aided high schools has slightly gone down. The Government schools are well staffed, while in the municipal high schools more than half the teachers are untrained. The low percentage of trained teachers in all save the Government schools must be regarded as most unsatisfactory.

**35. Examination Results.**—The results of the High School Certificate Examination are given in the following table, district-wise :—

District (1)	1938-39			1939-40		
	Appeared (2)	Passed (3)	Percentage (4)	Appeared (5)	Passed (6)	Percentage (7)
Nagpur	895	550	61.4	923	591	64.03
Wardha	135	92	68.2	160	99	61.88
Chanda	50	36	72.0	28	19	67.86
Betul	31	23	74.2	27	22	81.48
Chhindwara	51	32	62.7	64	48	75.00
Jubbulpore	299	184	61.3	346	253	73.12
Saugor	112	98	87.5	119	101	84.87
Mandla	25	21	84.0	25	22	88.00
Nimar	133	79	59.4	132	84	63.64
Hoshangabad	185	131	70.8	194	119	61.34
Raipur	111	78	70.3	160	113	70.63
Bilaspur	56	46	82.1	96	90	93.75
Drug	34	24	70.6	35	24	68.57
Bhandara	70	40	57.1	57	44	77.19
Balaghat	38	31	81.6	26	23	88.46
Amraoti	315	187	59.4	385	241	62.60
Akola	254	131	51.6	280	180	64.29
Buldana	156	109	69.9	138	91	65.94
Yeotmal	92	69	75.0	90	69	76.67
Total	3,042	1,961	64.5	3,285	2,233	67.99

**36. Teaching of Agricultural and Manual Training.**—Instruction in agriculture was provided in the Government High Schools at Basim and Betul and the Government Indian-English Middle Schools at Multai and Talegaon-Dashashar. The subject is popular among the students. The need of an agricultural laboratory is being felt at Basim.

There was no change in the number of manual training centres attached to Government schools as reported last year. The subject continues to be popular.

**37. Physical Education.**—Almost all Government and private high schools have during the year been provided with Physical Training Instructors, trained either at the Spence Training College, Jubbulpore, or at the Hanuman Vyayam Prasarak Mandal, Amraoti. The prescribed syllabus was followed in all high schools. Organised games are regularly played. Gymnastic activities with staff and lazim appear to be popular in private schools.

The nature of the medical examination of pupils was reported to be unsatisfactory. In most of the private institutions medical inspection was not even provided for, and where it took place, it was perfunctory. Records of each individual's physical growth as well as comparative records of growth of pupils of different types were not maintained in many of the institutions. There was practically no arrangement for a mid-day meal or nutrition experiments.

**38. Libraries.**—Government schools have good libraries but the private schools generally do not possess an adequate stock of pedagogical and reference books and juvenile literature. The reading rooms attached to high schools are reported to be popular.

**39. Tone and Discipline.**—There was a strike in the Laurie High School, Raipur, otherwise there is nothing to note under this head. It is not suggested that the strike in the Laurie High School or that in the Hislop College, referred to in an earlier paragraph, indicates any lack of discipline; on the contrary school and college strikes are now-a-days usually due to the resentment on the part of students at the maintenance of good discipline by those in authority.

#### B.—HIGH SCHOOL EDUCATION BOARD

**40. Meetings.**—The annual meeting of the Board was held as usual in September 1939. A special meeting of the Board convened in July 1939 decided that a Supplementary High School Certificate Examination should be held in August 1939 as a special case. The total number of candidates for the Supplementary High School Certificate Examination, 1939, was 589 (including 12 absentees) of whom 316 passed. The total number of candidates for the March 1940 examination was 4,831 (including 139 absentees) of whom 2,643 passed. These figures include 1,421 private candidates of whom 358 passed, the percentage of passes amongst private candidates (excluding absentees) being 27.54.

41. **Finance.**—The total receipts for the year amounted to Rs. 95,864 while the total expenditure incurred was Rs. 77,279.

\*C.—INDIAN-MIDDLE SCHOOLS

42. **Institutions.**—The number of Indian middle schools under different managements in the years 1938-39 and 1939-40 is given below :—

Management	Indian middle schools		Increase or decrease
	1938-39	1939-40	
(1)	(2)	(3)	(4)
Government .. .. .	7	7	Nil
District Council .. .. .	341	334	-7
Municipal .. .. .	27	26	-1
Private—			
Aided .. .. .	3	4	+1
Unaided .. .. .	1	1	Nil.
Total .. .. .	379	372	-7

43. **Numbers.**—The table below gives the number of Indian middle schools for boys and the enrolment in them in each district during 1938-39 and 1939-40 :—

District	Middle schools			Number of pupils reading in middle schools		
	1938-39	1939-40	Increase or decrease	1938-39	1939-40	Increase or decrease
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Nagpur .. .. .	18	18	..	4,154	4,284	+130
Wardha .. .. .	10	10	..	1,326	1,340	+14
Chanda .. .. .	12	13	+1	2,755	2,920	+165
Betul .. .. .	3	3	..	863	1,000	+137
Chhindwara .. .. .	13	13	..	2,508	2,461	-47
Jubbulpore .. .. .	13	13	..	3,176	3,184	+8
Saugor .. .. .	12	11	-1	3,059	3,016	-43
Mandla .. .. .	6	7	+1	1,169	1,450	+281
Nimar .. .. .	6	6	..	1,139	1,197	+58
Hoshangabad .. .. .	28	30	+2	4,661	5,028	+367
Raipur .. .. .	14	15	+1	3,153	3,416	+263

Akola .. .. .	44	44	..	6,498	6,379	-119
Buldana .. .. .	70	65	-5	10,724	6,905	-3,819
Yeotmal .. .. .	28	26	-2	3,828	3,776	-52
Total .. .. .	379	372	-7	72,221	69,171	-3,050

\*NOTE.—Indian-English middle schools are those in which English is a compulsory subject. They contain classes V—VIII. Indian middle schools are those in which English is not a compulsory subject—it may be an optional subject. They contain usually classes V—VII only.

There was a decrease of seven schools and of 3,050 pupils during the year under review. These figures indicate that the Indian middle schools are gradually losing popularity. This has been observed and commented on in previous reports. Education up to class VII is not properly regarded as an end in itself—the completion of primary education and the securing of a standard of literacy that will not be lost in after life (as is so often the case when education ceases at class IV or earlier). It is for consideration whether education up to class VII should not be encouraged by raising the minimum qualification for certain employments from “passed primary” (class IV) to “passed middle” (class VII).

**44. Buildings and Equipment.**—All middle schools have their own buildings but most of them are congested and require extension and improvement. Most of the schools have insufficient furniture consisting of backless benches, small black boards and old maps. On the plea of financial stringency, the equipment of these schools has not been improved.

**45. Staff.**—Most of the teachers working in middle schools are trained and certificated. The District Inspector of Schools, Jubbulpore, reports—

“Senior men on account of long service and good work in primary schools are promoted to headmasterships of middle schools in appreciation of their past services. Such promotions cause heart-burning amongst the assistant masters of middle schools who are thus deprived of headmasterships. Cases of bad discipline, ill-feeling, unsystematic teaching and slackness of control are the natural consequences of such arrangements.”

This problem is being examined.

**46. Hostels.**—The total number of boarders in hostels attached to Indian middle schools was 1,653 [1,919] showing decrease by 266. The hostels attached to rural middle schools are generally unsatisfactory in respect of buildings and equipment. The District Inspector of Schools, Raipur, reports—

“Most of the hostel rooms are not properly ventilated and the arrangement for messing is deficient. Some of the hostels are overcrowded. The charge per meal is not more than one anna.”

The District Inspector of Schools, Bilaspur, reports—

“Hostel buildings are rented ones. Accommodation is hopelessly insufficient in some of the hostels.”

The District Inspector of Schools, Chhindwara, states that the hostels are generally indifferently managed and have very little educational value. Most of them are housed in wretched buildings with no satisfactory arrangement for messing and lodging.

The District Inspector of Schools, Jubbulpore, reports—

“Rented buildings of the hostels are ill-lighted and ill-ventilated and boys cook their own food. In the absence of common mess, much valuable time is taken away by cooking.”

**47. English Classes.**—The following table shows the number of middle schools, district-wise, in which English is taught as an optional subject, and the pupils learning English :—

District	Middle schools with English classes			Pupils learning English		
	1938-39	1939-40	Increase or decrease	1938-39	1939-40	Increase or decrease
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Nagpur ..	5	5	..	99	95	-4
Betul ..	2	..	-2	28	..	-28
Chhindwara ..	3	3	..	82	69	-13
Saugor ..	5	5	..	163	161	-2
Mandla ..	2	2	..	46	50	+4
Nimar ..	5	5	..	141	129	-12
Hoshangabad	10	10	..	225	280	+55
Raipur ..	3	2	-1	71	46	-25
Bilaspur ..	4	5	+1	169	203	+34
Drug ..	5	5	..	163	208	+45
Bhandara ..	2	2	..	114	110	-4
Balaghat ..	3	3	..	86	77	-9
Amraoti ..	24	23	-1	550	545	-5
Akola ..	25	21	-4	551	426	-125
Buldana ..	25	22	-3	443	419	-24
Yeotmal ..	8	9	+1	184	164	-20
Total ..	131	122	-9	3,115	2,982	-133

In view of the fact that most of the teachers working in these schools are untrained, the quality of instruction is reported to be poor. The District Inspector of Schools, Amraoti, reports that it is desirable to raise the scale of pay to attract teachers with higher qualifications to work in these classes.

**48. Teaching of Agriculture.**—Agriculture is being taught as a subject in 23 Indian middle schools, managed by district councils. The progress in Bilaspur, Chhindwara, Yeotmal, Amraoti and Nagpur districts is reported to be satisfactory.

**49. Village Libraries attached to Middle Schools.**—The number of village libraries opened by district councils with the help of Government grants is the same as that of last year, *viz.*, four, under each district council. Some of the libraries were shifted from one centre to another, in order to give new areas the benefit of the facilities for general reading provided by Government. These libraries are reported by the District Inspectors of Schools to be useful and popular.

**50. Continuation Classes (for continuing education beyond class IV in certain localities where no middle schools exist).**—The continuation classes have not been successful. Their number decreased from 89 to 36. The chief difficulties in the development of these classes are reported to be—

- (a) lack of enthusiasm and response,
- (b) lack of proper lighting arrangements, and
- (c) want of reading and writing material.

**51. Vocational Training.**—The District Inspector of Schools, Bhandara, reports that a prevocational syllabus was followed in the middle schools at Sakoli, Tirora and Mohali. The classes did not attract sufficient number of learners and they had to be closed. The District Inspector of Schools, Amraoti, reports that a weaving expert was provided on the staff of the prevocational school at Sategaon, but the training in crafts could not be taken up for want of apparatus and material. At the end of the year, the district council could provide only a few taklies and charkhas. Having nothing else on hand to do, the weaving expert had to teach English to classes V and VI. The District Inspector of Schools, Wardha, states—

“Carpentry at Janona and book-binding at Virool have been abandoned. New ideas do not catch on easily in rural areas.”

#### CHAPTER V.—PRIMARY EDUCATION FOR BOYS

**52. Compulsory Education.**—The following tables show the district councils, municipal committees and notified area committees which introduced compulsion within their jurisdiction up to the end of the year under report :—

District Council	Number of centres	Number of villages in which compulsion has been introduced	Date of introduction of compulsion	Attendance percentage	Recurring grants paid in 1939-40
(1)	(2)	(3)	(4)	(5)	(6)
					Rs.

32. Notified Area, Committee, Telhara.	Do.	.. 1-4-38	86.5	156

The fall of attendance in the compulsory area of Balaghat municipal committee is attributed to the outbreak of plague. The lowest attendance (62 per cent) is reported in 50 centres under the District Council, Betul. The District Inspectors of Schools, Nagpur and Betul, report that the chief reason for the low attendance in district council schools is the slackness on the part of attendance authorities and attendance officers in dealing with matters concerning attendance and prosecutions. The District Inspector of Schools, Amraoti, reports that the attendance officer in rural compulsory areas is generally the headmaster, who is also the village postmaster in addition. Being thus overburdened, he does nothing beyond maintaining the records with the help of his assistants.

Compulsion was not introduced in any new area during the year under report. Government contributed a recurring compulsory education grant of Rs. 1,44,826 [Rs. 1,59,488].

**53. Numbers and Attendance in Recognized Primary Schools.**—The following table gives comparative statistics for the years 1938-39 and 1939-40 :—

District	Number of primary schools for boys			Number of pupils in primary schools for boys		
	1938-39	1939-40	Increase or decrease	1938-39	1939-40	Increase or decrease

Yeotmal ..	..	..	13,293	13,088	81.3	84.8
<b>Total ..</b>	<b>..</b>	<b>..</b>	<b>252,523</b>	<b>262,542</b>	<b>77.02</b>	<b>77.05</b>

The total number of primary schools has increased by 175 to 4,749 [4,574]. The total enrolment in primary schools has increased by 12,863 to 340,732 [327,869]. The enrolment has decreased in Nagpur, Bilaspur, Drug, Buldanā and Yeotmal, while it has increased in all other districts.

54. **Wastage and Stagnation.**—The following table shows the position in regard to wastage and stagnation in each district :—

District	Number of boys in class I on the 31st March 1937	Number of boys in class IV on the 31st March 1940	Primary Certificate Examination		Percentages of columns	
			Appeared (4)	Passed (5)	(5) to (2) (6)	(3) to (2) (7)
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Nagpur ..	9,571	4,459	4,298	3,009	31.4	47.0
Wardha ..	3,818	1,968	1,829	1,208	31.6	51.5
Chanda ..	4,943	2,192	1,849	1,113	22.5	44.3
Chhindwara ..	4,552	2,428	1,884	1,226	26.9	53.3
Betul ..	2,608	1,478	1,072	644	24.7	56.7
Jubbulpore ..	6,129	3,480	3,322	2,550	41.6	56.7
Saugor ..	5,616	3,306	2,669	1,976	35.2	58.9
Mandla ..	2,725	1,151	1,002	774	27.9	42.2
Hoshangabad	5,353	3,142	2,932	2,262	42.3	58.7
Nimar ..	3,944	1,765	1,529	1,294	33.0	44.8
Raipur ..	9,088	5,045	4,389	3,221	35.4	55.5
Bilaspur ..	7,719	4,305	4,245	2,937	38.0	56.4
Drug ..	4,115	2,416	2,142	1,414	34.3	58.7
Bhandara ..	5,733	3,149	3,062	1,956	34.1	54.9
Balaghat ..	3,724	1,677	1,405	973	26.1	45.0
Amraoti ..	7,719	4,305	4,297	3,056	39.6	55.6
Akola ..	13,402	3,435	4,228	2,874	20.2	25.6
Buldana ..	7,591	630	630	418	5.5	8.3
Yeotmal ..	6,624	594	594	350	5.3	8.9
<b>Total</b> ..	<b>114,974</b>	<b>50,925</b>	<b>47,338</b>	<b>33,255</b>	<b>28.9</b>	<b>44.2</b>

The following table illustrates the condition in regard to stagnation :—

Year	Percentage of pupils who passed the Primary Certificate Examination
1936 ..	26.3
1937 ..	27.0
1938 ..	27.2
1939 ..	26.8
1940 ..	28.9

There has been some improvement in the percentage but much still remains to be done. Wastage is chiefly due to economic causes. A very large proportion of children in village schools belong to the labouring and agricultural classes who cannot afford to buy slates and books. On account of the extreme poverty in villages the pupils are withdrawn from the school as soon as they are old enough to help their parents in earning their livelihood. Stagnation is generally due either to irregular attendance or inefficient teaching or both. Efforts are being made to reduce wastage and stagnation but unless free education is introduced throughout the Province and more effective teaching is insisted on, improvement is bound to be slow.

**55. Distribution of Numbers among Classes.**—The number of pupils in each primary class in the years 1938-39 and 1939-40 is shown in the table below :—

Classes	Pupils in		Increase or decrease
	1938-39	1939-40	
Class I	147,144	155,955	+8,811
Class II	93,773	95,272	+1,499
Class III	80,738	80,186	-552
Class IV	61,718	57,875	-3,843
Total	383,373	389,288	+5,915

The enrolment in classes I and II has increased, while that in classes III and IV has decreased.

**56. Teaching Staff.**—The following tables give the number of trained teachers in district council and municipal primary schools :—

District Council	Number of teachers			Percentage of trained teachers
	Trained (2)	Untrained (3)	Total (4)	
(1)				(5)
<i>Primary schools</i>				
Nagpur	482	25	507	95.1
Wardha	287	39	326	88.0
Chanda	144	94	238	60.5

The percentage of trained teachers has risen both in the district council and municipal primary schools. The position under the district council, Betul, is unsatisfactory, only 28 per cent. of the teachers being trained.

**57. Pay of Teachers.**—The conditions of service in non-Government primary schools continued to be depressing. The District Inspector of Schools, Betul, reports—

“Out of 593 district council teachers, only 41 are getting more than Rs. 20, 142 teachers are getting between Rs. 15 and Rs. 20 and 410 teachers are getting only Rs. 12. It is, thus, seen that higher grades are not many, and only 7.6 per cent. of teachers can hope to get more than Rs. 20 even after their whole service. This has created an atmosphere of gloom and lethargy, the teachers evince little interest in their legitimate work in the class room with the result that the standard of teaching is adversely affected.”

The District Inspector of Schools, Bhandara, states that though the pecuniary position of primary school teachers is very deplorable, the cut in the pay of teachers under the municipal committees, Bhandara and Paoni, is not yet restored. The municipal committee, Paoni, still continues to pay Rs. 10 per mensem to the untrained teachers. Some of the district reports show that there is a tendency on the part of local bodies to recruit untrained men on low pay with a view to effect economy in expenditure.

58. **Transfers of Teachers.**—The following statement gives the position of transfers of teachers under district councils in the districts of the Province :—

District Councils	Number of teachers	Number of transfers of teachers during 1939-40	Percentage of transfers	
			1939-40	1938-39
(1)	(2)	(3)	(4)	(5)

Buldana .. ..	975	258	26.46	20.0
Yeotmal .. ..	472	85	18.0	21.29
Total .. ..	10,629	2,623	24.68	23.91

In Wardha district, the percentage of transfers is reported to be above 80. The Deputy Commissioner, Wardha, in his forwarding note says—

“A serious blot on the school administration of the district council is the large number of transfers of teachers which came to about 80 per cent. When it is remembered that the district council does not pay any travelling allowance to its teachers, the lot of the hapless individuals can be more imagined than described. The chairman, district council, states that this was largely due to the introduction of the Basic syllabus and the Vidya Mandir Scheme. But, I am afraid, this was not entirely responsible for the above feature.”

The percentage of transfers, ordered by the District Council Bilaspur, increased from 19.8 to 32 per cent. The District Inspector reports that these transfers were made during the middle of the session and thus caused a good deal of dislocation in the school work. The teachers transferred, showed a sense of irresponsibility in their new charge. The Deputy Commissioner, Bilaspur, states that none of the local bodies in the district consulted the Educational authorities with regard to the transfers, appointments and promotions of teachers serving under them. The District Council, Amraoti, submitted the returns very late. The percentage of transfers in Amraoti district increased from 24 to 36.8.

The number of transfers in the Buldana district was slightly above the prescribed maximum.

In view of the fact that there is an acute shortage of suitable houses for the residence of teachers in most of the villages, the transfers put these poor teachers to a very great inconvenience. There is also reason to believe that the reported number of transfers does not always indicate the true state of affairs. Thus it has been found that in one district at least actual transfers are concealed by the device of terminating teachers' appointments and then appointing them to other schools after a brief interval, such new appointments not being regarded as transfers. This abuse is being looked into.

**59. Examination Results.**—The following table shows the percentage of passes at the Primary Certificate Examination in each district :—

District (1)	Number of candidates		Percentage of passes	
	(2)	(3)	(4)	(5)
	Appeared	Passed	1939-40	1938-39
Nagpur ..	4,609	3,206	69.5	67.7
Wardha ..	1,881	1,234	65.6	67.1
Chanda ..	1,849	1,113	60.1	57.7
Chhindwara ..	1,960	1,295	66.0	61.1
Betul ..	946	567	59.9	64.7
Jubbulpore ..	3,155	2,406	76.2	83.6
Saugor ..	2,889	2,121	73.4	74.0
Mandla ..	968	748	77.2	79.9
Nimar ..	1,445	1,233	85.3	77.3
Hoshangabad ..	2,932	2,262	77.1	73.7
Raipur ..	4,389	3,221	73.3	67.3
Bilaspur ..	4,297	3,056	71.1	69.2
Drug ..	2,142	1,414	66.0	72.9
Bhandara ..	2,988	1,907	63.8	60.1
Balaghat ..	1,403	932	66.4	66.4
Amraoti ..	5,856	3,712	63.3	65.8
Akola ..	3,835	2,598	67.7	69.2
Buldana ..	3,339	2,302	68.9	66.0
Yeotmal ..	2,419	1,578	65.2	63.8
Total ..	53,302*	36,905*	69.4	68.6

\*The discrepancy between the figures in columns (2) and (3) of this table and columns (4) and (5) of table under paragraph 54 is explained by the fact that this table takes into account all candidates including those who appeared privately whereas the table under paragraph 54 includes only those who were receiving instruction.

Out of 53,302 [51,944] who appeared in the Primary Certificate Examination, 36,905 passed giving the percentage of 69.4 [68.6]. The results in Nimar, Hoshangabad, Raipur, Bilaspur and Chhindwara districts showed satisfactory improvement. The percentage of passes in Betul decreased from 64.7 to 59.9.

**60. Buildings.**—The following tables show the position in regard to primary school buildings under district councils and municipal committees :—

District	Number of primary schools	Number of schools possessing their own buildings	Number of schools held in rented buildings	Number of schools without their own buildings	Number of schools requiring extension	Number of schools for which buildings are under construction	Number of schools supplied with buildings during the year

On account of economic depression, very few new buildings were constructed except for Vidya Mandirs. The district reports show that the buildings and equipment of primary schools continued to be inadequate. The rented buildings in which some of the primary schools meet are reported to be extremely unsatisfactory. Most of the district councils appear to have no funds to meet the expenditure on maintenance and renovation of primary school buildings. Yet they do not hesitate to come up to Government with request to be permitted to incur expenditure on items not connected with primary education.

**61. Physical Education.**—The prescribed syllabus of physical training was followed in almost all schools. The lack of trained teachers is the chief handicap.

Indian games were popular in primary schools. Tournaments were held as usual by local bodies. The question of provision of adequate play-grounds in large towns is still a problem. Medical inspection in primary schools, where it took place, was nominal and superficial.

**62. Syllabus.**—The old syllabus, the revised syllabus of 1936 and the basic syllabus were in operation in primary schools in the Province during the year under report. It was noticed that in some schools, the basic syllabus was introduced without basic craft, while in some the teaching was entrusted to teachers who were not trained in the basic syllabus and did not understand the method of correlation. The syllabus followed in these schools was, thus, neither the proper basic syllabus nor a previously recognized syllabus.

It was, therefore, considered necessary that the basic syllabus should be introduced step by step. The managers of primary schools were informed that before adopting the basic syllabus, they should have trained teachers for it and necessary equipment.

In paragraph 3 of his forwarding note, the Deputy Commissioner, Drug, says—

“There is an undoubted confusion as to the syllabus to be followed in the primary schools. In most of the schools, there was an admixture of the old and new syllabus and the teachers were not quite clear as to which was to be followed. The basic syllabus still further confused the position. Definite instructions in this respect are necessary.”

Definite instructions regarding the syllabus were issued after the close of the year under report.

**63. Adult Schools.**—A scheme for the establishment of 50 adult schools in the Central Provinces and Berar was sanctioned by the Provincial Government in 1937-38. The schools were started by local bodies with the approval and assistance of the department and a grant of Rs. 40 per school per annum is being paid to them every year. The schools are held usually in the evenings in the existing school buildings and remain closed for five months during the hot weather and the rains. Few of these schools are working satisfactorily.

During the year under report, 7 colleges, 3 high schools for girls and 27 high schools for boys opened adult classes. The number of pupils who attended these classes was 669. The expenditure on these classes was met from the amalgamated fund and subscriptions. The educative value of these adult classes has not yet been assessed.

**64. Vidya Mandirs.**—During the year under review, 91 plots of land were finally accepted by Government. Two of these plots were large enough to support two Vidya Mandirs each.

Out of these plots, 83 were handed over to the Agriculture Department for starting operations in proper time and they were improved and brought under cultivation during the year. The total area thus brought under cultivation was 3,297.66 acres. It was, however, found that the actual expenditure for cultivating these plots was higher than what was originally estimated, as on some of these plots considerable improvements had to be effected. A sum of Rs. 60,598 was spent on agricultural operations during the year under report.

A cheap type design for building: similar to the dwellings of the villagers was prepared and allotments were placed at the disposal of the Deputy Commissioners for constructing such buildings. The work of constructing 78 buildings was started by the end of 1938-39 and was completed during the year 1939-40 at a total cost of Rs. 38,847 out of which a sum of Rs. 7,125 was met from local subscriptions. The amount actually spent during 1939-40 was Rs. 9,779.

The Vidya Mandir syllabus for a four years' course prepared by the syllabus committee appointed by Government on the lines of the Zakir Hussain syllabus was introduced in the Vidya Mandirs which were equipped with craft implements, raw materials and suitable furniture. A sum of Rs. 17,243 was spent on the equipment of Vidya Mandirs. The distance of the Vidya Mandirs from district headquarters and the poor nature of the communications considerably handicapped the working of the syllabus in the initial stages. Detailed records of craft work are being maintained and the aptitude of the boys for the basic craft and the progress achieved by them are being closely watched. Boys span for about  $1\frac{1}{2}$  to 2 hours daily and the total amount of yarn produced during the year was approximately 12 maunds and 20 seers.

The Vidya Mandirs aroused considerable enthusiasm in the villages in the beginning and 3,163 boys were enrolled. But the enrolment subsequently went down to 2,469 for reasons which have been found to be more or less economic in nature.

It was not possible fully to work out the details of the scheme before hand on account of the unfamiliar nature of its various aspects and the haste with which it was launched over a wide area. It was necessary, therefore, to make adjustments from time to time and the defects noticed are being remedied in the light of the experience gained.

**65. Administration.**—Local bodies are responsible for the administration and control of primary schools, while the work of inspection is done by the district inspecting staff of the Education Department. Most of the district reports show that the relations between the inspecting staff and the local bodies were cordial. There

were few local bodies, however, who followed the advice of the District Inspectors and their assistants in the matter of appointments, transfers and promotions of teachers. The District Inspector of Schools, Bilaspur, reports—

“The necessity of consulting the Educational authorities in matters of transfers, appointments and promotions has been impressed on the local bodies from time to time, but it is regrettable that so far no local body has taken full advantage of our existence in the district.”

The District Inspector of Schools, Raipur, states—

“It is generally seen that the teachers are sometimes employed on other than educational work.”

The District Inspector, Chanda, is of opinion that untimely and indiscriminate transfers of teachers, poor salaries and the number of untrained teachers are responsible for the unsatisfactory state of primary education. On the whole, it must be recorded that while the local bodies are tenacious of their rights in the matter of the control and administration of primary education, comparatively few have as yet evinced a sense of the responsibilities and duties which go with those rights.

#### CHAPTER VI.—THE EDUCATION OF GIRLS

**66. Institutions.**—The number of recognized institutions (excluding European schools) for girls has increased by 30 to 609 [579] and that of unrecognized institutions has gone down by 9 from 44 to 35 as detailed below :—

Kind of institutions (1)	Government		District Council		Municipal		
	1938-39 (2)	1939-40 (3)	1938-39 (4)	1939-40 (5)	1938-39 (6)	1939-40 (7)

Unrecognized institutions.	36	64	554	391	1,990	1,957	—33
Grand Total ..	<u>10,397</u>	<u>10,904</u>	<u>2,108</u>	<u>3,279</u>	<u>52,313</u>	<u>56,720</u>	<u>+4,407</u>

67. Numbers.—The total number of girls, enrolled in all institutions (including those for males), shows an increase of 15,490 from 89,669 to 105,159. 44,754 [37,356] girls were under instruction in boys' recognized institutions and 3,685 in boys' unrecognized institutions. These figures indicate that co-education is becoming popular. In fact co-education is helping to solve some of the problems in the way of primary education for girls.

The following statement gives the distribution of girls under instruction in institutions for males during the year 1939-40 :—

Kind of institutions for males	1939-40
Arts Colleges ..	212
Professional Colleges ..	17
High Schools ..	442
Indian-English Middle Schools ..	2,094
Middle Schools ..	5,859
Primary Schools ..	36,057
Normal Schools ..	29
Special Schools ..	44
Total ..	<u>44,754</u>
Unrecognized institutions ..	<u>3,685</u>
Grand Total ..	<u>48,439</u>

**68. College Education.**—The number of women students under instruction was 313 [259] showing an increase of 54. There has been a steady increase in the number of women students in most of the colleges. It is, however, curious that in Nagpur city, the Morris College for men should have more women students than the Central College for Women. It is for consideration whether the already overcrowded Morris College should be permitted to admit women candidates offering courses of study that are available at the Central College for Women, Nagpur.

**69. Secondary Education.**—(a) *High Schools.*—The number of high schools for girls has increased from 9 to 13 and the enrolment from 659 to 774. The following high schools for girls were started during the year under report :—

- (1) Providence Girls' High School, Nagpur.
- (2) Urdu Girls' High School, Nagpur.
- (3) Private Girls' High School, Yeotmal.
- (4) Anjuman Girls' High School, Jubbulpore.

(b) *Indian-English Middle Schools.*—The number of Indian-English Middle Schools rose from 32 to 41 and enrolment increased by 703 to 3,979 [3,276]. The increase in the number of schools and scholars is very encouraging.

**70. Hostels.**—The number of boarders in the hostels attached to the Central College for Women, decreased by 4 to 38 [42]. The accommodation in the hostel attached to the Normal School for Women, Jubbulpore, is reported to be inadequate but on account of financial stringency, the building cannot be extended.

**71. Indian Middle Schools.**—The number of Indian Middle Schools for girls with their enrolment and average daily attendance during the years 1938-39 and 1939-40 is given below :—

District	1938-39			1939-40		
	Number of schools	Enrolment	Percentage of attendance	Number of schools	Enrolment	Percentage of attendance

Bilaspur ..	18	1,622	78.6	18	1,735	74.1
Drug ..	12	744	70.8	13	804	70.9
Total ..	213	16,059	77.1	222	17,582	76.7
Grand Total ..	482	39,360	80.7	500	42,406	79.9

**73. Distribution of Pupils in Classes.**—The number of girls under instruction at the primary stage in recognized institutions for both boys and girls stands at 88,303 [81,236] showing an increase of 7,067.

Statement showing the distribution, classwise, of girls under instruction in the primary stage in recognized institutions for girls and boys during 1938-39 and 1939-40 :—

Class	1938-39	1939-40	Increase or decrease
(1)	(2)	(3)	(4)
Class I	.. 37,859	37,953	+94
Class II	.. 24,150	22,487	-1,663
Class III	.. 11,281	16,979	+5,698
Class IV	.. 7,946	10,884	+2,938
Total	.. 81,236	88,303	+7,067

The enrolment has increased in classes I, III and IV and it has decreased in class II. The increase in the upper classes indicates that wastage and stagnation are gradually being reduced.

**74. Examination Results.**—The number of girls who appeared for the High School Certificate Examination was 561 [425] (including girls who appeared for the Supplementary High School Certificate Examination, specially held for the students of the Osmania University during the months of August and September 1939). The percentage of passes has risen from 54 per cent. to 59 per cent. The percentage of passes in the Primary Certificate Examination was 69.9 [69.2]. The results of examinations have improved.

**75. Teaching Staff.**—The table below shows the percentage of trained teachers (men and women) in girls' schools during 1938-39 and 1939-40 :—

Schools	1938-39			1939-40		
	Trained	Untrained	Percentage of trained teachers	Trained	Untrained	Percentage of trained teachers
(1)	(2)	(3)	(4)	(5)	(6)	(7)
High Schools..	30	45	40.0	33	41	44.5
Middle Schools	266	146	64.6	286	147	66.0
Primary Schools	962	566	63.0	1,011	588	63.2

It is pleasing to record that there has been an all round, if slight, improvement in the number of trained teachers working in girls' schools. It is hoped that the percentage of trained mistresses will be raised in high schools in which more than half are reported to be untrained.

**76. Training of Teachers.**—The number of scholars in normal schools has gone down by 122 to 199 [321]. This is due to the fact that no new admissions were made in the normal schools to enable the staff to undergo a course of training at Wardha. The number of girls who appeared for the Trained Teachers' Certificate Examination has increased from 141 to 145 and 104 [91] were successful.

**77. School Committees.**—Reports of the Inspectresses of Schools regarding the work of these committees are not very encouraging. The Inspectress of Schools, Nagpur Circle, reports—

“In almost all the Government Girls’ schools, there are Ladies’ Committees but they are rather a nuisance than a help to the schools. In many cases they consist of members who are not qualified enough to understand and realize their responsibilities as members. The members unnecessarily interfere in the internal affairs of the schools and thus cause ill-feelings amongst the staff.”

**78. Physical Education.**—Games are played in high and normal schools but they cannot be properly organized in the primary schools in which the lack of open space is the chief handicap. Medical inspection of Government girls’ schools is carried out by lady doctors.

**79. Tone and Discipline.**—The Inspectress of Schools, Jubbulpore Circle, reports—

“There has been no improvement in the attitude of the teachers and the respect for authority is on the wane.”

The tone and discipline in the Nagpur Circle is reported to be satisfactory.

## CHAPTER VII.—MUSLIM EDUCATION

**80. Institutions.**—Government maintains the Urdu High School, Urdu Normal School for Males and Anglo-Urdu Middle School for Girls at Amraoti. Urdu and Persian classes are maintained in several Government high schools in other districts.

**81. Numbers.**—The following table gives the number of pupils in the various stages of instruction :—

(1)	1938-39			1939-40	
	Boys (2)	Girls (3)	Total (4)	Boys (5)	Girls (6)
<b>Recognized institutions—</b>					
Arts and Science Colleges.	208	5	213	239	10
Professional Colleges ..	49	..	49	45	..
High Schools ..	1,186	16	1,202	1,261	40
Indian-English Middle Schools.	3,524	214	3,738	4,087	323
Middle Schools ..	987	47	1,034	954	71
Primary Schools ..	32,759	8,932	41,691	31,920	11,674
Normal Schools ..	104	19	123	32	8
Other Special Schools ..	186	96	282	230	85
<b>Total ..</b>	<b>39,003</b>	<b>9,329</b>	<b>48,332</b>	<b>38,768</b>	<b>12,211</b>
<b>Unrecognized institutions ..</b>	<b>2,094</b>	<b>1,075</b>	<b>3,169</b>	<b>2,241</b>	<b>984</b>
<b>Grand Total ..</b>	<b>41,097</b>	<b>10,404</b>	<b>51,501</b>	<b>41,009</b>	<b>13,195</b>

(1)	1939-40 Total (7)	Increase or decrease		
		Boys (8)	Girls (9)	Total (10)
<b>Recognized institutions—</b>				
Arts and Science Colleges ..	249	+31	+5	+36
Professional Colleges ..	45	—4	..	—4
High Schools ..	1,301	+75	+24	+99
Indian-English Middle Schools ..	4,410	+563	+109	+672
Middle Schools ..	1,025	—33	+24	—9
Primary Schools ..	43,594	—839	+2,742	+1,903
Normal Schools ..	40	—72	—11	—83
Other Special Schools ..	315	+44	—11	+33
Total ..	50,979	—235	+2,882	+2,647
Unrecognized institutions ..	3,225	+147	—91	+56
Grand Total ..	54,204	—88	+2,791	+2,703

The number of Muhammadan pupils in Arts and Science Colleges, High Schools, Indian-English Middle Schools, Primary Schools and Special Schools shows an increase while that in Professional Colleges, Indian Middle Schools and Normal Schools has decreased. The number of Muslim girls has increased by 2,791 which indicates that female education is becoming popular among the Muslims.

**82. Percentage of Pupils to the Total Number under Instruction.**—The following table gives the percentage of Muslim pupils to the total number of pupils under instruction in recognized institutions, the percentage of Muslim population to the whole being 4.4 per cent. :—

Stages of instruction (1)	Number of Muhammadan pupils		Total number of pupils under instruction		Percentage	
	1938-39 (2)	1939-40 (3)	1938-39 (4)	1939-40 (5)	1938-39 (6)	1939-40 (7)
Colleges ..	262	294	3,851	3,921	6.8	7.5
Secondary Schools	5,974	6,736	68,969	71,910	8.7	9.3
Primary Schools.	41,691	43,594	417,493	440,769	9.98	9.89
Special Schools.	405	355	4,811	4,897	8.4	7.04
Total ..	48,332	50,979	495,124	521,497	9.8	9.8

The percentage of Muslim scholars to the total number of pupils under instruction was 9.8 as in the previous year. This compares very favourably with the percentage of Muslim population in the province.

**83. Expenditure.**—It is difficult to give a correct estimate of the expenditure on Muslim education as a large proportion of Muslim pupils attend ordinary schools. The following table gives a comparative statement of grants paid to different institutions for Muslim and non-Muslim boys and girls during 1939-40 :—

(1)	Aided Private High Schools		Aided Municipal High Schools		Aided Private Middle Schools	
	Total number of schools	Total amount of grant paid	Total number of schools	Total amount of grant paid	Total number of schools	Total amount of grant paid
	(2)	(3)	(4)	(5)	(6)	(7)
<i>For males.</i>						
		Rs.		Rs.		Rs.
All Schools (including those for Muslims).	30	1,40,330	8	43,726	70	85,993
Schools for Muslims ..	4	19,019	..	..	3	2,488
All other schools (excluding schools for Muslims).	26	1,21,311	8	43,726	67	83,505
<i>For girls.</i>						
All Schools (including those for Muslims).	5	18,877	..	..	15	15,386
Schools for Muslims ..	..	..	..	..	1	1,080
All other schools (excluding schools for Muslims).	5	18,877	..	..	14	14,306
(1)	Aided Municipal Middle Schools		Aided Private Primary Schools		Aided Special Schools	
	Total number of schools	Total amount of grant paid	Number of schools	Grant paid	Number of schools	Grant paid
	(8)	(9)	(10)	(11)	(12)	(13)
<i>For males.</i>						
		Rs.		Rs.		Rs.
All schools (including those for Muslims).	38	76,906	103	33,528	4	2,893
Schools for Muslims ..	..	..	7	2,951	..	..
All other schools (excluding schools for Muslims).	38	76,906	96	30,577	4	2,893
<i>For girls.</i>						
All schools (including those for Muslims).	4	3,268	69	22,609	6	6,335
Schools for Muslims ..	..	..	7	2,002	..	..
All other schools (excluding those for Muslims).	4	3,268	62	20,607	6	6,335

84. **Inspectorate.**—The percentage of Muslim Assistant District Inspectors and District Inspectors was 13.5 and 15.2, respectively. Four Muslim Assistant District Inspectors of Schools inspect Urdu schools in Berar and facilities exist for the inspection of such schools in the remaining parts of the province.

## CHAPTER VIII.—EDUCATION OF BACKWARD CLASSES

### A.—HARIJANS.

85. **Numbers.**—The number of male scholars 48,717 [50,824] has gone down by 2,107 while the number of girls 4,619 [3,202] has increased by 1,417. There was thus a decrease of 690 in the total enrolment during the year under review.

The table below gives the distribution of scholars in recognized schools :—

Stages of instruction (1)	1938-39			1939-40		
	Boys (2)	Girls (3)	Total (4)	Boys (5)	Girls (6)	Total (7)
Primary Schools ..	46,948	2,906	49,854	44,694	4,221	48,915
Middle Schools ..	2,957	229	3,186	3,047	275	3,322
High Schools ..	389	11	400	438	16	454
Arts and Science Colleges ..	67	1	68	69	4	73
Law Colleges ..	9	..	9	7	..	7
Training Colleges ..	..	..	..	1	..	1
Agricultural College ..	2	..	2	..	..	..
Normal Schools ..	69	30	99	36	13	49
Special Schools ..	383	25	408	425	90	515
<b>Total</b> ..	<b>50,824</b>	<b>3,202</b>	<b>54,026</b>	<b>48,717</b>	<b>4,619</b>	<b>53,336</b>

Stages of instruction (1)	Increase or decrease		
	Boys (8)	Girls (9)	Total (10)
Primary Schools ..	..	..	-2,254 +1,315 -939
Middle Schools ..	..	..	+90 +46 +136
High Schools ..	..	..	+49 +5 +54
Arts and Science Colleges ..	..	..	+2 +3 +5
Law Colleges ..	..	..	-2 .. -2
Training Colleges ..	..	..	+1 .. +1
Agricultural College ..	..	..	-2 .. -2
Normal Schools ..	..	..	-33 -17 -50
Special Schools ..	..	..	+42 +65 +107
<b>Total</b> ..	<b>-2,107</b>	<b>+1,417</b>	<b>-690</b>

86. **Separate Schools.**—The total number of separate Harijan schools is 35 [40]. There are 24 (including 6 for girls) in Nagpur, 2 in Wardha, 3 in Nimar, 1 in Chhindwara, 4 in Hoshangabad and 1 in Akola. The need for separate schools is gradually disappearing. The Harijan pupils are being freely admitted to ordinary schools.

87. Hostels.—The following Harijan hostels received maintenance and boarding grants from Government :—

Name of hostel (1)	Maintenance grant (2)	Boarding grant (3)
	Rs.	Rs.
Harijan Hostel, Wardha ..	..	650
Chokhamela Hostel, Chanda ..	..	750
Depressed Classes Girls' Hostel, Nagpur ..	..	375
Chokhamela Hostel, Nagpur ..	849	2,000
Harijan Hostel, Harda ..	..	225
Shree Januji Mahar Mofat Vasti Griha, Akola ..	539	840
Chokhamela Free Boarding, Basim ..	285	630
Harijan Free Boarding House, Pusad ..	..	450
Scheduled Castes' Amalgamated Hostel, Amraoti ..	659	1,400
Chokhamela Boarding, Yeotmal ..	457	..
Chokhamela Boarding House, Chikhali ..	536	..
Harijan Bhawan Hostel, Raipur ..	128	..

There are, in addition, two Harijan hostels at Bhandara, which have applied for grant. The financial position of some of the Harijan hostels is far from satisfactory.

#### B.—ABORIGINAL AND WANDERING TRIBES

The following table gives comparative figures of pupils belonging to wandering and aboriginal tribes during the year under report :—

Stages of instruction (1)	1938-39			1939-40		
	Boys (2)	Girls (3)	Total (4)	Boys (5)	Girls (6)	Total (7)
Primary Schools ..	26,488	1,647	28,135	33,801	2,485	36,286
Middle Schools ..	425	18	443	919	116	1,035
High Schools ..	45	2	47	78	16	94
Colleges ..	..	..	..	41	1	42
Special Schools ..	123	..	123	228	4	232
<b>Total</b> ..	<b>27,081</b>	<b>1,667</b>	<b>28,748</b>	<b>35,067</b>	<b>2,622</b>	<b>37,689</b>

Stages of instruction (1)	Increase or decrease		
	Boys (8)	Girls (9)	Total (10)
Primary Schools ..	+7,313	+838	+8,151
Middle Schools ..	+494	+98	+592
High Schools ..	+33	+14	+47
Colleges ..	+41	+1	+42
Special Schools ..	+105	+4	+109
<b>Total</b> ..	<b>+7,986</b>	<b>+955</b>	<b>+8,941</b>

The number of male students has increased by 7,986 from 27,081 to 35,067 and the number of girls has increased from 1,667 to 2,622 by 955. The total increase by 8,941 from 28,748 to 37,689 is very encouraging and is due to the opening of new primary schools in backward areas.

88. **Separate Schools.**—The Gond Sabha Mandal maintains a primary school in Nagpur, which had 93 pupils on roll including 21 girls. The Bhumijan Seva Mandal, started by Mr. Elwin, maintains 10 primary schools and a hostel at Sunpuri in Mandla district which had 123 boarders.

89. **Special Facilities.**—In accordance with the scheme for the amelioration of the condition of Harijans and Aborigines, sanctioned by Government, the following grants were sanctioned for the year 1939-40 :—

(a) *Harijans.*—(1) Rs. 300 to each district committee appointed by the Harijan Sewak Sangh in the Central Provinces and Berar for the education of Harijan pupils—Rs. 300 × 19 districts = Rs. 5,700.

(2) Rs. 300 to each district committee appointed by the Harijan Sewak Sangh in the Central Provinces and Berar for the supply of books and school material to Harijan students studying in recognized primary schools—Rs. 300 × 19 districts = Rs. 5,700.

(b) *Aborigines.*—(1) A grant of Rs. 240 per annum per school in the Mandla district for the opening of 50 primary schools (40 schools opened by District Council, Mandla, and 10 schools opened by private bodies in Mandla district)—50 schools × Rs. 240 = Rs. 12,000.

(2) Grants at Rs. 240 per school for opening of new schools in the zamindari area of Chanda, Chhindwara, Bilaspur and Drug districts—Rs. 2,500.

(3) Three Gond propagandists at Rs. 30 per mensem were sanctioned for propaganda work in connection with the opening of aboriginal schools in the zamindari area of Drug and Bilaspur districts combined, Chanda district and Chhindwara district.

(4) A grant of Rs. 3 per mensem per boarder was sanctioned for 50 boarders at the Sunpuri hostel in the Mandla district.

The education of aboriginal tribes is receiving the special attention of Government and a detailed scheme for providing educational facilities for these tribes is being prepared by Mr. W. V. Grigson, I.C.S., Aboriginal Tribes Enquiry Officer, Central Provinces and Berar, who has issued a questionnaire on the subject.

#### CHAPTER IX.—EDUCATION OF EUROPEANS AND ANGLO-INDIANS

90. **Administration.**—Sardar Bahadur Ishar Singh, Deputy Director of Public Instruction, acted as Inspector of Anglo-Indian and European Schools from the beginning of the year to 20th October 1939 and Dr. V. S. Jha from the 21st October 1939 to the end of the year.

91. **Higher Education.**—The number of Anglo-Indians and Europeans, undergoing higher education, further decreased from 20 to 18 (15 males and 3 females).

**92. Number of Schools.**—The following table gives the number of different kinds of institutions in the year under report :—

Kind of institutions	Year	
	1939	1940
For Boys—		
High Schools	4	4
Middle Schools	4	4
Primary Schools	5	6
For Girls—		
High Schools	5	5
Middle Schools	6	6
Primary Schools	12	11
<b>Total</b>	<b>35</b>	<b>36</b>

The variation in the number of primary schools for boys and girls is due to the fact that the Bengal-Nagpur Railway European School, Dongargarh, which was classed as girls' school in the last year's report had to be reclassified as boys' school on account of greater increase in the enrolment of boys than that of girls.

**93. Number of Pupils.**—The following table gives the distribution in the various grades of schools :—

Kind of schools	1938-39	1939-40	Decrease or increase
(1)	(2)	(3)	(4)
Boys' Schools—			
High Schools	168	161	-7
Middle Schools	362	353	-9
Primary Schools	623	723	+100
<b>Total</b>	<b>1,153</b>	<b>1,237</b>	<b>+84</b>
Girls' Schools—			
High Schools	81	107	+26
Middle Schools	326	355	+29
Primary Schools	1,364	1,324	-40
<b>Total</b>	<b>1,771</b>	<b>1,786</b>	<b>+15</b>
<b>Grand Total</b>	<b>2,924</b>	<b>3,023</b>	<b>+99</b>

The total number increased by 99 from 2,924 to 3,023. This increase in the number of pupils is shared by both boys' and girls' schools.

**94. Examination Results.**—The following table gives the results of the Cambridge Local Examinations which were held in 1939 for pupils completing middle and high school courses :—

Kind of examination	Number appeared	Number passed	Percentage
(1)	(2)	(3)	(4)
Cambridge School Certificate Examination—			
1938-39	129	62	48.6
1939-40	132	94	71.2
Junior Cambridge Examination—			
1938-39	116	76	65.5
1939-40	122	71	58.19

**95. Teaching Staff.**—The number of teachers increased by 1, from 154 to 155, the total number of trained teachers decreased by 4 from 105 to 101 and that of untrained teachers increased by 5 from 49 to 54. Attempts to reduce the number of untrained teachers are being made every year by awarding two stipends of Rs. 50 each for the training of teachers.

**96. Expenditure.**—The cut on account of financial stringency on the maintenance grants continued to be  $6\frac{3}{4}$  per cent. The total annual maintenance grant amounted to Rs. 83,238 as against Rs. 83,226 in 1938-39. The total expenditure on these schools was Rs. 5,09,917 as against Rs. 4,34,489 of the previous year, Government contribution being Rs. 1,36,226. The total non-recurring expenditure on buildings and furniture amounted to Rs. 16,345, Government grant being Rs. 10,009. The number of scholarships and stipends and orphan grants were awarded as usual during the year under report. The expenditure on scholarships and stipends was Rs. 8,471. The allotment under orphan grants was Rs. 25,966.

The average annual cost of educating a pupil in secondary schools decreased from Rs. 174-9-0 to Rs. 154-7-0, Government contributions to it being Rs. 47-13-0 [Rs. 46-6-0]. The average cost of educating a pupil in the primary stage increased from Rs. 72-3-0 to Rs. 77-3-6, the cost to Government being Rs. 17-13-3.

**97. Hostels.**—The number of hostels remained unchanged at 11 but the number of boarders increased by 16 from 732 to 748. The monthly cost per head varied in different institutions from Rs. 10 to Rs. 25.

**98. Provincial Board.**—The Board for Anglo-Indian and European Education, Central Provinces and Berar, met once this year in November 1939.

## CHAPTER X.—TRAINING OF TEACHERS (MEN).

### SPENCE TRAINING COLLEGE, JUBBULPORE.

**99. Numbers.**—The enrolment for the year was 174 [142] of whom 48 were graduates and the rest undergraduates, 44 were stipendiaries and 130 non-stipendiaries. Of the total number, 6 were graduate women students and 11 undergraduate women students.

**100. Selection of Candidates.**—The Principal reports that at the present time the demand for admission to the college is probably keener than ever and there is tremendous competition for entry.

**101. Results.**—The results were good as usual, 48 appeared for B.T. and 48 passed. The result of the Dip. T. Examination was also 100 per cent of passes.

**102. Physical Education.**—The college activities proceeded on the usual lines. The gymnasium was used a good deal during the year by those who do not shine in organized games.

## NORMAL SCHOOLS FOR MEN

**103. Numbers.**—The number of normal schools was 8 [8]. The total enrolment in the normal schools was 410 [974] showing a decrease of 564. The decrease in enrolment is due to the fact that no admissions were made in the first year class of Government normal schools. This step was found necessary for arranging the training of normal school staff in basic education.

The following table gives the expenditure on normal schools for men, during the years 1938-39 and 1939-40 :—

	Expenditure in		Increase or decrease
	1938-39	1939-40	
	Rs.	Rs.	Rs.
Government Normal Schools for Men ..	2,15,577	1,54,794	—60,783
Unaided Mission Normal School for Men, Dhambhari.	3,035	3,877	+842
Total ..	2,18,612	1,58,671	—59,941

**104. The Vidya Mandir Training School.**—The Vidya Mandir Training School at Wardha continued to function this year to train teachers for a certain number of district council primary schools on the lines recommended by the Zakir Hussain Committee. Three batches consisting of primary teachers were deputed for training for five months each.

**105. The Vidya Mandir Training Institute.**—The Vidya Mandir Training Institute, Wardha, was started as a training centre for training the staff of the normal schools in the methods of basic education. The course for training was fixed at five months. During the first term from the 1st July 1939 to the 30th November 1939, 31 teachers were selected from normal schools and 28 teachers from secondary schools to undergo training. The general programme of work was as follows :—

- (i) Initiation into the ideology of Wardha Scheme.
- (ii) Intensive study of basic craft.
- (iii) Course of instruction in Basic National Education.
- (iv) The method of correlating the teaching of the various subjects with the basic craft.

During the second term, 38 teachers were selected from the first batch for a further course of training and 11 new candidates were selected for training from the 1st December 1939. A course of six weeks in utilitarian cardboard work was arranged and a course of six weeks of work was arranged during the second term. A number of experiments in spinning were conducted in February 1940.

## CHAPTER XI.—MISCELLANEOUS

106. **Education of Jains.**—The total number of Jain pupils receiving instruction at the various stages was 8,771 [7,762]. Of these, 43 boys were in colleges, 227 boys and 8 girls in high schools, 1,156 boys and 130 girls in middle schools, 4,208 boys and 2,961 girls in primary schools and 15 boys and 23 girls in special schools.

107. **Government Engineering School, Nagpur.**—The total enrolment during the year was 123 [171]. The decrease is mainly due to the fact that in the previous year 33 students from the Osmania University were admitted as a special case. Ninety-two candidates appeared for the examination in the various departments and 65 passed, five students received training in the Oil-Engine class.

Almost all the students who passed out of the school secured employment. Many of the mechanical engineering students were appointed in the Gun Carriage Factory, Jubbulpore.

108. **Special Schools.**—The number on roll at the Deaf and Dumb School, Nagpur, was 22 [22]. The average attendance was 19 [15].

The expenditure on education including the Government grant of Rs. 952 was Rs. 2,710 [Rs. 2,288]. The staff consists of three teachers.

The Blind Boys' Institute at Nagpur had an enrolment of 43 [41] with an average attendance of 37 [34]. There are seven teachers on the staff. The total expenditure, including the Government grant of Rs. 1,510, was Rs. 5,493.

109. **Nagpur School of Arts.**—The figures of enrolment and attendance were 48 and 37, respectively. The total expenditure was Rs. 1,698 [Rs. 2,004]. The school received a Government grant of Rs. 547 [Rs. 450] and provides instruction in Drawing and Painting.

110. **Factory Schools.**—The statement below gives particulars in regard to factory schools :—

Name of schools	Enrolment		Grant paid	
	1938-39	1939-40	1938-39	1939-40
(1)	(2)	(3)	(4)	(5)
<i>Aided</i>				
Gun Carriage Factory School, Jubbulpore.	181	184	1,200	1,200
Gokuldas Mills Factory School, Jubbulpore.	43	Closed	920	..
Kymore Cement Factory, Katni ..	75	91	100	100
<i>Unaided</i>				
Perfect Pottery Primary School, Jubbulpore.	52	51	..	..
Cement Factory Primary School, Katni	132	141	..	..

**111. Night Schools.**—The table below gives the number of night schools and the enrolment in them in each district during 1938-39 and 1939-40 :—

District	Number of schools		Enrolment	
	1938-39	1939-40	1938-39	1939-40
(1)	(2)	(3)	(4)	(5)
Nagpur ..	3	3	72	77
Chanda ..	2	1	53	42
Chhindwara ..	3	1	100	85
Jubbulpore ..	13	3	259	117
Nimar ..	5	24	95	449
Hoshangabad ..	3	8	88	176
Raipur ..	4	2	84	102
Bhandara ..	2	1	63	35
Amraoti ..	4	1	97	10
Akola ..	3	15	89	317
Buldana ..	8	2	183	45
Yeotmal ..	6	1	105	26
<b>Total</b> ..	<b>56</b>	<b>62</b>	<b>1,298</b>	<b>1,481</b>

The closure of night schools in Jubbulpore and Yeotmal districts is reported to be due to lack of sufficient attendance.

**112. Scout Association.**—A grant of Rs. 9,700 was provided in the budget, out of which a sum of Rs. 8,653-13-6 was paid to the Hindustan Scout Association during the year under review.

G. G. R. HUNTER,  
*Director of Public Instruction,  
 Central Provinces and Berar.*

## EXPLANATORY NOTES

(1) Figures for *urban* areas (*i.e.*, municipal, cantonment, notified and small town committee areas) are excluded from this table.

(2) The expenditure on institutions includes expenditure on buildings and miscellaneous charges incurred on the schools.

(3) The total number of pupils from rural areas, who are under instruction, is shown in the last column of Tables IV-A and B and V-A and B.

(4) This table includes statistics relating to *training schools* whether situated in urban or in rural areas, in which the majority of the students are being trained for employment in rural areas. It does not include the returns of training institutions located in rural areas, the majority of the students in which are trained for schools in *urban* areas.
