MAHI KANTHA

Area.—The estimated area of 9,300 square miles entered in official Reports until the year 1890-91 was reduced to 3,528 square miles in 1891-92 to accord with the G. T. sheets, but even this figure is only approximately correct and the probable area of the Agency is 3,124 square miles.

Survey.—There has been no survey settlement except in a portion of Idar State and in the Taluka of Khadal, in certain villages of the Katosan and Gadhwada Thana Circles, and in the village of Ghodasar under Ghodasar Taluka. Survey has been completed in the Vatrak Kantha Thana Circle but no classification made. In certain other Talukas survey work for revenue purposes is in progress.

Trade and Manufacture.—The Chief Industry in the Agency is the dyeing of saris and covers of quilts in Vasna and Pethapur. The total export of dyed cloth was valued at Rs. 95,000 in 1921-22. There are six ginning factories in this Agency, two of which are situated at Jhotana in Katosan Taluka, two at Vaktapur and one each at Himatnagar and Dabhoda. That at Himatnagar has been closed down for some years.

Important Public Works.—The important Works constructed since 1875 in the Agency are given below :—

Name of work.	Year of completion.	Cost.
		Rs.
1. Idar-Vaghra Drainage Cutting ..	1902	15,000
2. Bayad-Vaghra do. ..	1902	15,000
3. Danta-Ambaj-Roho-Kheradi Road
4. Jhotana-Santhal Road ..	1900	..
5. Talod-Modasa Road
6. Satlasna-Anand-Bhakhari Road ..	1900	..
7. Vaktapur-Himatnagar Road ..	1886	..
8. Dabhoda-Sadra Road
9. Idar-Samlaji Road ..	1900	10,000
10. Idar-Himatnagar Road ..	1902	50,000
11. Scott Lake in Mansa ..	1889	40,000
12. Scott College at Sadra ..	1886	52,000
13. Tank at Raigadh ..	1902	21,000
14. Tank at Isri ..	1902	22,000
15. Pratap Palace at Himatnagar ..	1912	..

Communications.—Since the year 1897 the Viramgam-Mehsana, Ahmedabad-Prantij and Kalol-Vijapur branch railways have been laid in this Agency. The Ahmedabad-Prantij Line, which was constructed in 1896-97, and opened for traffic in 1897, was extended to Khed-Brahma in the year 1909-10. The extension was opened for traffic in the year 1911 and has materially benefitted the State of Idar, the Taluka of Ilol and the Talukas under the Sabar Kantha Thana Circle. To connect Sadra, the headquarters of this Agency, with the Ahmedabad-Prantij Khed-Brahma Railway there are two roads (1) a metalled road from Sadra to Dabhoda—distance 13 miles and (2) an unmetalled road from Sadra to Prantij—distance 12 miles. Since the year 1920, a motor service has been established on the Sadra-Dabhoda road. The Kalol-Vijapur Railway, though not actually passing through the Agency limits, has stations at Limbodra, Randheja, Makakhad and Lodra which serve the Mahi Kantha towns of Sadra, Pethapur, Mansa and Varsoda. Limbodra railway station is about 5 miles from Sadra, the headquarters of the Agency. In the monsoon, when the river Sabarnati is flooded, connection is maintained since the year 1919 by a ferry service established by the Baroda Government near Sadra. The Mehsana-Kheralu Branch was extended by the Baroda Government to Taranga Hill Station in 1910. This line, though not actually in Agency limits, serves the Talukas of Sudasna and those comprised in the Gadhwada Thana Circle and is greatly used by the Jain pilgrims visiting the temples at Taranga Hill which are situated about 2 miles from the station. The Ambaji-Taranga Light Railway, which was opened for traffic in 1919-20, has since been closed and gone into voluntary liquidation. The Baroda Government connected Dewasna, the terminus of their Kadi-Bhoyani Line with Becharaji, the terminus of their Chanasma-Bechraji Line, and the new line was opened for traffic in 1919-20. A portion of this line passes through the Katosan Thana Circle and the Taluka of Katosan. The Nadiad-Kapadvanj Railway, though not actually passing through the Agency limits, has proved beneficial from the commercial point of view to the Taluka of Khadal, the Vatrak Kantha Thana and Mahisa Peta Thana of this Agency.

Famine.—The whole Agency suffered from the great famine of 1899-1900. Relief measures were commenced in December 1899 and were closed in November 1900. The highest daily average number on relief works was 30,000 in July 1900 and those receiving gratuitous relief numbered 6,000. The total amount spent during the year for famine relief amounted to Rs. 4,76,967. The next year again there was scarcity, and the whole Agency suffered from the famine of 1901-02. The daily average number of relief workers was over 13,000 in June 1902 and decreased to 1,200 in October. Idar State borrowed famine loans of Rs. 3,50,000 from Government and the amounts borrowed by other States in the Agency amounted to Rs. 3,77,780 in all. The whole Agency suffered from a fodder famine in 1911-12. Tagavi was advanced to cultivators to sink new wells, to grow fodder as also to purchase the fodder imported by the Agency in large quantities and thus the lives of many cattle were saved. The percentage of cattle which died was 7·6. There being no human distress no relief works had to be opened. The Idar

State contracted famine loans of Rs. 1,68,000 from Government and the amount borrowed by other States in the Agency was Rs. 3,11,256 in all. There was scarcity of fodder in the Agency again during the year 1915-16, but the effects were not greatly felt, owing to there being available good grass land in the State of Polo and the Talukas of Hapa, Dedhrota, etc., where cattle were sent for grazing. The monsoon of 1918 was not quite satisfactory. The total rainfall was greatly in defect and there was no rain after August. The outturn of monsoon crop varied from 1 to 6 annas in the rupee. Owing to scarcity of fodder, arrangements for the supply of Government grass were made. In the early stage of scarcity export of grass from the Agency was prohibited. Agriculturists in the Thana Circles not being in a position to pay the high market rate for grass it was supplied to them at the reduced rate Rs. 15 per 1,000 lbs., and was issued either on cash payment or as tagavi, the difference between the rate charged and the actual cost price being borne by Government. The Jurisdictional States and Talukas made their own arrangements for grass. The opening of relief works and poor houses was not found necessary as the labouring classes were able to earn good wages. Gratuitous relief was, however, given to the old and infirm from funds raised locally or from the contributions received from the Bombay Presidency Charitable Fund. Eleven cheap grain shops were opened which sold grain below cost price.

Epidemics : (a) Plague.—The Agency remained free from plague up to 1901-02. Bavishi Thana in the Agency was the first to be infected by plague in 1902-03, when 37 persons died. In all there occurred over 6,600 deaths up to the end of March 1922.

(b) Influenza.—The Agency did not escape the universal outbreak of influenza in the year 1918-19 when the people in the small villages, where medical aid was not easily obtainable, suffered most. The total mortality from this disease amounted to a little over six thousand.
