BOLSHEVISM AT WORK

Some Extracts from Early Reviews:—

“The most important contribution so far issued on Bolshevik Russia . . . informing in every line. The distinguishing merit of Mr. Goode’s work resides precisely in the sober sincerity with which he has investigated and reported his subject.”—*Manchester Guardian*.

“This book should be read by every public man in the country.”
Daily Herald.

“In ‘Bolshevism at Work’ Mr. Goode has offered the public exactly that kind of book for which all honest-minded men and women crave. Mr. Goode shrinks neither from praise nor blame.”
The Crusader.

FOREWORD

MOST of the following pages were prepared, along with much other material, in Moscow, in July and August of last year. The interview with Lenin, and the sections on Education, Justice, and Transport, are printed substantially as they appeared in the *Manchester Guardian*, by the courtesy of whose Editor they reappear.

In the changing conditions through which Russia is passing any such studies must necessarily be imperfect, and I do not claim for these anything more than that they are as perfect as the time at my disposal and the conditions would allow.

Their incompleteness is further increased by the continued embargo laid, by the authorities on my papers and memoranda. But a happy chance has brought copies of some of them into my possession, and I hasten to give them to the public in the hope that they may prove useful in clarifying opinion on a subject which has been shrouded, up to the present, in mystification.

WILLIAM T. GOODE.

LONDON,
January 1920.

CONTENTS
