District V	111
District VI	111

MAPS.

Map showing distribution of live births and infant deaths included in study, according to place of residence	facing p. 23
Map showing water supply and sewage disposal system	facing p. 97

CHARTS.

Chart I. Per cent distribution of unregistered live births, according to nationality of mother	21
Chart II. Per cent distribution of births, according to ward of residence and nationality of mother	25
Chart III. Per cent of infant deaths due to specified causes, according to nativity of mother	27
Chart IV. Deaths from specified causes by calendar month of death	29
Chart Va. Per cent artificially fed of infants surviving at age specified, according to nationality of mother	31
Chart Vb. Per cent of infant deaths caused by gastric and intestinal diseases, according to nationality of mother	31
Chart VI. Deaths in specified month of age	35
Chart VII. Per cent dying subsequently in first year of life of infants surviving at beginning of specified month of age, by type of feeding	52
Chart VIII. Per cent of births to mothers of specified nativity occurring in families where the father earned less than specified amount	61
Chart IX. Infant mortality rates in Johnstown, Pa., New Bedford, Mass., Manchester, N. H., and Waterbury, Conn., by earnings of father	63

GENERAL TABLES.

Table 1. All known issues during selected year, infant deaths, infant mortality rate, and per cent of stillbirths and miscarriages, according to nationality of mother and registration status of birth	114
Table 2. Births during selected year, infant deaths, infant mortality rate, and per cent of stillbirths, according to nationality of mother	115
Table 3. Births during selected year, infant deaths, infant mortality rate, and per cent of stillbirths, by ward of residence	115
Table 4. Births during selected year, according to nationality of mother and nativity of father	116
Table 5. Number and per cent distribution of deaths among infants born in Waterbury during selected year and of infant deaths in the registration area in 1914, by cause of death	117
Table 6. Number and per cent distribution of deaths among infants born during selected year to mothers of specified nativity, and infant mortality rates, by cause of death	118

	Page.
Table 7. Deaths among infants born during selected year occurring in specified calendar month, by cause of death.....	118
Table 8. Deaths among infants born during selected year occurring in specified month of life, by cause of death.....	119
Table 9. Births from all pregnancies, infant deaths, infant mortality rate, and per cent of stillbirths, according to order of pregnancy and age of mother....	119
Table 10. Births during selected year, infant deaths, infant mortality rate, and per cent of stillbirths, according to age of mother at birth of child and nativity.....	122
Table 11. Mothers reporting specified number of stillbirths, all pregnancies, by number of births and nativity.....	123
Table 12. Mothers reporting specified number of miscarriages, all pregnancies, by number of pregnancies and nativity.....	124
Table 13. Births during selected year to mothers of specified nativity, according to usual help in household.....	125
Table 14. Births during selected year to mothers gainfully employed in specified way during year before birth of infant, according to length of interval between mother's ceasing work and confinement, and nationality of mother..	125
Table 15. All known issues during selected year to mothers of specified nationality, according to kind of attendant at birth, registration status, and inclusion in or exclusion from detailed analysis.....	127
Table 16. All known issues during selected year, infant deaths, infant mortality rate, and per cent of stillbirths, according to kind of attendant at birth, registration status, and inclusion in or exclusion from detailed analysis.....	128
Table 17. Births during selected year to mothers of specified nativity, according to kind and duration of help at confinement.....	129
Table 18. Live births during selected year to all mothers and to mothers who died within one year after birth of infant and infant deaths, according to nativity of mother and interval between confinement and death of mother..	130
Table 19. Infants born during selected year to mothers of specified nativity and surviving at beginning of the month, number and per cent of infants dying subsequently in first year, and infant deaths in specified month of life, according to month of life and type of feeding in the month.....	131
Table 20. Number and per cent distribution of infants born during selected year and surviving at end of specified month, by type of feeding during month specified, according to nationality of mother.....	132
Table 21. Infants born during selected year and surviving at end of 3, 6, and 9 months whose fathers earned specified amount, and number and per cent of subsequent infant deaths during first year, according to type of feeding throughout specified period and nativity of mother.....	134
Table 22. Infants born during selected year and surviving at end of 3, 6, and 9 months of age whose fathers earned specified amount, and number and per cent artificially fed, according to nationality of mother.....	136
Table 23. Infants born during selected year and weaned under 1 year of age, by age and reasons for weaning.....	138
Table 24. Births during selected year in each father's earnings group, according to occupation of father.....	138
Table 25. Number and per cent distribution of births during selected year to mothers of specified nativity, according to earnings of father.....	139
Table 26. Births during selected year in families of specified number of persons and average number of persons per family, according to earnings of father and nativity of mother.....	140

CONTENTS.
