

**A STUDY IN DOMESTIC VIOLENCE  
AGAINST WOMEN IN INDIA:  
DETERMINANTS AND CONSEQUENCES**

**A THESIS SUBMITTED TO  
GOKHALE INSTITUTE OF POLITICS AND ECONOMICS  
IN FULFILLMENT OF THE REQUIREMENTS FOR THE  
DEGREE OF**

**DOCTOR OF PHILOSOPHY  
IN  
POPULATION STUDIES**

**BY  
MRS SEEMA R PATRIKAR**

**UNDER THE GUIDANCE OF  
DR SANJEEVANEI MULAY**

**GOKHALE INSTITUTE OF POLITICS AND ECONOMICS  
(DEEMED TO BE UNIVERSITY UNDER SECTION 3 OF THE UGC ACT, 1956)**

**PUNE – 411 004  
INDIA**

**2014**

**A STUDY IN DOMESTIC VIOLENCE AGAINST WOMEN IN  
INDIA: DETERMINANTS AND CONSEQUENCES**

Number of Volumes : Thesis (one)

Number of research Student: One  
Mrs Seema R Patrikar

Name of Principal Supervisr : Dr Sanjeevane Mulay

Degree : Doctor of Philosophy

Name of University : Gokhale Institute Of  
Politics And Economics

Month and Year of submission : Mar 2013

Dr Sanjeevaneer Mulay  
Gokhale Institute Of Politics And Economics

**CERTIFICATE  
(FORM 'A')**

CERTIFIED that the work incorporated in this thesis entitled "A Study In Domestic Violence Against Women In India: Determinants And Consequences" submitted by Mrs Seema R Patrikar was carried out by the candidate under my supervision. It is an original contribution and has not been submitted elsewhere for the award of any other degree. Such material as has been obtained from other source has been duly acknowledged in this thesis. I recommend that the thesis should be considered for the award of the degree of 'Doctor of Philosophy'

Date : Jan 2014  
Place : Pune

## **DECLARATION BY THE CANDIDATE**

I, Mrs Seema R Patrikar, hereby declare that this thesis on the topic entitled “A Study In Domestic Violence Against Women In India: Determinants And Consequences” is submitted for the award of Degree of Philosophy in Population Studies to the Gokhale Institute of Politics and Economics, Pune- 411 004. It is an original contribution and has been completed during my tenure as a research scholar at Gokhale Institute of Politics and Economics, Pune.

This thesis has not been submitted by me elsewhere for the award of any degree or diploma – part or full. The information gathered by me elsewhere for the thesis is original, true and factual. Such material as has been obtained from other sources has been duly acknowledged in the thesis. I hereby request, to consider the thesis for the award of the degree of ‘Doctor of Philosophy’

Date : Jan 2014

Mrs Seema R Patrikar

Place: Pune

## Acknowledgements

“Thanks,  
O lord, That lends me life,  
Lend me a heart...  
...replete with thankfulness.”

❖ **William Shakespeare**

I thank the Commandant, Armed Forces Medical College for having permitted me to pursue my work for Ph D, My thanks are due to the Head of Department, for allowing me to undertake this study.

It was dreams come true for me to work at Gokhale Institute of Politics and Economics, Pune of which I had been an integral part for about four and a half years. I was immensely touched by the professionalism of their entire staff. I am extremely indebted to Prof R Parchure, Director of the institute for kindly permitting me to work at the esteemed institute and provide all the research facilities, unhindered.

I have no words to express my gratitude towards Dr Sanjeevane Mulay. I thank her for her positive attitude, which enthuses so much positive energy. I have no words to express my gratitude to Prof Arup Maharatna. He had been the guiding force right from the conception of the topic to the culmination of this thesis. Could I ever thank him enough!

I heartily thank Mr D R Basannar, Sc ‘E’, in department of Community Medicine who helped me in writing the Foxpro programme in spite of his committed to so many more important projects. I wish to extend my thanks to Mrs Kher and Mrs Chandrachud for always extending the required help.

In the end I dedicate this work to those who have inspired me and have stood by me smilingly while I worked for endless hours on computer. My parents have always been great inspiration to me. Their blessings were always with me. I am thankful to my husband for having provided me the support and help, which I always sought. I am extremely grateful to my children for comprehending the fact that many a times I might not be available, for my motherly duties.

Last but not the least, I am thankful to my sisters and brother to whom I am ever indebted without whose support and help this thesis would not have seen the light of the day.

## **CONTENT**

<b>CHAPTER</b>	<b>NAME</b>	<b>PAGE NUMBERS</b>
1	DOMESTIC VIOLENCE AGAINST WOMEN: NOTIONS AND ISSUES	<b>1-47</b>
2	DATA AND METHODOLOGY OF THE STUDY	<b>48-77</b>
3	PREVALENCE OF DOMESTIC VIOLENCE AND ITS CORRELATES	<b>78-142</b>
4	DOMESTIC VIOLENCE AND WOMEN EMPOWERMENT	<b>143-178</b>
5	HEALTH CONSEQUENCES OF DOMESTIC VIOLENCE	<b>179-206</b>
6	SUMMARY AND CONCLUSION	<b>207-227</b>
	REFERENCES	<b>228-253</b>
APPENDIX A	PHYSICAL VIOLENCE ON WOMEN BY INTIMATE MALE PARTNER, SELECTED POPULATION BASED STUDIES, 1982-2004	<b>254-256</b>
APPENDIX B	FOXPRO PROGRAMME	<b>257-259</b>

## **CHAPTER 1: DOMESTIC VIOLENCE AGAINST WOMEN: NOTIONS AND ISSUES**

- 1.1 Introduction
- 1.2 Definition Of Violence Against Women
- 1.3 Typology Of Violence Against Women
- 1.4 Domestic Violence Or Intimate Partner Violence
- 1.5 Global Prevalence Of Violence Against Women
- 1.6 Domestic Violence In India
- 1.7 Factors Affecting Violence Against Women

## **CHAPTER 2: DATA AND METHODOLOGY OF THE STUDY**

- 2.1 Introduction
- 2.2 Aims And Objectives
- 2.3 Significance Of Our Study
- 2.4 Data
- 2.5 Measurement Of Domestic Violence In NFHS-2 And NFHS-3
- 2.6 Correlates Of Domestic Violence
- 2.7 Multivariate Analysis Using Logistic Regression
- 2.8 Multicollinearity of the predictors or independent variables

## **CHAPTER 3: PREVALENCE OF DOMESTIC VIOLENCE AND ITS CORRELATES**

- 3.1 Introduction
- 3.2 Socio-Demographic Profile Of The Respondents
- 3.3 Prevalence Of Domestic Violence
  - Life Time Prevalence
  - Current Prevalence Or Last 12 Months Prevalence
  - State Wise Prevalence Of Domestic Violence
- 3.4 Co-Occurring Pattern Of Domestic Violence
- 3.5 Bivariate Analysis
  - Woman's Characteristics
  - Husband's /Partner's Characteristics.
  - Union Characteristics
  - Household Characteristics
  - Intergenerational Effect

- 3.6 Multicollinearity testing
- 3.7 Multivariate Analysis Using Logistic Regression
- 3.8 Help Seeking Behavior
- 3.9 Consequences Of Domestic Violence
- 3.10 Discussion

#### **CHAPTER 4: DOMESTIC VIOLENCE AND WOMEN EMPOWERMENT**

- 4.1 Introduction
- 4.2 Domestic Violence And Women's Participation In Decision Making
- 4.3 Domestic Violence And Women's Acceptance Of Wife Beating
- 4.4 Domestic Violence And Controlling Behavior By Husbands & Number Of Control Issues
- 4.5 Discussion

#### **CHAPTER 5: HEALTH CONSEQUENCES OF DOMESTIC VIOLENCE**

- 5.1 Introduction
- 5.2 Measures Of Women's Nutritional Status
  - Underweight
  - Anemia
- 5.3 Women's Reproductive Health And Domestic Violence
  - Fertility
  - Unwanted Pregnancies
  - Contraceptive Use
  - Sexually Transmitted Infections
- 5.4 Human Immuno Deficiency Virus (HIV)/Acquired immunodeficiency syndrome (AIDS) and Domestic violence

#### **CHAPTER 6: SUMMARY AND CONCLUSIONS**

## LIST OF TABLES

- Table 1.1 : Overview of global problem of violence against women
- Table 1.2 : Physical and sexual violence against women by an intimate partner
- Table 1.3 : Classification of factors behind violence against women
- Table 2.1 : Variables along with definition considered as correlates for the analysis.
- Table 3.1 : Distribution of various sociodemographic factors as per residence, NFHS-3
- Table 3.2 : Life time and Current prevalence (95% Confidence Interval (CI)) of various forms of violence in Indian women
- Table 3.3 : Life time prevalence of various forms of violence in different states of India
- Table 3.4 : Difference in education and employment level (%) for Bihar and Himachal Pradesh
- Table 3.5 : State wise differences in the demographic variables affecting prevalence of violence
- Table 3.6 : Statewise Literacy rates for population age 7 years and above.
- Table 3.7 : Percentage distribution of ever-married women age 15-49 who ever experienced domestic violence and other forms of violence by Woman's characteristics
- Table 3.8 : Bivariate Analysis, reporting of unadjusted odds ratio for various forms of violence by sociodemographic variables.
- Table 3.9 : Percentage distribution of ever-married women age 15-49 who ever experienced domestic violence and other forms of violence by Husband's/Partner's characteristics
- Table 3.10 : Percentage distribution of ever-married women age 15-49 who ever experienced domestic violence and other forms of violence by Union characteristics
- Table 3.11 : Percentage distribution of ever-married women age 15-49 who ever experienced domestic violence and other forms of violence by Household characteristics
- Table 3.12 : Percentage distribution of ever-married women age 15-49 who ever experienced domestic violence and other forms of violence by Intergenerational effect

- Table 3.13 : Logistic Regression with adjusted odds ratio and 95% Confidence Interval for dependent variable domestic violence and physical violence
- Table 3.14 : Logistic Regression with adjusted odds ratio and 95% Confidence Interval for dependent variable sexual violence and emotional violence.
- Table 4.1 : Percent distribution of currently married women age 15-49 years decision maker in the family, NFHS-3, 2005-06
- Table 4.2 : Percentage distribution of ever-married women age 15-49 who agree with each different reason justifying wife-beating, by reason, among women who have experienced violence by their husband, ever or never
- Table 4.3 : Reasons for justifying wife beating by women experiencing domestic violence
- Table 4.4 : State wise variation in women's view about wife beating as justified
- Table 4.5 : Percentage distribution of ever-married women age 15-49 who have ever experienced violence according to husband's controlling behaviors
- Table 4.6 : Percentage distribution of ever-married women age 15-49 who have experienced violence according to the number of marital control behaviors shown by their husbands.
- Table 5.1 : Health consequences of violence against women
- Table 5.2 : Percentage distribution of ever-married women 15-49 who are underweight (BMI<18.5), overweight (BMI 25.0- 29.9), and obese (BMI>30.0) by whether women have experienced violence by their husband ever or never
- Table 5.3 : Percentage distribution of ever-married women 15-49 who are anemic, by whether women have experienced violence by their husband ever or never.
- Table 5.4 : Mean number of children ever born to ever-married women age 15-49 by age in years, according to whether they have ever experienced violence by their husband or not
- Table 5.5 : Percent distribution of last birth according to whether the mother has ever experienced violence by her husband or not.
- Table 5.6 : Percent distribution of currently married women who have ever experienced violence and never experienced violence, according to contraceptive use.
- Table 5.7 : Percentage distribution of ever-married women who report having an STD in the 12 months preceding the survey, according to whether they have experienced violence by their husband ever or never.

Table 5.8 : Percentage distribution of ever-married women who report having genital sore/ulcer in the 12 months preceding the survey, according to whether they have experienced violence by their husband ever or never.

Table 5.9 : Percentage distribution of ever-married women who report having genital discharge in the 12 months preceding the survey, according to whether they have experienced violence by their husband ever or never.
