Robert Adams Esq.

Mr. William Forbes. Mr. John Johnson.

Mr. Stephen Law.

The Council being assembled the Packet from the Honble President and Council of Bombay, was thereupon opened & [perused] and the papers therein mentioned, [are] found to come out accordingly, The Commissary having taken his place, according to [the] Direction therein given, and Demand[ed] of Robert Adams Esq., what Quantity [of] Pepper remain'd in the Honble Company's Warehouse, for their Account, and belonging to other private persons. He was answer'd that they had not for the Company [ . . . ] Eighty Candy and for private account [of] any, Demanding the same of the rest [of] the Gentlemen assembled, they all made [ . . . ] reply; whereupon the Commissary [ . . . ] notice he had before taken [ . . . ] Paragraph of the Honble [ . . . ] Council's Letter, wherein [ . . . ] to us the early provision [ . . . ] enabling them to Comply [ . . . ] with the Large [ . . . ] now on their hands, desires that Robert Adams Esq., declares his opinion, what methods are properest for us to make use of towards providing such Quantity's of Pepper as the Honble Company require from this Settlement and towards preventing such disappointment as may follow thereupon; Says that in the Country of Colastri from Mount Dilla to Burgotah there is not above Three Hundred Candys of old Pepper to be procured in a months time, and that at no less a rate than Nineteen Venetians P. Candy, further demanding of Mr. Adams what was his opinion, if there could be any Quantity provided at Penmany during the time that this Ship is Limited to stay with us; makes answer he believes some may be purchased;—Agreed therefore that we send a proper person to make inquiry thereon, whose answer we may expect in four days; Ordered likewise that the Treasure from on board the Devonshire be forthwith landed, and that the Commander (have) orders from the Commissary [accordingly] Robert Adams Esq., informing the Board [ . . . ] the [ . . . ] of Boyanores were w[ . . . ] out [ . . . ] came from them.

To Convey our Linguister by land to them having several matters of importance [to] Communicate, they both being at [Milie] agreed therefore We permit the Linguister to go with them, and learn what the Boyanores had to propose, further
understanding by said Linguist [any] other information that the aforesaid Boyanores had in their possession [about] Two hundred Candy of Pepper have [ . . . ] impowered him to Contract for the [same] at the rate of Nineteen Venetians a Candy and not more till be advises us, & [receives] further orders, thinking it more for [our] Honble Masters Interest that we go [on] providing by little and little even at exorbitant rate, while the Devonshire remains here ; Rather than she should return to Bombay an empty ship Considering we are not limited to [any] certain price.

Dispatch [a letter to] Calcutt with [instructions] to our Linguist here agreeable to the above Consultation, and also Domma[o] Rodreguize our Linguist here to atten[d] the two Boyanores to learn what they had to offer and to return with all Expedition.

The present difficulty of providing Pepper at this Settlement being Considered on, and that there is no apparent possibility of securing a Quantity thereof for the timely dispatch of the Devonshire not even from the Southward, unless some other means be found out The Commissary thereupon acquainted the boar[d]d that the President and Councill of Bombay were Inclijnable that Capt. Prince should proceed to Cochin to victual his ship provided it should not seem detrimental to the Hobble Companys affairs here that he apprehended it very possible for [a] private person to purchase [a] Quantity of Pepper at Cochin with good management but not in the Honble Company's name Proposed to the Gentlemen whether or not it was not advisable to employ Capt[ain] Lawrence Prince on this affair, in case of his being willing to accept thereof ; we are unanimously of Opinion it was [highly] proper it should be proposed to him, [he] being called in and questioned thereon [he] made answer, that he was Very willing to Serve the Honble Company to the utmost of his power, in any Affair We should [think] proper to propose to him ; agreed therefore that we consign him, and Lade on [ . . . ] to the value of Four Chests of Treasure to be employed by him there in providing Pepper at the Cheapest and best hand, in his own name the Tenure of whose instructions follow this Consultation but lest the Honble Company th'o the Exchange of Dollers at Cochin should suffer as we apprehend they must very greatly by putting of their Dollers at two rupees each in Tale, and more by weight, It was moved what was best (to) be done in this Exigency Rupees appears to us to answer thereabout Seven ₨ Cent better than Dollers of Mallabarr weight and in Tale four and a quarter, should they pay at two rupees ₨ Doller, and having none in Cash Mr. Braddyll made us an offer of Two Chests or Sixteen thousand Rupees to be employed on this Occasion agreed therefore that we accept the same on the following terms viz.'
That in Case the aforesaid sixteen thousand rupees are not made use of for the Company, then to be return'd him the Comp*, running the risque, otherwise and in Case they are Invested in Pepper for the Hon* Companys Account that he have a Bond at Interest given him for the same of this date at Twelve P. Cent being the usual Interest of this place untill such time, the same be made good to him here in new silver rupees or their present value at Tellicherry, Ordered therefore that the Cashier receive of John Braddyli Esqr. the aforesaid 16,000 Rupees and in the whole management, use all the Caution and Secresey you can, we have Considered that should the boat, we send with you go on shore, it may give suspicion therefore, we desire she may be kept on board and from thence sent away to us. We on [our] parts shall not be wanting in making [You] proper acknowledgment for such services as you shall think fitt to do our Honourable masters, We Commit you to the Divine protection and are

Read & approved our Consultation of the 8th Instant.

Our Linguist sent to Mihie the 7th. Instant to waiite on the Boyanores informing us by his Letter of yesterday that the Boyanores and the Ministers are much divided among themselves, and very apprehensive of their not being able to withstand the preparations making by the French against them, and that they expected him to stay with them, till they had assembled the Three thousand and one thousand Nayros, as to touching the Pepper, said to be in their hands, when he proceeded to make mention thereof, they did not make him any direct answer, being taken up with other affairs, yet nevertheless did he hope by a second or third person he should be able to purchase what lay there, though at a very high rate.

Debating on this head, and what answer was proper to make him, farther Considering that the Union amongst these communities possessing this part of the Country is highly tending to the Cultivating of an Open Trade in these parts, and of Consequence suitable to the Interest of our Honble Masters agreed that we make him the following reply viz*

That he do as much as in him lies endeavour to perswade these Communitys that nothing can better preserve them from all their Enemies than a strict union among themselves, and that he be directed to use his utmost endeavours to procure as much Pepper as he can, as well from the Boyanores and other private Merchants at the Cheapest & lowest Rates, and with all Expedition possibly advising us of his progress by all opportunity, but as concerning their request, which he [says] they make him of having Powder Shott and Rice given them Gratia, that he only make them this Generall Reply, that as we are[at] amity with them, we shall not Debar them the priviledge of coming within our Limitts, and furnishing
they themselves with such things, there as they may want, and we conveniently spare them; now and then giving them a hint of the Guns belonging to the William Galley still remaining in their possession.

For the more regular & Expeditious Transacting of our Honorable Masters affairs at this Settlement, the Commissary proposes to the board that each Covenant Servant in his order and standing take upon him such a branch as is Customary to be done at the Honorable Companys head Settlements and agreeable to their Standing Rules & Orders laid down for the same, which was unanimously approved. Agreed therefore, that the Commissary take Charge of the Cash in its several kinds and the Foreign Silver now in Treasury Mr. William Forbes assists him in regulating the Accounts and take Charge of all papers relating thereto; and Mr. John Johnson take upon him the trust of Warehouse keeper Mr. Stephen Law that of General Paymaster and that Doctor Christie be Continued Storekeeper. Considering his former Diligence in that Station, and Hugh Howard & Mr. Wills, Jeynson assist in the Office as Occasion may Serve; it is therefore directed proper Orders be given each person in his respective place, and that Inventories be delivered in of the R'. Honorable Companys House Merchandise &c after the Customary manner.

Agreed that notwithstanding the Battery raised on the rocks last year for protecting the road was washed away last Rains, and the Guns brought ashore, yet Considering it may be of singular service to us this season, for protecting our ship against the Insults of the French We repair the same, as the Charge will be so inconsiderable deferring our perfecting thereof so as to make it durable till we have permission from our Superiors to be at that Charge.

The time drawing nigh for us to consider on Contracting for a sufficient Quantity of the new Cropp of Pepper to be expected in these parts, puts us on debating what steps are best to be taken towards securing what we may want for employing the money now in our hands Mr. Adam's Opinion is that now is the proper Juncture but should we discover or lett them know what Quantity we want it would be a means of keeping up the exorbitant price We are obliged to give for the old Cropp in Order to despatch the Devonshire & implacable [sic] to Lower it this season, It is therefore for the above reasons Concluded that our Linguist discourses the Merchants privately and from them learn the Quantity they expect of the new Cropp, and the price they will sell at and that he give us Notice thereof at all fit Opportunitys, when we shall be able to judge what further measures are fit to be taken, new Pepper not being proper to be received thro its Greeness till the month of February, for it is never gather'd till the latter end of December or the beginning of January. Adjourned.

This evening we received a Letter from our Linguister at Mihie whereon he advises us of his having composed the depending differences between the two Boyanores & that he waited the coming in of the Nombiers, Noringoll and Coringood in Order to make a strict and firm Union between the three thousand and one thousand Nayros and the aforesaid Boyanores.—That Boyanore had in his hands about three hundred Candy of Pepper, which he had great hope of purchasing Very speedily, that there were some other Merchants willing to dispose of small Quantities, but insisted on being paid in Venetians,—That the French had landed two hundred bales of rice at Currin and were daily refreshed by Curringlad management from that place—That the Boyanores were about Cutting down the French Flaggs staff but that he was according to our directions endeavouring to prevent their so doing while he was there.
Answered the foregoing Letter, thereon directing the Linguist not to suffer the Wednesday-Boyanores by any means, if Possible to Cutt down the French Flagg staff during his Day 10th, stay at Mhie, that he should exert himself in purchasing the Pepper he mentioned, and what more he could lay his hands on, for which should endeavour to supply him with Venetians,—That he should likewise endeavour to effect an Union among the heads of the Comunitys with whom he was send to Treat, and to advise us the price of Dollars at that place and how Venetians were to be procured.

Read and approved our Consultation of the 9th Instant.

On inspecting the Books of Accounts and observing the Large Debt at Interest due to Suamy Putturah amounting to Three hundred Forty eight thousand six hundred Panams, It was proposed by Mr. Adams whether or no it was not most advisable to clear it off, as we have sufficient Treasure in our hands for the purchase of about Fifteen hundred Candys of Pepper, and discharging the aforesaid Debt and defraying near a twelve months expenses, should they not be increased by the Insults we may expect from the French, and the natives our neighbours through their influence, the monthly Interest arising from said Debt being so Very Considerable to which the Commissary replied that the Honorable President and Council of Bombay had positively ordered him in their instructions not to appropriate any part of the Present supply P. Devonshire to any other purpose than for purchasing Pepper and defraying the necessary Expenses of the Settlement, yet nevertheless would he Consent towards paying of a Considerable part of said debt on Consideration that by this means the Honorable Company Credit on this Coast would thereby be kept up, and their Creditor Suamy Putturah induced to assist us farther on any exigency (as we are [well] assured he will) and serve us on the present Occasion of procuring Pepper at Penanny.

Debating some time on this affair It was at last unanimously agreed and Concluded that the aforesaid Suamy Putturah on making his appearance here and laying his Demand before us, be paid in part, and so far as to make him easy least the Honorable Company should suffer in their Credit on this Coast and we be deprived of all measures towards obtaining Supplies in any time of extremity.

This evening arrived Domingos Rodregues our Linguist from Mhie Confirming what he had before wrote us of his having united the first and second Boyanores with the head of the three thousand Nayros, and that they were all in one Interest to protect their Countries against all invaders, but that the Numbers with Corringadas & Noringol still stood out and seemed to be engaged in another Interest rather inclining to side with the French than otherwise, which he cannot attribute to any thing save the large bribes given by the French of which he hath full assurance. He says he hath contracted with the Boyanores for two hundred fifty Candys of Pepper at 1726—2
18 Venetians & Candy to be delivered us at Mihie—to be paid for in Dollars at eleven fansams each, That there are some other Merchants willing to deliver us here smaller quantities at that price, or perhaps less but insist on being paid in Venetians.

The Commissary communicates to the board the advices he received last night by the Linguist, the substance of which precede this Consultation, which gave us Occasion to come to the following resolutions Viz.

That the Warehouse Keeper send proper persons forthwith to Mihie to weigh, and imbail the Pepper Contracted for there, and that we send Lieut. William Gibbs on board the French Ship Triton now laying at Mihie to acquaint her Captain that the Honorable Company have now Goods laying ready in Mihie river which they intend to bring out in their own boats, that they have no intention to molest the French in their Trade, neither will they be molested in their own—That he enquire whether or no he hath received any answer concerning these matters from Callicutt & withall lett him know that in Case the Honorable Company are impeded by him in bringing from thence their Merchandize they will endeavour to defend it according to the nature of any insult shall be given.

 Directed likewise that we send a Chest of Dollars on Mr. Adams his Munchu to Callicutt to be Exchanged there by our Linguist into Venetians, and returned us with all possible expedition, as the risque thither is inconsiderable, and that our want of that Specie Subjects us to so many inconveniencies.

It appearing to us a matter of absolute necessity that the Limit Angle of this Compound fallen down last rains and rendered Defenceless, be repaired out of hand; It is Ordered that the Paymaster provide proper materials for Compleating the same, and that it be immediately Set about, and go on with till Orders arrive from our Superiors concerning the same they having been advised thereof by the same.

Lieu. William Gibbs being now [returned] from on board the French ship Triton at Mihie, acquaints us that after he had Signified to the Cap. the purport of our message, he was answered in the following manner Viz.

That he had wrote to Callicutt for Orders, and was answered by the French Cheif there, that he was to follow the form[er] directions given him the Substance whereof was that he was not to suffer any boats whatsoever to enter in or out of the river Mihie, that he expected the arrivall of [his] Superiors there in a few days, and that [he] did not doubt but that all the Goods belonging to us, in the river Mihie would be delivered after the French were settled there.

This morning we received advice from our Linguist at Pennany that he could now procure there one hundred and Twenty Candy old Pepper at Twenty six fansams P. Candy which the Merchants would deliver the most part at Callicutt and the rest there, he has made all the enquiry possible for new pepper, which is now
-coming in, in small Quantities, he believes that in twelve or fifteen days he may be able to getti Fifty Candys at two hundred fifty five new fanams of Callicut & Candy, but to buy at that rate now Considering it will loose Considerably in weight two mounds in a Candy, he does not think it proper at present to proceed in buying last the price now should have an influence afterwards and rather increase it therefore 'tis best to desist buying the new Pepper as yet.

He likewise informs us that the French Linguist has been at Pemnanny with the Samorin giving him large promises if he will permit their building a Fort at Cota, and desired leave that the French Chief and Captains might Vissit him, but the Ministers considering how ungratfull it would be to the Dutch, who had wrote to have the Linguist Seized & sent to them, desired the Samerin would reject the Vissit, which he accordingly did.

By an express Toney from Callicutt from our servant there We have advice that the Sea Horse Cranur was proceeding to the S°, ward, and far out to Sea she saw a large ship which gave her Chase, and as she was not inclined to speak with her, she returned to Callicutt the ship was seen standing into the road, with white Colours and suppose to be French, the fishing boats off Tannore had seen three ships standing to the N°. ward Which judged to be French likewise.

By another Express this afternoon from Callicutt We are advised that one French Ship is arrived there with a great Number of Soldiers as is reported, and that five more ships are to follow, there is twenty Tonnes two Munchua and a boat made ready to proceed to Mincie with the ship in the Night.

We received a Letter from Mr. Orme &c. Factors at Anjingo advising us they Saturday had notice of three French Ships having passed that place, and that boats, off Quaylone, had reached two of them but could not the third, they report there is a Considerable Force on board, and as they hope the Drake is filling up to Cohin, they recommend to us to give the Captain proper advices concerning these ships.

We answered Anjingo Generall Dated the 7th Instant, and Directed it to Thomas Waters Esq" Comissionary Alexander Orme Esq" &c. Factors, advising them that one French ship arrived the Eleventh at Callicutt and report Six Sail and two Brigantines are following, no boats being permitted to go on board we can learn no Account of the Ship's Force; We directed the boat to call at Cohin in the way down, and deliver our Letter to Capt. Westerbane advising him of the French ship's arrival, and give him a receipt for the same and that they be forthwith Laden with two Chests more of Mexico Dollers on board the Devonshire and that the Instructions, Invoice, and other necessary papers for Capt. Lawrence Prince his dispatch to Cohin be forthwith prepared.

Robert Adams Esq'. produces his Account Cash for last month and Account of Foreign Silver Rupees &c. the Ballance whereof the first of this month as £ Said Accounts is as follows viz:

| Fanams in Cash | 1093. | 1 |
| Rupees in Specie | 8141. | 05 |
| Pegodas d. | 1160. |

Foreign Silver in Dollers weight Mallabar being 17. 22 grams. Doll. w't. 12896. 18 Capt. Lawrence Prince hav's his dispatches [given] him for Cohin, sailed away immediately [his] [instructions] for the same follows this Consultation.

Adjourned.
The Honorable the President and Councill of Bombay having granted the Com-
missary liberty of permitting you to go to Cochin in order to Vistual your ship, in Case of her remaining here such a space of time as you may require for that purpose should not be absolutely necessary, Considering therefore that your absence for Eight or Ten days can in no wise prejudice the Honorable Company's affairs here, since the Quantity of Pepper we have at present by us, is so inconsiderable, and Cannot of Consequence require much time in sending off, We do therefore on receipt hereof, permit you to proceed thither, at the same time Limiting your stay at that Port not to exceed four days at most, unless the following mention'd reasons in the body of these instructions should require your further detainure.

The Scarcity of Pepper on this Coast lays us under the greatest difficulties imaginable, in providing the Quantity requir'd for the dispatch of your ship and others on hand, and indeed at present obliges us to use all possible methods towards procuring a sufficient Quantity thereof, least your ship should return to Bombay destitute of the Quantity they require from our hand[as] Considering therefore that it may be possible for a Private person as has often been pr[es]ed] to procure at that Port Considerable quantity of Pepper, and the offers you have made to serve the Honorable Company during [your] stay there, and that it will be highly unnecess ary for any Covenant Servants to appear in such an affair, We have thought fit to Comit the management of this affair to yourself, and have accordingly laden on board your ship Four Chests containing Treasure viz. two of Rupees and two Mix'tico] Dollars as P. bill of Lading and Invoice enclosed amounting to Rupees 93149. 75.

Therefore this is to order you Wind and Weather permitting to weigh anchor with Ship Devonshire making the best of your way for the Port of Cochin, on your arrival we think it is most eligible according to [the] best of our knowledge, that you enquire for Malpas son or people; they sometimes [deal] more publick than at other times, that is [as] they are in fee with the Commodore of which you must be very Cautious that he or the [. . .] Fiscall know anything of your dealings, but from Malpas son or people who always buy that Liberty; The usual price given is from sixty to sixty four Rupees P. Dutch Candy of Five hundred pounds Dutch or 540 English they make it up in bales and send it on board in the night and are at all Charges to carry it off. When you come there you will be able to direct your self, according as you find things are; and as you have offered to act in this affair we rely wholly upon your management, only we shall remark to you, that Dollers, sometimes pass there at two Rupees P. Dollar in Tale, and two and one twelveth in weight, and we would not have you exceed Thirty two Dollers in weight for a Candy of Pepper, as soon as possible pray lett us know how you proceed and if a greater Quantity of Pepper is procurable than you have Treasure for, pray apply your own rupees to procure it, if you have no Opportunity of laying it out, and we will be answerable to you for the same. We have ordered a boat to attend you and bring us such advices as you shall find necessary to send, which we desire may be with us, with all speed, avoid letting them have any knowledge that this Pepper is for any one beside yourself and Directed him to send us an Account of what Pepper he took in at Anjengo, and how much he expected at Cochin, when he would sail, and not to fail calling on us even tho' he should have all his Pepper that he wanted on board.

We wrote Capt. Lawrence Princs that if he could not do his business at Cochin without Clashing with the Drake, to come away as soon as possible, and call at Calcutt to take in what Pepper our Linguister Ins[ ] to deliver him, letting the Pepper remain in bales till he came here, and received our Orders.
We answered our Callicutt Linguists Letter which we received yesterday Dated the 10th. Instant, and required him to use his utmost diligence to procure what Pepper he could at Penmanly at the easiest price to be paid for in Dollers, to send what [he] bought to Callicutt and Imbile it to be [in] readiness, to be shipped off. We recommended to him the exchanging the Chest of Dollers for which we sent him into Venetians with all speed and informe us of the Value of Coins in Callicutt.

We received a Letter from our Linguist's Assistant of Callicutt Dated the 13th. Instant advising us he had received the Chest of Dollars sent by Mr. Adams Munchina, and had lodged it in the Factory Godown, in order to deliver it to our Linguist Francesco Dias on his return from Pennsylvania, and that their people on shore were providing Large Quantities of Gabions and other instruments of War for their Descent at Mihie.

This morning we received an Ola from the first Boyanore, requiring us to furnish him with one thousand bales rice, one thousand Iron Shott and five Candy of Gunpowder; to whom we imediately sent an answer, that on the Seconds coming here, we would come to Such Terms with them, as they might depend would give them full satisfaction, but this reply not being taken so well as we could have wished, he immediately sent for the Merchants and pressed them to procure from us forthwith five hundred bales of Rice Ten maund of Lead, and one Candy of Gunpowder to supply his present Necessity, whereupon they wrote our Linguist a Letter desiring him to procure them the aforesaid Provisions and Ammunition on their Account, for which they would in a short time make full satisfaction, and that if we should fail them they thought themselves in danger from the Country Government; Hereupon the Commissary thought fitt to assemble the Honourable Companys Covenant Servants in General to ask their opinions what answer was most proper to order the Linguist to give the Merchants; and it being their unanimous opinion that the Boyanores would exert themselves in preventing any other Nation settling in their Country which has been made over to the Honoble Company, provided they should meet with any encouragment from our hands, and that on the Contrary, should they be disappoint[ed] it would Dismantlen them so as to Cause [their] siding with the French and permit their resettling at Mihie without any Opposition the Consequence of which would undoubtedly be the involving us in perpetual troubles with the whole Country, as is plain they have aimed at ever since they have made any advances towards their Settling at Mihie. It was resolved that We directed our Linguist to make the aforesaid Merchants the follow[...]. answer Viz.

That the Commissary was sorry the Second Boyanore had not come to Tellicherry according to his promise, and that on his coming thither they might depend on being supplied with such things as they had wrote for the particulars of which are to be Agreed in Consultation.

This day the Commissary wrote a short Letter of Compliment to Ally Rajah desiring at the same time to know the Price of the small Quantity of Pepper he had now in his hands, and if he had any Cowries to dispose of.

The Commissary having Sufficed the Councill this morning chiefly to Reperuse some Paragraphs of the Hon's President and Councill their Letter to us P't. 1723—3
Devonshire, and particularly that which takes notice of the Loss accruing to our Honorable Masters by the Exchange on Venetians and Dollers at this Settlement. It appearing by the Books that some parcels of the former having been paid away in the same day at Twenty fanams each, and others at Eighteen and a half, so likewise in Dollers some at Eleven fanams and a greater parcel at Ten fanams & Ten Vis and even rupees some at Five & some at five and a quarter, Robert Adams Esq., being therefore required to explain to the board how it comes to pass such a difference in Exchange could arise in the self same day in the different Species abovementioned, —Gives answer that in Order to keep us the Value of the aforementioned species, he has always put them of in Contracts, and for the payment of the Garrison Muster rolls at the following rates Viz. Venetians at 20 Dollers of Mallabarr weight which is 17 penny w* & 22 Grains at 11 fanams each, and Silver rupees at five & a Quarter fanams each. But for the defraying of all other Expenses whatsoever, notwithstanding his, and their utmost endeavours they have not been able to put them of among the Country people and the Neighbouring Bustars for their provission &c, for more than the following rates (through the Scarcity of Fauams, and their being debarred the privilege of Coining them here) Viz. Venetians at Eighteen & a half Dollers Ten and a half to Ten an Ten Vis and Rupees at five fanams each, which is likewise asserted by the rest of the Honorable Company’s Covenant Servants then on the spott, who as well as Mr. Adams do acknowledge that the Large Sume brought to the Credit of Sunamy Putturah on the Books of their Settlement, was actually paid in by Mr. Adams himself, and taken up by him of the aforesaid Sunamy Putturah to supply the Honorable Company’s necessitis, and that they apprehend it would be difficult to take up any Considerable Sum of money on the like Occasion by any other means which howsoever unreasonable it may appear to be for some of us to Credit yet do they insist on its being Very difficult for the Honorable Company to procure loans in their own name, It having as they say been always Customary for the Chiefs to supply them after this manner.

On notice being given Mr. Stephen Law [of] the Error he Committed on Callicutt Book Letter X with regard to his Sallary there Charged at Forty pounds £ & 20 annum due to him as Junior Merchant, which ought to have been no more than Thirty pounds he acknowledges the same to be a mistake and promises to make the same good, and pay it back into the Treasury.

On inspecting the Books of this Settlement tis observed that among the rest of the Articles in an Entry made in Journall Y Wherein the Dead Stock &c. of Callicutt Factory is brought on these Books, there is one of Cash amounting to fanams Callicutt Thirteen thousand one hundred Eighteen & Four Tarre which appears as so much remaining there which ought to have been drawn therefrom and the Commissary demanding Mr. Adams his reason why it was not done was answered, That the aforesaid sum of Callicutt fanams 13118.4 was lodged by him there for the provission of Timber Chunam, Matts Coir &c. and that he would see the same made good to the Honorable Company in the aforementioned Articles. The 15th. Instant Boyanore having sent us word by Letters and Messengers to let us know that the Second Boyanore would wait on us at Moylan the 16th. We accordingly came to a resolution of meeting him there, but the nonconcurrence of the Nombers Curringhoda and Narringole having prevented his so doing. Occasioned him to let us know he would come this morning, and that he was in hopes to bring the aforesaid persons with him, and Unite them to his Interest against the French, We Accordingly on this Notice went to Moylan where he mett us this morning attended by three hundred Nayros the Nombers, Narringole and others their adherents and after the usual Compliments were passed on both sides he proceeded to inform us of the insults and attempts made by the French on his Country, urging, that as the Honorable Company, and he were in so strict an Amity, he could not but rely on their assistance at this Critical Juncture, and Desired we would furnish him with a Supply of 2000 Bales of Rice five Candy Gun powder one of Lead and 500 Iron Shott and Men to stand by his great Guns with some small Arms and that he would satisfy us for the aforesaid Comodities according to their Value in this Country, which being debated, by the Gentlemen of Council then present, at this interview it was thought most prudent to promise him a supply of two thousand two hundred, and Fifty bales of Muliky Rice, two Candy Gunpowder & one of Lead. Considering our being at present under Contract with him for a considerable Quantity of Pepper, and that the present Supply may effectually enable him to prevent the French from Settling in his Country, (the Pepper Trade of which is already made over to our Honorable Masters both by the Lawfull Prince thereof and himself,) and was readily accepted by himself who added that he would Communicate the same to his Brother on his return & advice us forthwith of his Sentiments.

That provided we would supply him with 2500 bales rice Five Candy of Gunpowder one of Lead and 500 Iron Shott he would engage himself to hinder the French from Settling in his Country, and on failure thereof, he would Account with us for the same, which being debated, by the Gentlemen of Council then present, at this interview it was thought most prudent Considering the present Juncture of affairs to promise him a supply of two thousand two hundred, and Fifty bales of Muliky Rice, two Candy Gunpowder & one of Lead. Considering our being at present under Contract with him for a considerable Quantity of Pepper, and that the present Supply may effectually enable him to prevent the French from Settling in his Country, (the Pepper Trade of which is already made over to our Honorable Masters both by the Lawfull Prince thereof and himself,) and was readily accepted by himself who added that he would Communicate the same to his Brother on his return & advice us forthwith of his Sentiments.

Being apprehensive that the Nombers with Boyanore and others now assembled at our request and influence towards Effecting a Generall Union among the Neighboring Powers, might Judge it a proceeding Foreign from all Custom, should We
 dismissed them without making them each a small present according to their different characters, and that our so doing might give a general disgust, it is agreed, for this once that we present them as follows viz.: To the 2d Boyanore a diamond ring; Valued & bot.

This Evening receiv’d a Letter from our Linguist Francesco Dias at Penany dater’d the 15th. Inst. advising us that Two hundred and Sixty three bales Pepper belonging to Suamy Putthurah was put on board a Munchua for Calicut in Order to be delivered there on the Honorable Company’s Account, were cast away on the Barr coming out of Penany river, and only Fifty Candys saved which will be exported again as soon as tis dryed, he says there is not above fifty Candys more old Pepper in the place that is procurable—And fifty of new to be expected in Eight days time. At 255 to 260 new Callicutt Fanams & Candy Dollars will not yield more than nine & three Quarters fanams and Venetians [not procurable]—That he expects the new Crop of Pepper to the sameward will come out finely as well in this year, and advises us to Contract with Suamy Putthurah for such Quantities as we intend to buy at Penany adding that he thinks we shall not be able to procure above 500 Candys till the month of February: at the Conclusion of his Letter he signifies he has bought Twenty Candys of old Pepper to be weighed of at Penany and to be paid for in Dollars at Ten fanams each, he is in hopes of purchasing Thirty Candys more at Calicut, and that Dollars did not pass for more in those Buzzars than nine and ½ fanams each, and at nine far. & nine Viz.

Received a Letter from Ally Rajah desiring a Continuance of the Honorable Company’s friendship, and in answer concerning Pepper and Cowrees, he says he has not any by him what he had is disposed of and sent away but when he has any pepper he will supply us.

Wrote our Callicutt Linguist a short Letter in answer to his of the 15th, ordering him to gather together the Pepper he had bought at Penany, and send it forthwith to Calicut to be imbailed there, and to wait further Orders Concerning it likewise to secure the fifty Candys he had in View at said place as well as last year, and advises us to Contract with Suamy Putthurah for such Quantities as we intend to buy at Penany adding that he thinks we shall not be able to procure above 500 Candys till the month of February: at the Conclusion of his Letter he signifies he has bought Twenty Candys of old Pepper to be weighed of at Penany and to be paid for in Dollars at Ten fanams each, he is in hopes of purchasing Thirty Candys more at Calicut, and that Dollars did not pass for more in those Buzzars than nine and ½ fanams each, and at nine far. & nine Viz.

Suamy Putterah the Brahmin [in] Merchant laying before us this morning his Account with the Honorable Company and producing his Olas for Three hundred forty eight Thousand Six hundred Fanams Principal money taken up of him by Robert Adams Esq. on the Company's Account at Several times viz. 1724 July 21st: 79200. Fanams Septem' 1st. Dl 59400. 1725 April 1st. 210000 Fanams in all amounting to as aforesaid to 548600 fan. with his Account Interest arising on said sum at 12 & Cent at annum amounting to 38012 and he Demanding payment thereof, The Commissary desired the Opinion of the board. What means were most proper to be taken for Securing the Company's Credit and encouraging him to assist with future Loans, and procuring Pepper when our Honorable Masters should stand in need thereof and after some time was spent in Considering on this Matter, they unanimously gave it as their Opinion, since he insisted on payment of the whole, that the same be discharged, and the Olas taken up Considered the large Interest arising on these Sums every month and that he may be for the future induced, by this punctual way of proceeding to serve us, as well in procuring of Pepper on Credit as by furnishing us with ready money when required which he promises likewise to do on all Occasions in Case we would clear his Account, the board were unanimous in paying off the same as entered after this Consultation, directed the Cashier to discharge the same this day which proceeding Occasioned him to tell us that we need not to doubt of all the assistance he could give us, in providing all the Pepper he could at Penany or elsewhere and that he had now Seventy Candys old Pepper that he hoped would be in our Warehouse at Callicutt by this time and that he would let us have the same at 18½ Venetians the Candy that on our paying the money he would forthwith repair to Penany, and go on providing new Pepper as fast as it came in at the Cheapest and lowest prices, but insisted on our giving him Ten Fanams a Candy for his trouble, that the Charge and Risque in bringing the same to Callicutt should be on the Company's Account as the Samorine will not let us ship it at Penany, and that we pay him at the aforesaid [place] on Dollars and other Coins According to their Value there at time of Payment these propositions after some debates being approved by the board, It was agreed to Contract with him on the foregoing Condition as well for the Seventy Candys old Pepper as for what new he might procure, which he says he hopes may be near five hundred Candys in all January, of three or four hundred he assures us.

AT A CONSULTATION

Present

JOHN BRADDYLL Esq. Commisary.
ROBERT ADAMS Esq. William Forres.
JOHN JOHNSON. Stephen Law.
HUGH HOWARD.

Read and approved our Consultation of 19th.

The Comissionary having assembled the board to Consider on means for gathering in our Honorable Masters Credit now Out standing both on the Callicutt & Tellicherry Books; Demanded of Mr. Adams why they had not made a further progress in recovering such thereof as seemed good especially Prince Cunihi Home's Debt and particularly why he had not been Charged from time to time the Usual Interest of the Country, who replys that as the money was lent him in his great necessity, and in time of his Wars with Ally Rajah he expects to pay none but will annually be discounting what he can out of his Customs, for the Principal! That they never did make up Accounts with him, but inculcated that the Honorable Company would Demand Interest of him for what Loans have been made him, he has often excused it, and that they have been Cautious of urging it too home, least it should Occasion him to become our Enemy at this time when there are so many dissenstions in the Country, and out of hopes that when the Principal is cleared they should be able to work upon him, so as to allow at least something to discharge the Interest, as we expect to see him in a short time.
it is thought most proper to deferr writing him on this subject, when we shall have
an Opportunity to discourse him and press him to a Compliance.

Taking next into Consideration the following debts put down as Suspicious Viz.:
Bonny Peretta (Pocour) ........................................... 7871 10
Muckry Callandra .................................................... 5342 01
Todan Cawdry .......................................................... 9262 08
Cauirt (Tuper) ........................................................ 948 99
Chatoo Chittie ......................................................... 4994 06
Bonny Peretee Amed ................................................ 4225 14

and enquiring the reason of their not having been formerly gathered in, and also
being enter'd in their Journall as suspicious Mr. Adams declares that the first of these
Viz. Bonny Peretta Pocour his debt was Contracted in the time of Mr. Prestwich that
the said Pocour was a Merchant of this place who was ruined in the Wars & has not
wherewithall to subsist, and now is an Inhabitant of Durmapatam, That Muckry
Callandra, his Debt was Contracted in the same manner but being brought under
extravt poverty in the aforesaid Wars is now our Compradore in the Fort & main-
tains himself by his Wages at 25 fanams & p month; That Todan Cawdroy is dead, but
that his debt was Contracted in the said Mr. Prestwich time but the recovery thereof
being neglected, he was at last reduced to poverty in the aforesaid Wars, as for
Cauirt Tuper Mr. Adams says that he has no other proof for the debt than that it was
brought upon the Books by said Mr. Prestwich, and that the party now denies it;
Chatoo Chittie's debt was likewise brought on these Books by Mr. Prestwich on
account some money advance'd him for stones to build the Fort, he urges the delivery
of the stones, and says Mr. Prestwich forgot to Creditt him for the sum, & Charged
the Fort therewith: as for Bonny Perettee Amed, we are assured of his being now in
Boyanores Country but Very miserable being reduced by the aforesaid Warr, and his
Debt Contracted as the others abovemention'd in the time of Mr. Prestwich Residence
here, so that there appears little hopes of any Satisfaction being made our Honble.
Masters from the aforesaid Partys.

The next and most Considerable of our Honoble Masters Credits outstanding
on this Coast appears to be the following transferr'd last year from Calicut Books.
Viz.

but as the last of these has so often enquired into and a full account thereof,
sent home to our Honoble Masters for their determination thereon, We shall waive
taking any further Notice thereof & proceed to the others abovemention'd in Course
and first the Commissary demands of Mr. Adams why Care has not been taken to
gather in the large debt due from the Samorini Rajah, since they esteem it in no wise
desperate, to which he answers, no Care or diligence has been wanting on his part to
reduce the same, as is apparent from his having gathered in upwards of 100000
Fanams last year, that his absence from Calicut gives room for the Custom Masters
there to appropriate the money another way besides the Honoble Company's Export of
Pepper and other Merchandize at Calicut being annually less and less Occasions that
revenue towards discharging that debt to decrease that he nevertheless esteems the
Debt to be Very good, so long as we can in time lesson it by endeavouring to export
greater Quantity of Pepper from his Country, but with all apprehends he cannot be
brought about to pay us any sums of ready money, without Compulsion and Force
altdh he has often promised the Contrary:—It is therefore directed Robert Adams
Esq. send him an Ol, signifying to him the Arrivial here of the Commissary, and
that he forthwith sends his Ministers to make up Accounts or not blame
him for any evil Consequence that may attend his non Compliance Mr. Adams
likewise says he does not apprehend the Honoble Company have any other
Security for the payment of the three above mentioned Debts Viz. Mauna Bedda
Punature Rajah and Dinemet Ponnearrre than thro the Samorin, by whose influence
they were Contracted, and in whose Service those Sums were Expended.
And being asked why no Interest was Charged at the Annual Close of the Books on the aforementioned debts, Urges that he has formerly wrote to Bombay on this head of its not having been a thing Customary to make up Accounts at Interest till such time as the whole has been discharged and the Olaa taken up, which method he has always observ'd with the Samarins as may be seen by the Callicutt Books, and farther says he would have advised of the 20000 Fan. extraordinary lent Furniture Rajah, had an Opportunity offered before the Close of the Books for 1718 but Acknowledges withall it was an Omission in him not to advise the Honorable President and Councill of Bombay of his having lent Cunhi Hemo the Sufrhe of 4796 Fanams in July 1723 and that he had no other inducement for making this Loan or reason whatsoever than the Constant Importunitys of that Prince who he apprehended might be highly disgusted at such a denyall.

ROBERT ADAMS.

This morning the French entered the Principall Fort of Boyanore, Situate on the river Mihie which gives them the entire Command of the mouth of that river; reports are Various as to their loss but we judge about Forty were killed & wounded, of which some were Officers of distinction, the Mallabarrs had killed upwards of a hundred men this arose by some misunderstanding amongst the Partys, The French required the Natives to leave their Neighbouring Houses and Buzzars.

In the Evening we received by two Munchuas two Letters from Our Linguist at Callicutt dated the 21st. Instant [sic] advising he had sent by said Munchuas 870 bales of Chunnam to repair our Limmitt bastion he came from Pennany the 18th. Instant and brought with him 18 Candys of old Pepper at Twenty four Ibrahims & Candy, and Ten Candys belonging to Summy Putturah he expects to day, Twenty Candys more which he bought at Twenty five Ibrahims & Candy to be paid in Dollars at Ten fanams each he has likewise bought Twelve & a half Candy of No. thern Pepper at Twenty Six Ibrahims and Dollers to be paid at Ten fan, each, and fifteen Candys at 25 Ibrahims and Dollers at Nine & three quarters fan, and what he can gett more he will buy as fast as possible, he says the French exchange Dollers for rupees the former at Nine & half & the Latter at 4½ fanams, the Value of at present are as follows

The Chest of Dollers which we sent him down the 11th. Instant to exchange for Venetians, he says cannot be put off for more than 9½ fanams and Venetians to be received at 18 and even at this rate he cannot get in Eight days above 500. About five days since arrived a Suraat Ship at Callicutt the Merchants of which are buying up old Pepper at 25 and 25½ Ibrahims, & new at 22¾ to 23 d. paying rupees at 4½ & Dollers at 9½ to 9¾ fanams, at Pennany tis thought but a small Quantity can be had there being many buyers.

This Evening Mr. Adams received a Letter from the Commandant of the French Ships, which he answered as entred hereafter. Likewise received an Ola from the Samorine in answer to what he was directed to write him Concerning the Honorable Companys debt, He says that in Order to Settle Accounts with the Honorable Company is Necessary Mr. Adams repairs Callimct to or to his Court where he will Treat with him on that and divers other matters, tending towards promot, a lasting Amity between himself and the Honorable Company and that Mr. Adams is perfectly acquainted with the Custom of the Country, he hopes he will wait on him at one of those places, in Order to finish Accounts with out any further trouble.

This Morning We made answer to our Callicutt Linguist's Letter of the 21st. by Express directing him to Exert himself in Gathering in the Pepper he had already bought, as also what we had Contracted for with Sumny Putturah, for that we Should
Send the Devonshire in two days time to take it in, and hoped he had at least 200 Candys ready to put on board her directing him likewise to forbear providing Venetians till they become Chaper [sic] and more plenty, and that he should make use of the Chest of Dollars he had by him, towards paying for the Pepper he had provided, and that he should send us the Accounts of the Factory monthly for our examination, and to make due Entry thereof on our books.

Dispatched Ensign Mortyn with our Letter to the Chevalier Pardaillan Comand[r] of the French Forces at Mihie and st. Ensign returned with an Answer thereto whose transcripts are entred hereafter.

This morning Imported the Balls from Bengali who brings us Account that Morrice Sailed in Company with him over the Braces, and that he fell in with the Wyndham the 21st. Ins near Quilone bound to Anjengo; Said Ship Sailing this evening wrote the Honorable Presed'. & Councill under this date.

Wrote a Letter to the Chief and Factors at Onore, advising them that the Devonshire would be with them Ten days after the receipt thereof, to take in what Pepper they might have in readiness, and desired them to detain her no longer than absolutely necessary. The King of Cotata having desired the Linguist might attend him at his Palace, we Sent him accordingly to know his pleasure.

THURSDAY 25.

This morning Imported the W' Galley Cap'. Frances D'Abbadie from Suratt, and our Linguist having returned late last night from the King of Cotata's Palace informs us, that the intent of Said King was to wage War with Boyanore and lay hold of the present advantage that offer'd, from the French having made incursion into that Country, that he intended to make the French a small present and accept their assistance provided we could prevail on the Prince Cunbi Homo not to molest him and approve these proceedings; Said Prince being now with us, we made him acquaint'd with the Substance of our Linguist's Narrative, Who immediatly thereon Sent the King of Cotata a Message not to embarrass the affairs of Boyanore on any Account whatsoever or to Treat with the French on this head, if he did would take effectual measures towards preventing the same.

FRIDAY 26.

Read and approved our Consultation of the 20th.

The Commissary takes Notice to the board, that the Honourable President and Council of Bombay had recommended to him the dispatch of Ship Devonshire from this place so as she may be able to gain her passage thither in all Decemb', at farthest, and propose to them the sending her forthwith to Calicutt to receive from our Linguist.
there such pepper as he has provided for account our Honble Masters; Judging it therefore altogether improper for us to detain her here longer than the first of next month, as we intend her to call at Onore to receive from the Chief and Factors there what pepper they have in readiness, and that it is not in our power to gater in any further Quantity of Pepper, either at this place or to the Sward in all Decemb, so as to make it worth our while to detain her; 'tis agreed that we dispatch her forthwith to Callicult, with orders to our Linguist to lade on board her with all expedition what pepper he has in Warehouse, and to return her to us after having Completed the same.

Directed likewise that Sailing Orders be prepared Accordingly for Capt. Lawrence Prince and that he be despatcht hence so as to Sail with the land wind.

Having Certain advices that Curringhoda has been with the French to ask assistance to come against us; and they actually promised him a Supply of Arms Gunpowder and money, We took it into Consideration to use all the means possible to prepare our Selves against him, especially as our Garrison is in a Very weak Condition and a great Space of ground to maintain and indeed should they enter into Nannagport precincts we shall not be able to relieve Moylan or Mockara, We therefore resolved to dispatch a toney Express to the Chief and Factors at Onore to List us all the Europeans Topasses and coffees they could gett, in the best manner they could, and to send them to us with the utmost Speed, and that we request the Prince now with us, to send an Ola to Orcutt Nombier who seemingly opposes the French Interest to fetch him hither in Order to Secure him to us and thereby prevent what in us lies, the ill designes of Curringhoda, and that he may not be prevailed on to fall in with the rest of the Nombres, as the French have assured Curringhoda they will.

Adjourned.

Sailed the William Galley Capt. Francis D' Abbadié Command to Canamore.

Early this morning sailed the Devonshire Capt. Lawrence Prince Command for Callicult. Last night passed by the French Munchea which was hailed by our people on the rocks to whom they gave Scurrilous Language and proceeded to the N. ward in the morn. Saw her at Anchor off Codole River immediately we despatcht an Officer to know the reason of her lying there within the LIMITS of the Hoible Company and to Signify to them, or [sic] right in that river, and as they would not permit us the Liberty of Mobic 'twas Very inconstant they should frequent there. We having Conquered the Same, and has been made Over to us by the Sovereign Powers of the Country; Our officer not being [Pm[itted] the Liberty of delivering his Message and their boat preparing to hinder his coming near them, he returned to us, upon which, We resolved forthwith to write the Chevalier Mr. Mollandin and Council concerning this affair, Copy of which follows hereafter, Sent a Verball message also by one of our Bramini to the King of Cotata Signifying to him our Surprise at the French boat frequenting his Country, and as our Interest in point of Trade must Certainly Clash with them there, we beged him to Consider how Very disagreeable it must be to us to find a Stranger permitted by him into his Country, especially at a time, when we are on the strongest ties of Amity, We desired he would be Frank in his answer that we might know, if he Continued in the same.

This Evening returned the Bramini our messenger from the king of Cotata and informed us that after having expostulated with him on the heads of his message, he made him the following reply, that he apprehended the French had no other Interest in sending the boats into that river, than to deliver some Ammunition, and to Carry a present he intended to make their Commander, that they having offered him
their assistance in making War on the Boyanores he thought proper to accept thereof, adding withall he had long waited for an Opportunity of being revenged on them, that he hoped this would not in any wise Occasion a breach between him and the Holble Company whose Interest he had at heart but withall he was resolved to take Satisfaction on the Boyanores at Tonday.

TO THE CHEVALIER PARDAILLAN GONDIN
Comte in Chief of the French Squadron
Moins: ANDREW MOLLANDIN Chief of Call", & Moir. TRIMIST &c. COUNCILL
for Affairs of the French Company at
Mihie.

GENTLEMEN

We have Sundry times applied our selves to you, that our Vessells might have admittance into the River Mihie to bring of the Holble Companys Merchandize, which Liberty you are pleased to refuse, and refer us to your Superiours at Pondicherry.

Last Night one of your Munchuas pass'd by, under our Guns being haled insulted the Watch with Scurrilous Language and proceeded on her way, and this morn. we Saw her at an Anchor at the mouth of the river Codolee appertaining to the Holble English Company, and Several boats going to and from her Loaded with Rice, the Occasion of this is Very strange to us; and a Novelty in itself, that you should pretend to the Legall right of Mihieriver by one days Conquest, and not allow our Honoble Masters the like priviledge of Codolee which has been in their possession upwards of Fifty years.

We not willing to treat the French Nation as they treat us, sent an Officer Singly to the Munchua to inform the Officer 'That handed her of his Error, and to enquire his business within our Limits ere he made application to us, but he Very rudly and in an insulting manner would not permit him to come near so as to deliver his message with that good manners he was ordered, This gives us Occasion Gentlem. to apply to you, for the reason of this procedure, and so Contrary to the strict Harmony and alliance that Subsists between the Crowns in Europe, as we shall not be guilty ourselves of Violating the Same, So we require that you forthwith Order that Officer and Vessell to withdraw, and for the future, that you not only forbear any intrusion into our Honoble Masters Precincts, but also order your Officers to treat us with better manners, and not like people in hostility with each other, to prevent all misunderstandings that may arise by Such Slights and Insults offered us, to which we request your answer not questioning but it will be suitable to our inclenations to Friendship and Amity which will oblige us as We have always professed to be.

TELLICHERY.

Nov. 27th. 1725.

This morning arrived an Officer from the French Camp at Mihie and brought us an answer to what we wrote them yesterday we immediately sent him back with our reply as ¿ Copies thereof endred hereafter.

MESSIEURS

We have received the Hon' of yours by which you take Notice that one of our Munchuas pass'd under your Guns, and being haled by your people the man that Comanded answered indesently, and what Surprizes us most is we have given Strict Orders to the Contrary to all under our Comand, and we are Very Sorry they behaved themselves in that manner, and you may be assured Gentlemen at their return they
shall be Chastiz'd Severely and to do you Justice We desire nothing more than that a good understanding may be kept up between us, and we depend on you for the Same, you may be assured we shall always seek Occasions to be Serviceable to the Honoble English Company, and you in Particular, and are with perfect regard

Sirs
We had the pleasure of receiving your Lre of yesterdays date, were your actions agreeable to what you express we should readily believe you in Earnest, We wrote you on many other particulars besides the indiscretion of your people that passed our battery and given such Language to our Centinells, We doubt not of your doing us Justice by having them punished and preventing their doing the like henceforward, It Surprises us much you make no reply to what we wrote you concerning the evil treatment our Officer mett with from your Muncheas on Entering our river Codoses, We sent him thither to enquire Civilly What they might want within our Limitts, but they would not permit him to deliver his message. It appears to us, as if your intentions were to infringe the Libertys of the Honoble English Company by entering Said river in so forcible a manner, We hope you will think this an injury done us & futurly forbear repeating the same which will oblige us to be

Nov'. 28th. 1725.

This morning imported the William Galley Capt. D' Abbudie from Cannanore, also the Morrice Capt. Rustace Pecock and Effingham Capt. Bell from Bengall by the Morrice we wrote the Honoble President & Councill of Bombay advising of all transactions since the departure of the Bails and sent Copie of the Letter by her.

This Evening we received a Letter from our Linguist of Callicutt, dated the 26th. Ins' advising us that he had purchased in all 54 2/3 Candys of Pepper besides 70 Candy of Sunamy Putturahs which in all made 134 2/3 Candys. He was Imballing it in Order to have it ready when a Ship Arrived to receive it; Dollars he informs us are fallen Very much, by the French's Exchanging a great Quantity, so that they would not yield more than 92 fan; and he still believes they will fall, through his indisposition by a Severe pain in his head, he was not able to send us the Factory Accounts, but he would not fail of doing it by the next Occasion. The French have gained great Credit by their Victory at Mihie and nothing is talked of at present at Callicutt but of their Power, Pepper is risen since the French Success to 25 2/3 Ibrahims for the Southern and 27 Ibrahims the Northern & as tis Judged there can
be no Pepper come now from Boyanese Country, they are encouraged to hope for a greater price Still. By this Munchua he advises of his Lading 170 bales of Chunan for Account The Honble Company.

This morning the Devonshire Captain Lawrence Prince arrived from Callicutt, our Linguist there wrote us under the 29th. Inst. that he had put on board her 561 bales of Pepper each containing 5 maund is 140½ Candys amounting to fanams Callicutt 46,796. 14 VIs including all the Charges theron, excepting the Custom, he assures us he had done his utmost, According to our Orders to make it up 200 Candys but twas impossible, he remarks a difference in two bales of Pepper by a boat that by his account Carryed fifteen bales, and by the ships receipt only thirteen, he assures us he has made the exactest Scrutiny possible and cannot find the Error is of his Side We shall therefore adjust the Same with the Captain.

This Evening we had an Ola from the King of Cotata, wherein he takes Notice of our having desired that two of his Ministers might come to discourse with us, one of them which be Generally sends is much indisposed; which obliged him to Stay till he is better;—He observes what we wrote him not to Send his Presents to the French which he Complied with, but they Sending their people in a Very Courteous manner to him with rice and money, he could not avoid using them Civily. He acknowledges our Friendship to be Very antient, and his intentions are to preserve it inviolable, and hopes we will observe the same on our part, and as he esteems our Enemies, his he expects we will account his, ours.—We answer’d his Ola imediately requesting he would preferr an old Friend to the New, or at least not esteem the new equal to the old, he knew we had Enemies who would be glad of any breach between us, we requested he would not give them an opportunity of making any, he knew best his own interest And he might always depend on the Company’s Friendship.

AT A CONSULTATION.

Present.

DecemBer Wednesday 1st.

John Braddyll Esq. Commissary.
Hugh Howard.

Read and approved our Consultation of the 26th.

The Commissary informing the board that he was directed by the President & Councill to Cause an Account to be render’d by Robert Adams Esq. of the Ships employed by him from this Coast Since the year 1715 and of the Tonnage due thereon; The same was Accordingly delivered into the board as Enter’d hereafter, and the Ballance thereof being 350 Rupees, ‘tis accordingly directed to be paid into the Honoble Companys Cash.

Examined and passed the Commissarys Account of Cash and Foreign Silver for the month November, The Ballance whereof as enter’d hereafter is delivered over to Robert Adams Esq’.

Our Linguist informing the board that a Moor Merchant is willing to Supply us in a day or two with 40 Candy of old Pepper at 19 Venetians P. Candy to be paid in Dollers at Eleven fanams each it was Directed that he use means to prevail with said Merchant to bring it in with all possible speed on these terms if not to be procured under — and that we keep the Devonshire here a day or two longer to receive it aboard. Adjourn’d.

The late attempts made by the French of forcing an entrance into the river Codolee within our Limits and the refusal to answer our several remonstrances on that head, gives us just reason to suspect that on their being settled at Mihie, they may Very likely use further Efforts towards making themselves Masters of the Same, the Consequence of which must of Course be such, as to render this Settlement useless to our Honorable Masters since the Trade thereof, by their so doing must inevitably fall into their hands, to prevent which as much as in us lies, it is thought requisite we proceed to furthe[sic] demonstrations, that we hoist our Colours at the place where Usually our Guard is kept, at the mouth of said river, and raise [some] Battery or Redout, to be Defended by three or four Guns, and a Convenient number of Mallabarrs, least the want thereof they plead prepossession, and so wrest it without any opposition being made, AGREE thereof that Since this work cannot be of any use unless sett about immediately, 'tis agreed that the Same be undertaken forthwith, and ere the French may be able to give us trouble that way, so that it may not be Said, We gave up our Honorable Masters Rights without defendg. the Same, in the best manner we are able.

Examined and passed the Paymasters Accounts for the month of November as abstract thereof Entred hereafter, [ORDER] likewise that Copy thereof be sent [to] Bombay for the Honorable President & Councill their perusal.

Captain Lawrence Prince laying before us his Account Currant with The Honble Company the Balance whereof being rupees 1910 desires we will give him a Bill on The Honorable President & Council of Bombay for the Same, Ordered therefore that a bill be drawn in his favor for Said Sunble to be delivered him at his departure; Ordered likewise that another bill be drawn in favor of John Braddyll Esq. for 8000 rupees with such Interest, as shall become due thereon to the time of payment according to the Tenour of our Consultation of the 8th. of Novem. last.

Considering the Loss that will arise on the Pagodas received P. Fame, our not being able to put them off for more than 14½ fanams Calliott which will occasion a Loss on the Same of about 10 P. Cent, 'tis therefore agreed we return them by the Devonshire, least the Honoble President and Council should blame us for putting them off at so low a rate. The Storekeeper likewise informing us he had a Considerable number of old Arms, that would lye altogether useless here, having no one to repair them, [we] agreed they should be Laded on the Devonshire.
