

DIRECTORY OF RESEARCH STUDIES 1977-84

Compiled by

**H. S. Sandhu
M. S. Sidhu**

Department of Economics & Sociology
UNJAB AGRICULTURAL UNIVERSITY, LUDHIANA
1985

The Department of Economics & Sociology ever since its inception on the eve of establishment of the Punjab Agricultural University in 1962 carried out an organised and integrated research programme in order to provide answers to various economic and social problems facing farmers, policy makers and development workers of the State of Punjab. Some studies have also been conducted having national level application. The emphasis on quality research and efforts to inject more and more economic principles in agricultural economics research have helped the department to earn a great reputation in the professional world at the national and international level.

Visitors to the University, Government and private individuals and agencies have shown a good deal of interest in a large number of studies conducted by the Department in the fields of Farm Management, Production Economics, Resource Economics, Agricultural Marketing and Price Analysis, Agricultural Finance and Cooperation, and Agricultural Policy as well as Rural Sociology. This directory is an attempt to put, in chronological order, all the research studies including dissertations of M.Sc. and Ph.D. students of the Department from the year 1977 to 1984. We hope, it will be of help to the interested individuals and agencies in providing a ready reference to the work done in the Department

Dr H.S.Sandhu and Mr M.S.Sidhu have done this painstaking work in the minimum period of time. Suggestions from the readers will be highly appreciated.
