

CONSUMPTIVE USE OF WATER
the **IRRIGATED AREAS**
of the
UPPER COLORADO RIVER BASIN
(Provisional)

by *Harry F Blaney*
IRRIGATION ENGINEER
and *Wayne D Criddle*
IRRIGATION ENGINEER

April 1949

ed under the direction of George D. Clyde, Chief
Division of Irrigation and Water Conservation

UNITED STATES DEPARTMENT OF AGRICULTURE

H. H. BENNETT, Chief SOIL CONSERVATION SERVICE M. L. NICHOLS, Chief of RESEARCH

CONSUMPTIVE USE OF WATER IN THE IRRIGATED AREAS
OF UPPER COLORADO RIVER BASIN

(Provisional)
April 1949

By

Harry F. Blaney, Irrigation Engineer
and
Wayne D. Criddle, Irrigation Engineer

Prepared under the direction of
George D. Clyde, Chief
Division of Irrigation and Water Conservation

UNITED STATES DEPARTMENT OF AGRICULTURE
SOIL CONSERVATION SERVICE, RESEARCH
H. H. BENNETT, CHIEF SOIL CONSERVATION SERVICE
M. L. NICHOLS, CHIEF OF RESEARCH

TABLE OF CONTENTS

	<u>Page</u>
INTRODUCTION	1
GENERAL CHARACTERISTICS OF UPPER COLORADO RIVER BASIN	2
Agriculture	2
Soils	3
Climate	4
OTHER INVESTIGATIONS	4
Studies in Other Areas	5
Upper Colorado River Basin Studies	6
Current Studies in Utah	7
GENERAL PROCEDURE	7
Consumptive Use Coefficients	8
Climatological Data	8
IRRIGATION PRACTICES	10
Method of Obtaining Data	13
General Description of Practices	13
Arizona	14
Colorado	14
New Mexico	15
Utah	15
Wyoming	15
ESTIMATES OF RATES OF CONSUMPTIVE USE	16
Irrigated Crops	16
Native Vegetation and Incidental Areas	27
APPLICATION OF CONSUMPTIVE USE RATES	28
Valley Areas	28
Farm Irrigation Requirements	33
REFERENCES	37
APPENDIX	39
Upper Colorado River Basin Compact	48

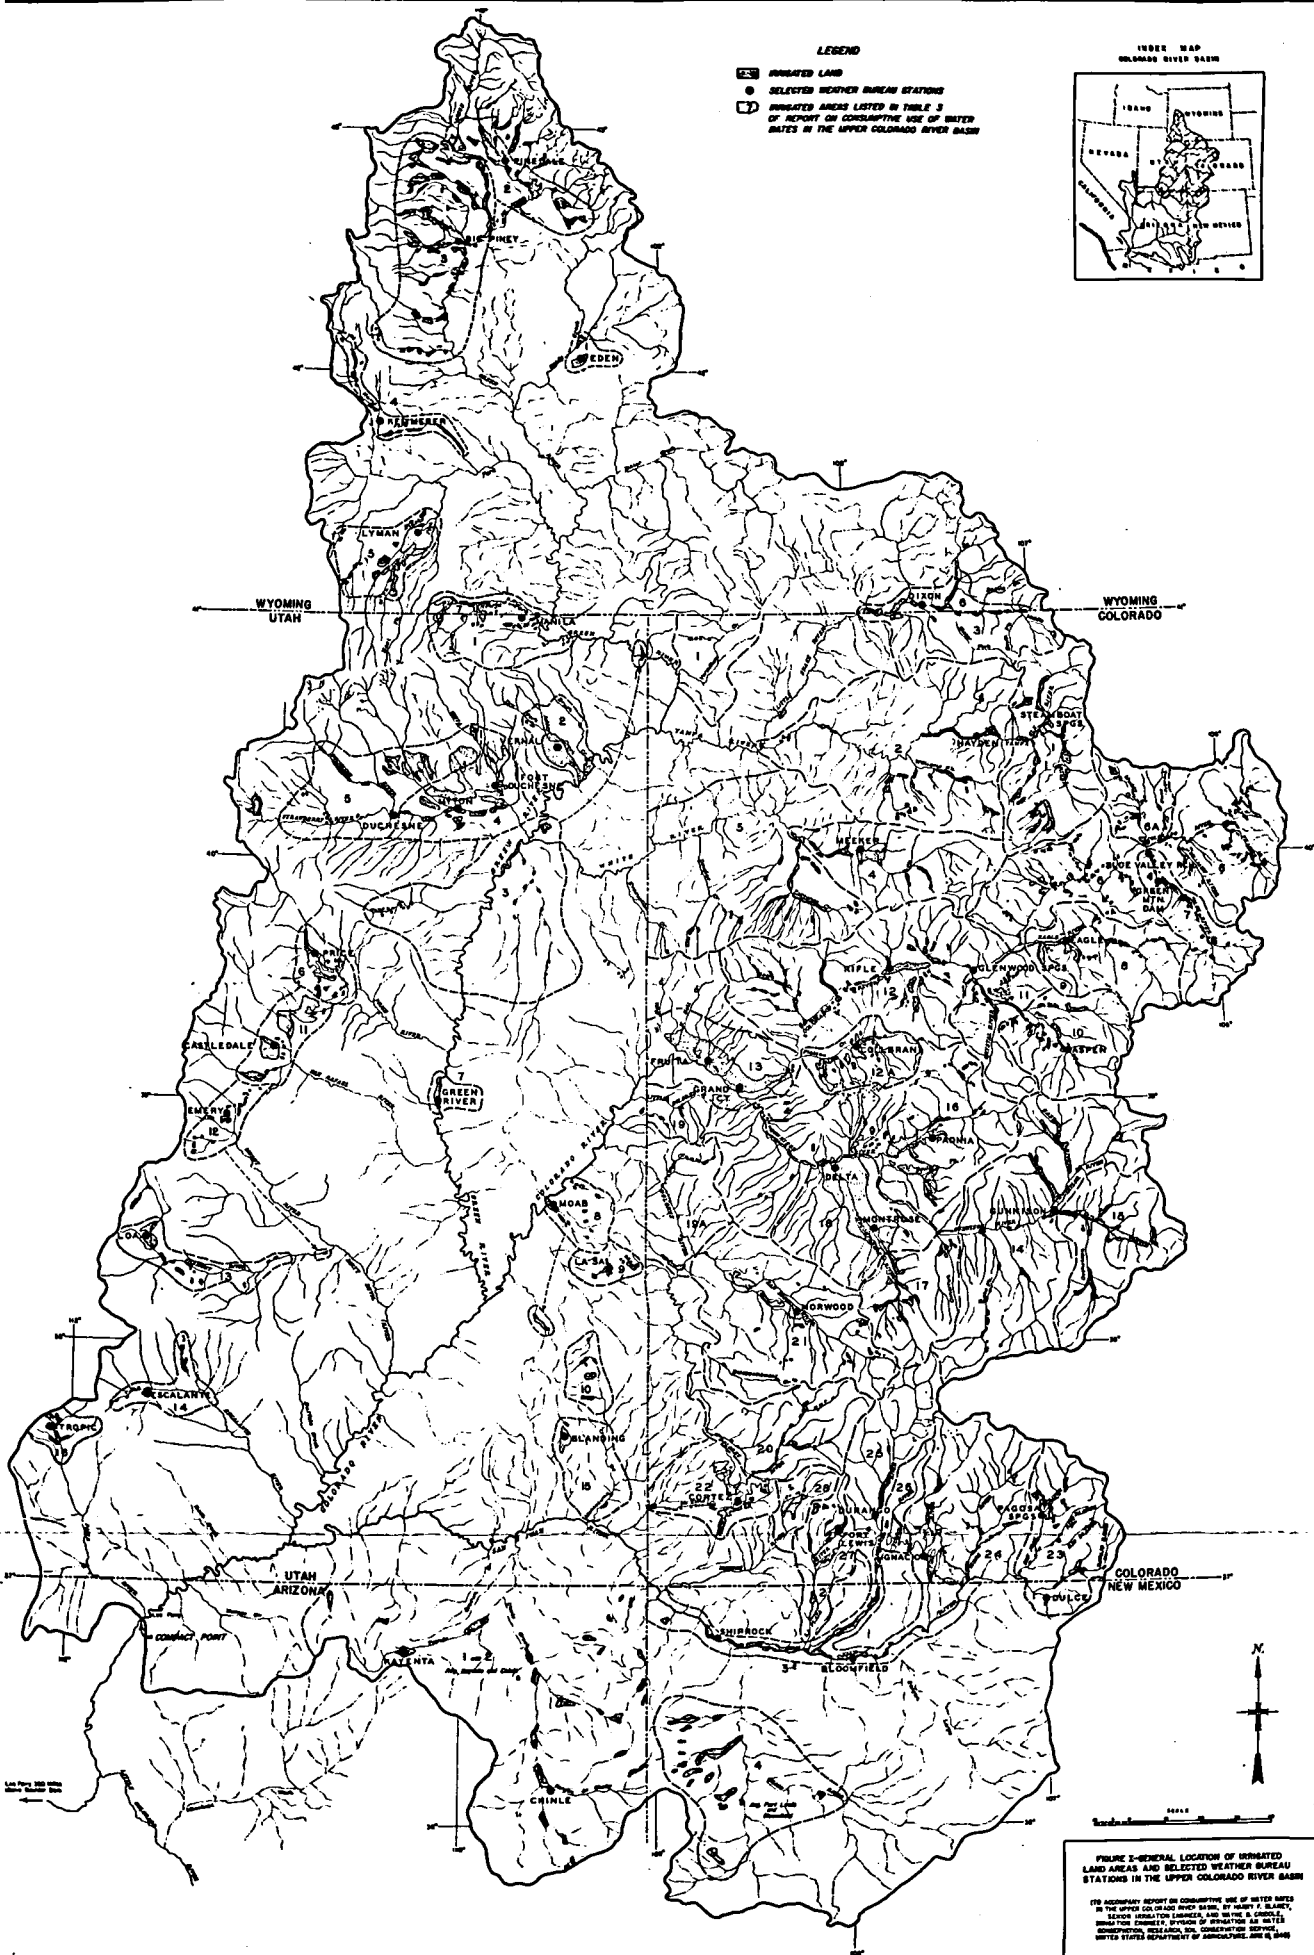

LIST OF TABLES

	<u>Page</u>
1. Coefficients used in computing consumptive use of water in the Upper Colorado River Basin	9
2. Average annual precipitation, mean annual temperature and frost-free period at Weather Bureau stations used in computing consumptive use in the Upper Colorado River Basin	11
3. Irrigated areas, Weather Bureau stations, and irrigation periods utilized in computing consumptive use of irrigation water in Arizona, Colorado, New Mexico, Utah and Wyoming	18
4. Example of observed monthly temperatures, precipitation percent of daytime hours and calculated consumptive use factor in the Upper Yampa and Elk River areas of the Upper Colorado River Basin	21
5. Example of computations of rates of consumptive use of water in the Upper Yampa and Elk River areas of the Upper Colorado River Basin	22
6. Summary of estimates of normal unit consumptive use of water rates for irrigated crops during the irrigation period for areas in the Upper Colorado River Basin	23
7. Summary of estimates of normal unit consumptive use of water rates minus precipitation by irrigated crops through the irrigation period for areas in the Upper Colorado River Basin	25
8. Summary of estimates of normal unit consumptive use of water rates for native vegetation and areas receiving water incidentally to irrigation in the Upper Colorado River Basin	29
9. Summary of estimates of normal unit consumptive use of water rates minus precipitation for native vegetation and areas receiving water incidentally to irrigation in the Upper Colorado River Basin	31
10. Average consumptive use of water in the Lower Uncompahgre Valley, Colorado, 1938-41, computed by the integration method	34
11. Application of results of consumptive use calculations to a determination of water requirement of a typical farm, Grand Junction Area, Colorado	35
12. Application of results of consumptive use calculations to a determination of water requirement of a typical ranch, Pinedale Area, Wyoming	36

LIST OF TABLES

APPENDIX

	<u>Page</u>
A. Consumptive use coefficients for alfalfa based on measured consumptive use and temperature records, and percent of daytime hours and growing season in Western States.	40
B. Examples of consumptive use coefficients for native vegetation and evaporation based on measured consumptive use and temperature records, and percent of daytime hours and growing season	41
C. Average monthly evaporation and meteorological data, Montrose Colorado 1939 to 1943	42
D. Mean monthly temperatures in degrees Fahrenheit at stations in the Upper Colorado River Basin, recorded or estimated from Weather Bureau records for the period 1914 to 1945	43
E. Mean monthly precipitation, in inches, at stations in the Upper Colorado River Basin, recorded or estimated from Weather Bureau records, for the period 1914 to 1945	45
F. Daytime hours in mean solar time, (Sunrise to Sunset) with percentages for each month of the year for latitudes within the Upper Colorado River Basin	47

LEGEND

- IRRIGATED LAND
- SELECTED WEATHER BUREAU STATIONS
- IRRIGATED AREAS LISTED IN TABLE 3 OF REPORT ON COMPREHENSIVE USE OF WATER DATES IN THE UPPER COLORADO RIVER BASIN
