

The Home University Library

The Value of
THE
HOME UNIVERSITY
LIBRARY

ALTHOUGH many cheap books have been issued since its first appearance, The Home University Library easily maintains its pre-eminence. It was as the *Daily Mail* says, "undoubtedly the pioneer in supplying serious literature for a large section of the public who are interested in the liberal education of the State."

The value of The Home University Library lies in the fact that each volume brings within the reach of all the ablest statement of a certain important field of knowledge, a review written by an expert of the very first rank, and yet so broadly generalised as to be interesting to every intelligent reader.

The Home University Library succeeds because it provides best and only the best.
