

MISSOURI RIVER BASIN

CONSERVATION, CONTROL, AND USE OF WATER RESOURCES

OF THE

MISSOURI RIVER BASIN IN MONTANA, WYOMING,
COLORADO, NORTH DAKOTA, SOUTH
DAKOTA, NEBRASKA, KANSAS,
IOWA, AND MISSOURI

(Report by Secretary of the Interior Harold L. Ickes on
Bureau of Reclamation's Plan for Basin Development)

APRIL 1944

PRESENTED BY MR. O'MAHONEY

MAY 5 (legislative day, APRIL 12); 1944.—Ordered to be printed
with illustrations

CONTENTS

PRINCIPAL DIVISIONS OF THE REPORT

	Page
Board of Review's report to the Commissioner.....	10-16
Summary foreword.....	16-19
Authority for the report.....	19
Description, present development, plans for the future.....	27-120
Missouri River project plan—Summary.....	20-27
Yellowstone River Basin.....	28-54
Upper Missouri Basin.....	54-67
Minor western tributaries.....	67-78
Niobrara, Platte, and Kansas River Basins.....	78-96
Fort Peck to Sioux City subdivision.....	96-118
Lower Missouri Basin.....	119-120
Comparison of Army and reclamation plans.....	120-122
Power facilities, present and proposed.....	123-142
Physical and economic character of the Basin.....	142-184

Letter from the Bureau of the Budget.....	1
Letter from the Department of the Interior.....	1
Letter from the Bureau of Reclamation.....	2-4
Letter from the Office of Indian Affairs.....	5-6
Letter from the Chief of Engineers, War Department.....	6-8
Letter from the Department of Agriculture.....	8-9
Letter from the Fish and Wildlife Service.....	9

Board of Review's Report to the Commissioner.....	10-16
Summary foreword.....	16-19
Authority for report.....	19
Descriptions, present developments, plans for future development.....	27-120

THE MISSOURI RIVER PROJECT PLAN

Summary of costs, benefits, and returns.....	20-27
Foreword.....	21-23
Summary of irrigation.....	23
Summary of power plants.....	24
Benefits:	
Irrigation.....	25
Power.....	25
Flood control.....	26
Navigation.....	26
Municipal water supplies.....	26
Summary of benefits.....	27
Summary of annual costs.....	27
Summary of repayments and returns.....	27
The Yellowstone River Basin.....	28-54
Foreword.....	28-29
General description.....	29-30
Physical features.....	29-30
Basin characteristics.....	29
Yellowstone River.....	29
Clarks Fork River.....	30
Big Horn River.....	30
Tongue and Powder River.....	30
Other tributaries.....	30

The Yellowstone River Basin—Continued.

	Page
General description—Continued.	
Land use.....	30-32
Ground-water resources.....	32-33
Surface-water resources.....	33-34
Quality of surface water.....	34
Climate.....	34-35
Soils.....	35
Markets and transportation.....	36
Population and industries.....	36
Minerals.....	36-37
Fish and wildlife.....	38
Recreational features.....	38-39
Present development.....	39-45
General.....	39
Yellowstone River.....	39-41
Clarks Fork Basin.....	41
Big Horn River Basin.....	41-45
Wind River Basin.....	42
Big Horn Basin.....	43-44
Lower Big Horn Basin.....	44-45
Plan for future development.....	45-47
Yellowstone River.....	45-47
Proposed irrigation projects.....	46
Drainage projects.....	46-47
Main stream storage.....	47
Clarks Fork of the Yellowstone.....	48
Big Horn River.....	48-50
Wind River Basin.....	48-49
Big Horn Basin.....	49-50
Lower Big Horn Basin.....	50
Tongue River.....	50-51
Powder River.....	51
Shields River.....	51
Sweetgrass Creek.....	51-52
Summary.....	52-54
Proposed Irrigation and Drainage Units.....	52-53
Proposed reservoirs.....	53
Summary by States.....	54
Irrigation and drainage units.....	54
Reservoirs.....	54
Power plants.....	54
The Upper Missouri River Basin (above Fort Peck):	
Foreword.....	54-55
General description.....	55-59
Physical features.....	55-56
Land use.....	56-57
Ground water resources.....	57
Surface water resources.....	57
Quality of water.....	57
Climate.....	57-58
Soils.....	58
Markets and transportation.....	58
Minerals.....	59
Recreation, and fish and wildlife.....	59
Present development.....	59-61
Irrigation.....	60-61
Plan of future development.....	61-67
Canyon Ferry Reservoir.....	62
Red Rock unit.....	62
Lima Reservoir.....	62
Brenner Reservoir.....	62
Dillon Valley unit.....	62
Clark Canyon Reservoir.....	62
Kelly Reservoir.....	62
Landon Reservoir.....	62
Apex Reservoir.....	62

Minor western tributaries—Continued.	
Summary—Tables:	Page
Irrigation units.....	77
Proposed reservoirs.....	78
Summary by States.....	78
Niobrara, Platte, and Kansas River Basins:	
Foreword.....	78-80
General description.....	80-87
Niobrara Basin.....	80
Platte River Basin.....	80-81
North Platte drainage.....	81
South Platte drainage.....	81-82
Main Platte River.....	82
Surface-water resources.....	82-83
Ground-water resources.....	83
Quality of water.....	83-84
Kansas River.....	84
Land use.....	84-85
Soils.....	85
Climate.....	85-86
Markets and transportation.....	86
Population and industry.....	86-87
Mineral resources.....	87
Recreation.....	87
Fish and wildlife.....	87
Present development.....	88-89
Plan of future development.....	89-96
Water-use problems.....	89
Platte River Basin.....	89-90
Loup River.....	90
Platte and Loup River Basins.....	90-92
Republican River Basin.....	92-94
Smokey Hill Basin.....	94
Summary—Tables:	
Irrigation units.....	94-95
Reservoirs.....	95
Summary by States.....	96
Missouri River subdivision—Fort Peck to Sioux City:	
Foreword.....	96
A new frontier in irrigation.....	96-104
Ward County, N. Dak., relief situation.....	98-99
Variability in small grain yields.....	100
History of production in Missouri-Souris unit area.....	101-102
Effect of drought on livestock population.....	102
Effect of a succession of drought years on human population.....	102
Effect of drought on population in James River Valley.....	102
Some general economic facts about Fort Peck to Sioux City subdivision.....	102-103
Counties in Montana, North Dakota, and South Dakota affected by diversion.....	104
General description.....	104-110
Physical characteristics.....	104-106
Land use.....	106
Ground-water resources.....	106-107
Surface-water resources.....	107
Quality of water.....	107
Climate.....	107-108
Soils.....	108
Markets and transportation.....	108
Population and industries.....	109
Minerals.....	109
Recreational features.....	109
Fish and wildlife.....	109-110
Present development.....	110-111

CONTENTS

	Page
Physical and economic character of the Missouri River Basin:	
Foreword.....	142-146
Location, elevation, and area.....	146-154
Summary of salient physical and economic facts.....	149
Montana and Northern Wyoming.....	149-150
Western Dakotas.....	150-152
Eastern Dakotas.....	152
Southern Wyoming, northeastern Colorado, western Nebraska, western Kansas.....	152-153
Extreme eastern South Dakota, southwestern Minnesota, eastern Nebraska, eastern Kansas, western Iowa, northern Missouri.....	153-154
The people of the Missouri River Basin.....	154-158
Population movements in the Missouri Basin States.....	154-156
Seventy years of population growth in the Missouri Basin States..	156
Nonwhite races in the Missouri Basin States.....	156
Population of the Missouri Basin.....	157-158
Agriculture in the Missouri Basin.....	158-167
Farming and ranching.....	158-161
Types of farms in the Missouri Basin.....	161-162
How many acres per farm person.....	162-163
Size of farms in Missouri Basin States.....	164
Influence of mechanization on output per farm worker.....	164-165
Value of products sold or used by farmers.....	166-167
Manufacturing in the Missouri Basin.....	168-172
Manufacture of food products.....	168
Processing of butterfat.....	168-170
Value of manufactures of Missouri Basin States.....	170
Summary of manufactures.....	170-172
Wholesale and retail trade in the Missouri Basin.....	173-174
Economic history of the Missouri Basin.....	174-178
General economic character of the Missouri River Basin.....	179-181
Economic discussion.....	181-183
Probable future without irrigation.....	183-184

APPENDIXES

I. Estimated construction costs.....	185-188
II. Counties covered by statistics used.....	188-192
III. List of maps (separate from report).....	193
IV. Geological Survey statement.....	193-205
V. Fish and Wildlife Service statement.....	206-211
