NOTE

The census enumeration was carried out in full according to plan but the Government of India decided to restrict the tabulation for British India. Consequently the tables in this volume cover less than half the contemplated range and offer in effect only the distribution of the population by community and by province or state, district, tehsil and town.

Opportunity has been taken however to sort wherever possible the 1/50 random sample taken in every area.

2. The slips in which the remaining unsorted information is to be found are stored in each province against a possible reopening of tabulation in happier circumstances.

I—AREA, HOUSES AND POPULATION

1. The number of units in this and the other Imperial Tables differs from the number for which statistics were compiled in 1931.

In 1931, the Province of Bombay contained Aden and the districts and states now included in the Province of Sind. These have been excluded on this occasion.

In addition, the Province has lost Palanpur, Danta and Pethapur states and also four villages from the old Mahikantha Agency which have been transferred to Palanpur state. The rest of the area appertaining to the unit described in 1931 as the Mahikantha Agency has been incorporated in the Western India States Agency, Idar and Vijayanagar states being treated as separate units and the remaining area merged with the Banas Kantha Agency into a new unit styled the Sabar Kantha Agency.

Again whereas in 1931 all the units representing the Western India States Agency were shown under a single heading; on this occasion separate figures for each of these units is given.

As a consequence the number of units for which figures are shown has increased from 76 in 1931 to 113 in 1941.

2. As regards the Province proper, the following changes have taken place:—

(a) The Broach and Panch Mahals districts have been amalgamated.

(b) The Ambernath taluka which was added to Bombay Suburban district in 1931, has reverted to Thana district.

(c) The Bombay Suburban District thus depleted is now a part of the Northern Division instead of the Central Division.

3. Although the Ahmedabad municipal area forms a part of the Ahmedabad district, supplementary figures for the municipal area are supplied.

4. The area shown in this table for British territory is 76,443 square miles as against 77,221 in 1931 the corresponding figures for Indian States within the confines of the Province being 56,257 square miles in 1941 as against 57,386 in 1931, the reasons for the decrease in the case of British territory being survey corrections and in the case of Indian States being the loss of Palanpur, Danta and Pethapur.

5. In column 3 the word "town" means places treated as towns or cities for the purposes of Imperial Table V.

6. The term "village" in column 4 of the table means a revenue village other than those which are merged in municipal areas and uninhabited villages. "Urban" means the population of a municipal area or other place shown in column 1 of Imperial Table V.

7. In columns 5, 6, 7 the term "occupied houses" means census houses.

8. Every cantonment area has been treated as a separate town.

9. The details of the population by talukas are furnished in Provincial Tables I and II.

10. In the case of the Nasik district, the population of the Sinnar municipal area has been based on the provisional figures of population *viz*, 10,672 because the slips for the urban area were lost in transit.

11. The urban population is 7,205,826. Excluding towns with less than 5,000 persons, the urban population is 6,992,185 and the urban rural ratio is 1 : 3.

II—VARIATION IN POPULATION DURING FIFTY YEARS

1. The only units affected by the transfer of villages from one district to another are Thana, Bombay Suburban and Broach & Panch Mahals districts and in these cases the population for previous decenniums has been adjusted so as to represent the population of the area of the district as it stood on the 1st March 1941.

2. Owing to the fact that the details of all States for which individual figures are now given were not extracted previously, separate figures for some of the State units are not available.

III—TOWNS AND VILLAGES CLASSIFIED BY POPULATION

For the meaning of "towns" and "villages" in column 2 of the table, see remarks on Imperial Table I.

Residents of railway station premises and floating population have been included in the population of the village or town in which the station is situated or the floating population found.

Cantonment areas have been treated as separate towns.

V—TOWNS ARRANGED TERRITORIALY WITH POPULATION BY COMMUNITIES

1. Cantonment areas have been treated as separate towns.

2. The term "suburb" means an area outside a municipal area but possessing urban characteristics and having population of not less than 1,000. All such populations have been treated as rural for the purpose of determining the urban or rural populations shown in the district, divisional, provincial and states totals.

PROVINCIAL TABLE I--AREA AND POPULATION OF TALUKAS

1. For definitions of "town", "village" and "house", see notes to Imperial Table I.
2. The areas of talukas and mahals are entered from the data furnished by the Director of Land Records, Bombay, while the Survey of India figures have been adopted for the areas of districts in this Table and Imperial Table I. This explains the divergences between the figures of the district areas as given in the table and those obtained by adding together the areas of the talukas and mahals.

SAMPLE TABLES

The Government of India have sanctioned only limited tabulation. This is confined to Tables I—V, XIII and XIV and Provincial Tables I and II.

2. Tables VI, VII, XI, XII and XV have been prepared for Bombay on a random sample basis. The sample was arrived at by taking every thirtieth slip for Bombay city and every fiftieth slip for other British districts.

3. Sample Tables VIII, IX and X (ii) have been prepared for Ahmedabad, Surat, Poona, Sholapur and Hubli Municipalities.

4. The percentage composition of the main communities according to Imperial Table XIII and Sample Table VII is given below :—

	Table XIII	Sample Table VII
Scheduled Castes	8·9	8·6
Other Hindus	70·5	70·2
Muslims	9·2	9·6
Tribes	7·7	7·4

The variation between the two is within 0·4%.
