NOTE

The census enumeration was carried out in full according to plan but the Government of India decided to restrict the tabulation for British India. Consequently the tables in this volume cover less than half the contemplated range and offer in effect only the distribution of the population by community and by province or state, district, tehsil and town.

Opportunity has been taken however to sort wherever possible the 1/50 random sample taken in every area.

2. Not all the subsidiary tables for Bengal could be prepared. They were all in train when the Superintendent handed over, but a chapter of accidents intervened to prevent their completion and by the time the position was established the offices had been closed, the papers deposited and the staff broken up. The Census Commissioner for India was able to erect the more important subsidiary tables in his own office and the minor ones were dispensed with for the time being.

3. The slips in which the remaining unsorted information is to be found are stored in each province against a possible reopening of tabulation in happier circumstances.
