and after								

1. The technical allowance is admissible to all Europe-recruited Engineers, whether Europeans or Indians.

2. The overseas allowance is admissible only to Engineers of non-Indian domicile, except that Indians recruited in England under the 10 per cent. rule up to and including the year 1924 will receive the allowance.

3. Europe-recruited officers of the Assistant and District class of the Locomotive and Carriage and Wagon Departments and Electrical Engineers will be eligible for pay on the above scale including technical and overseas pay; the few officers at present in the department who were recruited in India will, as a special case, also be eligible for pay at the rate shown in the "total" columns they being granted additional pay corresponding in amount to the technical and overseas pay.

4. Europe-recruited officers of the Traffic Department will draw pay and overseas pay under the time-scale but—in view of the shorter period of their training—they will not draw

technical pay. All India-recruited Traffic officers borne on the permanent establishment of the department on the date of these orders will receive in addition to pay a special additional allowance counting as pay for all purposes and corresponding in amount to the overseas pay sanctioned for Europe-recruited officers; they will not be eligible for technical pay.

5. All officers of the Assistant and District classes of the Stores Department will draw pay only on the time-scale—and neither technical pay nor overseas pay—irrespective of the source of recruitment. But all existing incumbents borne on the permanent establishment, will receive in addition to pay at the revised rates a special allowance of Rs. 100 a month, at the discretion of the Railway Board, counting as pay for all purposes, up to and including the 16th year of service. An officer in the 17th year of his service will not draw less than in his 16th year.

6. Probationers of the Traffic and Stores Department will continue to draw their present rates of pay.

7. *Bridge Engineers and Signal Engineers.*—The pay of the Signal Engineers, North Western and Eastern Bengal Railways, will be Rs. 1,750 each. This rate of pay will be drawn by incumbents irrespective of their nationality or source of recruitment. No overseas pay or technical pay will be admissible in addition. All other Bridge and Signal Engineers will be entitled to the above time-scale of pay for District and Assistant Officers, technical and overseas allowance being admitted in addition under the conditions prescribed in paragraphs 1 and 2.

8. Pay on the junior scales will be drawn by officers holding charges of less importance than a district charge, but no such officer will be allowed to draw more than the pay of the 8th year of service on the junior scale unless the Railway Board are satisfied that he is fully qualified to hold charge of an important district.

9. Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a district. If an officer of less than three years' completed service is appointed to such a charge, he will draw the rate of pay on the senior scale fixed for an officer in the fourth year of service.

10. The technical and overseas pay or additional pay in lieu count for all purposes as pay.

11. India-recruited officers appointed in future will not be eligible for technical or overseas or additional pay.

(1) *Scale A.*—Europe-recruited officers of the Open Line Engineering cadre come under this scale.

(2) *Scale B.*—Europe-recruited officers of the Agency, Traffic, Locomotive, Carriage and Wagon, and Medical Departments come under this scale.

(3) *Scale C.*—Officers of the Stores Department and Schools, and India-recruited officers of all Departments come under this scale.

(4) Pay on the junior scale will be drawn by officers holding junior appointments. No such officer will draw more than the salary attributable to the 8th year of service in the junior scale unless he has passed the prescribed departmental and language tests and unless the head of his department certifies that he is thoroughly efficient.

(5) Pay on the senior scale will be drawn by officers holding senior appointments.

and after								

1. The technical allowance is admissible to all Europe-recruited Engineers, whether Europeans or Indians.

2. The overseas allowance is admissible only to Engineers of non-Indian domicile, except that Indians recruited in England under the 10 per cent. rule up to and including the year 1924 will receive the allowance.

3. Europe-recruited officers of the Assistant and District class of the Locomotive and Carriage and Wagon Departments and Electrical Engineers will be eligible for pay on the above scale including technical and overseas pay; the few officers at present in the department who were recruited in India will, as a special case, also be eligible for pay at the rate shown in the "total" columns, they being granted additional pay corresponding in amount to the technical and overseas pay.

4. Europe-recruited officers of the Traffic Department will draw pay and overseas pay under the time-scale but, in view of the shorter period of their training, they will not draw technical pay. All India-recruited Traffic officers borne on the permanent establishment of the department on the date of these orders will receive in addition to pay a special additional

allowance counting as pay for all purposes and corresponding in amount to the overseas pay sanctioned for Europe-recruited officers; they will not be eligible for technical pay.

5. All officers of the Assistant and District classes of the Stores Department will draw pay only on the time-scale—and neither technical pay nor overseas pay—irrespective of the source of recruitment. But all existing incumbents borne on the permanent establishment, will receive in addition to pay at the revised rates a special allowance of Rs. 100 a month, at the discretion of the Railway Board, counting as pay for all purposes, up to and including the 16th year of service. An officer in the 17th year of his service will not draw less than in his 16th year.

6. Probationers of the Traffic and Stores Department will continue to draw their present rates of pay.

7. *Bridge Engineers and Signal Engineers*—The pay of the Signal Engineers, North Western and Eastern Bengal Railways, will be Rs. 1,750 each. The rate of pay will be drawn by incumbents irrespective of their nationality or source of recruitment. No overseas pay or technical pay will be admissible in addition. All other Bridge and Signal Engineers will be entitled to the above time-scale of pay for District and Assistant Officers, technical and overseas allowance being admitted in addition under the conditions prescribed in paragraphs 1 and 2.

8. Pay on the junior scales will be drawn by officers holding charges of less importance than a district charge, but no such officer will be allowed to draw more than the pay of the 8th year of service on the junior scale unless the Railway Board are satisfied that he is fully qualified to hold charge of an important district.

9. Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a district. If an officer of less than three years' completed service is appointed to such a charge, he will draw the rate of pay on the senior scale fixed for an officer in the fourth year of service.

10. The technical and overseas pay or additional pay in lieu count for all purposes as pay.

11. India-recruited officers appointed in future will not be eligible for technical or overseas or additional pay.

24th	...	...	...	...	1,300	75	250	1,625
and after								

1. The technical allowance is admissible to all Europe-recruited Engineers, whether Europeans or Indians.

2. The overseas allowance is admissible only to Engineers of non-Indian domicile, except that Indians recruited in England under the 10 per cent. rule up to and including the year 1924 will receive the allowance.

3. Europe-recruited officers of the Assistant and District class of the Locomotive and Carriage and Wagon Departments and Electrical Engineers will be eligible for pay on the above scale including technical and overseas pay; the few officers at present in the department who were recruited in India will, as a special case, also be eligible for pay at the rate shown in the "total" columns they being granted additional pay corresponding in amount to the technical and overseas pay.

4. Europe-recruited officers of the Traffic Department will draw pay and overseas pay under the time-scale but—in view of the shorter period of their training—they will not draw technical pay. All India-recruited Traffic officers borne on the permanent establishment of the department on the date of these orders will receive in addition to pay a special additional

allowance counting as pay for all purposes and corresponding in amount to the overseas pay sanctioned for Europe-recruited officers; they will not be eligible for technical pay.

5. All officers of the Assistant and District classes of the Stores Department will draw pay only on the time-scale—and neither technical pay nor overseas pay—irrespective of the source of recruitment. But all existing incumbents borne on the permanent establishment, will receive in addition to pay at the revised rates a special allowance of Rs. 100 a month, at the discretion of the Railway Board, counting as pay for all purposes, up to and including the 16th year of service. An officer in the 17th year of his service will not draw less than in his 16th year.

6. Probationers of the Traffic and Stores Department will continue to draw their present rates of pay.

7. *Bridge Engineers and Signal Engineers.*—The pay of the Signal Engineers, North Western and Eastern Bengal Railways, will be Rs. 1,750 each. This rate of pay will be drawn by incumbents irrespective of their nationality or source of recruitment. No overseas pay or technical pay will be admissible in addition. All other Bridge and Signal Engineers will be entitled to the above time-scale of pay for District and Assistant Officers, technical and overseas allowance being admissible in addition under the conditions prescribed in paragraphs 1 and 2.

8. Pay on the junior scales will be drawn by officers holding charges of less importance than a district charge, but no such officer will be allowed to draw more than the pay of the 8th year of service on the junior scale unless the Railway Board are satisfied that he is fully qualified to hold charge of an important district.

9. Pay on the senior scale will be drawn by officers holding charges of not less importance than the charge of a district. If an officer of less than three years' completed service is appointed to such a charge, he will draw the rate of pay on the senior scale fixed for an officer in the fourth year of service.

10. The technical and overseas pay or additional pay in lieu count for all purposes as pay.

11. India-recruited officers appointed in future will not be eligible for technical or overseas or additional pay.

Captains . . . . .	3	...	...	275	

## GENERAL.

1. Overseas allowance will ordinarily be granted only to officers with a non-Indian domicile and will be reckoned as "salary" for all purposes.

2. An Assistant in the Engineering, Locomotive, Traffic, and Audit Departments who is reported as qualified and is recommended for promotion to District Grade may be granted further—and special—increment of pay beyond Rs. 650, or Rs. 800 including Overseas allowance, of Rs. 50 annually until his pay reaches Rs. 850 per mensem or Rs. 1,000 per mensem including Overseas allowance. These further and special increments to Assistants will only be granted in the event of a "block" in promotion through an absence of vacancies in the District Grade.
