

Government of India

CENTRAL WATERPOWER IRRIGATION & NAVIGATION
RESEARCH STATION, POONA.

RESEARCH PUBLICATION No. 13

**“THE BEHAVIOUR AND CONTROL
OF RIVERS AND CANALS
(WITH THE AID OF MODELS).”**

Part I

BY

Sir Claude Cavendish Inglis, C.I.E., B.A., B.A.I., M.I.C.E.,
M. Am.Soc.C.E., M.I.E. (I).

(In charge of Hydrodynamic Research at Poona from 1920-45 ; Director of the Indian Waterways Experiment Station from 1936-45 ; appointed Director, Hydraulic Research Organisation of the Department of Scientific and Industrial Research, London, England, March 1947).

POONA

PRINTED AT THE YERAVDA PRISON PRESS, 1949.

D26,8:4:p.2
H9.1
057936

Price: Rs. 16-8-0 or 25 sh. 6 d.
(The price is inclusive of price of Part II.)

available for sale with the Manager of Publications, Delhi, and Agents**

Symbol No.	Research Publication No.	Subject.	Price.	Year of Publication.
I.E.R. 1-38	1	Annual Report of work done during 1937-38 by C. C. Inglis, A. R. Thomas, Rao Sahib D. V. Joglekar and staff at Khadakwasla.	Rs. a p. 7 8 0	1939
I.E.R. 1-39	2	Annual Report of work done during 1938-39 by same authors as in 1.	7 8 0	1940
I.E.R. 2	3	Note on "The theory, design and construction of Gibb Modules which, without moving parts, give a constant discharge within working limits irrespective of variations in upstream and downstream water levels" by C. C. Inglis and Rao Sahib D. V. Joglekar.	8 8 0	1941
I.E.R. 1-40	4	Annual Report of work done during 1939-40 by C. C. Inglis, A. R. Thomas, Rao Sahib D. V. Joglekar and staff at Khadakwasla.	7 8 0	1941
I.E.R. 1-41	5	Annual Report (Technical) of work done during the year 1940-41 and index for 1937-41 by C. C. Inglis, A. R. Thomas, Rao Sahib D. V. Joglekar and staff at Khadakwasla.	7 8 0	1942
I.E.R. 1-42	6	Annual Report (Technical) of work done during the year 1941-42 by C. C. Inglis, J. S. Reid, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	7 8 0	1944
I.E.R. 1-43	7	Annual Report (Technical) of work done during the year 1942-43 by C. C. Inglis, J. S. Reid, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	7 8 0	1945
I.E.R. 1-43	8	Annual Report (Technical) of work done during the year 1943 by C. C. Inglis, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	7 8 0	1945
I.E.R. 1-44	9	Annual Report (Technical) of work done during the year 1944 by C. C. Inglis, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	7 8 0	1945
I.W.E. 1-45	10	Annual Report (Technical) of work done during the year 1945 by Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	25 0 0	1948
I.W.E. 1-46	11	Annual Report (Technical) of work done during the year 1946 by K. K. Framji, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	7 8 0	1947
I.W.E. 1-47	12	Annual Report (Technical) of work done during the year 1947 by K. K. Framji, Rao Bahadur D. V. Joglekar and staff at Khadakwasla.	25 0 0	1948

**THE BEHAVIOUR AND CONTROL OF RIVERS AND CANALS
(WITH THE AID OF MODELS)**

CONTENTS

	Page.
SYMBOLS AND DEFINITIONS.	... 1
CHAPTER 1.—Introduction	... 35
CHAPTER 2.—Review of factors controlling flow in alluvial channels	... 85
CHAPTER 3.—Historical note on regime flow in channels in alluvium and divergence from regime.	95
CHAPTER 4.—Meandering of rivers.	... 143
CHAPTER 5.—Behaviour of rivers—as exemplified by the Indus in Sind	... 167
CHAPTER 6.—Exclusion of excess bed material from canals and distributaries	... 217
CHAPTER 7.—Factors affecting flow in alluvial channels—as exemplified by the dimensions of canals in Sind.	233
CHAPTER 8.—Maximum depth of scour at heads of guide banks and groynes, pier noses, and downstream of bridges.	327
CHAPTER 9.—The design of falling aprons	... 355
CHAPTER 10.—Control of rivers by guide banks and groynes	... 379
CHAPTER 11.—Fluming	... 387
CHAPTER 12.—Points worth considering when designing and remodelling canal and river works.	407
CHAPTER 13.—Methods followed in fixing model scale ratios and overcoming model limitations, based on experience gained at the Indian Waterways Experiment Station, Poona.	427
APPENDIX 1.—List of Bombay P. W. D. Technical Papers and Annual Reports of the I. W. E. S., Poona.	453
APPENDIX 2.—Bed ripples and bed dunes	... 459
APPENDIX 3.—Factors affecting exclusion of bed sand from canals taking off from alluvial rivers.	471
APPENDIX 4.—Equivalent size and specific gravity of stones and blocks in a model.	485
