PREFACE

This is the first time that "Indian Land Revenue Statistics" is being brought out as a separate publication. Previously these statistics formed part of the Indian Agricultural Statistics.

The information contained in this publication relates to the year 1947-48 and the Statewise data have been arranged according to the new administrative set-up of the country. In cases where information for 1947-48 is not available, data for the previous years have been utilised.

The detailed work involved in the preparation of the statistical tables in this publication was done by the Statistics Compilation Branch of the Directorate under the supervision of Shri S. Thotapali.

INTRODUCTORY NOTE

Upto 1946-47, land revenue statistics formed part of the Indian Agricultural Statistics, Vols. I & II. Consequent on rationalization of the different publications containing data on agricultural statistics, it has been decided to put all statistics relating to land revenue in a separate publication.

The present volume on Indian Land Revenue Statistics which is the first issue under the revised arrangement brings together in a single compass the available information in respect of all States except Manipur, Tripura, Kutch and Andaman & Nicobar Islands. The statistics of land revenue are collected annually in Assam, Madhya Pradesh and Punjab among the Part (A) States and also in the States falling under Parts (B) and (C). They are collected quinquennially in Bihar, Bombay, Madras, Orissa, Uttar Pradesh and West Bengal. The statistics contained in this publication naturally cover only the reporting parts in each State and relate to the latest year for which they are available in each case. The year covered by the data is the Agricultural Year, which generally ends on the 30th June in most parts of the country. The important exceptions are :

Assam	31st March.
Madhya Pradesh	31st May.
Hyderabad	5th October.
Jammu & Kashmir	(i) Jammu 16th September.
	(ii) Kashmir 12th April.
Rajasthan	(i) Bharatpur and Kota 30th June.
	(ii) Jaipur 31st August.
	(iii) Bundi, Dholpur and Jhalawar. 30th September.
	(iv) Alwar, Bikaner and Tonk 31st October.
Bhopal	31st May.
Bilaspur	22nd September.

The statistics covered for a year generally include both the Kharif (autumn) and the Rabi (summer) crops and therefore relate to the year ended with the harvesting of the Rabi crops.

The types of land tenure in the different States have been grouped under the following three heads :

- (1) Zamindari and village communities (temporarily settled),
- (2) Zamindari (permanently settled) and
- (3) Raiyatwari.

Under the Zamindari or village community, temporary or permanent, the revenue is assessed by the State, temporarily and permanently as the case may be, on an individual or community owning an estate and occupying a position identical with or analogous to that of a landlord. Under the Raiyatwari system, the revenue is assessed on individuals who are the actual occupants or are accepted as representing the occupants of the holdings. Under either system there may be rent paying sub-tenants.

The following table shows the position as regards the forms of land tenure in the surveyed areas of Part A States according to the latest statistics available, the figures roughly indicating the extent to which the different systems prevail :—

	Zamindari (Individual proprietors or village communities) settled.		Raiyatwari	Total

*Including 19,791 thousand acres of Govt. forests.

The following table shows the total land revenue assessment, the total population for the year of assessment and the assessment per head of population in each reporting State* :—

¹ Excludes Kishanganj.

² Relates to Bhavnagar only.

³ Relates to Nagod and Orchha State.

⁴ In respect of different units of Rajasthan data is available as follows :—

Bharatpur	1947-48
Bikaner, Bundi, Jhalawar and Marwar	1946-47
Tonk	1945-46
Jaipur	1943-44

The above figures represent only the assessment that is the actual realizable demand in respect of the year concerned and do not take account of either the collection of arrears for past years of realizations for the year concerned or the amounts remaining uncollected at the end of the year.

It may be seen from the above table that the data for all the States do not refer to a uniform period and therefore inter state comparisons are vitiated. Roughly speaking, the incidence of land revenue is the highest in Bhopal followed by Bhavnagar in Saurashtra and Madhya Bharat. On the other scheme are such states as Bihar, Orissa, Travancore-Cochin, Ajmer and Delhi where it is less than Re. 1 per head. In the other states it varies between Re. 1 and Rs. 3.

*Statistics of incidence of land revenue assessment dealt with in this table show only the average amount, contributed by each acre of land or per head of population in each State or district towards land revenue. They cannot be used for comparing the burden of land revenue on land in the different districts or States as no valid comparison is possible without taking into account such factors as the nature of the soil, climate, facilities for irrigation etc.

Item 3.—Where the land revenue includes the Zamindar's share, the net demand is entered and the table states the payment due by the Zamindar to Government, not those due by raiyats to the Zamindars. The actual realisable demand on account of the year whether wholly realised during the year or not, is entered after excluding arrears for past years. Sums remitted on account of unoccupied lands, short crops, etc., are excluded in the case of those states where all remissions are granted within the year to which the return relates, but in states where remissions are not granted or are partially granted within the year, no deduction is made on account of remissions. This item includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are :—(1) Ordinary revenue, comprising fluctuating collections (including nazaranas), over collections (Bombay), surplus collections from Government estates; (2) Sale of Government estates; (3) Sale proceeds of waste lands, and redemption of land tax; (4) Redemption of Summary settlement cesses; (5) Moturpha (house tax) collections; (6) Assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charge (West Bengal); (8) Rents, etc., of fisheries; (9) Receipts for the improvement of Government estates; (10) 12 per cent. on collections from allowances to excluded proprietors, fines and forfeitures of Revenue Courts (except in West Bengal and Assam), receipts under Madras Act II of 1864, petroleum well revenue, jade and amber revenue, recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway's class C land and rents of buildings situated on such lands.

Item 4.—The population is that of the last general census.

Item 6.—As in item No. 3 but only ordinary land revenue on fully assessed area is entered.

*The land revenue assessment necessarily differs from the land revenue collection which includes Collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

†Figures for 1947-48 being not available, 1946-47 figures have been repeated provisionally.

NOTE.—The varieties of tenure are included, as far as possible, under one or other of the following head, namely (1) Raiyatwari, (2) Zamindari and village Communities (temporarily settled) and (3) Zaminadri (permanently settled). Areas under Forests are included under the prevailing tenure of the state. Areas under Government Forests in Madhya Pradesh and the Forest area of one district in Uttar Pradesh, are, however, shown separately.

COLUMN 3.—Areas held revenue-free or at privileged rates are deducted but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (Column 11). In Madras, Bombay and Berar unit of Madhya Pradesh all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "Area not fully assessed". Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

COLUMN 4.—This head is subdivided into (a) total fully assessed area for which returns are available and (b) area cultivated out of the area given in head (a). The latter head should be equal to the former after deducting current fallows and fully assessed waste and should be either equal to or less than the net sown area.

COLUMN 5.—Where the land revenue includes the Zamindar's share, the net demand is entered, and the table states the payments due by the Zamindars to Government and not those due by raiyats to the Zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are :—(1) ordinary revenue comprising fixed collections, fluctuating collections (including nazarana), over collections (Bombay) surplus collections, collections from Government, estates; (2) Sale of Government estates; (3) Sale-proceeds of waste lands, and redemption of land tax; (4) redemption of Summary settlement cess;

§Statistics of the incidence of land revenue assessment dealt within this table show only the average amount contributed by each acre of land or per head of population in each state or district towards land revenue. They cannot be used for comparing the burden of land revenue on land in the different districts and state as no valid comparison is possible without taking into account such factors as the nature of the soil, climate, facilities for irrigation etc.

NOTE.—The table is prepared quinquennially and the figures were last collected in 1945-46.

COLUMN 1.—Lands held under such special tenures as talukdari, Mehwas, udhad-jamabandi, narvadari and bhagdari in Gujarat and Khoti and isafat in the Konkan are classed as "Zamindari and Village Communities (temporarily settled)."

COLUMN 3 (a).—Includes alienated area and the area held free of revenue or the revenue which has been reduced by special agreement and also the fully assessed unoccupied area.

COLUMN 3 (b).—Includes alienated, Cultivated and Zamindari Cultivated (estimated) land.

COLUMN 4.—Includes land under temporary cultivation, also potinams paying full assessment.

COLUMN 5.—States ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years, about 3.55 per cent. of the total revenue entered in this column was remitted on account of assessed unoccupied lands, short crops etc.

Figures shown in columns 6, 11, 13 and 14 relate to 1941.

NOTE.—The table is prepared quinquennially. Estates comprises both "Zamindari tracts" and "whole inam villages".

COLUMN 3(a).—In the case of raiyatwari tracts this column states the areas of unoccupied assessed lands, of all unassessed poramboles, of minor inam lands in Government Villages held rent free or subject to quit rent, of and of forest lands, excluding portions of the first mentioned two classes occupied under "Miscellaneous"; and in the case of Zamindari tracts the areas of hills, poramboles, and minor inams are entered; the entire area of whole inam villages is deducted in this column.

COLUMN 3(b).—Raiyatwari includes the area of certain Agency tracts in Vishakapatnam and Godavari, and also the difference between the area by professional survey and the area according to village papers.

COLUMN 4(a).—The figures for the raiyatwari tenures in this column represent the total occupied area stated in Village papers which differ in some cases from the resultant of preceding columns.

COLUMN 4(b).—The areas shown in this column represent the actual areas cultivated except in the case of Vishakapatnam and East Godavari districts where actuals are supplemented by estimates.

COLUMN 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

† District-wise figures are not available.

COLUMN 1.—The state area leased to cultivators for a fixed term is termed as raiyatwari. The area leased out on condition of proprietary right being given to lessees if they reclaimed land within a fixed term is returned as zamindari—temporarily settled; and the rest of the area (i.e. the area maintaining after deduction of the raiyatwari and the temporarily settled zamindari areas from the total area) is entered as zamindari—permanently settled.

COLUMN 3 includes muafi, ohauth and istamar areas.

COLUMN 6.—The population stated is that of the last census.

APPENDIX

INDIAN TERMS USED IN INDIAN LAND REVENUE STATISTICS

Gorait (United Provinces).—Village watchman.

Gountiai (Orissa).—A form of village headman tenure in which the land revenue assessed on a village is collected and paid to Government by the village headman. As remuneration for the work of collection of the land revenue, the village headman receives in revenue-free home-farm land or, in cash, 25 per cent of the rents settled as payable by the raiyots. He possesses no proprietary rights in the village except on the home-farm lands. He has certain rights of management over the whole village and can alienate his tenure if accompanied by a transfer of the home-farm land.

Inam (Madras).—Alienated villages or lands granted rent-free. Whole inam villages are entire villages held on such tenure; minor inams are portions of villages, generally a number of fields, held on inam tenure.

— (Coorg).—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.

Isafat (Bombay).—A form of service tenure.

Istamrari (Punjab, Ajmer-Merwara).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.

Izara (Berar Unit of Madhya Pradesh).—Land leased under the waste-land rules on stipulated terms.

Jagir (Berar Unit of Madhya Pradesh).—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent such lands are hereditary.

Jagir (Ajmer).—Land granted revenue free on condition of military service or as a charitable endowment.

— (Bombay).—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

— (Coorg).—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Khalsa (Bombay).—Government occupancy or raiyatwari tenure.

— (Central Provinces Unit of Madhya Pradesh).—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

— (Berar, Ajmer-Merwara).—Land paying full revenue to Govt.

Khatedar (Berar Unit of Madhya Pradesh).—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khoti (Bombay).—A form of tenure, found chiefly in the Konkan, the holder of which is in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Malguzari (Central Provinces Unit of Madhya Pradesh).—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

— (Orissa).—A form of proprietary tenure, where the estate is held either revenue free or at a nominal quit-rent. The holder possesses full proprietary rights in the estate.

Mehwasi (Bombay).—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur).—Any kind of land held revenue free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Narvadari, Bhagdari (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.

Palampat (Berar Unit of Madhya Pradesh).—Land held on payment of a quit-rent, but not necessarily hereditary.

Peshkash (Madras).—The fixed land revenue payable to Government on all permanently settled estates.

Porambok (Madras).—Land reserved for public or village communal purposes.

Pot inams (Bombay).—Plots of alienated land in Khalsa village.

Pot Kharat (Berar Unit of Madhya Pradesh).—The unculturable area included in a survey number.

Rayatwari.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.

Talukdari (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

Thekadari (Central Provinces Unit of Madhya Pradesh).—A farmer, a leaseholder, a middleman one who receives the rents from the cultivators and pays stipulated sum to the proprietor.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Zamindar.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.

— (Central Provinces Unit of Madhya Pradesh).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

— (United Provinces).—An undivided estate held in joint tenure.
