The Servants of India Society is a premier all India level social service voluntary organisation, founded in the year 1905, by the great statesman of India and the political Guru of Mahatma Gandhi, **Late Lamented Gopal Krishna Gokhale**, which pioneered the socio-economic and political reforms in pre-independent era of our Nation. ## WHAT GANDHIJI SAID ON GOKHALE

“What is the Moral of Gokhale’s Life ? What legacy has he left for us ? These questions were answered by Gokhale himself in his last words to the Members of the Servants of India Society who were present beside his death bed : “Don’t waste your time in writing a Biography or setting up a Statue, but pour your whole soul in to the service of India. Then only shall you be counted among her true and faithful servants.”

“Gokhale taught me not to glorify the country in language but to spiritualize its political life and institutions. He inspired my life and still inspiring it in that I wish to purify myself and spiritualize myself. I have dedicated my self to that idea. Political life must be an echo of our private life. There can not be any divorce between the two.

“The man who leads the life of goodness, whose instincts are good, who is full of gentleness, who is the embodiment of truth and who has fully shed his ego, is a Dharmatma, a man of religion, where he knows it or not.”
