## ACKNOWLEDGEMENT

My Sincere thanks goes to Prof Rajas Parchure, my principal supervisor, officiating director of Gokhale Institute of Politics and Economics for his support and advice of various stages of my work. My heartiest gratitude goes to my co-supervisor Dr.Swapnendu Bandyopadhyay, Professor, Department of Economics, Jadavpur University, Kolkata. I have been amazingly fortunate to have a co-supervisor like him who gave me the freedom to explore on my own and at the same time the guidance to recover when my steps faltered. His patience and support helped me overcome many crisis situations and finish this dissertation. I am also thankful to Dr Santanu Ghosh, Professor, West Bengal Educational Service who has been always there to listen and give advice. I am deeply grateful to him for the long discussions that helped me sort out the technical details of my work.

I take the opportunity to thank all the members of PhD committee of GIPE for their valuable guidance, comments and advices during the presentations. I am also thankful to my friends, colleagues and staff members of GIPE for their various forms of support during my work.

Most importantly, none of this would have been possible without the love and patience of my family. I am indebted to my parents, my sister and my in-laws without whose inspiration and cooperation it would have been impossible for me to do the work.

I would like to express my heart-felt gratitude to my beloved husband *Satadru*. You were always around at times I thought that it is impossible to continue, you helped me to keep things in perspective. My son *Shreyan*, I owe you lots and lots of fun hours. I couldn't imagine doing my PhD without you; you really gave me the reason to continue. Words would never say how grateful I am to both of you.
