

ADMINISTRATION REPORT

OF THE

BOMBAY JAIL DEPARTMENT

FOR THE YEAR 1916

BOMBAY

PRINTED AT THE GOVERNMENT CENTRAL PRESS

1917

[Price—14a. or 1s. 4d.]

CONTENTS.

PART I—(Report).

	<u>PAGE</u>
Introductory and explanatory paragraphs	1
Admission and disposal of prisoners	1 to 3
Religion, age, education and previous occupation of convicts	3
Numbers according to nature and length of sentences	4
Previous convictions	4 & 5
Escapes and recaptures	5 & 6
Offences and punishments	6 to 8
Imposition of fetters	9
Remission System	9
Convict Officers	9
Diet	9
Under-trial prisoners in Prisons, Subsidiary Jails and Lock-ups	9 & 10
Civil prisoners	10
Total expenditure incurred	10 to 12
Employment of convicts	12
Manufactures and earnings of prisoners	12 to 15
Net cost	15
Health of prisoners	15 to 19
Official and non-official visitors	19
Buildings	19 & 20
Miscellaneous remarks and inspections	20 to 22

PART II—(Statements).

General Summary showing the distribution of prisoners of all classes	24 to 27
--	----------

JUDICIAL.

Statement No. I.—Admission and disposal of convicts	28 & 29
Do. „ II.—Religion, age, education and previous occupation of convicts	30 & 31
Do. „ III.—Sentences of convicts	32 to 34
Do. „ IV.—Previous convictions	35
Do. „ V.—Escapes and recaptures	36
Do. „ VI.—Jail offences and punishments	38 & 39
Do. „ VII.—Particulars regarding convicts employed as Convict Officers	40
Do. „ VIII.—Diet scales for natives, Europeans, etc., etc.	42 & 43

FINANCIAL.

Statements Nos. IX & X.—Expenditure incurred in guarding and maintenance of prisoners.	44 to 51
Statement No. XI.—Employment of convicts	52 & 53
Do. „ XII.—Results of the employment of convicts	54 & 55
Do. „ XIII.—Gross and net cost of prisoners	56

VITAL.

Statement No. XIV.—Sickness and Mortality amongst all classes of prisoners	58 to 63
Do. „ XV.—Admissions and deaths from the Chief Diseases amongst convicts	64 & 65
Do. „ XVI.—Mortality according to length of time passed in Prisons and Subsidiary Jails	66 & 67

MINOR CLASSES OF STATEMENTS.

Statement No. XVII.—Particulars regarding under-trial prisoners	68 & 69
Appendix A.—Showing the nature and amount of accommodation for each class of prisoners.	70 to 77
Do. B.—Showing condition of convicts discharged	78 & 79
Do. C.—Showing working of the Remission System	80 & 81
Do. D.—Showing the nature of the crimes for which convicts were imprisoned.	82 to 97

No. 5746 of 1917.

From

LIEUT.-COLONEL J. JACKSON, C.I.E., M.B., I. M. S.,

Inspector General of Prisons,
Bombay Presidency ;

To

THE SECRETARY TO GOVERNMENT,

Judicial Department,
Bombay.

INSPECTOR-GENERAL OF PRISONS' OFFICE :

Poona, 9th May 1917.

Sir,

I have the honour to submit the Annual Administration Report, together with the usual Statistical Tables, on the Prisons and Jails in the Bombay Presidency including the Province of Sind and the Settlement of Aden, for the year 1916. The Office of the Inspector General of Prisons was held by me during the year under report.

JUDICIAL.

2. The number of Central, District, Special and Extra Mural Prisons has undergone no change during the year under report. Statistics of the Third Class Subsidiary Jails have been grouped together with those of Lock-ups as in previous years.

3. From the general summary preceding the statements in the appendices to this report, it will be seen that the total population of all classes of prisoners confined in the Prisons, Subsidiary Jails, Lock-ups and Civil Jails has been 109,611 as compared with 105,393 in the year 1915, an increase of 4,218. The daily average population has been 12,184, which shows an increase of 483 when compared with the figures of the year previous.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and Second Class Subsidiary Jails only :—

		1915.			1916.		
		Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	9,084	338	9,422	10,040	297	10,337
	Jails	154	7	161	76	8	84
Imprisoned during the year	Prisons	16,114	752	16,866	16,229	754	16,983
	Jails	540	57	597	322	43	365
Total	Prisons	25,198	1,090	26,288	26,269	1,051	27,320
	Jails	694	64	758	398	51	449
Grand Total ..		25,892	1,154	27,046	26,667	1,102	27,769
Daily average strength ..		9,560	319	9,879	10,168	295	10,463

5. There has been a slight decrease in the number of convicts admitted to Prisons and Second Class Subsidiary Jails. The Prisons of Bijapur, Ahmedabad, Deccan Gang, Shikarpur and His Majesty's Common Prison, Bombay, show an increase, while the Prisons of Yeravda, Dhárwár, Thána, Dhulia and Hyderabad show a decline. The cause of the increase in admissions is dealt

with under a separate communication as regards the Sábarmati Jail and the Common Prison. The admissions in Bijápúr increased owing to the large number of prisoners coming from the Dhárwár District; at the Deccan Gang the increase is due to that Gang becoming the receiving Jail for certain classes of prisoners from the Sholápur District; at Shikárpur to the increased number of convictions obtained by the police. The decrease at Yerávda is due to certain classes of convicts from Sholápur and Dhárwár being sent to the Deccan Gang instead of to Yerávda; at Dhárwár to the fact that admissions from the Dhárwár District have been diverted to other Jails; Thána Jail is purposely kept under strength for administrative reasons; for Dhulia the Superintendent can furnish no explanation, probably a very prosperous year would explain it.

Out of 17,348 admissions to the Bombay Jails in 1916, 5,190 males and 141 females were between the ages of 15 and 25, and of these 4,265 males and 123 females were admitted on first conviction. It is from these young people that the habitual is developed.

I asserted at a recent public meeting that over 80 per cent. of the crime in Bombay was committed by people not born in Bombay. This statement has been received by some persons with incredulity. As it is a matter of some interest I subjoin the result of a census of admissions (excluding military prisoners) to His Majesty's Common Prison, Bombay, in 1916. There were 3,120 admissions, and of these 302 were Bombay born or about 9·7 per cent.

Of the total 3,120, 233 belonged to criminal tribes; of these, 198 came from Gujarát, Káthiáwár, the Deccan and the Konkan, 23 were Bombay born, 7 were wanderers and the remainder from other provinces. Eighty-three of these criminal tribes were women. Taking the grand total of 3,120 again it is found that 533 came from the Deccan, 577 from the Konkan, 115 from Cutch, 335 from Káthiáwár, 319 from Gujarát, 27 from Sind, 77 from Goa, 98 from foreign countries and 730 from all other provinces in India.

6. With regard to the disposal of convicts there is an increase under the heads "Transferred to other Jails to undergo sentence," "Released on expiry of sentence," "Released by order of Government on account of sickness and on other grounds," "Transported beyond seas" and "Transferred to Lunatic Asylums." The increase under the first heading is due to transfers to relieve overcrowding and the collection in Depôt Jails of prisoners volunteering for the Labour Corps in Mesopotamia.

The increase in releases is due to the larger number of prisoners that passed through Prisons. Thirty prisoners were transferred to Lunatic Asylums against 13 in 1915. The marked increase is at Yerávda—14 against 7 in the previous year. The explanation of this increase is that Major Jagoé Shaw, I. M. S., and myself came to the conclusion that there were several inmates of Yerávda whose proper place of detention was a Lunatic Asylum and not a Jail. One thousand one hundred and thirty prisoners were released by order of Government as detailed below:—

Twenty-five released on medical grounds—7 from Yerávda, 6 from the Common Prison, 2 each from Dhulia and Karáchi and 1 each from Deccan Gang, Dhárwár, Ratnágiri, Ahmedabad, Hyderabad, Sukkur, Shikárpur and Sind Gang.

One life transport who had completed 14 years' imprisonment with remission earned was released from Sábarmati. Two juveniles were released from the Dhárwár Juvenile Prison on the recommendation of the Committee, having attained 23 years of age. One juvenile, released from His Majesty's Common Prison under Government Resolution, Judicial Department, No. 7641, dated 27th November, 1916, was sent to the Salvation Army Boys' Home. Three female prisoners were released from the same Prison and sent to the Bai Motlibai Hospital for their confinement.

Twelve prisoners belonging to Criminal Tribes were released from various Jails on the recommendation of Mr. Starte, I. C. S., and went to the settlement in his charge. One recovered criminal lunatic was released from the Central Prison, Yerávda; two prisoners—one from Yerávda Central

Prison and one from His Majesty's House of Correction—were released on conditional suspension of their sentences; one Indo-Portuguese prisoner from His Majesty's House of Correction on furnishing security.

One thousand and eighty-two prisoners—including 26 *en route* prisoners from Calcutta—were conditionally released by Government on their volunteering for a Labour Corps in Mesopotamia. One hundred and one life transports were deported to the Andamans *via* Madras and 35 Term Transports *via* Alipore against 75 lifers and 49 term transports in 1915. The headings "Escaped" and "Died" are dealt with subsequently. There were 43 State prisoners in confinement in the Presidency at the close of the year.

7. The heads "Europeans" and "Hindus and Sikhs" show an increase of 24 and 60 respectively and the heading "Mahomedans" shows a decrease of 196. The variations under other heads are slight and require no explanation.

Statement No. II.—Religion, age, education and previous occupation of convicts.

The admissions of Europeans in His Majesty's House of Correction in 1916 were 70 against 42 in 1915. The increase is principally due to offences under the Shipping Act.

The number of juveniles under 15 years of age admitted during the year 1916 was 12 against 19 in 1915. Out of 7 males and 5 females convicted, 4 males and 2 females were sentenced to "1 month and under," 2 males and 3 females to "above 1 month and not exceeding 6 months" and 1 male "over 6 months." Out of the 12 admitted, 3 males were previously convicted. Of the total number of juveniles 2 were sent to the Reformatory School by order of District Magistrates, 1 was released on appeal, 1 female was handed over to her father (*vide* Government Resolution, Judicial Department, No. 4919 of 24th July 1916) and the remaining 8 were released from the Jails after having undergone their sentences.

There is a satisfactory and progressive fall in the imprisonment of children. In 1906 the figure of admissions was 143.

The subjoined table, however, shows some cases in which I consider the sentence might well have been dispensed with:—

Name.	Sex.	Age.	Sentence.	Offence.	Jail.
R. B.	Male	14	3 weeks' rigorous imprisonment.	Section 379, Indian Penal Code.	Shikarpur Jail.
A. K.	Male	12	Fine Rs. 5 or 2 days' simple imprisonment.	Railway Act. Travelling without a ticket.	Hyderabad Central Prison.
J. daughter of M.	Female	10	1 week	Sections 454 and 380, Indian Penal Code.	Karachi Prison.
B. S.	Female	13	7 days' rigorous imprisonment.	Section 392, Indian Penal Code.	Karwar Prison.
N. S.	Female	14	2 months' rigorous imprisonment.	Sections 379 and 143, Indian Penal Code.	Rajkot Prison.
V. M.	Male	14	Rs. 5 or 6 days' simple imprisonment.	Railway Act	Do.

The number of prisoners admitted under "15 years of age to 40" shows a decrease of 266, while those admitted under "40 to 60" and "Above 60" show an increase of 117 and 41 respectively. The admissions under "Able to read and write" show an increase of 259 and the heading "Illiterate" shows a fall of 391. "Persons employed in Government or Municipal service" shows an increase of 394, "Persons engaged in commerce and trade" shows an increase of 229, while the head "Persons engaged in agriculture" shows a marked decrease of 718. This is probably due to good rains. The fall under "Married women" is compensated by a similar increase under "Widows." The percentage of the total number of males and females admitted to the free population according to the census of 1911 was 0.162 and .008 respectively.

8. There is an increase under the sub-heads "Above 3 months and not exceeding 6 months," "Above 2 years and not exceeding 5 years," "Above 5 years and not exceeding 10 years," "Exceeding 10 years" and "Sentenced to death." The head "Above 6 months and not exceeding 1 year" shows an increase of one only. The other sub-heads show a decrease. There were 805 prisoners sentenced to simple imprisonment, 16,345 sentenced to rigorous imprisonment and 12 sentenced to rigorous imprisonment with whipping as compared with 877, 16,338 and 12 in the year previous. The number of prisoners sentenced to rigorous imprisonment with solitary confinement was 186 as compared with 236 in 1915, 215 in 1914 and 261 in 1913. The remark made last year in respect of non-execution of many of the sentences of solitary confinement owing to insufficient number of cells, holds good this year also. Three thousand six hundred and fifty-three prisoners were sentenced to "Not exceeding one month" as compared with 3,723 in 1915. Of these, 1,530 were admitted to the Common Prison, Bombay, against 1,521 in 1915. Bombay admissions under this head have increased by 9. I would have been better pleased if the decline under this heading, so marked in late years, had continued. The number of prisoners sentenced in Bombay for 7 days and under in default of payment of fine has slightly increased from 360 in 1915 to 370 in 1916. In addition, 211 prisoners were sent to Prison under substantive sentences of a week or less in the year under report against 212 in the year previous. Of the above 211 short termers, 75 were 25 years of age and under.

There is no possible argument to be advanced in favour of these short sentences. They are not deterrent, they cannot reform, but do, in all probability, corrupt. In this connection I will briefly allude to the imprisonment of beggars in Bombay. In the Common Prison 127 males and 74 females were committed to Jail for this offence.

Seventy-one were sentenced to simple imprisonment: 51 for seven days and under and 20 from 7 days to one month.

One hundred and thirty were sentenced to rigorous imprisonment: under 7 days 18, from 7 days to one month 112.

Two females were under 16 years of age; 16 males and 13 females under 21 years of age; 17 were totally blind.

These beggars are, it is needless to say, a constant danger to the health of the Jail. I presume that the object of this imprisonment is the prevention of begging. But short sentences will never have this effect, nor will sentences of simple imprisonment. If a beggar's gains from begging were confiscated regularly his trade would cease to be profitable. I have known beggars, sentenced to a few days' imprisonment, bring with them to the Prison sums varying from a couple of rupees to thirty. They are bathed, well fed, medically treated, and then, thoroughly refreshed, they are released and the money handed back to them. I therefore most heartily welcome the establishment of a camp at Chinchpokli for these people and their deportation to their own districts.

9. The statement noted in the margin deals with the re-convicted prisoners.

Statement No. IV.—Re-convictions.

The number of habituals (*vide* sub-joined statement) identified by Jail officials has been 61 against 139 in the year previous. The decrease occurred at the Jails of Yeránda, Dhulia, Sukkur and Aden. Two thousand four hundred and twenty-four were classified as habituals out of a total of 3,164 previously convicted prisoners. The statement does not include 1,388 prisoners sentenced under Chapter VIII, Criminal Procedure Code, but who under the orders of Government are always treated as habituals. The figure shown in this paragraph last year of 602 was wrong. It should have been about 1,300. Owing to many of the Superintendents of the Prisons being unable through inexperience to check the careless work of their clerical staff and Jailors some bad errors were made. The admissions in Sind under this heading from 1910 are as follows:—

1910	.. 1,201	1914	.. 765
1911	.. 1,122	1915	.. 651
1912	.. 839	1916	.. 672
1913	.. 892		

The proper separation of habituals from first conviction prisoners is still impossible. More accommodation is urgently needed.

Serial No.	Jails.	Number admitted during the year.	Number in column 3 identified as "Habituals" before conviction and classified as such by the convicting Court.	Number in column 3 classified as "Habituals" by the District Magistrate or Magistrate specially empowered (not being the convicting Court).	Number in column 3 classified as "Habituals" by the Jail Superintendent.	Total Habituals admitted.	Ratio per cent. of column 7 to column 3.
1	Common Prison ..	3,361	561	..	8	569	16.9
2	House of Correction ..	319	184	184	57.7

16	Shikárpur ..	630	7	7	1.1
17	Sind Gang ..	2
18	Aden ..	256	1	..	5	6	2.3
	Total 1916 ..	16,983	2,277	86	61	2,424	14.3
	.. 1915 ..	16,866	2,282	78	139	2,499	14.8
	.. 1914 ..	16,579	1,945	88	38	2,071	12.5

10. From the information supplied by the Inspector General of Police, it appears that 1,563 persons were identified as old offenders in the Bombay Presidency, inclusive of Sind, as compared with 1,743 in the year previous. Out of 1,563 prisoners, 104 were identified in Bombay, 124 at Dhárwár, 256 at Dhulia, 210 at Thána, 308 at Ahmedabad, 276 at Yerávdá and the rest in other parts of the Presidency.

11. The number of escapes of convicted prisoners during the year under report from Prisons, Extra-Mural Gangs and Second Class Subsidiary Jails has been 8 against 6 in the year previous, 2 of which were from inside the Jails and 6 from outside; from inside 1 at Dhárwár and 1 at Shikárpur; extra-murally 1 each from Yerávdá, Deccan Gang, Hyderabad and Sukkur and 2 from Shikárpur. The total number of re-captures during the year was 7. Two of these escaped in previous years and 5 escaped in the year under report. The escape at Dhárwár was from the hospital, an insecure building outside the Jail wall. The prisoner was caught within half an hour. Two monitors

were reduced. There was a strong suspicion that a warder—since got rid of—was guilty of instigating the escape but there was not sufficient proof for prosecution.

The escape at Shikárpur, from inside the Prison, was due to gross carelessness on the part of a warder and general slackness of supervision on the part of the Jailor and the Head Warders of the Prison. A large branch of a tree was blown off in a gale and was left with the Prison firewood. This was the means of escape. The escapes from extra-mural files were all due to the neglect of standing orders or utter negligence. In all cases the officers responsible for the escapes were dealt with departmentally.

12. The statement noted in the margin relates to offences committed by, and the punishments awarded to, convicts in the Prisons and Second Class Subsidiary Jails. The offences dealt with by the Criminal Courts show a decrease of 22 as compared with those of the year previous, as detailed in the subjoined statement. The decrease is due to the Sind Gang which only shows 2 against 20 last year.

	1915.	1916.
<i>Section 52, Prisons Act.</i>		
Relating to work	33	11
Assault	2	2
<i>Indian Penal Code.</i>		
Attempt to escape and escape	9	7
Attempt to commit suicide	2
Total	44	22

13. The following table shows that the number of offences has decreased from 19,550 to 19,111, a decrease of 439, with an increased average population for the year of 10,463 against 9,879 in 1915. The number of minor punishments has fallen from 13,067 in 1915 to 12,816 in 1916, the decrease being 251, while the punishments under 'the major heads' have diminished from 6,483 in 1915 to 6,295 in the year under report, the decrease being 188.

	1915.		1916.	
Offences dealt with—				
By Criminal Courts	44		22	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—				
Relating to work	6,582	2,647	6,622	2,900
Do. prohibited articles	1,514	815	1,481	733
Do. assaults, mutiny and escapes	67	249	51	211
All other breaches of Prison rules	4,874	2,772	4,662	2,451
Total	1,3067	6,483	12,816	6,295

14. The following table shows the nature of punishments awarded during the past two years. It will be seen that the total number of major and minor punishments awarded by Superintendents during the year under report was 19,622 and the total number of offences 19,111. The difference is due to 511 offences having been dealt with during the year under report by the award of combined punishments.

	1915.	1916.
Punishments inflicted—		
By Criminal Courts	44	22
By Superintendents—		
Warnings	3,881	3,901
Penal diet	1,530	1,450
Separate, cellular and solitary confinement	129	124
Hand-cuffing and link fetters	3,621	3,281
Other punishments	4,076	4,214
Total	13,237	12,970
Separate, cellular and solitary confinement	185	258
Penal diet with solitary confinement	67	50
Fetters or hand-cuffing behind or to a staple	2,925	3,355
Corporal punishments	62	23
Combination of minor punishments	59	39
Other punishments	3,520	2,927
Total	6,818	6,652
Grand Total	20,099	19,644

15. Of the 19,622 punishments awarded by the Superintendents of Prisons and Jails, 12,970 or nearly 66 per cent. belong to the minor and 6,652 or 34 per cent. belong to the major class. Under minor punishments the sub-heads "Warnings" and "Other punishments" show an increase of 20 and 138 respectively while the other sub-heads show a decrease. Under major punishments the appreciable increase is against "Fetters and hand-cuffing behind or to a staple" (430).

The difficulty caused by insufficient cell accommodation was accentuated by the class of prisoner admitted during the year.

The following Prisons show an increase in punishments:— His Majesty's Common Prison (184), Dhárwár (278), Thána (448), Karáchi (397) and Sukkur (118).

The increase at Dhárwár is explained by the Superintendent as due to better exaction of task and to frequent punishments of some military prisoners who disliked work.

The increase in Thána is due to increase in the daily average population from 361 to 437.

The increase in Karáchi is due to (a) a small increase of 19 in the average population and (b) to a combined attempt on the part of the prisoners on grinding grain to give short task.

The increase at Sukkur is mainly due to an increase in the average population of 93.

The increase at the Common Prison is due to a change of Superintendents and stricter task taking.

Out of 19,111 offences, 2,463 habituals were responsible for 6,170 and 5,378 non-habituals for the balance of 12,941 offences. The percentage of habituals is 18.4 calculated on admission rates.

Altogether 7,841 prisoners were punished and the number who actually passed through the Prisons and Jails was 27,769. Many of these prisoners were only punished once; warnings formed 3,901 or about 19.9 per cent. of the total number of punishments. No less than 2,084 punishments were inflicted on convict officers for neglect of their duties. These punishments are almost invariably a warning, forfeiture of remission, or of grade privileges for a time, or reduction.

16. The subjoined table furnishes details as to the number of stripes inflicted on convicts in the various Prisons during the year under report.

The total number of corporal punishments has decreased from 62 in 1915 to 23 in 1916. The decrease is due to Yeránda (24), Karáchi (8) and Aden (4).

The total number of 23 floggings is accounted for as follows:—

His Majesty's Common Prison.—One: assault on an official visitor.

Yeránda.—Three: two, unprovoked assault on prison officers; one, grossly indecent behaviour.

Deccan Gang.—One: assault on the Superintendent.

Sábarmati.—Four: two, unprovoked assault on other prisoners of an aggravated character; one, grossly indecent behaviour; one, assault on the Jailor.

Karáchi.—Four: one, aggravated assault on another prisoner; three, contumaciously refusing to work.

Hyderabad.—Six: three, assault on prison officers: one, refusing to work, urinating in the grain given him to grind, assaulting warders and foul abuse to the Sub-Assistant Surgeon; two, absolutely refusing to work.

Sind Gang.—Two: one breaking his fetters preparatory to escape; one assault on a warder.

Aden.—One: aggravated assault on another prisoner.

Dhulia.—One: disgusting assault on another prisoner.

Of the 23 prisoners flogged, 9 were habituals. Only one prisoner was flogged for a first offence and that was for a serious assault on a visiting Magistrate. All men punished for refusing to work had had numerous previous prison punishments.

I am satisfied that throughout the year floggings were inflicted only in such cases as justified this extreme punishment. The number inflicted is the lowest ever recorded in the Bombay Jails.

	1		3					4	5	6		
	Total number of male prisoners for the year.	Total number of prison offences.	Total number of prisoners punished by whipping.					Percentage of column 3 to column 1. Sukkur	1,477	483
Shikárpur	830	72
Sind Gang	750	914	2	0.3	0.2
Aden	329	149	1	1	0.3	0.7
Total 1916	20,343	14,974	..	4	8	6	6	23	0.1	0.2
Total 1915	23,341	15,521	7	10	20	8	17	62	0.2	0.4

17. During the year 8,764 prisoners were fettered as compared with 9,873 in 1915; mostly prisoners employed extra-murally with light fetters on them—in many cases a single fetter and ankle ring. The Deccan Gang shows 3,919 and the Sind Gang 1,258.

REMISSION SYSTEM.

18. It will be seen from the figures appearing in Statement C appended to this report that 3,236 prisoners were released during the year under the remission system as compared with 3,260 in the year previous. The percentage during the year 1916 of those released under remission system to the total number who might have been released under that system, if of average good conduct upto the date of release, was 97·0 in 1916 against 97·3 in 1915. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules has been continued. Special awards under Rules 514 and 519, remission for committing no offence during the previous 12 months and for doing special work, were granted to 2,044 and 2,259 prisoners respectively against 1,558 and 1,368 in the year previous.

The increase is due to (a) Yeravda, extra remission given to prisoners working extra time and doing good work in connection with orders for military hospitals; (b) Sind Gang, Hyderabad, Karachi and some other Jails, to short-term prisoners promoted as Night Watchmen.

The practice of promoting prisoners under sentence of one year, in the absence of suitable long-term prisoners, was adopted in some of the Prisons and found to work satisfactorily.

19. The average number employed as prison officers during the year under report in Prisons and Second Class Subsidiary Jails was 1,055 males and 14 females against 1,002 males and 14 females in the year previous.

Statement No. VII.—Convict officers.

20. The statement noted in the margin shows the different diet scales in Prisons and Second Class Subsidiary Jails. These scales have been found to work satisfactorily. The last column

Statement No. VIII.—Diet.

of the statement shows the extra ration and alterations in the diet scale which were adopted as necessary in some of the Jails,

21. The statistics of under-trial prisoners confined in Prisons, Jails and Lock-ups are embodied in the marginally noted statement. The number admitted during the year under report

Statement No. XVII.—Under-trial prisoners.

shows an increase of 3,345 over the figure for the year previous. The daily average strength has however fallen from 1,761 in 1915 to 1,661 in the year under report.

22. I am glad to be able to report that the number of cases of adolescents or juveniles who were detained as under-trials for prolonged periods shows a marked diminution. The subjoined list, which contains some such cases, is, it may be noted, much smaller than in past years:—

Name.	Age.	Offence.	Date of admission.	Date of disposal of the case.	Result of trial.	By whom tried.	Length of detention.
B. R. ..	17	Section 381, Indian Penal Code.	12th May 1916.	3rd July 1916.	Discharged.	Third Presidency Magistrate, Bombay.	M. d. 1 22
U. B. ..	16	Sections 420, 468, 477, 114, Indian Penal Code.	8th July 1916.	29th August 1916.	Do. ..	Second Presidency Magistrate, Bombay.	1 22
K. M. ..	18	Sections 452, 143, 328, Indian Penal Code.	1st June 1916.	27th September 1916.	Convicted ..	First Class Magistrate, S. D., Bijapur.	3 28
R. B. ..	19	Do. ..	Do. ..	Do. ..	Do. ..	Do. ..	3 28

Name.	Age.	Offence.	Date of admission.	Date of disposal of the case.	Result of trial.	By whom tried.	Length of detention.

23. Forty-eight under-trial prisoners escaped in 1916 against 17 in 1915. Of these escapes, one each took place from the Subsidiary Jails and Lock-ups in Karáchi, Nawábsháh, Panch Maháls, Poona and Thána Districts; two each in the districts of Násik and Dhárwár; eight in the Belgaum District and 31 in the Lárkána District. No comment is required on the majority of these escapes; they were isolated cases and, in many instances, the prisoners were *en route* to the Jail, or coming back from Court.

There were, however, two concerted escapes of a more serious character.

At the Lárkána Subsidiary Jail 27 dangerous under-trials, mostly dacoits, rushed the guard when the door was opened to admit a supply of drinking water. A speedy pursuit followed and seven were shot, four are still missing and the rest were re-captured.

At Athni, when the door was opened to pass food in, six prisoners rushed the guard and got away. In the pursuit three were captured, one was shot, and two are still at large. I have submitted to the District Magistrates for favour of their opinion a suggestion which will, I think, go far to prevent similar occurrences.

24. The number of deaths of under-trial prisoners shows a decrease of three on the figure for the year previous. Out of 26 deaths five occurred in Prisons, two in Second Class Subsidiary Jails and 19 in Third Class Subsidiary Jails and Lock-ups. Of the 21 deaths in Subsidiary Jails one each was due to cancrum oris, compound fracture of vault of skull, gastric ulcer, blood poisoning, cholera, anæmia, syncope, failure of heart, leprosy, rupture of liver, two to pneumonia and 9 to gunshot.

25. The number of under-trials remaining on 31st December 1916 was 304 males and 15 females in Prisons, 41 males and 3 females in Second Class Subsidiary Jails, 1,165 males and 42 females in Third Class Subsidiary Jails and Lock-ups, thus making a total of 1,510 males and 60 females.

26. In the beginning of 1916 there were 56 males in the Civil Jails. The number admitted during the year was 1,164 males and 4 females; 1,152 males and 4 females were released and 1 male died and the balance at the close of the year under report was 67 males. The daily average number has been 60 against 61 in 1915. The total cost and cost per head have respectively been Rs. 4,657-5-9 and Rs. 77-10-0 during the year under report as against Rs. 5,058-9-4 and Rs. 82-14-0 in the year 1915. This amount is exclusive of ration charges which are borne by the creditor.

FINANCIAL.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and under-trial prisoners confined in the Central District and Extra-mural Prisons, Subsidiary Jails and Lock-ups. Statement No. IX includes charges for inspection and general superintendence. The cost of police guards has been omitted

Statements Nos. IX and X.—Expenditure.

as usual, except in the case of the Central Prisons of Yeránda and Ahmedabad and the Special Prison, Thána, where the guarding is undertaken by the reserve armed warder guard. As the account system of the Yeránda Prison Press has been changed and based on "Unit Cost" system since January 1st, 1913, under orders of Government conveyed in their Resolution, Judicial Department, No. 1545, dated the 27th February 1913, the expenditure on account of that institution has been omitted from these statistics. The realization from the sale-proceeds of garden produce has been deducted from the total charges. The gross expenditure during the year 1916 has been Rs. 11,15,429 and the cost per head Rs. 92 against Rs. 11,25,826 and Rs. 96-11-6 in the year previous.

28. The total cost and cost per head under this head have decreased from Rs. 3,32,486 and Rs. 28-9-0 in the year 1915 to Rs. 3,27,270 and Rs. 26-15-11 in the year under report. The decrease is due to (1) the post of a European Warder not being filled during the year at the House of Correction, (2) no Superintendent's pay drawn at Yeránda from 1st February to 25th of July, and thereafter at a reduced rate, (3) these sums more than counterbalanced the expenditure necessitated by the additional members of staff entertained for the Juvenile Jail, Dhárwár.

29. The total cost under this heading has fallen from Rs. 5,54,046 in the year 1915 to Rs. 5,44,761 in the year under report and also the cost per head from Rs. 47-9-7 to Rs. 44-14-11. The decrease is due to favourable contract rates at important Prisons such as Yeránda, Hyderabad, Ahmedabad, Sind Gang and also at Kárwár, Sukkur Shikárpur and Bijápur Prisons.

30. The value of vegetables and other supplies from the gardens attached to Prisons and Jails shows a decrease of Rs. 1,414 as compared with the figures for the year previous, the amounts being Rs. 30,543 in 1916 against Rs. 31,957 in 1915. The Prisons of Yeránda, Deccan Gang and the Central Prison, Hyderabad, show a decrease. At Yeránda the heavy late rains destroyed all the October sowings of Europe seeds. At the Deccan Gang heavy floods from the river swept the gardens on more than one occasion and caused extensive damage. The decrease at Hyderabad is only apparent, being due to a more favourable contract rate for vegetables which governs the price given for Jail vegetables in the nominal adjustment. Rájkot, Dhárwár and Shikárpur show an increase.

31. The total cost and cost per head have fallen from Rs. 45,778 and Rs. 3-14-11 in the year 1915 to Rs. 37,633 and Rs. 3-1-8 in the year under report. The reduction is most probably due to economy exercised in the issue of extras and the purchase of medicines.

32. The total cost and cost per head have increased from Rs. 46,453 and Rs. 3-15-10 in 1915 to Rs. 59,009 and Rs. 4-13-10 in the year under report. The increase is due to enhanced cost of wool and twist and to the increase in the population. The wool obtained for the last couple of years is distinctly inferior and this causes much loss in wastage and an article of clothing is produced with nothing like the wearing qualities of those made of good wool.

33. The expenditure under this head shows an increase of Rs. 4,352 when compared with the figure of the last year, the figure for the year 1916 being Rs. 30,443 against Rs. 26,091 in the year previous. The increase of expenditure is due to precautions taken against cholera at the Jails of Karáchi, Sábarmati and the Deccan Gang. At Thána and His Majesty's Common Prison water charges for the last half of 1915 were paid in 1916. Increased Halalkhor charges at His Majesty's Common Prison.

34. The total cost has been Rs. 52,830 in the year under report against Rs. 50,857 in 1915. The increase of Rs. 1,973 is due to increased number of transfers. The collection of the prisoners for the 11th Labour Corps alone would more than explain the increase.

Charges for moving prisoners.

35. The total cost and cost per head have fallen from Rs. 48,057 and Rs. 4-2-1 in the year 1915 to Rs. 41,342 and Rs. 3-6-7 in the year under report. The decrease is due to (a) fall in expenditure under "Uniforms and equipment to warders" (Rs. 3,435 against Rs. 6,220 in 1915), (b) "Other miscellaneous charges" show a fall of Rs. 5,744. The expenditure under this head by District Magistrates fell by Rs. 5,553.

Charges for miscellaneous services and supplies.

36. The total cost and cost per head have fallen from Rs. 6,331 and Re. 0-8-0 to Rs. 5,095 and Re. 0-6-8. The decrease of Rs. 1,236 is due to less transfers of Jail Officials and to the fact that I was unable to tour from February until August and again from October till the end of year.

Travelling allowance.

37. The total cost and cost per head have risen from Rs. 10,963 and Re. 0-15-1 in the year 1915 to Rs. 13,896 and Rs. 1-2-4 in the year under report. The increase is mainly due to "Charges for Register and Stationery" owing to the enhanced price of stationery.

Contingencies.

38. This head shows a decrease of Rs. 1,614, the figures being Rs. 3,150 and Re. 0-4-2 in 1916 against Rs. 4,764 and Re. 0-6-6 in 1915. The decrease is due to strict economy observed in all prisons.

Extraordinary charges for live stock, tools and plant.

39. The statement noted in the margin deals with the employment of convicts in Prisons and Second Class Subsidiary Jails. It will be seen that the total number of prisoners sentenced to labour has risen from 9,755 in 1915 to 10,323 in the year under report. The cause of increase is due to the increase of the average population in 1916 as compared with that of 1915.

Statement No. XI.—Employment of convicts.

40. The marginally noted statement deals with the net cash earnings of convicts sentenced to labour. The cash earnings have declined from Rs. 1,73,142 in the year 1915 to Rs. 1,32,446 in the year under report. His Majesty's Common Prison, Bombay, the Prisons of Yeravda, Kárwár, Ratnágiri, Karáchi, Hyderabad and the Sind Convict Gang show a decline, while all the other Prisons show an increase.

Statement No. XII.—Net cash earnings.

The principal factor in the diminution of profits is a fall at the Sind Gang of Rs. 43,776.

The Sábarmati Jail shows an increase in profit of Rs. 1,114. The chief reason for the Sábarmati Central Prison increasing on the high figure of last year is as follows:—

(a) When the manufacture of blue uniforms for the police department ceased, including the making of kullahs, haversacks, chevrons, etc., raw material stocked for the purpose and manufactured articles had to be sold.

Raw material was sold to the value of Rs. 8,376 and manufactured articles to the value of Rs. 4,290. Deducting the total figure of Rs. 12,666 from the profit of Rs. 26,890, a figure of Rs. 14,224 is left.

(b) The average annual profit of this Jail is about Rs. 9,640. The excess over the average is due to large quantities of tape made for the Supply and Transport Depôt, Poona.

His Majesty's House of Correction:—The increase of Rs. 1,375 is due to—

(a) Greater sale of articles manufactured,—these are all coir.

(b) Smaller purchase of raw material.

(c) Fewer outstanding debts due to Prison.

Dhárwár :—The increase of Rs. 695 is principally due to the fact that less wood was purchased from the Forest Department during the year.

Aden :—The increase of Rs. 1,962 is due to—

- (a) Greater outturn from the Press.
- (b) Employment of an extramural gang on Government buildings.

Shikárpur :—Increase of Rs. 970 due to—

- (a) Greater sale of bricks.
- (b) Employment of prisoners on canal work by the Public Works Department.

The increase at Thána, Rájkot and Sukkur is small and need not be commented on.

I now explain in detail the causes for the decrease in profits in certain Jails.

His Majesty's Common Prison :—Decrease of Rs. 1,204—

- (a) More raw material purchased in 1916.
- (b) Less oakum sent to the Jail for picking.

Yeránda Central Prison :—Decrease of Rs. 4,803. The main cause of this is the purchase of 300 lbs. of quinine at Rs. 21-8-0 per lb. instead of the old rate of Rs. 8 per lb. The factory operations pure and simple show an increase of Rs. 1,749.

Káruár Prison :—Decrease of Rs. 901—

- (a) Smaller yield of cocoanuts from the Jail plantation.
- (b) A smaller population.

Ratnágiri Prison :—Decrease of Rs. 980 due to smaller orders from Government Departments and to a large balance of manufactured articles left at the close of the year which were sold in January and February of 1917.

Karáchi Prison :—Decrease of Rs. 3,622—

(a) More raw material and more manufactured articles on hand at the end of 1916. A large quantity of twist was purchased in 1916 as the market price was rising. The demand for manufactured articles, daris, etc., fell off.

Hyderabad Central Prison :—Decrease of Rs. 4,461—

- (a) More raw material in hand at the end of the year ; purchase made in anticipation of a further rise in the rate of twist.
- (b) More manufactured articles in hand due to smaller demand by the public.

There are two factors common to all Jails which account largely for the decrease in profits.

The enormous increase of price of wool, twist, dyes, wood, brass and other articles. The diminished demand on the part of the public. Raw material is dear and money is scarce.

41. Of the sum of Rs. 1,32,446 mentioned at the commencement of the last paragraph, the sum of Rs. 62,817 represents the profits of Prison Factories, Rs. 150 of Second Class Subsidiary Jails, and Rs. 69,479 of extramural labour. The average cash earnings per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and Second Class Subsidiary Jails have been Rs. 12-13-0 and Rs. 33-10-0 as against Rs. 17-12-0 and Rs. 47-11-0 in the year previous.

42. During the year under report Jail-made articles of the value of Rs. 28,264 were sold to Government Departments as detailed below against Rs. 67,544, in the year previous :—

	Rs.
Public Works Department	1,271
Police Department	11,348

	Rs.
Telegraph Department	1,370
Other Civil Departments	10,378
Marine Department	414
Military Department	3,483

The Dhárwár Jail made articles for the use of war hospitals to the amount of Rs. 253-12-0; the Central Prison, Yerávida, for the same purpose Rs. 1,381-13-6.

43. The Gang remained at Visápur in the Ahmednagar District throughout the year. With an average of 1,788 prisoners sentenced to labour, the earnings amount to Rs. 60,754 against Rs. 45,364 in 1915 when the average number of labouring prisoners was 1,627. The increase is due to a larger number of prisoners on the work and the careful and untiring supervision of Mr. C. N. Hall, I. S. O.

44. This Gang was at Gunja Takar near Hyderabad (Sind) during the whole year. It earned Rs. 4,582 with an average population of 755 labouring prisoners against Rs. 48,359 with 800 prisoners in the year 1915. The decrease of Rs. 43,777 was due to the fact that only Rs. 3,774 worth of road metal was sold as there was no demand from the North-Western Railway. Rs. 30,074 worth was actually broken. For other work Rs. 5,485 was received.

From the middle of December 1916 the prisoners were employed on canal clearance work and the profits for 1917 will show, I think, a decided improvement.

45. The quinine industry in the Central Prisons of Yerávida and Hyderabad showed loss of Rs. 110 during the year under report against a profit of Rs. 6,651 in the year previous. The Yerávida Central Prison shows the loss of Rs. 918, while the Hyderabad Central Prison shows a profit of Rs. 808. The loss at Yerávida is due to—

(a) Purchase of 300 lbs. of quinine at Rs. 21-8-0 per lb. as against the old rate of Rs. 8 per lb.

(b) At the close of 1914 quinine to the value of Rs. 3,350 was in hand; at the close of 1915 only Rs. 29 worth remained in stock.

The value of quinine purchased, packing materials, service stamps and establishment charges amounted to Rs. 31,111 during the year under report against Rs. 15,192 in 1915, and the amount paid into the Treasury was Rs. 31,002 in 1916 against Rs. 22,946 in the year previous.

Quinine treatments of the value of Rs. 25,000 were this year also received and all—except 618 parcels—were distributed. The cost of packing and postage charges amounted to Rs. 106. As the purchase price of each parcel of ten tubes (each tube contains 20 tablets) was Rs. 3-2-0 and the selling rate Rs. 1-7-0 the transaction resulted in a loss of Rs. 13,608 against a similar loss of Rs. 13,288 last year.

46. The subjoined statement compares the outturn of the Yerávida Prison Press in the years of 1915 and 1916. The number of prisoners employed in 1916 was 236 against 273 in the year previous and the cost of their maintenance was Rs. 20,620 at the average cost of Rs. 87-6-0 per prisoner.

Comparative Abstract of Outturn during 1915 and 1916.

Main Section.	Units.	Outturn.	
		1915.	1916.
1. Composing	Pages (Foolscap Folio, Solid Pica).	18,833	22,112-22
2. Stereo Foundry	lb. (Finished Plates)	3,970	3,838-10
3. Machines	Impressions (Foolscap)	5,67,85,000	4,35,84,931
4. Hand Presses	Do. do.	817,000	3,04,012
5. Hand Sewing	Sections, Foolscap Folio	1,10,291	1,11,091
6. Machine Sewing	Do. do.	4,81,764	2,55,054
7. Casing in	Books, Half Bound Foolscap Folio, 100 leaves.	1,02,561	55,121
8. Ruling	Impressions (Foolscap)	2,06,65,000	1,96,41,850
9. Paging	Do. do.	89,34,000	68,20,721
10. Perforating	Cuts	16,12,000	13,68,883
11. Folding	Foolscap Folio, single folds	1,54,78,000	55,20,305
12. Collating	Do. do.	97,14,000	77,79,570
13. Wire-stitching	Stitches	20,30,000	11,91,374
14. Insetting	Insets	36,60,000	24,65,074
15. Eyeletting	Eyelets	8,98,000	6,26,390
16. Envelope-making	Foolscap Thin Envelopes	1,05,98,000	1,91,47,891
17. Miscellaneous Productive	Hours	400	1,439-15

47. The statement noted in the margin shows the total cost of maintenance for all Prisons, Subsidiary Jails and Lock-ups. The total expenditure, excluding charges for inspection and general superintendence, has amounted to Rs. 10,70,057 during 1916 against Rs. 10,82,788 in 1915. The total cash earnings have been Rs. 1,32,446-6-0 in 1916 against Rs. 1,73,141-9-0 in the year previous, thus making a net cost to Government of Rs. 9,37,610-10-0 during the year under report against Rs. 9,09,646-7-0 in the year 1915. The average net cost to Government per prisoner has been Rs. 77-5-0 against Rs. 78-2-0 in the year previous.

Statement No. XIII.—Net Cost.

VITAL.

48. The statement noted in the margin deals with the sickness and mortality of all classes during the year under report. The following table compares the figures for 1915-1916 of prisoners confined in the Central, District, Special and Extramural Prisons, Subsidiary Jails, Civil Jails and Lock-ups :—

Year.	Daily average strength.	Admission into Hospital.	Daily average sick.	Total number of deaths.	Ratio of deaths per mille.
1915	11,701	6,374	212.9	164	14.0
1916	12,184	6,932	249.3	212	17.4

49. The death rate for the year is 17.4 against 14.0 in 1915. The daily average sick has risen from 212.9 to 249.3 but this increase can be explained by the increase in the daily average strength. There were 121 cases of mumps; of which 65 were admitted in the Central Prison, Sábarmati, 19 in the District Prison, Sukkur, and 15 at Yerávdá Central Prison. There were nine deaths from gun shot wounds.

Of the 188 prisoners who died in Central and District Prisons and Extramural Gangs 51 were admitted in bad health, of whom 18 were suffering from the disease from which they ultimately died, 34 in fair health and 103 in good health.

50. There were 3 cases of plague during the year. One at Dhulia; the disease developed the day after admission, he was not inoculated and recovered. One at Deccan Gang, admitted with the disease, he had not been inoculated and died. One at Yeránda. The patient, a woman, had been inoculated, she had a mild attack and recovered. Her little child of six months had also been inoculated and did not get plague.

As a precautionary measure, on account of plague in the vicinity or in the surrounding districts, inoculation of prisoners was carried out at His Majesty's Common Prison, His Majesty's House of Correction, Central Prison, Yeránda, Deccan Extramural Prison, District Prisons of Bijápur, Dhulia, Ratnágiri, Juvenile Jail, Dhárwár, and Special Prison, Thána.

There was an exceptionally bad outbreak of plague in Poona in 1916. At Yeránda all the prisoners and the staff and their families were inoculated in October 1916. The plague gradually spread to the Yeránda village and shortly afterwards rats began to die of plague both in the residential quarters and in the Jail itself. Only one prisoner—a female—contracted plague and she had a very mild attack. There is not the slightest doubt that but for inoculation the prisoners would have suffered the fate that the residents of Poona and the villages in the District endured. Neither cleanliness, nor good food, nor warm clothing will avail one much if plague-infected rats are dying freely in a place, but inoculation is practically a certain preventive. It is curious how eager some Superintendents are to evacuate Prisons and residential quarters if plague rats appear. Probably they have seen the havoc from plague in their towns and villages and cannot believe that so terrible a disease is prevented by so simple a remedy.

51. The following prisons were overcrowded throughout the year. His Majesty's Common Prison, Central Prisons of Yeránda, Sábarmati, Hyderabad, District Prisons of Bijápur, Sukkur, Karáchi and Sind Convict Gang.

The Áden Jail was overcrowded; 1st January to March 18th; 20 days in April, May 1st to 22nd. May 28th to 26th July and August 14th to 13th September.

Rájkot Jail from April to December 31st.

Dhárwár Juvenile Jail for 85 days.

Dhulia District Prison.—Female ward throughout the year, male wards for 53 days.

The Special Prison, Thána, as explained in the previous year's report, was kept about 200 under strength.

Prisoners were freely drafted to relieve the overcrowding. Tents, mandaps, verandahs and unused workshops were utilised for the accommodation of the surplus population as far as possible.

52. I comment in detail on the death rate of the following Prisons in which the death rate exceeded 15 per mille.

His Majesty's Common Prison.—Death rate 24·9. Of the eleven deaths four (inflammation lymphatic glands, tubercular enteritis, diarrhoea and Bright's disease) were admitted in bad health, one committed suicide, two died from intestinal obstruction, two from diarrhoea, one from mastoid abscess and one from pneumonia.

Deccan Extramural Prison.—Death rate 22·9. Of the 41 deaths 16 were admitted to the Prison in bad health; pneumonia 14 (of these only five were admitted in good health), bronchq pneumonia 1, Bright's disease 1, tuberculosis 1, syphilis 3, psilosis 1, stricture colon 1, angina pectoris 2, appendicitis 1, abscess liver 1, gastro enteritis 1, hæmorrhage pancreas 1, embolism mesenteric artery 1, cholera 2, diarrhoea 1, dysentery 2, pericarditis 1, enteric 1, acute infective gangrene 1, acute dilatation of the stomach 1, plague 1, pancreatic cyst 1, tuberculosis of kidney 1.

Bijápur District Prison.—Death rate 20·8. Angina pectoris 1, chronic nephritis 1, malaria 1, tuberculosis 1, pneumonia 2, dysentery 1, cerebral hæmorrhage 1, fatty degeneration of the heart 1. A great number of the new admissions, especially from the Dhárwár District, were suffering from enlarged spleens and malaria.

Thana Special Prison.—Death rate 16·8. Volvulus colon 1, Bright's disease 1, malarial remittent fever 1 (contracted before admission), asthma 1, paraplegia 1, anæmia 1 (admitted in very bad health, a man of 65), chronic dysentery 1, pneumonia 1.

Karachi District Prison.—Death rate 17·1. Epilepsy 1 (admitted suffering from the disease), tuberculosis mesenteric glands 1 (admitted suffering from the disease), tubercular pleurisy 1, fatty heart 1, enteric fever 1; valvular disease heart 1, tuberculosis glands neck 1 (admitted with diseased glands), congestion lungs 1.

Hyderabad Central Prison.—Death rate 18·3. Pneumonia 10, chronic enteritis 1, abscess lung 1, malarial cachexia 2, valvular disease heart 2, tuberculosis 3, syphilis 1, fatty degeneration of heart 2, acute dilatation heart 1. I was very dissatisfied with the manner in which the medical staff discharged their duties in this Prison; the Sub-Assistant Surgeons were callously indifferent to their duties and the Medical Officer in charge up to September was not equal to the post he filled.

Shikarpur Special Prison.—Death rate 33·9. Six deaths in a jail with an average population of 177. Only one of these six was admitted in good health, he died of intestinal obstruction. Three, admitted with large spleens and malaria, died of pneumonia; of the remaining two, one died of perforation of the intestine and one from asthma and bronchitis from which disease he was suffering on admission.

Sind Convict Gang.—Death rate 34·3. 14 died from pneumonia, 2 from malaria, 2 from peritonitis, 3 from dysentery, 1 from rupture of bladder, 1 from bronchitis, 1 from intussusception, 1 from pyo-nephritis, 1 from heart failure. Out of the 26 casualties 21 died in the last four months of the year.

53. The health of the House of Correction 12·1, Yeravda 11·7, Dhulia 6·4, Dharwar 5·3, Karwar 8·1, Ratnagiri 11·4, Sabarmati 14, Rajkot nil and Aden nil has been satisfactory. The health at Yeravda is particularly satisfactory. The average population was 1,795 against accommodation for 1,540. All leper prisoners are sent to this jail. It also receives batches of invalids from the Deccan Gang. The death rate and general health reflect credit on Major Jagoe Shaw, I. M. S., the Medical Officer, and on the subordinate medical staff. The medical staff at Sabarmati also deserve commendation. This Prison was overcrowded throughout the year but if we deduct the 4 deaths from cholera the death rate would be only 10·9.

54. The following methods were adopted during the year under report with a view to improve the health of the prisoners confined in our Prisons and Jails and are inserted here in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December 1896 :—

- (1) Issue of wheat and rice in lieu of bajri and jowari.
- (2) Issue of 2 ounces extra flour and one ounce of molasses to working prisoners in the Deccan Gang.
- (3) Issue of wheat in lieu of bajri and jowari at the Sind Gang and antiscorbutic chatni in the hot weather.
- (4) Issue of extra rations to weakly prisoners and convalescents.
- (5) Issue of quinine as a prophylactic.
- (6) Issue of potatoes and onions in lieu of green vegetables.
- (7) Issue of extra warm clothing when considered necessary.
- (8) Inoculation by Professor Haffkine's prophylactic serum.

55. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it will be observed that the population has risen from 68,694 in 1915 to 71,968 in the year under report.

The daily average strength, number of admissions into hospital, and daily average sick have been, respectively, 1,362, 1,199 and 16·9, against 1,486, 1,049

and 17.0 in the year previous. The number of deaths was 24 against 23 in 1915 and the death rate per mille of average strength has been 17.6 as against 15.5 in the year previous.

56. The marginally noted statement shows the diseases chiefly responsible for sick admissions and deaths among convicted prisoners.

Statement No. XV.

There was an outbreak of cholera in two jails.

At the Central Prison, Sábarmati, there were 12 cases and 4 deaths. I visited the Prison during the outbreak, every possible measure was taken and the outbreak was quickly controlled. The Medical Officer in charge, Assistant Surgeon R. C. Motwani, and Sub-Assistant Surgeons Bhogilal M. Shah and Ranchodlal M. Shah did excellent work. The executive officers of the Jail worked most satisfactorily. I am indebted to the Deputy Sanitary Commissioner Dr. Jamshyd Munsiff for the assistance and advice he gave. The infection could not be definitely traced but was probably fly borne. The town of Ahmedabad and the surrounding villages were badly infected with virulent cholera.

The Medical Officer considers that the keeping of Roza was an exciting cause, the epidemic chiefly affected men keeping Roza and originated amongst them.

At the Deccan Extramural Prison there were five cases and two deaths.

Cholera was prevalent in the district and before the outbreak in the Prison one case—a female—occurred in the lines; then a case—a female—wife of a warder at the Hur Settlement camp. Both these women had been a few days before at a village where cases of cholera had occurred. The next case was a warder at the Hur Settlement Camp. Four days afterwards the first case occurred among the prisoners. He had drunk water from a drain. No direct connection between the cases amongst the convicts could be traced. There was an interval of eight days between the second and third cases. Probably in every case the men drank forbidden water while on extramural work. The arrangements made by the Superintendent Mr. C. N. Hall and the Medical Officer Mr. T. M. Vakil were quite satisfactory.

Dysentery.—An increase of 42 cases, with 9 deaths. The increase is due to Dhulia 23 cases, Yeránda 17, Karáchi 14 and Hyderabad 21.

Malaria.—One thousand two hundred and seventy-seven admissions and 9 deaths against 1,616 admissions and 7 deaths. The notable decreases are Sind Gang 102 fewer cases, Sábarmati 353 fewer cases.

Pyrexia of uncertain origin shows 43 admissions against 27 in 1915. Yeránda 17 cases, Bijápur 15, Aden 6. As I remarked before this heading rises and falls with the idiosyncrasy of the Medical Officer.

Quinine was given as a prophylactic measure at the Common Prison, House of Correction, Deccan Extramural Prison, Sind Convict Gang, Central Prisons—Yeránda, Sábarmati, Hyderabad, District Prisons—Kárwár, Bijápur, Rájkot, Sukkur, Karáchi, Shikárpur, Dhulia. At the Special Prison, Thána, it was issued to all prisoners with enlarged spleen.

Tuberculosis of the lungs shows 49 admissions and 11 deaths against 32 admissions and 8 deaths in 1915. Of these admissions at least 20 contracted the disease outside the Prison. The tubercle ward at Yeránda has been completed and Government have called on me to obtain plans and estimates for tubercle wards in several other Jails.

Anæmia and debility show 30 cases and 2 deaths against 38 admissions and 2 deaths in 1915. Both deaths were due to pernicious anæmia. No cases were returned under the head debility.

Other general diseases show 890 cases and 18 deaths against 696 cases and 9 deaths in 1915. The deaths were due to syphilis 6, enteric fever 2, acute infective gangrene 1, tubercular enteritis 1, tubercular glands 4, tubercular peritonitis 1, tubercular pleurisy 1, pancreatic cyst 1, plague 1. Of the tubercular cases five were admitted in bad health.

Pneumonia.—One hundred and sixty-six admissions and 51 deaths against 161 admissions and 48 deaths. The disease is practically limited to half a dozen

jails. The Deccan Gang 44 cases with 14 deaths, Central Prison, Sábarmati, 26 cases and 5 deaths, Central Prison, Hyderabad, 18 cases and 9 deaths, Special Prison, Shikárpur, 9 cases and 2 deaths, District Prison, Sukkur, 12 cases and 2 deaths and the Sind Gang 36 cases and 14 deaths.

Other respiratory diseases show 417 admissions and 8 deaths against 345 admissions and 4 deaths in 1915. Yerávdá 50 against 20, Deccan Gang 74 against 27, Bijápur 35 against 9 and Hyderabad 87 against 33.

Diarrhoea.—Five hundred and twenty-eight cases and 5 deaths against 263 cases and 7 deaths. The increase is due to Yerávdá 281 cases against 29, Deccan Gang 112 against 48.

The rainfall was heavy and in Poona the free population suffered a good deal from diarrhoea and allied complaints.

Abscesses, ulcers and boils 600 admissions and 3 deaths against 502 admissions and no deaths. The deaths were due to cerebellar abscess, mastoid abscess and abscess of the hip.

57. Out of the total of 21,778 prisoners who were discharged during the year 11,859 or in other words 54.5 per cent. gained weight against 54.2 in the year previous, 4,666 or 21.4 per cent. lost weight against 4,564 or 22.9 in 1915 and 5,253 or 24.1 remained stationary as compared with 22.9 in 1915.

OFFICIAL AND NON-OFFICIAL VISITORS.

58. There were 226 official visitors during the year for Prisons and Second Class Subsidiary Jails. Fifty-eight quarterly meetings were held during the year and all were well attended. Five hundred and ninety-two visits were paid by official visitors, while 75 were paid by non-official visitors.

BUILDINGS.

59. The following allotments were sanctioned during the year for the original major works :—

	Rs.
(1) To complete tubercle ward at the Yerávdá Central Prison (Government, Public Works Department, Order No. A—1228, dated 31st January 1917)	2,175
(2) Belgaum (Hindalgi) Rs. 37,000 have been utilized and the balance surrendered by the Superintending Engineer, Southern Division. (Government, Public Works Department, Orders Nos. A—1688, dated 12th February 1917, and A—3229, dated 26th March 1917.)	50,000
(3) Compound wall round the District Prison Dhárwár. Rs. 6,008-10-10 reported to have been expended towards the work up to the end of December 1916.	10,000

A new Jail for Bombay is urgently required. But no funds could be allotted for this purpose on account of financial stringency during the year.

In addition to the above, a sum of Rs. 5,000 was allotted for the discretionary grant which was further supplemented by Rs. 493 all of which was utilized during the year under report as detailed below :—

Yerávdá Central Prison.—Rs. 701. Constructing a Donaldson's Ejector.
Hyderabad Central Prison.—Rs. 2,092. Making the following additions and alterations :—

(a) Two new cells to the existing block of six cells for condemned prisoners.

(b) Verandah in front of the existing block of 4 cells for female prisoners.

(c) Removing and refixing doors in the centre of the front wall of 4 cells for female prisoners.

All these works were in connection with the provision of sufficient cells for condemned prisoners in order to obviate the objectionable practice of putting these men in cells in the circles in more or less close association with other prisoners.

His Majesty's House of Correction, Bombay.—Rs. 1,012—

(a) Carrying out certain improvements to the Superintendent's quarters Rs. 850. The quarters were tumbling down.

(b) Providing a ferro concrete cover and a hand pump to the well in the workshed Rs. 162, at the demand of the Municipal Health Officer.

Kárwár District Prison.—Rs. 274. Fixing expanded metal to the underside of the night cage latrines of the 6 barracks and hospital.

Thána Special Prison.—Rs. 120. Making certain additions and alterations to the Sub-Assistant Surgeon's quarters.

Sukkur District Prison.—Rs. 7. Removing the flight of steps leading up to the guard room.

Alibág Second Class Subsidiary Jail.—Rs. 386. Converting the store room into a female Jail.

Surat Third Class Subsidiary Jail.—Rs. 127. Providing $\frac{1}{2}$ " meter.

Násik Third Class Subsidiary Jail.—Rs. 764. Providing iron barred frames over the open yard by the side of the female ward.

Many urgent works could not be financed on account of want of funds.

MISCELLANEOUS REMARKS.

60. During the year 1916 the following Prisons and Subsidiary Jails were inspected by me:—

Central Prisons.	District Prisons.	Subsidiary Jails.	Gangs.
Yerávdá ..	Rajkot.	Wadhván.	Nil.
Ahmedabad ..	Dhulia.

My touring was completely upset through the following reasons. I was acting as Superintendent of the Central Prison, Yerávdá, from February 1st to July 25th; I was unfortunately ill during September, and during October, November and December I could not leave headquarters owing to the enlistment of the 11th Labour Corps for Basra. Numerous visits were paid to the Bombay Jails and Thána and a special visit to Ahmedabad during the cholera outbreak in August. The Deccan Extramural Gang was visited by me twice during the year.

61. There were 98 adolescents at the Juvenile Jail, Dhárwár, at the beginning of 1916. During the year 91 were admitted against 59 in the previous year and 93 were released or transferred, leaving a balance of 96.

Of releases and transfers 8 were declared habituals and transferred to other Jails; 1 was removed from the Juvenile Jail for persistent bad conduct.

Eight were transferred having reached the age limit.

Thirty-seven volunteered for the Labour Corps in Mesopotamia. These were mostly adolescents who had been taught a handicraft.

One was released conditionally and sent to the Salvation Army Boys' School. Four were sent to the same place on release. One was sent to the Criminal Tribes Settlement in Bijápur on conditional release. Two were given tools on release and went to their villages.

One on release went to Bombay with a letter to the Honorary Secretary, Prisoners' Aid Society. One to the Executive Engineer, Násik, for employment.

Twenty-nine were released and went to their villages.

Up to date four adolescents who have undergone sentences in the Juvenile Jail have been reconvicted. The first of these cases was commented on in last year's report. The three reconvicted this year were all Gujaratis and had behaved badly while in the Juvenile Jail. The original sentences undergone in Dhárwár were 15 months, one year and one year.

The general behaviour of the adolescents during the year was good. Satisfactory progress was made in drill and gymnastics. In addition to carpentry, the trades of gardener and blacksmith are now taught. Some philanthropic gentlemen visited the Prison on various occasions and gave lectures to the boys. The Reverend Mr. Hewitt gave two magic lantern shows which were much appreciated.

During the year a superintendent, blacksmith and a Gujarati school master were appointed. The Mali instructor was appointed on January 2nd, 1917.

The work of the classes was a good deal upset by the release of many of the best workmen who volunteered for Mesopotamia. The Superintendent reports that the new wall around the Prison is progressing, but slowly, and its progress was somewhat hindered by the fact that several good masons went to Mesopotamia. If this Juvenile Jail is to be a success it is essential that Magistrates and Judges should realise that the shorter the sentence the smaller the chance of reform. To give the Prison Authorities a reasonable chance of reform the adolescent should go for 2 years at least.

The condition described by Dr. Quinton in his "Crime and Criminals" as once existing with reference to the Borstal Jail at home now holds good in the Bombay Presidency:

"Many of the Courts seemed to be unaware of the experiment that was going on in Prisons even when it had been 10 years in progress; others, who knew the scheme, seemed to fight shy of prison experiments and others objected to pass long sentences on persons of immature years, even if they had previous convictions, unless their offences happened to be of a very serious character. * * * The law is proverbially slow in its movements generally, but when innovations in regard to penalties are introduced and they are merely permissive in character, it is often for a considerable time stolidly indifferent to the changed position."

62. During the year the Bombay Prisoners' Aid Society commenced operations. Its activity has been limited by want of funds. This kind of work is extremely difficult in its inception and the harvest of good is slow in ripening. The greater credit is due to those gentlemen who have unselfishly come forward and helped in the good cause. It is however perfectly clear that the Society must die of inanition if the Bombay public cannot give more financial support than was forthcoming in 1916.

The Prisoners' Aid Society of Bijápur has been at work throughout the year but I have received no report as to what has been actually done.

The Salvation Army Boys' Home and the Home for released prisoners are now ready. Very few prisoners have gone there as yet, but this is largely due to the recruitment of the 11th Labour Corps for Basra.

63. A report on the Hur Settlement at Visápur is separately submitted for the information of Government. So far, under the able superintendence of Mr. C. N. Hall, I.S.O., everything is progressing as smoothly as could be expected.

64. One thousand and fifty-six prisoners volunteered for service in a Labour Corps in Mesopotamia. Of these 37 were from the Juvenile Jail at Dhárwár, mostly artisans trained in that institution. The Corps sailed for Mesopotamia on December 15th.

I have as yet received no full report as to how these men have done. They were employed on embankment work at first.

65. The warders of the department are as unsatisfactory as ever. The sanctioned strength is 860. During the year 110 resigned, 54 were discharged or dismissed. There were 50 vacancies at the end of 1916. Of the warders sanctioned

in Government Resolution, Financial Department, No. 3798, dated 21st December 1916, for the Central Prison, Yeránda, not one has been recruited yet. Nobody fit to be enlisted has come forward. This matter will be fully dealt with in a report I am now preparing for the information of Government.

66. The result of the year may be briefly summarised as follows :—The gross cost per head is Rs. 92-0-0 against Rs. 96-11-6 in 1915 ; the net cost—exclusive of charges on account of inspection and general superintendence—per head Rs. 77-5-0 against Rs. 78-2-0 in 1915 ; the cash earnings Rs. 1,32,446 against Rs. 1,73,142. The death rate 17·4 against 14·0 in 1915.

67. During the year under report my office staff worked satisfactorily. The acting Head Accountant Mr. S. S. Barve has worked hard to get this report ready in time and the delay is due to the many references that had to be made to several Jails on account of inaccuracies or doubtful points in their reports and summaries.

I have the honour to be,

Sir,

Your most obedient servant,

J. JACKSON, M.B., Lt.-Col., I. M. S.,

Inspector General of Prisons,

Bombay Presidency

APPENDIX B.

Yerdoda Central Prison.—The quantity of condiments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. The quantity of condiments was reduced to 3 drs. on medical grounds for all other prisoners. Convict Overseers were given meat on Wednesdays along with convict Warders.

Ratnāgiri Prison.—The issue of Rice 1 lb. on Monday, Thursday and Saturday in lieu of bājri was continued throughout the year.

Common Prison.—Dāl, Toor, was issued 5 times a week, while Dāl, gram, was issued twice a week.

Deccan Gang.—One oz. of molasses were issued to every labouring prisoner with the morning canje excepting those sick prisoners who were on (d) diet.

Karāchi Prison.—Potatoes and onion were issued twice a week in lieu of vegetables.

Sind Gang.—
 Sunday } Wheat 12 ozs. Bājri 14 ozs.
 Monday }
 Tuesday }
 Thursday }
 Tuesday " 12 ozs. Jowari 14 ozs.
 Wednesday " 2 ozs. Bājri 1 lb. 12 ozs.
 Friday " 2 ozs. Jowari 1 lb. 12 ozs.
 Saturday " 12 ozs. Jowari 4 ozs. and Rice 12 ozs.
 Molasses one oz. on Monday and Thursday and 3 ozs. on Saturday.

From 1st April 1916 to 19th August 1916 chutney consisting of 1 oz. onions, 6 drs. molasses and 6 drs. tamarind was issued on every alternate day. The molasses for this chutney was utilised from the quantity sanctioned for Monday and Thursday and one ounce was deducted from 3 ozs. sanctioned for Saturday.

(a) This scale was in force in all the Subsidiary Jails except Wadhwan in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this statement for Native prisoners in District Prisons.

1 lb. bājri or jowari flour, 6 drs. salt and 1 lb. fire-wood.
