Do. D.—Showing the nature of the crimes for which convicts were imprisoned	82 to 97

No. 4949 of 1918.

INSPECTOR-GENERAL OF PRISONS' OFFICE,
Poona, 22nd April 1918.

From

LIEUT.-COLONEL J. JACKSON, C.I.E., M.B., I. M. S.,
Inspector-General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

Sir,

I have the honour to submit the Annual Administration Report, together with the usual Statistical Tables, on the Prisons and Jails in the Bombay Presidency including the Province of Sind and the Settlement of Aden, for the year 1917: I was on privilege leave from the 4th October until the 22nd December during which period Lieut.-Colonel F. H. G. Hutchinson, I. M. S., acted as Inspector-General of Prisons.

JUDICIAL.

2. The number of Central, District, Special and Extra-mural Prisons has undergone no change during the year under report. Statistics of the Third Class Subsidiary Jails have been grouped together with those of Lock-ups as in previous years.

3. From the general summary preceding the statements in the appendices to this report, it will be seen that the total population of all classes of prisoners confined in the Prisons, Subsidiary Jails, Lock-ups and Civil Jails has been 109,412 as compared with 109,611 in the year 1916, a decrease of 199. The daily average population has been 11,243, which shows a decrease of 941 when compared with the figures of the year previous.

4. The following table, which compares the figures of the past two years, Statement No., 1.—Number refers to the admission of convicts into Prisons and and disposal of convicts. Second Class Subsidiary Jails only:—

				1916.			1917.		
				Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year.	Prisons	...	...	10,040	297	10,337	9,391	281	9,672
	Jails	...	...	76	8	84	82	2	84
Impsoned during the year	Prisons	...	...	16,229	754	16,983	15,038	702	15,740
	Jails	...	...	322	43	365	306	32	338
Total	Prisons	...	...	26,269	1,051	27,320	24,429	983	25,412
	Jails	...	...	398	51	449	388	34	422
Grand Total				26,667	1,102	27,769	24,817	1,017	25,834
Daily average strength				10,168	295	10,463	9,084	288	9,372

5. The number of convicts admitted into Prisons and Second Class Subsidiary Jails has fallen. The decrease in admissions occurred at the Prisons of Yeránda, Bijápur, Dhárwár, Kárwár, Ratnágiri, Ahmedabad, Rájkot, Karáchi, Hyderabad, Sukkur, Shikárpur and Aden. The decrease is marked in Bijápur, Ratnágiri, Ahmedabad, Hyderabad, Sukkur and Shikárpur. The general cause assigned is high wages and good crops. At Bijápur the admissions under section 110, Criminal Procedure Code, dropped from 156 to 76.

The Jails showing an increase in admissions were the Common Prison, House of Correction, Dhulia, Deccan Gang and Thána. The increases, except at Thána and the House of Correction, are small and due to ordinary fluctuation.

The increase at His Majesty's House of Correction is dealt with under paragraph 7.

The increase at Thána is due to a greater number of convictions for theft throughout the district.

6. There is a decrease under the heads "Transferred to other Jails to undergo sentence," "Released on expiry of sentence," "Released under remission rules" and "Transferred to Lunatic Asylums." One thousand one hundred and seventy-five prisoners were released by order of Government as detailed below :—

Nineteen released on medical grounds—5 from Sabarmati, 4 from Sukkur, 2 each from Yeránda and Karáchi and 1 each from His Majesty's House of Correction, Bijápur, Thána, Hyderabad, Sind Gang and Aden.

One thousand one hundred and fifty-six released on other grounds—4 life transports who had completed 14 years' imprisonment; 1 life transport under Government Resolution, Judicial Department, No. 3968, dated 23rd June 1917; 3 life transports arrested for breaking conditions of release and subsequently released conditionally; 3 prisoners under Government Resolutions, Judicial Department, Nos. 1702 and 3954, dated 15th March and 22nd June 1917 respectively; 70 short-term prisoners to enable them to leave India by a certain steamer; 29 prisoners belonging to criminal tribes were released and sent to Criminal Tribe Settlements; 20 were released and sent to the Salvation Army Homes in Bombay; 1 prisoner was released under Government Resolution, Judicial Department, No. 1802, dated 20th March 1917; 1 prisoner was released and sent to the Prisoners' Aid Society in Bijápur; 2 female prisoners were released from the Common Prison and sent to the Bai Mothibai Hospital for their confinement; 1 leper female prisoner on account of want of accommodation; 1,021 prisoners—including 856 *en route* prisoners, Bengal 120, United Provinces 736—were conditionally released by Government on their volunteering for a Labour Corps in Mesopotamia.

One hundred and fifty-three life transports and 22 term transports were deported to the Andamans via Alipore against 101 life transports and 35 term transports in 1916.

There were 78 state prisoners in confinement in the Bombay Jails at the close of the year. These are almost entirely Turkish subjects and foreigners.

7. The heads "Europeans," "Buddhists and Jains" and "All other classes" show an increase of 143, 23 and 55 respectively; the headings "Mahomedans" and "Hindus and Sikhs" show a decrease of 1,077 and 412 respectively. The marked decrease in Mahomedans is due to the fall of admissions in the Sind Jails. The variations under other heads are slight and require no explanation. The admissions of Europeans in His Majesty's House of Correction in 1917 were 200 against 70 in 1916. The increase is principally due to offences under the Shipping Act.

The number of juveniles under 15 years of age admitted during the year 1917 was 20 against 12 in 1916. Out of 15 males and 5 females convicted, 8 males and 3 females were sentenced to "1 month and under," 2 males and

Statement No. II.—Religion, age, education and previous occupation of convicts.

1 female to "above 1 month and not exceeding 6 months" and 3 males and 1 female "over 6 months." Out of the 20, admitted, 8 males and 1 female were previously convicted. Of the total number of juveniles, 4 were sent to the Reformatory School by the order of the District Magistrate, 2 were released on appeal, 1 on furnishing security, 3 were not considered suitable cases for the Reformatory School, 1 female with a year's sentence was sent to Thana and 9 were released on expiry of sentence.

It is a pity that the number of juveniles imprisoned should show even the above small increase; of course, the number admitted, 20, is very small compared with the number a few years ago, but the subjoined table shows cases that could surely have been disposed of without resort to imprisonment:—

Name.	Sex.	Age.	Sentence	Offence.	Jail.
J. D.	Female	13	Fine Rs. 2 or 4 days' simple imprisonment.	Railway Act	Rajkot Prison.
T. R.	Male	10	Do.	Do.	Do.
D. H.	Male	12	15 days' rigorous imprisonment	Section 380, Indian Penal Code	Bijapur Prison.
K. G.	Female	12	8 days' simple imprisonment and fine Rs. 1 or 1 day's simple imprisonment.	Sections 454 and 380, Indian Penal Code.	Ratnagiri Prison.

The number of prisoners admitted under the main heads "15 years of age to 40," "40 to 60" and "above 40" show a decline of 946, 267 and 65 respectively. Under "Education" the heading "Able to read only" shows an increase of 28 while the remaining two heads show a decrease of 1,298. Under previous occupation the headings "Professional persons," "Persons engaged in commerce and trade" and "Persons employed in mechanical arts, etc.," show an increase of 285, 71 and 141 respectively while the others show a decrease. The returns under the heading "Professional persons" are not accurate and the figure should be much smaller. I am issuing directions on this point. All the heads under "Females" show decline. The percentage of the total number of males and females admitted to the free population according to the census of 1911 was 0.149 and .007 respectively.

8. There is an increase under the sub-head "Not exceeding one month" of 141. Practically all other sub-heads show a decrease due to less admissions. There were 767 prisoners sentenced to simple imprisonment, 15,174 sentenced to rigorous imprisonment and 10 to rigorous imprisonment with whipping as compared with 805, 16,345 and 12 in the previous year. The number of prisoners sentenced to rigorous imprisonment with solitary confinement was 127 against 186 in 1916, 236 in 1915 and 215 in 1914. Paucity of cellular accommodation interferes with the due execution of many of these sentences.

Three thousand seven hundred and ninety-four prisoners were sentenced to "Not exceeding one month" as compared with 3,653 in 1916. Of these, 1,603 were admitted to the Common Prison, Bombay, against 1,530 in 1916. I regret to note that these short sentences are increasing in Bombay. The number of prisoners sentenced in Bombay for 7 days and under in default of payment of fine is 297 against 370 in 1916. Two hundred and forty-two prisoners were sent to the Common Prison under substantive sentences of a week or less against 211 in 1916. Of these 242 prisoners, 80 were under 25 years of age. I will not repeat my remarks as to the uselessness of short sentences.

9. The statement noted in the margin deals with the re-convicted prisoners. The number of habituals (*vide* sub-joined statement) identified by Jail officials has been 119 against 61 in the year previous. The increase occurred at the Jails of Yeravda, Hyderabad and Common Prison,

Statement No. III.—Nature and length of sentence.

Statement No. IV.—Re-convictions.

Bombay. Two thousand and eighty-six were classified as habituals out of a total of 3,191 previously convicted prisoners. The statement does not include 1,056 prisoners sentenced under Chapter VIII, Criminal Procedure Code, of whom those under section 110, by the orders of Government, are always treated as habituals. The admissions in Sind under this heading from 1910 are as follows :—

1910	...	1,201	1914	...	765
1911	...	1,122	1915	...	651
1912	...	839	1916	...	672
1913	...	892	1917	...	613

The proper separation of habituals from first conviction prisoners is still impossible. More accommodation is urgently needed.

Serial No.	Jails.	Number admitted during the year.	Number in column 3 identified as "Habituals" before conviction and classified as such by the convicting Court.	Number in column 3 classified as "Habituals" by the District Magistrate or Magistrate specially empowered (not being the convicting Court).	Number in column 3 classified as "Habituals" by the Jail Superintendent.	Total "Habituals" admitted.	Ratio per cent of column 7 to column 3.
1	Common Prison	3,397	534		27	561	16.5

16	Shukárpur	472	15		1	16	3.4
17	Sind Gang	1	1			1	100.0
18	Aden	236	1		5	6	2.5
Total 1917		15,740	1,918	49	119	2,386	13.3
" 1916		16,983	2,277	86	61	2,424	14.3
" 1915		16,866	2,282	78	139	2,499	14.8

10. From the information supplied by the Inspector-General of Police it appears that 1,522 persons were identified as old offenders in the Bombay Presidency, inclusive of Sind, as compared with 1,503 in the year previous. Out of 1,522 prisoners, 123 were identified in Bombay, 206 each at Dhulia and Thána, 302 at Ahmedabad, 252 at Yeránda and the rest in other parts of the Presidency.

11. The number of escapes of convicted prisoners during the year under Statement No. V.—Escapes report from Prisons, Extra-mural Gangs and Second (convicted prisoners). Class Subsidiary Jails has been 15 against 8 in the previous year : four of which were from inside Jails and 11 from outside ; from inside 1 from Dhulia and 3 from Sukkur ; extra-murally 1 each from Dhulia, Deccan Gang, Hyderabad and Sukkur and 7 from the Sind Gang.

In addition 6 prisoners attempted to escape but were brought back by the Prison officials within a few hours.

The total number of re-captures during the year was 9. Four of these escaped in previous years and 5 escaped in 1917.

Of the 4 escapes from inside Jails one occurred at Dhulia and 3 from the Sukkur Prison.

The escape from Dhulia was due to (a) structural faults in the Prison which is a very old building, (b) gross carelessness on the part of warders and convict overseers. The structural fault has been remedied as far as possible and one warder was dismissed the service, two head warders fined and the convict overseers reduced.

The escape from Sukkur was a very bad one. The Jailor was ill and the Chief Head Warder and another Head Warder broke every rule they possibly could and were both dismissed the service. A night watchman—unduly trusted by an inefficient and careless Head Warder—proved faithless to his trust and engineered his own escape and that of two other long-term prisoners. The whole escape illustrates the constant danger in jails with warders and Head Warders of the present type—ignorant, lazy and corrupt.

Every single extra-mural escape was due to breach of standing orders by warders. Four warders were prosecuted and 3 were sentenced—1 to 6 months' simple imprisonment and a fine of Rs. 100 or 1 month's simple imprisonment, 1 to 4 months' simple imprisonment and fine of Rs. 50 or 3 weeks' simple imprisonment, 1 to 1 month's simple imprisonment and a fine of Rs. 25 or 8 days' simple imprisonment and 1 was acquitted ; the remainder were dealt with departmentally.

12. The statement noted in the margin relates to offences committed by, and the punishments awarded to, convicts in the Statement No. VI.—Offences Prisons and Second Class Subsidiary Jails. The and punishments. offences dealt with by the Criminal Courts show a decrease of 7 as compared with those of the year previous, as detailed in the subjoined statement. The decrease is due to Central Prison, Yeravda, showing 0 against 5 last year, Karachi 0 against 4, Hyderabad 2 against 6 :—

	1916.	1917.
<i>Section 52, Prisons Act.</i>		
Relating to work	11	9
Assault	2	1
Breach of discipline		3
<i>Indian Penal Code.</i>		
Attempt to escape and escaped	7	2
Attempt to commit suicide	2	
Total ...	22	15

13. The following table shows that the number of offences has decreased from 19,111 to 17,304, a decrease of 1,807, with an average population for the year of 9,372 against 10,463 in 1916. The number of offences dealt with by minor punishments has fallen from 12,816 in 1916 to 11,727 in 1917, the decrease being 1,089, while offences dealt with by punishments under the major heads have diminished from 6,295 in 1916 to 5,577 in the year under report, the decrease being 718.

Offences dealt with— By Criminal Courts	1916.		1917.	
	22		15	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents—				
Relating to work	6,623	2,900	5,706	2,624
Do. prohibited articles ...	1,481	733	1,630	750
Do. assaults, mutiny and escapes	51	211	56	197
All other breaches of Prison rules ...	4,662	2,451	4,335	2,006
Total	12,816	6,295	11,727	5,577

14. The following table shows the nature of punishments awarded during the past two years. It will be seen that the total number of major and minor punishments awarded by Superintendents during the year under report was 17,712 and the total number of offences 17,304. The difference is due to 408 offences having been dealt with during the year under report by the award of combined punishments.

Punishments inflicted— By Criminal Courts	1916.	1917.
	22	15
By Superintendents—		
Warnings	3,901	3,349
Penal diet	1,450	1,463
Separate, cellular and solitary confinement	124	154
Hand-cuffing and link fetters	3,281	3,085
Other punishments	4,214	3,884
Total	12,970	11,835
Separate, cellular and solitary confinement	258	201
Penal diet with solitary confinement	50	88
Fetters or hand-cuffing behind or to a staple	3,325	2,840
Corporal punishments	28	27
Combination of minor punishments	39	44
Other punishments	2,927	2,601
Total	6,632	5,877
Grand Total	19,602	17,712

15. Of the 17,712 punishments awarded by the Superintendents of Prisons and Jails, 11,835 or nearly 67 per cent belong to the minor and 5,877 or 33 per cent belong to the major class.

As in 1916 the difficulty, caused by insufficient cell accommodation, was accentuated by the class of prisoner admitted during the year.

The following Prisons show an increase in punishments :—

His Majesty's Common Prison (325), Dhárwār (413), Thāna (274), Bijāpur (495), His Majesty's House of Correction (194) and Yerāvda (70).

The increase at the Common Prison is explained by the Superintendent as due to better exaction of task and more punishments for breach of Jail rules.

The increase in Thána is partly due to increase in the daily average population from 437 to 482 and partly to reluctance to work on the part of prisoners who had volunteered for the Labour Corps in Mesopotamia.

The increase in Dhárwár is due to better exaction of tasks and some troublesome habituals.

The increase at His Majesty's House of Correction is due to a change in the executive staff.

The increase at the Central Prison, Yerávdá, is entirely due to an increase in the population.

Out of 17,304 offences, 3,260 habituals were responsible for 5,373 and 4,600 non-habituals for the balance of 11,931 offences. The percentage of habituals (including Section 110, Criminal Procedure Code) is 17·6 calculated on admission rates.

Altogether 6,860 prisoners were punished and the number who actually passed through the Prisons and Jails was 25,834. Many of these prisoners were only punished once; warnings formed 3,249 or about 18·9 per cent of the total number of punishments. No less than 2,036 punishments were inflicted on convict officers for neglect of their duties. These punishments are almost invariably a warning, forfeiture of remission, or of grade privileges for a time, or reduction.

16. The subjoined table furnishes details as to the number of stripes inflicted on convicts in the various Prisons during the year under report.

The total number of corporal punishments has increased from 23 in 1916 to 27 in 1917.

The total number of 27 floggings is accounted for as follows:—

His Majesty's Common Prison—one; assault of prisoner.

Central Prison, Yerávdá—one; assault on Superintendent and Deputy Jailor.

Dhárwár—two; assaulting a convict overseer.

Ratndgiri—three; one, assaulting another convict in a filthy manner; one, insubordination and foul abuse of jailor; one, abuse of another prisoner and malingering.

Thána—six; two for assault, two for persistent short work, one for absolutely refusing to work, one for persistent misbehaviour.

Central Prison, Sábarmati—three; persistent short work and refusing to do any work.

Rájkot—two; persistent short work and absolutely refusing to work.

Karáchi—three; two, assault of convict officers; one, persistent short work.

Hyderabad—four; two for assault, one, persistent short work, one, persistent short work and wilfully smashing his *chdki*.

Shikárpur—one, assault.

Aden—one, assault.

Of the 27 prisoners flogged 11 were habituals. Only 3 prisoners were flogged for a first offence. In two cases for aggravated assault—one on a warder and one on another prisoner. In one case for absolutely refusing to work after warning of the consequence. This man was a volunteer for the Labour Corps in Mesopotamia. He adopted the attitude that having volunteered he would only do such work as he liked. There had been a good deal of this kind of thing among these prisoners collected at Thána and he was given 15 stripes, not only for his own offence but a warning to others.

The floggings are the lowest recorded except in 1916. Other punishments might possibly have been substituted in three cases; in all the rest the flogging was thoroughly deserved.

	1 Total number of male prisoners for the year.	2 Total number of prison offences.	3 Total number of prisoners punished by whipping.						4 Percentage of column 3 to column 1.	5 Percentage of column 3 to column 2.	6 Number of prisoners in whose case (a) death or (b) illness was directly or indirectly the effect of corporal punishment

Total 1916	26,343	14,974	...	4	8	6	6	23	01	02	...	...	...

17. During the year 7,939 prisoners were fettered as compared with 8,764 in 1916; mostly prisoners employed extra-murally with light fetters—in many cases a single fetter and ankle ring. The Deccan Gang shows 3,017 and the Sind Gang 1,020.

REMISSION SYSTEM.

18. It will be seen from the figures appearing in Statement C appended to this report that 2,785 prisoners were released during the year under the remission system as compared with 3,236 in the year previous. The percentage during the year 1917 of those released under the remission system to the total number who might have been released under that system, if of average good conduct upto the date of release, was 97.9 in 1917 against 97.0 in 1916. The practice of mustering prisoners and reading and explaining to them the benefits of the remission rules has been continued. Special awards under rules 514 and 519, remission for committing no offence during the previous 12 months and for doing special work were granted to 1,853 and 2,048 prisoners respectively against 2,044 and 2,259 in the year previous.

The practice of promoting prisoners under sentence of one year, in the absence of suitable long-term prisoners, was adopted in all Prisons and found to work satisfactorily.

19. The average number employed as prison officers during the year under report in Prisons and Second Class Sub-sidiary Jails was 1,055 males and 14 females, the same number as in 1916.

20. The statement noted in the margin shows the different diet scales in Prisons and Second Class Subsidiary Jails. These scales have been found to work satisfactorily. The last column of the statement shows the extra ration and alterations in the diet scale which were adopted as necessary in some of the Jails.

21. The statistics of under-trial prisoners confined in Prisons, Jails and Lock-ups are embodied in the marginally noted statement. The number admitted during the year under report shows an increase of 1,698 over the figure for the year previous. The daily average strength rose from 1,661 in 1916 to 1,811 in the year under report. Fifteen thousand nine hundred and one under-trials were acquitted against 14,708 in 1916.

22. The instances in which adolescents or juveniles were detained as under-trials for prolonged periods are less numerous than in previous years except in 1916. The subjoined list contains some such cases:—

Name.	Age	Offence.	Date of admission.	Date of disposal of the case.	Result of trial.	By whom tried.	Length of detention.
D T	12	Sections 398, 399, 114, Indian Penal Code.	25th September 1917	31st November 1917	Convicted	Chief Presidency Magistrate, Bombay	M. d. 1 28
M M.	12	Section 240, Indian Penal Code.	5th February 1917.	26th March 1917.	Acquitted	First Class Magistrate, Dhulia City.	1, 20
N B.	16	Sections 302, 111, 114, Indian Penal Code	29th September 1917.	14th December 1917.	Do	First Class Magistrate, Dhulka Prant	2 16
C. D.	14	Sections 380, 411, Indian Penal Code.	5th February 1917.	16th June 1917.	Convicted	Honorary First Class Magistrate, Ahmedabad	4 11
V B.	13	Do.	Do.	Do.	Do	Do.	4 11
M. D.	13	Section 54 (4), Criminal Procedure Code.	14th July 1917.	15th August 1917.	Released	First, Class Magistrate, Hala.	1 2
M S	17	Sections 454, 380, Indian Penal Code.	9th March 1917.	26th April 1917.	Acquitted	Sessions Judge, Hyderabad	1 19
J K.	15	Section 376, Indian Penal Code.	9th June 1917	16th October 1917.	20 stripes	Additional Sessions Judge, Hyderabad.	4 6
J. K.	16	Section 377, Indian Penal Code.	24th September 1917.	12th December 1917.	Acquitted	Sub-Divisional Magistrate, Hala.	2 12
B J	16	Section 379, Indian Penal Code.	26th August 1917	5th October 1917	20 stripes	City Magistrate, Shikarpur	1 10
U J.	8	Do.	12th July 1917	12th September 1917	Acquitted	First Class Magistrate Jhalawad	0 16
C P	16	Section 380, Indian Penal Code.	23th August 1917	23th September 1917.	Convicted and sentenced to suffer 8 days' rigorous imprisonment	Cantonment First Class Magistrate, Deesa.	1 0
D kom B.	16	Sections 454, 380, Indian Penal Code.	15th October 1917.	23th November 1917	Convicted	Second Class Magistrate, Alibag.	1 15

23. Nineteen under-trial prisoners escaped in 1917 against 48 in 1916. Of these escapes, one each took place from the Subsidiary Jails and Lock-ups in Ahmednagar, Broach, Dhárwár, Bombay, Kánara, Karáchi, Panchmaháls and Násik District; two each in the districts of Ahmedabad and Hyderabad; three in the Bijápur District and four in the Sátára District.

24. The number of deaths of under-trial prisoners show an increase of ten on the figure for the year previous. Out of 36 deaths 3 occurred in Prisons and 33 in Third Class Subsidiary Jails and Lock-ups. Of the 33 deaths in Subsidiary Jails one each was due to cholera, contused lacerated wound, drowning, remittent fever, Bright's disease, diarrhoea, gun-shot wound, smallpox, carbuncle of face, ulceration of colon and heart failure; two each to suicide, dysentery and tuberculosis; three to septicæmia and pneumonia and ten to plague. It is worth noting that there were ten deaths from plague in these small Jails where inoculation cannot well be carried out and only one death from the same disease in all Central and District Jails, Extra-mural Gangs and Second Class Subsidiary Jails where inoculation was resorted to.

25. The number of under-trials remaining on 31st December 1917 was 283 males and 5 females in Prisons, 61 males in Second Class Subsidiary Jails 1,351 males and 63 females in Third Class Subsidiary Jails and Lock-ups, thus making a total of 1,695 males and 68 females.

26. In the beginning of 1917 there were 73 males in the Civil Jails. The number admitted during the year was 1,092 males; 1,111 males were released and the balance at the close of the year under report was 54 males. The daily average number has been 60 against the same number in 1916. The total cost and cost per head have respectively been Rs. 5,826-5-4 and Rs. 97-1-8

during the year under report as against Rs. 4,657-5-9 and Rs. 77-10-0 in the year 1916. This amount is exclusive of ration charges which are borne by the creditor.

FINANCIAL.

27. The statements noted in the margin deal with the gross expenditure on account of convicted and under-trial prisoners confined in the Central, District and Extra-mural Prisons, Subsidiary Jails and Lock-ups. Statement No. IX includes charges for inspection and general superintendence. The cost of police guards has been omitted as usual, except in the case of the Central Prisons of Yerávdá and Ahmedabad and the Special Prison, Thána, where the guarding is undertaken by the reserve armed warder guard. As the account system of the Yerávdá Prison Press has been changed and based on "Unit Cost" system since January 1st, 1913, under orders of Government conveyed in Government Resolution, Judicial Department, No. 1545, dated the 27th February 1913, the expenditure on account of that institution has been omitted from these statistics. The realization from the sale-proceeds of garden produce has been deducted from the total charges. The gross expenditure during the year 1917 has been Rs. 10,79,874 and the cost per head Rs. 96-9-0 against Rs. 11,15,429 and Rs. 92-0-0 in the year previous.

28. The total cost and cost per head under this head have increased from Rs. 3,27,270 and Rs. 26-15-11 in the year 1916 to Rs. 3,40,316 and Rs. 30-6-11 in the year under report. The increase is due to (1) no pay was drawn in the year 1916 for the post of the Superintendent, Central Prison, Yerávdá, from February to July inclusive, (2) increment to pay of present Superintendent, (3) carriage allowance for the officiating Superintendent for 6 months in 1916 drawn in 1917, (4) increments to pay of Superintendent, blacksmith, Gujaráti School Master and máli at the Juvenile Jail, Dhárwár, (5) local allowance to the warder staff at Thána, (6) grain compensation allowance and (7) allowances paid to warders on detachments from Sind Gang.

29. The total cost under this heading has fallen from Rs. 5,44,761 in the year 1916 to Rs. 4,88,360 in the year under report and also the cost per head from Rs. 44-14-11 to Rs. 43-10-8. The decrease is due to a smaller number of prisoners and to favourable contract rates at the Common Prison, House of Correction, Deccan Gang, Dhárwár, Ratnágiri, Central Prison, Sábarmati, and Rájkot.

30. The value of vegetables and other supplies from the gardens attached to Prisons and Jails shows an increase of Rs. 493 as compared with the figure for the year previous, the amounts being Rs. 31,036 in 1917 against Rs. 30,543 in 1916.

The Jails of Yerávdá, Dhulia, Bijápur, Thána, Karáchi and Sind Gang show an aggregate increase of Rs. 3,500 and the remaining Jails show a decrease to the extent of Rs. 3,000. Extension of the gardens at Bijápur and Sind Gang and the increase of Rs. 1,211 in 1917, as compared with 1916 at the Karáchi Prison, reflect credit on the Superintendents and Jailors of those Jails. The decrease at the Deccan Gang and Shikárpur is due to less number of prisoners. The garden work at the Belgaum Subsidiary Jail had to be stopped from 18th June 1917 owing to the difficulty of guarding the prisoners.

31. The total cost and cost per head have increased from Rs. 37,633 and Rs. 3-1-8 in the year 1916 to Rs. 44,999 and Rs. 4-0-4 in the year under report. The increase is due to (a) adjustments for medicines for 1916 made in 1917, (b) an unhealthy year leading to greater issue of extras and (c) increased cost of medicines and surgical appliances.

32. The total cost and cost per head have decreased from Rs. 59,009 and Rs. 4-13-10 in 1916 to Rs. 56,014 and Rs. 5-0-2 in the year under report. The decrease is due to (a) smaller population and (b) strict economy and less issue of blankets in some Jails, cotton sheets being substituted for blankets in the hot weather.

33. The expenditure under this head shows a decrease of Rs. 2,504 when compared with the figure of the last year, the figure for the year 1917 being Rs. 27,939 against Rs. 30,443 in the year previous. The decrease is due to (a) the full municipal halálkhor charges were not paid by the Common Prison in 1917, (b) less consumption of water at the Central Prison, Yerávdá, the pumps being badly out of order, (c) Dhulia did not pay the vaccination and water supply charges in 1917, bills not being received and (d) no expenditure for cholera at Sábarmati during the year.

Charges for moving prisoners. 34. The total cost has been Rs. 50,733 in the year under report against Rs. 52,830 in 1916. The decrease of Rs. 2,097 is due to decreased number of transfers.

Charges for miscellaneous services and supplies. 35. The total cost and cost per head have increased from Rs. 41,342 and Rs. 3-6-7 in the year 1916 to Rs. 50,086 and Rs. 4-7-8 in the year under report. The increase is due to (a) lighting charges—higher rate of kerosine oil, (b) increase in biennial supply of uniforms—this is an accidental variation and (c) charges for detenus and expenses incurred for the Jail stall at the Bombay Exhibition.

36. The total cost and cost per head have increased from Rs. 5,095 and Re. 0-6-8 to Rs. 5,171 and Re. 0-7-3. The difference is only Rs. 76-0-0.

Contingencies. 37. The total cost and cost per head have fallen from Rs. 13,896 and Re. 1-2-4 in the year 1916 to Rs. 10,844 and Re. 0-15-6 in the year under report. The decrease is chiefly due to less charges on account of printing and binding for the department, being Rs. 1,740 as against Rs. 4,742 in 1916.

Extraordinary charges for live-stock, tools and plant. 38. This head shows an increase of Rs. 2,262, the figures being Rs. 5,412 and Re. 0-7-9 in 1917 against Rs. 3,150 and Re. 0-4-2 in 1916. Expenses under this head were cut down as much as possible in 1915 and 1916. In 1917 expenditure had to be incurred, especially with regard to dietary dead-stock.

Statement No. XI.—Employment of convicts. 39. The statement noted in the margin deals with the employment of convicts in Prisons and Second Class Subsidiary Jails. It will be seen that the total number of prisoners sentenced to labour has fallen from 10,323 in 1916 to 9,218 in the year under report. The cause of decrease is due to the decrease of the average population in 1917 as compared with that of 1916.

Statement No. XII.—Net cash earnings. 40. The marginally noted statement deals with the net cash earnings of convicts sentenced to labour. The cash earnings have declined from Rs. 1,32,446 in the year 1916 to Rs. 1,20,018 in the year under report. The Prisons of Yerávdá, Dhulia, Deccan Gang, Dhárwár, Kárwar, Thána, Sábarmati, Hyderabad, Sukkur, Shikárpur and Aden show a decline.

One factor influences the decline in all Jails, except Extra-mural Gangs, namely, the great increase in price of all raw material.

The Central Prison, Yerávdá, shows a loss of Rs. 19,973 against a profit last year of Rs. 4,103, i. e., a total diminution of Rs. 24,076.

Separating the industry of the Jail under three headings—factory, manufacture of quinine powders and extra-mural—we find that the pure factory profits in 1916 were Rs. 2,454 against a minus figure of Rs. 3,274 in 1917. But there is a marked increase of manufactured articles (Rs. 3,845) and raw material (Rs. 5,074) in hand: so the loss here is only apparent and not a real one.

Coming to quinine, we find a minus figure of Rs. 30,448 against a profit of Rs. 588. This is entirely due to the enormous increase in the cost of quinine; the powders being sold at the rate originally fixed when quinine was much cheaper.

The extra-mural profits are Rs. 13,749 against a figure of Rs. 938 in 1916.

Dhulia District Prison shows a profit of Rs. 5,173 against Rs. 6,734 in 1916. The decrease of Rs. 1,562 is due to (a) higher cost of raw materials, (b) larger outstandings due to Jail and (c) more raw material on hand.

Dhárwár.—Shows a decrease of Rs. 1,662, due to purchase of teak and black-wood during the year. There is an increased balance of planks in hand.

Kárwár.—The decrease of Rs. 834 is due to (a) fewer prisoners available for work, (b) reduced yield of cocoanuts from plantations and (c) increased stock of manufactured articles.

Thána.—A decrease of Rs. 1,783. The factory at Thána has practically ceased to exist. It is now a Depot Jail for various classes of prisoners many of whom are merely *en route*.

Sábarmati.—The decrease of Rs. 15,857 is due to the enhanced rates of twist. Contracts, undertaken when the twist was at a low price, had to be carried out when the price had risen greatly. These contracts were for the Military or Government Departments. Moreover, with regard to ordinary sales the profit on labour was naturally reduced by the high price of raw materials. There is also a very much larger stock of raw material in hand—Rs. 10,759. This was purchased in anticipation of a further rise and was justified.

Hyderabad.—A decrease of Rs. 1,608 due to paucity of orders owing to the great rise in cost of raw material; increased stock of raw material—Rs. 913—and larger outstandings due to Jail at close of year—Rs. 600.

Sukkur.—The decrease of Rs. 873 can be accounted for by (a) manufactured articles in stock, an increase of Rs. 993, (b) greater stock of raw material—Rs. 1,524 and (c) more outstandings due to Jail at close of year—Rs. 617.

Shikarpur.—Rs. 1,243 less profit; no prisoners available for extra-mural work.

Aden.—A fall of Rs. 1,199. No extra-mural work this year. The actual factory profits increased, the Press doing a great deal of work.

Deccan Gang.—A decrease of Rs. 23,220. An average population of 1,099 as against 1,791 in 1916.

The Jail of Bijápur has done much better, showing an increase of Rs. 3,807. Metal breaking accounts for Rs. 1,000. Karachi has also done well with an increase of Rs. 3,489, principally due to large orders for cot tape. The small Jail of Ratnágiri has shown an increase of Rs. 1,784 which is very creditable in so small a Jail. The profits of the Sind Gang have increased from Rs. 4,582 to Rs. 56,664. I deal with this in a subsequent paragraph.

41. Of the sum of Rs. 1,20,018 mentioned at the commencement of the last paragraph, the sum of Rs. 9,903 represents the profits of Prison factories, Rs. 165 of Second Class Subsidiary Jails and Rs. 1,09,950 of extra-mural labour. The average cash earnings per head of those sentenced to labour and of those employed on manufactures in the case of Prisons and Second Class Subsidiary Jails have been Rs. 13 and Rs. 35-3-0 as against Rs. 12-13-0 and Rs. 33-10-0 in the year previous.

42. During the year under report Jail-made articles of the value of Rs. 60,603 were sold to Government Departments and war hospitals, as detailed below, against Rs. 29,900 in the year previous:—

			Rs
Public Works Department	...	...	5,375
Police Department	...	...	10,882
Telegraph Department	...	...	1,019
Other Civil Departments	...	...	15,463
Marine Department	...	...	6,411
Military Department	...	...	6,443

The Dhárwár Jail made articles for the use of war hospitals to the amount of Rs. 1,054; the Central Prison, Yeránda, for the same purpose Rs. 7,161; His Majesty's House of Correction Rs. 727 and Sábarmati Rs. 5,821.

43. The Gang remained at Visapur in the Ahmednagar District throughout the year. With an average of 1,089 prisoners sentenced to labour, the earnings amount to Rs. 37,534 against Rs. 60,754 in 1916 when the average number of labouring prisoners was 1,788. The decrease is due to a smaller number of prisoners on the work. The general health of the prisoners was quite satisfactory. The Superintendent, Mr. C. N. Hall, I.S.O., and the Medical Officer, Dr. T. M. Vakil, were untiring in the supervision of the labour and health of the prisoners.

44. This Gang was at Ganja Takar near Hyderabad (Sind) during the whole year. It earned Rs. 56,664 with an average population of 750 labouring prisoners as against Rs. 4,582 with 755 prisoners in the year 1916. The work thrown on the Superintendent—Assistant Surgeon, Contractor—and the executive and medical staff of the gang was very heavy during the year. This was due to the detachments sent from the gang to carry out various urgent works.

At the request of the Embarkation Authorities at Karachi a gang (average strength 134) was sent to Kiamari to load and unload coal. This gang earned Rs. 20,661.

Other detachments were employed on dismantling the Hyderabad Badin Railway, repairing railway bunds, loading and unloading for railway, canal clearance, digging for military authorities in Hyderabad and earthwork for Municipality. As anticipated last year the profits have shown a great increase.

45. An extramural detachment from the Sind Gang (average strength 134) worked at Kiamari loading and unloading coal for the military authorities; another gang from Yeravda Prison (average strength 120) worked at the Kirkee Arsenal. A small gang at Hyderabad was employed on digging work for the military authorities. The earnings of these three gangs were Rs. 20,661, Rs. 13,808 and Rs. 2,552 respectively. Ordinary wage rates were charged, not the inflated market rate.

46. The quinine industry in the Central Prisons of Yeravda and Hyderabad showed a loss of Rs. 37,894 during the year under report against a loss of Rs. 110 in the year previous. The Yeravda Central Prison shows the loss of Rs. 33,983, while the Hyderabad Central Prison shows loss of Rs. 3,911. The loss in both the Jails is due to the greatly enhanced price of quinine.

The value of quinine purchased, packing materials, service stamps and establishment charges amounted to Rs. 65,897 during the year under report against Rs. 31,111 in 1916 and the amount paid into the Treasury was Rs. 28,002 in 1917 against Rs. 31,002 in the year previous.

In the month of November owing to the steadily advancing rate of quinine the price per powder was raised from 1 pice to 2 pice as per Government Resolution, General Department, No. 7660, dated 1st November 1917.

Quinine treatments of the value of Rs. 26,237 were this year received and all—except 1,756 parcels—were distributed. The cost of packing and postage charges amounted to Rs. 219. As the purchase price of each parcel of 10 tubes (each tube contains 20 tablets) varied from Rs. 3 to Rs. 4-4-0 and the selling rate from Rs. 1-7-0 to Rs. 3, the transaction resulted in a loss of Rs. 12,904 against a similar loss of 13,608 last year.

47. The subjoined statement compares the outturn of the Yeravda Prison Press in the years of 1916 and 1917. The number of prisoners employed in 1917 was 267 against 236 in the year previous and the cost of their maintenance was Rs. 23,731 at the average cost of Rs. 88-14-1 per prisoner.

As pointed out in paragraph 46 of the Annual Report for 1912, Government were satisfied on expert investigation that the Yeravda Press was a paying concern. As the Controller of Government Printing said "the results were distinctly creditable to Yeravda and afford full justification (if it were otherwise needed) for the maintenance of the Prison Press."

On the introduction of the "Unit Cost System" the so-called profits of the press disappeared and of course there was a heavy drop in total profits

showed. For example in 1911 the press profit was shown at Rs. 1,21,478 and in 1910 at Rs. 98,188.

As the Jail Department credits nothing to profits from press work, except in so far that it is known that the prisoners are doing excellent work and to the advantage of Government, I have this year made a note on statement No. 13 which makes it clear why the average earning per prisoner at the Yeravda Prison is so low a figure.

Comparative Abstract of Outturn during 1916 and 1917:

Main Section.	Units.	Outturn.	
		1916.	1917.
1. Composing	Pages (Foolscap Folio, Solid Pica)	22,112-23	19,980
2. Stereo Foundry	lb. (Finished Plates)	8,838-10	8,501
3. Machines	Impressions (Foolscap)	4,35,64,981	5,85,36,000
4. Hand Presses	Do. do.	8,04,013	8,97,000
5. Hand Sewing	Sections, Foolscap Folio	1,11,091	1,36,000
6. Machine Sewing	Do. do.	2,55,054	6,26,000
7. Casing in	Books, Half Bound Foolscap Folio, 100 leaves.	55,121	73,330
8. Rubbing	Impressions (Foolscap)	1,96,41,850	2,22,12,000
9. Paging	Do. do.	68,30,721	1,49,62,000
10. Perforating	Cuts	13,68,888	13,30,000
11. Folding	Foolscap Folio, single folds	55,20,305	68,20,000
12. Collating	Do. do.	77,79,570	1,65,71,000
13. Wire-stitching	Stitches	11,91,374	18,98,000
14. Insetting	Insets	24,65,074	28,34,000
15. Eyeletting	Eyelets	6,36,390	10,02,000
16. Envelope-making	Foolscap Thin Envelopes	1,51,47,891	1,63,53,000
17. Miscellaneous Productive	Hours	1,439-15	1,986

48. The statement noted in the margin shows the total cost of maintenance for all prisons, subsidiary jails and Lock-ups. Statement No. XIII.—Net cost. The total expenditure, excluding charges for inspection and general superintendence, has amounted to Rs. 10,38,969 during 1917 against Rs. 10,70,057 in 1916. The total cash earnings have been Rs. 1,20,018-11-0 in 1917 against Rs. 1,32,446-6-0 in the year previous, thus making a net cost to Government of Rs. 9,18,950-5-0 during the year under report against Rs. 9,37,610-10-0 in the year 1916. The average net cost to Government per prisoner has been Rs. 82-2-0 against Rs. 77-5-0 in the year previous.

VITAL.

49. The statement noted in the margin deals with the sickness and mortality of all classes during the year under report. Statement No. XIV.—Sickness and Mortality. The following table compares the figures for 1916-1917 of prisoners confined in the Central District, Special and Extramural Prisons, Subsidiary Jails, Civil Jails and Lock-ups:—

Year.	Daily average strength.	Admission into Hospital.	Daily average sick.	Total No. of deaths.	Ratio of deaths per mille.
1916	12,184	6,932	249 8	213	17 4
1917	11,239	8,326	281 8	210	18 7

50. The death rate for the year is 18·7 against 17·4 in 1916. An outbreak of virulent pneumonia in the Sind Gang and the Central Prison, Hyderabad, is responsible for the increased death rate. Had the death incidence of pneumonia in these Jails been even at the unsatisfactory level of last year the death rate would have been 17·1.

The daily average sick has risen from 249·3 to 281·3. The increase is chiefly due to admissions for malaria. Hyderabad Central Prison is the chief contributor to the increase in admission both for malaria and generally.

Of the 177 prisoners who died in Central and District Prisons and Extramural Gangs, 50 were admitted in bad health, of whom 22 were suffering from the disease from which they ultimately died, 32 in fair health and 95 in good health.

51. One case of plague occurred in the Central Prison, Hyderabad, he was not inoculated and died. The disease was contracted in the Prison. All the prisoners were inoculated and no further cases occurred.

Owing to the prevalence of plague in the vicinity or surrounding districts from which prisoners came inoculation was carried out in the Prisons of Aden, Common Prison, House of Correction, Dhulia, Deccan Gang, Bijapur, Ratnagiri, Thana, Sabarmati, Hyderabad, Shikarpur and Yeravda.

Dead rats were found in the quarters of the staff at Sabarmati. Three warders got plague. Two were inoculated, one returning from leave, not inoculated. All recovered. Dead rats were found in the Jails of Bijapur and Ratnagiri. The plague in Ahmedabad and the surrounding districts was of a virulent type, it spread to the villages around the Jail. The Prison staff and prisoners were all inoculated with most satisfactory results. One hears the ignorant layman or the anti-everything crank talking about the evil effects of inoculation. It is perhaps worth while to reiterate that such a statement is devoid of any foundation. Eleven thousand seven hundred and seventy-seven prisoners were inoculated, the only bad result reported is that one prisoner could not work for 5 days owing to strong local reaction, which means he had a painful arm. The death rate of the Bombay Jails has decreased coincidently with the general use of inoculation.

Some of the healthiest Jails this year resorted to inoculation for plague *viz.*, Aden, Common Prison, House of Correction, Dhulia, Bijapur, Ratnagiri and Shikarpur. Sabarmati is only a little over what I regard as a fair death rate, *viz.*, 15 per mille. And the Sind Gang, where there was no inoculation, heads the death rate. Inoculation has no ill effect whatever, and it is truly pitiable to see the criminal passing unscathed through years of epidemic plague solely because they are protected by that inoculation which the free population through ignorance or perversity refuses to accept.

52. The following Jails were overcrowded throughout the year. His Majesty's Common Prison, Bijapur, Central Prison, Sabarmati, Central Prison, Yeravda, Rajkot, Karachi, Sukkur and Hyderabad Central Prison.

From June to October Dhulia; for 107 days, Dharwar; among undertrials the Special Prison, Thana.

Overcrowding was relieved by drafting, the use of tents, verandahs and unused worksheds.

53. I comment in detail on the death rate of the following Prisons in which the death rate exceeded 15 per mille.

Sabarmati.—Death rate 15·7 per mille. The general health of the prisoners was excellent. Out of the total of 19 deaths, 8 were classed in bad health on admission to the Jail. Four of the prisoners who died from tuberculosis were admitted suffering from the disease. A fifth case had a history of chronic bronchitis for two years before he came to Jail and the *post mortem* showed old chronic disease. Of the 19 deaths, 6 were due to pneumonia, 6 to tuberculosis, 2 to enteric fever (diagnosis not confirmed bacteriologically), 1 to acute pleurisy, 1 to chronic bronchitis, 1 to pyæmia, 1 to dysentery and 1 to chronic appendicitis.

Sukkur.—Death rate 15·7 per mille. Of the 8 deaths, only 2 were admitted in good health. Of the deaths 2 were due to malaria, 1 to tuberculosis, 2 to heart disease, 1 to pleuro pneumonia, 1 to cirrhosis of liver, and 1 to septicæmia.

Deccan Gang.—Death rate 23·7 per mille. It must be remembered that this extramural gang receives prisoners directly from the Sholapur and Ahmednagar Districts; it no longer therefore consists of a selected body of men. Moreover, in order to relieve congestion of other Prisons drafts are no longer confined to prisoners classed for hard labour; medium class men are sent who are put on light work. The total number of deaths was 26.

Five died of tuberculosis of lungs, 3 were admitted suffering from the disease. Eight died of pneumonia or broncho-pneumonia; of these 3 came into Jail suffering from enlarged spleens and malarial cachexia. One died of syncope,

classed "old and infirm" on admission, put on no work. One died of adherent pericardium, classed "old" on admission, no task. One died of syphilis and, though classed "good" on admission, I think it will be conceded that the disease he died of was not due to Jail life or conditions. One died of angina pectoris, classed "old" on admission, no labour. One of heart disease classed "fair" on admission, put on light labour. One died of dysentery, classed "bad" on admission. One died of pyrexia of uncertain origin, 1 enteritis, 1 enteric fever, 1 pericarditis, 1 diarrhoea, 1 angina pectoris, 1 acute pyæmia.

Looking to the above I think it is clear that the Deccan Gang was a healthy Jail and its sick and death rate reflects credit on Dr. T. M. Vakil, the Medical Officer, and on the medical subordinate staff.

Hyderabad Central Prison.—Death rate 36·2 per mille. It was an exceedingly bad year for malaria in Sind. All classes of the free population suffered severely. There were 838 admissions for malaria, malarial cachexia and pernicious malaria and 1 death due to pernicious malaria. The dose of quinine given as a prophylactic was not large enough and, judging from the other work of the Sub-Assistant Surgeons attached to this Prison, in all probability even this dose was not given regularly. Hyderabad is the one Jail in the Presidency and Sind where quinine prophylaxis broke down. Up to the beginning of November the Prison kept fairly healthy. The total number of deaths to November 1st being 12, in November and December 22 prisoners died.

Taking the first period, the deaths were due to 1 ulcerative colitis admitted in bad health and taken into hospital the day after admission to the Jail; 1 admitted in fair health, pernicious malaria; 1 admitted in fair health, plague; 1 admitted in fair health, laryngitis; 1 tuberculosis of lungs, admitted suffering from the disease; 1 admitted in good health, anthrax; 1 admitted suffering from the disease, tabes mesenterica; 1 murdered by another convict; 4 pneumonia, 1 admitted in good health, 1 bad, 2 fair.

Turning to the second period, of the 22 deaths 17 were due to pneumonia; of these 3 were admitted in fair health and 5 in bad health. The details of this outbreak are alluded to in greater detail below. The remaining deaths were due to 1 fatty heart, admitted in bad health; 1 fibroid phthisis, 1 heart disease, 1 dilatation of heart, admitted in bad health; 1 ulcerative colitis admitted in fair health.

The work of the Sub-Assistant Surgeons, judging from what I saw on my inspection and from what the medical officer said to me, was as bad as it could be throughout the year.

Sind Gang.—Death rate 52·0 per mille. Thirty-nine deaths, of these 23 were due to pneumonia, 4 dysentery, 2 diarrhoea, 3 malaria, 1 Bright's disease, 2 cellulitis, 1 sunstroke, 1 epilepsy, 1 chronic nephritis, 1 accidental drowning.

The whole mortality turns on the pneumonia. The sleeping barracks are being rebuilt, pukka brick flooring is being put in. A separate hospital for pneumonia is being built, the old one collapsed owing to rain and kalar earth in the bricks; arrangements are being made for the segregation of all pneumonia convalescents, and I hope to be able to arrange for pneumonia prophylactic vaccine on a large scale this year if the Parel Bacteriological Laboratory is able to help me. I have also made improved arrangements for change of clothing after heavy work and an earlier evening meal in the cold weather. Both here and in the Central Prison I believe the pneumonia to be of an infectious type and there are probably carriers.

54. The health of the Karachi District Prison 14·9, Bijapur District Prison 14·3, Dharwar Juvenile Jail 11·6, Rajkot 11·9, Thana Special Prison 11·4, Yeravda Central Prison 10·4, His Majesty's Common Prison 9·2, Shikarpur Special Prison 8·5, His Majesty's House of Correction 6·1, Dhulia District Prison 2·3, Aden Special Prison nil, Karwar nil, Ratnagiri nil, has been satisfactory.

55. The following methods were adopted during the year under report with a view to improve the health of the prisoners confined in our Prisons

and Jails and are inserted here in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115, dated 29th December, 1896 :—

- (1) Issue of wheat and rice in lieu of bajri and jowari in certain cases.
- (2) Issue of 2 ounces extra flour and one ounce of molasses to working prisoners in the Deccan Gang.
- (3) Issue of wheat in lieu of bajri and jowari at the Sind Gang and anti-scorbutic chatni in the hot weather.
- (4) Issue of extra rations to weakly prisoners and convalescents.
- (5) Issue of quinine as a prophylactic.
- (6) Issue of potatoes and onions in lieu of green vegetables.
- (7) Issue of extra warm clothing when considered necessary.
- (8) Inoculation with plague prophylactic serum.

56. In Subsidiary Jails and Lock-ups, the population has risen from 71,968 in 1916 to 73,606 in the year under report.

The daily average strength, number of admissions into hospital, and daily average sick have been, respectively, 1,569, 1,688 and 26·2 against 1,362, 1,199 and 16·9 in 1916. The number of deaths was 33 against 24 in 1916 and the death rate per mille 23·0 as against 17·6 in 1916.

57. The marginally noted statement shows the diseases chiefly responsible for sick admissions and deaths among convicted prisoners.
Statement No XV..

There were 2 cases of cholera at the Dharwar Juvenile Jail and 1 death. The first case probably drank contaminated water when on extramural work. There was cholera in a village close to where he worked. He drank this water against orders. There was no connection between the first and second case.

Dysentery.—An increase of 68 cases and 11 deaths as against 9 in 1916. The increase is due to Common Prison 19, House of Correction 15, Central Prison Yeravda 50, Central Prison, Hyderabad, 54, and Sind Gang 36.

Malaria.—An increase of 467 cases. The increase is entirely due to the Central Prison, Hyderabad, with 838 admissions against 183 in the previous year.

Pyrexia of uncertain origin shows 29 admissions and 1 death against 43 admissions and deaths nil in 1916.

Quinine was given as a prophylactic measure at the Common Prison, House of Correction, Deccan Gang, Ratnagiri, Central Prison, Sabarmati, Central Prison, Hyderabad, Central Prison, Yeravda, Karachi, Sukkur, Shikarpur and Sind Gang. At the Prisons of Dhulia, Bijapur and Karwar all cases of enlarged spleen got 10 grains of quinine twice weekly. Quinine prophylaxis was successful in all Jails except at Hyderabad where the dose was too small and where, I have good reason to believe, the administration was indifferently carried out.

Tuberculosis of the lungs shows 48 admissions and 24 deaths against 49 admissions and 11 deaths in 1916. Of these admissions at least 40 had contracted the disease outside the Jail.

Plans and estimates for tubercle wards in several Jails have been prepared and will shortly be submitted to Government.

Anæmia and debility show 39 admissions and 1 death against 30 cases and 2 deaths last year.

Other general infective diseases show 1,009 cases and 18 deaths against 890 cases and 18 deaths in 1916. The deaths were due to leprosy 3 (all admitted to Prison suffering from the disease), tuberculosis kidneys 1, tuberculosis glands neck 1, enteric fever 4, pyæmia 2, syphilis 1, anthrax 1, small-pox 1, diabetes 1, plague 1, septicæmia 1, pyrexia of uncertain origin 1.

Pneumonia.—One hundred and ninety-six admissions and 60 deaths against 166 and 51 deaths in 1916. During the year pneumonia was practically confined to the Deccan Gang 19 cases—6 deaths, the Central Prison, Sabarmati, 33 cases—6 deaths, the Central Prison, Hyderabad, 48 cases—19 deaths and the Sind Gang 58 cases—23 deaths. The epidemic in the Hyderabad Central Prison began in November and was limited almost entirely to one circle and was infectious. In this circle were confined the new admissions and short termers and malaria was much worse in this circle than elsewhere in the Jail. The pneumonia in the Sind Gang was more or less prevalent throughout the year. Pneumonia took a heavy toll of the free population throughout Sind.

Other respiratory diseases show 465 admissions and 14 deaths against 417 and 8 deaths in 1916. The chief contributing Prisons were Yeravda 99 cases and 1 death, Deccan Gang 92 cases and 3 deaths, Sabarmati 120 cases and 2 deaths.

Diarrhoea.—Three hundred and thirty-nine cases and 3 deaths against 528 cases and 5 deaths in 1916. Yeravda had 234 fewer admissions, Deccan Gang 31, Sabarmati 19, Hyderabad is the only Jail showing an increase, *vis.*, 115.

Abscesses, boils, and ulcers 736 admissions and 1 death against 600 admissions and 3 deaths. The increase is entirely due to the Central Prison, Hyderabad, 308 admissions against 118 in 1916.

58. Out of the total of 19,645 prisoners who were discharged during the year, 10,720 or 54·6 per cent. gained weight against 11,859 or 54·5 per cent. in the year previous, 4,175 or 21·2 per cent. lost weight against 4,666 or 21·4 in 1916 and 4,750 or 24·2 remained stationary as compared with 5,253 or 24·1 in 1916.

OFFICIAL AND NON-OFFICIAL VISITORS.

59. There were 228 official visitors during the year for Prisons and Second Class Subsidiary Jails. Fifty-nine quarterly meetings were held during the year and all were well attended. Six hundred and thirteen visits were paid by official visitors, while 105 were paid by non-official visitors.

BUILDINGS.

60. The following allotments were sanctioned during the year for original major works :—

	Rs.
(1) Extension to the hospital in the Sabarmati Central Prison	21,000
(2) Workshed in the Central Prison at Sabarmati...	5,600
A sum of Rs. 19,600 out of the sum allotted for the above works was surrendered and credited to the reserves with Government. <i>Vide</i> Government Order, P. W. D., No. A-12431, dated 20th December 1917.	
(3) Acquisition of land for the new Jail for Bombay at Andheri. Not spent	1,00,000
(4) New Jail at Hindalgi (Belgaum)	50,000
(5) Compound wall round the District Prison, Dharwar	3,900
(6) Quarters for the Superintendent, Borstal Jail, at Dharwar	10,000
A sum of Rs. 3,000 has been re-appropriated to other work. Government P. W. D. Order No. A-2349, dated 1st March 1918.	
(7) Quarters for Mali, Blacksmith and a Gujrathi teacher at the Borstal Jail at Dharwar ...	5,800
(8) Quarters for the Head Clerk and compositor at Aden Special Prison.	5,400
(9) Constructing a block of 8 cells for condemned convicts and warders' quarters at Yeravda	

	Rs.
Central Prison. Rs. 5,000 reported to have been utilized for this work during the current year	13,780
(10) Constructing a bath-room and two water closets in hospital, His Majesty's House of Correction. Government P. W. D. Order No. A-11560, dated 28th November 1917 ...	5,228

In addition to the above, a sum of Rs. 10,000 was allotted for the discretionary grant which was further supplemented by Rs. 2,900 (Government P. W. D. Order No. A-11560, dated 28th November 1917), out of which Rs. 8,888 were utilized during the year under report as detailed below :—

Dhárwdr Prison.—Rs. 394. Additions to gallows.

Ahmedabad Central Prison.—Rs. 184 :—

- (a) Punkhas to Jailors and Deputy Jailors' quarters.
- (b) Wire netting and battens to windows in habitual cells.

His Majesty's Common Prison.—Rs. 309 :—

- (a) Sanitary improvements, sewer in the Civil Jail compound.
- (b) Fly proof brass wire gauze, cook-house.

Sukkur Prison.—Rs. 844. Additions to Sub-Assistant Surgeons' quarters.

Hyderabad Central Prison.—Rs. 122. Trellis work, contractor's godown.

Karwar Prison.—Rs. 130. Strengthening night cage latrine.

Dhulia Prison.—Rs. 2,457 :—

- (a) Dismantling and rebuilding the compound wall in front of condemned cell.
- (b) Additions and alterations to certain blocks.
- (c) Additions and alterations to certain insecure walls.

Thana Special Prison.—Rs. 1,013 :—

- (a) Additions and alterations warders' quarters.
- (b) Iron barred door and expanded metal screen to the staircase of the dormitory.

Belgaum Jail.—Rs. 200. Water cistern and bathing platform.

Alibag Jail.—Rs. 500.

- (a) Improvements in female ward.
- (b) Improvements to well.

Third Class Subsidiary Jail at Sholapur.—Rs. 1,135. Additions and alterations.

Yeravda Central Prison.—Rs. 1,600. Repairs to water-pumps.

The remaining balance of Rs. 4,012 was reserved for acquiring land for the distribution of sullage water from the Sukkur Prison.

MISCELLANEOUS REMARKS.

61. During the year 1917 all Prisons, Second Class Subsidiary Jails and Gangs—except the Aden Special Prison and the Deesa Subsidiary Jail—were inspected by me or Lieut.-Colonel F. H. G. Hutchinson, I. M. S. Numerous visits were paid to the Central Prison, Yeravda, the Special Prison, Thana, the House of Correction and the Common Prison. Special visits were paid to the Central Prison, Sabarmati, and Deccan Gang.

62. There were 96 adolescents in the Dharwar Juvenile Jail at the opening of 1917. During the year 112 were admitted against 91 in the previous year and 65 were released, leaving a balance of 143 at the end of 1917.

Transfers. One prisoner sentenced to 14 years' transportation and sent to Dharwar from the Central Prison, Hyderabad, was sent to the Central Prison, Yeravda, as he was an unsuitable person for the Juvenile Jail.

One volunteered for the Labour Corps in Mesopotamia and was sent to the Dépôt Jail at Thana.

Four were removed from the Juvenile Jail for persistent misbehaviour; 2 were transferred to Yeravda and 2 to the Deccan Gang.

Releases. Five good carpenters were given sets of tools on release and sent to their homes.

Four were conditionally released (as per Government Resolutions, Judicial Department, Nos. 3492, 6069 and 7489, dated 30th May, 22nd September and 24th November 1917 respectively) and sent to the Salvation Army Home.

One was conditionally released as per Government Resolution, Judicial Department, No. 7488, dated 24th November 1917, and sent to the Criminal Tribes Settlement at Bagalkot.

One was released on bail, 5 on expiry of sentence, the period of imprisonment being reduced on appeal.

Two on release were given letters to the Honorary Secretary, Prisoners' Aid Society, Bombay, but did not avail themselves of them.

Two on release were given a letter to the Honorary Secretary, Prisoners' Aid Society, Bijapur, and are working as masons.

One on release was sent to Bombay with a letter to the Officer in charge Salvation Army Home and is working there.

Thirty-eight were released and went to their homes.

No cases of reconviction of released adolescents have been reported this year.

The general behaviour of the adolescents was good.

They are instructed in the trades of mason, carpenter, blacksmith and gardener.

A mali instructor was employed on the 2nd January. Each adolescent attends school for an hour daily and is taught up to the 3rd standard. 51 are learning Marathi, 58 Gujarati and 34 Kanarese. Of the above 35 use Urdu as their home language and arrangements are being made to teach them that language.

Drill and gymnastics are given for an hour five days a week. The adolescents like this part of the curriculum and they are encouraged in every way to do well at it. I attach more importance to this physical training as an influence for good than to anything else. It is extraordinary the difference that is noticed in these youths after a few months of it.

The wall is progressing more rapidly now and should be completed by next October. The main gate and office will then have to be built. After this is done practically all adults will be removed and the Juvenile Jail put on a proper basis.

Moulvi Mahomed Abdulla and Mr. M. N. Mahishi visited the Prison and gave lectures to the adolescents.

Head Constable Sabaji Ramji gave a display on the horizontal and parallel bars.

The point whether longer sentences of imprisonment should not be inflicted in cases in which the sentences are to be served in the Juvenile Jail is under the consideration of Government.

63. During the year the Bombay Prisoners' Aid Society extended its operations. It is undoubtedly doing good work and most useful work. The Agent of the Society, Mr. M. R. Chitnis, has toiled indefatigably and Mr. N. M. Joshi of the Servants of India Society, who is also a member of the Prisoners' Aid Society's Committee, has helped him every way. Mr. T. A. Kulkarni and Mr. S. L. Kapadi have given weekly lectures to the prisoners in the Bombay Jails. The work of the Society could be doubled and trebled were funds available. But the total contribution from the Bombay public only reached the figure of Rs. 1,875—a little over one hundred and twenty-five pounds. The Society workers are truly making bricks without straw. The Bijapur Prisoners' Aid Society has been working throughout the year, but I have received no detailed report.

64. It was said at the annual meeting of the Society that the "Indian Jail System was an anachronism and the sooner it was wiped out the better." This remark seems to have been taken by many people as meaning a special condemnation of the Indian Jail System as contrasted with that in other countries. But if the whole speech of the gentleman, who desired radical alteration to be made, is read, it will be seen that the Indian Jail System is, on the lines of progress laid down in his speech, infinitely ahead of the Jail system in European countries and better than that in many American Prisons. So that it is not so glaring an anachronism as the system in England. In Indian Jails there is a system of promoting prisoners out of the dead monotony of discipline, of giving distinctive dress and a small rate of pay to selected men. The great majority of the prisoners sleep in dormitories; quiet conversation is permitted during work hours, if the work permits it. After lock-up every day prisoners are given books, slates and pencils and can read and talk quietly until the light fails when naturally silence is enforced. On Sundays and holidays after the usual bathing and washing parades the well conducted prisoners are issued books to read and quiet conversation is freely permitted. The system of release in the Phillipines so extolled by Mr. Commissioner Booth Tucker is really only the old Crofton system extended. It is practically the same as was introduced in Bombay Jails in 1905, and which had to be abandoned in 1909—the alternative being a great increase in the number of the paid warders and a very large addition to the Jail Budget. When money is at all scarce there is a tendency, natural but not sound economics, to say "the freeman and the children of the freeman before the criminal." And though it is a saying neither deep nor broad, like Mercutio's wound, it serves.

The Juvenile Class at Dharwar was opened in 1905. Since its inception only 4 adolescents who went through the class have been reconvicted and all 4 were very badly behaved when in the class.

Well conducted prisoners are now being released and sent to serve the last six months of their sentence in the Salvation Army Home. The numbers are at present few for many reasons but they will doubtless increase. The great difficulty is suspicion as to motives on the part of the prisoner to whom the boon is offered. Under the orders of the Government of India the remission which can be earned by good conduct has been very substantially increased.

If we take the periods 1900-1904 and 1913-1917, and institute a comparison it will be found that the death rate has fallen over 50 per cent.; the percentage of habituels admitted to first conviction prisoner from 18 to 13; the number of children confined in Jails under 15 years of age from 165 in 1900 to 20 in 1917; short sentences of one month and under from 5,632 to 3,881.

The percentage of admissions of males to Jails to the free population in 1901 was .2. In 1917 the percentage was .149. Any factor of error owing to the release of prisoners on volunteering for Mesopotamia is more than compensated by other unfavourable figures due entirely to war conditions.

So if the system is an anachronism it is at least one that is doing its best under adverse conditions to free itself from the reproach.

For advance is all a matter of money. Government and prison officials are, I think, of one mind in the matter of advance. Money blocks the way. We want more Jails to separate habituels entirely from casuals. The casual prisoners can then be treated far more leniently and far more efficiently in a reformation sense. The habituels, separated from the casuals, can be also dealt with far more efficiently from the point of reformation. Extra privileges for good behaviour and work, promotion to grades can be carried out which cannot be done if first conviction prisoners are in the Jail. For the danger is that the first conviction man says "why the habitual is just as well off as I am. I do not mind if I come in again". Then a special Jail is required in which all old, broken down and feeble bodied prisoners, all prisoners of a low type of brain development and prisoners with mental twists and kinks can be collected and given special discipline and treatment. Practically all our Subsidiary Jails require reconstruction but this would cost a very large sum indeed if undertaken.

65. A report on the Hur Settlement at Visapur has been separately submitted for the information of Government.

66. During the year 94 military prisoners and 71 ordinary prisoners volunteered for service with Labour Corps in Mesopotamia. This is not a very good response. Debarring the confirmed habitual and the necessity of a strict medical examination reduces the numbers considerably. The hardened habitual is supposed to love a Jail life but he is apparently of all prisoners the most eager to get out, whatever his motive may be. Eight hundred and fifty-six prisoners from other provinces were confined at the Special Prison, Thana, *en route* for Mesopotamia.

So far as I have heard the 11th Labour Corps is working satisfactorily.

67. The warder establishment is still in an unsatisfactory condition. The sanctioned strength is 860. There were 68 vacancies at the end of the year. One hundred and sixteen resigned and 95 were dismissed or discharged during the year. If every warder had his due the dismissals and discharges would be double the number. The Superintendents have practically to enlist any one that offers, and a bad character or weakly man with some experience of Jail routine and discipline is better than a bad character or weakly man with none. Hence a reluctance to dismiss men who really are unfit to be warders, the recruit will probably be worse. Government have been pleased to sanction an increase of pay for the warders, and I hope an improvement in the class of recruit may soon be experienced. But with the recent enormous rise in wages everywhere, I am not as hopeful on this point as I was.

68. I wish to bring to the notice of Government the administration of the Yeravda Jail during the year. The population averaged 1,921 as against accommodation for 1,540 and was frequently over 2,050.

At one time for a period of nearly 3 months the punishment cells had to be occupied by ordinary prisoners and yet the discipline was perfectly maintained—thanks to the firmness and tact of the Superintendent, Mr. C. H. Brierley, who, was ably assisted by the Jailor and Deputy Jailor. The warder staff was short throughout the year, few recruits came forward, and those of a bad type, as was the case everywhere. But at Yeravda this added materially to the difficulties caused by a large population and the maintenance of an Extra-mural Gang at the Kirkee Arsenal. In Yeravda are incarcerated many dangerous and turbulent prisoners and only one flogging was found necessary. It has also more than its share of invalid, old and infirm prisoners. The low death rate and general good health of the prisoners reflect credit on the Medical Officer, Major Jagoe Shaw, I. M. S., and the Assistant Surgeon in charge.

69. The Prison stall at the Bombay Exhibition of Food and Household Requisites of Indian Production was awarded the cup for the best stall in the exhibition. Yeravda obtained a silver medal for carpets and a diploma for cane work. Sabarmati a bronze medal for weaving, Hyderabad, Sukkur and Bijapur diplomas for carpets or daris.

70. The result of the year may be briefly summarised as follows:—The gross cost per head is Rs. 96-9-0 against Rs. 92-0-0 in 1916; the net cost—exclusive of charges on account of inspection and general superintendence—per head Rs. 82-2-0 against Rs. 77-5-0 in 1916; the cash earnings Rs. 1,20,018 against Rs. 1,32,446. The death rate 18.7 against 17.4 in 1916.

71. During the year my office establishment has worked well, in spite of difficulties, under the Personal Assistant, Mr. K. N. Ratnaparkhi. My Head Accountant, Mr. S. S. Barve, has worked zealously in the preparation of the annual return.

I have the honour to be,

Sir,

Your most obedient Servant,

J. JACKSON, M.B., Lieut.-Col., I.M.S.,
Inspector General of Prisons,
Bombay Presidency.

APPENDIX B.

General Summary showing the Distribution of the Prisoners of all Classes

1		2		3		4			5

* A.—Prisoners sentenced to simple imprisonment.
B.—Prisoners sentenced to rigorous imprisonment.
C.—Prisoners sentenced to rigorous imprisonment with solitary confinement.
D.—Prisoners sentenced to rigorous imprisonment with whipping.
† Classes A, B, C, D should be amalgamated for this total.

STATEMENT No. III—JUDICIAL (FOR CONVICTS ONLY)—concluded.

|--|

A.—Prisoners sentenced to simple imprisonment.

B.—Prisoners sentenced to rigorous imprisonment.

C.—Prisoners sentenced to rigorous imprisonment with military confinement.

D.—Prisoners sentenced to rigorous imprisonment with military confinement.

STATEMENT No. IV—JUDICIAL (FOR CONVICTS ONLY).
*Showing the Convicts admitted into the Jails and Subsidiary Jails during the year 1917,
 who had been previously convicted.*

Serial Number.	Jails.	Number admitted during the year.			Number imprisoned in default of finding Security under Section 110 of the Criminal Procedure Code or convicted under Chapters XII, XVI, XVII and XVIII of the Indian Penal Code, with previous convictions under any of those chapters or under Section 110 of the Criminal Procedure Code.								
					A.		B.						
					Number imprisoned for the first time in default of finding security under Section 110, Criminal Procedure Code.		Once previously convicted.		Twice previously convicted.		More than twice previously convicted.

Yeravda Central Prison.—The quantity of con- diments was reduced to half in the case of European prisoners from the year 1909 on medical grounds. The quantity of con- diments was reduced to 3 drs. on medical grounds for all other prisoners. Convict Over- seers were given meat on Wednesdays along with convict Warders.												
Raolnagar Prison.—The issue of Rice 1 lb. on Monday, Thursday and Saturday in lieu of bajri was continued throughout the year.												
Common Prison.—Dal, Toor, was issued 5 times a week, while Dal, gram, was issued twice a week.												
Deccan Gang.—One oz. of molasses were issued to every labouring prisoner with the morning canjee excepting those sick prisoners who were on (d) diet.												
Sind Gang.— Sunday } Wheat 12 ozs. Bajri 14 ozs. Monday } Tuesday } Wednesday } 2 ozs. Jowari 1 lb. 12 ozs. Thursday } Friday } 2 ozs. Jowari 1 lb. 12 ozs. Saturday } 12 ozs. Jowari 4 ozs. and Rice 12 ozs. Molasses one oz. on Monday and Thursday and 3 ozs. on Saturday.												
From 26th May 1917 to 21st July 1917 abut- ney consisting of 1 oz. onions, 6 drs. molasses and 6 drs. tamarind was issued on every alternate day. The molasses for this abutney was taken from the quantity sanctioned for Monday and Thursday and one ounce was deducted from 3 ozs. sanctioned for Saturday.												
(a) This scale was in force in all the Subsidiary Jails except Wadhwan in which prisoners up to 2 years' sentence are confined and who are allowed the scales appearing in this state- ment for Native prisoners in District Prisons.
