	2G/3G/			
	ASR 901 is Cisco's next generation mobile wireless router that addresses the needs of Access, Carrier Ethernet, TDM backhaul and Cell Site Gateway. It is also the first Cisco product to be completely developed from the India site – from conception, architecture, hardware/soft ware implementatio n, testing and qualification to marketing. Benefits to the customer: The ASR 901 helps the cellular service providers build 3G/4G networks with			
	reduced total cost of ownership.
