ACKNOWLEDGEMENTS

I wish to thank Prof. P. Venkatramaiah for guiding me in this doctoral project. I would always view with a great sense of gratitude the innumerable things which he has taught me and the insight of the subject which he gave in the course of this work.

I would also like to thank Dr.(Mrs.) Latika Argade for discussing at length, various issues with me and helping me in many other important ways. My sincere thanks to Dr. Vidya Pitre for posing many pointed questions which clarified certain basic issues and for making various important suggestions. I also wish to thank Mr. Pradeep Apte for providing stimulating interaction and making many useful comments.

Mr. D.B. Sardesai and Miss Anjali Radkar solved my programming difficulties. My heartfelt thanks to them.

I also wish to thank Mr. V.N. Inamdar for meticulous and efficient typing of the thesis.
