ACKNOWLEDGEMENTS

This study, "Marketing of Rapeseed-Mustard in U.P." is carried out at 'Gokhale Institute of Politics & Economics, Pune-4', under the able guidance of Prof. Nilakantha Rath. Prof. Rath has not only introduced me to this domain of study but also has shown constant interest throughout the period under study. His incisive comments benefited me to see my way through many complexities of the subject. I feel honoured that he has made so much time available from his busy schedule for the valuable guidance of this research work. Mere words would not be sufficient to record my deep sense of gratitude to Prof. Rath.

I am grateful to Prof. D.P. Apte, Registrar, Gokhale Institute of Politics and Economics, for the generous assistance whenever the problems have arisen.

I am also grateful to the authorities of the 'Govind Ballabh Pant University of Agriculture and Technology, Pantnagar (Nainital), U.P.' for granting me Ford Foundation Fellowship and study leave in prosecuting this study.

My sincere thanks are also due to the staff of Computer Centres at Pantnagar University and Gokhale Institute, Pune, who helped me in using the computer facilities during the analysis work of my study.

I am thankful to the authorities of various State and Central Government Departments who readily supplied the requisite data.

I also wish to thank Dr.V.K. Agrawal, Assoc. Professor, Pantnagar University, who carefully went through the manuscript and helped me produce a better final document.

My sincere thanks are also due to Mr.N.S. Bisht (Pantnagar) for neatly typing the manuscript.

Last but not least, I wish to express my indebtedness and gratitude to my wife, Alka, who cheerfully bore the unwanted externalities of my research work, ungrudgingly did all that she could do to keep up my morale and smilingly suffered my long hours of silence.
