

AN ECONOMIC STUDY OF THE PORT OF COCHIN
(ITS TRADE, TRAFFIC AND WORKING)

T. PANKAJAKSHAN

A THESIS
SUBMITTED TO THE UNIVERSITY OF POONA
FOR THE DEGREE OF
DOCTOR OF PHILOSOPHY

1963

ACKNOWLEDGEMENTS

This study is the result of my field-studies at Cochin during the year 1961. Including the field-work, I have put in about three years of continuous effort in completing this study through its different stages.

It has to be stated that this study would never have been undertaken by me, had it not been for the guidance and the financial assistance I received from the Gokhale Institute of Politics and Economics, Poona. The Institute was kind enough to offer me a Research Fellowship for a period of about four years from June 1959, one year of which was for receiving a training course in Research Methods at the Institute, and the other three years for conducting the present study. I express my deep sense of gratitude to the Institute, particularly to Prof. D. R. Gadgil, its Director, for all the kindness and goodness shown to me during the course of this study.

The idea of this study was first suggested to me by Prof. N. V. Sovani, Joint Director of the Gokhale Institute, under whose constant encouragement and guidance, I later conducted and completed this study. I recall with gratitude all the great, valuable help which I have received from Prof. Sovani in connection with this study. The debt I owe to him for all his guidance and advice, and constant encouragement, is more than could

ever be repaid.

There are a number of others to whom I owe much for helping me through the different stages of this work. I am very much thankful to the large number of individuals and firms whom I interviewed, and who readily helped me with all the necessary information. Among those who helped me during my field-studies at Cochin, I must particularly mention Shri P. R. Subramanian (Administrative Officer, Cochin Port), Shri Cyril Raj (Secretary, Cochin Port), Shri M. Karunakaran (Deputy Chief Accountant, Cochin Port), Shri K. Sukumaran (Secretary, Cochin Chamber of Commerce), Dr. K. Bhaskara Varma (Indian Chamber of Commerce, Cochin), and Shri A. V. Rajan, my good friend. I am very much indebted to all these and several others, too many to be listed here, for helping me in several ways during my field-studies.

My thanks are due, also, to a number of my friends and colleagues at the Gokhale Institute. I am particularly indebted to Dr. Miss Kamala Mathur who patiently went through the final typed copies and made many suggestions, and to Dr. A. P. Kulkarni who helped me very much in the statistical part of the work. I am also thankful to Dr. A. Anjaniah and Shri V. S. Satyapriya for helping me in many ways.

Lastly, I thank Shri D. R. Kotasthane who helped

(iii)

me in preparing the various maps and charts, and Shri N. G. Phadke and Shri V. N. Inamdar who typed this report.

Gokhale Institute of
Politics and Economics,
Poona 4 (India).

15th August, 1963.

T. Pankajakshan.

I	INTRODUCTION	1-30
---	--------------------	------

Section (1) Description of the Port of Cochin.

Section (2) Outline of the present study:

- (a) Scope of the study,
- (b) previous studies in the subject,
- (c) sources of data,
- (d) methodology of the study,
- (e) outline of the chapter-scheme.

II	THE GROWTH OF COCHIN PORT - A HISTORICAL SURVEY	31-107
----	---	--------

Section (1) The early history of the Port (upto 1850) :

The opening of direct European trade with Cochin in 1500 - successive occupations of Cochin by European powers - destruction of Cochin's fort and port in 1806 - the position of Cochin around 1850

Section (2) The modern era of Cochin Port (from 1850 onwards):

A. Growth of the Port's physical facilities (since 1850) :

- (i) early physical conditions;
- (ii) the early attempts for the development of Cochin, 1870-1900;
- (iii) agitations for the development of Cochin, 1900-1920;

(v)

- (iv) actual development of the Port, 1920-1940;
- (v) further growth of port facilities, 1940-1961;
- (vi) financing of the Port's development (: the order of investment, sources of finances, productivity of Port-investment);
- (vii) some immediate effects of the expansion in port-facilities (: effects on turn-round of shipping, on port-charges and on ocean freight rates).

B. Growth of the Port's Communication links (since 1850):

- (i) growth of communication by water-ways,
- (ii) growth of communication by railways,
- (iii) road development,
- (iv) other communications.

C. Growth of the Port's traffic (since 1850) :

Statistics of traffic growth from 1857 to 1961.

The process of traffic expansion, causal factors :

- (i) Traffic expansion due to the stimulus from new port-facilities;
- (ii) traffic expansion due to widening of the Port's service-area and diversion of traffic from other ports;
- (iii) traffic expansion due to economic development in the hinterland.

III THE HINTERLAND OF COCHIN PORT - ITS AREAL DEMARCATION AND ECONOMIC STRUCTURE. 108-135

Section (1) Port-hinterlands : definition

Section (2) Areal demarcation of Cochin's hinterland : The methodology adopted for the study - the results obtained.

Section (3) Economic structure of the hinterland: Physical geography of the hinterland - agriculture in the hinterland - industry in the hinterland - population position.

Section (4) Transport alignments between the hinterland and the Port: Inland water-ways - railways - roads; organisation and rate-structure of the transport-system.

IV COMMODITY-FLOWS BETWEEN THE PORT OF COCHIN AND ITS HINTERLAND 136-210

Section (1) Import-flows between the Port and the hinterland:

Detailed destinations and transport-use patterns of -

- (1) mineral oils,
- (2) coal,
- (3) chemical fertilizers,
- (4) food-grains,
- (5) cashewnuts, salt and sulphur,
- (6) metals and raw cotton and
- (7) other items of import.

Section (2) Export-flows between the Port and the hinterland :

Detailed regional origins and transport-use patterns of -

- (1) ores, minerals and metals,
- (2) 'plantation crops',
- (3) 'other agricultural produce',
- (4) 'manufactured products', and
- (5) other items of export.

Section (3) Transport-use studies of the traffic movements : Overall patterns

- (1) The general picture of transport patterns,
- (2) causal factors influencing transport patterns,

- (3) Changes in the transport patterns of Cochin's traffic - between 1931 and 1961.

Section (4) Regional traffic-spread in the Port's hinterland : Overall patterns.

- (1) The general pattern,
- (2) 'traffic densities',
- (3) export-hinterlands and import-hinterlands (-'average lead' of import and export movements),
- (4) relation between traffic intensity and distance from the Port.

V	THE WORKING OF COCHIN PORT - SOME ASPECTS	211-276
---	---	---------

Section 1. Out-turn studies of port-operations

A. Overall out-turn rates of the Port's cargo-handling operations, during 1960-61 (a study based on the performance of some 600 steamers).

Influence of the various working conditions on the rate of cargo-handling at the Port :-

- (i) influence of the steamer's berthing position (stream-moorings/wharf-berths),
- (ii) influence of the time of work (night-shift/day-shift),
- (iii) influence of the nature of cargo,
- (iv) influence of the type of cargo-operations (loading/unloading).

Trend in the out-turn rate of cargo-handling operations at the Port, over years (1955 to 1961).

B. Turn-round of shipping at Cochin: turn-round position in 1960-61; trends in the turn-round position over years.

Section (2) The study of dock labour at the Port

- (1) General description of the present labour set-up at Cochin;
- (2) Employment position at the Port : Under-employment among -
 - (a) Porterage Workers,
 - (b) Stevedore workers
 - (c) lighterage workers,
 - (d) the coal and ore workers; overall employment position at the Port.
- (3) Wage-studies : Comparison of wage rates among the different classes of dock labour at Cochin.
- (4) Labour productivity at the Port: Estimates and composition of the productivity rates among different classes of dock labour.

Section (3) Financial aspects of the Port's working

- (1) The Port's finances during 1960-61;
- (2) the nature of port-charges at Cochin, and the cost of port-use;
- (3) the pricing of port-services at Cochin - principles and practice.

VI THE TRADE PASSING THROUGH COCHIN -
SOME ASPECTS 277-310

Section (1) Value aspects of the Port's trade.

Itemwise Valuation of imports, and exports; comparison between value and tonnage of different items.

Section (2) External directions of the Port's trade : The concept of 'Foreland'.

Definition of 'Foreland' - the Foreland map of Cochin Port. Origins of Cochin's imports; destinations of Cochin's exports.

Trends in the external directions of Cochin's trade, over years (from 1901 to 1961).

Section (3) The Trade organisation of the Port. Agencies connected with the Port's trade; organisation of the Port's import-trade (itemwise study); organisation of the Port's export trade (itemwise study).

VII	COCHIN PORT - IN RELATION WITH OTHER SOUTH-INDIAN PORTS	311-332
-----	---	---------

(1) Cochin, Calicut and Alleppy :

Traffic division and Competition.

Estimate of traffic diversion from Calicut and Alleppy areas to Cochin - Competition and complementarity between Cochin and these ports.

(2) Cochin, Bombay and Madras : Traffic division and competition.

Delimitation of the natural hinterlands of the three Ports (on the basis of transport-cost comparison); extent of competition between Cochin and Bombay; extent of competition between Cochin and Madras.

Chapter	Page
(3) <u>Cochin, Mangalore and Tuticorin:</u> <u>Traffic division and competition.</u>	
Existing traffic division and competition between Cochin and these two Ports; likely future competition and traffic division between Cochin and these two Ports after the completion of the latter's projected development into Major Ports; estimate of the probable loss of Cochin's existing traffic to Mangalore and Tuticorin, on their developing into Major Ports.	
Appendix No. 1 : Some Economic Aspects of the Vessels calling at Cochin.	333-341
Appendix No. 2 : An Explanatory Note on Some Tables.	342-351
Bibliography.	352-359

LIST OF TABLES

Table No.	Title	Page (on/against)
Chapter 1		
1.1	Traffic position of the various Indian Major Ports during the last five years (upto 1960-61)	(3)
1.2	Minimum 'soundings' in the various berths at Cochin Port, as on 5-6-1961	(9)
Chapter 2		
2.1	The growth and utilisation of the port-facilities of Cochin (from 1930)	(61)
2.2	Capital expenditure - through various stages - on the Port-project of Cochin	(63)
2.3	Sources of funds for Port-investment	(64)
2.4	Sources of loans obtained for investment on the Cochin Port Scheme	(64)
2.5	Progress and productivity of the port-investment at Cochin : 1935 to 1961	(66)
2.6	The position of ocean freight rates to and from Cochin Port, before and after its becoming a Major Port in 1936	(69)
2.7A	Growth of the trade through Cochin Port, value figures; from 1857 to 1961	(87)
2.7B	The traffic growth of Cochin Port (tonnages), 1871 to 1961	(87)

Table No.	Title	Page (on/against)
2.8	The Growth of Cochin's imports, 1891 to 1961; Commodity-wise contributions	(89)
2.9	The Growth of Cochin's exports, 1891 to 1961: Commodity-wise contributions	(89)
2.10	Entry of new items into Cochin's trade (exports) in the year of harbour-opening (1928-29)	(91)
2.11	The traffic position, before and after the Great Depression, at the Ports of Bombay and Cochin	(92)
2.12	The increasing diversion of tea shipments to Cochin from the other South Indian ports, after the opening of the Cochin Harbour in 1928-29.	(98)
2.13	The traffic position of leading export-items through Cochin, Alleppy and Calicut, between 1926 and 1961	(99)
2.14	The growth of tea-production in South India (1885 to 1961)	(103)
2.15	The leading industrial firms contributing to the traffic of Cochin Port, and which were incorporated only after 1940	(104)

Chapter III

3.1	Districtwise shares of the imports and exports through Cochin Port, during 1960-61	(115)
-----	--	-------

Table No.	Title	Page (on/against)
3.2	Areal extent and traffic share of the different hinterland-zones of Cochin Port, 1960-61	(116)
3.3	Production figures of some important agricultural crops in Kerala, in 1960-61	(122)
Chapter IV		
4.1	The list of imports through Cochin Port, during 1960-61	(137)
4.2	The list of exports through Cochin Port during 1960-61	(137)
4.3	Import destinations: Statewise and Dis- trictwise destinations of the various imports through Cochin Port, in 1960-61	(138)
4.4	Detailed transport-use data - itemwise and District-wise - of the imports through Cochin Port, 1960-61	(138)
4.5	Transport-use patterns of imports - itemwise - for the entire hinterland, Cochin Port, 1960-61	(138)
4.6	Export origins : State-wise and District- wise origins of the exports through Cochin Port, in 1960-61	(164)
4.7	Detailed transport-use data - itemwise and District-wise - of the exports through Cochin, during 1960-61	(164)

Table No.	Title	Page (on/against)
4.8	Transport-use patterns of exports - itemwise - for the entire hinterland, Cochin Port, 1960-61	(164)
4.9	The overall transport-use patterns of 'port-traffic' (imports and exports), Cochin Port, 1960-61	(183)
4.10	Transport-use patterns of port-traffic: Overall regional variations; Cochin Port, 1960-61	(185)
4.11	Comparative freight rates of road, rail and water-ways in the hinterland of Cochin Port (1961)	(189)
4.12	The average lead position of the three transport means (road, rail and water- ways) in moving the port-traffic of Cochin, during 1960-61	(195)
4.13	Changing transport-use patterns of Cochin's traffic, between 1931 and 1961	(199)
4.14	Indices of overall traffic distribution, Cochin Port traffic, 1960-61	(202)
4.15	The State-wise distribution of the traf- fic through Cochin Port, in 1960-61	(206)
4.16	Average distance travelled by the Port's traffic, 1960-61	(207)

(xv)

Table No.	Title	Page (on/against)
4.17	Relation between distance and traffic density in the hinterland of Cochin Port, in each direction from Cochin (1960-61)	(210)

Chapter V

5.1	Average out-turn (per hook-hour) of the loading and unloading operations at Cochin Port - during 1960-61	(215)
5.2	Out-turn rates of cargo-handling at Cochin Port, under different conditions of work (1960-61)	(218)
5.3	Out-turn rates of cargo-handling at Cochin Port : Differential rates between steamers at the wharf-berths and steamers in the stream-moorings (1960-61)	(220)
5.4	Differential out-turn rates of Derricks and Cranes at the Port of Cochin (1960-61)	(222)
5.5	Out-turn rates of cargo-handling at Cochin Port - rate differentials between night-shifts and day-shifts (1960-61)	(223)
5.6	Out-turn rates of cargo-handling at Cochin Port - rate differentials between different cargo-groups (1960-61)	(225)
5.6A	Out-turn rates of cargo-handling at Cochin-	

Table No.	Title	Page (on/against)
	Port:Rate differentials between loading and unloading operations (1960-61)	(226)
5.7	Out-turn rates of cargo-handling at Cochin Port - trend over years (overall monthly averages)	(227)
5.8	Out-turn rates of cargo-handling at Cochin Port - trend over years (separately under different working conditions)	(228)
5.9	The average turn-round time of steamers, Cochin Port, 1960-61	(230)
5.10	Pre-berthing detention of vessels, at Cochin Port, during 1960-61	(232)
5.11	The average turn-round time of steamers working at Cochin - trend over years	(234)
5.12	The strength of dock-labour at Cochin Port, under different classes in 1960-61	(237)
5.13	Employment and under-employment, among the 'Porterage' workers, Cochin Port, 1960-61	(239)
5.14	The extent of voluntary refusal of job- offers by the registered casual workers of Cochin Port, in 1960-61	(241)
5.15	Employment availability and under- employment among the stevedore workers, Cochin Port, 1960-61	(242)

Table No.	Title	Page (on/against)
5.16	Overall employment position of the dock labour at Cochin during 1960-61	(245)
5.17	The wage position among the dock-labour at Cochin - 1960-61	(247)
5.18	Earnings of factory employees in Kerala (1960)	(247)
5.19	Productivity of the dock labour of different classes, Cochin Port, 1960-61	(249)
5.20	Details of the Annual Revenue of Cochin Port, 1960-61	(252)
5.21	Details of the Annual Expenditure of Cochin Port, 1960-61	(253)
5.22	Incidence of port-charges on some selected commodities, at Cochin Port	(258)
5.23	Comparison between the Wharfage imposed by the Port-authority for cargo-handling at wharf, and its counterpart charges for cargo-handling in stream imposed by Landing Agents; Cochin Port, 1961.	(259)
5.24	Incidence of port-charges on the steamers visiting Cochin Port, 1960-61	(261)
5.25	Incidence of port-charges on cargo - Cochin Port, 1960-61	(261)
5.26	Cost of port-use at Cochin : Trend over years (from 1932 to 1961)	(262)

Table No.	Title	Page (on/against)
5.27	The tonnages of principal <u>import</u> <u>items</u> handled in stream and wharf separately at Cochin Port, during 1960-61	(272)
5.28	The tonnages of principal <u>export items</u> handled in stream and wharf separately at Cochin Port, during 1960-61	(272)
5.29	Charges for loading pepper from the Mattan- cherry shore into the steamers in stream or at wharf; Cochin Port, 1961	(274)
Chapter VI		
6.1	Trade values, Cochin Port, 1960-61	(278)
6.2	Itemwise valuation of Cochin's imports, 1960-61	(280)
6.3	Itemwise valuation of Cochin's exports, 1960-61	(280)
6.4	External directions of Cochin's trade: Imports, 1960-61	(284)
6.5	External directions of Cochin's trade : Exports, 1960-61	(286)
6.6	Long-term trends in the external directions of Cochin's imports : 1901 to 1961	(289)
6.7	Long-term trends in the external directions of Cochin's exports:1901 to 1961	(292)

(xix)

Table No.	Title	Page (on/against)
6.8	Prices of imported mineral oils at various points in Cochin's hinterland	(303)
6.9	The movement of pepper from the producer to the exporter at Cochin : Figures showing price-spread	(308)

Chapter VII

7.1	Traffic diversion through Cochin Port from the hinterland of the Calicut Port (i.e. the Calicut District) : 1960-61	(315)
7.2	Details of the existing traffic between Cochin and the area falling under the future service-zone of Mangalore Port after the latter's expansion into a Major Port.	(329)
7.3	Details of the existing traffic between Cochin and the areas falling under the future service-zone of <u>Tuticorin Port</u> after the latter's expansion into a Major Port.	(331)

Appendix I

8.1	The number and tonnage of vessels visiting Cochin, 1900 to 1961	(334)
8.2	Relative distribution of the Port's import and export tonnage (dry cargo)	

(xx)

Table No.	Title	Page (on/against)
	over the steamers calling at the Port, during 1960-61.	(337)
8.3	Number and regularity of vessels loading at the Port of Cochin, bound for various directions, during the month of October 1961	(339)

THE LIST OF CHARTS AND MAPS

Fig.No.	Title	Page No. (against-)
<u>Chapter I</u>		
1.1	Map showing the Ports of India	4
1.2	Chart of the Port of Cochin	5
1.3	Organisational chart of the Port of Cochin	12
