ACKNOWLEDGEMENTS

This study was planned and completed at the Gokhale Institute of Politics and Economics, Poona. The Institute gave me a Junior Research Fellowship for the purpose from June 1963 to March 1966. Further assistance for the study came from the Shri Ram Centre for Industrial Relations, New Delhi, by way of a Junior Scholarship for six months, from July to December, 1966.

I worked under the guidance of Prof. P. N. Mathur. This study could not have been completed but for his valuable and encouraging guidance.

Prof. M. V. Namjoshi and Prof. Kshitimohan Mukerji took a keen interest in my work and helped me with useful suggestions at every stage. I am grateful to them for the many long discussions they allowed me in spite of their pre-occupation with other research projects.

For collection of data and for familiarizing myself with the subject of the study, I was in Bombay for nearly a year in 1964-65. I am grateful to the University of Bombay for the accommodation given to me in the university hostel.

I had the good fortune of getting generous co-operation from all the institutions and organizations I visited in the course of this study. I am indebted to many persons in them for the information and the data they provided, as

well as for the valuable suggestions they gave me during interviews. In particular, I must mention the help I received from Shri D. G. Kale, Commissioner of Labour, Shri R. J. Tamboli, Deputy Commissioner of Labour, Shri T. R. Bhagwat, Assistant Commissioner of Labour, and Shri D. G. Deshpande, Assistant Commissioner of Labour, of the Office of the Commissioner of Labour; Shri P. Y. Chinchankar, Research Officer, of the Employers' Federation of India; Shri M. S. Warty, Chief Labour Officer, Shri H. S. Poredi, Deputy Labour Officer, and Shri P. M. Mantri, Assistant Labour Officer, of the Millowners' Association; Shri V. R. Hoshing, Joint Secretary, and Shri A. N. Likhate, of the Rashtriya Mill Mazdoor Sangh; Shri S. G. Patkar, General Secretary, and Shri Karkhanis, of the Mumbai Girni Kamgar Union; Shri K. R. Wazkar, Registrar, of the Industrial Court; Shri R. N. Kulkarni and Shri S. R. Samant, Judges, of the Labour Court; and Shri M. P. Joshi, Secretary, of the Wage Board.

The Millowners' Association introduced me to four mills to which I made frequent visits in order to collect data and also to seek clarifications on a number of questions. I am grateful to the managements of these mills for their kind co-operation.

I have also had the privilege of discussing some problems of this study with many authorities in the field. Among them, I must gratefully mention Prof. S. D. Punekar of the Tata Institute of Social Sciences, Prof. D.T.Lakdawala

of the University of Bombay, Prof. J. S. Mathur of the University of Allahabad, Prof. Van Dusen Kennedy of the University of California, Shri V. B. Karnik of the Labour Education Service, Shri T. S. Swaminathan and Shri N. M. Vakil of the Employers' Federation of India, and Shri R. G. Gokhale who retired as Chief Labour Officer of the Mill-owners' Association in 1962 and is presently working as an industrial relations consultant in Bombay.

I thank Shri M. V. Sovani, Librarian, and the staff of the library of the Gokhale Institute for their assistance in bringing together all the available material on the subject of this study. I am also indebted for a part of the material to the libraries of the Office of the Commissioner of Labour, the University of Bombay and the Tata Institute of Social Sciences.

I am grateful to Shri G. T. Chavan for the many improvements he suggested in the language and presentation of this study. And lastly, I must thank Shri V. N. Inamdar for the accurate and beautiful typing work he has executed with remarkable patience and ability.
