## I N T R O D U C T I O N .

### LOCATION :

1.1 Ahmednagar district is located in the central part of Maharashtra between 18 .2' to 19 .9' north latitude and between 73 .9' to 75 .5' east longitude. The district is surrounded by Aurangabad and Nasik districts on the North, by Bhir and Osmanabad districts on the east, Pune and Thana districts on the south-west and by Solapur district on south. Ahmednagar district with an area of 17,035 Sq. Kms. ranks second in the Maharashtra State.

### TOPOGRAPHY : (a) Soil :

1.2 The geographical foundation of soil prevailing in the district is mainly of Deccan trap of volcanic origin.

The district is situated on the Deccan plateau. Soil of the district is generally found responsive and fertile, except the hilly areas of Akola tahsil and some portion of the plains, which suffer from heavy soil erosion. The soil of the Ahmednagar district can broadly be classified into the following five categories.

1. Deep black soil of Kopargaon, Shrirampur and Rahuri Tahsils, with rich perennial irrigation system for which the area was selected for Mahatma Jyotiba Phule Agricultural University. Most of the Sugar Factories are also located in this area.

2. Red Soil of western and hilly areas of Akola Tahsil.

3. Laterite.

4. Barad or gray inferior quality soil.

5. White popularly known as 'Pandhari'.

### b) Rivers :

1.3 The Godavari and the Bhima are the major rivers of the Ahmednagar district. The Godavari flows along the north-eastern boundary of the district, through the tehsils of Shrirampur

(Contd)...

Newasa and Shevgaon. The Pravara is the tributary of the Godavari passing through Akola, Sangamner, Shrirampur, Kopergaon and Newasa tehsils. The Bhandardara dam which is masonry dam was constructed in the year 1926 and is a tourist place. The Mula, the Adhala & the Mahalungi are the important tributaries of the Pravara. The Southern Part of the district consisting of Parner, Ahmednagar Pathardi, Shrigonda and Karjat tehsil constitutes the Bhima basin with the tributaries of rivers Sina, Kukadi, and Ghod. The Bhima flows nearly 56 Kms. along the boundaries of Pune and Ahmednagar districts. Besides, the major rivers indicated above Mahalungi, Kalu, Kapari, Hanga, Mehekari, Ghod, Khanapuri, Dhor, Simphana, Deo, Redi, Kas are the minor rivers flowing seasonally in almost all tehsils except Pathardi.

1.4 (c) Hill Ranges : The main Sahyadri range touches Akola tehsil in the western areas of Ahmednagar district. From this main range, three spurs viz. Kalsubai, Baleshwar and Harishchandragad spurt out. Kalsubai is the highest peak of Sahyadri (1654 meters) and serves as the watershed between Darna and Pravara and Mula rivers. Harishchandragad is 96 Kms. long and its branches run from Ratangad, serving the watershed between Pravara and Mula rivers. The Baleshwar is the largest range and demarcates the boundary of Pune and Ahmednagar districts. On entering into Parner tehsil the Baleshwar forms two sub-branches, one going through north of Nagar town and forms watershed between the Godavari and the Bhima and the other turning South-wards across the north east corner of Shrigonda tehsil and enters into Karjat tehsil.

1.5 d) Minerals : There are no major mineral deposits located in Ahmednagar district except limestone in Parner tahsil. However sand, stone, murum etc. are found in abundance in all tehsils of the district.

(Contd)...

1.6 Climate :

a) Rain fall : Ahmednagar district gets rain mainly from south-west monsoon but the distribution of rainfall is mostly uneven. The rainfall is adequate and concentrated in the western part of Akola tehsil and it is most erratic in the southern part which is known as scarcity tract. The normal rainfall at the tehsil head quarters varies from 500 to 700 m.m. approximately. During the year 1975 rainfall was maximum at Jambhed centre and minimum at Kopergaon centre in Ahmednagar district and generally found to be satisfactory. The district can be divided into following three zones according to rainfall. Zone I, consisting of northern part comprising of Kopergaon, Akola, Sangamner, Rahuri and Shrirampur tahsils with more or less assured rainfall. Zone II comprises of south-eastern part covering Shevgaon, Newasa, Ahmednagar, Pathardi and Jambhed tahsils & Zone III covering Karjat, Shrigonda and Parner Tahsils with very little rainfall.

1.7 FAMINE AND SCARCITY :

Due to good rains in the district in the period under review i.e. 1975-76 agricultural conditions improved considerably and as such in no village in the district scarcity or famine was declared. However, 257 villages were affected by flood conditions in the district.

1.8 DEMOGRAPHY; POPULATION :

According to the population census of 1971 total population of Ahmednagar district was 22,69,117 and rate of increase in the population was 27.77 percent during the decade 1961-1971 which was higher than that of Pune division and also that of Maharashtra, the respective figures being 25.64 and 27.45.

The following table gives the tahsilwise percentage variation in population during the decade 1961-71.

TABLE NO. 1

Tahsilwise decadal variation in population in 1971 over 1961

Name of Tahsil	P O P U L A T I O N		Decennial growth rate percentage
	1 9 6 1	1 9 7 1	
1	2	3	4
1. District	17,75,969	22,69,117	+ 27.77
<u>TAHSILS</u>			
1. Ahmednagar	2,45,531	3,03,606	+ 23.62
2. Rahuri	1,17,728	1,50,343	+ 35.35
3. Shrirampur	1,78,174	2,47,551	+ 38.94
4. Newasa	1,17,706	1,50,393	+ 27.77
5. Shevgaon	1,04,207	1,28,841	+ 23.64
6. Pathardi	1,10,905	1,38,590	+ 24.96
7. Jankhed	73,153	86,592	+ 18.37
8. Karjat	99,292	1,23,612	+ 24.49
9. Shrigonda	1,18,313	1,46,581	+ 23.89
10. Parner	1,31,039	1,54,890	+ 18.20
11. Akola	1,17,795	1,47,702	+ 25.39
12. Sangamner	1,64,564	2,18,797	+ 32.96
13. Kopergaon	1,97,512	2,62,619	+ 32.96

From the above table, it will be seen that decennial growth rate in Kopergaon, Sangamner, Shrirampur, Rahuri Tahsil were above the district average. The decadal growth rate in Parner and Jankhed tehsils were however less than 20%.

1.9 SPECIAL FEATURES :

Ahmednagar, District is on the forefront of Co-operative movement, especially in respect of Sugar factories. There are in all 16 Sugar Factories, 12 being Co-operative with five lakh tonnage of Sugar production in the district. This is main

contribution of principal cash crop of Maharashtra State. At the instance of Government of India, two districts in Maharashtra have been selected under 'Drought Prone Area Programme' which has been implemented with the assistance of World Bank and Ahmednagar is one of them. There are nine water sheds, having 113 villages covered under programme. This programme envisages overall development of the water-shed areas in the sectors of dry land farming, Animal Husbandry, Dairy Development, Forests, Soil Conservation and Minor Irrigation. Satisfactory progress and completion of percolation tanks, Soil Conservation and afforestation works under the Employment Guarantee Scheme is a note worthy feature of Ahmednagar district which tops expenditure in the State and thereby provides employment to unskilled needy labourers in the rural areas of the district and also creates productive assets. Development of medium and small scale industries in the vicinity of Nagar, Shrirampur and Kopargaon town through the M.I.D.C. and Industrial Estates in the year under review is significant and will place these areas on the states map of industrial development.

## CHAPTER II

### EXPLANATORY NOTE

2.1 The data on different important sectors which have dominant effects on the economy are presented in this abstract for the year 1975-76. In case the data for the year 1975-76 is not available the data for the latest available year are presented. In most of the cases, the reference period of the data is the financial year. The data on Agriculture, however relates to the agricultural year, whereas the data on 'Co-operation' is for the co-operative year (1st July to 30th June). The data on other important items like rainfall, temperature, civil and criminal cases, vital statistics, are for the calendar year. The information as far as possible is presented tahsilwise for inter tehsil comparison.

#### DISTRICT AT A GLANCE :

2.2 Certain essential data in important spheres, such as

- i. Population,
- ii. agriculture,
- iii. animal husbandry,
- iv. industries,
- v. co-operation,
- vi. medical and public health,
- vii. education,
- viii. transport and communication,
- ix. plan expenditure etc. ,

pertaining to the district is presented along with the corresponding figures for the state for the comparison purpose.

#### District Statistical Abstract :

2.3 The data incorporated in the District Statistical Abstract have been presented in suitable tables, classified in appropriate

(Contd)...

groups. The concepts adopted in preparation of tables are summarised in the following paragraphs. The limitations of data are cited wherever necessary.

#### AREA AND POPULATION

2.4 The data of 1971 census mainly on population, area, houses and livelihood occupation, rural urban breakup etc., are presented in the first seven tables for all tahsils in the district. Data on population per square kilometre, decadal variations during 1951-61 and 1961-71, classification of villages and towns according to population ranges, number of workers and non-workers, population of schedule<sup>d</sup>/castes and schedule<sup>d</sup>/tribes, distribution of population according to age group and religion are also given in these tables.

#### 3.5 (a) Urban Area :

The following places have been treated as 'Urban areas' (towns).

1. every place having a municipality or cantonment board irrespective of its population,

2. every other place which satisfies following three conditions :

i. a population of at least 5,000

ii. at least three-fourth of its male working population engaged in non-agricultural pursuits and

iii. a density of population of at least 400 persons per square km.

3. Any other place not falling under above two categories which possesses certain distinct characteristics to qualify to its being treated as urban such as its being a project area or a developing township.

(Contd)...

(b) Rural Area : Those areas which do not satisfy the criteria prescribed for recognising urban area are called 'Rural areas'.

A census village in Maharashtra has always been a revenue village. A revenue village has well-defined boundaries, a map and a separate set of land records irrespective of whether that defined area has any population or not.

(c) WORKER : A worker is defined as ' a person whose main activity is participation in any economically productive work through his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. A public or social worker engaged actively in public or social work or political worker actively engaged in furthering the political aims of a party was also regarded as a 'worker'. In case of perennial work, such as, cultivation, live-stock, Plantation, some type of household industries, a person was treated as a 'worker' by ascertaining whether he had participated any time during the last one year even if he was not economically active in the week prior to enumeration. In case of regular work in trade, profession, service or business, a person was considered as 'worker' if he had participated in such regular work on any one of the day during the week preceding the date of enumeration and that work has been returned as his main activity.

(d) Non-worker : Non-workers are 'those who are not mainly engaged in any economically productive work.'

Persons primarily engaged in household duties or those who were students and helped in the family economic activity, but were not on full time scale/<sup>were</sup> treated as 'non-worker' in respect of their main activity.

## 2. Climate

2.6 The rainfall and temperature have pronounced effects on climate. The rainfall data presented in table No. 8 gives normal rainfall, monthly rainfall and number of rainy days during the calendar year 1975 for the selected 13 centres. A day was treated as a 'rainy day' if during the twenty-four hours the rain gauge recorded a minimum of 2.5 m.m. of rainfall. The table no. 9 gives actual maximum and minimum temperatures recorded during each of the month of the calendar year 1975 in respect of Ahmadganagar district.

## 3. AGRICULTURE

2.7 Important tahsilwise statistics on agriculture, such as

- i. Land Utilisation,
- ii. Area under different crops,
- iii. yield per hectare and out-turn of principal crops,
- iv. irrigated area under different crops
- v. sourcewise irrigated area and
- vi. data on irrigation etc.,

are given in tables 10 to 14.

2.8 The basic definitions adopted are given below :-

a. Geographical Area : It is, according to village papers, calculated from village returns prepared for revenue purposes and as such it may be different from that according to Surveyor General.

b. Forests : It includes all actually forested areas or lands classed or administered as 'forests' under any legal enactment dealing with forests, whether State owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land.

(Contd)...

e. Land put to non-agricultural uses : It stands for all lands occupied by buildings, roads and railways or under rivers, canals etc., and other land put to uses other than agricultural.

d. Barran & unculturable land : It covers land which cannot be brought under cultivation unless at a high cost, whether in isolated blocks or uncultivated holdings. Land like mountains, deserts etc. is classified under this category.

e. Permanent pastures and other grazing land : It covers all grazing lands. Village common grazing lands and grazing lands within forest area are included under this head.

f. Culturable waste land : These may be either fallow or - covered with useless shrubs and jungles and include all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and the last five years or more in succession.

g. Miscellaneous tree crops and groves not included in the net area sown.

This category includes all cultivable land which is not included in Net area sown but put to some agricultural use.

h. Current fallow lands : These are lands which are kept fallow during the current year. If any seedling area is not cropped again in the same year, it is also treated as 'Current fallow'.

i. Other fallows : All lands which were taken up for cultivation but are temporarily out of cultivation for a period not less than one year and not more than 5 years are classed as 'other fallow'.

j. Net Area sown : This consists of net area sown with crops and orchards, area sown more than once being counted only once.

k. Gross cropped area : Total of area under all crops including...

area under crops sown more than once is taken as 'Gross Cropped Area'.

#### 4. Irrigation Statistics :

2.9 Important irrigation statistics regarding

- i. number of irrigation wells,
- ii. activities of ground water survey and Development Agency,
- iii. minor irrigation works,
- iv. major & medium irrigation projects, and
- v. area irrigated under major and medium projects,

are given in table no.s 15, 16, 17 & 18.

#### 5. Allied Agriculture

2.10 Agricultural Wage rates at the selected centres, viz.,

- i. Karjat (Taluka : Karjat)
- ii. Akola (Taluka : Akola)
- iii. Belapur (Taluka : Shrirampur)

collected by the District Statistical Officer through the Block Statistical Assistants are given in table No. 19. Number of operational holdings as per Agricultural Census -1970 are given in table No. 20. Final figures of agricultural implements enumerated during the eleventh live-stock census are given in table No. 21. The tahsil-wise data on 'famine and scarcity' are given in table No. s 22 & 23 for the year 1975-76.

#### 6. Animal Husbandry & Forests :

2.11 Usewise population of live-stock and poultry as per livestock census, 1972 (final data) is shown tahsilwise in table No. 24. Statistics on veterinary facilities existed, animals treated in such centres and disease-wise mortality of live-stock are given in table No.s 25 & 26. Table No. 27 furnishes data on animals slaughtered in recognised slaughter houses in the district.

2.12 The data on 'area under forests' and major and minor forest produce for the year 1975-76 have been shown in tables 28 (a) and 28 (b) respectively. Area under forests with a classification into

- i. reserved,
- ii. protected, and
- iii. unclassed forests under the control of state Revenue department and under State Forests Department.

has been shown. These areas may not tally with the area under forests shown in table No. 10 due to different concepts of classification into above three heads. Reserved forests are intended mainly for timber production in which rights of grazing and cultivation are seldom allowed. Grazing cultivation under certain limitation and restrictions are allowed in protected forests. The unclassed forests refer to 'inaccessible forests' or 'unoccupied waste'.

#### 7. Inland fisheries :

2.13 The statistics relating to total area suitable for fish culture, ponds, lakes and reservoirs, area under pisciculture, inland fish production and carp fry used for pisciculture are given in table No. 29 (A).

#### 8. Employment, Industry and Electricity:

2.14 The Statistics relating to working factories under different groups with average daily employment, mandays worked, classification of factories according to working strength and number of days worked are given for the year 1974 in table No.s 30, 31 & 32. Statistics regarding number of registered factories productive capital investment, output and employment provided

under different industries based on Annual Survey of Industries for the year 1968 is given in table No. 33. Monthwise registration, vacancies notified, placements done, number of employment seekers on the live register at the end of the month, occupation-wise and sectorial, other data of employment exchange have been shown in table No.s 34, 35 and 37. The information regarding the employment generated under Employment Guarantee Scheme works is also given in table No. 36.

2.15 Data on consumption of electricity by different categories during the year 1975-76 is given in table No. 38 and number of towns and villages electrified during and upto the end of selected years are shown in table No. 39. The data are collected from Maharashtra State Electricity Board, Private Electric Supply companies and Sugar factories in the district.

#### 9. Co-operation

2.16 Statistical information on the co-operative institutions and their activities have been given for the year 1975-76 on the following items:-

- i. Loan advanced by co-operative banks & primary agricultural credit societies - different types of societies, their membership,
- ii. Total value of purchase and sales by the central and primary co-operative marketing societies, and
- iii. Annual arrivals in the regulated markets in each tahsil of Ahmednagar district in tables 40 to 46. Tahsilwise data regarding no. of members, capital structure, loans advanced and recovered etc., have also been given.

Working Capital : It includes paid-up capital, deposits and borrowings. Loans outstanding includes outstanding in respect of loans, cash credits and overdrafts and the amount of the loans

outstanding bills purchased or discounted. Overdues refer to the amount of loans or instalments which was due for collection but which was not actually collected and for the repayment of which no extension has been granted by the competent authority. Information of registered money lenders and loans advanced by them is given in table number 47.

The main functions of Agricultural credit societies are to help members by way of providing short and medium term loans for meeting their agricultural necessities like improved seeds, fertilizers, agricultural improved implements etc. The help is also extended in the matters of storage, transportation and sales of the agricultural produce.

2.21 The agricultural non-credit societies look after the work of better farming by way of educating the agriculturists in adoption improved agricultural practices, crop protection etc. The societies also undertake educational, economical, cultural and house building activities so as to uplift the standard of living of the agriculturists.

2.22. The main function of the Urban Bank, Urban credit Co-operative societies and salary earners co-operative societies is to promote the qualities of economy, and co-operation among the members and also to make them industrious. They also augment the saving habits of the people by way of making the banking facilities easily available. They give loans to the members on the securities like gold, immovable property, Government securities, commercial goods, etc. They also provide loans to the Artisans and small traders.

2.23 The main functions of non-agricultural non-credit societies are to run printing presses, to provide electricity to

to members and consumers for domestic, industrial and agricultural purposes, to run Montessories, primary schools and educational institutions for educational spread and things of the kind.

The main function of primary co-operative marketing societies is the purchase and sale of agricultural produce grown by its members or member co-operative societies in its area of operation.

#### 10. Medical & Public Health :

2.24 In this section, data on medical and Public Health for the year 1975 is given. Table no. 48 gives medical facilities available through public and public-aided bodies in each tahsil along with indoor and outdoor patients treated. Data on 'Vital statistics', e.g. tahsilwise births and deaths and infant deaths registered in the year 1975 with break-up into male and female and number of deaths due to important causes, from the year 1971 to 1975 is given in tables no. 49 and 50 respectively. Vaccination statistics and cholera inoculation done in each tahsil during 1975 is given in table No. 51. Table No. 52 gives statistics on family planning during the year 1975-76.

#### ii. Education

2.25 The data on tahsilwise number of literates and percentage of literacy as per 1971 census are shown in table No. 53. The data on education level of people in rural and urban areas are given in table no.s 54 & 55. The data regarding pupils and teachers with number of institutions in pre-primary, primary secondary and higher categories are presented in table no. 56. The data on backward class enrolment and concessions granted to economically backward class and expenditure incurred ..

under normal and plan grants on primary education in the district is shown in table No.s 57 to 59.

## 12. Transport & Communication :

2.26 Length of railway routes according to gauge is shown in table no. 60. The table No. 61 gives road length according to category and surface classification. Roads maintained by municipal councils/cantonment boards are also shown separately in this table. The data of number of motor vehicles in operation in Pune region covering Pune, Ahmednagar & Sholapur district together are shown in table no. 62. (districtwise figures are not available.) Important operational statistics relating to Ahmednagar District of Maharashtra State Road Transport Corporation are given in table No. 63 (Ahmednagar State Transport division comprises of Ahmednagar district only) Results of traffic census conducted in May-1974 on important roads in the district are given in table No. 64. Statistics on Postal, Telegraphs and telephone facilities and on rural broadcasting are depicted in the table No.s 65 & 66 respectively.

## 13. Local Bodies

2.27 The financial position of Village Panchayats, Municipal Councils and Zilla Parishad is shown in this section for the year 1975-76.

2.28 The number of village panchayats includes number of independent Village Panchayats as also group Village Panchayats, Income and expenditure of village panchayats are exclusive of opening and closing balances respectively. Grants include grants from Government as well as from Zilla Parishad and Panchayat Samities for developmental activities. Government grants to village Panchayats are mainly land revenue grants, equalisa-

equalisation grants and local cess grants. Government grants in respect of municipal councils are mainly grants on account of dearness allowances, grants for roads, for water supply, for educational purposes, for medical purposes and on account of percentage in land revenue. The receipts of Zilla Parishad are under four sub-heads, viz.

- i. Self-raised resources,
- ii. government grants,
- iii. grants for agency scheme and
- iv. Debt section. The expenditure is shown under two heads - Revenue Expenditure & Debt Section.

2.29 The data are collected from the Zilla Parishad Ahmadnagar and all the municipal councils in Ahmednagar district.

#### 14. Plan & Community Development :

2.30 Data on Plan expenditure under State and Local sectors and physical achievements in important fields during the year 1975-76 are given respectively in table no.s 71 & 72. Statistics in respect of coverage of community development programme, stagewise expenditure of various blocks and blockwise physical achievements under community development programme are shown in table no.s 73 to 75.

#### 15. P r i c e s

2.31 The table no. 76 gives monthly average wholesale prices of agricultural commodities transacted in regulated markets. The district average for each variety and for each month is also given.

2.33 The table no. 77 gives the monthly average retail prices of important commodities at Ahmadnagar head-quarter during 1975. As the information collected for the given commodities is restri-

to only one quotation and that also from only one shop in the district head-quarter, the averages shown for individual commodities cannot be said to be fully representative but the data may prove useful as broad indicator of the trend in changes in retail prices over the period of time. The table No. 78 gives consumer price index number for working class of Sholapur and Pune centres for the year 1975-76. For the calculation of index, the years 1960 and 1961 are taken as 'base years', for Sholapur and Pune centres respectively.

#### 16. Miscellaneous

2.33 Statistical data pertaining to police force, crime statistics, cases disposed of in civil and criminal courts, cinema statistics regarding seating capacity in different types of theatres, number of banking offices, number of scheduled banks, their deposits and advances and number of Joint stock companies, insurance policies and amount insured, collection of small savings, land revenue collections, number of presses, newspapers and periodicals published etc. are given in the table No.s 79 to 89.

2.34 A table showing trends in selected indicators in the fields of development, such as

- i. agriculture,
- ii. live-stock,
- iii. industry,
- iv. education,
- v. health, etc.

are indicated for the years 1950-51, 1960-61, 1966-67, 1973-74, 1974-75 and 1975-76 and is appended at the end. These collected indicators are very useful for assessing progress in various fields over important periods in the recent past.

## C H A P T E R III

### Analytical Review of Sectorial Trends

3.1 In this chapter, trends in the various statistical data presented in part II viz. District Statistical Abstract in various sectors of development such as Agriculture, Animal Husbandry, Co-operation, Education, Electricity, Public Health etc. are analysed.

#### AGRICULTURE

Agriculture and allied activities, being the principal means of livelihood, naturally find predominant place in our economy at all levels. To get better idea of the progress in this important sector, some major indicators such as percentage of gross cropped area to the net area sown, and gross and net area irrigated to the net area sown, cropping pattern, yield per hectare of principal crops of Ahmednagar District are discussed. The data for the last two agricultural years 1973-74 (final) & 1974-75 (Provisional) is compared with that of the year 1960-61.

TABLE NO. 1

Percentage of Gross cropped area to net sown area

Sr. No.	Tahsil	1960-61	1973-74 *	1974-75
1	2	3	4	5
	District Total	105.16	106.75	106.07
1.	Ahmednagar	103.39	106.76	105.87
2.	Rahuri	104.05	115.00	105.47
3.	Shrirampur	102.60	117.86	105.21
4.	Newasa	119.13	104.15	103.14
5.	Shevgaon	106.11	104.88	107.80
6.	Pathardi	104.81	102.66	107.56
7.	Jamkhed	105.02	104.95	108.15
8.	Karjat	110.87	102.47	105.28
9.	Shrigonda	106.47	103.24	103.75
10.	Parner	104.22	103.57	106.51
11.	Akola	102.46	103.95	104.12
12.	Sangamner	108.75	108.64	108.20
13.	Kopergaon	104.74	118.09	109.36

\* Revised -- Final data for 1973-74

3.3 From the above table, it would be seen that the extent of double cropping is very small in Ahmadnagar district. The percentage of gross cropped to the net cropped area shows increase in most of tehsils, during 1973-74 and 1974-75 as compared to the year 1960-61. During the year 1974-75 percentages in the tahsils Shevgaon, Kopargaon, Janakhed, Sanganner and Parner were above the district average. When comparison is made in the two years 1973-74 and 1974-75 all tahsils except Kopargaon, Nagar, Shrirampur, Rahuri, Newasa are found to show more percentage of gross cropped to the net area sown. Irrigation helps to increase double cropping, if it is not used for perennial crops. In the district, it will be observed that irrigated area in Kopargaon, Shrirampur, Rahuri etc., pertained to sugarcane which resulted in the insignificant double cropped area.

#### IRRIGATION

3.4. Agriculture is a gamble in Monsoon and hence lack of reliable irrigation facilities hamper agricultural development. It will be seen from the following table that well irrigation occupies a significant place ( more than 73% ) in the district though flow irrigation is ne recently developing in the canal areas of the district.

TABLE No. 2

#### SOURCE-WISE AREA IRRIGATED IN AHMEDNAGAR DISTRICT

sr. no.	source	Net area irrigated in hectares		
		1960-61	1972-73	1973-74
1	2	3	4	5
1	Govt. canals	43,510	41,584	39,786
2.	Private canals	1,745	34	214
3.	W e l l s	89,452	93,702	1,11,993
4	Tanks	787	-	-
5	Other sources	382	-	-
6	<u>T O T A L</u>	1,35,876	1,35,320	1,51,993

3.5 During the reference year of 1973-74, it will be seen that irrigated area is increased by 12.32 percent over the previous year and also raised by 11.86 per cent, when compared to year 1960-61. As compared to 1972-73 gross irrigated area increased in Nagar, Rahuri, Newasa, Shevgaon, Pathardi, Karjat, Shrigonda and Parner, Akola and Sanganner considerably while in Shrirampur and Kopargaon same is decreased. In other tahsils gross irrigated area remained constant or slightly increased.

3.6. In the following table tehsil-wise percentages of gross to net irrigated area and percentages of net irrigated to net sown area for the year 1960-61, 1972-73 and 1973-74 are given.

TABLE No. 3

Percentage of Gross Irrigated Area to Net Irrigated area and  
Net Irrigated area to Net Sown area in AHMEDNAGAR District.

Sr. no.	Tahsil.	1960 - 1961		1972-73		1973 - 74.	
		% of gross irrigated area to net irrigated area	% of net irrigated area to sown area	% of gross irrigated area to net irrigated area	% of net irrigated area to sown area	% of gross irrigated area to net irrigated area	% of net irrigated area to sown area
1	2	3	4	5	6	7	8
1.	Ahmednagar.	104.21	11.40	106.24	6.63	106.76	7.39
2.	Rahuri	108.02	18.58	160.08	23.50	110.41	24.07
3.	Shrirampur	103.66	33.05	105.40	45.85	111.18	41.11
4.	Newasa	121.48	5.56	110.55	11.20	112.93	13.01
5.	Shevgaon	121.74	4.26	113.04	4.22	155.86	3.68
6.	Pathardi	130.92	6.46	124.51	1.95	136.87	5.38
7.	Jankhed	117.53	8.16	119.02	3.45	116.08	3.74
8.	Karjat	117.20	8.09	178.51	3.23	119.23	8.72
9.	Shrigonda	116.33	10.36	110.46	9.29	118.98	11.19
10.	Parner	141.48	6.38	118.69	2.21	132.54	3.57
11.	Akola	136.95	1.28	118.93	1.36	118.50	2.29
12.	Sangarner	124.11	7.42	114.54	13.48	124.06	18.30
13.	Kopergaon	107.06	31.76	106.47	48.79	111.60	39.48
<u>DISTRICT TOTAL</u>		113.68	10.79	110.46	11.62	116.42	12.63

3.7 From the above table, it will be revealed that overall percentage of gross irrigated to the net irrigated area in the year 1973-74 was increased by 5

per cent than the previous year and also as compared to the year 1960-61. Within the district, the percentage was more in 1973-74 in Nagar, Rahuri, Shrirampur, Newasa as compared to the year 1972-73.

The percentage of net irrigated to the net area sown in 1973-74 was slightly more than that in 1972-73 and also when compared to the year 1960-61. The Tehsil Kopergaon, Sanganner, Shrirampur, Rahuri and Newasa showed higher percentage over district average while in respect of other tehsils the percentage was lower. This further reveals the extent of double cropping in the irrigated areas of the district.

### 3.8 PRODUCTIVITY OF IMPORTANT CROPS :

.. Rice, Jowar, Bajra, Sugarcane, Groundnut, Safflower and Cotton are the principal crops of the Ahmednagar district. In the following table comparative position showing yield rate and out-turn of principal crops of the district is given :-

TABLE No. 4

#### YIELD RATES OF PRINCIPAL CROPS & THEIR OUT-TURN IN AHMEDNAGAR DISTRICT

sr no	C r o p	Year	Ahmednagar district	
			Yield Rate in kg. per hectare	Out-turn in '00' metric tonnes.
1	2	3	4	5
		1961-62	1,119	11,6
1	Rice	1973-74	1,155	6,7
		1974-75		
2.	Jowar (Kharif & Rabi)	1961-62	277	1,78,5
		1973-74	423	2,38,0
		1974-75	406	2,37,6
3.	Safflower	1961-62	N.A.	N.A.
		1973-74	N.A.	N.A.
		1974-75	N.A.	N.A.
4.	Bajra	1961-62	186	48,1
		1973-74	416	1,48,8
		1974-75	362	1,04,8

..continued....

TABLE NO. 4 (CONTD)

1	2	3	4	5
5.	Sugarcane (in terms of Gur)	1961-62	11,207	3,99,4
		1973-74	7,446	3,72,3
		1974-75	11,635	4,08,4
6.	Groundnut	1961-62	418	13,0
		1973-74	836	10,2
		1974-75	806	10,4
7.	Cotton @	1961-62	71	3,1
		1973-74	180	4,3
		1974-75	237	9,5

Revised figures for 1973-74

@ Out-turn in terms of hundred bales of 180 Kg. each

For 1974-75 Out-turn in terms of hundred bales of 170 Kg. each

3.9 It will be seen from the above table that during 1974-75 there is rise in case of yield rates of Rice, Sugarcane, Cotton while the yield rates have gone down in case of Jowar, Bajara and Groundnut when compared to the previous year.

CROPPING PATTERN

3.10 Perusal of the data indicating cropping pattern in the following table will show that percentage of area under cereals to the gross cropped area decreased while percentage of area under pulses increased in the year 1974-75 over previous year. The percentage of area under cash crops like Sugar Cane and Cotton has increased but the area under Groundnut slightly decreased. However while comparing the area percentage of the year under reference to 1960-61 it will be seen that area under cereals reduced while that under pulses, Sugarcane, increased. There is down-ward trend in area under total food crops and upward trend in non-food crops as compared to 1960-61.

(Contd)...

TABLE NO. 5

Percentage of Areas under various crops in AHMEDNAGAR DISTRICT

Sr. No.:	C R O P S	Percentage distribution of area		
		1960-61	1973-74	1974-75
1	2	3	4	5
1.	Total Cereals	73.76	74.72	69.64
2.	Total Pulses	7.75	8.92	9.00
3.	Total food-grains	81.51	83.64	78.64
4.	Sugarcane	2.73	3.80	4.45
5.	Total food crops	85.15	88.33	84.06
6.	Cotton	2.45	0.32	0.45
7.	Groundnut	2.37	0.93	0.85
8.	Total non-food crops.	14.85	11.67	15.94
9.	Total food-crops & Non-food crops.	100.00	100.00	100.00
10.	Gross cropped Area in Hectares.	1323643	1316430	1284537

(Figures for 1973-74 revised)

3.11 Agricultural Credit and Outstanding dues :

The position given in the following table in this respect gives idea about the co-operative credit structure in AHMEDNAGAR District for the year 1961-62, 1974-75 & 1975-76. During the year 1975-76 loans advanced are less than the year 1974-75. The position of out-standing loans is some what better than the previous year but the position of overdues is warsening. (Contd)..

TABLE NO. 6

Agricultural Credit Facilities in AHMEDNAGAR DISTRICT During the  
Year 1961-62, 1974-75 & 1975-76

Sr.No.:	I	T	E	M	S	: 1961-62	: 1974-75	: 1975-76
1	:	2	:	3	:	4	:	5
1.	No. of Agril. Credit Socys.					1,040	1,094	1,096
2.	Loans advanced (Rs. in lakh)					513.61	1,653.90	1265.99
3.	Out-standing loans ("")					566.29	2387.76	2228.15
4.	Overdues (Rs. in lakh)					71.43	1089.95	1275.96
5.	Percentage of recovery to the outstanding loans.					66.7	59.21	53.28

AGRICULTURAL WAGE RATES

The data on the subject is collected every fortnight from the representative agriculturists of the selected centres Akola, Belapur and Karjat. In the following table average annual wage rates paid by the selected cultivators of the above centres to the wage earners (Male and Female) in the year 1974 and 1975 are shown

TABLE NO. 7

Agricultural Wage Rates (Per day) in the selected centres of  
AHMEDNAGAR DISTRICT during 1974 and 1975

Centre	Wage Earners	Average Wage Rates in	
		1974 (Rs.)	1975 (Rs.)
1	2	3	4
1. Akola	Male	3.00	3.00
	Female	2.00	2.00
2. Belapur	Male	3.00	3.00
	Female	2.00	2.00
3. Karjat	Male	3.00	3.30
	Female	2.00	1.80

3.13 It is seen from the above table that wage rates in all the three centres except Karjat are same for male and female and show increasing trend due to the decision taken by Govt., in respect of wage rates of Agricultural Labour. The average Wage rate paid to skilled labour viz. Cobbler was Rs. 5.24 and for Blacksmith Rs. 5.91 during the year under reference. The wages to these labourers are generally paid in kind.

3.14 ANIMAL HUSBANDRY : As Cattle rearing is subsidiary occupation to agriculture development, Livestock, Poultry etc. form important part of our economy. The data for certain important items from the quinquennial Live-stock census of 1966 and 1972 for Ahmadnagar District is given below :

TABLE NO. 8

Live-stock in AHMADNAGAR DISTRICT as per 1966 and 1972 Live-stock

		Census		(Figures in lakh)	
Sr.No.:	Category	1968	1972	Percentage (Increase or Decrease)	
1	2	3	4	5	
1.	Cattle	8.76	8.16	(-)	7
2.	Buffaloes	0.80	0.88	(+)	10
3.	Total Bovine	9.56	9.04	(-)	5
4.	Total Live-stock	17.66	17.73	(+)	0.4
5.	Poultry	6.90	7.73	(+)	12

It will be seen from the above table that total live-stock Poultry and Buffaloes in 1972 have increased over 1966 whereas total bovine population has declined. The no. of live-stock was 134 per hundred hectares of cultivable area in 1966 and it is 135 on the basis of 1972 census. Gross cropped area per pair of working bullocks in 1965-66 was 8.1 and as per 1972 census

it 6.90. Further analysis of Live-stock data of 1972 census shows that live-stock has increased as compared to the year 1966 in tahsils Akola, Sangamner, Shrirampur, Newasa, Shrigonda, Karjat and Jamkhed while the same has declined in other tahsils.

Poultry population per 1000 human population (of 1971 census) is 340 as per 1972 census, as against 388 in 1966 census.

3.15 ELECTRICITY : Progress in the field of electrification is a meaningful indicator of development. At the end of March-1976 all the six towns and 961 out of 1317 villages (viz. 73 percent) were electrified and 84 percent of rural population was covered. The per capita consumption of electricity during 1975-76 was 122.07 K.W.H.

3.17 EMPLOYMENT EXCHANGE STATISTICS : Problem of educated and uneducated unemployment is becoming severe day by day in spite of attempts on the part of the state and public sector employers to provide jobs to the unemployed. The present available data regarding registration, notified vacancies, placement etc. with employment exchange office is having limitation as a fair idea about un-educated un-employed is not available. During the year 1975-76 no. of registration was 10,080 and 16,746 persons were on the live-register of Ahmadnagar employment exchange at the end of the year. As compared to 1974-75 the registration is increased by 11.78 percent and no. of persons on live-register is also increased 12.50 percent. During the reference year 1975-76 total placement is 557 which is 152.60 percent of last year. Total No. of employees in various sectors was 78,767.

3.17 MEDICAL AND PUBLIC HEALTH : Data regarding medical and public health facilities available through public and public aided bodies in Ahmadnagar District in the year 1961, 1974 and 1975 is denoted in the following table . (Contd)...

TABLE NO. 9

Medical Facilities and Patients treated in the year 1961, 1974  
& 1975 in AHMADNAGAR DISTRICT

Sr.No.:	I	T	E	M	Position in the year		
					1961	1974	1975
1	2			3	4	5	
1.	Hospitals			2	9	9	
2.	Primary Health Centres & Sub-Centres.			13	73	131*	
3.	Doctors & Vaidyas			27	145	188	
4.	No. of Beds			274	758	784	
5.	No. of Patients treated						
	a) Indoor			16,607	86,557	44,073	
	b) Out-door			221,502	6,67,670	7,12,000	

\* Inclusive of sub-sidised medical practioners' centres, Public Health Unit and Primary health sub-units.

3.18 From the above statistics, it will be observed that there is considerable increase in the medical facilities available in Ahmednagar district in the year 1975 as compared to the 1961. It will be seen from the above data that the no. of Beds is increased. The no. of indoor patients is decreased and outdoor patients treated is increased in comparison with 1974.

3.19 : Education : As compared to the year 1974-75 during the year 1975-76 Primary Schools are increased by 13 while the Secondary schools increased by 2 and higher institutions is decreased by one in Ahmednagar District. So also increase in no. of pupils and teachers in all the categories of institutions is noticed. The ratio of students per teacher in the primary, Secondary and Higher institutions was respectively, 35, 30, 28 during the reference year.

3.20 Transport and Communication : Rail length in the District viz. 197 Kms. on Dhond Manmad broad gauge remained unchanged as on 31-3-76 with 18 railway stations in Ahmadnagar District.

The following table shows surface classification of road length in the district as on 31-3-61, 31-3-75 & 31-3-76

TABLE NO. 10

Surface classification of Road Length in Kms. as on 31-3-1961  
31-3-75 & 31-3-76 in AHMADNAGAR DISTRICT

Sr.No.:	Type of Surface	Road Length in Kms. as on		
		31-3-61	31-3-75	31-3-76
<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>
1.	Cement Concrete	108	112	112
2.	Black Topped	106	646	747
3.	Water bound macadam	1,658	1,735	1,636
4.	Others	1,152	8,154	8,224
5.	Total	3,024	10,647	10,719

3.21 From the above, it will be seen that the total road length in the district has increased by more than three times as compared to the year 1961. The Road Length per 100 Sq. Kms. area was only 18 Kms. as on 31-3-61 and same is 63 kms. as on 31-3-76.

3.22 Banking : Development of Sound Banking system is indicator of development. In the year 1961-62 there were only 2 banking offices per lakh of population in the district which rose to 8 in 1975 as per 1971 population census. During the reference year banking offices, increased by 23 total being 176 of which 62 were scheduled banks and 114 co-operative banks.

3.23 Prices : Rising prices and increased cost of living are the phenomena, which a common man is required to face these days. The cost of living index is compiled at Pune and Solapur centres with base years 1961 and 1960 respectively. The general index at Pune rose to 296 in the year 1975-76 where-as Solapur general index stood at 342. At both the centres food group

index has gone up over previous year. Even the same observation holds good in respect of the average prices of most of the commodities collected in the selected shops at the district head-quarters every week. Significant rise in prices of Rice Wheat Edible oils, Wanspati, Clothing items etc. is noticed in the average prices of the year 1975 when compared to 1974.

-----

CHAPTER NO. IV

ANNUAL PLAN - 1975-76

The year 1975-76 is the second year of the Fifth Five Year Plan. In accordance with the Government decision that district should be treated as a 'Unit' for Planning a separate Draft Fifth Five Year Plan for Ahmednagar district was prepared.

The Government has indicated an allocation of Rs. 45.81 crores. The district & development council of Ahmednagar District for the district/has, however, proposed a total outlay of Rs. 55.6 crores for the Fifth Five Year Plan taking into consideration the scarcity conditions and other specific problems prevailing in the Ahmednagar district. On the same consideration annual plans for the year 1974-75 and 1975-76 were formulated by the District Planning and Development Council on the higher scale of Rs. 9.18 crores and Rs. 8.86 crores respectively as against the corresponding stipulated amounts of Rs. 5.14 crores and Rs. 6.87 crores indicated by the Government. With the formulation of District Planning and Development Council in the year 1974-75 there has been a slight change in the procedure of review of the Plan schemes and formulation of annual plans, which now fulfills various state level programmes along with the District level plan schemes. Accordingly, a review of the various schemes has been presented in the following paragraphs according to the classifications of schemes into state sector and Local Sector depending on their actual operations.

Table No. 1 given below indicates the expenditure incurred on various district level plan schemes in Ahmednagar district during the Fourth Plan period and during the first two years of the Fifth Plan.

(Contd)...

	<b>Total B</b>	<b>37.47</b>	<b>328.48</b>	<b>365.95</b>	<b>17.17</b>	<b>21.62</b>	<b>38.79</b>	<b>21.42</b>	<b>33.13</b>	<b>54.5</b>	
	<b>Total 'A' + 'B'</b>	<b>1040.78</b>	<b>889.69</b>	<b>1930.47</b>	<b>819.16</b>	<b>99.09</b>	<b>918.25</b>	<b>735.42</b>	<b>861.04</b>	<b>1574.95</b>	

It will be seen from the above table that the total amount of Rs. 19.40 crores was spent on State and Local Sector Schemes implemented in Ahmednagar District during the Fourth Plan period. The Budget allotments for all schemes were almost utilised. Similarly, grants allotted for the annual plans under review were fully utilised. The amount of expenditure

incurred during each year of the Fifth Plan was more than double the average annual expenditure incurred during the Fourth Plan period in Ahmednagar district.

STATE PLAN : AGRICULTURAL PROGRAMME :

The Plan schemes under this major head assumed high importance in the district Plan. During the Fourth Plan more than 44% of the total expenditure was incurred on Agricultural Programmed In the annual plans of 1974-75 and 1975-76 respectively 23% and 21% of total outlay was earmarked for the various schemes under Agricultural Programme. However, actual expenditure exceeded these allotments in practices. The following Table No. 2 presents comparative picture of expenditure incurred under the various sub-heads of development under Agricultural Programme during the Fourth Plan period and first two annual plans under reference.

TABLE NO. 2

Progress of Expenditure under various Sub-heads under Agricultural Programme during Fourth Five Year Plan & years 1974-75 & 1975-76 (Rs. in lakhs)

Sr. No.	Sub-Head of Development	Fourth Plan	Annual Plan	Budget	Expenditure incurred in 1975-76			Percentage to the Budget provision

\* Percentage for half share of the district.  
= 33 =

The above table reveals that the amount of expenditure under Agricultural Programme has shown overall decrease during 1974-75 and 1975-76 when compared with the annual average expenditure during the Fourth Plan period.

The expenditure on Minor Irrigation, D.P.A.P., Animal Husbandry Dairy Development etc was comparatively more during the year 1975-76 than 1974-75. The reason for this may be attributed to the major emphasis on D.P.A.P. Programme and other relative schemes. The achievements under D.P.A.P. Programme in Ahmednagar district are worth mentioning.

Activities under this Programme have been undertaken in nine water sheds of the district with the assistance of the World Bank.

The Table No. 3 below gives the present progress of physical achievements of various schemes under taken under Agricultural Programme in Ahmednagar district during the Fourth Plan and the annual plans 1975-76.

TABLE NO. 3

CO-OPERATION & COMMUNITY DEVELOPMENT :

The total amount of Rs. 31.50 lakh was spent on this head of development during the Fourth Plan period. During the years 1974-75 and 1975-76, amount of Rs. 78.15 and Rs. 26.28

respectively was spent on various activities undertaken regarding Co-operation and Community Development. The amount of expenditure thus spent during the year 1975-76 was comparatively less than 1974-75. The reason for this less expenditure is some schemes are discontinued and co-operative Sugar factories were not assisted by D.P.D.G. during the year 1975-76.

The major physical achievements during the Fourth Plan include the formation of more than 100 societies of different types and financial aid of Rs. 83 crores. During the year 1975-76 in all 30 societies and Mula Co-operative Sugar factory were assisted with the aid of Rs. 13 crores as a credit as against the (Contd).

incurred during each year of the Fifth Plan was more than double the respective amount of Rs. 17 crores in the Fourth Plan. The average annual expenditure incurred during the Fourth Plan period in Ahmednagar district.

The entire area in the district has been under the activities of C. D. Programme since long. In addition to the STATE PLAN : AGRICULTURAL PROGRAMME, special programmes, routine activities of the C. D. Programme, special programmes;

The Plan schemes under this programme assumed high importance in the district Plan. During the Fourth Plan, more than Special Programmes have been undertaken in the district.

44% of the total expenditure was incurred on Agricultural Programme. In the annual plans of 1974-75 and 1975-76, Akola, tahsil Pathardi, Sanganner, Akola and Jamshed were declared as two Tribal Development blocks, viz. Rajur and Akola, respectively.

23% and 21% of total outlay was earmarked from various schemes under Agricultural Programme. However, in the Fourth Plan amount of Rs. 87.27 lakhs was spent on the various sub-heads.

III. IRRIGATION & POWER : During the Fourth Plan, the expenditure incurred exceeded these allotments, in practice. The following schemes of this programme in the Ahmednagar district. The following Table No. 2 presents comparative picture of expenditure incurred against the budget allotments of Rs. 2.72 crores and Rs. 2.72 crores respectively under the various sub-heads of development under Agricultural Programme during the Fourth Plan period and the two annual expenditure figures were Rs. 2.72 crores and Rs. 2.72 crores.

Plans under reference. budget allotments could not be utilised fully.

The large proportion of expenditure was incurred on major projects, such as Kukadi, Uppar Godavari, Mula, and irrigation projects viz. Seena, Adhala, Ghatsani, Sangner & Pargana.

Progress of Expenditure under various Sub-heads under Agricultural Programme during Fourth Five Year Plan & Years 1974-75 & 1975-76 (Rs. in lakhs)

Sr. No.	Sub-head of Development at Adhala	Budget		Expenditure incurred during 1974-75			Percentage to the Budget

	Total Agril. Prog.	695.58	199.51	166.36	179.80	346.16	100

(Contd)...

Rs. 28.10 lakh during the previous year. In all 18 villages were electrified and 80 agricultural pumps were energised during the year 1975-76. More than 75 percent villages in Ahmednagar district have been electrified and 25,000 agricultural pumps have been energised so far.

IV INDUSTRY & MINING : For the various schemes under this head of development an expenditure of Rs. 12.45 lakh for extending financial assistance to the industrial co-operative societies and industrial estates etc., in this district was incurred, during the fourth plan period. Amount of expenditure incurred during the year 1975-76 is slightly less (by 10 percent) than that in the previous year. During the reference year package scheme of incentives to the industrial units through S. I. C. O. M. for reimbursement of sub-sidies was implemented and under Small Scale industries Programme, industrial estates at Ahmednagar, Kopergaon, Shrirampur and Block level artisan societies were given financial aid. Besides 504 beneficiaries were helped under the scheme of supply of seed money to educated unemployed persons who started their own enterprises with the help of Nationalised banks and Western Maharashtra Development corporation.

#### V. TRANSPORT AND COMMUNICATIONS :

Road development programme is significantly important in this district. In view of the fact that there is only single railway link from Dhond to Manmad, during the fourth plan period Rs. 74.79 lakhs were spent on constructions of different District Roads measuring more than 250 Kms. bridges, culverts etc., under the State and Local sector schemes.

An expenditure of Rs. 17.76 lakhs was incurred during the

(Contd)....

year 1975-76 on different types of road works, including 27 road works under district roads, hilly and inaccessible areas and two works under minimum needs programmes.

#### VI. SOCIAL SERVICES :

This programme has assumed special importance in relation to the uplifting of weaker section of the society. As such, considerable amount (Rs. 6.17 crores) of the Fourth Plan expenditure (more than 40 percent) was utilised for the schemes under this programme. Similarly, 15 percent of the total annual plan expenditure in the year 1975-76 was spent on the various schemes of Social Services. In the following table, comparative progress of expenditure in the Fourth Plan and first two annual plans is indicated.

TABLE NO. 4  
Progress of expenditure under the 'Social Services' according  
to the various Sub-Heads during Fourth Five Year Plan and  
the years 1974-75 and 1975-76

(Rs. in lakhs)

Sr. No.	Sub-Head of Development	Progress of Expenditure							Per-centage

1	2	3	4	5	6	7	8	9	
1.	General education.	279.17	18.52	52.87	26.07	24.14	50.21	95	
2.	Public Health	15.62	1.80	1.90	--	0.16	0.16	8	
3.	Applied Nutrition	--	1.71	0.96	--	1.21	1.21	126	
4.	Water supply & Drainage.	269.49	72.23	40.10	50.83	0.12	50.95	127	
5.	Housing	25.38	1.31	14.47	22.05	0.40	22.45	155	
6.	Urban Development.	1.15	--	0.16	0.16	--	0.16	100	
7.	Welfare of Backward classes.	15.45	1.56	18.24	6.81	7.82	14.63	81	
8.	Social Welfare	--	0.13	0.60	0.25	--	0.25	42	
9.	Labour and Labour Welfare	10.41	1.09	0.50	0.99	--	0.99	198	
TOTAL SOCIAL SERVICES.		616.67	98.35	129.80	107.16	33.85	141.01	109	

It will be seen from the above table that more than 80 per cent of the total expenditure was booked on General Education, Water supply and Housing. State Government has given special emphasis on the intensive implementation of Social Welfare activities under Twenty Points Economic Programme, and as such the expenditure figures relating to General Education, Housing, Backward Class Welfare, Social Welfare etc., show significant increase, during the first two annual plans.

Physical achievements under Social Services Programme are presented in the following Table No. 5 :-

**TABLE NO. 5**

**Physical achievements under important items under 'Social Services' during Fourth Plan and the years 1974-75 and 1975-76**

9.	Beneficiaries under Thatched roofs.		"			--	64	28

(CONTD)...

VII. MISCELLANEOUS : An amount of Rs. 0.18 lakh was spent on the schemes of Rural Broadcasting and Television. Twenty four radio and four television sets were distributed during the reference year.

The district has ensured effective implementation of Employment Guarantee scheme introduced by the State Govt. has attached very high importance to the Employment Guarantee Scheme Programme. Financial and Physical achievements in respect of Employment Guarantee Scheme are indicated in Table No. 36 of the abstract. Many of the incomplete scarcity works were diverted under the Employment Guarantee Scheme Programme and the same are completed, viz. 186 percolation tanks, 9 village tanks, 8 Road works, 70 canal works, 7 field channels etc. About 40,000 labourers in the district were provided with employment on Employment Guarantee Scheme works during the period.

B. CENTRALLY SPONSORED SCHEMES :

Total amount of Rs. 365.95 lakhs was spent on the implementation of the various Centrally-sponsored schemes relating to Agriculture, Co-operation, Community Development, Social Services and Miscellaneous Programme. Similarly Rs. 38.79 lakhs and Rs. 54.55 lakhs were spent on schemes during the year 1974-75 and 1975-76 respectively. Rise in the expenditure in the year 1975-76 can be attributed to the intensive activities of the Family Planning Programme under which 26,073 sterilization operations were carried out in this district during the year 1975-76 as against the respective figure of 7,653 in 1974-75.

C. TRIBAL SUB-PLAN :

This sub-Plan for the overall economic development and welfare of 106 villages from Akola tahuka of this district is

required to be accommodated within the frame work of the District's Annual Plans. In view of the Government Directives in the year 1975-76 a beginning in this direction was made and Rs. 29.52 lakhs were spent on the various schemes under this programme. The physical achievements under this programme are indicated in the following table.

TABLE NO. 72

Important Physical Achievements under Plan in AHMEDNAGAR DISTRICT

for the year 1974-75 & 1975-76

Sr. No.	Head of Development/Sub-Head	I	T	E	M	Unit	Physical Achievement in		
							1974-75	1975-76	
1	2	3			4	5	6	7	
I.	AGRICULTURAL PROGRAMME	1) Improved seed distribution.							
		a) Food-grain by type							
						qtls.			
							18,509	4,002	
								1,553	
						ii) Wheat	52,069	9,445	14,010
						iii) Bajara (Hy.)	7,980	856	1,548
						iv) Paddy	394	343	190
						b) Cotton	4,130	29,60	318
						c) Oilseeds	1,874	462.68	4,551
						d) Other Sugar-cane	No. 11718380	914765	440488
		2) Distribution of improved Agril. implements.							
						a) Iron Plough	No. Nil	8	Nil
						b) Dry Farming sets	No. Nil	Nil	50
						c) Other implements	No. Nil	Nil	Nil
		3) Additional Area covered by Fruits							
						Hect.	474.50	Nil	Nil
		4) Soil Conservation.							
						a) Area bunded	126178	3,145	18,098
						b) Area terraced	173.18	Nil	Nil
		5) Chemical Fertilisers distributed							
						a) Amonium sulphate	M. T. 11,325	318.20	400
						b) Super phosphate	21,232	590.30	8,500
						c) Fertiliser Mixtures.	56,559	14,300	22,500

TABLE NO. 72 (CONTD)

1	2	3	4	5	6	7
		d) Urea	M. T.	54,201	3364.90	11,500
		e) Others	"	9,709	4611.50	1,450
		6) Compost production & Other Manurial resources.				
		a) Compost pits dug	No.	14,237	2,497	1,062
		b) Compost prepared	M. T.	231293	45,080	5,313
		c) Hand flush latrines distributed.	No.	Nil	Nil	Nil
2)	<u>IRRIGATION</u>	7) New wells constructed.	No.	1,631	240	367
		8) Old wells repaired	No.	Nil	Nil	94
		9) Pump sets installed	No.	3,132	255	194
		10) P. T. & Bandharas constructed.	No.	178	29	Nil
		11) Bandharas repaired	No.	Nil	Nil	Nil
		12) Additional Irrigation Potential created by item 8 to 11	Hect.	24,517	81	3,826
4)	<u>ANIMAL HUSBANDRY</u>	13) Veterinary Dispensaries & Veterinary aid centres.	No.	Nil	Nil	Nil
		14) Artificial insemination centres started.	No.	Nil	Nil	Nil
		15) Cattle Breeding centres started.	No.	Nil	Nil	Nil
		16) Poultry Breeding fam.	No.	Nil	Nil	Nil
		17) Cattle breeding societies.	No.	Nil	Nil	Nil
		18) Loans for Cattle purchased.	No.	Nil	Nil	Nil
		19) Coop. Milk Societies & Federations Assisted.	No.	43	13	22
4)	<u>FOREST</u>	20) Afforestation of Area.	Hect.	1,244	810	1,972
		21) Plantation of valuable trees.	"	1,072	60	175
