CHAPTER - I

INTRODUCTION.

1.1 - Location

Jalgaon District lies between 20° and 21° north latitude and 72°-23' and 76°-23' east longitude.

1.2 - Boundaries

This district is bounded on east by Buldhana District of Vidarbha on north by Madhya Pradesh, on the west by Dhulia District and on the south by Aurangabad district of Marathwada.

1.3 - Topography

The Tapi river passes through the centre of the district from east to west. Tapi and its tributaries drain the Jalgaon district and take their course to the west towards the Arabian sea. Jalgaon district is separated from Madhya Pradesh by the Satpudas and from Deccan by the Satamala hills.

1.4 - Hills and Rivers

There are three main systems of hills in the district. The Satapudas in the north, Satamals in the south and the west and Hatti hills in the south-east. The Satpuda which runs from east to west covers the northern tahsils viz Raver, Yawal, Chopda. It is a broad belt of mountain land along the north bank of Tapi river. The Hatti hills run north-west and south-east and are mainly in Edlabad tahsil. The Satamala hills are covering about 120 kms. of the southern parts of the district and are mainly spread in Chalisgaon and Janner Tahsils.

1.4.1- Rivers

The major river of the district is Tapi and its course in Jalgaon district is of 120 km. The whole Tapi river valley from this district is flat and fertile. During its course in the district the Tapi receives Bhokar, Suki, Mora, Harki, Aner and Guli from the north and Bori from the south.

Rivers from the north are small and of little use for irrigation. Rivers joining from the south to the Tapi drain much wider tracks. The second major river in this district is Girana which enters the district from south east. It flows in this district in north-east direction, till near ~~Erander~~ X (Erander) Jalgaon town and then turns north and later in north-west direction to join Tapi at Nanded village in Amalner tahsil. Waters of Girana and Bori are much used for irrigation. The proposed major project of irrigation at Hatnur in Jalgaon district on Tapi river has got irrigation capacity to the tune of 37000 hectares of area which shows that the Tapi has very high potential for irrigation. No river is navigable in this district.

1.5 - Soils

The soils of this district are wholly derived from the trap or basalt. They can be broadly classified into five categories- 1) Deep-black, 2) Medium-black, 3) Forest, 4) Loam and 5) Sandy.

1.5.1.

Deep black soils are restricted to deeper valley and low lying area. This type of soils are observed in northern part of Amalner, Erander, Jalgaon, Bhusawal and Edlabad tahsils.

1.5.2

Medium black soils cover a large proportion of the district. This type of soil is found in southern parts of Yawal, Raver and Chopda Tahsils; northern portion of Pachora and Jamner tahsils. Soils of Erander, Chalisgaon, Amalner, Bhusawal, Jalgaon and Bhadgaon tahsils also belong to a large extent to this type.

1.5.3

Forest soils cover almost more than half of the northern and a portion of Raver, Yawal and Chopda tahsils.

1.5.4

Loam soils are observed in the southern most part of Amalner, Erandol, Jalgaon, Bhusawal, and Edlabad tahsils.

1.5.5.

Sandy soils are observed on the slopes of the Satpuda ranges and near the southern hillocks in Chalisgaon, Pachora, Jamner, Bhusawal, Parola, Erandol and Bhadrachal tahsils.

1.6 - Climate

The climate of Jalgaon district is generally dry except in the monsoon. The year can be divided into four seasons.

- 1) June to September is the Monsoon season.
- 2) October to November is the Post Monsoon Season.
- 3) December to February is the cold Season.
- 4) March to May is the Hot Season.

As the district is far waway from the coastal tracks, there are large variations in the day and night temperatures. Within the district the seasons shown local variations. The Tapi valley is the hottest part of the district. In the Satpuda the heat is some what tempered by the forest. Southern part is a little cooler as compared to Tapi valley. The monthly temperature record is available only for one station i.e. Jalgaon. The maximum temperature in 1975 was 42.7 centigrade, while maximum temperature was 5.5 centigrade recorded at Jalgaon centre. The temperature begins to rise steadily from beginning of March. The hottest month of the year is May.

1.7 Rainfall

The average annual rainfall in the district is 826.8 mm. About 77% of the annual rainfall is received during monsoon. Rainfall is not uniform in all parts of the district. The central part of the district covering Jalgaon, Bhusawal, Pachora and Amalner tahsils receives comparatively more rainfall than the rest of the district. The rain starts about ⁱⁿ the middle of June and lasts till the end of September. Pre-monsoon showers are generally received in May. The average annual rainfall for all the tahsils in this district for 1975 is above the normal rainfall except in case of Yawal, Edlabad, and Bhusawal tahsils.

1.8 - Minerals

There is dearth of important minerals in this district. Trap is found every where in the district and it is used for construction purposes.

1.9 - Forests

The total area under forests in this district is 1,90,600 hectares, which accounts for 16.37% of the total area. Forests are mainly on the slopes of Satpuda in Chopda, Yawal and Edlabad Tahsils. There are also forest areas in Jalgaon, Jamner, Bhusawal, Pachora, Chalisgaon, Amalner and Erandol tahsils which are on the plains. The important forest produce is timber.

1.10 - Area

The total geographical area of the district is 11,771.0 sq.km. Urban area accounts for 274.9 sq.km. and rural area accounts for 11,496.1 sq.km. The area of this district is only 3.8 percent of Maharashtra State. Jalgaon district has 1451 villages (1423 inhabited and 28 uninhabited) and 15 urban centres as per 1971 census.

Since independence there are no territorial changes in the composition of this district except one in the year 1950. Thirteen enclave villages which formed part of Chalisgaon tahsil were transferred to Aurangabad district.

1.11 - Population

The population of Jalgaon district as per 1961 census was 17,65,047 and as per 1971 census it is 21,23,121 out of which 10,39,840 are males and 10,33,281 are females. The urban population forms 23.65% of the total population. The percentage of schedule castes and schedule tribes to the total population of the district is 4.13 and 5.89, respectively. It accounts for 4.7% of the population of Maharashtra State. As far as population is concerned, it stands 6th among 25 districts in Maharashtra State. Table No. 1.11 will give comparative position of some important features such as occupied houses, number of households, population etc. based on 1971 and 1961 census.

1.12 - Special features1.12.1 - Agricultural Production.

The whole economy of Jalgaon District is mainly dependent on agricultural Production. Out of total Gross cropped area, only 12% of the area is under Irrigation. Hence major portion of the Agricultural production is derived from Dry land farming. However efforts are being made to bring more land under irrigation. After the completion of Hatnur, Suki, Bori, and Aner irrigation projects, percentage of Area irrigated is likely to be stepped up upto 20%. Within the period of 2 years, as these projects are in the stage of nearing completion. Though percentage of total area irrigated is only 12% at present important irrigated crops like, Banana, Sugar-cane, Wheat and Jowar are grown and yield rates of these irrigated crops are encouraging. Jalgaon District with its 29000 hectares of land under Banana crop produces nearly Seven lakh tons of Banana which is sold all over India and also exported to some foreign countries. Area under Irrigated wheat has also shown increasing trend in recent years and nearly 55000 M.Tons of Wheat is produced by this district in the Rabi season of 1975.76. Hy-brid Jowar crop has taken the place of Govaran Jowar and during the year 1975-76 it is ~~estimated~~ estimated that nearly 70000 Hect. of land was brought under hy-brid Jowar and production of H.Jowar was to the tune of 70000 M.Tons.

1.12.2 - Agro-Industries

Taking into consideration potentiality of various agriculture produce of different types in this district, efforts are made to start following Agro-Industries in this district.

1) Sugar Factories

Three Co-operative Sugar factories viz, -i) Vasant Sahakari Sugar factory, ii) Madhukar Sahakari Sugar factory and iii) Belhanga Sahakari Sugar factory are established in this district and all these factories are in a position to start production in the year 1976-77.

2) Spinning Mills

Two co-operative spinning Mills (i.e. Bhusawal and Nagardeola) are working in the district and progressing well for the last five years. Bhusawal co-operative spinning mill has expanded its spindle capacity in the year 1975-76.

3) Dairy

Milk production is also one of the most important industries from this district. Government has already established Govt. Milk scheme at Chalisingaon in 1969 and this centre is collecting nearly 15000 liters of milk per day and same is despatched to Bombay. Besides this, with the help of National dairy corporation of India and World Bank, Jalgaon District Dhadha Vikas Federation has been established in Co-operative sector at Jalgaon. The total cost of the project is Rs. 5 crores with capacity to handle nearly 1,00,000 litres of milk per day. Construction work of this project is already completed and project has started functioning since February-1976. It is expected that in the flush season of 1976-77, this project will be able to collect 1,00,000 litres of milk per day which will be despatched to Bombay every day.

1.12.3 - Industries

There are nearly 200 Registered factories in the district. Out of which following types of Industries are important from the economic point of view of the district.

1) Cotton Textile Mills-

There are 3 big cotton textile mills in the district, wherein more than 5000 labourers are employed.

2) Vasaspati Ghee and Hydrogenated Oil Producing mills.

Two big units viz one at Amalner and another at Pachora are working in the district. Both the units have employed more than 800 labourers.

3) Oil Mills

There are nearly 30 oil mills of medium size in the district wherein nearly 1000 labourers are employed.

4) Ginning Cotton Ginning and Pressing units.

There are nearly 40 Ginning and Pressing units registered in the district. But all these units are not in operation for want of supply of sufficient cotton. However, nearly 15 to 20 units are in operation every year and nearly 3,000 labourers are employed seasonally.

5) Industrial Estates

Two industrial estates, one at Jalgaon and the other at Bhusawal are fully developed and nearly 38 units in Jalgaon industrial estate and 18 units in Bhusawal industrial estates have started production. Besides this, proposals of 3 more industrial estates at different urban centres in the district are in progress.

6) Varangaon and Bhusawal defence projects.

at Bhusawal one small unit of defence project is functioning since long.

Besides this, one big Defence project at Varangaon has been opened which has created great employment potential for the local people.

7) Central Railway Work Shop and Loco-shed of Bhusawal.

Bhusawal is an important railway junction of Central and Western railways and big work-shop and loco-shed units are functioning at Bhusawal.

8) Fekari Power Station.

One of the power-generation station of Maharashtra State Electricity Board located at Fekari, Tahsil- Bhusawal and nearly 400 labourers are employed in this power station.

CHAPTER - II

EXPLANATORY NOTES -- on the scope and limitations
Abstract
of data presented in Part-II, Statistical Abstract, 1975-76.

2.1 - Purpose and Scope.

In this chapter, short notes on the tables presented in the abstract are given indicating the source of the data, definitions of the terminology used, its scope, limitations etc. There are in all 90 tables presented in this statistical abstract. The present issue relates to 1975-76 and detail information is given for this year in most of the tables. However, in some of the cases the data for 75-76 was not available. In such cases, data for the latest available year is given.

2.2 - Area and population.

There are 7 tables in this group and all these tables are based on data of 1971 census. Table No.1 gives tahsil-wise area and population, while its break-up into Rural and Urban, as well as male and female, decadal variation for 1951, 1961 and 1971 is presented in table No.2. Figures for these two tables are given in thousands. Tahsil-wise classification of villages and towns according to population ranges is given in table No.3 and 4, respectively. Distribution of population according to workers and religions is shown in two tables viz, -table No.5 and 6 respectively. Table No.7 gives tahsil-wise distribution of Scheduled Caste, Scheduled Tribes and Neo-Budhists in Rural and Urban areas of Jalgaon District.

2.3 - Climate

In this group only two tables are included. In table No.8, no. of rainy days and total rainfall figures which are rounded to the

nearest integer for 13 tahsil head-quarters for 1975 and in table No. 9, the maximum and minimum monthly temperature for Jalgaon Centre for all the month of 1975 is given.

2.4 - Agriculture

There are 14 tables in this group. Provisional data about yield per hectare and out-turn of important crops in table No.12 is based on the fully revised provisional data for the year 1973-74 and information of the year 74-75 is based on revised final forecast. Land utilization data is given in table No. 10. Crop pattern for each tahsil (Table No.11) source-wise and Crop-wise irrigation(Table No.13,14 and 15) are given for the year 1973-74 and 1974-75. Table No.16 gives information about availability of underground water for the year 1975-76. Table No.17 gives works(74-75) while details about major and medium information regarding Minor Irrigation/projects in table No.18 show the position as on 30-6-75. The ~~an~~ table No.19 indicates the agricultural wage rates at three selected Rural centres. The table No.20 gives information pertaining to agricultural holdings as per world agricultural census 1970 for Jalgaon district, while in table No.21, data about agricultural implements in each tahsil as per 1972 Live-Stock census are given. Table No.22 gives the famine and scarcity data for the district for the year 75-76 and table No. 23 gives Revenue circle-wise history of scarcity for last six years. i.e. from the year 70-71 to 75-76 in each tahsil of this district.

2.5 Animal Husbandry, Forests and Fisheries.

There are six tables in this group. Out of which table No.24 relates to tahsil-wise live-stock data as per 1972 live-stock census.

Table No.25 and 26 include the information about veterinary facilities available in each tahsil of Jalgaon district. Table No. 27 gives the information about animals slaughtered in the recognised slaughter houses in this district. Total animals treated in hospitals, dispensaries and sub centres are shown in table No. 25. Increasing trend is observed in all tahsils except Jalgaon, Yawal, Raver, Edlbad and Bhusawal tahsils. The same table also shows details about no. of artificial inseminations performed in each tahsil.

Table No. 23-A gives forest area under revenue and forest departments while table No.28-B gives details of major and minor forest products, of which value is given in thousand rupees.

Table No. 29-A gives details about inland fisheries in each tahsil of Jalgaon district for the year 74-75 and 75-76.

2.6 - B Employment, Industry, Mining and Electricity.

There are in all ten tables in this group. First three tables (viz. Table No.30, 31 and 32) given factory statistics for the year 1974. Total mandays in table No.30 are given in hundreds, while in table No.33 the information collected in Annual survey of industries for the year 1966 is given industry-wise. Table No.34, 35 and 37 indicate the data about working of employment exchange for the year 75-76, while table No.36 shows the details about works undertaken under E.G.S. in this district and expenditure incurred there--on upto March-76. In the last two tables viz, Table Nos. 38 and 39 details about the consumption of electricity during 75-76 and agency-wise number of towns and villages electrified and population covered in the district on 31.3.76 is given. Population figures in table No. 39 are given in thousands

2.7 - Co-operation.

There are eight tables under this group. Out of which, first seven relate to data of co-operative sector for the year 75-76, while last table-gives the information regarding the registered money lenders and loans advanced by them in each tahsil during the year 75-76. Amount shown in the above tables is in thousand rupees.

2.8 - Medical and Public Health.

There are five tables in this group. The information in table No.48 gives medical facilities in each tahsil of the district and No.of patients treated in the hospitals and dispensaries during the year 1975, is given in thousands. The table No.40 indicates the statistics of birth and deaths in every tahsil during 1975, while table No.50 gives causes of deaths in the district as a whole for the years 71 to 75. Vaccination and cholera inoculation statistics during the year 75 is given in table No.51, whereas in table 52, information about family planning centres in Jalgaon district is given.

2.9- Education.

Out of 7 tables in this group, the first table viz.Table No. 53.gives literacy percentage in each tahsil according to 1971 census. No.of literates are given in thousands in this table.

Table No.54 and 55 indicate educational level in rural and urban areas as per 1961 census as data pertaining to 1971 is not yet available.

Table No.56 gives the total no. of various types of institutions in each tahsil of Jalgaon district, while table No.57, shows the data of enrolment of backward classes, for the years 74-75 and 75-76. These indicators are based on the information given in table No. 1 to 89.

CHAPTER-III

ANALYTICAL REVIEW OF STATISTICAL FINDINGS

Indicator No.1 - Percentage of Gross cropped area to Net sown area.

Table No.3.2 This indicator shows the extent of double cropping in district as a whole and in various tahsils. The percentage for district as a whole was 106.66 in 1961-62 and 107.69 percentage in 1974-75, which shows that practically there is no change in double cropping pattern over last 13 years within the tahsils, comparison shows that percentage of gross cropped area to net cropped area is quite high in Brandol tahsil during the year 1974-75.

Indicator No.2 - Productivity of important crops.

Estimates of production of important crops are available for district as a whole. The yield rates for 1961-62, 1971-72, 1972-73, 1973-74 and 1974-75 are given in the following table.

Table No.3.3
Yield rates of important crops.

9	Groundnut	723	375	478	636	661
10	Chillies	466	907	611	348	1111

From the above table, it can be seen that yield rates are higher in 1974-75 in respect of rice, wheat, Jowar, fur, Sugarcane, Cotton and Chillies as compared to the previous year 1973-74. Comparison of yield rates over a period of 12 years shows that there is increase in yield rates of Rice, wheat, Jowar, Bajra, Gram, fur, Sugarcane and Chillies.

This indicator gives comparative figures of value of production of important crops for 1971-72 to 1974-75 at whole sale price prevailing in the district obtained from local sources. The relative increase in value of agricultural production is mainly due to higher prices.

Indicator No.4 - Percentage of net irrigated area to net cropped area.

Jalgaon district is benefited by the Girna irrigation project. Out of 13 tahsils from this district 4 tahsils i.e. Arandol, Bhadgaon, Parola and Amalner tahsils are benefited by this projects.

It will be seen from the following table No.3.5 that percentage of net irrigated area to net cropped area in 1974-75 is increased in the tahsils Naver, Chalisgaon and Bhadgaon only, over the year 1973-74 when compared with the year 1961-62 it is seen that the percentage is increased in all the tahsils during the year 1974-75.

Indicator No.17 - Retail Prices

Price statistics in the following table shows that there has been almost increasing trend in all commodities. As the prices are collected

for the given commodities restricted to only one quotation and that too only from one shop at district head-quarter, the average shown in the table for individual commodities cannot be said to be fully representative but the data may prove useful as a broad indicator of the trend in change in retail prices over the period or time. The comparative prices of important commodities are shown in the following table.

4.2 The District's approach to the fifth plan as pronounced in plan document prepared by District Planning and Development Council lays stress on 100 percent coverage under hybrid and high yielding varieties of food-crops. It also envisages three fold increase in production of sugarcane. The present level of irrigation (i.e. by end of IV plan) through all sources works out to 12 percent of the gross cropped area in Jalgaon district. It is proposed to increase the irrigation potential from 12 percent to 24 percent during the fifth plan period. The important features of Vth five year plan 1974-79 prepared by the District Planning and Development Council for Jalgaon district are discussed in the following paragraphs.

4.3 As the district of Jalgaon is relatively industrially backward the District Planning Board has decided to get up three new sugar

factories during the fifth plan period. Further in order to create the necessary infra-structure for promoting industrial activity in the district it has been decided to have four new industrial estates in the district with the help of DICOM during Vth plan period.

4.4 There are two major irrigation projects viz Girna project and Upper Tapi project in Jalgaon district, the former is already completed and area irrigated by it at present is 56,550 hectares. The talukas of Grandol, Bhadgaon, Parola and Amalner are benefited by this project. The latter project has two stages. The stage-I of this big project will be completed by end of Vth plan period. It is estimated that 38,000 hectares of land will be irrigated by the stage-I project and will be benefited Jalgaon district only. An amount of Rs.13 crore is included in the district plan outlay, under major irrigation for the Vth plan period. There are also medium irrigation projects viz Suki, Bori and Amer which are expected to be completed by 1976-77.

4.5 The total no. of villages having population of 1500 and above which are yet to be connected by all weather roads is about 50. As per the national minimum need programme all such villages defined above are to be connected by all weather roads. To fulfil this minimum need it is proposed to provide Rs.1.38 crore in the district plan which will cover all the remaining villages under this programme. It is also intention of District Planning Board to take up in the Vth plan a new road construction programme costing Rs.76.83 lakh so as to benefit these areas of the district which are relatively backward in this respect.

4.6 The scheme of employment guarantee to the unskilled labours has been launched in this district since May-72. The type of works that can be undertaken under this scheme are road works in hilly and inaccessible areas, percolation tanks, contour bunding, soil bunding and like. A

total provision of Rs. One crore has been proposed during the Vth plan period for Jalgaon district.

4.7 As required under minimum need programme it is proposed to provide schooling facilities to 100 percent of the school going population in the age group of 6-11 years by opening schools within a distance of 1.5 km. from their place of residence. It is also proposed to enroll 60 percent of the population of the age group of 11 to 14 by the end of Vth five year plan. The district plan has provided an estimated amount of Rs.109.00 lakhs to fulfil the minimum need. Under this scheme, it is proposed to provide schooling facilities to 75,529 pupils in the age group of 6 to 11 and 14,505 pupils in the age group of 11 to 14. For this purpose 716 additional class-rooms and 2203 primary teachers are required during the Vth plan.

4.8 Under the scheme of free student ships to economically backward classes a provision of Rs.40 lakhs has been made. About 1,25,000 pupils from secondary schools and colleges will benefit from the scheme.

4.9 Government of Maharashtra have accepted the 10+2+3 years pattern of education. Therefore, during the V plan 25 such higher secondary schools are proposed to be set-up, 10 high-schools offering science and 15 humanities. A provision of Rs.25 lakhs has been made in the V plan for this programme.

As per the minimum need programme it is necessary to provide protected water supply to all the villages by the end of V plan. There will be 240 difficult villages at the beginning of the V five year plan that would be tackled by the State Govt. In the V plan only 60 villages water supply scheme can be executed for which the provision required will be Rs.73.64 lakhs for new schemes and Rs.7.41 lakhs for the spillover work during the V year plan period. As regards local sectors water supply

scheme, a provision of Rs.50 lakhs has been made which includes Rs.11.00 lakh for spillover works.

4.10 The fifth plan approach of the district regarding health sector is to extend medical facilities in urban and rural areas with the minimum possible expenditure under this sector. It is, therefore, proposed to expand the existing strength of beds in Civil Hospital, Jalgaon to provide additional beds in municipal dispensaries and also primary health centres rather than establishing new dispensaries or hospitals which would cost more. A provision of Rs.159 lakh has been proposed in the fifth plan of Jalgaon district for health sector.

4.11 A high priority has been given to the welfare of backward classes in the district plan. The percentage of backward class population i.e. scheduled castes and scheduled tribes is 10% in this district. There are many schemes benefiting backward class population which are classified in three broad categories i) Educational, ii) Economic up lift and iii) Housing. A provision of Rs.171.15 lakh has been proposed for the fifth plan period in the district plan.

4.12 Under special welfare sector two schemes viz welfare of women and children and Rehabilitation of lepers are included in the fifth plan of the district. The Rehabilitation of lepers is a new scheme for which a provision of Rs. One lakh is made in the total outlay of Rs.8 crore for this sector.

Annual Plan 1975-76

4.13 The district planning and development council had submitted the annual Plan 1975-76 for Jalgaon district for Rs.6.70 crore while the state Government had allocated the enhanced outlay of Rs.6.99 crore. Out of this total allocation, Rs.55.39 lakh or about 13.43 percent were earmarked for the minimum need programme and 15 point programme schemes

respectively. The major head-wise expenditure incurred during 1975-76 is seen in the table below,-
