SOCIO ECONOMIC REVIEW OF RATNAGIRI DISTRICT

FOR THE YEARS 1979 - 80 .

C O N T E N T S - P A R T - I .

Sr. No.	S u b j e c t	Page No.
1	2	3
1.	Introduction	1 to 7
2.	Explanatory notes	8 to 14
3.	An Analytical Review giving Sectorial Trends.	15 to 30
4.	The Annual Plan 1979-80.	31 to 38

CHAPTER - I.

INTRODUCTION:

LOCATION:

1.1 The district is located on the western coast of India and it lies between 15°36' to 18°50' north latitude and 73°50' to 74°36' east longitude. The district has a north-south length of about 288 km. and average east-west extension is about 64 km. except in its extremities, which taper to join the coast line. It has a coast line of about 320 km.

BOUNDARIES:

1.2 The district is bounded by Raigad district in the north, Arabian Sea in the west, Goa in the south and Sahyadri hills in the east. Beyond the Sahyadri hills Satara and Kolhapur districts are located.

TOPOGRAPHY:

1.3 Three clear geographical zones can be distinguished in the district (i) To the east, bordering the Sahyadri Ranges, lies a hilly tract and its off shoots. (ii) The middle portion of the district having plateau surface which is used for cereal crops like rice and ragi. (iii) The western part of the district, the coastal plains where coconut and arecanut gardens and fishing are the main sources of livelihood.

HILLS AND RIVER SYSTEM:

1.4 Over 85% of the land surface in the district is hilly. The main range of the Sahyadri consisting of steep and forbidding scarp forms the eastern boundary of the district. In the centre are the transverse chains of small hills which project from the main range and develop higher elevations in the middle portion, where they are parallel to each other and as a result the numerous streams which flow through the valleys have formed parallel drainage pattern.

All the rivers in the district originate from the Sahyadri ranges and have reached their base level of erosion within a distance of 20 km. All the 14 rivers in the district flow from east to west and merge the Arabian Sea. River Savitri flows on the northern periphery, forms natural boundary between Ratnagiri and Raigad districts and is navigable about 35 km. in Ratnagiri district. River Vashishthi with a length of about 48 km. is navigable upto 40 km. The length of the rivers Shastri and Ratnagiri is 64 km. each. Rivers Jagbudi, Baw, Muchakundi, Jaitapur, Waghote, Devgad, Achara, Kalawali, Karli and Terekhol are other few important seasonal torrents bringing overflows from Sahyadri hills. In length they seldom exceed 64 km. Their intensely seasonal regime is yet another limitation to their economic use. Parts of these rivers are tidal. In addition to these main rivers, the district has numerous small creeks and back waters all along the coast line. Important creeks are Kelshi, Ade, Kalabadevi, Redi, Palshet and Borya. All these creeks afford anchorage to small crafts in fair weather and have a local importance in trade and fishing. The most of the river in the district are not perennial though they are over-flooded during monsoon due to heavy rain.

SOIL :

1.5 The predominant soils in the district are laterite soils which vary in colours from bright red to brownish red owing to the preponderance of hydrated iron oxides. It is annually eroded by the heavy rains and the top soil is washed into the sea. This exposes the rocks or leaves only few inches of soil depth on the hills and ^{slopes} thus making them unable to sustain vigorous plant growth. They are always acidic and fairly well supplied with nitrogen and organic matter. Their texture is loamy and depth varies from one foot to three feet. They are porous not retentive of moisture and are found

all over the district except in Mandangad Tahsil. The soils are found in several grades. The main grades are i) Soils useful for paddy cultivation, ii) Workas soils useful for Cashewnuts, Mangoes and Ragi cultivation, iii) Soils useful for coconut, iv) Coastal alluvial useful for coconut and arecanut gardens v) Salty lands locally known as Khar or Khajan.

CLIMATE:

1.6 The climate of district is generally moist. There are three seasons viz. i) Summer (March to May), ii) Monsoon (June to October) and iii) Winter (November to February). Being a coastal district, the variation in temperature during the day and through the seasons is not large. Maximum temperature at the coast rarely goes beyond 38°C . and in the interior it seldom crosses 40°C . Owing to the proximity of the sea, the district is very humid and the relative humidity seldom goes below 50%.

RAINFALL:

1.7 Rainfall is not uniform in all parts of the district. It increases rapidly from the coast towards the Western Ghats on the eastern border of the district. In and near the Ghats rainfall is very heavy. Amboli gets the heaviest rainfall in the district. Practically the entire annual rainfall occurs during the months from June to October. July is the month of heaviest rainfall. During the year 1979, maximum rainfall of 3609 mms. was recorded at Sangameshwar. The tahsils having rainfall above 3000 mms. during the year 1979 were Dapoli, Mandangad, Khed, Chiplun, Rajapur and Sawantwadi.

AREA:

1.8 The total geographical area of the district is 13,040 sq. kms. The district stands tenth in area in Maharashtra State. Considering area covered by tahsils, Sawantwadi tahsil has got the maximum area (1336.2 sq. km.) in the district, while Vengurla tahsil has the minimum area (327.9 sq. km.).

FOREST:

1.9 Total area under forests in the district is 571.89 sq.kms. out of this 31.31 sq.km. is maintained by Revenue Authorities and the rest of the area is under the control of Forest Department. Out of the total forest area, 171.09 sq.km. area is reserved and the rest of the area is unclassified.

MINERAL:

1.10 Ratnagiri district is endowed with different types of minerals of economic importance. Manganese and Iron ores are found in the southern part of Ratnagiri district at Redi, Banda, Tirawade, Aros etc. Chromite occurs at Kankawali, Wagde and Janawali in Kankawali tahsil. The reserves of chromite in Ratnagiri district are more than 70,000 M.Tonnes. Ilmenite is found in the beach sands stretching about 40 kms. from Purnagad to Malgund near Ratnagiri. Ilmenite is an ore of Titanium metal, Ratnagiri district is also blessed with huge deposits of silica sand and annually thousands of tonnes of silica sand is being despatched to places like Bombay, Pune, Kolhapur, Belgaon, Ichalkaranji etc. There are many good deposits of clay in the district. There are also occurrences of Mica, Felspar, Steatite, Quartzs, Mineral pigments such as copper, asbestos, limestone, clay, glass sand, building stones, salt etc. and radio active minerals like uranium oxide in some parts of Ratnagiri district.

POPULATION:

1.11 Total population of the district as per 1971 census is 19,90,583 (8,86,995 males and 11,03,588 females). The density of population per sq.km. is 153 as against 164 for Maharashtra State. According to population, the district ranks ninth in Maharashtra State. Within the tahsils, the density of population per sq.km. ranges from 257 (Vengurla Tahsil) to 115 (Sawantwadi tahsil). As far as Urban towns are concerned, the density varies from 3,580 (Ratnagiri town) to 250 (Shirgaon town in Chiplun Tahsil). The average density for the district is 1085. Tahsils viz. Guhagar, Mandangad,

Sangameshwar, Lanja, Kankawali, Kudal and Devgad have no urban areas. In rural areas the density of population varies from 219 (Vengurla tahsils) to 103 (Sawantwadi tahsil). The average rural density of population for the district is 142 per sq. km.

1.12 Number of females per 1000 males (i.e. sex ratio) is higher in Ratnagiri district i.e. is 1244 which is higher than the state average of 930. Similar is the position in Rural and Urban areas. The percentage of urban population to the total population, is 8.40 which is lowest in Maharashtra State. It may be due to the fact that very little attention is given towards urbanisation of this district.

Besides, the continuous migration from this district to the cities like Bombay is the main cause of low urbanisation as well as abnormal sex ratio. Migration has also affected the growth rate of population of the district as will be seen from the last two decadal variations viz. 1951-61 and 1961-71 which are 6.73 and 8.94. These decadal variations are the lowest in the State of Maharashtra. Corresponding decadal variations for Maharashtra State are 23.60 and 27.45 respectively.

LITERACY:

1.13 The percentage of literacy has gone up from 28.5 in 1961 to 39.6 in 1971. The rate of increase in percentage of literates is more or less the same in respect of males and females, rural and urban. As far as the religious composition is concerned, the population covers 87% Hindus, 6.3% muslims and 5.6% buddhists (including Neo Buddhists). The percentage schedule castes and schedule tribes to total population comes to 2.7 as against 11.9 percent in Maharashtra State.

AGRO INDUSTRIES:

1.14 Agricultural products in Ratnagiri district are paddy, Jajli, Oilseeds, Ground-nut, Sugar Cane, Cashewnuts, Coconut, Mango

and products of economic importance are paddy, mango, cashewnut, Coconut, bettelnut and kokam. In addition to this, Major forest products are Bambo, Hirda, Timber wood, Kattachu (Kat), grass and other Ayurvedic Vanaspaties. Ratnagiri being a hilly district, land useful for cultivation is comparatively less.

1.15 Ratnagiri district is famous for its quality mangoes. Best quality is known as Alphanso. This is seasonal product and its yield per annum is estimated at 30 thousand tonnes. It gives a seasonal employment to local people, such as collection of mangoes, preparation of wooden boxes, marketing and transportation. Raw as well as canned mangoes are being exported in substantial quantity. There are about 24 canning units engaged in production of canned mangoes, pickles and chatanis.

1.16 Other important agricultural products are coconut and bettelnuts. Industries based on this are 1) selling of green coconut, dried coconut and bettelnuts. 2) Coir industries, manufacturing coir ropes, mattings and carpets. Coconut coir is an important raw material for the coir industry. There are 4 coir units functioning in the district at Walawal, Vengurla, Aronda and Guhagar. Cashewnut from this district fetches foreign exchange. There are 18 cashewnut factories in the district. Systematic Cashewnut plantation has been taken up by Govt. recently and yield is expected to increase in the near future. Kokam fruits are also collected seasonally and processed in canning factories.

1.17 Paddy straw is useful for manufacturing paper and paper board. Recently five units have come up so far in the district.

1.18 Plantation of Citrenella has been tried at some places and two units are already under trial for manufacturing citrenella oil. At present there are 80 saw mills which are registered under S.S.I. rules in the district. There are six Agricultural tool manufacturing units at Sawantwadi.

SPECIAL FEATURES:

1.19 Ratnagiri is one of the marine districts of the State. The coastal length is about 320 kms. which is more than half of the coastal length of Maharashtra State. The sea water is rich in prawns. About 1400 M.Tonnes of prawns are exported abroad annually.

ii. Mangoes and cashewnuts are important cash crops of this district. They are exported abroad.

iii. Koyana Hydro Electric Project ^{which} generates electricity at Pophali is situated in Chiplun Tahsil. of this district.

iv. Marine Biological Research Station is established at Ratnagiri and Konkan Krishi Vidyapith at Dapoli.

v. Iron ~~ore~~ mines at Redi in Vengurla Tahsil of this district are biggest mechanised mines in the State. During the year 1980, the production of iron ore was 9.50 M.Tonnes of which 8.25 in Metric tonnes were sent out.

vi. Kudal is getting industrialised with the establishment of three large engineering factories, namely, Wymen Garden, Sethi Nippon Powder Metal and Alloyed Ltd, Besides two engineering factories known as J.K.Files and Dimand Shyamrock (India) Ltd. have been established in M.I.D.C.area at Ratnagiri and ~~few~~ more are coming up.

vii. Ratnagiri has been declared as Rural Industrial project.

viii. The district lacks in Rail Communication facilities but all weather port is being developed at Ratnagiri. At present there are 19 seasonal ports in this district.

ix. The district being industrially backward, migration of population (working force) to cities like Bombay is heavy. As a result of this, receipt of money orders is comparatively larger than in any of the districts of Maharashtra State. Hence Ratnagiri District is generally known for money order economy.

CHAPTER - II.

EXPLANATORY NOTES ON THE SCOPE AND LIMITATIONS OF DATA PRESENTED IN PART II OF THE DISTRICT STATISTICAL ABSTRACT FOR THE YEAR 1979 - 80.

PURPOSE AND SCOPE:

2.1 In this chapter, short notes on the tables presented in the Abstract are given indicating the source of data, terminology used, limitations if any etc. There are in all 93 tables presented in this Abstract. The present issue relates to the year 1979-80. As far as possible, data are given for the year 1979-80, wherever it could not possible, data for the latest available years are provided.

I. AREA AND POPULATION:

2.2 There are 7 tables in this group and all these tables are based on 1971 population census. Table No.1 gives tahsilwise area and population with its break up into Rural and Urban and into male and female, as well as the data on residential houses and households and villages and Towns. ^{Population break up into} Rural & Urban, Male and Female with its density for the last three censuses and decadal variations since 1951 and 1961 is presented in table no. 2. Tahsilwise classification of villages and towns according to population ranges is given in table no. 3 and 4 respectively. Occupational structure of the population in rural and urban areas is presented separately for all the tahsils in table no. 5. Population distribution according to age groups and according to different religions is shown in table no. 6. Table no. 7 gives tahsilwise distribution of scheduled castes, scheduled Tribes and neo-buddhist population in Rural and urban areas of Ratnagiri district.

II. CLIMATE:

2.3 Only two tables are included in this group. Table No.8 gives monthwise rainfall data in respect of fifteen tahsil centres in the district for the year 1979. In table no. 9 maximum and minimum monthly temperature for four selected centres viz. Ratnagiri, Harnai, Devgad and Vengurla is given.

III. AGRICULTURE:

2.4 14 tables are provided in this group. The first six tables from 10 to 15 give fully revised data for the year 1976-77 and 1977-78/1978-79/provisional regarding land utilisation, cropping pattern, yield rate and outturn of principal crops, sourcewise and cropwise irrigated area and number of irrigation wells in use and not in use. Provisional data about yield per hectare and outturn of important crops in table no. 12 is based on fully revised provisional data for 1976-77/1977-78 and information for the year 1978-79 is based on revised final forecast. Table no. 16 gives availability of underground water for the year 1979-80. Table no. 17 provides information of minor irrigation works excluding wells for the year 1979-80, while details about major and medium-irrigation projects in table no. 18 shows the position as on 30-6-1979. Table no. 19 indicates the agricultural wage rates at three selected centres for all the months of the year 1979. Table no. 20 gives information pertaining to agricultural holdings as per World Agricultural Census 1971 of Ratnagiri district. Tahsilwise data of agricultural implements collected in 1978 livestock census are given in table no. 21. Table no. 22 gives the famine and scarcity data for the district for the year 1979-80 and table no. 23 give Revenue Circle wise history of scarcity for last nine years i.e. from 1971-72 to 1979-80 in each tahsil of the district.

IV. ANIMAL HUSBANDRY, FOREST AND FISHERIES:

2.5 There are ten tables in this group. Out of which, table no. 24 relates to tahsilwise livestock data as per 1978 livestock census. Veterinary Statistics, such as availability of medical facilities for livestock, cases treated and inseminations ^{out} carried in each tahsil is given in table no. 25 for the year 1979-80. Table no. 26 provides information about diseasewise livestock mortality in the district during the year 1979-80. Information regarding the recognised slaughter houses and animals slaughtered therein for the year 1979-80 is given in table no. 27. Table no. 28-A gives classified forest area under the central of revenue and forest department while table no. 28-B reveals major and minor forest products and their value obtained from these forests. Table no. 29 is divided into three parts. Table nos. 29(A) and 29(B) provides tahsilwise information about inland and marine-fisheries respectively for the year 1979-80 and data regarding quantity of fish brought for curing, salt issued and fish removed ^{is given} ~~issuing~~ for the year 1979-80/in table no.29(C)

V. EMPLOYMENT, INDUSTRY, MINING AND ELECTRICITY:

2.6 There are in all ten tables in this group. First three tables viz. table nos. 30, 31, 32 relate to Factory Statistics for the years 1978 and 1979 while in table no. 33 information regarding important characteristics of industries as collected in Annual Survey of Industries for the years 1977-78 and 1978-79 is given. Table nos. 34, 35 and 37 provide Employment Exchange Statistics for the year 1979-80/while tahsilwise information about the works executed under Employment Guarantee Scheme, employment generated and expenditure incurred there under during the year 1979-80 is given in table no. 36. Employment in different industries as on 31st March 1980 is shown in table no. 37. The classification of consumption of

on 31st
March
1980

electricity according to major uses is shown in table no. 38 for the year 1979-80. Table no. 39 provides information regarding the towns and villages electrified and population covered during the years 1960-61, 1965-66, 1969-70 and 1974-75 to 1978-79.

VI. Co-operation:

2.7 There are eight tables under this group. Data regarding various activities in co-operative sector such as number of co-operative societies of different types, their membership, share capital, working capital, loan advanced, no. of co-operative banks and loans advanced by them are given in the first four tables i.e. 40 to 43 for the year 1979-80, while statistics relating to operations of central and primary co-operative marketing societies is presented in table nos. 44 and 45. There is no regulated market in the district and hence information in table no. 46 is nil. Table no. 47 provides data regarding registered money lenders and loans advanced by them during 1979-80.

VII. Medical and Public Health:

2.8 Five tables are included in this group. Information regarding medical facilities through public and public aided bodies in each tahsil during 1979 is given in table no. 48. Tahsilwise data regarding number of births and deaths registered in Ratnagiri District during 1979 are presented in table no. 49, while number of deaths due to important causes during the years 1971 to 1979 is shown in table no. 50 for the district as a whole. Table no. 51 gives tahsilwise vaccination statistics and cholera inoculation done during the year 1979 while family planning statistics is given in table no. 52 for the year 1979-80. (As on 31-3-1980)

VIII. EDUCATION:

2.9 The statistics relating to education is presented in table nos. 53 to 59. The table no. 53 shows the tahsilwise literacy position in Rural and Urban areas according to 1971 Census. Table nos. 54 and 55 indicate educational level of rural and urban population as per 1961 census, as data for 1971 census are not available. In table no. 56, information regarding educational institutions, pupils and teachers in these institutions for the year 1979-80 (as on 30th Sept. 1980) is presented for the district as a whole. The next two tables i.e. table nos. 57 and 58 in this group relate to backward class enrolment and economically backward class beneficiaries respectively for the year 1978-79 and 1979-80. Annual expenditure on primary education for the years 1978-79 and 1979-80 is given in table no. 59.

IX. TRANSPORT AND COMMUNICATIONS:

2.10 In all seven tables are included in this group. Rail facility is not available in the district and hence table no. 60 is blank. Table no. 61 provides road length according to category and surface classification as on 31-3-1980. Data of motor vehicles in operation in Ratnagiri District and operational Statistics of Nationalised Road Transport as on 31-3-1980 are presented in table nos. 62 and 63 respectively. Data of Traffic Census conducted during December 1979 traffic census by Public Works Department are presented in table no. 64. Information of communication facilities viz. post, telegraph, telephone and radio licences issued and renewed together for the years 1961-62, 1965-66, 1970-71 and 1973-74 to 1979-80 is shown in table no. 65, while rural broadcasting information as on 31-3-1980 is presented tahsilwise in table no. 66.

X. LOCAL BODIES:

2.11 Four tables viz. table nos. 67 to 70 in this group pertain to income and expenditure of local bodies such as village panchayats

Zilla Parishad and municipal councils. Table no. 67 gives at a glance income and expenditure of the above mentioned local bodies for the years 1965-66 and 1968-69 to 1979-80. Table No. 69 is divided into three parts/namely headwise information of receipts, Govt. grants to Zilla Parishad and expenditure of Zilla Parishad for the years 1978-79 (Actuals), 1979-80 (Revised) and 1980-81 (estimates). Table nos. 68 and 70 give sub-headwise income and expenditure of village Panchayats and Municipal Councils respectively for the year 1979-80,

XI. PLAN AND COMMUNITY DEVELOPMENT:

2.12 Out of five tables in this group, the first two tables 71 and 72 give the expenditure and physical achievements of district level plan schemes during the year/1979-80. Table no. 73, 74, and 75 relate to the activities pertaining to the community development blocks. Table no. 73 gives stagewise coverage, table no. 74 depicts total expenditure incurred in each block. Physical achievements in these blocks for the year 1979-80 are shown in table no. 75.

XII. PRICES:

2.13 Three tables are included in this group. There is no agricultural produce market committee in the district and hence table no. 76 is blank. The monthly average /if weekly prices of important commodities collected from selected shops at district headquarters during 1979 have been presented in table no. 77. The consumer price index numbers for 1979-80 (Revised series) for working class at Bombay and Jalgaon are given in table no. 78.

XIII. MISCELLANEOUS:

2.14 The last group 'Miscellaneous' covers official Statistics, giving information regarding Police force and crime Statistics, work disposed off in Civil and Criminal Courts, Cinema Statistics Theatres and their seating capacity, banking offices, scheduled

banks and joint stock companies, life insurance statistics, performance of small savings, tahsilwise collection of land revenue, Tahsil, number of presses and publication, distribution of food grains through fair price shops, procurement of food grains through levy, results of general elections and candidates according to party affiliations, In the last table no. 93, some important indicators for district are worked out from the tables in the Abstract, which indicate general trend of development in various sectors over a period of more than two decades.

--- 0 ---

CHAPTER - III

Analytical Review of Sectoral Trends:

3.1 An attempt is made in this chapter to study the trends in development of various Socio-Economic aspects of Ratnagiri District by working out various indicators in selected achievements in various sectors such as agriculture, co-operation, Livestock, electricity, employment education, medical facilities, prices etc. Generally tahsil is taken as unit and indicators have been worked out to review the progress so far achieved in various sectors of economy. Year 1960-61 (i.e. the last year of Second Five Year Plan) is taken as base year for reviewing the level of achievements.

3.2 Agriculture: The development since beginning of the third five year plan can be assessed from the following indicators. It is seen from the below given table that there was very little increase in double cropping as the percentage of gross cropped area to net area sown was almost constant during the last 19 years for the district as a whole. On the contrary, it was decreasing in Ratnagiri, Lanja, Dapoli, Kudal, Rajapur, Mandangad and Devgad tahsils. This was due to peculiar topographical position of the district and lack of irrigation facilities. The slight increase in double cropping pattern was visible in the tahsils Sawantwadi, Vengurla and Malwan. In spite of the multifarious efforts so far made in Agricultural development, agricultural backwardness still remained as prominent feature of the district economy.

Table No. 3.2. /Cropped.
Tahsilwise percentage of Gross/Arca to Net Area Sown in
Ratnagiri District during 1960-61, 1970-71, 1977-78 & 1978-79.

Sr.No.	Tahsils	Percentage of gross cropped area up to net area sown			
		1960-61	1970-71	1977-78	1978-79
1	2	3	4	5	6
1.	Patnagiri	102.08	100.00	102.84	101.06
2.	Guhagar	101.49	101.10	101.33	101.99
3.	Dapoli	101.19	101.29	101.03	101.04
4.	Mandangad	102.15	102.11	100.80	100.72
5.	Khed	102.67	102.78	101.53	102.87

12.	Sawantwadi	106.39	107.19	108.33	110.23
13.	Vengurla	104.12	105.92	110.81	108.91
14.	Malwan	108.63	108.52	116.00	111.59
15.	Devgad	105.18	106.31	104.38	104.38
Dist. Total		102.78	102.98	103.50	103.13

3.3 So far the cropping pattern is concerned, paddy under cereals, kulthi under pulses, coconut under oil seeds and fruits such as mangoes and cashew-nut are the major crops grown in this district. Below table reveals that the area under total cereals, total pulses total food grains and total non food crops are decreased. This does not appear consistent with the fact as the tendency to bring additional area under cultivation is day by day increasing. Cultivation of paddy, mango and cashewnut, sugarcane,

groundnut and coconut was on increasing trend. The extent of increase can not be quantified as the area under mango, cashewnut, coconut is not available for previous years.

Table No.3.3

Percentage distribution of gross area under important
CROPS TO TOTAL GROSS CROPPED AREA IN RATNAGIRI DISTRICT.

11.	Other oil seeds	1.83	5.22	2.78	3.57
12.	Total non food crop	30.86	30.81	29.35	29.35
		100.00	100.00	100.00	100.00

3.4 Principal crops of this district can be indentified as paddy, kulathi, mangoes, cashewnut, coconut and bettlenut of which the yield rate and outturn of paddy is only available. It is observed from the following table that the yield rate and production of Rice, Seasamum, Sugarcane, ^{was} comparatively better during the year-1978-79. Production of other crops such as tur, groundnut and chillies was decreasing. The increasing trend is seen in respect of and sugarcane only. Ratnagiri dist. is known for its quality mangoes of seasamum, Rice. Best quality known as Alphanso is Its yield per anam is grown on a large scale/ roughly estimated to 20000 tonnes. since

Since it fetches foreign exchange it is well known cash crop. Cashew of best quality is also grown in this district.

Table No. 3.4

Yield rates and out turn of principal crops.

Sr. No.	Crops	Yield per hectare in kg. during				Outturn in '00 M.Tonnes during			
		1960-61	1970-71	1977-78	1978-79	1960-61	1970-71	1977-78	1978-79

7.	Sugarcane	2540	6954	8800	9167	4	29	44	55

3.5 Generally there is very little scope for irrigation in this district due to hilly nature. It is seen from the below table that there was no increase in irrigation. This position appears to be inconsistent with the fact as the sources of irrigation were increased during the last 19 years. Irrigation position was comparatively better during the year 1970-71 and during subsequent years it was decreased in most of the tahsils. Position in respect of Sangameshwar, and Vengurla was encouraging.

3.6 Paddy and coconut are the two major irrigated crops of this district, which cover more than 51% irrigated area. During the period of the last 19 years, irrigated area under paddy was decreased as compared to the year 1960-61 which is not convincing. while the irrigated area under coconut had increasing trend. The area under sugarcane was also increasing, The details of other crops is indicated in the tables given below.

Table No. 3.6

Total		12,667	13,710	11,434	12,394

3.8 Co-operation: The Co-operative credit societies play vital role in the field of agricultural development by extending credit facilities on an extensive scale. Various types of achievements in respect of credit societies are detailed in the following table.

It is seen from the following table that number of primary Agril. societies were decreasing. The reason for this position may be the liquidation of societies. Though the societies had been decreased there was increase in membership working capital and loan advanced, as compared to the years 1960-61 and 1970-71. During the year 1960-61 per member advance was Rs. 28 which was increased to Rs. 68 during 1979-80. As compared to the per member advance, per member outstanding loan was Rs. 108, which is an indicator of poor repaying capacity of the members. With all these achievements there still remained much to be done.

Table No. 3.8.

Agricultural Wage Rates:

3.9 Agricultural wage rates are being collected regularly from three centres, viz. Harnai, from Dapoli Block, Nawadi from Sangameshwar Block and Shiroda from Vengurla Block. Average daily wage rates for all these centres for the years 1978 and 1979 are shown in below table. Average daily wage rate for male was Rs. 5.50 to Rs. 7.30 while for female it was Rs. 3.00 to Rs. 4.70. These wage rates were collected from the selected farmers who employ the labourers on permanent basis on comparatively lower wage rates.

Table No. 3.9.

Livestock :

3.10 Livestock makes a substantial contribution to the economy by providing subsidiary income to farmers, food to human population and employment potential to landless labourers. The last livestock Census was carried out during 1978 in Maharashtra and findings regarding livestock per 100 hectares of cultivable land are quoted in below given table. From the below table, it is observed that the bovine and ovine population per 100 hectares of cultivable and was highest in Malwan tahsil and lowest in Sawantwadi tahsil. It was less than district average in the tahsil Guhagar, Sawantwadi, Dapoli Mandangad, Sangameshwar and Devgad.

Table No. 3.10

Bovine and Ovine population per 100 hectares of cultivable land.

Poultry:

3.11 Ratio of poultry to population is shown in the below table. It is observed from the table that there is increase in the poultry As compared to human population, there were 619 poultry birds per thousand human population during 1972 while it was 838 during 1978. From the last two livestock census, it is observed that, poultry birds were increased in all the tahsils. Within tahsils, number of poultry birds was highest in Rajapur tahsil, followed by Kankawali and Malwan. It was lowest in Devgad tahsil.

Table No. 3.11

Electricity:

3.12 It is seen from the following table that 878 villages out of 1519 villages were spfar electrified. During the year 1979-80, the per capita consumption of electricity was 21.32 k.w.h. as against 0.85 k.w.h. during the year 1960-61. Out of total consumption during electricity was used for domestic purpose 12% for commercial and 27% the year 1979-80, 41% for industrial and 3% for agricultural purpose. Tahsilwise statistics regarding pumps energised and per capita consumption was not avialble.

Table No. 3.12

2.	Pumps energised (No.)	NA	2449	2457
3.	Per capita consumption (KWH)	0.85	24.30	21.32

Employment:

3.13 Employment generation is one of the most important aims of the Planning Process in a over populated country like India.

Employment exchange statistics, give an indication of the magnitude of the unemployment problem to a very limited extent because the majority of unemployed persons do not avail of the facilities provided by the employment exchange. Position of Ratnagiri District

Regarding the registration, vacancies and placement is indicated in below table. It is seen from the table that the persons on live register were 16260 during 1979-80 as against 2,840 in 1960-61. As against the registration of the employment was provided only to 279 persons during 1979-80 which is only 2%. This achievement is not encouraging in the light of the work done during the year 1970-71 and 1978-79. Thus the gravity of the problem of unemployment is day by day increasing.

Table No. 3.13

Medical Facilities:

3.14 Below table indicates the medical facilities and their performance during the years 1961, 1971, 1978 and 1979. It is seen that there was increase in number of hospitals and dispensa-

ries during the last 19 years. However, the number of primary health centre is constant. As compared to the year 1961 there was 64% and 53% increase in indoor and outdoor patients treated respectively during 1979. This clearly indicates the extent of expansion of medical facilities over a period of 19 years.

3.16 The above table reveals the expansion of education facilities at various levels of education. The following table indicates important ratio in education. It is observed from the ratios that secondary and higher educational institution were increased. But number of teachers in relation to students was on increasing side at primary level while in respect of secondary and higher level education, it was decreasing.

Commercial Banking:

3.17 Tahsilwise number of banking offices and number of house holds per banking office for the year 1979-80 is given in the following table . The similar information is not available for the years 1960-61 and 1970-71. It is seen that there was 95% increase in banking offices during 1970-71 and 372% during 1979-80. Though there is sizeable increase in banking facilities was visible, there was no increase in number of households served per banking office. On the contrary number of households per bank was decreased during 1979-80. The main reason for this position may be ^{the} new offices were opened in places which were already served. It may be noted that the households from the villages and towns having banking offices were considered to work out the indicator of households served per banking office.

3.18 Roads are one of the important pre-requisites of the Konkan Development as there is no other means of transport in this hilly district. The special priority has to be attached to the road development programme of this district. The total length of the road was 2382 km. upto 1960-61 and 6597 km. upto 1979-80. The increase in road length during the last 19 years works out to 167%. During 1960-61, the road length per 100 sq.km. was 18 km. which was increased to 50 km. during 1979-80. Data regarding the villages connected by all weather roads and other roads is not suitable

for 1960-61 and 1970-71. During the years 1978-79, there were 565 villages connected by all weather roads and 221 by other roads respectively.

Prices:

3.19 Since Nombor 1962, the prices of important commodities are being collected by the District Statistical Officer at district head quarter on each Friday. As these prices were collected for the selected commodities from the selected shops, these may not represent the district position in general. However, the data may prove useful as broad indicator of the trend of changes in retail prices over a period of time in the district. The following table indicates the average retail prices of the selected commodities for the years 1962-63, 1970-71, 1978-79 and 1979-80 collected at Ratnagiri. It is observed that there was rising trend in prices of all the commodities since the base year 1962. In comparison to earlier year 1978-79 declining trendⁱⁿ the prices of Jowar (white), Sugar (D-grade) Gur, Groundnut oil Vanaspati (loose), dry chillies, Kerosene and shirting was visible during 1979-80.

General Consumer price index is computed for two centres in the Bombay Division and it was 359 for both Bombay and Jalgaon Centres during the year 1979-80.

CHAPTER - IV.
ANNUAL PLAN - 1979-80.

4.1 The necessity of Planning at level lower than State has become increasingly relevant. A district is compact area in which conditions are likely to be more homogeneous than in large region or in a whole State. It is also available administrative unit for Plan implementation. It may be for the effective popular participation in the planning process. Such Planning may also be useful for strengthening the democratic system. Therefore Govt. has accepted and its implementation. The main objective of district planning are the principal of decentralised planning/are i) the reduction of inter district imbalances, ii) to ensure rational utilisation of resources and iii) proper co-ordination and implementation of development programme.

The organisational machinery set up in each district for the formulation, monitoring and overseeing of the District plan originally consisted of (a) the District Planning Board and (b) District Development and consultative Council. These two bodies have subsequently been amalgamated and formed in a single body known as District Planning and Development Council, which is presided over by the designated minister of the District. Initially the Chief Executive Officer of Zilla Parishad was to function as the member secretary of this body. But subsequently collector of the district was/is appointed as member secretary with effect from 15-12-1975. The services of the Deputy Chief Executive Officer (Planning) alongwith the planning cell of Zilla Parishad consisting of one Planning assistant and one junior clerk and two Research Assistants from the Directorate of Economics and Statistics, Government of Maharashtra, were also placed at the disposal of District Planning and Development Council. They have to work under administrative Control of Collector and member Secretary of District Planning and Development Council to assist the council in its deliberations, a small Executive Committee, is appointed under the chairman-ship of designated Minister of the district. The Collector also functions as the member secretary of this committee.

4.3 The year 1978-79 was the last year of the Fifth Five year plan. The annual plan implemented during the current year i.e. 1979-80 is treated as an independent Annual Plan. The annual plan provides for a total outlay of Rs. 11.65 crores. But an amount of Rs. 11.43 crores were budgeted out of total outlay. As against the budgetted outlay expenditure incurred was Rs. 11.23 crores i.e. 98 percentage.

4.4 Keeping the State objectives in view, the draft annual plan for Ratnagiri district was prepared. The allocation of budget grants and Expenditure incurred during the year is as shown below.

Table - 4.4

Table showing the major headwise allocation of budget grants and Expenditure incurred during the year 1979-80. (Rs. in crores).

SR. No.	Sector	Plan outlay for 1979-80	Revised Outlay	Total Expenditure incurred.	Percentage of expenditure to outlay sector.
1	2	3	4	5	6
1.	Agriculture and allied services.	2.03	2.07	2.04	98
2.	Co-operation	0.02	0.01	0.01	89
3.	Water and power development	2.67	2.67	2.63	98
4.	Industries and mining	0.22	0.16	0.16	100
5.	Transport and Communication	3.84	3.91	3.95	101
6.	Community and Social Services.	2.79	2.53	2.37	84
7.	Miscellaneous	0.08	0.08	0.07	88
Total		11.65	11.43	11.23	98

4.5 The sector allocation in the annual plan 1979-80 had been determined in the light of capacity already available in the district economy and objectives of the plan. A considerable part of the investment in the district was for infrastructural development. Out of the total outlay of Rs. 11.65 crores, 34% and 23% provision were made only for two sectors i.e.

transport and communication and water and power development respectively. The total expenditure incurred during the year 1979-80 was 98%.

4.6 The revised outlay:

An attempt is made in the subsequent paras to revised the progress of various schemes implemented under major heads. There were in all 157 schemes implemented during the year, 1979-80.

4.7 Agricultural programme:

Agricultural programme covers following seven heads under which 40 schemes has been implemented during the year.

Table No. 4.7

Sr. No.	Sub head of developments	No. of scheme implement	
		1978-79	1979-80
1	2	3	4
1.	Crop husbandry	9	11
2.	Minor irrigation	5	5
3.	Soil Conservation	2	2
4.	Animal Husbandry	12	6
5.	Dairy Development	1	2
6.	Forest	8	6
7.	Fisheries	6	8
	Total	43	40

4.8 Out of total of Rs. 2.03 crores provision for agricultural development, the provision of Rs. 1.23 crores (61%) was made for minor irrigation. The considerable provision was made for Soil conservation and fisheries development. Generally speaking, expenditure position was satisfactory in respect of all the schemes except Animal Husbandry.

4.9 Agricultural production:

Agricultural production. Under crop husbandry during the year 1979-80, 40 quintal improved seeds of paddy was distributed. Additional area covered under fruits during 1979-80 was 532 Hectares. Area of 43 Hectares was terraced, 676 M.Tonnes of Chemical fertilisers were distributed.

4.10 Minor Irrigation:

During the year 1979-80, 5 new wells and 1800 Kachha Bandharas were constructed 7 pumpsets were installed. Irrigation potential of 6000 hectares has been created during 1979-80.

4.11 Animal Husbandry:

During the year an expenditure amounting to Rs. 3.07 lakhs was incurred. Under the programme 15071 animals were inseminated 5186 animal were castrated 229000 animals were treated and 124000 animals were vaccinated. 1070 Cockrells were distributed and 9000 animals were treated under control of foot and mouth disease programme.

4.12 Dairy Development:

Expenditure incurred under this head for distribution of calves and construction of quarter for staff was Rs. 4.34 lakhs. 74 one years calves of buffalows were supplied to farmers under this scheme.

4.13 Forest:

Afforestation of 22 hectares were done and 676 hectares was brought under valuable trees during 1979-80. Improvements to Amboli forest park was undertaken.

4.14 Fisheries:

Under Fisheries programme, 2 lakhs fingerlings were stocked and 38 indigenus boats were mechanised. Loan distributed to the fishermen during the year was of Rs. 2.85 lakhs.

4.15 Co-operation and Community Development:

Out of the total budget provision of Rs. 0.93 lakhs, Rs. 0.83 lakhs were spent during 1979-80. Under co-operative activities, financial assistance in the terms of subsidy, share capital grant in aid was granted to 11 co-operative societies. No expenditure was incurred under the schenb community development.

4.16 Transport and Communication:

Road development and port and harbour development programmes were undertaken under this major head and expenditure incurred on both these programmes was more than 100%. New roads of 34 kms. modernisation of roads of 191 kms, Construction of 9 minor bridges, 508 class drainage works were completed. Under the development of Ports Harbours, draifing of 67950 tonnes, development of 27 jettys and one anti sea erosion work were completed.

4.17 Irrigation and power:

The budget provision for the year 1979-80 was Rs. 71.75 and lakhs/was fully spent on three irrigation projects, viz. Natuwadi, Gadgadi and Devgad. The work of Natuwadi is nearing completion and that of other projects are in progress. Under rural electrification programme 65 villages and 82 Harijan bastis were electrified. 491 pumps were also energised during the year.

4.18 Industries:

Budget provision of Rs. 16.25 lakhs was made under this major head. Of the budget provision, 99% Expenditure was incurred during the year Rs. 14.85 lakhs were distributed as seed money assistance to 201 educated unemployed. Financial assistance to 42 S.S.A. under S.A.I. scheme were granted.

4.19 Social Services:

There were 11 sub-heads under this major head. Total provision under this major head during 1979-80 was Rs. 253.05 lakhs of which an amount of Rs. 241.15 lakhs was spent. The Number of schemes implemented under each sub-head are given below.

Table No. 4.19.

Sr. No.	Name of sub-head	Schemes implemented	
		1978-79	1979-80.
1	2	3	4
1.	General Education	42	31
2.	Arts and culture	-	1
3.	Technical education	7	6

11.	Labour and Labour Welfare	5	4
Total		91	77

4.20 General Education:

Out of the budget provision of Rs. 23.63 lakhs, the expenditure booked on this sub-head was 83% Targets achieved on various schemes are summarised below.

Table No. 4.20

Sr. No.	I t e m s	Unit Achievements	
		Unit	Achievements
1.	School rooms constructed	No.	128
2.	Education concession to E.B.C.students	"	2000
3.	Number of teachers trained	"	210
4.	Part time classes for age group 11 to 14	"	8
5.	Establishment of rural sports centres	"	4
6.	Adult education programme(Centres)	"	120
7.	UNICEF aided programme (kit bags)	"	300
8.	Grant of Scholarships to economically backward class students for higher education.	"	48

4.21 Arts and Culture:

An amount Rs. 35000/- had been granted as Grant-in-aid to 70 rural public libraries.

4.22 Technical Education:

The expansion and improvements in Govt. Polytechnic Ratnagiri was the major programme under this sub-head which was being implemented smoothly. Extension to existing building, appointments of staff, development of library, establishment of book-banks are the main activities being carried out.

4.23 Public Health: Out of the budget provision of Rs. 11.01 lakhs Rs. 9.25 lakhs i.e. the expenditure booked on this sub-head was 84%. Expanding

facilities to civil hospital and primary health centres, up-gradation of existing primary health centres were the main item of achievements. Construction of nurses quarters were in progress and one building for nurses quarter was completed during 1979-80.

4.24 Applied Nutrition programme: The Budget provision of Rs. 2.04 lakhs was made under this sub head. i.e. Rs. 1.83 lakhs.

Expenditure made on this programme was 89% of the total budget provision. Appointment of staff and construction of community gardens were the items undertaken under Applied Nutrition Programme.

4.25 Water supply and drainage:

Expenditure booked on this programme was 100% during the year 1979-80. Water supply is the acute problem of this district and necessary efforts are being made to tackle the problems. Under this programme, 26 drinking water wells, 57 bore wells were completed. The work of water supply schemes in municipal area were completed.

4.26 Urban Development:

Financial assistance was granted to 5 municipal councils for implementation of development plan and an amount of Rs. 18.95 lakhs were spent during the year 1979-80.

Rural Housing:

Budget provision of Rs. 9.28 lakhs was made under this head during 1979-80 for providing house sites to landless workers in rural areas and construction of huts thereon and for tiling of roofs of huts. 100% Expenditure was incurred under this head. Tiles were provided for 853 houses and 121 houses constructed during the year.

4.28 Welfare of Backward Classes:

Under this programme, 15 schemes were implemented during 1979-80 by spending an amount of Rs. 10.61 lakh as against the budget provision of Rs. 14.44 lakhs. Achievements during the year 1979-80 were as follows: 1) Tuition fees and Examination fees were granted to 476 B.C. Students 2) Grant-in-aid was released to 21 aided B.C. hostels 3) Financial assistance for construction of houses under the schemes, financial assistance to individual and Group housing of B.Cs was provided for 345 houses. 4) Granted stipend to 8 B.C. students in I.T.I. 5) 20 irrigation wells were constructed. 6) Financial assistance by way of subsidy was granted to 70 B.C. farmers for development of land, purchase of fertilisers and implements. 8) Financial assistance was granted to 2 Balwadis.

4.29 Social Welfare:

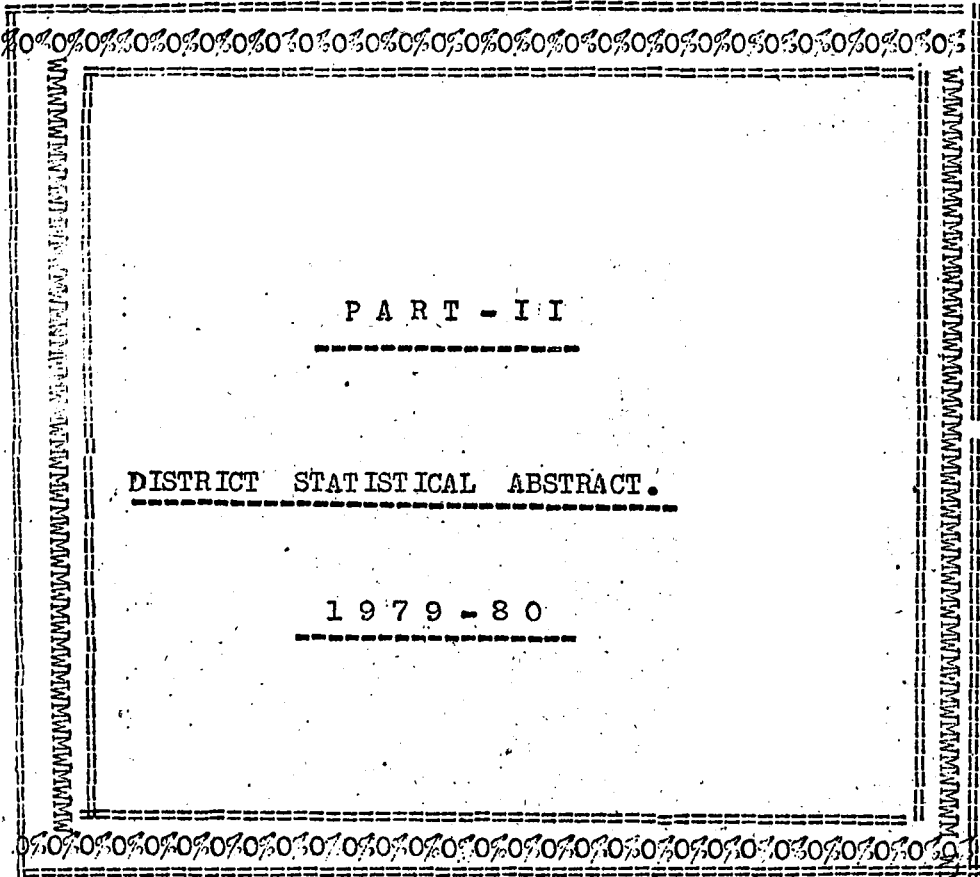

prohibition
Expansion work under provisions of Offenders Act was in progress and an amount of Rs. 26000/- was spent during the year.

4.30 Labour and Labour Welfare:

Under this programme expenditure of Rs. 7.33 lakhs was incurred to provide machines and other materials to I.T.I. at Ratnagiri, Sawantwadi, Chiplun. and introduction of additional seats at I.T.I. Chiplun.

4.31 Other Programme:

Employment Guarantee Scheme, the most unique and ambitious programme of Maharashtra Govt. was implemented under this head. During 1979-80 Rs. 7.48 lakhs were spent for providing employment. The labour attendance during 1979-80 was 5779 on 121 E.G.S. works.

PART - II

DISTRICT STATISTICAL ABSTRACT.
