

GOVERNMENT OF MAHARASHTRA
DIRECTORATE OF ECONOMICS AND STATISTICS

STATISTICAL ABSTRACT

OF

Maharashtra State

FOR THE YEAR

1980-81

GOVERNMENT PRESS, NAGPUR

PREFACE

The Statistical Abstract of Maharashtra State for the year 1980-81 gives the data on socio-economic characteristics of the State for the year 1980-81. The trends in respect of selected major topics are given in a summary form. Districtwise information has also been given wherever possible.

2. It is hoped that this publication will be found useful as a reference book by those interested in making socio-economic studies of Maharashtra and its districts.

3. I am thankful to the different departments and offices of the State Government, Government of India, Local Bodies and Other Organisations for their co-operation in supplying requisite data for inclusion in this publication, which is the Eighteenth in the series.

S. M. VIDWANS,

Bombay:
Dated 20th Sept. 1984.

Director of Economics and Statistics,
Bombay.

3-1 Temperature at different centres in Maharashtra State	100
3-2 Monthwise normal number of rainy days and rainfall	102
3-3 Rainfall at different centres	104

Table No.	Page
IV. AGRICULTURE	
✓ 4-1 Land utilization	130
✓ 4-2 Area and outturn of principal crops	132
✓ 4-3 Area under major groups of crops in each district	136
✓ 4.4 Area irrigated by different sources of irrigation	138
4.5 (A) Area irrigated under different crops (1974-75)	140
4.5 (B) Area irrigated under different crops (1975-76)	142
4.5 (C) Area irrigated under different crops (1976-77)	144
4.5 (D) Area irrigated under different crops (1977-78)	146
✓ 4.5 (E) Area irrigated under different crops (1978-79)	148
✓ 4-6 Total number of irrigation wells	150
✓ 4-7 Index number of area of principal agricultural commodities in Maharashtra State	151
✓ 4-8 Index number of production of principal crops of agricultural commodities in Maharashtra State	152
✓ 4-9 Index number of average yield of principal agricultural commodities in Maharashtra State	153
✓ 4-10 Area banded in each district	154
✓ 4-11 Agricultural machinery and implements	155
✓ 4-12 Number of operational holdings and area operated	157
✓ 4-13 Number of operational holdings and area operated by size class of operational holdings, Maharashtra State	158
V. ANIMAL HUSBANDRY	
✓ 5-1 Livestock in each district	160
✓ 5-2 Animals treated and castrated	164
✓ 5-3 Number of veterinary dispensaries	168
✓ 5-4. Miscellaneous statistics relating to animal husbandry	169
VI. FORESTS	
✓ 6-1 Area under different types of forests	172
✓ 6-2 Production of major and minor forest products	174
VII. FISHERIES	
✓ 7-1 Quantity of fish brought for curing, salt issued and fish removed at different centres	176
✓ 7-2 Miscellaneous statistics relating to fisheries	177
✓ 7-3 Marine fish production	178
VIII. INDUSTRIES AND MINING	
✓ 8-1 Distribution of working factories according to working strength	181
✓ 8-2 Number of working factories and average daily employment in major groups of industries during the year	182
✓ 8-3 Industrial production in Maharashtra	194
✓ 8-4 Mineral production	195
✓ 8-5 Annual survey of industries (Census + non-census parts)	196
IX. ELECTRICITY	
✓ 9-1 Supply and consumption of electricity in Maharashtra State	198
✓ 9-2 Towns and villages electrified in Maharashtra State	199
X. LABOUR	
✓ 10-1 Absenteeism in cotton textile and engineering industry at selected centres	202
✓ 10-2 Industrial disputes	204
✓ 10-3 Cases decided under Workmen's Compensation Act, 1923	205
✓ 10-4 Employment exchange statistics	206

II MAN POWER

TABLE No. 2-3

Occupational classification of persons at work other than cultivation in the State (according to divisions, groups etc).
(1971)

Division, group, n. e. o. (1)	Total (2)	Rural (3)	Urban (4)
D-0-1 Professional, technical and related workers	5,89,452	2,28,835	3,60,617
00-Physical scientists	7,542	280	7,262
01-Physical science technicians	1,631	210	1,421
02-Architects, engineers, technologists and surveyors	23,173	3,440	19,733
03-Engineering, technician	38,965	2,959	36,006
04-Air crafts and ships officers	2,075	130	1,945
05-Life scientists	2,956	1,911	1,045
06-Life science, technicians	9,186	5,350	3,836
07-Physicians and surgeons (including dental and veterinary surgeons)	35,215	13,452	21,763
08-Nursing and other medical health technicians	56,813	13,666	43,147
09-Scientific, medical and technical, persons, others	1,393	652	741
10-Mathematicians, statistician and related workers	1,455	110	1,345
11-Economist and related workers	250	30	220
12-Accountants, auditors and related workers	22,161	1,138	21,023
13-Social scientists and related workers	11,010	3,804	7,206
14-Jurists	15,282	700	14,582
15-Teachers	3,05,896	1,66,999	1,38,897
16-Poets, authors, journalists and related workers	3,560	110	3,450
17-Sculpters, painters, photo-graphers and related creative artists	9,041	529	8,512
18-Composers and performing artists	15,425	4,422	11,003
19-Professional workers n. e. c.	26,423	8,943	17,480
D-2-Administrative, executive and managerial workers	2,19,656	53,979	1,65,677
20-Elected and legislative officials	810	390	420
21-Administrative and executive officials Government and local bodies	1,07,273	44,441	62,832
22-Working proprietors, directors and managers, wholesale and retail trade	9,535	925	8,610
23-Directors and managers, financial institutions	7,228	3,063	4,165
24-Working proprietors, directors and managers mining construction manufacturing and related concerns.	70,559	2,730	67,829
25-Working proprietors, directors, managers and related executives, transport, storage and communication.	6,740	340	6,400
26-Working proprietors, directors and managers, other services	15,804	1,969	13,835
29-Administrative, executive and managerial workers n. e. c.	1,707	121	1,586
D-3-Clerical and related workers	8,11,787	1,72,346	6,39,441
30-Clerical and other supervisors	78,880	3,710	75,170
31-Village officials	57,326	54,901	2,425
32-Stenographers, typists and card and type punching operators	42,027	1,409	40,618
33-Book keepers, cashiers and related workers	97,447	8,144	89,303
34-Computing machine operators	1,230	200	1,030
35-Clerical and related workers	4,62,479	84,428	3,78,051

Divisions, group n. c. o. (1)	Total (2)	Rural (3)	Urban (4)
36-Transport and communication supervisors	17,216	3,636	13,580
37-Transport, conductors and guards	22,897	6,685	16,212
38-Mail distributors and related workers	19,501	8,146	11,355
39-Telephone and telegraph operators	12,784	1,087	11,697
D-4-Sales workers	8,35,810	1,85,464	6,50,346
40-Merchants and shopkeepers wholesale and retail trade	4,91,628	1,12,722	3,78,906
41-Manufacture agents	12,075	1,350	10,725
42-Technical salesman and commercial travellers	3,775	280	3,495
43-Salesman, shop assistant and related workers	2,86,278	65,273	2,21,005
44-Insurance, real state, securities and business, service salesman and auctioneers	34,679	3,199	31,480
45-Money lenders and pawn brokers	5,049	709	4,340
46-Sales workers n. e. c.	2,326	1,931	395
D-5-Service workers	6,63,132	1,55,149	5,07,983
50-Hotel and restaurant keepers	54,341	21,045	33,336
51-House keepers, matron and stewards (Domestic and institutional)	1,540	300	1,240
52-Cooks, waiters, bartenders and related workers (Domestic and institutional)	1,30,382	17,444	1,12,938
53-Maids and other house keeping service workers n. e. c.	1,01,967	11,772	90,195
54-Building caretakers, sweepers, cleaners and related workers	83,436	12,847	70,589
55-Launders, dry cleaners and pressers	46,375	12,824	33,551
56-Hair dressers, barbers, beauticians and related workers	74,990	45,263	29,727
57-Protective service workers	1,53,210	29,582	1,23,628
59-Service workers n. e. c.	16,891	4,112	12,779
D-6-Farmers, fishermen, hunters, loggers and related workers	2,71,416	1,98,715	72,701
60-Farm plantation, dairy and other managers and supervisors	3,951	2,466	1,465
61-Cultivators			
62-Farmers, other than cultivators	94,029	78,672	15,357
63-Agricultural labourers			
64-Plantation labourers and related workers	4,244	3,726	518
65-Other farm workers	75,243	47,567	27,676
66-Forestry workers	24,073	18,897	5,176
67-Hunters and related workers	1,628	1,553	75
68-Fishermen and related workers	68,248	45,814	22,434
D-7-8-9-Production and related workers, transport equipment operators and labourers.	29,76,893	9,09,834	20,67,059
71-Miners, quarry men, well drillers and related workers	32,875	19,140	13,735
72-Metal processors	29,580	6,230	23,350
73-Wood preparation workers	11,439	1,383	10,056
74-Chemical processors and related workers	50,418	8,692	41,726
75-Spinners, weavers, knitters, dyers and related workers	4,70,134	4,28,217	41,917
76-Tanners, fellmongers and pelt processors	3,799	689	3,110
77-Food and beverage processors	1,07,929	50,301	57,628

TABLE No. 23—(contd.)

Division, group, n. e. c. (1)	Total (2)	Rural (3)	Urban (4)
78-Tobacco preparers and tobacco product makers	1,47,274	96,626	50,648
79-Tailors, dress makers, sewers, upholsterers	1,89,484	78,515	1,10,969
80-Shoe makers and leather goods makers	66,389	37,607	28,782
81-Carpenters, cabinet and related wood workers	1,57,380	76,609	80,771
82-Stone cutters and carvers..... .. .	19,712	14,057	5,655
83-Blacksmiths, tool makers and machine tool operators	1,30,925	38,282	92,643
84-Machinery fitters, machine assemblers and precision instrument makers (except electrical)	2,23,273	24,255	1,99,018
85-Electrical fitters and related electrical and electronic workers	1,10,050	18,173	91,877
86-Broad casting station and sound equipment operators and cinema projectionists	2,838	631	2,207
87-Plumbers, welders, sheet metal and structural metal prepares and erectors	52,412	5,950	46,462
88-Jewellery and precious metal workers and metal engravers (except printing)	34,329	15,046	19,283
89-Glass formers, potters and related workers	70,875	40,755	30,120
90-Rubber and plastics product makers	29,116	2,331	26,785
91-Paper and paper board product makers	5,243	978	4,265
92-Printing and related workers	44,316	2,515	41,801
93-Painters	27,443	3,640	23,803
94-Production and related workers n. e. c.	1,20,990	70,379	50,611
95-Brick layers and other construction workers	1,65,147	65,382	99,765
96-Stationary engines and related equipment operators oilers and greasers	31,302	7,339	23,963
97-Material handling and related equipment operator, loaders and unloaders	1,26,489	22,877	1,03,612
98-Transport equipment operators	2,15,699	34,507	1,81,192
99-Labourers n. e. c.	3,00,033	1,08,728	1,91,305
D-x-Workers not classified by occupations..... .. .	91,620	16,476	75,144
X0-New workers seeking employment
X1-Workers reporting occupations unidentifiable or in adequately described	53,695	5,893	47,802
X9-Workers not reporting any occupations	37,925	10,583	27,342

Note :—n. e. c. = Not elsewhere classified.

TABLE No. 5-4

Miscellaneous statistics relating to animal husbandry

(As on 31st March 1981)

Serial No. (1)	Item (2)	Number (3)
<i>I Veterinary institutions</i>		
1	Veterinary polyclinics	20*
2	Veterinary hospitals	56@
3	Veterinary dispensaries (including mobile veterinary dispensaries)	507
4	Veterinary aid centres	1,268
5	Institute of veterinary biological products	1
6	State level disease investigation section laboratory	1
7	Regional level D. I. S. laboratories	6
8	Mobile epizotic control units	10
9	Mobile veterinary clinics	11
10	Check posts	13
11	Vigilance units	6
12	R. P. follow up centres	4
<i>II Cattle development</i>		
1	Intensive cattle development projects	8
2	District artificial insemination centres	23
3	Key village centres	48
4	Artificial insemination sub-centres—	
	(A) Under zilla parishads	1,351
	(B) Under key village centres	396
	(C) Under intensive cattle development project	670
5	Cattle breeding farms (including exotic cattle breeding farms)	12
6	Training centres in A. I. technique	4
<i>III Poultry development</i>		
1	Poultry breeding farms and hatcheries	5
2	Intensive poultry development blocks	14
3	Poultry extension centres	2
<i>IV Sheep development</i>		
1	Sheep breeding farms (with Maharashtra sheep development corporation)	9
2	Wool analysis laboratory	1
3	Goat breeding farm	1
<i>V Research scheme</i>		
1	All India co-ordinated project for epidemiological studies of foot and mouth disease	1

Notes:—

*Including one each at Parbhani and Nagpur under Agricultural Universities.

@Including one at Pune under Agricultural University and one under society for prevention of cruelty to Animals, Bombay.

VIII INDUSTRIES AND MINING

TABLE No. 8.3

Industrial production in Maharashtra

(1980)

Serial No.	Industry	Unit	Production
(1)	(2)	(3)	(4)
1	Coal (Including lignit)	Thousand Tonne	5,350
2	Lime stone	Thousand Tonne	N.A.
3	Sugar	Thousand Tonne	1,508.60
4	Salt	Thousand Tonne	494.50
5	Vanaspati	Thousand Tonne	121.79
6	All yarn	Thousand Tonne	271.81
7	All cloth	Thousand Meters	15,10,388
8	Petroleum (Crude)	Thousand Tonne	4,586
9	Petroleum refinery products	Thousand Tonne	7,302
10	Iron ore	Thousand Tonne	1,371.66
11	Finished steel	Thousand Tonnes	239.40
12	Steel ingots	Thousand Tonnes	495.80
13	Ferroy alloys	Thousand Tonnes	110.00
14	Railway coaches	Number	12
15	Electricity	Million KWH.	19,773

Note.—N. A.—Not available.

TABLE No. 15-1

Important vital rates in respect of Maharashtra State
(1980)

Serial No. (1)	Item (2)	1980 (3)
1	Sex ratio at birth	111
2	Sex ratio at death	131
3	Vital index	322
4	Death rate per 1,00,000 population by principal causes--	
4-1	Cholera	5
4-2	Small-pox	..
4-3	Plague	..
4-4	Fevers	56
4-5	Respiratory disease	98
4-6	Dysentery and diarrhoea	18
4-7	Injuries	32
4-8	All other causes	469

Note.—(1) Sex ratio at birth	$\frac{\text{Male live births}}{\text{Female live births.}} \times 100$
(2) Sex ratio at death	$\frac{\text{Male deaths}}{\text{Female deaths.}} \times 100$
(3) Vital index	$\frac{\text{Total live births.}}{\text{Total deaths.}} \times 100$

25	Bhandara	18.9	30.8	20.5	8.3	9.3	8.5	66	51	63
26	Chandrapur	20.7	24.9	21.4	9.6	4.7	8.8	72	18	61
Maharashtra State		17.7	28.4	21.7	6.4	7.4	6.7	42	44	43

Note.—(1) The birth and death rates are based on the mid year estimated population of villages and towns from which the birth and death records were actually received.

(2) The birth and death rates are per 1,000 estimated population. Infant mortality rates are per 1,000 births.

(3) The rates shown in the above table are based on registered births and deaths and are low due to under registration, specially in the rural area.

APPENDIX

EXPLANATORY NOTES ON SOURCES AND LIMITATIONS OF STATISTICS PRESENTED IN
THE STATE STATISTICAL ABSTRACT, 1980-81**1. Purpose and Scope :**

1.1. This is the eighteenth issue of the Statistical Abstract of Maharashtra State which is being published since its formation in 1960. As stated in the first issue, the purpose of publishing this Abstract is to present background statistical material on as many socio-economic characteristics of the State as is possible so that the Abstract may prove useful not only as a reference book but also for research, planning or further socio-economic studies about the State. The information is, to the extent feasible, presented districtwise for inter-district comparison. Some social and economic statistics are presented over a series of years to bring out changes in these fields.

1.2. The present issue relates to the year 1980-81 and the detailed data are published for the year 1980-81 wherever possible. Also, yearly series up to the year 1980-81 are presented. Wherever data for 1980-81 were not available, the data for the latest available year are given. The statistical data presented in this Abstract are initially compiled by various departments of the State Government, Government of India, Local Bodies, etc. These departments usually prepare and release provisional figures for recent years. These provisional figures are in the process of finalisation and ultimately when they are finalised, they are slightly different from the provisional figures released earlier. For this reason, the data published in the other publications of this Directorate, viz., 'Hand-book of Basic Statistics of Maharashtra State', 'Economic Survey of Maharashtra' or the earlier issue of the Statistical Abstract may be found to be slightly different from those published in this Abstract.

2. Maharashtra State at a glance :

2.1. This table is divided into two parts. In the first part, some general particulars about the State are given. In the second part, the important indicators under various heads such as population, agriculture, etc., are presented along with the corresponding figures relating to the country. Against each item, the period to which the figures concerning Maharashtra and India respectively relate is mentioned. In some cases, this period is not identical. In such cases, the data for the latest available year for India is shown and comparison of Maharashtra with India is made with reference to this year or period. The statement also gives percentage share of Maharashtra with the figures relating to the country. For instance, against item No. 1.1 (a), the rural population of Maharashtra is shown to be 7.9 per cent of the total rural population of the country. In addition, important comparable indicators are also shown both in respect of Maharashtra as well as of India. For instance, against item No. 1.1 (b) the percentage of rural population to the total population in the State is shown as 68.8 along with the corresponding percentage of 80.1 for all India.

2.2. The information regarding factories and employment shown against item No. 5.1 is inclusive of defence factories. Road length per 100 sq. km. of area shown against item No. 9.2 is quoted from the information supplied by the Ministry of Transport and Shipping. The estimates of State Income and National Income given against item No. 10 are according to revised series.

For India, estimate of National Income and Net National Domestic Product, is shown.

3. Summary Tables :

3.1. Summary tables on the following topics have been presented here : (1) Agriculture—(i) Land utilisation, (ii) Area irrigated by crops, (iii) Area and outturn of principal food and non-food crops, (2) Livestock, (3) Community Development Programme, (4) Co-operation, (5) Industries (Factory Statistics), (6) Electricity, (7) Joint Stock Companies at work, (8) Education, (9) Mineral Production in Maharashtra, (10) Motor vehicles in operation, (11) State Income and per capita income in Maharashtra at current and constant prices and (12) Consumer Price Index Numbers for working classes (new series).

4. Selected Indicators :

4.1. Districtwise economic and social indicators are being presented in the Statistical Abstract since 1975-76. Accordingly selected indicators mainly for the year 1980-81 have been presented in this issue. Base population is, in all cases, taken to be the estimated population for 1980-81 except where the particular population estimate (such as workers, urban population etc.) was not available for the year. In such cases, 1971 population characteristic was used.

5. Area and Population (I) :

5.1. Final figures of 1971 Population Census are presented in all the tables in this section. The table No. 1.1 gives districtwise figures of area, number of tahsils, number of towns and villages and rural and urban population. A 'village' in the 1971 census is a revenue village having a defined boundary and separate land records. Hamlets, wadies or padas have not been treated as separate villages. Forest villages make an exception. They are population centres situated within reserved forest areas. Their population mainly consists of forest labourers and their families. Such forest villages are also treated as villages. Number of inhabited villages shown in column (7) of table No. 1.1 denotes number of inhabited revenue villages and inhabited forest villages. The uninhabited villages are the Revenue villages but did not have any residential population. For the purpose of 1971 Census, a town or an urban area was defined as a place which has (i) a municipality, a cantonment or civil lines or (ii) a population of 5,000 or over and at least three-fourth or more of male workers engaged in non-agricultural pursuits. The table No. 1.2 gives districtwise figures of decadal-variation in population since 1901. The table No. 1.3 gives the classification of inhabited villages in each district according to different population ranges or classes. The table No. 1.4 gives similar break up of towns or urban areas according to population ranges. The table No. 1.5 gives a complete list of town groups and towns in each district and their sexwise population. The table No. 1.6 gives literacy percentages of the population in each district as in 1961 and in 1971. The table No. 1.7 gives districtwise details of population of scheduled castes, scheduled tribes and buddhists as in 1971. Table No. 1.8 gives the list of tahsil and Panchayat Samities. The general population (1971) tables concerning Maharashtra, are

published by the Government of India in 'Census of India—1971, Maharashtra, Part II-A'. The various concepts adopted at the time of the census concerning 'village', 'town', 'household' are explained in this publication so as to facilitate comparison with earlier Census.

6. Manpower (II) :

6.1. The first seven tables included in this section give economic classification of the population in the State. The Statistical information regarding table No. 2.1 is taken from the Census of India, 1971, part II-A and the rest is taken from Part-II-B (ii) Census of India, 1971 published recently. For this purpose necessary particulars were recorded in respect of each individual person and the entire population was first classified into—(i) workers and (ii) non-workers. A worker is defined as a person whose main activity is participation in any economically productive work through his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. In the case of regular work in trade, profession, service or business, a person was considered as a worker, if he had participated in such regular work on any one of the days during the week preceding the date of enumeration and that work has been returned as his main activity. A person who is engaged primarily in household duties such as cooking for one's own household or performing one's own household duties or a boy or a girl who is primarily a student attending an institution, even if such a person helps the family's economic activity but not as a full-time worker was not treated as worker for the main activity. A person who merely receives income such as rent or pension and who does not have to work for receiving that income, has not been treated as worker. The number of each category and the total number of non-workers are shown in table No. 2.1. Category I includes both owner cultivators and tenant-cultivators, Category II covers all other persons working on land as labourers on wages without holding any right upon the land. Workers in live-stock, forestry, fishing, hunting, plantation, orchards and allied activities are included in Category No. III. Category IV includes workers in mining and quarrying. This includes coal mining, crude petroleum, natural gas, metal ore, mining, stone quarrying and other type of mining, salt, chemicals, precious stones, mica, gypsum, etc. Workers in household industry are included under Category V (a). Household industry is defined as an industry conducted at home in urban areas or within the village in rural areas by the head of the household himself and/or mainly by the members of the household. A household industry is not run on the scale of a registered factory and relates to repairing or making of goods. Thus the main criteria for household industry are its smaller scale, its being run at home in urban areas and within the villages in rural areas. Manufacturing Category V (b) includes all types of production, processing, servicing or repairing of goods. This category does not include production, processing, etc., which may be classified as household industry. Category VI covers workers engaged in construction and maintenance of building, roads, railways, bridges, telegraph and telephone lines, waterways, reservoirs, etc. Under Category VII workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, money-lending, banking, etc. are included. Category VIII includes workers engaged in transport activities by air, rail, road and water and in services incidental to transport such as packing,

carting, loading, unloading, etc. Workers engaged in storage, warehousing and communications services, such as posts, telegraphs, telephones, wireless signaling, information and broad-casting are also included in this category. Workers engaged in : (i) Public utility services, like electricity, gas or water-supply and sanitary services (ii) Central, State, quasi-Government or Municipal, Employees in administrative departments or offices, (iii) Professional Services, and (iv) Trade or labour associations, recreation services, etc., are covered under Category IX. The table Nos. 2.2 and 2.3 given occupational classifications of workers engaged in work other than cultivation. "Occupation" of the worker is the function which he personally performs by engaging himself in work in any branch of economic activity which is called his industry. The concept of "Occupation" is thus distinct from that of "industry". The latter is defined as the sector of economic activity in which a worker is engaged. Classification of the former is the work performed personally by the individual concerned. Occupations are classified according to National classification of Occupation (NCO). The table No. 2.3 giving classification into 10 Occupational Divisions (denoted by prefix D) is sub-divided into Group (G). The table gives classification according to groups. The table No. 2.4 gives distribution of workers by industry (other than cultivation), classified according to the National Industrial Classification 1970 up to the two-digit level. Table No. 2.5 shows classification of workers in manufacturing, processing, servicing and repairs by household and non-household industry. Male, female and rural, urban classification is shown under major two-digits industry groups of National Industry classification 1970 (NIC 1970). Table 2.6 prepared for the first time shows the classification of workers in non-household industry, trade, business, profession or services as main activity by class of workers (*i. e.* employee, employer, single worker or family worker) and sex. Data for rural, urban and total area are shown separately. An employer is a person who hires one or more persons in his work. An employee is a person who works for others for wages or salary in cash or kind. A single worker is a person who is doing his work without employing others except casually and without the help of other members of his family except casually or a participant in work as a member of a co-operative. A family worker is a person who is doing his work in a family enterprise along with other members of the family without wages or salary in cash or kind. The data presented in Table No. 2.7 and 2.8 give information according to age-groups and marital status of female workers and non-workers according to main activity respectively. The Table No. 2.9 provides information about persons not at work classified by type of activity and sex. The Table No. 2.10 to 2.15 present results of the Census of State Government employees (as on 1st July 1974) conducted by the Directorate. The data presented in these tables are restricted to Class I, II, III and IV employees of the State Government and do not cover any other category such as work-charged personnel, Class IV employees paid from contingencies, daily rated workers, part-time workers or honorary workers. The distribution of employees according to specified basic pay ranges is shown separately in respect of Class I, II, III and IV employees. The Table No. 2.13 gives distribution of the employees according to monthly emoluments ranges. The Table No. 2.16 gives the employment data under the Shops and Establishments Act, 1948. The Table No. 2.17 gives employment market information and the table No. 2.18 gives data on No. of establishments and employments collected in Economic Census, 1977.

7. Climate (III) :

7.1. The Table No. 3.1 gives 'maximum' and 'minimum' temperature and the month in which the temperature was highest or lowest in respect of 41 centres in the State and is given for the year 1980. The figures are based on the data supplied by the Government of India's Regional Meteorological Centres at Colaba (Gr. Bombay) and at Nagpur.

7.2. The Table No. 3.2 gives monthly normal rainfall and number of rainy days in each month and in each district. The district figures are the simple averages of the normal rainfall at different rain-gauge stations in each district and the number of rainy days respectively. The Table No. 3.3 gives monthwise figures of actual rainfall and number of rainy days for 1980 in respect of each rain-gauge station in the District. Annual figures for 1978 and 1979 and figures of average or normal rainfall are also given for each centre. These centres are generally the tahsil or district headquarters in the districts. The figures of average or normal rainfall are worked out on the basis of actual figures for the periods ranging from a minimum of five years to a maximum of eighty years. As regards rainy days, a day was treated as rainy day if during the twenty-four hours, the rain-gauge recorded a minimum of 2.5 mm. of rainfall.

8. Agriculture (IV) :

8.1. The important statistics in the section are sub-divided into: (i) land utilisation, (ii) irrigation, and (iii) area and outturn of principal crops, (iv) No. of operational holdings and area operated.

8.2. The Table No. 4.1 gives the districtwise figures of land utilisation for the year 1980-81 under the standard heads of utilisation. Against each district, the break-up of the total geographical area according to different types of land used is shown. The changes in the geographical area over years are mainly due to the progress of cadastral surveys. The area according to village papers is calculated from the village returns prepared by the village officials for revenue purposes. There are differences between the figures of total area according to the Surveyor General and according to the village papers because the latter is calculated by totalling up areas of village returns while the former is calculated in blocks. Moreover, allowances made for areas covered by whatever, buildings, roads, etc., are different in two cases. Under 'Forests' are included all actually forested areas or lands classed or administered as forests under any legal enactment dealing with forests whether State-owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land. Land put to non-agricultural uses stands for all lands occupied by buildings, roads and railways or under water, e. g., rivers and canals and other lands put to use other than agricultural. Barren and unculturable land covers all barren and unculturable land like mountains, deserts, etc. Land which cannot be brought under cultivation unless at a high cost, is classed as unculturable, whether such land is in isolated blocks or within cultivated holdings. Permanent pastures and other grazing lands cover all grazing lands, whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head. Land under miscellaneous tree crops and

groves not included in the net area sown includes all cultivable land which is not included under net area sown but is put to some agricultural use. Land under casurina trees, thaching grass, bamboo bushes and other groves for fuel, etc., which are not included under 'orchards' are classed under this category. Culturable waste includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Current fallows comprise cropped areas which are kept fallow during the current year. (If any seeding area is not cropped again in the same year, it is also treated as current fallow). Other fallow lands include all lands which were taken up for cultivation but are temporarily out of cultivation for a period of not less than one year and not more than five years. The reasons for keeping such lands fallow may be one of the following : (1) poverty of cultivators, (2) inadequate supply of water, (3) malarial climate, (4) silting of canals and rivers, (5) soil erosion and (6) unremunerative nature of farming. The net area sown consists of net area sown with crops and orchards, area sown more than once being counted only once. The gross cropped area represents the sum total of area under all crops. The difference between the total cropped area and net area sown is accounted for by the area sown more than once on the same land during the same year with the same or different crops. The Table No. 4.2 gives area and outturn figures of principal crops. The figures for 1980-81 are based on fully revised data. The data about area are compiled from village records. The estimates of outturn are based partly on the results of crop-cutting surveys and partly on 'annewari' method. At present, crop cutting surveys are being conducted in respect of rice, bajri, jowar, wheat, ragi, gram, tur (partly), sugarcane, cotton, groundnut and tobacco (Satara, Sangli and Kolhapur districts only). The Table No. 4.3 gives break-up of the total gross cropped area for the year 1979-80 according to five major groups of food crops and five major groups of non-food crops. The tables on area irrigated by sources and by crops are presented in the issue. The table No. 4.4 gives the area irrigated by different sources of irrigation for the years, 1974-75 to 1978-79. The table No. 4.5 give the area irrigated under different crops for the years 1974-75 to 1978-79. Number of irrigation wells is presented in table No. 4.6. Subsequent three tables, viz., table Nos. 4.7, 4.8 and 4.9 give index numbers of area, production and productivity in respect of entire State with Triennium 1969-70 as base. Correct idea regarding trends in production cannot be obtained from the absolute figures on production of crops. To overcome this difficulty in the absolute figures for different years, a series of index numbers of agricultural production of principal crops is compiled by the Department of Agriculture. The productivity index is the ratio of index of production to the index of area multiplied by 100. The Table No. 4.10 gives districtwise figures of area banded during 1966-67 to 1973-74 and fifth plan to 1980-81 and during the earlier three plan periods. The Table No. 4.11 gives data on different types of agricultural machinery and implements as enumerated at 1972 and 1978 quinquennial live-stock censuses. At these censuses, only those implements which were in use for agricultural purposes were enumerated. Data on operational holdings and area operated as per Agricultural Census, 1976-77 is presented in Table Nos. 4.12 and 4.13.

9. Animal Husbandry (V) :

9.1. The Table No. 5.1 gives the number of various types of live-stock and poultry as enumerated in the State at the time of 1978 and 1972 Livestock Censuses. These are quinquennial censuses conducted throughout the country on the uniform basis of concepts and methods of enumeration. At these censuses all the live-stock is enumerated by house-to-house enquiry. Particular care is taken to enumerate live-stock in slaughter-houses, stray animals and animals in transit. The table No. 5.2 gives statistics regarding number of animals and poultry treated and number of animals castrated in 1980-81 by the veterinary staff of the Government, Zilla Parishads and Municipalities. The Table No. 5.3 gives the number of different types of veterinary institutions of the Government, Zilla Parishads and Municipalities functioning in districts in 1980-81. Table No. 5.4 gives information regarding number of different types of institutions such as breeding farms, Artificial Insemination Centres, etc., functioning as on 31st March 1981.

10. Forests (VI) :

10.1. Two tables are included in this section. The table No. 6.1 gives details of area under different types of forests for 1980-81. Information regarding forests under the control of the State's Forests Department and those under the control of the State's Revenue Department is shown separately. The areas under forests are classified according to legal status into reserved forests, protected forests and unclassed forests. The legal status refers to the classification of forests under the Indian Forest Act, XVI of 1927. Reserved forests are those that are intended mainly for timber production and in which rights of grazing and cultivation are seldom allowed. In protected forests, the restrictions are not so rigid as grazing or cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forest or unoccupied waste. The forests which are taken by Government from local bodies or private individuals for management on lease basis are called 'leased forests'. The forest area shown in Table No. 6.1 may not tally with the area under forest shown in table on land utilisation in agriculture section. The two sets of figures differ due to the following reasons :— (i) In the Indian Forests Statistics Returns, the whole area including non-wooded area under the control of Forest Department is taken as area under forests while in Agricultural Statistics, it is classified according to its actual utilisation. (ii) The Forest Department Returns are meant to serve a definite administrative purpose and indicate the ownership of the forest areas ; the actual utilisation of these areas is not so important from their point of view as it is in the land utilisation statistics for Agricultural Department, (iii) The Forest Department Returns relate to financial years, and Agricultural Statistics relate to the agricultural years. The Table No. 6.2 gives production of major and minor forest produce for 1980-81. The figures are shown circle-wise and refer to the areas under the control of Forest Department only.

11. Fisheries (VII) :

11.1. The Table No. 7.1 gives information regarding quantity of fish brought for curing at curing yard, quantity of salt issued on the quantity of fish removed in 1980-81. It refers to the curing done by salting process in Government curing yards alone. The Table No. 7.2 gives information regarding fishing boats,

estimates of total fish production, activities of the co-operative sector in fisheries and some salient features of the activities of the State's Fishery Department in 1980-81 while the Table No. 7.3 gives further break-up of the marine fish production according to districts.

12. Industries and Mining (VIII) :

12.1. In this section, statistics regarding working factories, average daily employment, industrial and mineral production and some selected industrial characteristics have been given. Figures presented in Table No. 8.1 and Table No. 8.2 were compiled by the Directorate of Economics and Statistics (Govt. of Maharashtra) on the basis of data collected by the Chief Inspector of Factories from the factories covered under sections 2 m (i), 2 m (ii) and 85 of the Factories Act, 1948. The factories using power, which employed 10 or more workers on any day of the preceding 12 months are covered under section 2 m (i) and the factories not using power employing 20 or more workers under section 2 m (ii). Apart from these two categories, State Government by notification in official Gazette specifies a number of factories and makes obligatory for such factories to supply statistical information notwithstanding the number of persons employed therein and using or not using power. These factories are covered under section 85 of the Factories Act, 1948. Information in these two tables relates to the accounting year of factory ending on any day between 1st January and 31st December.

12.2. The Table No. 8.3 gives the figures of production of selected industries in the State and Table No. 8.4 gives districtwise figures of mineral production and its value.

12.3. The Table No. 8.5 is based on the returns supplied to this Directorate by National Sample Survey Organisation (Govt. of India) which collects the data from the factories divided in two sectors, viz. (i) Census sector, (ii) Non-census sector and returns relate to the accounting year of the factory ending on any day between 1st April to 31st March. In the census sector, the factories employing 50 or more workers and using power and factories employing 100 or more workers and not using power are covered on complete enumeration basis every year. The remaining factories are covered in the non-census sector. In the non-census sector, since 1973-74, 50 per cent of the factories are selected every year and thus this sector is covered fully in a block period of two years. The factories in the non-census sector, having less than 50 workers all over India, are treated on par with factories in the census sector. The survey extends to all the manufacturing units including production and distribution of electricity, gas, water and also service industries like sanitary services, repair services and personal services. This survey extends also to Bidi and Cigar units which are covered under Workers Act, 1966. It also includes the factories, reported closed. However, it excludes defence factories, restaurants and cafes, those engaged in storage and distribution of oil, technical training institutions not producing anything for sale or exchange.

12.4. Productive capital which relates to the last day of the year, consists of fixed and working capital. Number of persons employed is the average number of persons employed under various heads, such as workers, other than workers, etc. and it includes persons on leave with pay such as sick leave, casual leave or paid vacation. Gross output represents value of products and by-products manufactured for sale, work done for customers and a sale value of goods sold in the same

condition as purchased and is adjusted for the difference in stocks of semi-finished goods at the beginning and at the end of the survey year. Value added by manufacture is computed by deducting from the gross ex-factory value of output the gross value of input. Value added is net of depreciation.

13. Electricity (IX) :

13.1. The Table No. 9.1 gives figures of (i) installed capacity, (ii) output and (iii) consumption of electricity. The figures relate to only public utilities. The table No. 9.2 gives progress of electrification under Maharashtra State Electricity Board up to 31st March 1981. The table also includes villages and towns which are electrified by the private agencies.

14. Labour (X) :

14.1. Table No. 10.1 gives figures of absenteeism in cotton textile industries at a few selected centres in the State. The statistics relate to only voluntary absenteeism defined as absence due to reasons which are personal to the individuals concerned. As such, absence of a worker on account of strike, lock-out or lay-off is not considered. They cover 'workers' as defined by the Factories Act, 1948, but exclude persons holding positions of supervision or management or employed in confidential position. Moreover, only regular workers (excluding casual and substitute workers) are considered. The absenteeism rate is the ratio of number of man shifts lost due to absences to the number of man shifts scheduled to work. The table No. 10.2 gives statistics regarding industrial disputes in the State for the years 1960, 1965, 1970, 1975 and 1976 to 1980 and for each month of 1980. For the purposes of statistics, an industrial dispute is taken to be a temporary stoppage of work by a group of employees to express a grievance or enforce a demand or temporary withholding of work from a group of employees by one employer (or a group of employers) in connection with matters relating to employment or non-employment or terms or conditions of employment. Thus both the types of work stoppages, popularly known as 'strike' and 'lock-out' are covered. Political strikes, sympathetic demonstrations and the like are, however, excluded. The statistics cover such disputes in which the number of workers involved is ten or more in all the sectors of economic activity such as factories, plantations, mines, transport, construction, services, etc. It must also be mentioned that the monthly figures of number of strikes and number of workers involved are not additive to form annual figures because of the fact that the period or duration of the strike may have spread over more than one month. The table Nos. 10.3 and 10.6 give some important statistics concerning cases decided under Workmen's Compensation Act, and compensation paid to the workers involved in accidents. The table No. 10.4 gives important statistics relating to employment exchanges. The table No. 10.5 gives statistics relating to trade unions.

15. Prices (XI) :

15.1. Table No. 11.1 gives month end wholesale prices of some important agricultural commodities ruling at important market places in the State. Prices at end of June 1980, September 1980, December 1980 and March 1981 are shown. Prices as at the end of each month are regularly published in the 'Maharashtra Quarterly Bulletin of Economics and Statistics'. The data are initially collected by the office of Marketing Research Officer, Bombay. Table No. 11.2 gives wholesale prices of Bombay Market of the agricultural

and other essential commodities for the year 1980-81, collected by Marketing Research Officer, Bombay. Table No. 11.3 gives prices of gold and silver at the Bombay Market as published in the 'Currency and Finance Report, Vol. II' by Reserve Bank of India.

15.2. The Index Numbers of wholesale prices in India issued by the Economic Adviser to the Government of India are presented in Table No. 11.4. The base year for the series is 1970-71. The details of the method of construction of the index is given in the 'Appendix to index' number of wholesale prices in India-revised 'series,' issued by the office of the Economic Adviser to the Government of India. The Table No. 11.5 gives the new series of consumer price index number for working class for seven centres, viz., Bombay, Pune, Solapur, Jalgaon, Nanded, Aurangabad and Nagpur. The base year for the new series is 1960 for Bombay, Solapur and Nagpur and 1961 for Pune, Jalgaon, Nanded and Aurangabad.

15.3. The details regarding the scope and method of compilation of the new index for Bombay and Solapur are given in December 1965 issue, for Jalgaon and Nagpur in January 1966 issue, for Pune in August 1965 issue and for Nanded and Aurangabad in March 1966 issue of the Labour Gazette issued by the Commissioner of Labour, Government of Maharashtra.

15.4. Table No. 11.6 gives consumer price index numbers for agricultural labourers in Maharashtra. The series is compiled by the Labour, Bureau, Simla. The year 1960-61 is the base. The details of the method of construction and scope of the index is given in Indian Labour Journal, Vol. V. No. 11. Table No. 11.7 gives consumer price index number for non-manual employees compiled by the Central Statistical Organisation. The year 1960 is adopted as base. In Maharashtra, index is worked out for Greater Bombay, Pune and Nagpur. The method and scope of the index is explained in 'Monthly Abstract of Statistics, August 1966' published by the Central Statistical Organisation. The table No. 11.8 gives consumer Price Index number for Urban Maharashtra by group of commodities and table No. 11.9 gives the same index for Rural Maharashtra. The methodology has been published in the 'October-December 1979 issue' of the Maharashtra Quarterly Bulletin of Economics and Statistics.

16. Trade (XII) :

16.1. The first two tables included in this section give particulars of imports and exports of Bombay Port in 1980-81. The information is extracted from the annual report of Bombay Port Trust. The third table gives imports in and exports from this State to the other States of the country by rail and river. The source of this information is the 'Accounts, relating to inland (rail and river borne) trade of India,' published by Department of Commercial Intelligence and Statistics, Calcutta.

17. Transport and Communications (XIII) :

17.1. In this section, statistical information relating to various modes of transport is given. The table No. 13.1 gives district-wise railway length. The statistics relating to railway length in the country are initially compiled by the Railway authorities. But these statistics are according to railway zones and the districtwise break-up is not available. The districtwise figures had to be specially compiled by referring to railway time-tables and the railway map. Difficulty arose while measuring the distance between railway stations one of which was in one

district and the other in the other district. Also, it was rather difficult to measure correctly the distance between the stations located in the State and the border of the State. The figures presented in this table are approximate. The Table Nos. 13.2 and 13.3 give figures of road length as on 31-3-81. The figures relate to roads maintained by the State's Public Works Department, Zilla Parishads and by Municipal Authorities. The Table No. 13.4 gives figures relating to different types of motor vehicles in operation as at the beginning of calendar year 1981. The Table No. 13.5 gives important operational statistics relating to Maharashtra State Road Transport Corporation. The figures relate to financial year. Table Nos. 13.6 to 13.9 give some important statistics regarding traffic handled by Bombay Port and minor ports of the State. The figures shown against minor ports are mostly those of coastal traffic. In the case of Bombay Port, figures of overseas traffic and coastal traffic are shown separately in the Table No. 13.8. The Table No. 13.10 gives cargo (imports and exports) handled at various minor ports of the State. The table No. 13.11 gives particulars of traffic carried by the Indian Airlines Corporation. Aggregate figures of traffic carried from airports in Maharashtra are shown separately in the table. The table No. 13.12 gives statistics of foreign tourists disembarking at Bombay. The Table No. 13.13 gives some important statistics regarding posts and telegraph offices, number of letter-boxes, etc., in each district. Information in this table is collected from postal authorities. The Table No. 13.14 gives information regarding radio (receiver) licences in force at the end of 1980. The table No. 13.15 gives information regarding T. V. Licences in force at the end of 1980.

18. Education (XIV) :

18.1. Salient features of progress of education in various parts of the State are presented in this section. The Table No. 14.1 gives information regarding number of institutions and enrolment therein, by type of education. Table No. 14.2 gives enrolment of students and number of teachers. It also gives number of trained teachers and break-up in male and female. The classification of institutions according to type is slightly different from 'stages' of education. There are at present many secondary schools which also impart education in 'primary' courses. Nevertheless, the entire enrolment of students is included under 'Secondary' education. A realistic picture may perhaps be available from Table No. 14.3 which gives the break-up of the total enrolment of students in pre-primary, primary and secondary schools according to standards. Children between ages 3 and 5 attend pre-primary institutions. These are generally known as kindergarden, montessori, etc. Primary institutions provide education for pre-primary and standards I-IV or standards I-VII/VIII or less and teachers the curriculum approved by the Education Department, whereas secondary institutions coach students for standard VIII to X or XI/XII with or without lower standards. Higher education is education after passing Secondary School Certificate Examination which leads to a degree/diploma examination. The Table No. 14.4 gives distribution of pupils according to medium of instructions, information pertaining to six important languages is shown separately. The Table No. 14.5 gives particulars of examination results held during 1980-81. The statistics are presented according to examinations.

18.2. The data on technical education is presented in Tables 14.6 to 14.9.

Table No. 14.6 gives categorywise and districtwise distribution of technical institutions in Maharashtra in the year 1980-81.

Table No. 14.7 gives number of technical institutes, intake capacity, enrolment, outturn and number of teachers by category of institution.

Table No. 14.8 gives number of sanctioned seats, intake capacity and outturn of Government Industrial training institutions during 1980-81.

Table No. 14.9 gives number of students appeared and passed in final year examination of engineering and technological Colleges and Polytechnic during the calendar year 1979 and 1980.

19. Medical (XV) :

19.1. Table No. 15.1 gives some important vital rates viz., sex ratio at birth, sex ratio at death, vital index etc. Vital index is the percentage of births to deaths. Table No. 15.2 gives districtwise figures of birth rates, death rates and infant mortality rates and their break-up in urban and rural for the year 1980. Birth rate is the number of births per thousand estimated population of the year. It can be of value in indicating in a general way variations between population having different geographical area. The formula is :

$$\text{Birth rates} = \frac{D}{N} \times 1000.$$

(D.=No. of live births which occurred among the population of the given geographical area, N=estimated mid-year population.)

Death rate is the total number of deaths per thousand estimated population of the year. The formula is :

$$\text{Death rates} = \frac{X}{N} \times 1000.$$

(X=No. of deaths which occurred among the population of the given geographical area. N=Estimated mid-year population.)

Infant mortality rate serves as one of the best indices to the general "Healthiness" of a society. It is also a ratio of total deaths under one year of age to total live births.

The formula is :

$$\text{Infant mortality rate} = \frac{\text{No. of deaths under 1 year of age}}{\text{No. of live births which occurred among the population of given geographical area.}} \times 1000$$

The data on vital statistics was collected through revenue agency in rural area and for urban area, it is statutory function of Municipalities and Municipal Corporations.

19.2. Table No. 15.3 gives number of deaths due to different diseases. Number of 21 different diseases are given. Deaths caused by injuries are also given. Table No. 15.4 gives information regarding number of hospitals and dispensaries working

and total number of beds in each district. The table covers all State and Central Government institutions, institutions run by municipalities and local bodies and also private aided institutions. The Primary Health Centres under control of the State's Directorate of Public Health Services and under Zilla Parishads are not included in this table.

19.3. Table No. 15.5 gives statistics regarding number of family planning centres as on 31st March 1981. The centres run by the various agencies are also included. It also includes mobile/family planning centres. In these centres the sterilizations, IUCD insertions and distribution of conventional contraceptives are done regularly. The sterilization operations performed on male is called "Vasectomy" and that on female is called "Tubectomy". IUCD device is meant for women and is used for spacing as well as for stopping of the births.

19.4. Table No. 15.6 gives districtwise performance of primary vaccinations and revaccinations during 1980. Successful primary vaccination is one which on examination after one week shows a typical of jennerian vesicle and successful revaccination is one which on examination after one week shows reactions like vesicular or pustular lesion or an area of definite palpable induration or congestion surrounding a central lesion which may be scab or ulcer. These reactions are termed 'major reactions'. All others are termed equivocal reactions.

20. Co-operation (XVI) :

20.1. Statistical information is shown separately in respect of the following groups of co-operative institutions : (i) Agricultural and non-agricultural, credit-apex and central institutions (Table No. 16.1), (ii) Agricultural Credit Societies including primary land mortgage banks and grain banks (Table No. 16.2), (iii) Non-Agricultural Credit Societies (Table No. 16.3), (iv) Marketing Societies (Table No. 16.4), (v) Societies in productive enterprises (Table No. 16.5) and (vi) Other societies (Table No. 16.6). Table No. 16.1 covers Maharashtra State Co-operative Bank, Bombay State Co-operative Land Development Bank, Maharashtra State Co-operative Housing Finance Society, District Central Co-operative Banks and District Industrial Co-operative Bank, Solapur. Owned capital shows paid-up capital. Borrowing denotes the total borrowings (other than deposits) outstanding at the end of the period. Working capital includes paid-up capital, deposits and borrowing. Loans outstanding includes outstandings in respect of loans, cash credits and overdrafts and the amount of the outstanding bills purchased or discounted. Overdues refer to the amount of loans or instalments which was due for collection but which was not actually collected and for the repayment of which no extension has been granted by a competent authority. Table No. 16.2 relates to the activities of the agricultural credit societies (large size and small size) primary land development bank and grain banks (active and dormant). Value of goods purchased, sold and stocks at the end of the year refer to the consumer goods handled by the primary agricultural credit societies. Table No. 16.3 relates to the operation of urban banks and urban credit societies, employees credit societies and others. Table No. 16.4 relates to the activities of the marketing societies. Agricultural marketing societies are co-operative institutions the main object of which is the purchase and sale of agricultural produce grown by its members or members of co-operative credit societies in its area of operation. The marketing society may be primary society dealing directly with

the agriculturists or primary credit societies but not having any other primary co-operative marketing organisation affiliated to it. It may be central or regional society in the nature of a federation of primary marketing societies in their area of operation. At the State level, there is marketing society at the highest level in the nature of a federation of a district or regional marketing societies. Table No. 16.4 covers sugarcane supply societies also which are specially organised for the sale of sugar-cane of members. Table No. 16.5 covers cotton ginning and pressing societies, sugar factories, other agricultural processing societies such as paddy husking, rice mills, oil crushing, fruits and vegetable, etc., farming societies, irrigation societies, dairy societies and unions, weavers societies, other industrial societies, spinning mills, co-operative industrial estates, fisheries societies, forest labourers' societies and societies engaged in maintenance and development of poultry farms and purchase and sale of poultires' products as well as ghee societies and other societies dealing with other livestock products. Table No. 16.6 covers consumer societies (wholesale and primary), primary housing societies, other agricultural non-credit societies, other non-agricultural non-credit societies, labour contract supervising unions, State unions and district co-operative board, insurance societies and federations.

21. Rural Credit (XVII) :

21.1. The transactions of money-lending in the State are regulated and controlled under the provisions of the Bombay Money-Lenders Act, 1946. According to the Act, no money-lender is to carry on the business of money-lending except in the area for which he has been granted a licence and except in accordance with the terms and conditions of such licence. The Table No. 17.1 gives districtwise figures of (i) number of applications received for grant of licences under the Bombay Money-Lenders' Act, 1946, (ii) number of licences granted, (iii) number of old licences renewed and (iv) number of money-lenders holding valid Licences at the end of the year. The Table No. 17.2 gives details of loans given to traders and non-traders. These loans are sub-divided into those not granted under section 22 of the Act, and those exempted under section 22.

22. Banks and Joint Stock Companies (XVIII) :

22.1. The Table No. 18.1 gives a complete list of towns and villages in each district having bank offices as on 31st December 1980. Number of bank office includes offices of scheduled, non-scheduled and co-operative banks. The reference period of Commercial Banks is on 31st December 1980, wherever available, while that regarding Co-operative Banks is as on the latest balance sheet or return. The Table No. 18.2 gives distribution of places having banking offices and total number of banks therein as on 31st December 1980 according to different population ranges. The Table No. 18.3 gives districtwise number of scheduled bank offices, non-scheduled bank offices and co-operative bank offices as on 31st December 1980. The source of this information relating to banks is 'Directory of Bank Offices' in December 1980, published by the Reserve Bank of India. Table No. 18.4 gives number of joint stock companies as at the end of 31st March 1980.

23. Local Bodies (XIX) :

23.1. The Table pertaining to the Community Development Project in the State is not published in this issue owing to the closure of C. D. Programme.

23.2. The Table No. 19.1 gives districtwise information of (i) number of Village Panchayats, (ii) their total coverage in terms of villages and population, their (iii) income and (iv) expenditure. The information is given for the year 1980-81. Number of Village Panchayats include number of independent village panchayats as well as group village panchayats. The number of villages covered and the population covered by the Village Panchayats are as per 1971 Census. Income and expenditure of Village Panchayats are exclusive of opening and closing balance, respectively. Under income, information is separately shown under grants, taxes and other income. Grants include Government grants as well as grants from Zilla Parishads and panchayat samitis for development activities. Government grants are mainly land revenue grants, equalization grants and local cess grants. The other taxes include other taxes and fees imposed by the Village Panchayats. Similarly, the other income of Village Panchayats is contributions, donations, gifts and fines for contraventions of rules. Table No. 19.2 gives the receipt position of each Municipal body according to (i) Municipal rates and taxes and (ii) other sources, Government grants under (ii) other sources are mainly grants on account of dearness allowance, grants for roads, for water-supply, for educational purposes, for medical purposes and on account of percentage in land revenue, etc. The income from extraordinary receipts and debts includes loans, advances, deposits, sale-proceeds, etc. The same table gives similar income position in respect of five Municipal Corporations. Table No. 19.3 gives details of expenditure by Municipal Councils and by Municipal Corporations. The expenditure has been shown separately under current and under extraordinary expenditure and debts. The break-up of current expenditure is shown under six broad heads of the expenditure and includes both capital and revenue expenditure. The accounts of the Bombay Municipal Corporation are maintained separately for (i) city area, (ii) suburban area, (iii) extended suburban area, (iv) education fund, (v) improvement schemes, and (vi) slum clearance schemes for city and suburbans. The totals for the entire Bombay Municipal Corporation are arrived at by summing up the above accounts excluding the inter-account transfers. They, however, do not cover the income and expenditure of Bombay Electricity Supply and Transport Undertakings. In the case of Nagpur Municipal Corporation income and expenditure of Nagpur Improvement Trust is not included. It may be mentioned here that all the Municipalities do not follow a uniform procedure for presentation of statistics regarding income and expenditure, with the result that it was very difficult to build up these statistics on comparable basis. The figures shown in these statements may, therefore, be regarded as only broad distribution into the items shown. The Table No. 19.4 gives the particulars of income and expenditure in respect of 25 Zilla Panchayats in the State. The receipts and expenditure of the Zilla Parishads are exclusive of opening balance and closing balance, respectively. The receipts are shown under four sub-heads, viz. (i) self-raised resources, (ii) Government grants, (iii) grants for agency schemes and (iv) debt section. Self-raised resources are mainly land revenue cess, local cess, local revenues, other taxes and fees imposed by the Zilla Parishads. While Government grants are mainly land revenue grants, purposive grant, establishment grants, plan grants, block grant etc. The expenditure is likewise shown under five broad heads, viz., (i) general administration, (ii) education, (iii) community development, (iv) debt section and (v) others. The expenditure under

community development is exclusive of expenditure under the head miscellaneous departments. It is also restricted to revenue expenditure and does not include capital expenditure and loans and advances. However it includes revenue expenditure under local development works, agency scheme, training scheme and other general schemes.

24. State Finance (XX) :

24.1. The Tables Nos. 20.1 and 20.2 give figures of revenue receipts and revenue expenditure of the State Government under different heads for 1980-81 (Actuals). Further details will be found in the Civil Budget Estimates of the State Government. The Table No. 20.3 gives figures of receipts and expenditure on both revenue and capital accounts in summary form.

24.2. The Table No. 20.4 is classified in six sections and gives the economic classification of Maharashtra Government Budget for 1980-81 (Actuals). The framework of economic classification presented here is based on the delimitation of the Government transactions in a set of six accounts.

24.3. The Budget annually presented gives the transactions on account of receipts and expenditure of the State Government. In order to analyse the economic impact of these budgetary transactions, an economic classification of the Budget is undertaken. In this classification the transactions are regrouped and reclassified into meaningful economic categories.

This classification follows closely the framework of economic classification adopted for the Central Budget. It eliminates all inter-account and inter-departmental transfers including transfers to and from funds and brings out the genuine transactions of the State Government with the rest of the economy.

25 Annual Plan of Maharashtra State (XXI) :

25.1. The Table No. 21.1 gives details of expenditure under each major heads of development for State Plan and centrally sponsored programme for 1980-81. The Table No. 21.2 gives trend in plan expenditure from the Second Year Plan to 1980-81.

26 State Income (XXII) :

26.1. The Tables Nos. 22.1 to 22.5 give the estimates of State income at current and constant (1970-71) prices, its percentage distribution, sectoral distribution etc. These estimates are prepared on the basis of comprehensive statistical material which has become available from official records and also collected through sample surveys and type studies conducted by this Directorate, Central Statistical Organisation and other agencies over the past few years.

27 Judicial and Administrative (XXIII) :

27.1. In this section, the relevant statistical data relating to the Police Department of the State, Judicial Courts and Prisons are included. As regards statistics regarding police, the same are presented in two parts-one relating to activities of Greater Bombay police and the other relating to rest of the police organisation including railway police. The Table No. 23.1 gives information regarding cost and strength of police in Greater Bombay for 1980. The temporary and permanent strength is shown separately. Similar information about the rest of the Police Organisation (including railway police) is shown in Table No. 23.2. The strength shown in these tables of different categories gives the number of

posts created in various offices of the Police Department. Statistics regarding cognizable crimes handled by Police Department are presented in Table Nos. 23.3, 23.4 (Greater Bombay) and 23.8 and 23.9 (rest of the State). Information regarding the disposal of cases handled by the police and statistics regarding the number of persons involved in these cases are shown separately. Similar statistics regarding non-cognizable crimes are shown in the Table Nos. 23.5, 23.6 (Greater Bombay). The Table No. 23.7 gives particulars of property stolen and recovered in Greater Bombay during the year 1980. The Table No. 23.10 gives information regarding number of police stations, outposts, total strength of police and total number of cognizable cases dealt with by the police in each district. Table No. 23.11 gives particulars of different types of cognizable offences handled by the police in the entire State during each quarter of 1980-81. The last table, viz., Table No. 23.12 gives property stolen and recovered in Maharashtra State. Statistics relating to Judicial Courts for 1980 is presented in Table Nos. 23.13 to 23.21. Number of judicial officers in civil and criminal cases exercising appellate and original jurisdiction are shown in Table No. 23.13. Table No. 23.14 gives cases decided and Table No. 23.15 gives number, description and value of civil suits in two parts in civil courts and in courts at the headquarters of the State or State Government. General results of civil and miscellaneous cases in civil courts and courts at the headquarters and of criminal cases in the tribunals of various classes are presented in Table Nos. 23.16 and 23.17, respectively. Table No. 23.18 gives the same regarding the appeals and revisions in criminal cases in Maharashtra State. Table No. 23.19 gives the business of the civil appellate courts in Maharashtra State. Number of offences reported and punishments inflicted in criminal cases are given in Table Nos. 23.20 and 23.21, respectively. Table Nos. 23.22 to 23.27 give statistics regarding prisons for the year 1980. Table No. 23.22 shows the prisoners confined in jails and subsidiary jails in Maharashtra State. The admission and disposal of the convicts and their age, state of education are given in Tables Nos. 23.23 and 23.24, respectively. Nature and length of sentences of convicts admitted into the jails is presented in Table No. 23.25. Information about the convicts admitted into the jails who had been previously convicted is given in Table No. 23.26. Youthful offenders under 16 years of age are also indicated. Itemwise expenditure in guarding and maintaining the prisoners is also given in Table No. 23.27.

28 Press and Publications (XXIV) :

28.1. This section gives information regarding number of printing presses working in the State and some important particulars about books and periodicals published in the State in 1980. Wherever possible, further classification of books and periodicals according to languages and according to subjects is also given here. Table No. 24.1 gives number of printing presses in each district. In the Table No. 24.2 the classification of newspapers (as defined by section 1 of the Press and Registration of Books Act, 1867) according to language and periodicity is given. Table No. 24.3 gives statistics of books published for 1980 according to type. Information given in Table Nos. 24.4 and 24.5 is about the classification of books and periodicals according to

languages and number of books and periodicals published according to subjects, respectively. Moreover the periodicals shown in these tables do not include periodicals the periodicity of which is of short duration, such as dailies and fortnightlies.

29 Housing (XXV) :

29.1. This section gives data on housing collected through 1971 Census. In the 1971 Census, "House" was defined as "a structure or part of a structure (inhabited or vacant or a dwelling, a shop, a shop-cum-dwelling or a place of business, work-school, etc.) with a separate entrance whether that separate entrance led directly to the street or to a common staircase, courtyard or a gate". The Table No. 25.1 gives classification of houses according to the purpose for which they were used. The distribution of 1,000 census households by the number of rooms occupied is given in Table No. 25.2, which is based on 20 per cent sample. A room has four walls with a doorway and a roof overhead and of at least 6' x 6' dimensions. Unenclosed verandah, kitchen, store, garage and cattle-shed or places of sizes smaller than 6' x 6' are not treated as rooms. Households residing in any one of such places are treated as having no regular rooms. A 'household' is a group of persons who commonly live together in the same house and take their meals from a common mess unless exigencies of work prevent any of them from doing so. Material presented here is restricted only to the family type of households. Institutional households, i. e., groups of persons residing in hostels, boardings, prisons, hospitals, etc., who otherwise satisfy the definition of household, are not included here.

30 Miscellaneous (XXVI) :

30.1. Five tables are included in this section. The Table No. 26.1 gives important financial statistics relating to Reserve Bank of India. The Table No. 26.2 gives classification of the assessee assessed to income tax according to range of income assessed to tax their income and tax payable for the assessment year ending 31st March 1980. The assessee are sub-divided into (i) individuals (ii) Hindu undivided families, (iii) unregistered firms, (iv) association of persons, (v) registered firms, (vi) companies. The total income shown in the table represents the income assessed to tax after deduction, set off of losses and other admissible rebate from gross income.

30.2. Table No. 26.3 gives number and description of registered documents and value of property transferred relating to gifts, sales, exchanges, mortgages of immoveable property. The break-up of compulsory and optional registration and their aggregate value is given. Registrations affecting moveable property are shown in Column Nos. 10 and 11.

30.3. Table No. 26.4 gives number of marriages registered in Maharashtra State for 1966, 1970, 1975 to 1980 under Bombay Marriages Act, Special Marriages Act, and other Acts. The Bombay Registration of Marriages Act, 1954, is applicable to all the corporation cities, municipal towns and headquarters of tahsils.

30.4. The Tables No. 26.5 (A) and 26.5 (B) give Electoral Statistics and results of Lok Sabha (1980) election and Vidhan Sabha (1980) elections.
