## INTRODUCTION

The Season and Crop Report is an important publication brought out by Department of Agriculture of Maharashtra State which presents useful information pertaining to Agriculture.

The present report for the year 1985-86 gives information on rainfall data, districtwise Land Utilisation Statistics, area, production and productivity of various crops, farm harvest prices, agricultural wages etc.

The rainfall data presented in the report is based on daily rainfall figures received from Revenue Offices and from Indian Meteorological Department for a few selected centres, during the year.

Data on land utilisation, sources of irrigation, areas under different crops and agricultural wages is received from District Revenue Offices. The results of production estimates are based on the crop estimation surveys conducted on certain principal food and non-food crops while the data pertaining to farm harvest prices are collected by Agricultural Development Officers. The data on agricultural stocks presented in the report is based on quinquennial census of live-stock and agricultural machinery conducted in 1982 by the Directorate of Animal Husbandry, Government of Maharashtra.

The districtwise figures are given in Tables-I to Table-VII and state level figures are summarized in Summary Tables A to I.

The salient features are summarised below.

During 1985-86 the behaviour of monsoon was erratic, though commenced in time up to July 1985. Monsoon was feeble so kharif sowing was delayed. Due to dry spell from 16th August to 19th September, kharif crop growth was stunted. Due to scanty and intermittent rains, crops on light soils withered and suffered from moisture stress. Rains in January, 1986 were beneficial for late sown rabi crops. However, due to rains accompanied by hailstorms in February 1986, standing rabi crops were adversely affected. In general season was not satisfactory during 1985-86.

The net cropped area during the year under report was 182.22 lakh hectares or 59.2% of geographical area (307.58 lakh hectares) while gross cropped area was 205.68 lakh hectares or 66.9% of geographical area.

The net irrigated area was reported as 19.48 lakh hectares while gross irrigated area was 24.20 lakh hectares.

Even though the area under foodgrains *i. e.* 140.49 lakh hectares showed an increase of 2.5% over preceding year the foodgrain production (87.12 lakh tonnes) showed a decrease of 6% over that of the preceding year due to adverse seasonal conditions.

Sugarcane production was 232.68 lakh tonnes while Cotton production was 19.83 lakh bales of 170 kg. each.

Oilseed production was 9.53 lakh tonnes. The production of almost all crops except Cotton decreased during the year under report.

The report may prove helpful to the users of agricultural statistics.

# SEASON AND CROP REPORT OF THE MAHARASHTRA STATE FOR THE YEAR 1985-86

## CHAPTER I

### EFFECTS OF RAINFALL ON SOWING AND CROP GROWTH

During 1985-86 the behaviour of monsoon has been very erratic. The south-west monsoon though commenced in time, its intensity from the beginning till 11th July was feeble in most parts of the State except Konkan region where it was active. Heavy rainfall was recorded in parts of Konkan region during the second fortnight of June. In rest parts of the State weather was intermittently cloudy with scattered and isolated light to moderate rains. Marathwada and Vidarbha regions experienced widespread light to moderate rains during second and last week of June and in first week of July. Due to erratic behaviour of monsoon, the sowing of kharif crops was delayed in parts of the State. However, due to receipt of rains in the second and last week of June and first week of July kharif sowing were undertaken in the third week of June and were completed in the middle of August. During the first fortnight of August widespread rains were received in almost all parts of the State. These rains were beneficial for proper growth of kharif crops. Subsequently there was a long dry spell from 16th August to 19th September in most parts of the State except Konkan and parts of Nagpur division. Consequently the kharif crops on light soils were adversely affected.

Light to moderate rains were received in parts of Ahmednagar, Pune and Solapur districts and in few prockets of Satara district from the 9th to 12th September. Similarly the State experienced widespread light to moderate rains during the first week of October. These rains were beneficial for undertaking the sowing of the rabi crops and for improvement and for proper growth of late sown kharif crops such as cotton, tur and jowar.

Sowing of rabi jowar, safflower, sunflower and linseed was commenced in parts of the State towards the last week of September and that of unirrigated wheat and gram crops in middle of October. The sowing of rabi crops was nearly

completed in parts of the State in the first fortnight of November, except irrigated wheat and gram crops. The sowing of irrigated rabi crops was also completed in parts of the State by the end of December 1985. Germination and growth of irrigated rabi crops and unirrigated rabi crops on heavy soil was reported to be satisfactory. The growth of standing unirrigated rabi crops on light and medium soils was stunted and they were showing signs of withering due to moisture stress. Light to moderate rains received on 15th January 1986 were beneficial to some extent to late sown rabi crops particularly in parts of Marathwada and Vidarbha regions. Interculturing operations in rabi fields were in progress. Harvesting of unirrigated rabi crops was completed in parts of the State towards the end of February. Similarly the harvesting of irrigated wheat and gram crops was also completed in first week of April in parts of the State.

However, during the first fortnight of February light to moderate rains accompanied with hail-storm were received in parts of Marathwada and Vidarbha regions and in parts of Nasik division. Western Vidarbha region also experienced hail-storm in the last week of February. Consequently, the standing rabi crops were adversely affected in the above mentioned regions.

Sowing of summer paddy nursery was ended in parts of Konkan regions towards the end of December 1985 and that of far eastern districts of Bhandara and Chandrapur by the first week of February 1986. Transplanting of summer paddy crop was completed by the end of February except Thane and Raigad districts of Konkan regions where the operation was completed in the middle of March. The sowing of summer crops of groundnut Vaishakhi mung and sunflower was also completed in parts of the State. Condition of summer crops was reported to be satisfactory.

## CHAPTER II

### LAND UTILISATION

(Summary Table 'A' page 6 and Summary Table 'A-I' pages 7)

Number of Villages :

The number of villages in the State was 41,400 as against 40,583 during the preceding year. The increase was due to formation of new villages.

Total Geographical Area :

Geographical area in the State was 307.85 lakh hectares.

It can be seen from Summary Table 'A' that out of total geographical area 182.23 lakh hectares was under net cropped area which showed a slight increase by 0.7 per cent over preceding year. The total cropped area during the year under report was 205.69 lakh hectares as against 197.26 lakh hectares in preceding year showing an increase of 4.3 per cent. The area shown more than once increased from 16.29 lakh hectares in 1984-85 to 23.45 lakh hectares in 1985-86.

The area under all other categories of land use however remained almost same as compared to the preceding year except current fallow and other fallows

Summary Table 'A-I' gives the districtwise details of percentage area under each of the category under nine fold classification in each district of the State

### CHAPTER III

#### IRRIGATED AREA

( Table III, Pages 50 to 65 )

(Summary Table 'B' and 'C' pages 8 to 10)

3.1 During the year under report the number of wells used for irrigation purpose (Other than tube wells) increased by 3.6 per cent having gone up from 8,82,216 in 1984-85 to 9,14,023 in 1985-86. But the number of wells used for domestic purpose showed a decrease of 3.2 per cent in the year under report over the last year.

3.2 The number of oil engines showed a decrease of 2.1 per cent while the number of pumb sets showed an increase of 7.8 per cent in 1985-86 as compared to the preceding year.

3.3 The net irrigated area in the State decreased by 0.5 per cent having gone down from 19.57 lakh hectares in 1984-85 to 19.48 lakh hectares in 1985-86. The gross irrigated area also decreased by 1.0 percent having gone down from 24.44 lakh hectares in 1984-85 to 24.20 lakh hectares in the year under report.

3.4 During the year under report, the percentage of net irrigated area to net area sown in the State was 10.7 which was 10.8 in the last year while that of gross irrigated area to gross area shown was 11.8 per cent as against 12.4 per cent during the preceding year.

#### Sourcewise Net and Gross Irrigated Area :

3.5 The net irrigated area by surface irrigation decreased by 1.1 per cent during the year under report as compared to the preceding year. The net area irrigated by wells also decreased by 0.1 per cent as compared to the year 1984-85.

3.6 The gross irrigated area by surface irrigation in the State decreased by 2.2 per cent so also the gross irrigated area by wells slightly decreased by 0.2 per cent during the year under report as compared to the preceding year.

3.7 The total irrigated area under surface irrigation constituted 38.3 per cent of the total irrigated area while total area irrigated by wells was 61.7 per cent of the total irrigated area.

The Table III-A gives percentage of net irrigated area to net area sown and gross irrigated area to gross area sown in each district of the State, while Table III-B gives percentage of area irrigated by surface irrigation and well irrigation in each district of the State.

3.8 The cropwise irrigated area during 1985-86 is presented in Summary Table 'C' along with the corresponding area in 1984-85. It can be seen that out of the total irrigated area of 24.20 lakh hectares in the State, the irrigated area under food crops occupied a larger share of 21.55 lakh hectares or 89.1 per cent while the remaining area of 2.65 lakh hectares or 10.9 per cent under non-food crops.

3.9 Although the irrigated area is slightly decreased during the year under report as compared to the last year, a slight increase was noticed in the irrigated area under principal crops like rice, kharif jowar and gram.

## CHAPTER IV CROPPED AREA

(Table IV-A, IV-B and IV-C pages 66 to 89)

(Summary Tables 'D' pages 11 to 21)

4.1 Gross cropped area, area cropped more than once and area under various food and non-food crops are shown in Summary Table 'D'.

4.2 From this Table, it can be seen that the gross cropped area increased by 4.3 per cent during the year under report, as compared to preceding year, having gone up the same from 197.3 lakh hectares to 205.7 lakh hectares. So also the net cropped area increased by 0.7 per cent during the year under report as compared to preceding year. The area sown more than once increased from 16.3 lakh hectares in 1984-85 to 23.5 lakh hectares in 1985-86 or by 43.9 per cent.

4.3 Out of the total increased in the gross cropped area during 1985-86 the area under food crops and non-food crops increased by 2.4 per cent and 9.6 per cent respectively.

4.4 This increase in area under food crops is mostly due to increase in area of cereals i.e. rice by 2.7 per cent and rabi jowar by 5.9 per cent, pulse crops like gram by 32.8 per cent, tur by 14.3 per cent, urid by 11.7 per cent.

The area under condiments and spices also showed an increase by 4.5 per cent in the year under report.

4.5 In case of non-food crops, this increase is mostly due to increase in area of oilseed crops like Sesamum 46.1 per cent, Safflower 29.2 per cent and Sunflower and Linseed.

4.6 Out of the total cropped area in the State, the percentage area covered by certain categories of crops is indicated below :

Name of the Crop	Percentage area to total cropped area
Rice	7.5
Kharif Jowar	14.0
Rabi Jowar	18.2
Bajri	8.3
Wheat	4.3
Total cereals	54.5
Gram	2.4
Tur	3.7
Total pulses	13.8
Total foodgrains	68.3
Groundnut	3.3
Total Oilseeds	10.7
Cotton	13.2
Sugarcane	1.7

Thus, it can be seen that out of the total cropped area in the State, 68.3 per cent area was covered under foodgrain crops. The cotton crop also covered comparatively larger area of 13.2 per cent of the total cropped area. The above categories put together covered about 93.9 per cent area of the total cropped area while rest of the crops i.e. condiments, spices, fruits vegetables, drugs and narcotics and fodder crops etc. covered remaining 6.1 per cent area.

## CHAPTER V

### AVERAGE YIELD AND OUTTURN OF CROPS

(Table V-A and V-B pages 90 to 101)

(Summary Tables 'E' and 'F' pages 22 and 23)

#### Kharif Foodgrain Crop :

The over all seasonal condition during the year 1985-86 found to be not favourable as compared to the preceding year 1984-85. As a result of this the production of foodgrains decreased by 6.1 per cent during the year under report as compared to the preceding year having gone down the same from 92.8 lakh tonnes to 87.1 lakh tonnes. This decrease in production of foodgrain crops was due to decreased production of wheat by 12.5 per cent, kharif jowar 14.6 per cent, Rabi jowar 23.2 per cent, Bajri by 22.8 per cent mainly due to decrease in productivity due to unfavourable season. Rice, Tur crops however showed an increase in production by 12.6 and 16.1 per cent respectively because of increase in productivity as well as increase in area. Gram crop showed an increase in production mainly because of increase in area.

The Table below gives the contribution of various crops in the production of foodgrains during the year 1985-86.

Crop	Percentage outturn to total outturn of foodgrain crops
Rice	24.8
Bajri	4.8
Ragi	2.9
Kharif Jowar	30.4
Rabi Jowar	14.6
Wheat	7.5
Other cereal crops	1.8
Gram	1.8
Tur	5.2
Other pulse crops	6.2
<b>Total</b>	<b>100.0</b>

From the above, it can be seen that the major contribution to foodgrain crops comes from Jowar (both Kharif and Rabi) and which accounts for 45.0 per cent followed by Rice which accounts to 24.8 per cent.

In case of Sugarcane the production in terms of cane decreased by 10.1 per cent during 1985-86 having gone down the same from 258.9 lakh tonnes in 1984-85 to 232.7 lakh tonnes in the year 1985-86.

But in case of cotton the production increased from 14.3 lakh bales in 1984-85 to 19.8 lakh bales in 1985-86 showing an increase of 38.5 per cent.

The total oilseed production decreased by 3.5 per cent in 1985-86 as compared to the preceding year 1984-85. This was due to decreased in the production of many of the oilseed crops except Sesamum, Linseed and Sunflower.

## CHAPTER VI

### PRICES

(Table VI, pages 102 to 105)

(Summary Table 'G' pages 24)

The State level average farm harvest prices of all the principal agricultural commodities during the year 1985-86 were slightly higher than those of the preceding year 1984-85.

The production of foodgrains during 1985-86 in the State decreased as compared to that in the preceding year 1984-85 due to scarcity conditions. The decrease in production and increase in demand appeared to be the main reason for slightly higher foodgrain prices during the year under report.

The scheme for monopoly purchase of cotton was continued in the State during the year 1985-86 and average monopoly purchase price of cotton during the year was Rs. 486.90 per quintal which was slightly lower than the preceding year 1984-85.

The price of tobacco was reported only for one centre in Kolhapur district and was lower than that of the last year.

## CHAPTER VII

### AGRICULTURAL WAGES

(Table VII, pages 106 to 117)

(Summary Table 'H' pages 25 to 27)

According to the Revenue accounts Manual Agricultural labour is classified under three categories viz. (1) Skilled labour (2) Field labour and (3) Other agricultural labour. Skilled labour comprises of carpenters, blacksmiths and cobblers while field labour includes ploughmen, sowers, transplanters, weeders, reapers harvesters, other agricultural labour includes load carrying hamals, well diggers, assistants of masons and carpenters, earth workers, etc. One more category of labour viz. herdsmen whose main work is to take the livestock owned by different owners to the woodlands of forests for grazing is also included in Table VII on Agricultural wages.

Main table No. VII of the report gives district-wise and monthwise figures of average daily wages of different classes of agricultural labour, Summary Table 'H' gives the State level information on wages in the different months during the year 1985-86 along with the corresponding information for the year 1984-85.

The table below gives the daily wages of different types of labours at the State level for the two years i.e. 1984-85 and 1985-86.

#### Agricultural Wages (Daily)

(Figures in Rs.)

Year	Skilled labour			Field labour			Other Agricultural labour		
	carpenters	Blacksmith	Cobbler	Male	Female	Children	Male	Female	Herdsmen
1	2	3	4	5	6	7	8	9	10
1984-85	23.38	21.26	17.93	10.75	7.29	5.16	10.06	6.86	9.57
1985-86	25.40	22.68	19.61	11.87	8.02	5.85	11.12	7.47	10.98

It is seen from the above table that wages for all categories of labours during 1985-86 were higher than those of the preceding year 1984-85.

## CHAPTER VIII AGRICULTURAL STOCK

(Table VIII, pages 118 to 131)

(Summary Table 'I' pages 28 to 31)

Table VIII of this report gives the details of livestock, poultry, agricultural machinery and implements as per quinquennial census of livestock and agricultural machinery conducted in 1982 by the Director, Directorate of Animal Husbandry, Government of Maharashtra.

Summary Table 'I' gives total number of livestock, poultry, agricultural machinery and implements at State level and the comments on the same are briefly given below.

(1) *Cattle* :—The number of cattle increased to 1,61,61,807 in 1982 from 1,52,17,859 in 1978 or by 6.2 per cent. The total number of males of age over three years also increased by 5.7 per cent. Out of this the number of other males those used for breeding only and used for breeding and work both recorded decrease of 0.8 per cent 0.7 per cent respectively. Among the females over three years and number of breeding cows recorded an increase of 9.5% while the number of the other females also showed an increase of 31.8 per cent. The number of young stock upto three years recorded an increase of 2.9 per cent.

(2) *Buffaloes* :—The total number of buffaloes recorded an increase of 1.9 per cent during 1982 having gone upto 39,71,676 in 1982 from 38,98,716 in 1978. Among the different categories of buffaloes the number of males and females over three years showed an increase by 7.9 per cent and 7.4 per cent respectively.

The female in milk decreased by 1.1 per cent. The number of young stock also recorded decrease of 7.8 per cent in the year 1982.

(3) *Sheep and Goats* :—The number of sheep and goats increased by 1.3 per cent and 1.9 per cent respectively as compared to the corresponding number in the previous census during 1978.

(4) *Horses and Ponies* :—The total number of horses and ponies declined by 0.3 per cent during 1982 as compared to that in 1978. The number of mules, donkeys, camels and pigs showed an increase of 134.3 per cent, 15.8 per cent, 33.0 per cent and 33.3 per cent respectively. The number of total livestock recorded an increase of 4.3 per cent during the year 1982 over that of the last census year i. e. 1978.

(5) *Poultry* :—The total number of poultry showed an increase of 5.8 per cent.

(6) *Agricultural Machinery and Implements* :—The number of tractors increased by 79.4 per cent, also there was an increase of 107.6 per cent in case of Ghanies. Similarly, the number of wooden and iron ploughs showed an increase of 0.4 per cent and 14.7 per cent respectively. Sugarcane crusher, plant protection equipments and electric pump sets used for irrigation purposes also recorded an increase of 3.6 per cent, 109.4 per cent and 18.5 per cent respectively, as compared to the corresponding figures of the year 1978.

SUMMARY TABLE 'A'  
Land Utilisation Statistics, 1985-86

(Area in '00' hectares)

Head of Classification 1	1984-85		1985-86	
	Area 2	Percentage to total 3	Area 4	Percentage to total 5
Reporting area for the Land Utilisation				
Statistics (Geographical area) ..	3,07,583	..	3,07,583	..

## SUMMARY TABLE 'I'—Contd.

## Number of Livestock, Poultry and Agricultural Machinery

Category and Description	1978	1982	Percentage increase (+) or decrease (—) over 1982-83
1	2	3	4
<b>POULTRY :—</b>			
(1) Fowls (Hens, Cocks & Chickens) ..	1,87,04,124	1,97,68,595	(+) 5.7
(2) Other Poultry (Ducks etc. and other)	46,693	75,191	(+) 61.0
<b>Total Poultry</b> ..	<b>1,87,50,817</b>	<b>1,98,43,786</b>	<b>(+) 5.8</b>
<b>AGRICULTURAL MACHINERY AND IMPLEMENTS :—</b>			
<b>(a) Bullock and Manually operated implements—</b>			
Wet land puddler ..	1,25,428	91,257	(—) 27.2
Clod crusher ..	60,895	53,139	(—) 12.7
Earth levelers or scrapers			
Ridgers ..	8,573	53,330	(+) 522.1
Ironpetari ..	6,237	9,772	(+) 56.7
Keni ..	33,687	43,621	(+) 29.5
Seed dressing drum ..	5,289	3,278	(—) 38.0
Seed drills			
Local ..	12,19,620	13,36,956	(+) 9.6
Improved with device ..	76,058	81,430	(+) 7.1
Maize sheller ..	562	806	(+) 43.4
Inter culturing			
Local hoe ..	29,48,329	31,88,766	(+) 8.2
Akola hoe ..	63,281	78,063	(+) 23.4
Rotary hoe ..	34,694	36,332	(+) 4.7
Threshers			
Stone roller ..	16,659	12,740	(—) 23.5
Paddy threshers ..	8,420	14,193	(+) 68.6
Olpad threshers ..	2,000	2,479	(+) 24.0
Winnower ..	6,748	7,824	(+) 15.9
Chaff cutter ..	12,278	16,749	(+) 36.4
<b>(b) Sugarcane crushers—</b>			
Worked by power ..	7,467	7,228	(—) 3.2
Worked by bullocks ..	2,023	2,604	(+) 28.7
<b>Total</b> ..	<b>9,490</b>	<b>9,832</b>	<b>(+) 3.6</b>
<b>(c) Plant Protection equipments, Sprayers and Dusters—</b>			
Hand operated ..	1,08,270	2,25,015	(+) 107.8
Engine operated ..	7,518	..	..
Tractor operated ..	1,298	..	..
Power operated ..	8,816	20,162	(+) 128.7
<b>Total</b> ..	<b>1,17,086</b>	<b>2,45,177</b>	<b>(+) 109.4</b>

SUMMARY TABLE 'I'—Contd.

Category and Description	1978	1982	Percentage increase (+) or decrease (-) over 1982-83
