## PREFACE

The Season and Crop Report of 1999-2000 contains various statistical information in respect of rainfall, land utilization, irrigation, area, productivity and production of various crops, farm harvest prices, agricultural wages and agricultural stock in Maharashtra State.

The main source of the information is revenue record maintained at village level where Talathi is the basic worker of the Revenue Department.

The main highlight of the report may be summarised as that the gross cropped area during the year 1999-2000 was 213.82 lakh hectares which is less by 1.0 % than the previous year i.e. 1998-99. The net cropped area during the year was 175.63 lakh hectares. The area under fruit crops increased by 7.8 % where as vegetable area increased by 0.9 % as compared to previous year.

The gross irrigated area was 38.73 lakh hectares and the net irrigated area was 32.88 lakh hectares.

The total food grain production during the year 1999-2000 was 117.74 lakh tones. It shows 8.5 % decrease over previous year. The production of Sugarcane is increased by 9.0 % than 1998-99. The Cotton production during the year was 30.5 lakh bales which recorded a increase of 16.2 % over last year production of 26.3 lakh bales. The oilseed production increased by 0.1 % in the year 1999-2000 compared to previous year.

I hope the report would be useful for various government officials, research workers and all other concerned.

## ACKNOWLEDGEMENT

The Season and Crop Report is an important report published by the Department of Agriculture of Maharashtra State. The present report pertains to the year 1999-2000.

The rainfall data is based on daily rainfall figures received from Revenue Department. The data on land utilization, source of irrigation, area irrigated as well as total area under different crops and agricultural wages are collected from District Superintendent of Land Records. Where as the production estimates are worked out on the basis of Crop Estimation Surveys (CES) conducted on principal food and nonfood crops by the Officers and Field staff of Agri. Department, Revenue Department and Zillha Parishad. The data on farm harvest prices are collected from Agriculture Development Officers. The livestock data is collected from Livestock Census conducted by Commissionerate of Animal Husbandry. I would like to express my thanks to all these officers and their staff.

I must express my gratitude to the Ex. Commissioner of Agriculture, Dr. Sudhirkumar Goel for regular encouragement and strong motivation to carry forward this publication.

I am grateful to Director of Agriculture (Extension and Training) Dr. Prashant Nichal for his all time inspiration and valuable guidance in preparation of Season and Crop Report.

The work of compilation and computerization was done under the able supervision of Shri. Mohan Atole (Statistician) and Shri. Vijay Musale (Asst. Statistician). The statistical data processing and compilation is done by Agriculture Officer Shri. B. V. Barhate with the assistance of Agriculture Supervisor Shri. V. R. Korhale. Computerisation and data entry work is done by Shri. P. R. Kharat ( Verifier Operator ) & Shri. R. B. Chavan, Agriculture Supervisor have rendered their help for preparation of graphical presentations.

I am also grateful to the officers of various departments who have directly or indirectly involved for preparation of Season and Crop Report 1999-2000.

Shri. U. D. Kunjir

Chief Statistician

Commissionerate of Agriculture  
Maharashtra State, Pune - 411 001.

# SEASON AND CROP REPORT 1999-2000

## CHAPTER - I

### Effect of Rainfall on sowing and growth

In some part of the state light to heavy premonsoon rains were received in the first week of June. These rains were found to be beneficial for the preparatory tillage operations of kharif crops.

Monsoon commenced in South Konkan & South Madhya Maharashtra on 10th June. It reached in North Konkan, North Madhya Maharashtra, Marathwada & in some part of Vidarbha region till the 12th June. It further reached in remaining part of Konkan & Madhya Maharashtra on 13th June & in remaining part of Vidarbha region on the 14th June. Rains received in the month of June were above normal in 24 districts while it was nearly normal in 6 district (Osmanabad, Nanded, Buldhana, Amravati, Nagpur & Bhandara).

Due to receipt of satisfactory rains in the month of June, sowing of Paddy & Ragi in nursery was in progress in Konkan region. Sowing of cereals i.e. Bajra, Jowar etc. pulses i.e Tur, Mung, Udid etc. oilseed i.e Groundnut, Sesamum, Sunflower, Soyabean etc. & Cotton was started in different parts of the state. Transplanting of paddy was initiated in Raigad, Ratnagiri & Sindhudurg districts of Konkan division. Sowing of kharif crops was completed to the extent of 46 % in the state till the end of June. However intensity of monsoon was very low in the last week of June. There was break in rains in many parts of the state. Rains were required in Thane & Raigad districts for transplanting of Paddy crop. Sowing of kharif crops was held up in Dhule, Nandurbar & Jalgaon districts of Nasik division, Jalna & Beed districts of Aurangabad division & in most parts of Latur, Amaravati & Nagpur division due to break in rains. Germination & growth of sown kharif crops was affected. More rains were urgently required in these parts of the state for the remaining sowing as well as for the proper germination & growth of sown kharif crops.

Rains again started from 7th & 8th July in many parts of the state. Condition of kharif crops was improving due to receipt of good rains at the end of first fortnight of July in some parts of state. Condition of Kharif crops was satisfactory due to good rains received again in most part of the state in second fortnight of July. Transplanting of Paddy was started in Nagpur division. Sowing of kharif crop was completed to the extent of 96% till the end of July.

However more rains were needed for the healthy growth of kharif crops specially in Nasik, Pune, Aurangabad & Latur division at the end of July. Rains received in the month of July in Jalgaon & Chandrapur districts was below 50%.

Satisfactory rains were received in most parts of the state in first week of August. Good rains were received specially in Konkan, Marathwada, Vidarbha region. Conditions of kharif crops was reported to be satisfactory in the state. Interculturing operations in kharif crops were in progress. Sowing of kharif crops except transplanting of Paddy & Ragi completed in the state till 15th August. More rains were still needed for healthy growth of sown kharif crops in Dhule, Ahmednagar, Pune, Solapur districts. There was break in rains from 11th to 25th August in most part of the state. Kharif crops on light & medium soils were showing the sign of withering. Yield of kharif crops may go down to some extent due to insufficient rainfall. More rains were required in all parts of the state for the growth of standing kharif crops, medium to heavy rains were received in some parts of Konkan & Nagpur divisions with light to medium rains were required in few parts of the state in the last week of August. However those rains received were inadequate for the proper growth of standing kharif crops.

Most parts of the state received heavy to very heavy rains and in some parts of the state received light to medium rains in first fortnight of September. These rains were beneficial for standing kharif crops as well as for survival of the kharif crops which were withering due to insufficient rain in some part of the state. However these rains were not useful for the matured kharif crops. More rains were still required in most of the central part of Madhya Maharashtra and in few parts of Konkan region for the proper growth of kharif crops.

Light to heavy rains were received in most parts of the state in second fortnight of September. Rains received were beneficial for the standing kharif crops as well as for the survival of the kharif crops. Which were withering due to insufficient rains. Rains received were also beneficial to improve the condition of kharif crops.

Out of 34 districts in the state, 3 districts received above normal rainfall & 4 districts received below 70% rainfall while rest of the districts received 70% to 100% rainfall till the end of September. Harvesting of kharif crops was started.

Light to heavy rains were received in most parts of the state in first fortnight of October. Rains received were beneficial for the late sown kharif crops as well as for the rabi sowing. Harvesting of kharif crop was held up in some parts of the state due to continuous rains. It has been noticed that quality of Kharif Jowar grains was also affected in some parts of Vidarbha region due to continuous rains. Similarly quality of Groundnut & Soyabean was also affected to some extent. Sowing of rabi crops i.e Rabi Jowar, Safflower, & Sunflower etc was started in some part of the state. Sowing of rabi crops was completed to the extent of 25% till the end of 15th October 1999. Harvesting of kharif crops was in progress. The target of the area to be sown in was all over achieved. But the production target could not be reached to the 72% targets as it was expected to be 77% in respect of kharif food grains & 90% in respect of kharif oilseed. Where as the Sugarcane production show increasing trend. The production of Cotton also found to be satisfactory.

The rabi season in the state was also not favourable. It was estimated that the production of rabi food grains may be achieved to the extent of 89%. Where as rabi oilseeds yield reduced up to 53 % of the target.

Weather was dry in the month of December, harvesting of kharif crops was nearly completed. Sowing of Wheat, Gram & Sunflower was in progress. Weather was dry & cold in the month of January. Harvesting of all kharif crops was completed in the state except Tur & Cotton. Tur crop was in maturity stage & its harvesting was started. Picking of Cotton was in progress. Sowing of rabi crops was completed in the state & condition of rabi crops was reported to be satisfactory

Sowing of summer crops was started in many parts of the state, picking of Cotton & harvesting of Tur crop was recently completed. Sowing of summer crops was in progress. Germination & growth of sown summer crops was reported to be satisfactory. Harvesting of rabi crops was in progress in different parts of the state. Weather was dry in the month of April. Harvesting of rabi crops as well as sowing of summer crops was nearly completed in the state during reporting year.

...0 -- 0 -- 0 -- 0 -- 0 .

## CHAPTER II

# LAND UTILISATION

( Table II )

The number of villages in the state was 44120.

### Geographical area.

Geographical area in the state is 307.58 lakh ha. It can be seen from Summary Tables "A" that out of the total Geographical area 176.62 lakh ha. was net cropped area which showed a decrease of 1.0 % as compared to the preceding year. The total cropped area during the year under report was 213.82 lakh ha. showing an decrease of 1.0%. The area sown more than once, decreased by 0.8 % i.e. from 37.48 lakh ha. to 37.20 lakh ha. during the year 1999-2000.

The area under current fallow shows a increase of 7.4 % where as the area under other fallow shows an increase of 5.0 % i.e.

- from 12.86 lakh ha. to 13.50 lakh ha. during the year 1999-2000. The area under non agricultural use shows a slight increase of 0.6% as against the preceding year, where as the area under culturable waste land remained same . The area under forest and barren land however compared to the last year. i.e. 51.36 lakh ha. and 15.44 lakh ha. respectively

The summery table "A - 1" gives the districtwise details of percentage area under each of the category in nine fold classification in each district of Maharashtra state.

## CHAPTER III

# IRRIGATED AREA

( Table III )

Irrigated area and source of water Supply is mention in summery Table 'B'

### Sources of irrigation:

During the year under report, the number of wells used for irrigation purpose (other than tube wells) increased by 1.5 % having gone up from 1290788 to 1310280 in 1999-2000. The number of wells used for domestic purpose showed a slight increase as compared to 1998-99.

### Sourcewise Net and Gross Irrigated Area:

During the year under report the percentage of net irrigated area to net area sown was 18.7 % which was 18.8 % during the last year. While that of gross irrigated area to gross area sown was 18.1 % which was 17.9 % during 1998-99.

The net irrigated area by surface irrigation decreased by 4.9 % as compared to last year. Where as the net area irrigated by wells increased by 3.4 % .

The area irrigated by surface irrigation constituted 31% of the total irrigated area where as area irrigated by well comprises of 69%.

The cropwise irrigated area during 1999-2000 is presented in summary Table - 'C' along with the corresponding area in 1998-99 .It can be seen that out of total irrigated area of 38.73 lakh ha. in the state, the irrigated area under food crops occupied a large share of 33.68 lakh ha. i.e. 86.9 % while remaining 5.04 lakh ha. i.e. 13.1 % under non food crops.

The Table III-A gives districtwise information responding number of wells, oil engines, electric pump sets and percentage of net irrigated area to net area sown and gross irrigated area to gross area sown, while Table III-B gives cropwise irrigated area and percentage to area irrigated by surface irrigation and well irrigation in each district of the state.

--0--0--0--0--

## **CHAPTER – IV CROPPED AREA**

( Table IV -A, IV-B, & IV-C )

Gross cropped area, area cropped more than once and area under various food and non food crops are shown in summary table ' D '. It can be seen from this table that the gross cropped area decreased by 1.0 % during the year under report as compared to the previous year i.e. 1998-99 having gone down from 215.89 lakh ha. to 213.82 lakh hectares. The net cropped area decreased from 184.77 lakh hectares to 176.62 lakh.

The decrease in area of food crops was seen in cereals showing decrease of 1.9 %, having gone down from 97.48 lakh hectares to 95.65 lakh hectares. This decrease was

seen in Jowar(Total) 1.8 % and Bajri 3.1 % respectively. While increase in Wheat by 0.5 % & Maize 1.1 %.

In case of pulses the area decreased slightly by 1.2 % over the preceding year. The area under condiments and spices showed increase of 2.8 % during the year under the report.

In case of non food crops, the slight 0.9 % decrease in area is observed. The area under edible oil seed decreased by 1.4 %. Whereas area under Coconut slightly decreased by 0.6 % and Soyabean increased by 0.3 % respectively as compared to last year.

**Out of the total cropped area in the state, the percentage covered by certain categories of crops is indicated below.**

Crop	Area ('00"ha.)	Percentage area to total cropped area.
Rice	15274	7.1
Kharif Jowar	18502	8.6
Rabi Jowar	28802	13.5
Bajri	17149	8.0
Wheat	10253	4.8
Total cereals	95652	44.7
Gram	9118	4.3
Tur	10400	4.9
Total pulses	35620	16.7
Total Foodgrains	131272	61.4
Groundnut	5349	2.6
Total oil seeds	26684	12.5
Cotton	31905	14.9
Sugarcane	6624	3.1

The area cropped more than once however decreased by 0.7 % having gone down from 37.46 lakh ha. to 37.20 lakh ha. during the year under report.

During the year under report, the area under food crops decreased by 0.9 % . So also the area under non- food crops decreased by 0.9 % as compared to the previous year.

Thus it can be seen that, out of the total cropped area in the state 61.4 % area was covered under foodgrain crops. Rabi jowar and Cotton covered comparatively larger area of 13.5 % and 14.9 % respectively to the total cropped area. The above categories put together covered about 90 % area to the total cropped area. While rest of the crops i.e. condiments and spices, fruits, vegetables, drugs & narcotics and fodder crops etc. covered remaining 10 % area.

Table 'D-1' gives districtwise percentage of area under principal food grain crops to total area under food grain crops in each district of Maharashtra state.

Table 'D-2' shows cropwise percentage of area to total cropped area in each district of the state.

Districtwise percentage of area under principal crops to state level area under corresponding crops is shown in table 'D-3'.

The districtwise area under food & non food crops is presented in table 'IV- A' & 'IV-B' respectively. While table 'IV-C' gives seasonwise classification of area in each district of Maharashtra state.

--0--0--0--0--

## CHAPTER - V

### AVERAGE YIELD AND OUT TURN OF CROPS

( Table V-A & V-B )

For most of the crops during the year 1999-2000 the season was unfavorable as compared to last year. As a result the production of food grains showed a decrease of 3.7 % having gone down from 128.64 lakh tones to 123.82 lakh tones during the year under report. This decrease was seen in mostly Kh.Jowar, Bajari, Wheat & Tur crops.

## Season and Crop Report 1999-2000

The table below gives the contribution of various crops in the production of food grains during the year 1999-2000.

Crop	Out turn	Percentage out turn to total out turn of food grain crops.
Rice( Total)	25811	20.8
Bajari	11222	9.1
Ragi	1670	1.3
Kharif Jowar	24724	20.1
Rabi Jowar	19304	15.6
Wheat	14020	11.3
Other cereals	5219	4.2
Gram	5865	4.7
Tur	8680	7.0
Other pulses	7308	5.9
Total	123823	100.0

From the table, it can be seen that the major contribution to food grain crops comes

from Kharif and Rabi Jowar which accounts to 35.7% being the most important crop of the state, followed by Rice 20.8 percent.

In case of Sugarcane, the production in terms of cane showed decreased of 2.3 % having gone down from 545.82 lakh tones to 533.32 lakh tones during the year under report.

However in case of Cotton the production increased by 14.5 % as compared to the last year that is from 26.27 lakh bales to 30.08 lakh bales.

The total oil seed production increased from 24.6 lakh tones to 25.8 lakh tones, showing increase of 4.9 % as compared to the previous year. This increase in production was mainly due to increase in productivity of Soyabean & Safflower mostly .

---0---0---0---0---

## CHAPTER - VI

### PRICES

( Table VI )

The state level average farm harvest prices of most commodities during the year 1999-2000 were nearly same as that of preceding year i.e. 1998-99.

The scheme for monopoly purchase of Cotton was continued in the state during the year 1998-99 and average monopoly purchase price of Cotton during the year was Rs. 2150

per quintal and for the year 1999-2000 was Rs.1993.60 per quintal respectively.

The price of Tobacco was reported only from Kolhapur district and was higher than that of the last year.

The state level farm harvest prices are given in summary table 'G' and districtwise prices are given in table 'VI' for the year 1998-99 and 1999-2000.

---0---0---0---0---

**CHAPTER - VII**  
**AGRICULTURAL WAGES**

( Table VII )

According to the Revenue Accounts Manual Agricultural Labour is classified under three categories viz. Skilled labour, Field labour and Other agricultural labour.

Skilled labour comprises of carpenters, blacksmiths and cobblers while field labour ploughmen, reapers, sowers, transplanter, weeders, harvesters and other agricultural labour includes load carrying hamals, well diggers, assistants of masons and carpenters, earth workers etc. One more category of labour viz. Herdsmen whose main work is to take the livestock owned by different owners to the woodlands of forests for grazing is also included in table 'VII' on agricultur wages.

Main table- VII, of the report gives districtwise & monthwise figures of average daily wages of different classes of agricultural labours, Summary table " H " gives the state level information on wages in the different months during the year 1998-99 and 1999-2000. Summary table ' H-1' gives average daily wages paid to agricultural & skilled labour in each district of state for the year under report.

The table below gives the daily wages of different types of labours at the state level for the two years i.e. 1998-99 and 1999-2000.

**AGRICULTURAL WAGES ( DAILY )**

Year	Skilled labour			Field labour			Other Agril. Labour		
	Carpenter	Black smith	Cobbler	Male	Female	Children	Male	Female	Herdsmen
1998-99	75.49	68.21	58.51	47.53	34.93	22.87	42.18	31.33	40.47
1999-2000	81.23	72.70	62.91	51.62	38.62	24.51	44.52	33.80	44.93

It is seen from the above table that wages for all the categories of labour during 1999-2000 were higher than those of 1998-99.

--0--0--0--0--

CHAPTER – VIII  
AGRICULTURAL STOCK

( Table VIII )

Table VIII of this report gives the details of livestock, poultry, agricultural machinery and implements as per quinquennial census of livestock and agricultural machinery conducted in 1997 by the Commissioner, Commissionerate of Animal Husbandry, Government of Maharashtra Pune.

Summary Table – I gives total number of livestock poultry, agricultural machinery and implements at state level and the comment on the same are briefly given below.

**1. Cattle :** The number of cattle decreased to 15614653 from 17441008 in 1997 showing an decrease of 10.5 percent. This includes cross breed and indigenous cattle both of which the cross breed cattle showed an increase from 1769333 to 2456884 i.e. by 38.9 percent during the year 1997, where as the indigenous cattle decreased by 0.4 %. The total cross breed male increased from 383992 to 578137 showing an increase of 50.6 %. Similarly cross breed cows showed an increase of 35.6 % from 1385341 to 1878747. The cross breed cows in milk showed an increase of 33.7 % .

**2. Buffaloes :** The total number of buffaloes recorded an increase of 11.5 % during 1997 having gone up to 6072688 from 5447238 in 1992. The number of male buffaloes also increased from 1001820 in 1997 to 1065010 or by 6.3 %. Similarly female buffaloes showed an increase of 12.6 %. The female buffaloes in milk showed an increase of 19.5 % from 1799093 to 2150753 during the livestock census conducted in 1997.

**3. Sheep and Goats :** The number of sheep and goats increased by 9.5 % and 15.0 % respectively as compared to the corresponding number in the previous census during 1992.

**4. Horses and Ponies :** The total number of horses and ponies increase by 4.9 % during 1997 as compared to that in 1992. The number of mules, and donkeys showed an decrease of 2.6 % and Pigs 51.1 % respectively. Whereas the number of camels increased by 1036.3 %.

The number of total livestock recorded an increase of 8.9 % during the year 1997 over that of the census 1992.

**5. Poultry :** The total number of poultry showed an increase of 10.0 %.

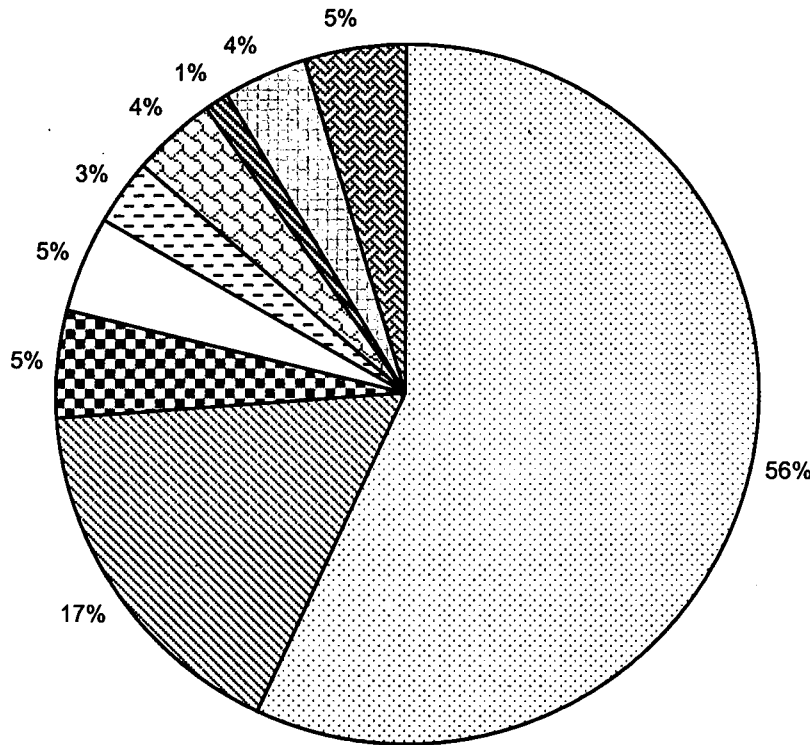

**6. Agricultural Machinery and Implements :** The number of tractors increase by 74.5 % so also the tractor operated implements decreased by 36.03 % as compared to 1992. There was an increase in Ghanis (both power and non-power) by 56.4 % over that of the previous census. The number of wooden and iron ploughs showed decrease of 27.9 % and 36.86 % respectively .

Sugarcane crusher showed an increase 17.45 % while that of plant protection equipment's increased by 28.0 % and electrical pump sets used for irrigation purpose increased by 12.9 % as compared to the corresponding figures of the census year 1992.
