CHAPTER NO. I

I N T R O D U C T I O N .

1.1 Introduction & Location.

Nanded district, lying in the Godavari basin is one of the five districts of Aurangabad region of the Maharashtra. The northern portion of the district lies in the valley of the Penganga which is a sub basin of the Godavari basin. Nanded town which is the district head quarter is situated on the banks of the Godavari which flows east-wards through the central part of the district. The district lies between 18-15' and 19-55' north latitude and 77-0' and 78-15' east longitude. The area of the district is 10,333.30 Sq. Kms. i.e. (3,989.7 Sq. Miles) and its population according to 1961 population Census is 10,79,674. It accounts for 3.37% and 2.73% of the State's area and population respectively.

1.2 Boundaries.

The district is bounded on the north by Yeotmal district, on the east by Adilabad district and south by Nizamabad district of Andhra Pradesh, on the south-west by Osmanabad district and on north-west by Parbhani district.

1.3 Administrative set up.

For administrative purposes, the district is at present divided into eight talukas. The area, number of in-habited villages, number of towns, 1961 population and the percentages of area and population for each taluka are as follows.

Table No. 1.3 (1)

Table showing area and population of the talukas in Nanded District.

District/ Talukas.	Name of the H.Q.	Area in Sq. Km.	No. of inhabited villages.	No. of towns	Popul- ation 1961.	Per- cent- age area.	Percentage of popu- lation.
1.	2.	3.	4.	5.	6.	7.	8.

7. Mukhed Taluka.	Mukhed.	875.1	124	1	1,01,477	8.5	9.4
8. Deglur Taluka.	Deglur.	678.6	98	1	89,913	6.6	9.3

General Administration and Revenue.

The Collector is incharge of general administration, law and order, treasury, land revenue and civil supplies. He is assisted by a Resident Deputy Collector and two Deputy Collectors who hold charge of the two revenue divisions and have their headquarters at Nanded and Deglur, respectively. Eight Tahsildars are incharge of eight taluka offices in the district.

1.4 Area.

Nanded district accounts for an area of 10,333.3 Sq. Km. (10,095.5 Sq. Km. rural and 237.8 Sq. Km. Urban area). It is seventeenth largest district in terms of area in Maharashtra State and fifth in Marathwada.

1.5 Topography.

Nanded is one of the most homogeneous districts in Maharashtra and does not have any well defined natural Zones. The southern portion of the district is however, little different because of its poor hilly soils and the crop pattern. The north eastern taluka of Kinwat is again different because of its extensive forests and barren areas. The rest of the central area of the district is flat, fertile land of black cotton soils favourable for cultivation of cotton, jowar, groundnut and pulses.

1.6(A) Hill Ranges and Forests.

There is only one main system of hills known as Bhag or Thanvari range. It traverses the district from north-west to south east. There are a few minor ranges of hills in Nanded, Kandhar, Hadgaon and Bhokar talukas.

The area under forest is over 777 Sq. Km. forming 8.27% of the total geographical area. Major portion of the forests in this district is in Kinwat taluka, where 25% of its area is under forests. Kinwat, Hadgaon and Bhokar talukas are gifted with dense forests and they together account for 95% of the forest areas in the district. This district has various types of forests. Teak, Bamboo and grass are the main forest products.

1.6 (B) Rivers.

The most important river in the district is the Godavari. Other important rivers are the Manjara, Manyad, Sarswati, Penganga, Ashana, Sita and Lendi. The Godavari enters the district from the west and flowing past Nanded in the centre of the district, passes out into Nizamabad district of the Andhra Pradesh. The Manjara which is the largest tributary of the Godavari flows from south to north and demarcates the boundary of the district and Andhra Pradesh. The Manyad flows through Kandhar taluka from west to east and forms the natural boundary between Mukhed taluka and Deglur Taluka on one hand and Biloli on the other. The Sarswati rises in Wakhad hill and flows from north to south through the eastern portion of the district and finally joins the Godavari near the village Malkavtha. The Ashana flowing in the eastern direction falls into the Godavari on the left bank about 2 miles from Nanded town. The Sita also rises from north and meets the Godavari. The Lendi flows from west to east in Deglur taluka. It runs partly along the southern boundary and after taking a slightly northward course passes through Deglur taluka and meets the Manjara.

The Penganga forms the northern boundary of the district flowing in easterly direction. Further down stream, it falls into the Wardha river in Yeotmal district.

1.6 (C) Soil:

The soils of the district are in general black and fertile. The ridges and spurs from the uplands, which are all of trap formation, reduce the cultivable area considerably. The best black soils are found in a narrow strip

of land on the banks of the Godavari and its tributaries.

Good black soil is found along the banks of the Manjra and the Manyad rivers in Biloli taluka, while elsewhere it is undulating, much inferior in quality and covered with loose stones. The soil of Nanded taluka consists principally of rich black alluvial deposits. Near the foot of the hills black soil is scarce and it is of a very poor description.

Deglur taluka has the best soil in the district. With the exception of a small portion of the taluka towards the west, the soil is of superior quality and most suitable for rabi crops.

Kandhar taluka generally has black and rich soil and grows rabi crops. Nearly half of the taluka is covered with hills and has light soils. It is undulating and covered with loose stones where Kharif crops are chiefly grown.

About three-fourths of Hadgaon taluka is highly fertile. The portion along the banks of the Penganga is the most fertile. Towards the south, nearer the hills, the soil is rather mixed up with certain saline matter. The Bhokar and Kinwat talukas, except for the hilly tracts, the entire land is of black cotton soil.

1.6 (D) Minerals.

The only mineral found in the district is limestone. Deposits of intertrappean limestone have been found to occur in Kinwat taluka. The limestone quarried is not uniform in grade and is highly siliceous at places. The reserves have been estimated at ten million tons. Building

materials like Deccan trap or basalt, sandstones and brick clay are also found in this district.

1.7 Climate, Temperature and Rainfall.

1.7 (A) Climate.

The climate of this district is dry and subject to extremes of heat and cold. It is very hot in summer and very cold in winter. The hottest month is May and lowest temperature is reached some time during December and January. The climate of the district on the whole is healthy.

1.7 (B) Temperature.

The highest temperature reached 42.5^o in the month of May and the lowest temperature touched 13.8^o during November in the year 1967.

1.7 (C) Rainfall.

Nanded district falls in assured rainfall zone of the State, though the rainfall is not even in all parts of the district. In all 75% of the total rainfall is received from the South west Monsoon (June to September) and 16% from post monsoon period (October to December). Pre-monsoon showers contribute about 7% of the total rainfall and the remaining 2% is received from Winter Monsoon during January and February.

The maximum rainfall recorded during the year was 2,124.0 mm. in Hadgaon taluka and the minimum 636.5 mm. in Bhokar taluka in the year 1967.

- 7 -
CHAPTER NO. II.

EXPLANATORY NOTES ON SCOPE AND LIMITATIONS OF STATISTICS PRESENTED IN THIS STATISTICAL ABSTRACT 1967-68.

Purpose:- This is the 9th issue of the District Statistical Abstract published since 1958-59. This issue contains exhaustive statistical data on important socio-economic indicators of this district. Statistical data relating to this district on as many topics as possible have been included in this abstract to make it a useful reference book. Almost all the tables in this abstract contain taluka-wise data to enable the reader to compare the indicators of development within the talukas of this district. In case of a few tables for which data for the year 1967-68 was not available, the data ~~xxxxxxx~~ available for latest year has been given. Similar data for the earlier years is also shown in the tables for comparison.

District at a glance.

This table presents general particulars of the district and division as well, in a nut-shell, giving the district and divisional indicators on the various items like population, agriculture, education etc. to bring forth the salient features of this district. The reference period to which the figures concerning this district and the division relate, is mentioned against each item, as for some of the items the reference period is not coherent.

The scope and limitations of the statistical data presented in this issue is briefly discussed in the following paragraphs.

(1) Climate & Rainfall.

The table-1 presents monthly rainfall, rainy days and total rainfall in each taluka of Nanded district during the year 1967 compared with 1966, as recorded at the rain-gauge stations located at each taluka. Table-2 shows the monthly maximum, minimum and mean temperatures for the centre located at Nanded proper. The temperature data shown in the table is not actual maximum, but the average of maximum temperatures during various months.

(2) Area and Population.

The data of 1951 population census and 1961 population census are presented in table 3 to 8. Table-3 indicates the taluka-wise figures of Rural and Urban area, population and density of population per Sq. Km. as per 1951 and 1961 census with percentage of variation in population during the last decade. The population figures for 1951 census shown in this table have been adjusted for the boundaries and areas of the talukas in the district as they existed at the time of 1961 census. Table-4 gives the taluka-wise classification of villages according to population ranges in 1961 census, while table-5 furnishes the taluka-wise classification of towns according to population ranges as per 1961 census. Table-6 contains the taluka-wise information on number of workers and non-workers according to livelihood classes as per 1961 census both in rural and urban areas. Table-7 gives the distribution of population according to age-group, mother tongue and religion for rural and urban areas of the district as

per 1961 census. Table-8 presents the taluka-wise rural and urban population of scheduled castes and scheduled tribes during 1961 census.

(3) Agriculture.

The tables 9 to 19 present the data on land utilisation, area under different crops, yield per hectare, area irrigated by sources, area irrigated by crops, number of irrigation wells, minor irrigation works, major and medium projects, agricultural wage-rates, agricultural implements and famine and scarcity conditions in the district. The major part of the agricultural data has been collected from the Statistician, Department of Agriculture, Poona.

Table-9 gives the taluka-wise land utilisation figures in hectares for the years 1965-66 and 1966-67, while table-10 gives the taluka-wise area figures under all food and non-food crops for these two years. Table-11 shows the data relating to yield per hectare for principal crops in the district during the above period. The production of cotton is shown in bales and that of sugarcane in terms of gur. Table-12 presents taluka-wise data on area irrigated by different sources of irrigation during 1965-66 and 1966-67. Table-13 indicates the taluka-wise area irrigated under different principal crops for these two years. Table-14 deals with taluka-wise data regarding number of irrigation wells in use and not in use for the years 1965-66 and 1966-67. Table-15 shows the number of minor irrigation works in the district during 1966-67, whereas the table-16 gives the information regarding major and medium irrigation projects in the

district as on 30-6-1968. Table-17 gives agricultural wage-rates for skilled and un-skilled labourers at the three selected rural centres viz Ardhapur, Loha and Bhokar for the years 1966 and 1967. Table-18 shows the taluka-wise number of agricultural implements as enumerated at the time of 1966 Live-Stock census. Table-19 furnishes the taluka-wise information on famine, scarcity and akin to scarcity conditions in the district for the year 1967-68.

(4) Animal Husbandry.

The tables, 20 to 23 present the statistics relating to different categories of live-stock and poultry in the district as enumerated at the time of sixth quinquennial live-stock census, 1966. Table-20 gives taluka-wise population of livestock of all categories, while table-21 furnishes the information regarding veterinary facilities in each taluka of the district during the year 1967-68 compared with 1966-67. Table-22 shows disease-wise live-stock mortality in the district during these two years. Table-23 presents the statistics relating to number of recognised slaughter houses and animals slaughtered in them during 1966-67 and 1967-68.

(5) Forest and Fisheries.

Tables 24(a), (b) and (c) gives the data on forests and Fisheries in the district. Table-24(a) indicates the categori-wise forest area in hectares under different forest classifications during 1966-67 and 1967-68, while table-24(b) gives the estimates of forest produce and the value of these two years. Table-24(c) is not applicable to this district, as it relates to Marine Fisheries.

(6) Employment and Industries.

The table 25 to 33 present the data relating to employment and industries in Nanded District. Table 25 gives details for each industry, the total number of working factories, total workers classified as males and females and the total number of mandays for which they worked during the year 1967. The data presented in columns 6 to 8 relate only to the factories submitting the returns and in column 9 & 10 for factories not submitting the returns. The industries are classified as per standard industrial classification. The table 26 gives distribution of factories for each type of industry according to size of factory in terms of average daily employment of workers while table 27 presents the distribution of factories for each industry by number of days worked during the year. The number of workers shown in table 3 is the average number of ^{workers} ~~workers~~ working daily throughout the year and not the total number of workers in the register of factories. Table 28 gives employment exchange statistics of the district for the year 1966-67 and 1967-68 where as table-29 indicates occupational distribution of total registration and placement in employment exchange in the district during these two years. Table-30 gives volume of employment in different industries as on 31st March, 1967 and 1968. Table-31 gives pay and emoluments rangewise data regarding number of government employees as on 31st July 1966 for class-I, Class,II, class-III and class-IV employees in the district, where as the table-32 shows total number of government employees in each department as on 1st July, 1966. Table-33 gives statistics

relating to annual survey of industries in Nanded district for 1965 furnishing the figures on number of factories, their productive capital, ~~employment~~ employment, gross out-put and value added by manufacture.

(7) Electricity.

The data on electricity is presented in tables 34 & 35. Table-34 gives generation and consumption of electricity in Nanded district in 1966-67 and 1967-68. Table-35 shows number of towns and villages electrified and population covered for the years ending 31-3-61, 31-3-66, 31-3-67 and 31-3-68 in Nanded district.

(8) Co-operation.

Tables-36 to 43 present data relating to various activities of co-operative movement, displayed in 8 tables. Table-36 gives figures of different types of co-operative societies working in Nanded district during 1967-68. Table-37 presents statistics relating to co-operative Banks in Nanded district during 1966-67 and 1967-68. Table-38 to 41 give information on different types of co-operative institutions and their operations. Table-42 indicates the operation of Regulated Marketing in each taluka of the district during 1966-67 and 1967-68, while table-3 43 shows the taluka-wise number of registered money lenders and loans advanced by them during the above period.

(9) Medical and Public Health.

The data on medical and public health are presented in tables 44 to 47. Table-44 gives taluka-wise medical facilities in the district in 1966 and 1967, while table-45

presents the taluka-wise data on number of births and deaths registered including infant deaths in Nanded district during the years 1966 and 1967. Table-46 gives information on deaths occurred due to different important causes during 1966 and 1967 in Nanded district, whereas table-47 stands for taluka-wise data on vaccination and cholera inoculation in the district ~~1966~~ during 1966 and 1967.

(10) Education.

The data on education is presented in 8 tables 48 to 55. Table-48 indicates number of literates in each taluka and percentage of literacy according ^{to} 1961 census. Table 49 shows data on education in rural areas in each taluka of Nanded district as per 1961 census, where as the similar data is presented for urban areas in table 50. Table 51 gives number of different types of institutions with pupils and teachers in them in each taluka of the district during 1966-67 and 1967-68, Table-52 shows number of beneficiaries among backward classes in Nanded district during 1966-67 and 1967-68, where as table-53 gives data on economically backward class concessions of free education during the years 1961-62, 1965-66, 1966-67 and 1967-68. Table-54 indicates recurring and non-recurring expenditure on primary education incurred by local bodies during 1966-67 and 1967-68 while table-55 gives information of the villages without school or schooling facilities during these two years.

(11) Transport and Communications.

The data on transport and communications is presented in tables 56 to 62. The table-56 gives the length of

Railway Route in Nanded district during 1967 and 1968, ^{while} ~~which~~ table-57 presents Road length according to category and surface under B & C, Z.P., Municipalities in Nanded district as on 31st March, 1961, 1967 and 1968. Table-58 shows data relating to motor vehicles in Aurangabad region as on 31st March, 1967 and 1968, where as the table-59 gives information regarding operational statistics of Nationalised Road Transport according to S.T. Division for the above period. The information regarding traffic ~~xxx~~ census on important roads in Nanded district conducted in 1965 is gives ⁱⁿ table-60. Table-61 deals with the information of Postal, Telegraph and Telephone statistics in Nanded district during 1961-62, 1964-65 and 1967-68 and also gives information on number of letter boxes postmen and radio licences issued and renewed. Table-62 presents Rural Broadcasting statistics in Nanded district as on 31st March, 1967 and 1968, furnishing the taluka-wise information on number of villages where receiving sets are installed, rural population covered as ^{per} 1961 census and total number of Radio farm forms.

(12) Local Bodies.

Tables 63 to 66 give statistics pertaining to local bodies. Table-63 gives data on income and expenditure of local bodies in Nanded district during the years 1965-66, 1966-67 and 1967-68. Table-64 depicts data on Panchayat samiti-wise income and expenditure for village panchayats in Nanded district during 1966-67 and 1967-68 showing income by way of grant-in-aid contribution, Donations, taxes, fees etc. and expenditure for sanitation, ~~xxx~~ health, public works, social and moral promotion, administration, welfare

preservation of Animal Husbandry, collection of land revenues and maintenance etc. Table-56(A) gives Head-wise receipts of Z.P., Nanded during 1965-66, 1966-67 and 1967-68 while table 65(B) gives the Head-wise details of expenditure during the above period. Table-66 presents municipality-wise data on Income for 11 Municipalities through different sources and expenditure under different heads during 1966-67 & 1967-68.

(13) Plan & C.D. Programme.

Tables 67 to 71 present statistics relating to plan and community development programmes. Table 67 gives sub-head wise plan expenditure on district level schemes implemented in Nanded district during 1966-67 and 1967-68 both for state sector and local sector, while table-68 gives sub-head-wise data on physical achievements for selected items during the above period. Table-69 gives stage-wise number of blocks of C.P.A. pattern, number of inhabited and deserted villages and rural population covered as per 1961 census. Table-70 gives stage-wise expenditure in thousand rupees in different stages of blocks in Nanded district upto end of 1967-68, where as table 71 gives block-wise account of physical achievements on selected items for the years 1966-67 and 1967-68 under community development programme.

(14) Prices.

Data relating to prices is presented in tables 72 and 73. Table 72 gives month-wise average retail prices of important commodities collected at the district head quarters during 1966 and 1967 with average prices for the above period. Table-73 gives month-wise consumer price

index numbers for working class during 1967-68 for Aurangabad and Nanded centres.

(15) Judicial & Administrative.

The data on this section is presented in tables 74 to 76. Table-74 gives strength of Police force permanent as well as temporary in Nanded district during 1966 and 1967, while table-75 gives data on crime statistics both for cognizable and non-cognizable crimes for the above period. Table 76 gives an account of cases disposed off both in civil and criminal courts of Nanded district during 1966 and 1967.

(16) Miscellaneous.

The data under this section is displayed in tables 77 to 85. Table-77 gives taluka-wise number of permanent/temporary cinema theatres with seating capacity in the district during 1966-67 and 1967-68, while table 78 gives categorywise number of banking offices in Nanded district existing in the beginning of 1968. Table-79 deals with statistics pertaining to number of joint-stock companies in Nanded district as on 31st March, 1966, 1967 and 1968, where as table-80 shows number of insurance policies issued and amount insured in Nanded district during 1966-67 and 1967-68. Table-81 presents data on small savings targets, gross collection withdrawals and net collections in the district during 1966-67 and 1967-68, while table-82 gives taluka-wise details of land revenue collections during 1966-67 and 1967-68. Table-83 shows number of printing presses, news papers and periodicals as on 31st March, 1968, while table 84 shows statistics relating to ^{the General Election} held in 1967 in Nanded district. Table-85 shows trends in selected indicators in the district for the years 1950-51, 1955-56, 1960-61, 1966-67 and 1967-68.

CHAPTER NO. III.

NOTES ON SELECTED INDICATORS.

Indicator No. 1:- Percentage of gross sown area to net sown area for the years 1960-61, 1965-66 and 1966-67.

1.1 During the period from 1960-61 to 1966-67 there has been continuous increase in the percentage of gross sown area to net sown area in the district albeit with some fluctuations in taluka figures. The percentage of gross area increased from 102.26 in 1960-61 to 103.61 in 1965-66 and 103.74 in 1966-67. The taluka-wise percentages of gross sown area to net area sown indicate considerable variation. In the year ~~1960-61~~ 1960-61 Nanded taluka had the highest percentage of gross sown area to net sown area. In 1965-66, Mukhed taluka had the highest percentage and Kinwat taluka the lowest. In 1966-67, Mukhed taluka had the highest percentage and Kinwat the lowest. Percentage for taluka Kinwat is 100.15, Hadgaon 102.67, Nanded 105.73, Bhokar 102.72, Kandhar, 106.58, Biloli 102.82, Mukhed 107.95 and Deglur 101.95.

Indicator No. 2:- Productivity of important crops.

2.1. The production of important crops in Nanded District during the years 1960-61, 1965-66 and 1966-67 is indicated in the following table with percentage increase or decrease over the year 1960-61.

Sr. No.	Name of the crops.	Production in Metric tonnes.			Percentage increase in 1965-66 over 1960-61.	Percentage increase in 1966-67 over 1960-61.
		1960-61	1965-66	1966-67.		
1.	2.	3.	4.	5.	6.	7.
1.	Rice.	19,508	12,700	8,636	(-) 34.90	(-) 55.73
2.	Wheat.	11,075	10,058	10,871	(-) 9.18	(-) 1.84

1.	2.	3.	4.	5.	6.	7.	8.	9.	10.
3. Jowar.	2,66,103	1,72,212	1,56,566	(-)	35.28	(-)	41.16		
4. Tur.	21,134	15,443	15,342	(-)	26.93	(-)	27.41		
5. Gram.	4,267	5,385	4,775	(+)	26.20	(+)	10.64		
6. Sugarcane (in terms of gur).	12,599	18,491	21,234	(+)	46.77	(+)	68.54		
7. Chillies.	8,840	6,502	8,230	(-)	26.45	(-)	6.90		
8. Groundnut.	15,850	13,106	9,042	(-)	17.31	(-)	42.95		
9. Tobacco.	-	102	102	-	-	-	-		
10. Cotton.	21,357	92,659	80,162	(+)	333.86	(+)	275.34		

Note:- (+) and (-) indicate increase and decrease.

2.2. It is clear from the above table that in the year 1966-67 there is fall in agricultural production when compared to the year 1960-61. However gram, sugarcane and cotton registered a sizeable increase in the production during the years 1966-67 over 1960-61.

Indicator No. 3:- Gross value of Agricultural Production.

3.1. Gross value of Agricultural production is always studied in context of the prices which is a relative phenomenon. Agriculture has a lion's share in the National Income of our country, and hence any change in agricultural production affects the levels of National Income.

3.2. The gross value of agricultural produce in the year 1960-61 at the prices prevailing in 1960-61 was Rs. 16.05 crores and in the year 1965-66 and 1966-67 at the prices prevailing in the corresponding years was Rs. 19.64 crores and 32.83 crores respectively. The gross value of agricultural produce in the district had increased by 22.36% in 1965-66

and 101.51 in 1966-67 over 1960-61. The increase in gross value can be attributed to the rise in prices. The per capita gross value of agricultural production in the district works out to Rs. 142.00 Rs. 182.00, and Rs. 304.09 respectively in the years 1960-61, 1965-66 and 1966-67 at prices prevailing in the respective years.

Indicator No. 4:- Percentage of gross irrigated area to Net irrigated area.

4.1. The taluka-wise percentages of gross irrigated area to net irrigated area in the year 1966-67 are given below.

Sr. No.	Taluka.	Percentage of gross irrigated area to net irrigated area in the year 1966-67.
1.	2.	3.
1.	Kinwat.	102.46
2.	Hadgaon.	101.59
3.	Nanded.	102.61
4.	Bhokar.	102.18
5.	Kandhar.	103.53
6.	Biloli.	104.16
7.	Mukhed.	101.64
8.	Devlur.	107.53
	District total.	103.36

The above percentage of gross irrigated to net irrigated area has increased from 102.88 during 1965-66 to 103.36 in 1966-67.

Indicator No. 5:- Changes in Cropping Pattern.

5.1. The following table shows the percentage of area under food crops, non-food crops to gross cropped area and percentage of irrigated area under food and non-food crops to gross

irrigated area in the district separately for the years 1960-61, 1965-66 and 1966-67.

Sr. No.	Description.	Percentages.		
		1960-61.	1965-66.	1966-67.
1.	2.	3.	4.	5.
1.	Total Food Crops.	67.66	67.84	67.37
2.	Total non-food crops.	32.34	32.16	32.63
	Total.	100.00	100.00	100.00
3.	Irrigated area of food crops.	99.88	99.64	97.24
4.	Irrigated area of non-food crops.	0.12	0.36	2.76
	Total.	100.00	100.00	100.00

5.2. The above percentages indicate that the food crops dominate the cropping pattern of this district. In general, during the period from 1960-61 to 1966-67, there has been negligible variation in the cropping pattern of the district except that the percentage of irrigated area of non-food crops increased from 0.12 during 1960-61 to 0.36 in 1965-66 and 2.76 in 1966-67.

Indicator No. 6:- Increase in Agricultural credit, out standing dues and gross values of agricultural produce.

6.1. Agricultural credit is continuously increasing in the district due to active participation of the co-operatives in financing the rural credit needs and growing consciousness among the agriculturists to improve the agricultural conditions by investing more funds in agriculture. With the

increase in agricultural credit, the out-standing dues also increased over the period from 1960-61 to 1966-67. The gross value of agricultural production during the same period increased by 104.54% in 1966-67 over 1960-61. The details of agricultural credit, outstanding dues and gross value of agricultural production in the district during the years 1960-61, 1965-66 and 1966-67 are shown in the following table.

Sr. No.	Item.	Amount in thousand rupees during the year.		
		1960-61.	1965-66.	1966-67.
1.	2.	3.	4.	5.
1.	Agricultural credit.	8,256	37,049	42,085
2.	Out-standing dues.	7,709	42,997	56,151
3.	Gross value of Agricultural products.	1,60,547	1,96,351	3,28,328

6.2 During the period from 1960-61 to 1966-67 the agricultural credit has increased by more than 5 times and out-standing dues by more than 7 times in the year 1966-67 over 1960-61. However, the gross value of agricultural production has indicated 104.54% increase in 1966-67 over 1960-61. The percentage of out-standing dues to agricultural credit was 93.37%, 116.05% and 133.42% respectively in the years 1960-61, 1965-66 and 1966-67.

Indicator NO. 7:- Agricultural wage rates.

7.1. The agricultural wage-rates for the field labourers as well as skilled labourers employed for different agricultural operations were collected in the district at three centres namely (1) Ardhapur (2) Loha and (3) Bhokar since 1963.

The following table gives the details of average wage-rates for the years 1963 and 1967.

Sr. Category No. of Labourers.	Ardhapur.		Loha.		Bhokar.	
	1963.	1967.	1963.	1967.	1963.	1967.
1. 2.	3.	4.	5.	6.	7.	8.
1. Carpenter.	4.00	6.00	3.00	N.A.	3.00	4.17
2. Black-smith.	3.50	N.A.	3.00	N.A.	3.00	3.44
3. Cobbler.	2.50	N.A.	2.00	N.A.	2.00	2.17
4. Field Labour.						
i) Male.	1.43	2.63	1.14	N.A.	1.14	2.05
ii) Female.	0.89	0.95	0.82	N.A.	0.82	1.23
5. Other Agril. labour.						
i) Male.	1.21	2.25	1.00	N.A.	1.00	N.A.
ii) Female.	0.66	1.50	0.62	N.A.	0.62	N.A.
6. Herdsman.	1.25	N.A.	1.00	N.A.	1.00	1.25

7.2. The above table indicates that the average wage-rates of skilled as well as unskilled labourers show increasing trend over the years 1963 and 1967. Highest percentage increase is observed in the wages of unskilled male worker. It is probably due to shortage of these type of labourers.

Indicator No. 8:- Live-stock per hectare of cultivable area.

8.1. The following table gives the taluka-wise position of livestock per hectare of cultivable area in Nanded district during the years 1960-61 and 1966-67.

Sr. No.	Name of the Taluka.	Live stock per hectare of the cultivable area during the year.	
		1960-61.	1966-67.
1.	2.	3.	4.
1.	Xinwat.	0.89	0.99
2.	Hadgaon.	0.83	0.97

|| || ||

1.	2.	3.	4.
3.	Nanded.	1.19	1.45
4.	Bhokar.	1.03	1.18
5.	Kandhar.	1.54	1.27
6.	Biloli.	1.21	1.27
7.	Mukhed.	1.44	1.27
8.	Deglur.	1.32	1.16
	District.	1.17	1.19

8.2 Considerable variations are observed in the live-stock per hectare of cultivable land in different talukas of this district both in 1960-61 and 1966-67. Kandhar taluka had the highest number i.e. 1.54 of live stock per hectare of cultivable area in 1960-61 whereas Hadgaon taluka with 0.83 live-stock per hectare of cultivable area, had the lowest. In the year 1966-67 Nanded taluka with 1.45 live-stock per hectare of cultivable area had the highest number of live stock per hectare whereas Hadgaon taluka with 0.97 was the lowest. District rate is observed to be increased from 1.17 ~~xxx~~ during 1960-61 to 1.19 during 1966-67.

Indicator No. 9:- Poultry compared to population.

9.1 The ratio of poultry per lakh of population had decreased from 14,860 in 1961- to 8,037 in 1966 in the district. The highest ratio of poultry per lakh of population was 18,311 in Bhokar taluka for the year 1961. The highest ratio of poultry per lakh of population was 9,590 in Mukhed taluka for the year 1966. The talukas of Mukhed, Kandhar, and Hadgaon had more number of poultry in relation to population than the

district average and the talukas Nanded, Deglur, Bhokar, Biloli and Kinwat had less poultry ratio per lakh of population than the district rate for the year 1966.

Indicator No. 10:- Per capita consumption of electricity.

10.1. Per capita consumption of electricity in Nanded district increased from 1.49 KWH. in 1960-61 to 5.78 KWH. in 1966-67 and to 7.43 KWH in 1967-68. This indicates that there has been about 5 times increase in per capita consumption of electricity in district over the period 1960-61 to 1967-68. This increase was due to implementation of urban and rural electrification programme in the district. More electric power was consumed during this period both for agricultural and industrial purposes.

Indicator No. 11:- Candidates enrolled in Employment Exchange.

11.1 The candidates enrolled in Employment Exchange of this district increased from 7,094 in 1960-61 to 8,504 in 1966-67 and 7,820 in 1967-68. The number of vacancies notified however decreased from 1,130 in 1960-61 to 1,011 in 1966-67 and 606 in 1967-68. The number of vacancies notified per lakh of population also decreased from 105 in 1960-61 to 94 in 1966-67 and 56 in 1967-68. This may be due to non-expansion of employment opportunities in Govt., local and private sector bodies.

Indicator No. 12:- Increase in in-door and out-door patients treated in hospital, dispensaries and primary health centres in the year, 1960, 1966 & 1967.

12.1 In-door patients treated increased considerably in 1966 compared to the number in 1960. Similarly the number

of cut-door patients treated in the above institution in 1966 indicated considerable rise. The number of in-door patient (-41,213) and out-door patient (7,09,558) treated in the year 1967 decreased compared to the same to the year 1960. The highest number of in-door (35,973) and out-door patients-(2,16,040) treated was recorded for the Nanded taluka. It is due to the location of two hospitals in Nanded town.

Indicator No. 13:- Increase in the number of students in different categories (Boys and girls separately).

13.1 The following table indicates the position of educational institutions and students enrolled in Nanded district during the years 1960-61, 1966-67 and 1967-68.

Sr. Educational No.	Institutions.	Position in the district during			Percentage increase or decrease over 1960-61 in.	
		1960-61	1966-67	1967-68	1966-67.	1967-68.
1.	2.	3.	4.	5.	6.	7.
<u>1. Primary School.</u>						
1.	Boys.	45,426	79,013	80,723	(+) 73.94	(+) 77.70
2.	Girls.	15,269	31,243	32,087	(+) 104.62	(+) 110.14
<u>2. Secondary School.</u>						
1.	Boys.	12,287	33,680	34,697	(+) 174.11	(+) 182.38
2.	Girls.	1,832	6,708	6,807	(+) 266.16	(+) 271.56
<u>3. Higher Institutions.</u>						
1.	Boys.	674	2,466	3,217	(+) 265.33	(+) 376.59
2.	Girls.	53	143	207	(+) 169.81	(+) 290.56
<u>4. Special Schools.</u>						
1.	Boys.	479	706	762	(+) 47.39	(+) 59.08
2.	Girls.	186	158	197	(+) 15.05	(+) 5.91

13.2 It is evident from the above table that the strength of students boys as well as girls increased considerably.

The highest percentage increase of 376.59 in the number of

boys and 290.56 of girls was registered in higher institutions in the year 1967-68 over 1960-61. In respect of secondary schools about 200 percent increase is recorded and in primary schools about 100 percent increase is observed.

Indicator No. 14 :- Increase in Road-Mileage per 100 Sq. Km. in 1960-61, 1966-67 and 1967-68.

14.1 The Road-mileage in the district per 100 Sq. Km. increased considerably from 3.79 Kms. in 1960-61 to 11.65 Km. in 1966-67 and 13.55 Kms. in 1967-68. This increase in road mileage can be attributed to the implementation of road development programme taken up in this district during plan period.

14.2 No national high way passes through this district. The length of state high way, is 256.30 Kms. and the length of major district roads is 388.61 Kms. The maximum part of the total road length (i.e. about 50%) is covered by village roads (599.55 Kms.). The length of water bound macadam surface road is the maximum (614.83 Kms.) and the black topped surface road length is 237.07 Kms. Rest of the surface road is covered by granular material and lower type of surface roads.

Indicator No. 15:- Increase in Banking facilities in proportion to population.

15.1 The total number of Bank offices in the district increased from 16 in the year 1960-61 to 40 in the year 1966-67 and 43 in the year 1967-68.

15.2 In the year 1960-61, the number of Bank offices per lakh of population in the district was one, whereas it increased to 4 in 1966-67 and 4.3 in 1967-68. Nanded taluka had the largest number of bank offices in the district. The

increase in banking facilities is mostly due to opening of new branches of "District Central Co-operative Bank" in rural areas.

Indicator No. 16:- Prices.

16.1 In general the retail prices of almost all the commodities indicated increasing trend in the district in the year 1967 as compared to the prices in 1962. The following table indicates the average retail prices of important commodities for the years 1962 and 1967 at district Head Quarter Mandated together with the increase or decrease in prices for 1967 over 1962.

Sr. No.	Name of the commodity.	Variety.	Unit.	Average retail prices during 1962.	Average retail prices during 1967.	Percentage increase or decrease in 1967 over 1962.

16.2 The prices of all the commodities except chillies and sari were higher in the year 1967 compared to the prices in 1962. More than 100% increase was observed in the prices of wheat, gram dal, arhar dal and groundnut oil. The prices of the remaining commodities also indicated a increase trend upto 100% .

CHAPTER - IV.
PLANNING PART - I & II.

4.1 Planning has become almost a part of scientific approach towards the Socio-Economic development of a country, and it is an attempt to shape the future of a country in a determined period of time. Planning is under-taken in order to achieve certain objectives such as, rapid economic development to raise the levelles of living, full employment opportunities, optimum utilisation of man-power and economic and national resources available.

4.2 Since independence, the decade of sixties was momentous in India as the country had to face two aggrations from the neighbours and two droughts, which forced the planners in India to resort to a strategy for the fourth plan which could be elastic and easily adjustable to the available resources on the one hand and the requirements on the other. Hence, Annual Plans were envisaged since the year 1966-67. Govt. of Maharashtra also prepared the Annual Plan 1967-68 keeping in view the main objectives of the long term planning.

4.3 In the Annual Plan 1967-68 most of the schemes from Annual Plan 1966-67 were continued and some of the new schemes were introduced. The total expenditure on the district level schemes of Annual Plan 1967-68 in Nanded district was to the tune of Rs. 249.05 Lakhs.

4.4 The total expenditure on different heads of development on district level schemes in Nanded district during the year 1967-68 is as under :-

Sr. No.	Heads of Development.	Expenditure incurred from 1-4-67 to 31-3-1968 (Rs. in Lakhs).		
		State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.
I.	Agricultural Programme.	76.20	21.63	97.83 (39.28)
II.	Co-operation and Community development.	4.33	11.32	15.65 (6.28)
III.	Irrigation & Power.	35.01	Nil.	35.01 (14.06)

V.	Transport and Communication.	15.60	29.52	45.12 (18.12)
VI.	Social Services.	30.76	23.27	54.03 (21.69)
VII.	Miscellaneous.	Nil.	0.30	0.30 (0.12)
District total.		162.78 (65.36)	86.27 (34.64)	249.05 (100.00)

Note:- The bracketted figures indicate percentage to total expenditure.

4.5 Out of the total expenditure during the year 1967-68, 65.36% expenditure was incurred on the schemes in state sector and 34.64% on schemes in local sector. The percentage of expenditure within the Heads of development the Agricultural programme stands at the top (39.28%) where as the expenditure under Miscellaneous programme is the lowest. The agricultural programme received highest priority in the Annual Plan 1967-68.

Agricultural Programme.

4.6 The agricultural programme includes the following sub-heads of development. The expenditure under this sub-head during 1967-68 is shown with the percentage (bracketed) to the total expenditure under Agricultural programme.

Sr. No.	Sub-head under Agriculture.	Expenditure incurred from 1-4-67 to 31-3-1968.		
		State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.
1)	Agricultural production.	4.66	7.31	11.97 (12.23)
2)	Soil Conservation.	32.25	-	32.25 (32.97)
3)	Ayacut Development Programme.	6.05	-	6.05 (6.18)
4)	Minor Irrigation.	29.54	13.93	43.47 (44.43)
5)	Animal Husbandry.	-	0.39	0.39 (0.40)
6)	Dairy Development.	-	-	-
7)	Forests.	2.56	-	2.56 (2.62)
8)	Fisheries.	0.28	-	0.28 (0.29)
9)	Ware-housing & Marketing.	0.86	-	0.86 (0.88)
Total.		76.20 (77.89)	21.63 (22.11)	97.83 (100.00)

4.7 The above table indicates that 77.89% expenditure was incurred on schemes in state sector and 22.11% on schemes in local sector. Major portion of expenditure was incurred on the schemes of Minor irrigation (44.43%) soil conservation (32.97%) and agricultural production (12.23%).

4.8 The district level schemes were implemented in Handed district under sub-head Dairy development. The schemes under agricultural production, mostly aim at popularising the improved agricultural practices for increasing agricultural production. The programme of soil conservation was under-taken with a view to stop soil erosion and maintaining natural fertility of the soil. Minor irrigation programme aims at providing quick irrigation facilities and the schemes in Animal Husbandry are implemented for improving live stock. The schemes under forest, Fisheries and warehousing and marketing are taken up with the aims and objectives of improvements and development.

4.9 One agricultural school continued functioning to provide facilities for agricultural training. Besides this, the programme of training to farmers of short duration was also taken up and 1,040 farmers were trained. 2,18,819 acres of area was brought under intensive cultivation of food crops. The schemes of improved agricultural practices were implemented under oil seed development programme and 15,305 acres of area was brought under oil seed cultivation.

4.10 The scheme of development of local manurial resources was implemented and 37,031 tonnes of compost was prepared. One taluka seed farm was established and 126 acres of land was acquired.

4.11 Under minor irrigation 167 new wells were constructed 343 pumping sets were installed. With the help of air compressors and blasting 19,229 shots were blasted and irrigation wells were deepened. In state sector 2,270 acres

of additional irrigation potential was created. Under soil conservation 49,496 acres of land was bunded.

4.12 Under Animal Husbandry, 3 dispensary buildings were constructed and 2 aid-centres were established. Establishment of central nurseries, plantation of fuel woods and general utility timber and bamboos, were the schemes, implemented under sub-head Forest.

4.13 Fisheries was another sub-head under which the scheme of Fish farming in impounded water was undertaken and 3,00,000 stocking was made and 53,165 Kg. nylon twine was also distributed. Subsidy for propaganda of marketing for 4 societies was granted under the scheme, were housing and marketing.

Co-operation and Community Development.

4.14 Under this head following two sub-heads are included. The expenditure for these sub-heads are shown with the percentages to total expenditure under the head.

Sr. No.	Sub-Head.	Expenditure incurred from 1-4-67 to 31-3-1968 (Rs. in Lakhs)		
		State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.
1.	Co-operation.	4.33	-	4.33 (27.67)
2.	Community Development.	-	11.32	11.32 (72.33)
Total.		4.33 (27.67)	11.32 (72.33)	15.65 (100.00)

The above table indicates that the expenditure under co-operation is 27.67% and under community development is 72.33% of the total expenditure under the head co-operation and community development.

4.16 The programme under co-operation emphasises the purpose of inculcating the spirit of self-help among the individuals and providing for their credit needs and other requirements. The scheme under community development programme seeks at socio economic development of rural population in the district. All the schemes under sub-head co-operation were implemented in state sector, where as all the schemes under sub-head community development, in local sector.

4.17 The co-operative societies as a source of providing short term, medium term and long term credit needs of the rural area, had advanced Rs. 15.08 lakhs as long term credit and Rs. 60.59 lakhs medium and short term credit to the cultivators during the year 1967-68. Membership of co-operative societies increased by 3,210 during the year 1967-68. Managerial subsidy was granted to 3 societies, and subsidy and loan was advanced to 5 medium and 10 small size godowns respectively.

4.18 12 CPA size community development Blocks were continued during the year 1967-68 and one additional applied nutrition block was opened. The aim of the programme is to create the nutrition consciousness amongst the villages.

III. Irrigation and Power.

4.19 No district level scheme under sub-head irrigation was implemented in Nanded district. Only one scheme namely the scheme of Rural Electrification was implemented in Nanded district from the sub-head Power projects. The total

expenditure of Rs. 37.01 lakhs was incurred under the scheme for Rural electrification programme, during the year 1967-68.

4.20 Under the scheme of Rural electrification, 34 additional villages were electrified and 968 electric pumps were installed with a view to provide better irrigation facilities to the agriculturists.

IV- Industries and Mining.

4.21 The head industries and mining is divided into two sub-heads, (1) Large and Medium industries and (2) Small scale industries. No district level scheme was implemented under the sub-head large and medium industries. Two schemes under sub-head small scale industries were implemented. Out of total expenditure of Rs. 1.11 lakhs 0.88 lakhs was incurred in the state sector and 0.23 lakhs in the local sector. The schemes under this sub-head aimed at development of small and cottage industries in the district. Under the scheme of development of handloom industries, loan for purchase of shares was advanced to 140 societies and 35 members were assisted. Rebate was given to 6 societies and grant-in-aid was sanctioned to 19 societies.

V- Transport and Communication.

4.22 The schemes under road development programme were implemented for providing communication facilities in the district. Total expenditure of Rs. 45.12 lakhs was incurred, out of which 15.60 lakhs were spent in the state sector whereas Rs. 29.52 lakhs utilised under local sector. The schemes under road development programme were taken up with a view to increase the road length in the district, improvement in the existing roads, and construction of bridges and

During the year 1967-68 45.50 miles, district roads were constructed and 28.50 miles, rural roads were constructed. Similarly 21 C.D. works, 13 culverts and 9 road dams were constructed.

VI- Social Services.

Under this head social services, multifarious programmes are envisaged to educate the masses and to provide them better medical, housing and other facilities and to bring to the required standard. The following sub-heads under the social services programme were included during the year 1967-68. The figures of expenditure with percentage to total expenditure under the head are shown below :-

Sr. No.	Sub-Head.	Expenditure incurred from 1-4-67 to 31-3-1968. (Rs. in Lakhs).		
		State Sector.	Local sector.	Total.
1.	2.	3.	4.	5.
1.	General Education.	-	9.60	9.60 (17.77)
2.	Technical Education.	7.58	-	7.58 (14.03)
3.	Medical & Nursing.	0.12	-	0.12 (0.22)
4.	Public Health.	4.06	8.64	12.70 (23.51)
5.	Ayurveda.	-	-	(-)
6.	Water supply and Drainage.	13.40	2.58	15.98 (29.58)
7.	Housing.	1.74	1.52	3.26 (6.03)
8.	Urban Development.	-	-	(-)
9.	Backward Class Welfare.	1.38	0.93	2.31 (4.28)
10.	Social Welfare.	0.22	-	0.22 (0.40)
11.	Labour and Labour Welfare.	2.26	-	2.26 (4.18)
Total.		30.76 (56.92)	23.27 (42.92)	54.03 (100.00)

4.25 out of Rs. 54.08 lakhs 53.93, expenditure was incurred in state sector where as 43.07% was spent in local sector. Under this head major part of the expenditure is incurred under water supply (29.58%) sub-head, Public health 23.51%, general education 17.77% and technical education 14.03%.

4.26 The schemes under sub-head general education aim at expansion of educational facilities. Under the scheme of expansion of primary education 6,720 additional students were enrolled, 168 teachers were appointed. 417 teachers were trained under the scheme of basic training of primary teachers. Special facilities were made available to 600 girls in schools. Provision of science equipments is made to 7 schools. Additional 23 classes were opened and 39 teachers were appointed in secondary schools. Educational concession was given to 3,768 economically backward class pupils. Under the sub-head technical education, provision is made to continue the construction of polytechnic building and the hostel building. Under the sub-head medical and nursing one blood bank continued in civil hospital Nanded.

4.27 Construction of primary health centre building, appointment of 2 doctors, eradication of malaria, and small pox, family planning were taken up under the schemes from sub-head public health.

4.28 Under the scheme, water supply and drainage Rs. 8.68 lakhs were advanced to Municipal councils, Nanded, Dharmabad, Kinwat and Kandhar. Under the scheme, Rural water supply, piped water supply schemes were continued in villages Loha, Naigaon, Malkawtha, Sonkhed, Bhokar, and Kerkheli. Under

simple measures 67 drinking water wells were constructed. The housing programme taken up in the district aimed at providing housing facilities for the persons belonging to low income groups and assistance for developing village housing and provision of house sites under extension of goathans scheme. The socio economic uplift of backward classes was furthered by implementation of the schemes of the welfare of the backward classes. Only one scheme, of the welfare extension project was continued in the district under the sub-head social welfare. Under the sub-head labour and labourer welfare, one technical and vocational training institute in functioning.

VII- Miscellaneous.

4.29 Under this head, only one scheme from sub-head, 'information and publicity' was implemented in the district and expenditure of Rs. 0.30 lakhs was incurred on the scheme of 'Rural Broadcasting' during the year 1967-68 and 139 radio sets were installed.
