STATISTICAL ABSTRACT

OF

Maharashtra State

FOR THE YEAR

1967-68

NAGPUR
GOVERNMENT PRESS
1971

P R E F A C E

This is the fifth issue of the Statistical Abstract of Maharashtra State. The scope of the Abstract is generally the same as that of the earlier issues of the Statistical Abstract, except that certain tables on area and population in each taluka, ASI—sample part results, imports and exports handled at minor ports, vital statistics, registration of marriages and of documents have been added in the present issue. Tables on constitution of municipal councils and municipal corporation, distribution of pupils by age and on compulsory education have been omitted in this issue. Attempt has been made, to the extent possible, to present the districtwise statistics up to the year 1967-68. In certain cases, however, the relevant statistical information for the year 1967-68 is not yet available from the original sources. In such cases, the latest available information is presented.

For compiling the information for the Statistical Abstract various Departments and Offices of State Government, Government of India and local organisations have extended necessary assistance by supplying requisite material to us and we are thankful to all these organisations.

It is hoped that this publication giving districtwise statistics on most of the socio-economic characteristics of the State will serve as a detailed reference book for those who are interested in socio-economic and regional studies of the State.

15th June 1970.
