CHAPTER NO I

INTRODUCTION.

1.1. Introduction and Location:

Nanded district is the border district of Maharashtra State connecting the border of Andhra Pradesh. It is one of the five districts of Mahabhwada Region, and lies in the Godavari basin. The northern portion of the district lies in the valley of the Penganga. Nanded town, the district head-quarter, is situated on the left bank of the Godavari river. The river Godavari flows east wards through the central part of the district. $18^{\circ}-15'$ and $19^{\circ}-55'$ north latitude and $77^{\circ}-7'$ and $78^{\circ}-15'$ east longitude are the latitudinal and longitudinal location of the district. The area of the district is 10,333.3 Sq. Km i.e. 3,989.7 Sq. Miles and its population, according to 1961 Population Census, is 10,79,674. It accounts for 3.37% and 2.73 % of area and population of the state respectively.

1.2. Boundaries:- The boundaries of the district are shown by the other districts connected with the borders....

of Nanded district and Nizamabad districts. Yeotmal district forms the northern border while Adilabad and Nizamabad districts of Andhra Pradesh lie on the east and the south, Osmanabad district on south-west and Parbhani district on the north-west of the district.

1.3 Administrative set up.

For administrative purposes, the district is divided into eight talukas. The area, number of inhabited villages, number of towns, 1961 population and the percentages of areas and population for each taluka are shown in the following table.

Table No. 1.3(i).

Table showing area and population of the talukas in Nanded District.

District/ Taluka.	Name of the H.Q.	Area in Sq.Km.	No. of inhabited villages.	No. of towns	Popula- tion 1961.	Per- cen- tage of area	Per- centa- ge of popu- lation

8. Deglur Taluka.	Deglur.	678.6	98	1	29,313	6.6	0.3

1.4 General Administration and Revenue.

The Collector, is incharge of general administration law and order, treasury, land revenue and civil supplies. He is assisted by a Residential Deputy Collector, two Deputy Collectors, one for each revenue division; Nanded and Deglur. They are incharge of these divisions and assist the Collector. Tahsildars are incharge of eight talukas in the district. They are assisted by Naib-Tahsildars.

1.5 Area.

The area of Nanded district is 10,033.3 Sq. Km. (10,095.5 Sq. Km. rural, and 237.2 sq. Km. Urban). It is the seventeenth district in terms of area in Maharashtra State and fifth in Marathwada region.

1.6 Topography.

Nanded district lies in the plateau of south India, on account of which it is one of the most homogeneous districts in Maharashtra. It does not have any well defined topographical natural zones. The southern portion of the district is however, little different because of its poor hilly soil. The north-eastern taluka

of Kinwat is again different because of its extensive mountain ranges and barren areas. The rest of the central part of the district is flat with fertile land of black cotton soil.

1.7(A) Hill Ranges and Forests.

There is only one main system of hills known as Bhag or Thanvari range. It traverses the district from north-west to southeast. There are a few minor ranges of hills like Mukhed hills in Bhokar and Hadgaon talukas and Balaghat mountain in Kandhar and Mukhed talukas. This district has various types of forests from sparse and stunted to dense and ever green of high rainfall areas.

The area under forest is over 777 Sq. Km. forming 8.27% of the total geographical areas of the district. Major portion of the forests in this district is in Kinwat taluka, where 25% of its area is under forests. Kinwat, Hadgaon and Bhokar talukas are gifted with dense forests and they together account for 95% of the total forests areas in the district.

1.7(B) Rivers.

The most important river in the district is the Godavari. Other rivers are the Manjara, Manyad, Sarswati, Penganga, Ashana, Sita and Lendi. The Godavari enters the district from the west and flowing through the central part of the district passes out into Nizamabad district

of Andhra Pradesh. The Manjara which is the largest tributary of the Godavari flows from south to north and demarcates the boundary of the district and Andhra Pradesh. The Manyad flows through Kandhar taluka from west to east and forms the natural boundary between Mukhed taluka and Deglur taluka on one band and Biloli on the other. The Sarswati rises in Wakhad hills and flows from north to south through the eastern portion of the district and finally joins the Godavari near the village Malkautha. The Ashana flowing in the eastern direction falls into the Godavari on the left bank about 2 miles from Nanded town. The Sita also rises from north and meets the Godavari. The Lendi flows from west to east in Deglur taluka. It runs partly along the southern boundary and after taking a slightly north ward course passes through Deglur taluka and meets the Manjara. The Penganga forms the northern boundary of the district flowing in easterly direction. Further, down stream, it falls into the Wardha river in Yeotmal district.

1.7(C) Soil.

The soil of the district is in general black cotton and is fertile. The ridges and spurs from the uplands, which are all of trap formation reduce the cultivable areas considerably. The best black soil is found in a narrow strip of land on the banks of the Godavari and its tributaries.

Good black soil is found along the banks of the Manjra and the Manyad rivers in Biloli taluka, while elsewhere it is undulating and much inferior in quality and covered with loose stones. The soil of Nanded taluka consists principally of rich black alluvial deposits. Near the foot of the hills black soil is scarce and it is of a very poor description.

Deglur taluka has the best soil in the district, with the exception of a small portion of the taluka towards the west the soil is of superior quality and suitable for rabi crops.

Kandhar taluka generally has black and rich soil and grows rabi crops. Nearly half of the taluka is covered with hills and has light soils. It is undulating and covered with loose stones where kharif crops are chiefly grown.

About three fourth of Hadgaon taluka is highly fertile. The portion along the banks of the Penganga is the most fertile. Towards the south, nearer the hills, the soil is rather mixed up with certain saline matter. In Bhokar and Kinwat talukas, except for the hilly tracts, the entire land is of black cotton soil.

1.7(D) Minerals.

The only mineral, found in the district is lime stone. Deposits of intertrappean lime stone have been found to occur in Kinwat taluka. The limestone quarried is not uniform in grade and is highly siliceous.

The reserves have been estimated at ten million tons. Building materials like Deccan trap or basalt, sandstones and brick clay are also found in this district.

1.8 Climate, Temperature and Rainfall.

1.8(A) Climate.

The climate of this district is dry and subject to extremes of heat and cold. It is very hot in summer and very cold in winter. The hottest month is May and lowest temperature is reached some time during December and January.

Within the district, the weather conditions show local variations also Kinwat taluka in the extreme north-east is comparatively more hot. There are wide seasonal variations in temperatures even at Nanded town. The rainy season starts from June and lasts upto the end of September. It is followed by cold weather from October to February and by hot weather from March to May. The climate of the district on the whole is healthy.

1.8(B) Temperature.

Monthly temperature records are available for Nanded station only. The highest temperature reached upto ^o41.9 Centigrade in the month of May and the lowest temperature touched ^o11.8 centigrade during

December in the year 1968. For the year 1969 the highest temperature in the month of May was reached as 42.4^o centigrade and the lowest fall in temperature was observed as 12.9^o centigrade in the month of December.

1.8(C) Rainfall.

The rainy season starts from June and lasts upto the end of September. Nanded district falls in assured rainfall zone of the state, though the rainfall is not even in all parts of the district. In all 75% of the total rainfall is received from the south-west monsoon (June to September) and 16% from post monsoon period (October to December). Pre-monsoon showers contribute about 7% of the total rainfall and the remaining 2% is received from winter monsoon during January and February.

The rainfall data is available for eight centres of taluka head quarters. The maximum rainfall recorded during the year 1968 was 1,090.1 mm. in Kandhar taluka and the minimum rainfall was recorded 627.5 mm. in Bhokar taluka. During the year 1969 the highest rainfall was observed 1,104.4 mm. in Nanded taluka where as the lowest rainfall was recorded 682.4 mm. in taluka Deolur.

CHAPTER NO. II

EXPLANATORY NOTES ON SCOPE AND LIMITATIONS OF
STATISTICS PRESENTED IN THIS STATISTICAL ABSTRACT,
1968-69 & 1969-70.

Purpose and Scope:- This is the 10th issue of the District Statistical Abstract published since 1968-59. The purpose of this publication is to present statistical data on, as many socio-economic characteristics of the district as possible, so as to make it a useful reference book. The statistical material presented in this publication for the years 1968-69 and 1969-70 will also be useful for research, planning or further socio-economic studies about the district. It also contains taluka-wise data on various socio-economic aspects for inter-taluka comparison within the district. In case of a few tables for which data for the years 1968-69 and 1969-70 was not available, ~~for~~ the data for the latest year has been given. Similar data for the earlier years is also shown in the tables for comparison.

District at a glance.

This table is divided into two parts. In the first part general particulars on various items like population, agriculture, education etc. for the district are given, where as in the second part, the data on these items for the Division is also presented for the purpose of comparison. The reference period to which the data relates to district or Division is shown against

each item, as for some of the items the reference period is not identical.

The scope and limitations of the statistical data presented in this issue is briefly discussed in the following paragraphs.

(1) Climate & Rainfall.

The table-1 gives monthly rainfall, rainy days and total rainfall in each taluka of the district for the calender years 1968 and 1969, as recorded at the rain guage stations located at each taluka head quarters. Table-2 presents the monthly maximum, minimum and mean temperatures for the centre located at Nanded proper for the calender years 1968 & 1969. The temperature data shown in the table is not actual maximum, but the average of maximum temperatures during various months.

(2) Area and Population.

Tables-3 to 8 present the data of 1951 and 1961 population census. Table-3 indicates taluka-wise data on rural and urban areas, population and density of population per sq. Km. as per 1951 & 1961 census with percentage of variation in population during the last decade. The population figures for 1951 census shown in this table have been adjusted for the boundaries and areas of the talukas in the district as they existed at the time of 1961 census. Table-4 furnishes the

taluka-wise classification of villages according to population ranges in 1961 census, whereas table-5 gives the taluka-wise classification of towns according to population ranges as per 1961 census. Table-6 presents the taluka-wise data on number of workers and non-workers according to livelihood classes as per 1961 census, both in rural and urban areas. Table-7 gives the distribution of population according to age-group, mother tongue and religion for rural and urban areas of the district as per 1961 census. Table-8 gives the taluka-wise rural and urban population of scheduled castes and scheduled tribes during 1961 census.

(3) Agriculture.

The tables 9 to 19 present the data on land utilisation, area under different crops, yield per hectare, area irrigated by crops, number of irrigation wells, minor irrigation works, major and medium projects, agricultural wage rates, agricultural implements and famine and scarcity conditions in the district. The major part of the agricultural data has been collected from the Statistician, Department of Agriculture, Poona.

Table-9 presents the taluka-wise land utilisation figures in hectares for the years 1967-68 & 1968-69, whereas table-10 gives the taluka-wise area figures under all food and non-food crops for these two years. Table-11 indicates the data relating to yield per hectare

for principal crops in the district during the above period. Table-12 gives taluka-wise data on area irrigated by different sources of irrigation during 1967-68 and 1968-69 and table-13 gives the talukawise area irrigated under different principal crops for these two years. Table-14 gives taluka-wise number of irrigation wells in use as well as not in use for the years 1967-68 and 1968-69, while table-15 gives the information regarding number of minor irrigation works in use and not in use and net area irrigated during 1968-69. Table-16 presents data regarding major and medium irrigation projects in the district as on 30-6-1970. Table-17 shows agricultural wage rates for skilled as well as un-skilled labourers at the three selected rural centres namely, Ardhapur, Loha and Bhokar for the calender years 1968 & 1969. Table-18 gives the taluka-wise number of agricultural implements as enumerated at the time of 1966 Live-Stock census. Table-19 shows the taluka-wise information on famine, scarcity and akin to scarcity conditions for the years 1968-69 & 1969-70.

(4) Animal Husbandry.

The tables 20 to 23 give the statistical data about different categories of live-stock and poultry in the district as per sixth quinquennial Live-Stock census conducted in the year 1966. In table-20 live-stock data of all categories is shown, while table-21

furnishes the information regarding veterinary facilities available in each taluka of the district during the year 1969-70 compared with 1968-69. Table-22 gives disease-wise live-stock mortality during these two years. Table-23 presents statistics relating to number of recognised slaughter houses and animals slaughtered in them during 1968-69 & 1969-70.

(5) Forest and Fisheries.

Tables 24(A), (B) and (C) give the data on Forest and Fisheries in the district for the years 1968-69 and 1969-70. Table-24(A) gives the category-wise Forest area in hectares under different forest classifications during 1968-69 & 1969-70, while table-24(B) gives the estimates of forest produce and the value for these two years. Table-24(C) is not applicable to this district, as it relates to Marine Fisheries.

(6) Employment and Industries.

The tables 25 to 33 present the data relating to employment and industries in Nanded district. Table-25 gives details for each industry, the total number of working factories, total workers classified as males and females and total number of mandays for which they worked during the years 1968 and 1969. The data presented in columns 6 to 8 relate only to the factories submitting the returns and in columns 9 & 10 for factories not submitting the returns. The industries shown in table

are classified as per standard industrial classification. The Table-26 gives distribution of factories for each type of industry according to the size of factory in terms of average daily employment of workers. Table-27 presents the distribution of factories for each industry by number of days worked during these two years. Table-28 gives employment exchange statistics of the district for the years 1968-69 and 1969-70, while table-29 indicates occupational distribution of total registration and placement in Employment Exchange in the district during these two years. Table-30 shows volume of employment in different industries as on 31st March, 1969 and 31st March, 1970. Table-31 gives number of government employees according to pay and emolument ranges as on 1st July, 1966 for class-I, class-II, class-III and class-IV employees in the district, while table-32 shows total number of government employees in each department as on 1st July, 1966. Table-33 gives statistics relating to Annual Survey of Industries in Nanded district furnishing the figures on number of factories, their productive capital, employment, gross out-put and value added by manufacture.

(7) Electricity.

The data on electricity is presented in table-34 & 35. Table-34 gives generation and consumption of electricity during the years 1968-69 and 1969-70.

Table-35 shows number of towns and villages electrified and population covered for the years ending 31st March, 1961, 1966, 1969 and 1970 in Nanded district.

(8) Co-operation.

Data relating to various activities of co-operative movement is displayed in 8 tables i.e. from Tables 36 to 43. Table-36 gives number of different types of co-operative societies in operation in the district in 1969-70. Table-37 presents statistics relating to co-operative banks in Nanded district during 1968-69 and 1969-70. Table-38 gives taluka-wise data on Primary Agricultural Credit societies for the above period with their number of members, share capital, working capital, loans etc., while table-39 presents data on other co-operative societies of different types in the district during these two years. Table-40 gives the taluka-wise data on operation of primary co-operative marketing societies during 1968-69 and 1969-70, whereas table-41 shows operation of other co-operative societies of different types during these two years with achievements on selected items. Table-42 indicates the operation of Regulated Markets in each taluka of the district during 1968-69 and 1969-70 with quantity and value of important agricultural commodities, where as table-43 gives the taluka-wise number of registered money lenders and loans advanced by them during the above period.

(9) Medical and Public Health.

Tables 44 to 47 present data on Medical and Public Health during the years 1968 and 1969. Table-44 gives taluka-wise medical facilities viz number of hospitals, dispensaries, maternity homes, health centres, primary health centres, number of beds and in-door and out-door patients treated in them during the years 1968 & 1969, where as table-45 presents the taluka-wise data on number of births and deaths registered including infant deaths in the district during the above period. Table-46 shows numbers of deaths occurred due to different important causes like malaria, cholera, small pox, T.B. etc. in the district during the years 1968 and 1969, while table-47 gives taluka-wise information relating to vaccination and cholera inoculations in each taluka of the district during the above period.

(10) Education.

The data on education is presented in 8 tables i.e. Tables 48 to 55. Table-48 indicates number of literates in each taluka and percentage of literacy according to 1961 census. Table-49 gives data on education in rural areas in each taluka of Nanded district as per 1961 census, while the similar data for urban areas is presented in table-50. Table-51 gives number of different types of institutions, pupils and teachers in the district during 1968-69 and 1969-70 and Table-52

indicates number of beneficiaries among scheduled castes, scheduled tribes and other backward classes in Nanded district during the above period. Table-53 gives data on economically backward class concessions of free education during the years ~~1961-62~~ 1961-62, 1966-67, 1967-68 and 1968-69. Table-54 indicates recurring and non-recurring expenditure on primary education incurred by local bodies during 1968-69 and 1969-70, while table-55 gives classification of villages without primary schools or schooling facilities according to population ranges in each taluka of the district as on 31st March, 1969 and 31st March, 1970.

(11) Transport and Communications.

Tables 56 to 62 give information on transport and communication facilities available in the district. Table-56(A) gives the data on length of railway route in Km. in Nanded district as on 31st March, 1969 and 31st March, 1970 where as table-56(B) relating to number of ports in the district is not applicable to Nanded district. Table-57 gives road length in Km. according to category and surface classification in Nanded district under B & C, Z.P. and Municipalities during the above period. Table-58 gives the data on different types of motor vehicles in operation in Aurangabad region as on 31st March, 1969 and 31st March, 1970, while table-59 presents data regarding operational statistics of

Nationalised Road Transport according to S.T. Division for the above period with number of routes, route distance in Km, Vehicles on road per day, average daily earnings, number of passengers travelled per day etc. The information regarding traffic census on important roads in Nanded district is furnished in table-60. Data on number of post offices, telegraph offices, letter boxes, post men, telephones and number of radio licences issued and renewed together during the years 1961-62, 1968-69 and 1969-70 is presented in table-61. Table-62 presents Rural Broadcasting statistics in Nanded district as on 31st March, 1969 and 31st March, 1970 furnishing the taluka-wise information on number of villages where receiving sets are installed, rural population covered as per 1961 census and total number of radio farm forums.

(12) Local Bodies.

Tables 63 to 66 present statistics relating to local bodies in Nanded district for the years 1968-69 and 1969-70. Table-63 shows income and expenditure of Village Panchayats, Zilla Parishad and Municipal Councils in this district for the above period, where as in table-64 panchayat samiti-wise income and expenditure for Village Panchayats in the district during 1968-69 and 1969-70 showing income by way of grant-in-aid, contribution, donations, taxes, fees etc. and expenditure

for sanitation, health, public works, social welfare, preservation of animal husbandry, collection of land revenue and maintenance etc. Table-65(A) gives head-wise receipts of Z.P. Nanded during 1968-69 and 1969-70, by way of receipts from various heads under Revenue Section and government grants etc., while table-65(B) gives the head-wise details of expenditure during the above period. Table-66 presents municipality-wise data on income by way of government grants, octroi, taxes on houses and lands, other taxes etc. and expenditure for General Administration, cost of collection of taxes, public safety, public health and convenience, public works, public instruction etc. for the years 1968-69 and 1969-70.

(13) Plan and Community Development Programme.

Tables 67 to 71 present statistics relating to plan and community development programmes. Table-67 gives sub-head-wise plan expenditure on district level schemes implemented in Nanded district during the years 1968-69 and 1969-70 both for state sector and Local Sector, while table-68 shows the sub-head-wise data on physical achievements for selected items during the above period. Table-69 gives stage-wise number of blocks of C.P.A. pattern, number of inhabited and deserted villages with rural population, covered as per 1961 census. Table-70 gives stage-wise expenditure in different stages of blocks in Nanded district upto 31st March, 1969 and

31st March, 1970, while table-71 indicates block-wise achievements on selected items for 1968-69 and 1969-70 under Community Development Programme.

(14) Prices.

Data relating to average retail prices of important commodities at the district head quarters and consumers price index numbers for working class is presented in table 72 and 73 respectively. In table-72 month-wise average retail prices of important commodities collected at district head quarters during 1968 and 1969 are given with average prices for each year. Table-73 gives month-wise consumers price index number on various items like food, pan-supari, tobacco and intoxicants, fuel and light, housing, clothing bedding, footwear & miscellaneous items for the years 1968-69 & 1969-70 separately for Nanded and Aurangabad centres.

(15) Judicial & Administrative.

The data on this topic is given in table 74 to 76 for the years 1968 and 1969. Table-74 gives strength of Police showing number of Superintendents, Assistant Superintendents, Deputy Superintendants, Inspectors, Sub-Inspectors, etc. both for permanent as well as temporary staff and total strength of police force and total cost on police force in the district during above period. Table-75 deals with crime statistics both for cognizable and non-cognizable crimes with number of

offences, tried, convicted and acquitted in the district during these two years. Table-76 presents the data regarding cases disposed off in civil and criminal courts with the break-up of original and appellate side in the district during the years 1968 and 1969.

(16) Miscellaneous.

The data under this section is presented in table-77 to 85. Table-77 gives data on cinema statistics for the years 1968-69 and 1969-70. This table shows the taluka-wise number of permanent and semi movement talkies with their seating capacity for the above period. Table-78 presents the category-wise number of banking offices in Nanded district, while table-79 gives number of joint-stock companies limited by shares and guarantees separately with public and private break-up. The table- 80 indicates number of insurance policies issued and amount insured in the district for the years 1968-69 and 1969-70. Table-81 presents data on small savings targets, gross collections, withdrawals and net collections in the district under various schemes of small saving drive like national defence certificates, 10 years defence certificates, 15 years annuity certificates, cumulative time deposits etc. for the above period. Table-82 gives taluka-wise data on land revenue collection during 1968-69 and 1969-70 with detailed break-up of previous

arrears, total demands including previous arrears, collections and arrears at the end of each year. Table-83 presents data on number of presses, news papers and periodicals printed in each taluka of the district in Marathi, Hindi, English and other languages published daily, weekly, fortnightly and monthly as on 31st March, 1969 and 1970. Table- 84 shows constituency-wise number of electorate, number of electors who voted with percentage of votes and party-wise number of votes polled relating to General Elections held in 1967 in the district. Table-85 shows trends in selected indicators in the district for the years 1950-51, 1960-61, 1966-67 and 1969-70.

CHAPTER NO. III.

NOTES ON SELECTED INDICATORS.

Indicator No. 1:- Percentage of gross sown area to net sown area for the years 1960-61, 1967-68 and 1968-69.

1.1. During the period from ~~196~~ 1960-61 to 1963-67 there had been continuous increase in the percentage of gross sown area to net sown area in the district. During the year 1967-68 and 1968-69 the percentage of gross area to net area sown in the district stood at 103.63 and 103.59 respectively. The taluka-wise percentages of gross sown area to net area sown indicated considerable variation. In the year 1960-61 Nanded taluka had the highest percentage of gross sown area to net sown area. In 1967-68, and 1968-69 Mukhed taluka had the highest percentage, 106.63 and 106.58 respectively whereas Kinwat taluka had the lowest percentage 100.17 and 100.22 respectively.

Taluka-wise percentage of gross sown area to net sown area.

8.	Deqlur.	102.13	102.16

Indicator No. 2:- Productivity of important crops.

2.1 The production of important crops in Manded district during the years 1960-61, 1967-68 and 1968-69 is indicated in the following table with percentage increase or decrease over the year 1960-61.

Sr. No.	Name of the crops.	Production in metric tonnes.			Percent increase in 1967-68 over 1960-61	Percent increase in 1968-69 over 1960-61.
		1960-61.	1967-68.	1968-69.		
1.	2.	3.	4.	5.	6.	7.
1.	Rice.	19,508	11,785	14,400	(-) 39.59	(-) 26.18
2.	Wheat.	11,075	7,722	13,400	(-) 30.28	(+) 20.99
3.	Jowar.	2,66,103	2,39,674	2,00,700	(-) 9.93	(-) 24.58
4.	Tur.	21,134	19,101	19,900	(-) 9.62	(-) 5.84
5.	Gram.	4,267	5,080	6,500	(+) 19.05	(+) 52.33
6.	Sugarcane (in terms of gur).	12,599	29,667	39,600	(+) 135.47	(+) 214.31
7.	Chillies.	8,840	8,636	7,800	(-) 2.31	(-) 11.76

9.	Tobacco.	-	-	935	-	-
10.	Cotton.	21,357	17,460	22,554	(-) 18.25	(+) 5.50

Note:- (+) and (-) indicate increase and decrease.

(Continued).....

2.2 It is clear from the above table that in the year 1967-68 there was fall in agricultural production as compared to the year 1960-61 except gram, sugarcane and groundnut. But during the year 1968-69 the condition had slightly improved and wheat, gram, sugarcane, groundnut and cotton registered a sizeable increase in the production over the production for the year 1960-61.

Indicator No. 3:- Gross value of Agricultural Production.

3.1 Agriculture constitutes a major portion in the National Income of our country and hence any change in agricultural production affects the levels of National Income. Gross value of agricultural production is always studied in the context of the prices which is a relative phenomenon and due to which gross value is a subject of comparison rather than the subject of basic study.

3.2 The gross value of agricultural produce in the years 1960-61 at the prices prevailing in 1960-61 was Rs. 16.05 crores and in the year 1967-68 and 1968-69 at the prices prevailing in the corresponding years was Rs. 31.82 crores and 31.93 crores respectively. The gross value of agricultural produce in the district had increased by 98.63% in 1967-68, and 98.94% in 1968-69 over 1960-61. The increase in gross value can be attributed to the rise in prices. The per capita gross value of agricultural production in the district is calculated to be Rs. 148.60, Rs. 295.31 and Rs. 295.79 respectively in the years 1960-61, 1967-68 and 1968-69 at prices prevailing in the respective years.

Continued

Indicator No. 4:- Percentage of gross irrigated area to Net irrigated area.

4.1 The taluka-wise percentages of gross irrigated area to net irrigated area in the year 1967-68 and 1968-69 are given below.

Sr. No.	Talukas.	Percentage of gross irrigated area to net irrigated area in the year.		
		1967-68.	1967-68.	1968-69.
1.	2.	3.	4.	5.
1.	Kinwat.	174.12	102.27	112.40
2.	Hadgaon.	138.63	102.23	102.34
3.	Nanded.	114.90	101.89	101.91
4.	Bhokar.	158.95	102.40	103.10
5.	Kandhar.	122.26	103.00	102.22
6.	Biloli.	131.81	102.91	102.38
7.	Mukhed.	129.95	111.06	104.56
8.	Deqlur.	125.13	106.04	105.38
	District Total.	125.70	102.71	102.90

The above table indicates that the percentage of gross irrigated to net irrigated area has increased from 102.71 during 1967-68 to 102.90 during 1968-69. The highest percentages is 111.06 for taluka Mukhed and 112.40 for taluka Kinwat during the years 1967-68 and 1968-69 respectively. The lowest percentages of gross irrigated to net irrigated area for the years 1967-68 and 1968-69 are observed in taluka Nanded.

Continued.....

Indicator No. 5:- Changes in cropping Pattern.

5.1 The table below shows the percentage of area under food crops, non-food crops to gross cropped area and percentage of irrigated area under food and non-food crops to gross irrigated area in the district separately for the years 1960-61, 1967-68 and 1968-69.

Sr. No.	Description.	Percentages.		
		1960-61.	1967-68.	1968-69.
1.	2.	3.	4.	5.
1.	Total food crops.	67.66	65.38	63.41
2.	Total non-food crops.	32.34	34.62	36.59
3.	Total.	100.00	100.00	100.00
3.	Irrigated area of food crops.	99.88	93.01	89.70
4.	Irrigated area of non-food crops.	0.12	6.99	10.30
	Total .	100.00	100.00	100.00

5.2 The above table indicates that the food crops dominate the cropping pattern of this district covering 67.66%, 65.38% and 63.41% of the total area cropped during the years 1960-61, 1967-68 and 1968-69. It can also be inferred that there was a slight decline in the area under food crops from 67.66% during 1960-61 to 63.41% during 1968-69. In the irrigated crops there was a remarkable variation in the cropping pattern ranging from 99.88% during 1960-61 to 89.70% during 1968-69 of the food crops and 0.12% to 10.30% of the non-food crops during the year 1960-61 and 1968-69 respectively.

Continued

Indicator No. 6: - Increase in Agricultural credit, outstanding dues and gross values of agricultural produce.

6.1 Agricultural credit was continuously increasing in the district due to active participation of the co-operatives in financing the rural credit needs and growing consciousness among the agriculturists to improve the agricultural conditions by investing more funds in agriculture. Outstanding dues also increased with the increase in the agricultural credit over the period 1960-61 to 1967-68 and 1968-69. The gross value of agricultural production during the same period increased by 98.63% and 98.94% in the years 1967-68 and 1968-69 over 1960-61. The details of agricultural credit, outstanding dues and gross value of agricultural production in the district during the year 1960-61, 1967-68 and 1968-69 are shown in the following table.

Sr. No.	Item.	Amount in thousand rupees during the year.		
		1960-61.	1967-68.	1968-69.
1.	2.	3.	4.	5.
1.	Agricultural Credit.	8,256	41,184	40,307
2.	Outstanding dues.	7,709	71,723	83,466
3.	Gross value of agricultural products.	1,60,547	3,18,848	3,19,364

6.2 It can be inferred from the above table that, during the period from 1960-61 to 1967-68 and 1968-69, the agricultural credit increased by more than 5 times and outstanding

Continued.....

dues by more than 10 times and 11 times in the year 1967-68 and 1968-69 respectively over 1960-61. However, the gross value of agricultural production indicated 28.33% and 93.94% increase in 1967-68 and 1968-69 over the year 1960-61. The percentage of outstanding dues to agricultural credit was 93.37%, 166.08% and 207.07% respectively in the year 1960-61, 1967-68 and 1968-69.

Indicator No. 7- Agricultural wage rates.

7.1 The agricultural wage rates for the skilled labourers as well as unskilled labourers employed for different agricultural operations were collected in the district at three centres namely (1) Ardhapur, (2) Loha and (3) Bhokar since 1963.

The following table gives the details of average wages rates for the years 1963 and 1969.

Sr. No.	Category of Labourers.	Ardhapur.		Loha.		Bhokar.	
		1963.	1969.	1963.	1969.	1963.	1969.
1.	2.	3.	4.	5.	6.	7.	8.
1.	Carpenter.	4.00	7.00	3.00	4.94	3.00	5.16
2.	Black smith.	3.50	NA.	3.00	NA.	3.00	3.85
3.	Cobbler.	2.50	NA.	2.00	4.00	2.00	3.50
4.	<u>Field labour.</u>						
	i) Male.	1.43	3.46	1.14	2.82	1.14	2.37
	ii) Female.	0.89	1.24	0.82	1.18	0.82	1.70
5.	<u>Other Agri. Labour.</u>						
	i) Male.	1.21	3.65	1.00	2.84	1.00	NA.
	ii) Female.	0.66	1.81	0.62	1.38	0.62	NA.
6.	Herdsman.	1.25	NA.	1.00	NA.	1.00	NA.

Continued

7.2 The above table indicates that the average wage rates of skilled as well as unskilled labourers showed increasing trends over the years 1963 and 1969. Highest percentage increase was observed in the wages of unskilled male workers. It was partly due to the fact that these type of labourers were diverted towards the labour other than the agricultural labour in the nearby urban centres and partly due to the imbalance between the demand for the male labourers for agricultural operation and the supply of the male labourers for the same.

Indicator No. 8:- Live-stock per hectare of cultivable area.

8.1 The following table gives the taluka-wise position of livestock per hectare of cultivable area in Nanded district during the years 1960-61 and 1968-69.

Sr. No.	Name of the taluka.	Livestock per hectare of the cultivable area during the year.	
		1960-61.	1968-69.
1.	2.	3.	4.
1.	Kinwat.	0.89	0.99
2.	Hadgaon.	0.83	0.97
3.	Nanded.	1.19	1.45
4.	Bhokar.	1.03	1.18
5.	Kandhar.	1.54	1.27
6.	Biloli.	1.21	1.27
7.	Mukhed.	1.44	1.23
8.	Devlur.	1.32	1.16
	District.	1.17	1.19

Continued

8.2 Considerable variations were observed in the live-stock per hectare of cultivable land in different talukas of this district both in 1960-61 and 1968-69. It ranged from 0.83 in Hadgaon taluka to 1.54 in Kandhar taluka during the year 1960-61. During the year 1968-69 Hadgaon taluka had the lowest 0.97 and Nanded taluka had the highest 1.45 live-stock per hectare of cultivable area. The position of the district indicated an increase from 1.17 during 1960-61 to 1.19 during 1968-69.

Indicator No. 9:- Poultry compared to population.

9.1 The ratio of poultry per lakh of population had decreased from 14,360 in 1961 to 8,037 in 1966 in the district. The highest ratio of poultry per lakh of population was 18,311 in Bhokar taluka for the year 1961. The highest ratio of poultry per lakh of population was 9,590 in Mukhed taluka for the year 1966. The talukas of Mukhed, Kandhar, and Hadgaon had more number of poultry in relation to population than the district average and the talukas Nanded, Deglur, Bhokar, Biloli and Kinwat had less poultry ratio per lakh of population than the district for the year 1966.

Indicator No. 10:- Per Capita consumption of electricity.

10.1 Per capita consumption of electricity is one of the best indicators of economic development of the district. It increased from 1.49 KWH. in 1960-61 to 7.16 KWH. in 1968-69 and to 15.36 KWH in 1969-70. This indicates

(Continued).....

that there has been about 5 times and 10 times increase in per capita consumption of electricity in the district over the period 1960-61 to 1968-69 and 1969-70, respectively. This increase was due to implementation of urban and rural electrification programme in the district. More electric motors were installed in irrigation wells, for lifting water and more power connections were given to industrial purposes. The result was more consumption of electricity both for agricultural as well as industrial purposes.

Indicator No. 11:- Candidates enrolled in employment exchange.

11.1 The balance between the employment opportunities and the candidates seeking employment is a matter of study for planned progress. More the imbalance, acute is the problem of unemployment marching towards the lower level of economy. Statistics relating to candidates enrolled, and the vacancies notified depict the nature and intensity of un-employment problem.

11.2 The candidates enrolled in employment exchange of this district increased from 7,094 in 1960-61 to 7,308 in 1968-69 and 7,257 in 1969-70. The number of vacancies notified however decreased from 1,130 in 1960-61 to 955 in 1968-69 and increased 1,204 in 1969-70. The number of vacancies notified per lakh of population also decreased from 105 in 1960-61 to 88 in 1968-69 and increased 112 in 1969-70. This may be due to non-expansion of employment opportunities in government, local and private sector bodies.

Continued

Indicator No. 12:- Increase in in-door and out-door patients treated in hospital, dispensaries and primary health centres in the year 1960, 1968 & 1969.

12.1 In-door patients treated and out-door patients treated for the year 1968 and 1969 decreased considerably as compared the same for the year 1960. The highest number of in-door and out-door patients treated was recorded for the Nanded taluka. It is due to the location of two hospitals, in Nanded town. The lowest number of in-door patients, treated was reported for Mukhed taluka where as the lowest number of out-door patient treated was observed in Kinwat taluka.

Indicator No. 13:- Increase in the number of students in different categories (boys and girls separately).

13.1 The following table indicates the position of enrollment in Nanded district during the years 1960-61, 1967-68 and 1968-69.

Sr. No.	Educational Institutions	Position in the district during			Percentage increase or decrease over	
		1960-61	1967-68	1968-69	1967-68	1968-69
1.	2.	3.	4.	5.	6.	7.
1. Primary school.						
1.	Boys.	45,426	80,723	82,446	(+) 77.70	(+) 81.49
2.	Girls.	15,269	32,087	33,620	(+) 110.14	(+) 120.18
2. Secondary.						
1.	Boys.	12,287	34,697	38,027	(+) 182.38	(+) 209.49
2.	Girls.	1,832	6,807	7,782	(+) 271.56	(+) 325.16

Continued.

1.	2.	3.	4.	5.	6.	7.
<u>3. Higher Institution.</u>						
1. Boys.		674	3,217	3,959	(+) 376.59	(+) 487.39
2. Girls.		53	207	221	(+) 290.56	(+) 317.55
<u>4. Special school</u>						
1. Boys.		479	762	534	(+) 59.08	(+) 11.48
2. Girls.		186	197	128	(+) 5.91	(-) 31.18

13.2 It is evident from the above table that the strength of students boys as well as girls increased considerably in primary, secondary and higher institutions. The number of girls in special schools decreased. The highest percentage increase of 376.59 and 487.39 was observed in the number of boys registered for the year 1967-68 and 1968-69 in higher institutions. The percentage of girls registered is highest (290.56) in higher institutions for the year 1967-68 and 325.16 in secondary schools for the year 1968-69.

Indicator No. 14:- Increase in Road Mileage per 100 Sq. Km. in 1960-61, 1968-69 and 1969-70.

14.1 Road communication facilities were increasing faster than the other facilities. The road mileage per 100 sq. km. is the indicator of the development in this respect. It was increasing considerably from 3.79 km. in 1960-61 to 151.44 km. in 1968-69 and 162.77 km. in 1969-70. This increase in road mileage can be attributed to the implementation of road development programme taken up in this district under plan schemes.

Continued

14.2 No national high way passes through this district. The length of state high way was 231.00 km. and 288.00 km. and the length of major district roads was 521.51 km. and 545.29 km. during the years 1968-69 and 1969-70 respectively. The length of water bound macadam surface road was 720.58 km. and 734.36 km. and the black topped surface road length was 399.80 km. and 404.20 km. for the years 1968-69 and 1969-70 respectively. Rest of the surface road was covered by granular material and lower type of surface road.

Indicator No. 15:- Increase in Banking facilities in proportion to population.

15.1 The total number of bank offices in the district increased from 16 in the year 1960-61 to 45 in the year 1969-70.

15.2 In the year 1960-61, the number of bank offices per lakh of population in the district was one, whereas it increased to 4.5 in 1969-70. Nanded taluka had the largest number of bank offices in the district. The increase in banking facilities was mostly due to opening of new branches of " Nanded Central Co-operative Bank" in rural areas.

Indicator No. 16:- Prices.

16.1 In general, the retail prices of almost all the commodities indicated increasing trend in the district in the year 1969 and as compared to the prices in 1963. The following table indicates the average retail prices

Continued

of important commodities for the years 1963 and 1969 at district head quarter, Nanded together with the increase or decrease in prices for 1969 over 1963.

CHAPTER - IV.

PLANNING.

4.1 Socio Economic development of a country is based on proper planning. Objectives of planning are rapid economic development to raise the levels of living to generate employment opportunities, optimum utilisation of man-power and natural resources available.

4.2 As the IVth five year plan was yet to be formulated, Annual Plans were implemented since 1966-67. In the Annual Plans 1968-69 and 1969-70 most of the schemes from earlier Annual Plans were continued and some of the new schemes were introduced. The total expenditure on the district level schemes of Annual Plans 1968-69 and 1969-70 in Nanded district was to the tune of Rs. 262.30 lakhs and Rs. 219.71 Lakhs respectively.

4.3 Total expenditure on different heads of development on district level schemes in Nanded district during the year 1968-69 and 1969-70 is as under :-

Sr. No.	Head of Development.	Years.	Expenditure incurred for the years 1968-69 & 1969-70 (Rs. in Lakhs.).		
			State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.	6.
1.	Agricultural programme.	1968-69.	79.72	28.41	108.13 (41.16)
		1969-70.	103.02	28.82	131.84 (60-01)

	1969-70.	41.59	13.48	55.07	(25.06)
VII. Miscellaneous.	1968-69.	0.43	-	0.43	(0.16)
	1969-70.	0.13	-	0.13	(0.06)
<u>District Total.</u>	1968-69.	168.04	94.65	262.69	(63.97) (36.03) (100.00)
	1969-70.	152.96	66.75	219.71	(69.62) (30.38) (100.00)

Note:- The bracketted figures indicate percentage to total expenditure.

4.4 Out of the total expenditure during the year 1968-69, 63.97% expenditure was incurred on the schemes in state sector and 36.03% on the schemes in local sector. Corresponding percentage of expenditure for the year 1969-70 is 69.62% and 30.38% on the state sector and local sector schemes respectively. In respect of percentage

Continued

of expenditure within the heads of development the agricultural programme stands at the top (41.16% for 1968-69 and 60.61% for 1969-70) whereas the expenditure under miscellaneous programme is the lowest. This indicates the agricultural programme received highest priority in the Annual Plans 1968-69 and 1969-70.

Agricultural Programme.

4.5 The agricultural programme includes the following sub-heads of development. The expenditure under this sub-head during 1968-69 and 1969-70 is shown with the percentage variation (bracketed) to the total expenditure under agricultural programme.

Sr. No.	Sub-Head under Agriculture.	Year.	Expenditure incurred for the year 1968-69 and 1969-70 (Rs. in Lakhs)		
			State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.	6.
1.	Agricultural production.	1968-69.	1.61	8.28	9.89 (8.15)

	1969-70.	2.88	-	2.88	(2.18)
7. Forests.	1968-69.	2.45	-	2.45	(2.28)
	1969-70.	2.67	-	2.67	(2.02)
8. Fisheries.	1968-69.	0.28	-	0.28	(0.26)
	1969-70.	0.33	-	0.33	(0.25)
9. Ware house and marketing.	1968-69.	0.84	-	0.84	(0.78)
	1969-70.	0.13	-	0.13	(0.10)
Total.	1968-69.	79.73	28.41	108.13	(73.73) (100.00)
	1969-70.	103.02	28.82	131.84	(73.14) (21.86) (100.00)

4.6 The above table indicates that 73.73% expenditure was incurred on schemes in state sector and 25.27% on schemes in local sector for the year 1968-69. Major portion of expenditure was incurred on the schemes of Minor irrigation (45.14%) soil conservation (32.85%) and Ayacut development programme (9.82%) during the year 1968-69. For the year 1969-70, 73.14% expenditure was incurred on the schemes in state sector. Maximum part of the expenditure was incurred on the schemes of Minor

Continued

irrigation (42.40%) soil conservation (35.72%) and Ayacut development programme (12.16%).

4.7 No district level schemes were implemented in Nanded district under sub-head Dairy development during the year 1968-69. The schemes under agricultural production mostly aim at popularising the improved agricultural practices for increasing agricultural production. The programme of soil conservation was undertaken with a view to stop soil erosion and maintaining natural fertility of the soil. Minor irrigation programme aims at providing quick irrigation facilities and the schemes in Animal Husbandry are implemented for improving live stock. The schemes under forest, fisheries and warehousing and marketing are taken up with the aim and objectives of improvements and development in agricultural sector of economy.

4.8 During the year 1968-69 construction work of one agricultural school building was continued. The programme of short duration training to farmers was also taken up and 1,012 farmers were trained and 2,87,008 acres of area was brought under intensive cultivation of food crops. For the year 1968-70 one banana seed multiplication farm was established and the construction of agricultural school building was completed. 3,52,902 acres of area was brought under intensive cultivation of food crops. One small holders block was established.

Continued

4.9 The scheme of development of local manurial resources was implemented and 48,907 tonnes of compost was prepared during the year 1968-69 and 46,398 tonnes of compost was prepared during the year 1969-70.

4.10 Under minor irrigation 183 and 231 new wells were constructed and 212 and 217 pumping sets were installed during the years 1968-69 and 1969-70, respectively. In state sector 2,880 acres and 4,002 acres of additional irrigation potential was created during the years 1968-69 and 1969-70. Under soil conservation 49,057 acres and 53,563 acres of land was bunded during the years 1968-69 and 1969-70 respectively.

4.11 Under the sub-head of animal husbandry 2 veterinary aid centres were established during the year 1968-69 and 1969-70. Farm forestry and extension of forestry, plantation of fuel woods and general utility timber and bamboos were the schemes, implemented under sub-head Forest.

4.12 Fisheries was another sub-head under which the scheme of fish farming in impounded water was undertaken and 1,70,000 and 1,39,635 finger-lings were stocked and 590 quintals and 2,300 quintals fish was netted during the years 1968-69 and 1969-70. Subsidy for propaganda of marketing was granted for 12 and 8 societies during the year 1968-69 and 1969-70 under the scheme, warehousing and marketing.

Continued

Co-operation and Community Development.

4.13 Under this head, following two sub-heads are included. The expenditure for these sub-heads is shown with the percentages (bracketed) to total expenditure under the head.

Sr. No.	Sub-head.	Years.	Expenditure incurred during the years 1968-69 and 1969-70 (Rs. in lakhs).		
			State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.	6.
1.	Co-operation.	1968-69.	3.16	-	3.16 (23.96)
		1969-70.	2.30	-	2.30 (38.72)
2.	Community Development.	1968-69.	-	10.03	10.03 (76.04)
		1969-70.	-	3.64	3.64 (61.28)
Total.		1968-69.	3.16 (23.96)	10.03 (76.04)	13.19 (100.00)
		1969-70.	2.30 (38.72)	3.64 (61.28)	5.94 (100.00)

4.14 The above table indicates that the expenditure under co-operation was 23.96% and 38.72% during the years 1968-69 and 1969-70 where as the same under community development was 76.04% and 61.28% during the years 1968-69 and 1969-70 respectively of the total expenditure under the head co-operation and community development.

4.15 The programme under co-operation emphasises the purpose of inculcating the spirit of self-help among the

Continued

individuals and providing their credit needs and other requirements. The scheme under community development programme seeks at socio economic development of rural population in the district. All schemes under sub-head co-operation were implemented in state sector, where as all the schemes under sub-head community development, in local sector.

4.16 The co-operative societies as a source of providing short term, medium term and long term credit needs of the rural area, had advanced Rs. 46.15 lakhs medium and short term credit during the year 1968-69 and Rs. 136.40 lakhs medium and short term credit and Rs. 28.63 lakhs as long term credit during the year 1969-70 to the cultivators. Membership of co-operative societies increased by 1,929 and 1-049 during the year 1968-69 and 1969-70 respectively. Subsidy and loan was advanced to 2 and 1 medium size godowns and 12 and 4 small size godowns during the year 1968-69 and 1969-70 respectively.

4.17 12 CPA size community development Blocks were continued during the year 1968-69 and 1969-70 and one additional applied nutrition block was opened. The aim of the programme is to create the nutrition consciousness amongst the villagers.

III - Irrigation and Power.

4.18. No district level scheme under sub-head irrigation was implemented in Mandla district. Only one scheme

Continued

namely the scheme of Rural electrification was implemented in Nanded district from the sub-head power project. Total expenditure of Rs. 28.13 lakhs and Rs. 3.83 lakhs was incurred during the years 1968-69 and 1969-70 respectively.

4.19 On physical achievements side under this scheme, 47 villages and 35 villages were electrified and 1,005 and 1,259 electric pumps were installed on the agricultural wells during the years 1968-69 and 1969-70 respectively with a view to provide better irrigation facilities to the agriculturists.

IV- Industries and Mining.

4.20 The scope of coverage under the head " Industries and Mining" envisages development of large and medium industries but no district level scheme was implemented under the sub-head large and medium industries. However, two schemes under sub-head small scale industries were implemented. Out of total expenditure of Rs. 0.76 lakhs and 0.38 lakhs an amount of 0.54 lakhs and 0.27 lakhs was incurred in the state sector and 0.22 lakhs and 0.11 lakhs was incurred in local sector during the years 1968-69 and 1969-70. The aim of the schemes is to develop the small scale and cottage industries in the district under the scheme of development of handloom industries, subsidy was granted to one society and loan for purchase of share was advanced to one society during the year 1968-69. During the year 1969-70 a rebate was

Continued

given to 7 societies and loan was advanced to 2 societies. Financial Assistance was also given to 31 societies and 8 societies during the year 1968-69 and 1969-70 respectively.

V- Transport and Communication.

4.21 Schemes in the sub-head Road Development are implemented in the district for providing communication facilities in the district. Total expenditure of Rs.31.23 lakhs and 22.52 lakhs was incurred. Out of which 7.96 lakhs and 1.82 lakhs were spent in state sector and 23.27 lakhs and 20.70 lakhs were utilised in local sector during the years 1968-69 and 1969-70. The schemes under road development programme were taken up with a view to increase the road length in the district, improvement in the existing roads and construction of bridges and culverts.

4.22 During the year 1968-69, 72.88 Kms. district roads were constructed and 67.63 Kms. rural roads were constructed. Similarly 45 C.D. works and 37 culverts were constructed 27.80 Km. district roads and 50.85 rural roads were constructed and 29 culverts and 3 C.D. works were completed during the year 1969-70.

VI- Social Services.

4.23 Under this head social services, multifarious programmes were envisaged to educate the masses and to provide them better medical, housing and other facilities and to bring to the required standard. The following sub-heads under the social services programme were

Continued

included during the years 1968-69 and 1969-70. The figures of expenditure with percentage (bracketed) to total expenditure under the head are shown below.

Sr. No.	Sub-head.	Year.	Expenditure incurred for the years 1968-69 and 1969-70 (Rs. in lakhs).		
			State Sector.	Local Sector.	Total.

8.	Social Welfare.	1968-69.	0.23	-	0.23 (0.29)
		1969-70.	0.34	-	0.34 (0.62)
9.	Labour & Labour Welfare.	1968-69.	3.73	-	3.73 (4.62)
		1969-70.	1.56	-	1.56 (2.83)
	Total.	1968-69.	48.05 (59.49)	32.72 (40.51)	80.77 (100.00)
		1969-70.	41.59 (75.52)	13.48 (24.48)	55.07 (100.00)

4.24 Out of Rs. 80.77 lakhs and 55.07 lakhs, 59.49% and 75.52% expenditure was incurred in the state sector and 40.51% and 24.48% was incurred in local sector during the years 1968-69 and 1969-70 respectively. Under this head major part of the expenditure was incurred under water supply 42.80% general education 19.87% and Health 14.99% during the year 1968-69. during the year 1969-70 major percentage of expenditure were observed under the sub-head water supply 69.37% general education 14.67% and technical education 7.35%.

4.25 The schemes under sub-head general education aimed at expansion of educational facilities. Under the scheme of expansion of primary education 170 and 330 additional students were enrolled 493 and 441 teachers were trained, special facilities were made available to 603 and 608 girls in schools, 4 and 6 non-government

Continued

schools were expanded during the years 1968-69 and 1969-70. Under the sub-head technical education, provision was made to continue the construction of polytechnic building and the hostel building and these buildings were completed during the year 1969-70. Under the sub-head health one blood bank continued in civil hospital handed for the year 1968-69 and the same was converted as non-plan scheme during the year 1969-70.

4.26 Construction of primary health centre building, appointment of doctors, eradication of malaria, and small pox, family planning were taken up under the schemes from public health during the years 1968-69 and 1969-70.

4.27 Municipal water supply schemes were continued during the year 1968-69 and 3 schemes were completed during the year 1969-70. So also the rural water supply schemes were continued during the year 1968-69 and 4 schemes were completed during the year 1969-70. Under the simple measures 128 and 167 drinking water wells were constructed during the year 1968-69 and 1969-70 respectively. The housing programme taken up in the district aimed at providing housing facilities for the persons belonging to low income groups and assistance for developing village housing and provision of house sites under extension of gauthans scheme. During the year 1968-69 27 houses were built under the village housing

Continued

project scheme. 42 and 14 villages were covered under the scheme of extension of village panchayats during the years 1968-69 and 1969-70 respectively. The socio economic uplift of backward classes was furthered by implementation of the schemes of the welfare of the backward classes. Only one scheme of the welfare extension project was continued in the district under the sub-head social welfare. Under the sub-head labour and labour welfare, one technical and vocational training institute was functioning during the year 1968-69 and 1969-70.

VII- Miscellaneous.

4.28 Under this head, only one scheme from sub-head information and publicity was implemented in the district and the expenditure of Rs. 0.43 lakhs and 0.13 lakhs was incurred during the year 1968-69 and 1969-70 respectively and also 156 and 222 rural radio sets were installed during the corresponding periods.

Note:- " As the information collected for the given commodities is restricted to only one quotation and that too only from one shop at District Head Quarter, the average shown above for individual commodity can not be said to be fully representative but the data may prove useful as a broad indicator of the trend in changes in retail prices over period of time."

N.B.:- There is a change in variety since 1968, in respect of Tobacco (Leaf).
