STATISTICAL ABSTRACT
OF
MAHARASHTRA STATE
1960-61

PUBLISHED BY
BUREAU OF ECONOMICS & STATISTICS
GOVERNMENT OF MAHARASHTRA

P R E F A C E

On the eve of bifurcation of the former Bilingual Bombay State, the Bureau of Economics and Statistics, Government of Bombay published two handbooks entitled "The Handbook of Basic Statistics of Maharashtra State — 1960" and "The Handbook of Basic Statistics of Gujarat State — 1960". The main object of these publications was to make available a broad picture of the Socio-economic conditions of the new States of Maharashtra and Gujarat. The scope of these publications was limited, and hence, it was not possible to include therein all detailed statistical data.

The present Statistical Abstract is the first of its series to be published after the formation of new State of Maharashtra. An attempt has been made in this publication to present detailed statistical data relating to the Socio-economic characteristics of the new Maharashtra State. It is hoped that this publication would be found useful for a quantitative appraisal of the socio-economic aspects of the State.

Most of the statements of the Abstract are presented in Metric Units. Consequent upon bifurcation of the Bombay State, some areas of Thana and Dhulia districts were transferred to Gujarat. It was not found feasible to adjust in all cases, figures corresponding to the present Thana and Dhulia districts. Further, in some cases, relevant statistics had not been published and hence the same had to be collected from the original sources. In a few cases, estimates for some of the years had to be prepared to fill up the gaps. To that extent, the figures published may be treated as provisional. An explanatory note on the sources, limitations, etc. of these statistics is given in the Appendix.

I have to thank the various Departments and Offices of the State Government, of Government of India and also many local organisations who promptly supplied to us the necessary material and permitted us to publish it.

M. A. TELANG,
Director,
Bureau of Economics and Statistics, Bombay.

In Aurangabad Division, the standards (or classes) in schools are different than in schools in other regions. Therefore the infant class in Aurangabad Division is equated to Standard I, Standard I to Standard II and so on. In Nagpur Division Standard XI is a predegree class.

According to the modified Plan allocation the outlays under Second Five-Year Plan were Rs. 60.31 lakhs, Rs. 68.12 lakhs, Rs. 6.35 lakhs, Rs. 17.83 lakhs, Rs. 49.66 lakhs and Rs. 2.13 lakhs under Development Heads I, II, III, IV, V and VI respectively.

Due to the bifurcation of the bilingual Bombay State it is difficult to obtain precise figures of expenditure incurred in Maharashtra State during the Second Plan period.

The above statement is based on revised figures received from various Departments. In some cases estimates have been used wherever actuals were not forthcoming.

APPENDIX .

EXPLANATORY NOTE ON SOURCES AND LIMITATIONS OF STATISTICS PRESENTED IN THE STATISTICAL ABSTRACT.

Purpose.

1. In the preceding pages, exhaustive statistics on various topics have been presented. Attempt has been made to give background statistical material on as many socio-economic topics as possible which will be useful for research, planning or further socio-economic studies in the State. Wherever feasible, districtwise information has been collected. The trends over a series of years have also been shown. Nevertheless, small or unimportant details have been omitted to keep the size of the Abstract in manageable form. However, the sources of the material reproduced in the Abstract have been indicated at the end of each table and in this note so that the reader, if he is interested in further details, may look into the original source to get the desired information. Exhaustive statistics as they are, they are not entirely free from blemishes. It also happens that preliminary data are presented in some publications which undergo some changes when final figures are presented. The data presented in this Abstract has been collected from various departments and offices of this Government, Government of India and several other agencies. Districtwise figures obtained from these sources underwent changes subsequently after receipt by this office. It had not been always possible to effect subsequent changes in the detailed districtwise figures. For this and many other reasons, the statistics given in this Abstract may perhaps not agree with the statistics published afterwards by the supplying agencies although steps were taken to remove such discrepancies as far as possible.

Maharashtra at a Glance.

2. Latest data on important socio-economic characteristics of the State are presented in this Table. Some indicators, like railway distance per 100 K. metres of area, number of banking offices per one lakh population etc., which bring forth salient features of the State are given. Attempt has been made to compare the position of the State with national economy. While latest figures for the Maharashtra are given, the figures for the same year for India are not always forthcoming. Hence, for calculating the share of the State in the national economy, the data for earlier years in respect of both Maharashtra and India are used. The sources and limitations of the information relating to Maharashtra is discussed in the following paragraphs. The data pertaining to India presented in this table is collected from various official publications issued by the offices and departments of Government of India, such as "Statistical Abstract of India—1958-59" published by Central Statistical Organisation, "Statistics relating to Banks" published by Reserve Bank of India and so on.

Summary Statements.

3. The trends over a series of years are presented in the tables included under Summary Statements. Provisional data for the latest years whose districtwise break up is not yet available and hence could not be included in the detailed tables is presented in these tables. The provisional figures for latest years are likely to undergo revision when final figures would be available.

I. AREA AND POPULATION.

4. The data as made available from the 1951 Population Census and 1961 Population Census are presented in Statements 1.1 to 1.7. These statements include provisional figures of 1961 Census as released by the Census authorities. The final figures were not available at the time when this publication was being printed. The final figures have however been recently published by Government of India in Census of India—Paper No. 1 of 1962.

5. Statement 1.1 gives area, number of towns, Rural and Urban population in each district. The definition of Urban population adopted during 1961 Census is different from the one adopted during 1951 Census. For this reason, the figures of Urban areas for the two Censuses are not comparable. Statement 1.2 shows the variation of population from 1951 to 1961. The figures for 1951 presented here do not agree with some of the figures published by this office elsewhere, because some adjustments in district boundaries have taken place in certain districts like Greater Bombay, Thana, Sangli etc., due to transfer of villages after 1951 Census. Statement 1.3 presents the population in various towns in Maharashtra. Statement 1.4 gives the classification of population according to eight principal means of livelihood. These figures are as per 1951 Census. Similar information for 1961 Census is not available. Statement 1.6 shows the population of Scheduled Castes and Scheduled Tribes according to 1951 Census.

II. CLIMATE.

6. The data presented in Statements 2.1, 2.2 and 2.3 have been obtained from the Department of Agriculture, Regional Meteorological Centres at Colaba, Poona and Nagpur and the State Government Gazettes. Information regarding rainy days, actual rainfall etc. is shown in Statement 2.1. The information relates mostly to the rain gauges at various taluka places. Statement 2.2 gives mean, mean maximum and mean minimum temperatures at various centres. The maximum temperature shown in the statement is not actual maximum but the average of maximum temperatures during various months.

III. AGRICULTURE.

7. Statements on agriculture included in the Abstract give data on land utilisation, area and production under principal crops, area irrigated by sources and by crops, index numbers of agricultural production etc. Statistics relating to land utilisation, area and production and irrigation is published by the Department of Agriculture, Poona in Season and Crop Reports. Since, the Season and Crop Reports for the years 1957-58 and 1958-59 are not published, the data for these years was directly obtained from the Statistician Department of Agriculture, Poona. Ultimately, the final figures will be published in the Season and Crop Report. While giving districtwise data, no adjustment has been made for the areas of Daulia and Thana districts which have been merged in Gujarat. However, Rajura taluka has been included in Chanda district. Final figures for 1959-60 and 1960-61 are not yet ready. Hence production figures during these two years are based on forecast reports. Attempt has been made to incorporate latest estimates. It is therefore possible that the estimates of production published earlier by this office in Maharashtra State Budget-in-Brief, 1961-62, Handbook of Basic Statistics of Maharashtra State, 1960 and 1961, Quarterly Bulletin of Economics and Statistics might have undergone revisions. Similarly, some of the figures for earlier years like area irrigated under ground nut during 1951-52, etc., are revised by the Statistician Department of Agriculture as these were erroneous. At many places the details do not strictly add up due to rounding.

8. Statement 3.1 indicates broadly the utilization of land according to standard heads of utilization. Statement 3.2 gives figures of area and production of different crops. The production of cotton is in terms of lint, whereas that of sugarcane and groundnut is in terms of gur and pods respectively. The Index Number of Agricultural Production of Maharashtra State is worked out by the Statistician, the Department of Agriculture and is based on the production of principal Crops only. The base year is 1956-57. The Index Numbers for 1959-60 and 1960-61 are based on final forecast estimates and are subject to revision when the estimates based on actuals would be available. The data presented in statement 3.7 are provisional.

IV. AGRICULTURAL HOLDINGS.

9. Statements 4.1 and 4.2 give the classification of occupied land according to size of holdings. Unfortunately, the data does not relate to the same year for all the regions of the State. The figures for districts in Bombay and Poona Divisions relate to the last quinquennial census taken in 1952-53. The figures of acreages shown against the districts of Aurangabad Division are in terms of dry acres. The quinquennial census conducted in old Bombay used to cover only 'Rayatwari' area.

V. COMMUNITY DEVELOPMENT PROGRAMME.

10. The statistics presented in statements 5.1 and 5.2 is based on the quarterly progress reports forwarded by block officers. The statement 5.1 gives achievements under selected items by all CD/Stage I/Stage II blocks operating in each district during the years 1959-60 and 1960-61. In accordance with the general directive issued by Government of India, total achievements including those due to efforts of departments and offices other than the C. D. Block office and also of private individuals are considered. The statement 5.2 gives aggregate achievements in all blocks of the State during each year of the Second Plan.

VI. ANIMAL HUSBANDRY.

11. The statement 6-1 gives districtwise figures of different categories of livestock, poultry etc., enumerated at the time of the Quinquennial Livestock Census 1961 in the State. The figures of 1956 Census adjusted to the present boundaries of the State are also shown. The statements 6.2 and 6.3 give information relating to recognised and unrecognised slaughter houses in the State and the number of animals slaughtered in these slaughter houses. It may be mentioned here that, although information regarding unrecognised slaughter houses is given in these statements, still considerable number of animals are reported to have been slaughtered outside these slaughter houses at unauthorised places. Statement 6.4 gives some information regarding the developmental activities of the Department of Animal Husbandry and also the details of veterinary aid given in the form of dispensaries etc.

VII. FORESTS.

12. Statements 7.1 and 7.2 give statistics regarding classification of forests and estimate of forest produce as released by the Chief Conservator of Forests. Details of area under forests—both in charge of Forest Department and Revenue Department are given. The statistics regarding forests is primarily compiled forest-circle-wise. Another point to be noted is that, for many reasons, the figures of area as released by Forest Department do not adequately reconcile with the corresponding areas under forest as released by the Agricultural Department in their land utilisation statement. For instance, in 1958-59 the area under forests in the State as released by the Forest Department was 3,108 square miles or 8.05 lakh hectares, whereas the corresponding figures given in the land utilization statement of Agricultural Department was about 5.44 lakh hectares.

VIII. FISHERIES.

13. The statement 8.1 of this sector gives statistics regarding quantity of fish brought at various yards of Ratnagiri District. This is the only district where sea fish is brought and cured. Corresponding figure for the fish of inland waters are not available. The statement 8.2 gives some ancillary information, particularly regarding marketing of marine fish in the State.

IX. PRESS AND PUBLICATIONS.

14. The source of information for statements 9.1 to 9.5 is the Examiner of Books and Publications.

X. JUDICIAL AND ADMINISTRATIVE.

15. This sector is divided in two parts viz. statistics—regarding judicial courts and police. The statement 10.1 gives the information about the amount of work disposed of

by the courts located in districts. This is inclusive of the criminal cases disposed of by session courts, and civil cases (original and appeals) disposed of by district and subordinate courts. Statement 10.2 gives corresponding information in respect of the Small Cause Court, City Civil Court and High Court in Greater Bombay. The statement 10.3 gives districtwise information regarding disposal of criminal cases. Further interesting details are available in the Annual Report published by the Registrar, High Court, Bombay.

16. As regards Police, information is supplied separately for Greater Bombay and for the rest of Maharashtra State. Detailed statistics regarding crimes (cognizable and non-cognizable) as disposed of by the Police Department are shown in statements 10.7 to 10.10 and Nos. 10.12 to 10.15. The statement 10.16 gives details of number of police stations outposts, strength of police in each district, and the total number of cases investigated by the police in each district.

XI. STATE FINANCE.

17. Information shown in statements Nos. 11.1 and 11.2 is extracted from the usual Government Budget Publications. Figures for the years 1960-61 relate to eleven months (with effect from May 1960 to March 1961) of 1960-61. On account of formation of Maharashtra State in May 1960, comparable figures for earlier years could not be included. The statement 11.3 gives information regarding collections under Small Saving Scheme of the Government.

XII. STATE INCOME.

18. Statistics regarding income generated in the limits of the present Maharashtra State during the year 1955-56 to 1958-59 is presented in statements 12.1 and 12.2. The former statement gives income (at current prices) by sectors, whereas the latter statement gives the movement of state income at constant prices of 1955-56 from year to year. These estimates have been specially made by the Bureau generally on the lines similar to those adopted by Government of India for estimating National Income of the country. Further details about the state income and the procedure adopted for estimating it will be found in the July-September 1961 issue of the Quarterly Bulletin of the Bureau.

XIII. RURAL CREDIT.

19. Statements given in this sector relate to transactions of licensed money lenders in the State. The Bombay Money Lenders Act was made applicable to the areas of Nagpur and Aurangabad Division at the beginning of 1960. Hence the figures shown in these statements relate to the districts of Bombay and Poona Divisions only.

XIV. JOINT STOCK COMPANIES.

20. Statistics shown in statement No. 14.1 were specially collected from the office of the Registrar of Joint Stock Companies, Bombay. Information relating to all companies (public and private) functioning as on 31st March 1959 and whose registered offices were located in the jurisdiction of Maharashtra State was collected.

XV. BANKS.

21. The statements 15.1 to 15.4 give the distribution of banking offices spread all over different areas of this State. Statement 15.1 gives distribution of offices of all types of Banks (scheduled, non-scheduled and co-operative banks). Statement 15.2 gives information regarding co-operative banks, whereas Statement No. 15.3 gives districtwise figures of No. of different types of banking offices of different categories of banks. Statement 15.4 gives distribution of places according to population range where banking service is available. The next statement gives the financial structure of scheduled and non-scheduled banks. Additional information about co-operative banks will also be found under sector, 'Co-operation'.

XVI. CO-OPERATION.

22. Statements included in this sector give salient features of the co-operative movement in the State. Statement 16.1 gives summary of progress in the State since 1955-56 to 1958-59. Subsequent statements give districtwise figures of operations of different types of co-operative societies for the years 1957-58 and 1958-59. The concepts of various terms used such as 'deposits', 'outstanding', 'loans', 'overdues' etc. and also the classification of the Co-operative societies are as per standard pattern adopted by Reserve Bank of India.

XVII. EDUCATION.

23. The Statement 17.1 gives information regarding the number of villages and towns with and without schools. The figures relating to towns and villages are as per 1951 Census. Changes subsequent to 1951 could not be incorporated here.

24. Statement No. 17.2 shows enrolment of the students in pre-primary, primary and secondary institutions in each district of the State during 1959-60 and the number of teachers upto secondary level. It may be stated here that the classification of educational institutions according to primary, secondary etc. adopted here differs from the one adopted by Government of India. The Government of India publications have treated all senior Basic and middle schools (Stds. I-V-VI, VII) as secondary but the pupils of Stds. V, VII only are included under secondary pupils, while those of Stds. I-IV under primary. For this reason, statistics published in this sector is not comparable with similar statistics published in Government of India publications. The source of information shown in this statement is "Education in Maharashtra, State, 1959-60: Statistical Epitome" published by Director of Education.

25. Statement 17.3 gives classification of institutions and enrolment according to types. In some cases the number of institutions is shown as nil while enrolment is shown. This is actually the enrolment in classes attached to the institutions counted elsewhere. Statement 17.9 gives similar information for the State for the year 1960-61. This information is collected from the Director of Education's publication referred to above. Statement No. 17.6 gives figures pertaining to the Technical Education.

26. Statement 17.4 gives distribution of pupils by standards. In districts of Vidarbha, Standard XI is treated as a pre-degree class. Similarly in Aurangabad Division the system of standard is different from the one prevailing in other regions. For maintaining comparability, students belonging to any Standard in Aurangabad Division are shown in the next upper standard.

27. Statements 17.7 and 17.8 give statistics regarding compulsory education and examination results respectively. A separate statement giving the general progress of education in the State during last ten years is also appended Summary Statement.

XVIII. ELECTRICITY.

28. This sector contains two statements. Statement 18.1 gives districtwise figures of electricity generated and consumed according to types of uses. The statement 18.2 gives Districtwise list of towns and villages electrified (up to December 1960). The statistics relating to generation and consumption of electricity was extracted from the publications and reports of the Central Water and Power Commission, Simla. Formerly, this organisation used to present statistics according to calendar years. From 1957 onwards, they decided to publish the data according to financial year. The data included in statement 18.1 therefore relates to 15 months i.e., with effect from January 1957 to March 1958. This statement does not include electricity generated by self-generating establishments. Though attempt has been made to give districtwise figures of energy generated, still in

the case of a few districts such as Thana, Kolaba etc., exact break-up could not be made available. Hence in the case of these districts the figures may be treated as approximate.

29. The Statement 18.2 gives districtwise list of towns and villages electrified. The main supplying agencies in this State are the State Electricity Board and various private licencees. This statement is based on the information supplied by the State Electricity Board. Attempt was also made to obtain information about the list of villages electrified by private licencees. In a few cases, complete and upto-date list of villages could not be obtained. Hence, the information shown in this statement is likely to be slightly incomplete.

XIX. TRANSPORT AND COMMUNICATIONS.

30. The statement 19.1 gives districtwise railway distance. The information is collected from various railway authorities. The districtwise break-up is only approximate. In another publication of the Bureau viz. Basic Statistics of Maharashtra State, 1960, information regarding a few districts in Nagpur Division could not be shown. This omission is now rectified.

31. The Statement 19.2 gives statistics regarding road distance. They exclude roads maintained by Municipalities. This information has been obtained from Buildings and Communications Department. Statistics regarding motor vehicles is shown in Statement 19.3. This information is obtained from the State Transport Authority, Bombay and their subordinate offices. The statements 19.4 and 19.5 present Statistics regarding Nationalised Road Transport. The information is collected from State Road Transport Corporation, Bombay, the Provincial Transport Services, Nagpur and State Transport, Marathwada. In Jul. 1961 all the three Organisations have been amalgamated to form Maharashtra State Road Transport Corporation.

32. The Statement 19.6 shows number of passengers carried from the selected ports. Information in respect of all ports could not be available. Statements 19.7 and 19.8 are reproduced from the "Annual Administrative Report, Bombay State Ports 1958-59" published by the Buildings and Communications Department. Information relating to Bombay Port shown in Statements 19.9 to 19.11 is collected from the Report of Bombay Port Trust.

33. Information regarding broadcasting radio licences is shown in statement 19.12. The data has been given for each station separately. The stationwise breakup of commercial licenses issued in Vidarbha is not available. The figure of total number of licenses issued in the State however includes 1,705 such licenses in Vidarbha region. The information has been collected from the Postal Authorities.

XX. INDUSTRIES AND MINING.

34. This sector includes following :—(1) factory employment, (2) statistics available under Census of Manufacturing Industries Act, (3) Industrial production, (4) mineral production, (5) statistics regarding labour conditions and relations and (6) statistics regarding handloom industry. Information regarding the number of factories and the number of workers is collected from the office of Chief Inspector of Factories. The Statements 20.3 and 20.4 give statistics regarding industries covered by the Census of Manufacturing Industries Act. The information shown in Statement 20.5 is based on the reports released by several offices of Government of India, such as Textile Commissioner etc. From the point of view of both concepts and coverage, statistics regarding C. M. I. Act, and those published by the above Government of India offices are not comparable. Statements 20.7 and 20.8 give the usual statistics released by the office of Commissioner of Labour, Bombay, regarding labour absenteeism, industrial disputes etc. The Statement 20.12 gives information relating to licences given under I. D. R. Act, 1951.

XXI. EMPLOYMENT.

35. The statement 21.1 included in this sector gives usual employment exchange statistics released by the State Directorate of Employment. The next statement gives employment in shops, commercial establishments and other institutions covered by The Shops and Establishments Acts, as applicable to the various parts of the State. The statements 21.3, 21.4 and 21.5 give information relating to the State Government Employees as compiled by Bureau of Economics and Statistics. Statistics about employment will also be found elsewhere in other sectors. For instance, details about factory employment will be found under sector "Industries and Mining". Information relating to special categories such as police or school teachers will be found in the appropriate sectors.

XXII. LOCAL BODIES.

36. This sector contains certain important information regarding village panchayats and municipalities in the State. In addition, information regarding income and expenditure of Bombay, Poona and Nagpur Corporations and of Bombay Port Trust is also given in this sector.

XXIII. PRICES.

37. The statement 23.1 gives monthly quotations of certain agricultural commodities at selected market centres in the districts. Quotations for all months of 1960-61 are given. This information is based on the material released by the Chief Marketing Officer, Bombay. The statement 23.2 gives prices of gold and silver in Bombay Market. The information is extracted from the Reserve Bank of India Bulletin.

XXIV. INDEX NUMBERS.

38. Two statements are incorporated in this sector. The Statement 24.1 gives Consumer Price Index Numbers of Bombay, Sholapur, Jalgaon, Aurangabad, Nanded and Nagpur. These Index Numbers are regularly released by the office of the Commissioner of Labour, Bombay. It may be noted that the base year taken for comparison differs from centre to centre. Also the weight pattern is different. For this reason, the indices for each centre are not comparable with each other. However, with the help of these index numbers it is possible to know the magnitude of change in the levels of prices at these centres within a specified period. The statement 24.2 gives the Index Numbers of Wholesale Prices in India (base 1952-53 as 100) as released by the Economic Adviser to the Government of India.

XXV. FIVE-YEAR PLAN.

39. The two statements incorporated in this sector give details of expenditure incurred in each year of Second Plan of the State and outlay for the Third Five-Year Plan of the State respectively. These figures are extracted from the State Government's recent publication "Third Five-Year Plan of Maharashtra State" in which further more details will be found. The statement 25.2 gives the break-up of the total outlay according to Revenue and Capital and also according to the outlay to be spent under "State" level, "Divisional" level and "District" level schemes respectively.

XXVI. MISCELLANEOUS.

41. The only statement of this sector is the usual Financial Statistics relating to the Reserve Bank of India.

XXI. EMPLOYMENT.

35. The statement 21.1 included in this sector gives usual employment exchange statistics released by the State Directorate of Employment. The next statement gives employment in shops, commercial establishments and other institutions covered by The Shops and Establishments Acts, as applicable to the various parts of the State. The statements 21.3, 21.4 and 21.5 give information relating to the State Government Employees as compiled by Bureau of Economics and Statistics. Statistics about employment will also be found elsewhere in other sectors. For instance, details about factory employment will be found under sector "Industries and Mining". Information relating to special categories such as police or school teachers will be found in the appropriate sectors.
