CHAPTER NO. I

I N T R O D U C T I O N

1.1(1) Introduction and Location :- In ancient times the town Parbhani was known as Prabhavati on account of the existence of a beautiful and massive temple of goddess Prabhavati. Out of the twelve Jotirlingas in the country and three in Marathwada region, the district is sanctified by the existence of one Jotirling namely Lord Nagnath at Aundha village in Hingoli taluka.

1.1(2) Parbhani district with an east-west of 128.72 km. (80 miles) and north-south extension of 104.58 km. (65 miles) stretches between 18.57 and 20.20 north latitude and between 76.70 and 77.29 longitude. The district as a whole belongs to the Godavari peninsular basin situated on the northern side of Marathwada region. The Godavari has converted southern portion of the district comprising Pathri, Parbhani and Gangakhed talukas into to a very fertile vally. The Purna which is a tributary of the Godavari and the Dudhana which is a tributary of the Purna drain the talukas of Jintur and Basmath.

1.2 Boundaries :- In shape, Parbhani is a compact district. It has natural boundaries of the Penganga river with a stretch of 160.93 km. in the north-east and of the Godavari river with a stretch of 64.37 km. in the south-west. Administratively it is bounded on the north by Buldhana, Akola and Yeotmal districts of Vidarbha region and on the east by Nanded district. On the south it is surrounded by Osmanabad and Bhir districts and on the west by Aurangabad district.

1.3: AREA

1.3(1): Parbhani district stretches over an area of 12,489.0 square kilometres of which 12,267.7 sq.kilometres is rural and the remaining 221.3 square kilometre urban. In term of area and population respectively it is the eleventh and nineteenth largest district, in Maharashtra State. According to 1971 Census the district accounts for 4.1% and 3.00% of the State's area and population respectively.

1.3(2) Territorial Changes:- During 1905, the northern villages of Nanded taluka of Nanded district were added to Kalamnuri taluka of this district. Besides, eight villages from Ambad taluka of Aurangabad district were transferred to Pathri taluka of this district in exchange of six villages of Pathri taluka transferred to Ambad taluka of Aurangabad district. There after there were no territorial changes till the end of 1955. Consequent upon the re-organisation of the States on 1-11-1956, the district was transferred to the then Bombay State. Since 1st May, 1960 it forms part of Maharashtra State and Aurangabad revenue division.

1.4: Topography: Being a part of the Deccan plateau, the land in the district has a general elevation of about 457.60 metres (1560 ft.) above the sea level, its highest and lowest levels being 579.73 metres (1902 ft.). In Jintur range about 12.87 km. (8 miles) north of Charthana village and lowest level being around 366.0 metres (1200 ft) above sea level on the Godavari bank near the point where the river crosses over the district boundary. Topographically the talukas of Pathri, Gangakhed, Parbhani and Partur (excepting northern part) are plain while the talukas of Jintur, Hingoli, Kalamnuri and northern parts of Basmath and Partur are all hilly and mountainous in nature.

1.5: Hills:-

1.5(1) : The main hill ranges of the district are Ajantha hills which emanate from the main Sahyadris. These run through Partur, Jintur, Hingoli and Kalamnuri talukas. The crest line consists of flat tops with an average elevation of 534 metres (1750 ft.) above sea level.

1.5(2) Malhura Hills:- There are west-east hill ranges separately the Penganga valley from that of Kaidhu to its south. The tops record heights ranging between 542 metres (1775 ft.) in the west and 488 metres (1600 ft.) in the east.

1.5(3):- Balaghat Hills:- A section of Balaghat range transverse member of Sahyadris, stretches over the Southern portion of the district comprising Gangakhed taluka. Its general elevation is 534 metres (1750 ft.) with a few peaks, recording heights above 549 metres (1800 ft.).

1.5(4) Isolated Hills:- These stand mainly in the undulating black soil plain of the Godavari and the Purna rivers having an average height of 468 metres (1533 ft.).

1.5(5) : River System:- (1) The Godavari is the most important river of the district. With its entrenched and meandering course it is the master stream that flows through Marathwada to enrich its economic resources, but at the same time impeding its communications. It winds its course into the district from west and after running a distance of about 180 Km. (112 miles) through Gangakhed taluka enters the adjoining district of Nanded.

The Purna rises from the Ajantha hills and enters the district from the north-west corner, makes its course in the south easterly direction for major length through Jintur, Hingoli, Basmath and Parbhani talukas and then falls into the Godavari. The river Dudhana takes its rise in the amphitheatre of Khuldabad-Mahismal range and runs into the district in the south-easterly direction

like the Purna for nearly 161 Km. (100 miles) to join it. The penganga river also rises in the Ajantha hills a little to the south-west of Buldhana town and winds its course in the likewise manner. Its distinctive feature over other rivers is that all along its course of about 80 Km. (60 miles) it acts as a district boundary. The river Kaidhu popularly known as Kayad, enters the Hingoli taluka after rising from the hills scarp of Risod town in Akola district and covers a distance of about 113 km. (70 miles) in Hingoli and Kalamnuri talukas.

(2) Besides, there are several minor streams in the district more important amongst which are the Karpara, the Kansur, the Wan, the Borina, the Machili, the Galati, the Indrayani and the Dhond all being the tributaries of Godavari.

1.5(6) Soil:- The soil of the district is known as "Black Cotton" soil or "Regur" as it is popularly called. The district is essentially a region of black soil gully erosion, uneven surface, furrowed by large and small streams and meandering water course. The uneven black soil plain is, however, interrupted by occasional basaltic knolls. The soil is rich in plant nutrients such as Lime, Mangnesia, Iron, Alkalines, It swells and becomes sticky on wetting by rains and develops several cracks while becoming dry. It varies widely in texture and depth from place to place. In the hilly tracks in the north it is shallow and poor, while towards the south it is relatively richer and deeper.

In the Godavari and the Purna valleys and especially along the courses of these rivers it is very deep and fertile making the central belt an economically well developed part of the district.

1.5(7): Minerals:- The district is devoid of any mineral wealth worth the name. Inferior quality of stone used for construction of buildings and other minor minerals are, however, extracted in this district. Black asphalt and granites are available everywhere and are used for buildings and road metalling.

1.6 Climate, Temperature and Rainfall

1.6(1) Climate:- The climate in general is dry through out the district except during south-west Monsoon season. The year is divided into three seasons, rainy season starts from June and lasts upto the end of September, it is followed by cool-dry season from October to January and hot-dry season from February to May.

1.6(2) Temperature:- The Meteorological observatory is located at the district headquarters only and the meteorological data regarding temperature etc. recorded at this station may be taken as representative of the climate conditions over the district as a whole. During the hot-dry season in 1975 the maximum temperature i.e. 44.2 centigrade was recorded in May 1975.

The minimum temperature during the cool-dry season was 8-8/ centigrade in the month of January, 1975. The table below indicates the maximum and minimum temperature recorded during the year 1975 at Parbhani centre.

Table No.1

Monthwise temperature during the different seasons in 1975.

Sr. No.	Season	Months	Temperature (in centigrade)	
			Maximum	Minimum
1	2	3	4	5
1.	Warm wet season	June	39.9	20.8
		July	35.0	20.8
		August	32.6	21.2
		September	33.8	20.2
2.	Cool-dry season	October	33.3	20.3
		November	31.3	10.8
		December	31.4	9.2
		January	32.7	8.8
3.	Hot-dry season	February	34.9	13.0
		March	40.7	15.8
		April	43.8	21.2
		May	44.2	22.4

1.6(3) Rainfall:- The district gets the bulk of the rainfall from south-west Monsoons. Generally, the monsoon starts in the month of June and lasts upto mid October.

But the district also receives rainfall from mid October to December through north-east monsoons. All the parts of the district do not receive uniform rains. The normal rainfall of the district is 827 mm. The table below gives talukawise number of rainy days and rainfall during the year 1975.

Table No.2  
Number of rainy days and rainfall.

Sr. No.	Name of the Taluka	1975	
		Number of rainy days.	Rainfall
1	2	3	4
1.	Parbhani	75	1284
2.	Jintur	79	1222
3.	Hingoli	81	1343
4.	Kalamnuri	81	1097
5.	Basmath	71	1441
6.	Gangakhed	65	1321
7.	Pathri	77	1313
8.	Partur	69	1197
District 1975		75	1285
Average 1974		52	670

It may be seen from the above table that the rainfall in all the talukas was above the district normal. The district when compared to the last year's data had both more number of rainy days and rainfall. During the year 1975 the talukas of Basmath, Gangakhed and Hingoli received comparatively more rainfall than the remaining talukas of district.

### 1.7 Important Economic Development

In the Fifth Five Year Plan of Parbhani district Jaikwadi Irrigation Project has been given top priority and substantial funds were provided for completion of the canal works in the district. The work of canal excavation is under progress and with a view to accelerate the completion of the project the funds under Employment Guarantee scheme are also being spent. The above irrigation project would bring a massive and significant change at the agricultural development of the district. Besides, the works on Masoli Medium Irrigation Project which is located in Gangakhed taluka of this district has also been started and being completed expeditiously.

### Agro Industries:-

#### 1.7(I) Co-Operative Sugar Factories

The first sugar factory in the co-operative sector at Village Dongarkada taluka Kalamnuri known as "Dongarkada Sahakari Sakhar Karkhana" has been established and going into production from October, 1976. This sugar factory is likely to provide employment to about 5,000 persons. In addition to this, two more sugar factories are coming up in the talukas of Pathri and Basmath of this district. Both these factories would be functioning in the command areas of the major irrigation project and the District Planning & Development Council, Parbhani has also

decided to provide adequate outlays for the completion of the above factories.

1.7(ii) Dairy Development:- Under the Town Milk supply scheme of Parbhani district, a dairy federation has been formed and one milk chilling plant at Parbhani is under installation.

For the construction of dairy, substantial funds are being provided, in the Annual Plan of the district. As a result of establishment of dairy at Parbhani the requirement of milk to Parbhani town would be met at reasonable prices.

1.7(iii) Spinning Mills

Recently, one co-operative spinning mill has been proposed to be established at Parbhani. This would be the first such mill to be established in the district and would generate considerable employment potential.

In addition to the above there are about 33 cotton ginning and pressing factories working in the district. Out of which four are functioning under the co-operative sector. These factories would feed the raw material to the proposed spinning mills.

Moreover, few of the Dal Mills and Oil Ghans are also functioning in the district.

## CHAPTER - II

### EXPLANATORY NOTES ON SCOPE AND LIMITATIONS OF THE STATISTICS IN

#### THE STATISTICAL ABSTRACT

1. Purpose:- The Abstract of the publication presents statistics on important socio-economic indicators of development. In the last publication for which the reference year was 1974-75 figures for the previous year (i.e. 1973-74) were furnished in almost all tables besides providing data for 1974-75. However, in case of a few tables where data are not available, figures for the latest available year have been incorporated.

The tables on population are displayed in the Abstract as per 1971 census. The tables on livestock statistics are based on 1972 Livestock Census. The data compiled in the tables are collected from the offices of the State Govt. Central Govt. Local Bodies and other agencies.

2. District At-A-Glance:- The table on "District-At-A-Glance" indicates the important data in respect of the district obtained from the various tables of the Abstract. The table also provides the data for State for comparison with the district figures.

The explanatory notes summarising the contents of the tables presented in the Abstract with particular reference to scope and limitations of data compiled are given for each subject as under:-

I. Area and Population:- Table Nos. 1 to 7 deal with area, houses, total population, decadal variation in population since 1951, classification of towns and villages in the district according to population ranges, number of workers and non-workers in the district, population according to age-groups, mother tongue and religion and population of scheduled castes, scheduled tribes and new Buddhists in the district.

II. Rainfall and Climate:- Table Nos. 8 and 9 deal with number of rainy days and rainfall and monthly temperature at the selected centres in the district.

Table No. 8 shows monthly and annual rainfall and number of rainy days for 1975 recorded at all the eight taluka headquarters.

III. Agriculture:- In table Nos.10 to 21 statistics relating to agriculture are presented. The tables next to agricultural statistics are 22 and 23 in which data regarding famine and scarcity are displayed. The table on land utilization gives distribution of total geographical area in each taluka of the district according to various uses for the year 1973-74 and 1974-75. The next table dealing with area under different crops indicates taluka wise area under different crops grown in the district during the years 1973-74 and 1974-75.

Table No.12 indicates the yield and outturn of principal crops in the district for the years 1973-74 and 1974-75. The table regarding area irrigated in the district gives talukawise net area irrigated by different sources of irrigation for the years 1973-74 and 1974-75. Area irrigated more than once and the gross area irrigated are also shown in this table. The next table pertains to the area irrigated under different crops in each taluka for the years 1973-74 and 1974-75.

The table No.15 shows total number of irrigation wells, irrigation wells in use, irrigation wells not in use and other wells during the years 1973-74 and 1974-75. Table Nos. 16, shows the availability of underground water in the district. Table No.17 and 18 deals with minor irrigation works and major & medium irrigation project respectively.

The table on major and medium irrigation projects provided projectwise details.

The table No.19 on agricultural wage rates gives monthwise agricultural wage rates of skilled and unskilled agricultural labourers at the 3 selected centres in the district for the calendar year 1975.

The table No.20 shows the data regarding operational holdings & area operated as per the agricultural census 1970. Table No.21 gives number of agricultural implements in each taluka of Parbhani district as per Livestock Census 1972.

Table No.22 indicates talukawise position of the famine, scarcity and akin to scarcity conditions prevailing during 1975-76 and in table No.23 scarcity area according to the history of scarcity in each taluka of Parbhani district are shown from 1970-71 to 1975-76.

**IV. Animal Husbandry:-** Information about animal husbandry is displayed in table Nos. 24 to 27. Table No.24 presents data regarding total number of livestock in each taluka of Parbhani district as per Livestock Census 1972.

Table No.25 on veterinary statistics indicates the number of veterinary hospitals, dispensaries, aid-centres with the number of animals treated therein in each taluka of Parbhani district during the year 1975-76.

Data on diseasewise livestock mortality in Parbhani district in 1975-76 is presented in table number 26 and the last table on the above subject shows the total number of animals slaughtered in each of the recognised slaughter houses in the district during 1975-76.

**V. Forest and Fisheries:-** The information regarding forests is presented in table Nos. 28-A and 28-B. The table No.28-A indicates the area under forest in 1975-76 according to its administrative jurisdiction and table No.28-B presents information regarding major and minor forest products in Parbhani district in the year 1975-76.

The table No.29-A pertains to inland fisheries and displays the data regarding length of rivers, total area for fishculture and fish products etc.

VI. Employment and Industries:- The information on employment and industries is indicated in table Nos. 30 to 37. Table No.30 deals with average daily employment and No. of factories by categories for the year 1974.

Table No.31 deals with industrywise distribution of working factories according to working strength under major groups of industry during the year 1974., in Parbhani district.

Table No.32 presents the distribution of factories according to number of days worked in Parbhani district in 1974. Major groups of industries are indicated in this table.

Table No.33 dealing with Annual Survey of Industries, gives industrywise number of registered factories, productive capital, employment, gross out-put and value added for the year 1966.

Table No.34 on employment exchange gives monthwise number of registration, vacancies notified and number of live register during the year 1975-76 at Parbhani Employment Exchange.

In table No.35 total registration and placement in employment during 1975-76 at Parbhani Employment Exchange are presented according to national classification of occupation.

Table No.36 shows the No. of works undertaken under Employment Guarantee scheme, employment guaranteed and expenditure incurred during the financial year 1975-76.

Table No.37 deals with employment under important categories of industries as on 31st March 1976.

VII. Electricity:- Table No.38 indicates the consumption of electrical energy for different categories in Parbhani district during the year 1975-76 and table No.39 indicates the data regarding electrification of towns and villages in the district

by Maharashtra State Electricity Board as at the end of March 1961, 1966, 1970, 1973, 1974, 1975 and 1976.

VIII. Co-Operation:- Table Nos. 40 to 47 pertain to co-operative statistics. The first table in the above groups is an abstract showing number of different societies functioning in the district during 1975-76. The table dealing with statistics of cooperative banks indicates number of branches, members and financial position of District Central Co-Operative, Bank, District Industrial Co-Operative Bank, Maharashtra State Land Development Bank and Urban Banks for the year 1975-76.

The table dealing with primary agricultural societies gives talukawise number of such societies and their memberships and their financial position during the year 1975-76. Operations of co-operative societies other than primary agricultural credit and banks are shown in table No. 43.

Table No. 44 relates to cooperative marketing societies which gives talukawise number of these societies and their memberships, value of purchase and value of sales both as owner and as agents.

Table dealing with operations of other co-operative societies gives societywise achievements under important items during the year 1975-76. The data regarding annual turn over of the regulated agricultural produce markets in Parbhani district is compiled in table No. 46 which shows the data regarding arrival and value of the agricultural produce brought at the above markets during 1975-76. The last table on co-operation shows number of registered money lenders and loans advanced by them during 1975-76 in each taluka of Parbhani district.

IX. Medical and Public Health :- Statistics relating to medical facilities available in the district, number of births and deaths and infant mortality, deaths due to important causes, vaccinations and cholera inoculations and family planning are presented in table Nos. 48 to 52.

X. Education:- Table Nos.53 to 59 deal with literacy and extension of educational activities in Parbhani district.

Table No.53 deals with literacy in Parbhani district according to 1971 Census. Table No.54 to 55 deal with education in rural and urban areas as per 1961 Census.

Table No.56 indicates the number of different educational institutions, sexwise number of students separately and number of teachers in each category of the institutions in Parbhani district for the years 1974-75 and 1975-76.

Table on backward class beneficiaries indicates number of candidates belonging to scheduled castes, scheduled tribes and other backward class according to various educational levels during the year 1974-75.

Table No.58 deals with concessions to economically backward classes at various levels of education. The last table on education indicates normal and plan expenditure on primary education incurred by different local bodies during the years 1974-75 and 1975-76.

XI. Transport and Communications:- Table Nos.60 to 66 deal with railway length, road length, motor vehicles in operation, statistics on nationalised road transport, traffic census data, postal statistics and rural broadcasting statistics.

Table on road length indicates length of roads according to classification of roads such as national highways, state highways major district roads, other district roads, village roads etc. Simultaneously, length of roads is also shown as classified according to type of surface. The length of roads under the administrative control of public works department and Zilla Parishad is shown separately.

Table on motor vehicle statistics presents number of all types of motor vehicles operating in Aurangabad division as on 31st March 1976. The figures for the district are not available separately.

---

Table No. 63 indicates number of routes, route distance, number of passengers travelled per day and total traffic receipts during the year 1975-76 of Maharashtra State Road Transport Corporation for Parbhani Division. Table on traffic census gives number of vehicles per day according to categories enumerated on important roads as on 31st December 1974 alongwith location of count-post. Type of surface and total traffic intensity in tons per 24 hours are also given in the table. Another table in the group provides, postal statistics for the year 1961-62, 1965-66, 1970-71, 1971-72, 1972-73, 1973-74, 1974-75 & 1975-76.

The data relating to rural broadcasting services in Parbhani district as on 31st March 1976 are displayed in table No. 66

XII. Local Bodies :- The data pertaining to finances, i.e. income and expenditure of local bodies such as Zilla Parishad, Village Panchayats and Municipal Councils is indicated in the table Nos. 67 to 70.

Table No. 67 shows income and expenditure of the above mentioned three types of local bodies for the years 1965-66, 1968-69, 1969-70, 1970-71, 1971-72, 1972-73, 1973-74, 1974-75 & 1975-76.

Village Panchayats:- Table No. 68 indicates talukawise income and expenditure of village Panchayats according to sources of income and items of expenditure during the year 1975-76.

Zilla Parishad:- Table Nos. 69, A, 69-B and 69-C deal with the data relating to income and expenditure of Zilla Parishad, Parbhani. In these tables figures for three years viz. 1974-75 (actual 1975-76 (revised) and 1976-77 (estimates) are shown according to heads of account.

Municipal Councils:- Data on income and expenditure pertaining to Municipal Councils are furnished in table No. 70.

XIII. Plan and Community Development:- Table Nos. 71 and 72 deal with the plan expenditure and physical achievements of 4th Five Year Plan and during 1974-75 and 1975-76. Table No. 73

figures of expenditure incurred on plan schemes implemented in the Fourth Five Year Plan and Annual Plan 1974-75 & 1975-76. Table Nos. 73,74 and 75 deal with community development programme expenditure and physical achievements in C.D.blocks in Parbhani district as at the end of March 1976.

Table on C.D. programme indicates number of blocks as per C.P.A.Pattern, area, number of villages and population covered by various types of blocks by the end of 31st March 1976.

XIV Prices:- Table Nos.76,77 and 78 deal with average wholesale and retail prices and consumer price indices for working class in Aurangabad and Nanded centres.

Table on wholesale prices gives commoditywise wholesale prices of selected agricultural commodities at the regulated market centres in Parbhani district for the year 1975.

Table No.78 in consumers price index gives monthly indices for working class in Aurangabad and Nanded centres for the year 1975-76 alongwith averages for the preceding year.

XV. Judiciary and Administration:- Table Nos. 79 to 81 deal with police force and crime statistics and data on work disposed off in civil and criminal courts.

XVI Miscellaneous:- Last eight tables from Nos.82 to 90 deal with statistics relating to cinemas, banking, scheduled banks and deposits therein, joint stock companies, insurance, small savings, land revenue collections, presses, journals and trends in selected indicators.

CHAPTER NO. III

Indicator No.1

Percentage of gross cropped area to net area sown

1.1 The percentage of gross cropped area to net area sown indicates the area under double cropping. In Parbhani district the percentage of gross cropped area to net area sown increased from 104.2 in 1960-61 to 108.7 in the year 1965-66 and to 110.5 in 1974-75. The table below shows the percentage of gross cropped area to net area sown in each taluka of Parbhani district during 1960-61, 1965-66 and 1974-75.

TABLE No. III-1

Table showing the percentage of gross cropped area to net area sown in each taluka of Parbhani district

Sr. NO.	Taluka	percentage of gross cropped area to net area sown			Increase(+) or decrease(-) over 1960-61 and 1974-75	
		1960-61	1965-66	1974-75	1965-66	1974-75
1	2	3	4	5	6	7
1.	Parbhani	100.0	114.1	117.0	+ 14.1	+ 2.9
2.	Jintur	107.6	107.4	110.9	- 0.2	+ 3.5
3.	Hingoli	104.5	102.2	106.6	- 2.3	+ 4.4
4.	Kalamnuri	102.1	104.1	111.2	+ 2.0	+ 7.1
5.	Basmath	100.8	107.0	105.7	+ 6.2	- 1.3
6.	Gangakhed	107.0	109.0	109.8	+ 2.0	+ 0.8
7.	Pathri	106.0	109.6	116.1	+ 4.6	+ 6.5
8.	Parthur	106.4	114.4	105.7	+ 8.0	- 8.7
District Total		104.2	108.7	110.5	+ 4.5	+ 1.8

1.2 It will be seen from the above table that gross cropped area has increased in the talukas of Parbhani, Jintur, Hingoli, Kalamnuri, Gangakhed and Pathri indicating the

increase of 2.9%, 3.5%, 4.4%, 7.1%, 0.8% and 6.5% respectively during the year 1974-75. Whereas during the same period the gross cropped area decreased in Basmath and Parthuraluka indicating the decrease of 1.3% and 8.7% respectively.

INDICATOR No.2

Productivity of important crops

2.1 The productivity of the crops mainly depends upon the agro-climatic condition and also on the irrigation facilities. The following table shows the yield per hectare and out-turn of important crops in Parbhani district during the year 1961-62, 1965-66 and 1974-75.

TABLE No. III-2  
Table showing the yield per hectare and out-turn of important crops in Parbhani district.

Sr. No.	C r o p s	Yield per hectare (in Kg.)			Out-turn in '000' Metric Tonnes		
		1961-62	1965-66	1974-75	1961-62	65-66	74-75
1	2	3	4	5	6	7	8
1.	Rice	492	335	465	8	5	6
2.	Wheat	541	203	709	35	11	40
3.	Jowar	437	426	512	159	146	185
4.	Bajra	254	-	260	1	-	6
5.	Total Cereals	452	391	522	203	163	237
6.	Gram	337	249	200	13	7	6
7.	Tur	336	451	608	13	20	24
8.	Total Pulses	257	297	337	46	56	64
9.	Sugar-cane (in terms of gur)	3,822	6,800	7,474	12	16	14
10.	Cotton (In bales of 180Kg. each)	35	72	139	46	105	168
11.	Groundnut	673	449	592	26	12	9

2.2: From the above table it is seen that under Cereals the yield per hectare of Rice, Wheat, Jowar and Bajra has considerably increased when compared to the year 1965-66. Similarly, the yield per hectare of Tur under pulses and Sugarcane and Cotton have also increased significantly. The above increases in the productivity of the crops especially those of Rice, Wheat, Sugarcane and Cotton are mainly due to the increased irrigation facilities and applicability of fertilizers in the district.

2.3 During the year 1974-75 the out-turn of all important crops except Bajra and Gram have increased when compared to the year 1965-66.

### INDICATOR No. 3

#### GROSS VALUE OF AGRICULTURAL PRODUCTION

3.1 Agriculture is the main source of livelihood of the people and the gross value of the agricultural production of the district indicates the share of the agriculture in the district income.

3.2 In Parbhani district the gross value of agricultural production increased from Rs.2,026.69 lakhs in 1961-62 to Rs.2,068.74 lakhs in 1965-66 and to Rs.14,086.20 lakhs in 1974-75. This denoted an increase of Rs. 2.07% in 1965-66 over the year 1961-62 and of 580.9% increase in 1974-75 over the year 1965-66.

3.3 The significant increase in the gross value of production during 1974-75 is partly due to increase in the production of various commodities under pulses and oil-seeds and partly due to increase in their prices.

INDICATOR No. 4

PERCENTAGE OF IRRIGATED AREA

- 4.1 The percentage of irrigated area to net area sown indicates the ratio of irrigated area to net area sown. Similarly, the percentage of gross irrigated area to net area irrigated shows the area under double irrigation.
- 4.2 The percentage of net irrigated area to net area sown increased from 1.54% in 1965-66 to 3.62% in 1974-75. Thus the net area irrigated increased by 2.08% in 1974-75 over the year 1965-66.
- 4.3 In the year 1974-75 the area irrigated for more than once was 'Nil' while during 1965-66 that was 10 hectares. This was perhaps, due to shortage of water resources during 1974-75.

INDICATOR No. 5

CHANGES IN THE CROPPING PATTERN

- 5.1 The cropping pattern of the district depend upon the availability of irrigational facilities, agro-climatic conditions, methods of farming and soil types etc.
- 5.2 The table below shows the percentage of area under important food crops and non-food crops and also the percentage of irrigated area under food and non-food crops in Parbhani district during 1965-66 and 1974-75.

TABLE No. III-3

Table showing the percentage of area under Cereals, Pulses, total food crops, oilseeds and total nonfood crops to total gross cropped area in 1965-66 and 1974-75.

Table No. III-3

Sr. No.	I t e m s	% of area to gross cropped area		% increase (+) or decrease (-) over 1965-66
		1965-66	1974-75	
1	2	3	4	5
1.	Cereals	42.9	37.7	(-) 5.2
2.	Pulses	19.2	23.5	(+) 4.3
3.	Total food crops	63.5	62.5	(-) 1.0
4.	Fibres	28.0	23.1	(-) 4.9
5.	Oil seeds	8.5	14.4	(+) 5.9
6.	Total non food crops	36.5	37.5	(+) 1.0
7.	Percentage of irrigated area under food crops to total irrigated area	95.3	91.2	(-) 4.1
8.	Percentage of irrigated area under non food crops to total irrigated area	4.7	8.8	(+) 4.1

5.3 From the above table it will be seen that during the year 1974-75 the area under food crops decreased to 62.5% from 63.5% in 1965-66 indicating the decrease of 1.0%. But the area under nonfood crops increased by 1.0% in the year 1974-75. Thus from the above figure it is clear that the non-food crops are increasing gradually than the food crops in Parbhani district.

5.4 The percentage of irrigated area under food crops to total irrigated area during 1974-75 was 91.2% whereas this percentage during 1965-66 was 95.3% indicating a decrease of 4.1% over the same period. The percentage of irrigated area under non-food crops to the total irrigated area increased to 8.8% in 1974-75 from 4.7% in 1965-66 denoting an increase of 4.1%. Thus it is seen that in Parbhani district the use of irrigation facilities are being made increasingly for <sup>growing</sup> non food crops.

INDICATOR NO 6

Increase in agricultural credit, outstanding dues and gross value of agricultural production.

6.1 Agricultural credit plays an important role in boosting the production. The credit requirements in Parbhani district are mainly met by the District Central Co-operative Bank, Land Development Bank and Primary Agricultural Credit Societies.

6.2 The total amount of loans advanced by the above agencies increased to Rs.1,320.17 lakhs in 1975-76 from Rs.440.90 lakhs in the year 1965-66 indicating an increase of 199.4%. The table below shows the amount of agricultural credit advanced by the various agencies and the gross value of agricultural production in Parbhani district.

TABLE NO. III-4

Table showing agricultural credit, outstanding dues, gross value of agricultural production for the year 1961-62, 1965-66 and 1975-76.

Sr. No.	I t e m s	Rs. in lakhs			% increase (+) or decrease (-) over 1965-66
		1961-62	1965-66	1975-76	
1	2	3	4	5	6
1. Loans advanced by					
(a)	District Central Co-operative Bank.	144.81	197.02	684.39	+ 247.4
(b)	District Land Development Bank	12.55	33.95	91.93	+ 170.8
(c)	Primary Agricultural Credit Societies	140.61	209.93	543.85	+ 159.1
	Total (a + b + c)	297.97	440.90	1320.17	+ 199.4 212.3
2.	Outstanding dues	140.85	272.44	850.90	+ . . .
3.	Gross value of agricultural production *	2,026.69	2,068.74	14,086.20	+ 580.9

N.B:- \* The figure is for the year 1974-75 as the figure for the year 1975-76 is not available.

6.3 The loans advanced by the District Central Co-operative Bank, Parbhani increased from Rs.197.02 lakhs in 1965 to Rs.684.39 lakhs in the year 1975-76 showing an increase of 247.4%. The loans advanced by the Land Development Bank Parbhani also increased to Rs.91.93 in 1975-76 from Rs.33.95 lakhs in the year 1965-66 indicating an increase of 170.8%. Similarly, the loans advanced by primary agricultural credit societies increased to Rs.543.85 lakhs in 1975-76 from Rs.209.93 lakhs in the year 1965-66 indicating an increase of 159.1%.

6.4 The amount of outstanding dues in the year 1975-76 also increased to Rs.850.90 lakhs from Rs.272.44 lakhs in 1965-66, showing an increase of 21.3%.

6.5 The figure of gross value of agricultural production for the year 1975-76 is not available, hence the figure for the year 1974-75 has been reported in table No.III-4. The gross value of agricultural production also increased to Rs.14,086.20 lakhs in 1974-75 from Rs.2,068.74 lakhs in 1965-66 denoting an increase of 580.9%.

INDICATOR NO.7  
AGRICULTURE WAGE RATES.

7.1 The average wage rates for various categories of labourers are collected from three selected centres in the district during the years 1974 and 1975. The category-wise and centre wise average wage rates are shown in the following table.

TABLE No. III-5

Average Wage rates of various categories of agricultural labourers during the year 1974 and 1975

Sr. No.	Category of labourers	Name of the centre	Average wage rates (in Rs.)	
			1974	1975
1	2	3	4	5
1.	Carpenter (Skilled)	Palam	5.00	5.00
		Kanhergaon	5.00	5.00
		Naka		
		Mantha	3.00	3.00
2.	Blacksmith (Skilled)	Palam	3.00	3.00
		Kanhergaon	5.00	5.00
		Naka		
		Mantha	3.00	3.00
3.	Cobbler (Skilled)	Palam	2.00	2.00
		K, Naka	4.50	4.29
		Mantha	2.08	2.42
4.	Field labour (Male)	Palam	3.00	3.00
		K, Naka	2.67	2.40
		Mantha	2.54	2.71
5.	Other Agricultural Labourers (Male)	Palam	--	3.00
		K, Naka	2.67	2.38
		Mantha	--	--
6.	Herdsman	Palam	--	--
		K, Naka	1.50	1.92
		Mantha	2.08	2.42

7.2 From the above table it would be seen that under the category of skilled labour the wage rates paid to the carpenter and blacksmith during 1975 remained unchanged when compared to the year 1974. But during the year 1975 the wage rates paid to the cobbler at Kanhergaon naka centres decreased slightly when compared to the year 1974. But at Mantha centre the same was found to be increased slightly.

7.3 under the category of unskilled labourers the wage rates paid to the field labour (Male) at Kanergaon Naka slightly decreased and at Mantha Centre the same was found to have been increased to some extent. Similarly, the wage rates in respect of other agricultural labours decreased at Kanergaon Naka centre during the same period. The wage rates paid to the herdsmen during the year 1975 increased when compared to the year 1974 at Kan hergaon Naka and Mantha centres.

INDICATOR NO. '8'

Bovine and ovine population compared to cultivable area

8.1 The livestock is the big source of power for the agriculturists. Hence the comparison of the livestock population (bovine and ovine) with cultivable area in the district indicates the ratio of availability of livestock population per hectare of cultivable area. The table below indicates the taluka ratio of livestock population, with the cultivable area in Parbhani district.

TABLE NO. III-6

Livestock population compared to cultivable area.

Sr. No.	Name of the taluka	Livestock of bovine and ovine population per hectare of cultivable area.		
		1961-62	1965-66	1974-75
1	2	3	4	5
1.	Parbhani	0.82	0.69	0.66
2.	Jinjur	0.82	0.80	0.71
3.	Hingoli	0.74	0.80	0.87
4.	Kalamnuri	0.81	0.79	0.89 0.84
5.	Basmath	0.83	0.77	
6.	Gangakhed	0.86	0.71	0.89
7.	Paabri	0.68	0.60	0.59
8.	Paratur	0.69	0.63	0.62
	<b>District Total</b>	<b>0.78</b>	<b>0.72</b>	<b>0.76</b>

8.2 From the above table it will be seen that the ratio of bovine and ovine population per hectare of cultivable area for the district was 0.76 in the year 1974-75 and 0.72 in the year 1965-66. Thus there was a slight increase (0.04%) in the ratio of livestock population in the year 1974-75 over the year 1965-66.

Indicator No.9

Poultry compared to population

9.1 Comparison of poultry with human population indicates the ratio of poultry to population. The table below indicates poultry per thousand persons in Parbhani district during the years 1966 and 1972.

Table No. III

Table showing poultry per 1000 persons during 1966 & 1972 Livestock Censuses in Parbhani district.

Sr. No.	Taluka	Poultry per thousand persons	
		1966	1972
1	2	3	4
1.	Parbhani	111	80
2.	Jintur	93	132
3.	Hingoli	95	95
4.	Kalamnuri	143	130
5.	Basmath	58	58
6.	Gangakhed	112	132
7.	Pathri	86	88
8.	Parthur	76	110
District Total		98	105

9.2 From the above table it is seen that the ratio of poultry per thousand persons in the district as a whole has

increased from 98 in the year 1966 to 105 in the year 1972. But while comparing the talukawise position in the district it is also seen that during the year 1972 the highest ratio was found in the talukas of Jinjur and Gangakhed and lowest in Parbhani taluka. Whereas in the year 1966 the highest ratio of poultry was found in Kalamnuri taluka and lowest in Basmath taluka.

Indicator No.10

Per capita consumption of electricity

10.1 The per capita consumption of electricity indicates the general level of economic growth in the district. The total number of villages electrified in the district increased to 645 during the year 1975-76 as against 'NIL' in the year 1960-61. The per capita consumption of electricity also increased to 20.7 KWH. in the year 1975-76 as against 0.29 KWH. in 1960-61.

10.2: In the year 1975-76 the electrical consumption for industrial and agricultural purposes was 23.2% and 44.7% respectively as against 21.7% and 40.2% in the year 1974-75.

Indicator No.11

Increase in the number of candidates in the Employment Exchange and vacancies notified

11.1 In the year 1975-76 the number of candidates enrolled at the Employment Exchange increased to 7,124 from 2,015 in the year 1960-61 showing an increase of 253.5% in the number of candidates enrolled in the year 1975-76.

11.2 The total number of vacancies notified to the Employment Exchange also increased to 948 in 1975-76 from 335 in the year 1960-61 indicating an increase of 183% in Parbhani district.

INDICATOR NO.12

Increase in the number of indoor and outdoor patients treated in the hospital/ dispensaries etc.

- 12.1 The total No. of patients treated (including outdoor and indoor) indicates the number of people availing medical facilities from different medical institutions.
- 12.2 The total number of indoor patients treated in Parbhani district increased from 4,457 in 1961 to 5,453 in the year 1966 and to 14,938 in the year 1975, indicating an increase of 22.3% in 1966 over 1961 and 173.9% in 1975 over 1966. So also the number of outdoor patients treated in the district increased from 3,80,656 in 1961 to 6,51,813 in 1966 and to 8,16,000 in the year 1975 showing an increase of 71.2% in 1966 over 1961, and 25.2% in 1975 over 1966.
- 12.3 During the year 1975 the highest number of indoor patients i.e. 71.9% was treated in Parbhani taluka. This was because the District Hospital is located in Parbhani town. Whereas the lowest number of indoor patients that is 2.3% was treated in Partur taluka.
- 12.4 Similarly, in the year 1975 the number of outdoor patients treated was also high (39.3%) in Parbhani taluka. Whereas the lowest number of outdoor patients (6.5%) was treated in Kalamnuri taluka in the same year.

INDICATOR NO. 13.

Increase in the number of students in different categories.

- 13.1 The total number of students in all the categories of educational institution increased from 89,055 in 1961-62 to 1,50,113 in 1965-66 and to 2,00,752 in 1975-76. This showed an increase of 68.6% in 1965-66 over 1961-62 and 33.7% in 1975-76 over the year 1965-66.
-

The following table shows the sex-wise number of students in different categories during 1961-62, 1965-66 and 1975-76.

TABLE No. III-8

Table showing the sex-wise number of students in different categories during the year 1961-62, 1965-66 and 1975-76 in Parbhani district.

Sr. No.	Category	1961-62	1965-66	1975-76	% increase (+) or decrease (-) over 1965-66
1	2	3	4	5	6
<u>1. Pre-Primary School</u>					
a)	Boys	-	107	179	(+) 67.3
b)	Girls	-	114	143	(+) 25.4
c)	Total	-	221	322	(+) 45.7
<u>2. Primary</u>					
a)	Boys	54,761	75,758	96,277	(+) 27.1
b)	Girls	16,895	34,396	49,744	(+) 44.6
c)	Total	71,656	1,10,153	1,46,021	(+) 32.6
<u>3. Secondary</u>					
a)	Boys	13,850	31,377	38,194	(+) 21.7
b)	Girls	2,684	7,045	10,523	(+) 49.4
c)	Total	16,534	38,422	48,717	(+) 26.8
<u>4. Colleges</u>					
a)	Boys	293	795	5,177	(+) 551.2
b)	Girls	23	31	515	(+) 1,561.3
c)	Total	316	826	5,692	(+) 589.1
<u>5. Special</u>					
a)	Boys	475	419	-	-
b)	Girls	74	72	-	-
c)	Total	549	491	-	-

13.2 From the above table it would be seen that the number of students in pre-primary schools increased to 322 in the year 1975-76 from 221 in the year 1965-66 denoting an increase of 45.7%. Under the category of primary schools the total number of students increased to 1,46,021 in 1975-76 from 1,10,153 in 1965-66 showing the percentage increase of 32.6%.

13.3 In the secondary schools the total number of students also increased to 48,717 in 1975-76 from 38,422 in 1965-66 showing an increase of 26.8%. Similarly, the strength of college going students went upto 5,692 in 1975-76 from 826 in 1965-66 indicating an increase of 589.1% .

INDICATOR NO. 14

Increase in Road length per 100 Square Kilometre.

14.1 The total road length in Parbhani district increased from 45.34 Kilometre in 1961 to 98.19 kilometre in 1966 and 3,867.45 kilometre in 1976. Thus the road length per 100 square kilometre of geographical area increased from 3.72 kilometre in 1961 to 7.85 kilometre in 1966 and 30.96 kilometre in 1976. This indicate the percentage increase in road length by 110.9% in 1966 over 1961 and 294.1% in 1976 over 1966.

14.2 The increase in road length during the period from 1966 to 1976 was significant because during scarcity period the number of road works were undertaken and were completed.

-----

INDICATOR No. 15

Increase in banking facilities in proportion to population

15.1 The total number of banking offices functioning in the district and the population served by them shows the average population covered by banking offices in the district.

15.2 The total number of banking offices in Parbhani district increased from 14 in the year 1962 to 28 in 1966 and to 68 in the year 1975. This indicated an increase of 100% in 1966 over 1962, and 143% in 1975 over the year 1966. The average population covered by each banking offices was 86,159 in 1962 and 43,079 in 1966 and 22,158 in 1975.

15.3 Out of the total of 68 banking offices in the district 39 are the co-operative banks and remaining are the schedule banks. The majority of the co-operative banks are located in rural areas of the district and thus serves the rural population by financing the agriculture credits to the farmers and stimulating savings.

INDICATOR No. 16

Prices

16.1 Retail prices of various commodities are collected at District headquarters since 1963. Price relatives for 47 commodities for the year 1966 and 1975 have been worked out taking 1963 as the base year. In the following table the price relatives for different commodities are presented.

TABLE NO. III-9  
Table showing the price relatives for the year 1975-in  
Parbhani District

Sr No	Commodity	Unit	Price relatives for 1966 (base year 1963)	Price relatives for 1975 (Base year 1963)

16.2 The above table indicates that the prices of all the commodities under cereals and pulses have registered an increase during the year 1975 as compared to the year 1966. Similarly, the prices of all other commodities of general consumption have increased when compared to the year 1966.

\*\*\*\*\*

CHAPTER NO. IVP L A N N I N G

The Annual Plan 1975-76 was the second year of the Fifth Five Year Plan. After adopting district as a unit of planning by the Government, the Annual Plan 1975-76 like the previous year's Annual Plan was formulated by the District Planning & Development Council of Parbhani district. Thus, while formulating the Annual Plan, the District Planning & Development Council, had considered all the problems pertaining to the developments of this district. But overall size of the plan had to be determined on the basis of the financial ceiling fixed by the Government.

At the close of the Fourth Plan period a total expenditure of Rs.1,259.768 lakhs was incurred in the district. Out of which an expenditure of Rs.570.856 lakhs was incurred on "Agricultural Programme" Rs.38.698 lakhs on co-operation & community development, Rs.217.700 lakhs on irrigation and power, Rs.3.040 Lakh on industries & mining, Rs.76.351 lakhs on transport & communications, Rs.339.863 lakhs on social services, and Rs.13.260 lakhs on miscellaneous head including Employment Guarantee Scheme. Thus it would be seen from the above expenditures that the highest expenditure was incurred over the development head "Agricultural Programme". Again under the above head more emphasize was laid on the sub-head "Minor irrigation" and Rs.235.867 lakhs was spent.

From the above expenditures, it would further be seen that the expenditure over the head of the development of "Industries & Mining" was quite insignificant. This was because, Parbhani district predominantly depends upon agriculture, as far as its resources are concerned. The natural resources for the development of the industries in the district are extremely limited. However, during the Fifth Five Year Plan an attempt is being made to tap the existing natural resources and establish agro-based industries, like sugar factories and spinning mills etc.

Head wise expenditure:

As stated earlier the Annual Plan 1975-76 was the second year of the Fifth Five Year Plan and the total expenditure incurred on various heads of development i.e. agricultural programme, co-operation & community development, irrigation & power, industries & mining, transport & communication, social services, and miscellaneous was Rs. 377.707 lakhs. The table below shows the total expenditure incurred on the above mentioned heads of development, during the year 1975-76.

TABLE NO. IV-1

Table showing total expenditure on different heads of development during the year 1975-76

Sr. No.	Head of Development	(Rs. in lakhs)		
		Expenditure incurred on schemes under the		
1.	2.	State Sector	Local Sector.	Total
		3.	4.	5.
1.	Agricultural Programme	85.637	24.870	110.507 (29.26)
2.	Co-operation & Community development	26.779	6.703	33.482 ( 8.86)
3.	Irrigation & Power	72.220	72	72.220 (19.12)
4.	Industries & Mining	0.763	--	0.763 ( 0.20)
5.	Transport & Communications	5.060	13.637	18.697 (4.95)
6.	Social Services	84.257	20.617	104.874 (27.77)
7.	Miscellaneous	37.164	--	37.164 (9.84)
T o t a l :-		311.880	65.827	377.707 (100.00)

From the above table it would be seen that the highest priority was given to the agricultural programme and about 29.3% of the total expenditure incurred on the same. Next to the agricultural programme, the second highest priority was given to the schemes falling under the head of social services and about 27.8% of the total expenditure was incurred. Next to these in order of percentages of expenditure, were the heads of development of irrigation & power (19.12%) miscellaneous (9.84%), Co-operation & community development (8.86%) transport & communications (4.95%) and lastly industries & Mining (0.20%).

From the above figures, it is evident that more emphasis was laid on the schemes falling under agricultural programme and irrigation & Power so that, the important objectives of the plan i.e. increasing agricultural production and creating employment potential would be achieved.

#### AGRICULTURAL PROGRAMME

Under the development head of agricultural programme, the total expenditure of Rs.110.507 lakhs was incurred on various sub-heads of development of agricultural programme.

The table below shows the sub-headwise expenditure incurred during the year 1975-76.

Table No. IV-2

Table showing the sub-headwise expenditure under the agricultural programme during the year 1975-76.

Sr. No.	Sub-head of development	Expenditure incurred on schemes under the		
		State Sector.	Local sector.	Total.
1.	2.	3.	4.	5.
1.	Agriculture production	1.005	4.820	5.825 (5.27)
2.	Minor irrigation	25.199	20.000	45.199 (40.90)
3.	Soil conservation	29.895	--	29.895 (27.05)
4.	Ayacut Development	26.482	--	26.482 (23.96)
5.	Animal Husbandry	--	0.050	0.050

1	2	3	4	5
7. Forests		0.140	--	0.140 (0.13)
8. Fisheries		0.618	--	0.618 (0.56)
9. Warehousing & Marketing		0.440	--	0.440 (0.40)
T O T A L : -		85.638	24.870	110.507 (100.00)

From the above table it would be seen that the highest expenditure (40.90%) was incurred on minor irrigation. Next to this were the sub-heads of soil conservation(27.05%), ayacut development(23.96%) agriculture production (5.27%), dairy development(1.68%), fisheries (0.56%), warehousing and marketing(0.40%), forests(0.13%) and animal husbandry (0.04%). Most of the expenditure under the above mentioned schemes was incurred by the State Sector agencies.

Important Physical achievements under various sub-heads of agricultural programme

- 1) Agriculture Production:- The schemes falling under this sub-head, and area of 10,500 hectares was covered under midge fly control scheme. Secondly, under the integrated area development programme, improved seeds and fertilizers and insecticides were provided for 1926 hectares, besides 1108 sheep and goats were supplied to the farmers under the scheme.
- 2) Minor irrigation:- Under this sub-head irrigation potential of 1850 hectares was created both under State and local Sector scheme.
- 3) Soil Conservation:- Under soil conservation programme during the year 1975-76 an area of 14,397 hectares was bunded besides an area of 37,480 hectares of land was rectified and an area of 1303 hectares was covered under nala training programme.
- 4) Ayacut Development:- Under the scheme of ayacut development the programme was mainly concentrated in the command area of Purna

Project and 3665 standard development units were created during the year 1975-76.

5) Animal Husbandry:- During the year 1975-76 expenditure was incurred on providing services to 5 artificial insemination sub-centres.

6) Dairy Development:- During the year under reference management subsidy was provided to 4 co-operative dairy unions. Besides, an amount of Rs.1.81 lakhs was spent on establishment of chilling plant in the district under the town milk supply scheme.

~~7) Fisheries~~

7) Forest:- Under the schemes of forests about 20 hectares of land was covered for the development of minor forest produce during the year.

8) Fisheries:- Under this sub-head two significant schemes were implemented viz. fish farming in impounded water and assistance for fishery requisites. Physically 2.15 lakh kgs. of fish was netted and 153 kgs. of nylon twine was distributed to the fishermen.

9) Warehousing & Marketing:- During the year 1975-76 subsidy to 12 market committees, was provided. Besides loan was given to 2 market committees under the scheme of assistance to Agricultural produce Market Committees.

## II. CO-OPERATION AND COMMUNITY DEVELOPMENT

Under the sub-head co-operation, major expenditure was incurred on contributions of the Government share capital to the co-operative sugar factory. Besides under the scheme of development of co-operative marketing share capital was contributed to 1 society. Similarly, share capital contributions to 5 ginning & pressing factories were given during the year.

Under the sub-head community Development the expenditure was mainly incurred on continuation of C.D. Blocks in the district, besides about 156 different types of incomplete works were got completed. Moreover under the scheme of Gram Safai programme 315 latrine sets were provided to selected village Panchayats.

III. Irrigation & Power:- Under irrigation & Power, bulk of the expenditure was incurred on the earth works pertaining to Masoli Medium Irrigation Project and the work on this project was in progress.

Under power 20 villages were electrified and 602 electric pumps were installed under the rural electrification scheme and normal development works together.

IV. INDUSTRIES & MINING:-

Under the small scale industries, financial assistance was provided to 15 units under S.A.I rules. Moreover, rebate subsidy was provided to 2 handloom units under the scheme of development of handloom industries. Grant-in-aid to 8 Balutedar societies was also provided during the year.

V. Transport & Communications:

During the year 1975-76, new roads measuring about 39 kms. were constructed besides 12 C.D. works were completed in the district.

Similarly, under the Minimum Needs Programme of road development 3 km. of road was constructed.

VI. Social Services:

Under the head "social services" a total of Rs.104,874 lakhs were spent during the year 1975-76. The details of expenditure incurred on various sub-heads under social services are shown in the following table.

TABLE NO. IV-3

Table showing the sub-headwise expenditure under social services during 1975-76. (Rs. in lakhs).

Sr. No.	Sub-head of Development.	Expenditure incurred on scheme under		
		State Sector.	Local Sector.	Total.
1.	2.	3.	4.	5.
1.	General education	0.258	11.894	12.152 (11.58)
2.	Technical education	--	--	--
3.	Health	2.126	3.450	5.576 (5.32)
4.	Nutrition	--	0.211	0.211 (0.20)
5.	Water supply & drainage	62.900	2.463	65.363 (62.32)
6.	Urban development	5.960	--	5.960 (5.68)
7.	Housing	12.684	--	12.684 (12.10)
8.	Welfare of Backward classes	0.280	2.594	2.874 (2.74)
9.	Social Welfare	--	0.005	0.005 (0.01)
10.	Labour & Labour welfare	0.049	--	0.049 (0.05)
T O T A L :-		84.257	20.617	104.874 (100.00)

From the above figures, it would be seen that substantial expenditure was incurred under the sub-head of water supply & drainage indicating the percentage of 62.32%. Next to this, 12.10% was under housing, general education (11.58%), Urban development (5.68%), health (5.32%), welfare of backward classes (2.74%), nutrition (0.20%), labour & labour welfare (0.05%) and social welfare (0.01%). No expenditure could be incurred under technical education.

During the year 1975-76 a massive programme of construction of huts was taken up as a part of 20 point Economic programme in the district. The above huts were constructed for housing the agricultural landless labourers who had no houses of their own. This was a significant feature of the Annual plan 1975-76, as it pertained to the welfare of the weaker section of the community in the rural areas.

IMPORTANT PHYSICAL ACHIEVEMENTS

1. General education:- During the year 1975-76, under the programme of elementary teachers training about 108 teachers were trained.

Under the scheme of expansion of schools and colleges complexes 3 and 1 centres were opened respectively.

Under physical education programme the work of constructing one stadium was initiated during the year under discussion.

2. Public Health:- During the year under reference medicines were supplied to 14 primary health centres and 45 sub-centres in the district. A compound wall covering the entire area of the district Civil Hospital was completed during the year. Besides, minor construction works including electrification of certain primary health centres was also initiated.

3. Nutrition Programme:- Under this programme expenditure was incurred on continuation of one A.N.P. Block in taluka Jintur of this district.

4. Water supply and Drainage:- During the year under reference 5 schemes of rural piped water supply were completed. Moreover, with a view to augment water supplies to Parbhani town one water supply scheme was started and about 60% work was completed. Besides, water supply works in 5 municipal towns were in progress.

5. Urban Development:- 3 municipal councils were assisted by way of grant of loan in the district during the year.

6. Housing:- During the year 1975-76 about 4,000 huts were constructed and distributed to the landless agricultural labourers in rural areas. Besides, 19.30 hectares of land was acquired in 12 villages for house sites against the scheme of extension of village gaathan.

7. Welfare of Backward classes:- Tuition fees was granted to 431 students belonging to backward classes. Similarly, scholarship was also awarded to 60 students studying in high schools and belonging

to backward classes. In addition to this, post S.S.C. Scholarship was granted to 160 students belonging to N.Ts/V.Js/STs outside the specified area.

Loan subsidy was also granted to backward class persons for starting cottage industries. 4 persons were granted financial assistance under the scheme of industrial co-operatives of backward classes. One Ashram school complex was also taken up during this year.

8. Social Welfare:- No specific achievement was made under this sub-head and only Rs.500/- were spent as an aid to the destitute children.

9. Labour & Labour welfare:- An amount of Rs.0.049 lakhs was mainly spent on purchase of equipments in Industrial Training Institute.

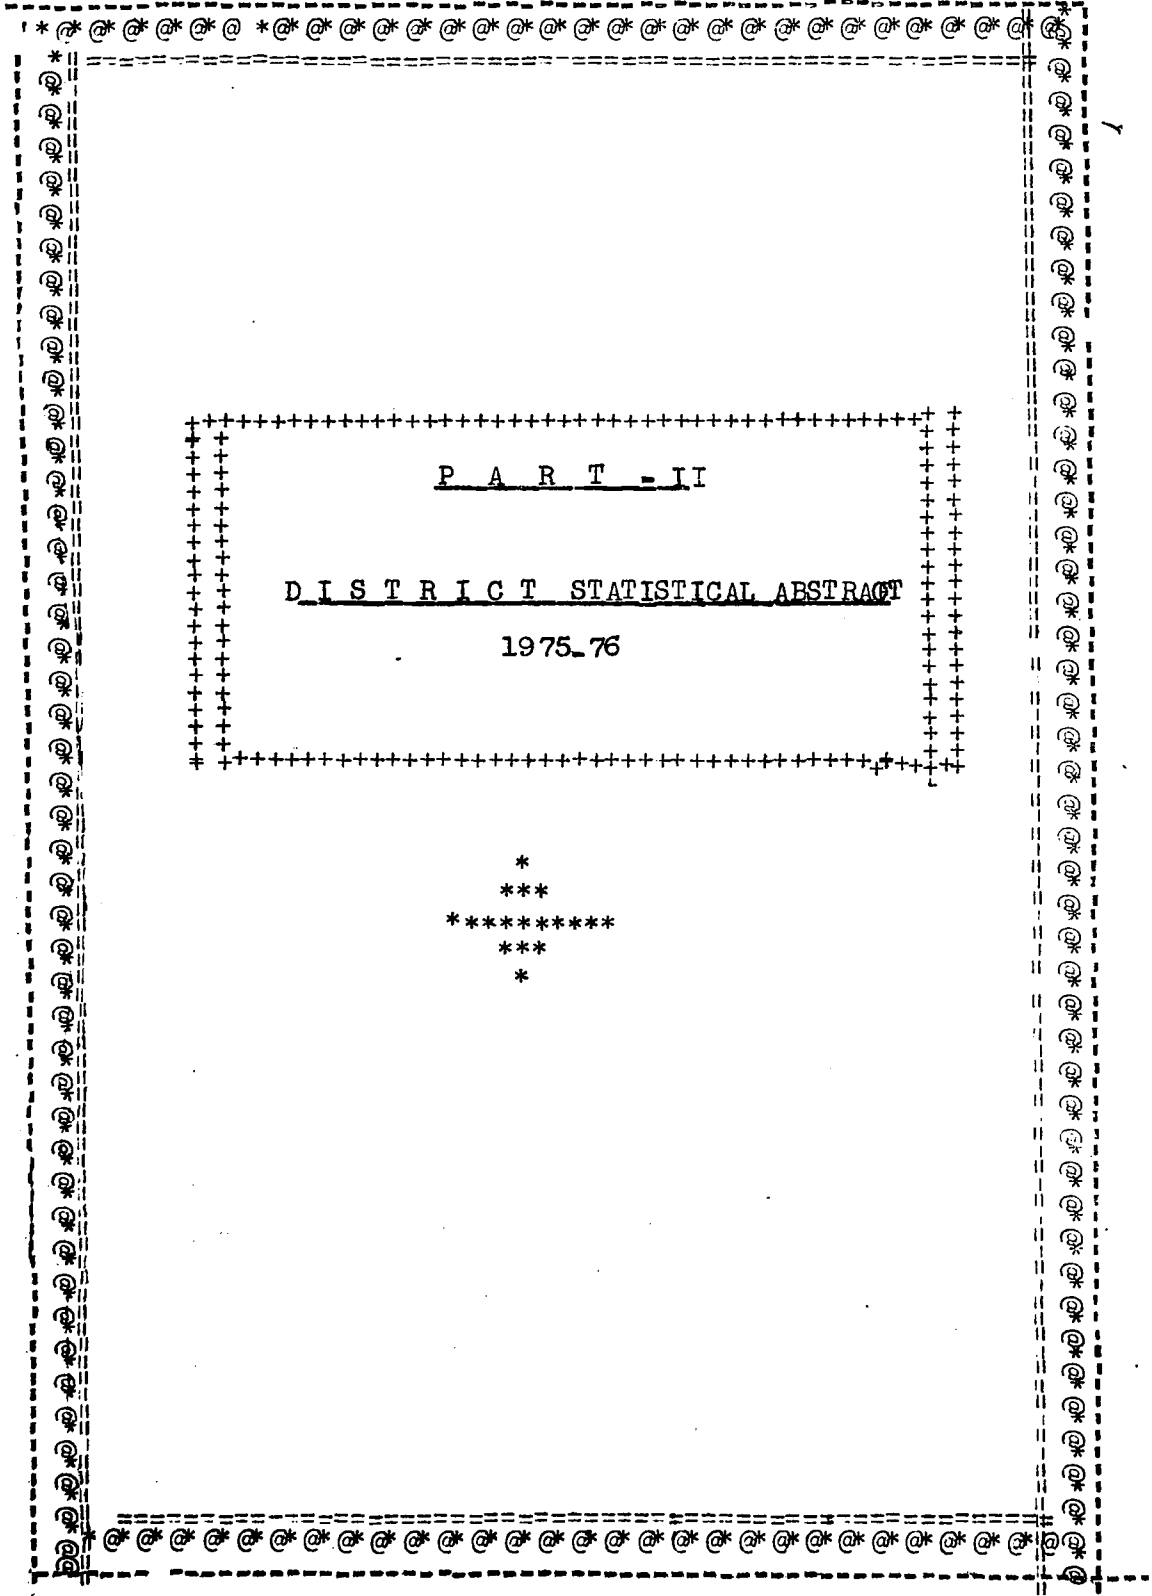

Employment Guarantee Scheme:-

Employment Guarantee scheme was included in the Annual Plan as an important programme of the Govt. The main objectives of the scheme was to provide employment to the persons demanding ~~work~~ employment. Thus, under this scheme the employment was guaranteed by the Govt. to the persons who asked for the manual work.

Only productive works were allowed to be undertaken under this scheme and a provision of Rs.50.00 lakhs was made in the district Annual Plan 1975-76. As against this about Rs.37.03 lakhs were spent on 171 works taken up in the various talukas of the district, creating 5,47,918 mandays of employment potential. Over and above this heavy expenditure was incurred on construction of canal works under Jaikwadi Irrigation Project.

It is expected that the canal works would be completed and water for irrigation would be made available in the district in the near future.
