1	I	Introduction	1
2	II	Explanatory notes	10
3	III	Important Indicators	25
4	IV	Annual Plan 1975 -76	44

1.1 Location

Buldana district has been named after Buldana town which is the district head quarter since the year 1867. It is situated partly in Tapi basin and partly in the Godawari basin. The northern half of the district, broadly called 'Payanghat' is drained by the Purna river which is a tributary of the Tapi. The southern half known as the 'Balaghat' is drained by the Penganga and the Katepurna rivers which are tributaries of the Godawari.

1.2 Boundaries

The district lies between 19°51' and 21°17' North latitudes and 75°57' and 76°49' East longitudes. It is bounded on the north by the Nimar district of Madhya Pradesh, on the east by Akola district, on the south by Parabhani district, on the west by Aurangabad and Jalgaon district and on the north east by Amravati district. The district covers an area of 9,745 square kilometers.

1.3 Area

The area, number of villages, population etc. according to 1971 census covered by each tahsil of the district is given in the following table.

Sr. No.	Tahsil	Area in Sq.Kms	No. of villages including deserted villages	No. of Towns	Population according to census 1971
1	2	3	4	5	6
1.	Chikhali	2393.1	292	3	3,25,860
2.	Malkapur	1686.1	232	2	2,68,235
3.	Jalgaon	1227.7	232	1	1,39,829
4.	Khamron	1338.9	237	2	2,38,160
5.	Mokkar	2608.1	354	1	2,90,894
District		9745.0	1397	9	12,62,978

Note:- The tahsilwise area figures do not add up to the district total as the figures for district are taken from survey of India and total area tahsilwise is worked out by adding rural area and urban areas as communicated by Municipal Councils.

Out of a total population of 12,62,978 for the district in 1971, 10,41,170 persons or 82.4 percent and 2,21,808 persons or 17.6 percent reside in rural and urban areas respectively. The area of the district is 9745 sq. kms. as per the 1971 census which accounted for 9.98 percent and 3.18 percent of the total area of Nagpur Division and Maharashtra respectively in 1971.

1.4 Topography

Out of the five tahsils now forming the district the tahsils of Chikhali and Mehkar lie on the Balaghat plateau, while rest of three tahsils of Malkapur, Khamgaon and Jalgaon are in the great plain below known as the Payanghat. These are the two natural sub-divisions, which correspond closely to the administrative sub-divisions of the district. The edge of the plateau where it falls abruptly into the valley is intercepted by numerous deep ravines.

The landscape is of varied character, fertile villages alternating with barren hillsides and deep ravines. Below the ghats, the land is flat, except where it is broken by spurs of hills putting out into a plain. The general slope of the district above the ghat is from north to south.

1.5 Hills, River System, Soils etc.

The main system of hills in the Ajanta range which has formed a plateau is called the Balaghat. It covers the southern portion of the district, comprising Chikhli and Mehkar tahsils. A ridge of low hills running

(3)

from north-west to south east through the Balaghat forms the water shed between the valleys of the Penganga and the Katepurna. The main Ajanta range forms the northern wall of the peccan table land and the water shed between the Godavari and Tapi Valleys.

There is also a branch of Satapura range in the north of Jalgaon Tahsil, which separates the district from the state of Madhya Pradesh.

The general slope of the district above the ghats is from north to south.

The elevation of the three phain tahsils of Malkapur, Khamgaon and Jalgaon varies from 264 to 278 meters above sea level. The elevation of chikhli and Mehkar table land varies from 529 to 737 metres above sea level.

The principle river in the district is the Penganga. The other important rivers are the Purna, the Katepurna, the Nalganga, the Vishwaganga, the Gyanganga and the Banganga.

The Penganga rises in the hills near Deulgaht, runs in a south easternly direction past Mehkar and then enters the Akola district. The portion of the river which lies in this district is almost dry in the hot weather.

The Kate or lower Purna rises in the Ajanta hills to the west of the district, which enters a little to the north of Deulgaon-Raja and traverse the tahsil of Mehkar in a south easternly direction for a distance of about 18 kilometres. Its course runs parallel to the south of that of the Penganga. It is dry in summer. Both the Penganga and the Katepurna are important rivers of the -

Godavari basin, but they do not acquire their importance till they come out of the district.

The Purna rises in the lower slopes of the Gawilgad hills in the Amravati district and runs west ward until it leaves the district at the northern most corner of Malkapur tahsil. Its principal Tributaries within the district are the Nalganga, the Vishwganga and the Gyanganga from the south, and the Banganga from the north. There are two medium irrigation projects on the rivers of Nalganga and Gyanganga in this district.

The soils are derived from trap rock of volcanic origin. There are three main categories of soils in the district viz. i) Bhurkati, which is deep black soil of very fine texture and very retentive of moisture ii) morand, which is black cotton soil containing lime and less fertile than pure black cotton soil and iii) Barad, which is the shallow soil of the higher lands of the plateau and black, brown or reddish colour.

The soils in the northern tahsils viz. Jalgaon, Malkapur and Khangaon are generally deep black, formed by transported material washed from the higher lands. Cotton and Kharif Jowar are the main crops. The largest stretches of such heavy soils are formed in strips of about thirteen kilometres on either side of the Purna river.

The belt lying between the railway mainline and Purna river comprises some of the most fertile lands in Nagpur region.

To-wards the south, the soil is light and stony but pockets and belts of rich soil are found right upto the hills particularly in Malkapur tahsil.

On the plateau i.e. in Chikhli and Mehkar tahsils, there are considerable areas of medium block soil interspersed amidst the light and shallow soils which grow cotton, jowar, pulses and Bajari. The Chikhli and Mehkar tahsils are well known for their wheat which is grown in the low lands between the plateau. These soils have a murmu subtratum and are, therefore well drained. The existence of rock sub-soil is also not uncommon and the soils formed on such rocky beds suffer both, during scanty and heavy rains.

The district is not known to have any mineral of outstanding importance, except some saline deposits and lead in the lake of Lonar. These saline deposits were exploited for some time past, but subsequently found unprofitable and hence further exploitation of these deposits was abandoned. However, the agates, chornelians and elacite formed in the trap in southern part of the district have some utility, the first two for ornamental purpose and the last for optical purposes.

1.6 Climate, Temperature and Rainfall

The climate of the district is dry and hot in general and considered to be generally healthy. The maximum and minimum temperature at Buldhana during 1975 was 41.0 centigrades and 11.5 centigrades respectively. After May, the temperature rapidly falls down. Then after June with the arrivals of Monsoons, starts the rainy season and lasts upto the end of September. It is followed by winter season, which is quite pleasant.

The above temperature figures are typical of the Balaghat plateau (i.e. Chikhli and Mehekar tahsils) where the hot season sets in late and the heat is not intense. The rainy season is pleasant and the winter is invigorating. Buldana town itself is the coolest and the most pleasant district head quarters in Nagpur - division. The climate of the Payanghat i.e. Malkapur, Jalgaon and Khamgaon tahsils affords a great contrast. There the heat is intense and specially in the months of March to May it is perhaps as intense as in the hottest part of the country. The strong western winds, which then prevail become intensely heated and exercise their influence.

The rainfall is not uniform in all parts of the district. It is highest at Mehekar with an average of about 1232.0 mms. As against the average of 814.0 mms. If rains come in time and are equitably spread over the entire monsoon period properly the average rain fall in the district proves to be adequate for good crops. The district gets rain from the south west monsoons during the period from June to September.

Special features of the District

- ✓ 1) The Rajmata Jijabai's father Lakhuji Jadhav's native place is located at Sindkhed Raja which is an important historical place in this district.
- ✓ 2) The richest temple of 'Balaji' is at Deulgaon-Raja.
- ✓ 3) The religious place of Shegaon is famous for Gajanan Maharaj.

- 4) Shri Kshetra Nagzari of Gomaji Maharaj is also situated in this district which attracts the attention of religious minded people.
- 5) The first co-operative sugar factory in Vidharbha region is started as Jijamta sugar factory 'Dusarbid' in this district only.
- 6) 'Ambawarwa & Bhingara' are the forest hill stations situated in Jalgaon tahsil of this district.
- 7) Lonar is famous for 'salt water lake'.
- 8) Buldhana district head quarter is having big T.B. sanatorium.
- 9) Two medium projects Nalganga & Dyanganga were completed in this district & work of 'Karadi' Paldhag projects are in progress.
- 10) There is one 'Industrial Estate' established at Khangaon in the district.
- 11) The work of 'Yelgaon project' which will solved the problem for ever of drinking water for Buldhana city is in progress.

Agro- Industries important achievement

Agriculture Sector : During the year 1975-76 kharif programme, area target of 1,45,760 hectare was allotted to Buldana district. As against this target, achievement of 191027 hectare have been achieved in the kharif - programme. Due to this outstanding achievement the - honorable Chief Minister of Maharashtra State has declared to issue the merit certificate for the performance. Commissioner Nagpur division has accordingly issued merit certificate to this district.

(9)

There are two medium scale Industries.

One M/s Bharat-General textile Ltd. Malkapur which is engaged in manufacture of cotton seed oil & cake . It has also established a plant for refining the oil. The second unit is M/s Hanuman Vitamin Products pvt. ltd. Khamgaon which is having a solvent plant & is extracting oil from cake by solvent extraction process. Both these units have exported their products & earned valuable foreign exchange of Rs. 21 lakhs.

There is good deposit of stones near Undri & Amadapur & said stones can be used for artistic Jewellery & presentable articles.

---*---

CHAPTER -II

Explanatory note on the scope and limitations of the Statistical data presented in the Part-II (Statistical Abstract)

...

I. Purpose

The abstract part of this publication gives exhaustive statistical data on important Socio-Economic indicators of development. Tables on almost all important topics are presented in this part, so that the publication could serve as a reference book. Tahsilwise data have been displayed as far as possible for inter tahsil comparison. In most of the tables data for 1975-76 have been indicated with the data for 1974-75 while in some of the tables data for 1974-75 could not be presented and the same for latest year or for which ^{they were} available, have been shown. In case of population census (1971), Livestock census - (1972) the data for latest census have been presented. All the data have been collected from the state and Central Government offices, Local bodies and other - relevant agencies. The footnotes below each table indicate in the source from which the data have been collected.

II. District at a Glance

This table presents a bird's eye-view of the Socio Economic indicators of development in Buldana District and Maharashtra State under different heads, such as area, population, agriculture and animal husbandry, education, transport and communication, Plan and C.D. Programme, local Bodies and other miscellaneous statistics. Reference year of the table is also indicated in the table.

III. Contents, Scope and Limitation

The Statistical tables presented in the District Statistical Abstract are grouped in 13 parts. The contents of the tables and the scope and limitations of the data displayed under each group are explained below.

1. Area and Population

In all '7' tables i.e. tables No. 1 to 7 are included in this section. Data for 1971 census are indicated in all tables except table No. 2 where in data for 1951, 1961 and 1971. Census are shown with decadal percentage variation. The reference period for 1971 census was sunrise of the 1st April 1971. The table No.1 gives area, density of population, number of villages and towns number of occupied residential houses and house-holds and sexwise population separately for rural and urban.

For any place to be recognised as an urban area (town) for the 1971 census, it was to have a municipal corporation or an area under a municipal council or a cantonment or a civil line. It did not have any of these urban local bodies to administer its affairs, the following empirical tests were applied, (a) minimum population of 5,000 (estimated for 1971), (b) a density of not less than 400 per Km² (1,000 per sq. mile), (c) 75 percent of the male working population pursuing occupations falling outside agriculture, (d) the place should have, according to the Director of Census Operations of the State, a few pronounced urban characteristics and amenities.

The term village (i.e. rural area) used, denotes a statutorily recognised village having a well defined boundary and separate land records. Hamlets wadies or padas have, therefore, been not shown as separate villages. On the other hand, statutorily recognised villages having no population have been shown separately as 'uninhabited' villages. Villages also include forest villages comprising mostly forest labourers and their families.

Table No. 3 gives classification of villages according to population ranges in 1971 census.

Table No.4 gives number of towns, according to 1971 census alongwith population. Table No.5 give number of workers and Non-workers in Buldana district according to standard livelihood classes. The population according to livelihood classes is shown separately for rural and urban area and for the district as a whole. The concept of dependency has been abandoned for economic classification at the 1971 census. The emphasis is not on work and not on income or on economic dependence. A person is defined as worker if (a) in case of seasonal work like cultivation, livestock, household industry etc, he has had some regular work of more than one hour a day (b) through-out the greater part of the working season, and (b) in case of regular employment in any trade, profession service, business or commerce, he was employed during any of the seven days preceding the day of the enumerator's visit to the household.

The table No.6 gives distribution of population according to (a) age group and (b) Religion, separately for rural and urban area and for the district as a whole as per the 1971 census.

The table No.7 gives panchayat samiti wise details of scheduled caste, scheduled tribe and neo-Buddhist separately for rural and urban area and also for the district as a whole according to 1971 census.

The scheduled castes notified for this district are as follows.

- | | |
|---------------------|---------------------------------|
| 1. Bhand | 11. Kaikadi |
| 2. Balohi | 12. Katia |
| 3. Basor | 13. Khatik |
| 4. Bedar | 14. Kori |
| 5. Bnangi or Mehtur | 15. Khangar |
| 6. Chambar | 16. Madagi |
| 7. Dehar | 17. Mahar |
| 8. Domor Dumar | 18. Mang(including Mang Garudi) |
| 9. Ganda | 19. Sansi |
| 10. Gaari | 20. Kanera or Mirdha |

scheduled Tribes

There are no scheduled tribes notified for this district in 1971.

2. Climate

Only two tables are included under this section pertaining to rainfall and temperature at the selected centres in Buldana district.

The table No.8 gives monthly rainfall and number of rainy days in each month at selected centres for the year 1975 the data is collected through Revenue agency. A day is treated as a rainy day if during the 24 hours the rainuage recorded minimum of 2.5 m.m. of

rainfall. Annual rainfall for each centre is also indicated in the table. 'Normal rainfall' is the average rainfall over a period ranging from fifty to eighty years.

The table No. 9 gives monthwise maximum minimum and also annual temperature as recorded at buldana for the year 1975 by meteorological centre at Nagpur.

3. Agriculture

In all 14 tables i.e. table Nos. 10 to 23 are included in this section.

The table No. 10 indicates tahsilwise figures of land utilisation under the standard heads of land uses for the year 1973-74 and 1974-75. Against each tahsil, the break-up of the total geographical area according to different types of land uses is shown. Major constituents of the Geographical area etc, forest, land put to non-agricultural uses, barren and unculturable land, culturable wastes permanent pastures, land under miscellaneous tree crops not included in area sown current fallows, other fallows and net area sown. Under 'Forests' are included all actually forest areas of lands classed or administered as forests under any legal enactment dealing with forest whether state owned or private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is included under the appropriate heading of cultivated or uncultivated land as the case may be 'Land put to Non-Agricultural uses stands for all lands

Occupied by buildings, roads and railways or under water e.g. rivers and canals and other lands put to uses other than agricultural. Barren and unculturable land covers all barren and un-culturable land like mountains, deserts etc. Land which can not be brought under cultivation unless at a high cost, is classed as barren and unculturable, and whether such land is in isolated blocks or within cultivable holdings. Culturable waste includes all lands available for cultivation once-but not cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed or not assessed and may lie in isolated blocks or within cultivated holdings. Permanent pastures and other grazing cover all grazing lands whether they are Permanent Pastures and made or not. Village common and grazing land within forest area or included under this head' land under miscellaneous tree crops etc. not included in the area sown are included all cultivable land, which is not included under net area sown, but is put to some agricultural use. Land under casurina tree, thatching grass, bamboo bushes and other for fuel etc. which are not included under 'Orchards' are classed under this category current fallows comprise cropped areas, which are kept fallow during the current year. Other fallow land included all lands which were taken up for cultivation, but are -

temporarily out of cultivation for a period of not less than one year and more than five years. The net area sown consists of net area sown with crops and orchards, area sown more than once being counted only once. The gross cropped area represents the sub-total of area under all crops. The difference between the total or the gross cropped area and net area sown is accounted for by the area sown more than once during the same year with the same or different crops. The table No.16 gives the information regarding the ground water survey & development agency in this district while table No. 17 shows minor irrigation position.

The table No. 18 gives the information on major and medium projects in this district. Both completed and in-completed projects have been covered in this table. Position in this table is as it was on 30th June 1975. The cost of medium irrigation project ranges between Rs. 20 Lakhs to 5 Crores, where as that of a Major irrigation project it is 5 crores and above.

Table No.19 deals with monthly agricultural wage rates in 1975. This data is collected fortnightly throughout the years from three selected Rural centres in Buldana district viz.1. Asalgaon 2. Deulghat & 3. Dongam. Only one centre is selected from three tahsils. Table No. 20 gives information regarding Agri. Census operational holdings 1970.

4. Animal Husbandary and Forest

A Animal Husbandary:- In all 4 tables i.e. tables Nos. 24 to 27 are included in this section. Table No. 24 gives panchayat samitiwise numbers of various -

types of livestock as enumerated in the district in the livestock census, 1972. The census is conducted throughout the country on an uniform basis of concepts and methods of enumeration once in 5 years. During the livestock census operations, the livestock and poultry were enumerated by house to house enquiry, particular care was taken to enumerate livestock in slaughter houses, stray animals and animals in transit. Sex and age groupwise classification of the livestock is also indicated in the table.

Table number 25, 26 and 27 gives panchayat samiti wise veterinary statistics, disease wise livestock mortality and number of slaughter houses and animals slaughtered in them for the year 1975-76.

B - Forest - The table number 28 (a) gives details of area in different types of forests during the year 1975-76 data regarding forests under the control of the state governments forest department and those under the control of the state Govt.'s revenue deptt. are shown separately. The areas under forests are classified under according to legal status i.e. the reserved forests, protected forests and unclassed forests. The legal status refers to classification of forests under the Indian forests Act. XVI of 1927. Reserved forests are those that are intended mainly for timber production, wherein the right of grazing and cultivation are seldom allowed. In protected forests the restrictions are not so rigid. Right of cultivation is allowed but certain limitations and restrictions are imposed. The unclassed forest refers to the

inaccessible forest or unoccupied waste. The forests which are taken by Govt. from local bodies or private individuals for management on lease basis are called leased forests. There is no classification of ex-proprietary forests as such, but in Nagpur Division some private lands containing valuable forests are taken over by government under section 29 of the Indian forest Act. which are not yet classified as per tripartite classification and they are termed as ex-proprietary. The forest area shown in table No.28 (a) may not tally with the area under forest shown in table No. 10. The two sets of figures differ due to the following reasons. i) in the Indian forest statistics returns, the whole area including non-wooden area under the control of forest department is taken as area under forest, while in Agricultural statistics, it is classified according to its actual utilisation ii) The forest department returns are meant to serve a definite administrative purpose and indicate the ownership of the forest areas and the actual utilisation of these area is not so important, from the point of view of forest department as it is in the land utilisation statistics under Agricultural Statistics.(III) The forest department returns relate to financial year and Agricultural statistics relate to the agricultural year.

5. Employment, Industry and Electricity

In all 10 tables i.e. table Nos. 30 to 39 are included in this section.

The factory statistics shown in table No. 30,31,32 cover following types of factories registered under the Fact. Act. 1948.

- 2) Those employing ten or more workers working with the aid of power (section 2m (i)).
- 2) Those employing twenty or more workers and working without the aid of power (section 2m (ii) and
- 3) Those registered under the section 85 of the act, under which the state government makes applicable the provisions of the Act., even though the above conditions are not fulfilled. However, statistics of the defence factories are excluded.

The table No.34 & 35 gives occupational distribution of total registrations and placements in the employment exchange for the year 1975-76 according to standard National classification.

The table No.33 deals with the results of the Annual Survey of Industries indicating industry wise working and reporting factories, employment, fixed working and productive capital, total value of production and value added for the year 1966. This survey is carried out by the Directorate of Economics & Statistics, Bombay annually. Table No. 36 show tahsilwise work undertaken under E. G. S. programme during 1975-76.

6) Co-operation

In all 8 tables i.e. table No. 40 to 47 are included in this section.

The table No.42 gives panchayat samiti wise number of primary agricultural societies, their membership, share capital Reserve and other funds, working capital, loans advanced for the year 1975-76. 'Working Capital' includes paid up capital, deposits and borrowings till purchased or discounted. Overdues refer to amount of loan or instalments which were due for collection but which were not actually collected and for the repayment of which no extension has been granted by competent authority.

The table No. 45 gives tahsilwise number of registered money lenders in each tahsil and loans advanced to traders and non traders have been furnished in this table. The transactions of money lending in the state are regulated under the provisions of Bombay money lenders Act. 1946. According to the Act, no money lender shall carry on the business of money lending except in the area for which he has been granted a licence, and except in accordance with the terms and conditions of such licence.

7. Medical and Public Health

In all five tables i.e. table Nos. 48 to 52 are included in this section.

The table No. 48 indicates tahsilwise number of hospitals, dispensaries maternity homes, health centre and primary health centres, doctors, nurses, Vaidyas, beds and total number of indoor and outdoor patients treated for the year 1975. The table covers all the state and central government medical institutions and also

Institutions owned by municipalities and local bodies engaged in providing medical facilities. Private clinics run by private bodies or individuals are, however, not included in the table.

The table No. 49 gives vital statistics such as number of registered births and deaths in this district.

8. Education

In all 7 tables i.e. No. 53 to 59 are included in this section (including table No. 53 to 59)

The table No. 53 gives sexwise number of literates and percentage of literacy separately for rural and urban areas of each tahsil according to 1971. Population census. As per 1971 census definition, a person was classified as a literate if he was able to read or write a simple letter in any language. The table No. 56 gives information according to number of educational institutions according to types for the year 1974-75 & 1975-76. Sexwise enrolment and number of trained and untrained teachers in these institutions is also indicated in this table. The classification of institutions according to type is slightly different from state of education.

The table No. 57 presents data on the number of beneficiaries among backward classes such as scheduled tribes and other backward classes for the year 1975-76. Beneficiaries for this table are persons who are getting educational concessions of either type such as scholarships, freeships etc. Table No. 58 presents data on concessions to the economically backward classes.

The concessions of free education and amount incurred is given in this table for the year 1975-76. Under the category of 'economically backward' students whose parents guardians income is less than Rs. 2400 are covered.

9. Transport and Communication

In all 7 tables i.e. table Nos. 60 to 66 are included in this section.

The table No. 60 a gives total railway length on 31st March 1976 according to the type of routes ie. Broad, Metre Gauge, Narrow Gauge. The railway length is measured between the first and last stations within the district boundary. The figures of length of each type of route are, therefore, approximate and are not accurate.

The table No.63 deals with operational statistics of Nationalised road Transport in Buldana division only.

The table No. 64 presents the results of the traffic census on important roads conducted by building and communication department, Government of Maharashtra. Data on the number of vehicles is according to categories and location of count post. Type of surface and total traffic intensity in tonnes per 24 hours are also indicated in the table.

10. Local Bodies

In all 4 tables i.e. table Nos. 67 to 70 are included in this section.

The table No.67 gives abstract of income and expenditure of local bodies such as village panchayat, Zilla Parishad and Municipalities for the years 1965-66 and 1968-69 to 1975-76. The number of village panchayats includes number of independent village panchayats as well as group village panchayats.

11. Plan and Community Development

In all 5 tables i.e. table No. 71 to 75 are included in this section. These tables presents data on sub-headwise expenditure incurred on District level plan schemes and C.D. Blocks and physical achievements during the year 75-76.

12. Prices

In all 3 tables i.e. table Nos. 70 to 78 are included in this section.

Table No. 76 presents data on monthly wholesale prices of important agricultural commodities in the district and hence they are limited to certain commodities marketed by these market committees.

The table No. 77 gives monthly average retail prices of various commodities at District head quarter Buldana. The average monthly prices of each commodity are shown in this table for the year 1975 alongwith units and varieties of commodities for which prices have been quoted. The data are regularly collected by the District Statistical Officer every week on Friday by visiting the selected shops. The average price of each commodity for the year is also shown in the table. As the information collected of information for

the given commodities is restricted to only one quotation and that too only from one shop at District Head-quarter, the average price for individual commodity cannot be said to fully representative, but the data may prove useful as broad indicator of the trend in changes in retail prices over period of time.

The table No. 78 gives consumer price index number (revised series) for working class of Nagpur centre published by the office of Commissioner of Labour Bombay. Monthwise data for the year 1975-76 commencing from April and also average for the year 1974-75 have been given in this table. The base year for calculating price index (New series) is 1960.

13. Miscellaneous

In all 12 tables i.e. table Nos. 79 to 90 are included in this section. Table Nos. 79 to 90 presents data on various subjects such as police, crime statistics, cinema statistics, Banking, Joint stock companies L.I.C. small saving etc.

Table No. 90 gives trends in selected indicators for the year 1950-51, 1960-61, 1966-67, 1970-71, 1973-74 and 1974-75 & 1975-76.

CHAPTER - IIIINDICATORS OF DEVELOPMENT

In this Chapter, the progress of development covering the period at the end of Second Five Years Plan and the Annual Plans 1972-73 or 1973-74 has been reviewed by presenting tahsilwise sectoral trends based on certain important indicators of development. Comparative tahsilwise figures wherever available for 1960-61 & 1974-75 or 1975-76 as the case may be, have also been presented.

Indicator No. I - Percentage of gross sown area

The extent of double cropping is solely related to the availability of irrigational facilities and soils capable of retention of moisture after the Monsoons. The district accounted for a very low percentage of area sown more than once to the net area sown as compared to Maharashtra State.

The following table gives the percentage of gross sown area to net sown area in 1960-61 and 1974-75 in each tahsil in the district.

Sr. No.	Tahsil	% of gross sown area to net sown area		Ranking
		1960-61	1974-75	
1	2	3	4	5
1.	Chikhli	105.10	112.92	1
2.	Mehakar	104.87	109.88	2
3.	Khamgaon	100.10	101.11	5
4.	Malkapur	100.33	101.93	3
5.	Jalgaon	100.27	101.13	4
District		102.57	106.51	

Indicator No.1 (Contd)

It is seen from the above table that the percentage of gross cropped area has increased from 102.57 in 1960-61 to 106.51 in 1974-75. The percentage of double cropped area was highest in Chikhli tahsil followed by Mehekar tahsil. In other three tahsils the proportion was less than the district average. The Proportion of double cropped area in Chikhli & Mehekar tahsils is higher as most of the cultivators grow Mung Urid hybrid Jowar, Groundnut etc. in Kharif season & then grow crops like wheat, safflower, Gram etc. as second crops in Rabi Season.

Indicator No.2 - Productivity of important crops

The productivity of crops by & large depends upon the timely rains, it even spreading over the period of the season, so also upon the adoption of Hybrid and high yielding varieties of seeds use of chemical fertilizers & Pest control measures-

Jowar, Wheat, Rice, Tur are the main food crops of this district, while Cotton, Groundnut ^{are} the major cash crops. The data of productivity for the year 1960-61 and 1974-75 are presented in the following table

Sr. No.	Crops	Production (in M. Toones)		% Increase	
		1960-61	1974-75	(+)	Decrease(-)
1	2	3	4	5	
1.	Rice	951	1300	(+)	36.69
2.	Wheat	18606	30600	(+)	64.46
3.	Jowar	123492	192700	(+)	56.04
4.	Total Cereals	144358	230200	(+)	59.46
5.	Tur	6181	19100	(+)	209.01
6.	Gram	3472	2100	(-)	39.52
7.	Total Pulses	17611	34900	(+)	98.17
8.	Total Food grains	161969	265100	(+)	63.67
9.	Cotton (bales)	196031	134500	(-)	31.39
10.	Ground nut	24607	15300	(-)	37.83

It will be seen from the above table that the production of all the crops except Gram, Cotton & Groundnut has increased in 1974-75 as compared to the production in 1960-61.

Indicator No. 3 - Gross Value of Agricultural Production

As relevant price data required is not available, gross value of agricultural production could not be calculated.

Indicator No.4 - Percentage of irrigated area

The district Buldana is mainly depends on wells irrigation except the Nalganga project located in Malkapur tahsil, Gyanganga project located in Khamgaon & Paldag project in Chikhli tahsil & some minor irrigation tanks & bandharas located in different parts in the district. The percentage of irrigated area is very low as compared to other districts of Maharashtra.

The following table shows the percentage of gross irrigated area in 1960-61 & 1974-75.

Sr. No.	Tahsil	percentage of gross irrigated area to net irrigated area		Ranking
		1960-61	1974-75	
1	2	3	4	5
1.	Chikhli	100.00	115.83	4
2.	Mehekar	103.66	120.24	3
3.	Khamgaon	100.00	100.00	5
4.	Malkapur	100.00	167.08	2
5.	Jalgaon	100.00	189.54	1

It is seen from the above table that the percentage of gross irrigated area has increased from 101.15% in 1960-61 to 126.92 % in 1974-75. The increase was remarkable in Jalgaon tahsil followed by Malkapur tahsil.

The following table shows the percentage of net irrigated area to net sown area in 1960-61 and 1974-75.

Sr. No.	Tahsil	% of net irrigated area to net sown area		Ranking
		1960-61	1974-75	
1	Chikhli	3.14	4.17	1
2	Mehekar	2.25	3.01	2
3	Khamgaon	0.50	2.38	4
4	Malkapur	1.72	2.61	3
5	Jalgaon	0.47	1.22	5
District		1.85	2.89	

From the above table, it is seen that the percentage of net irrigated area to net sown area has increased from 1.85 in 1960-61 to 2.89 in 1974-75. The increase was observed in all the tahsils. The percentage of area irrigated was highest in Chikhli tahsil followed by Mehekar tahsil. In other tahsils, the percentage was below the district average.

Indicator No.5 - Changes in the crop pattern
(Total & Irrigated)

The major crops in the district are cotton & Jowar which accounted for 30.56% & 32.88% of the Gross cropped area in the year 1974-75. The district also grows wheat and safflower (Kardi) in Rabi season and Mung and Urid in Kharif season on large scale. The district has 56.43% of the gross cropped area under food crops

The following table gives the percentage of area under Food & Non-Food crops to Gross cropped area in 1960-61 & 1974-75 in the district.

Sr.No.:	Tahsil	% of area under		% of area under	
		Food crops to	Gross area sown	non-food crops	to gross area sown
		1960-61	1974-75	1960-61	1974-75
		1	2	3	4
1.	Chikhli	64.92	61.42	35.08	38.58
2.	Mehekar	66.71	58.43	33.29	41.57
3.	Khamgaon	47.54	55.36	43.46	44.64
4.	Malkapur	55.56	61.48	44.44	38.52
5.	Jalgaon	40.53	42.75	59.47	57.25
	District average	57.51	57.52	42.49	42.48

From the above table it is seen that the proportion of area under food crops has slightly decreased in 1974-75 as compared to the area in 1960-61.

The absolute increase is noted in Khamgaon, Malkapur & Jalgaon tahsils. On the contrary notable decrease is seen in Chikhli & Mehekar. The percentage of area under food crops was highest in Malkapur tahsil followed by Chikhli & Mehekar tahsils. In other tahsils, the percentage was below the district average.

The proportion of area under non-food crops has slightly decreased in 1974-75 as compared to the area in 1960-61. The increase is noted in Chikhli, Mehekar & Khamgaon, while the decrease is seen in Malkapur & Jalgaon tahsils.

The following table gives the percentage of irrigated area under food crops & non-food crops to total gross irrigated area in 1960-61 and 1974-75.

Sr. No.	Tansil	% of area under irrigated food crops to Gross irrigated area		% of area under irrigated Non-food crops to Gross irrigated area	
		1960-61	1974-75	1960-61	1974-75
1	Chikhli	87.5	88.8	12.5	12.40
2	Mehekar	96.3	57.5	3.1	42.5
3	Khamgaon	87.6	92.4	12.4	7.6
4	Malkapur	97.4	90.0	2.6	10.0
5	Jalgaon	78.8	87.6	21.2	12.4
District Average		92.1	81.2	7.9	18.8

It is seen from the above table that the percentage of area under irrigated food crops to gross irrigated area has decreased from 92.1 % in 1960-61 to 81.2% in 1974-75. The increase was in Chikhli, Khamgaon & Jalgaon tahsils while the percentage was decreased in remaining tahsils. The percentage of irrigated food crops to gross irrigated area was highest in Khamgaon tahsil, followed by Jalgaon and Chikhli tahsils. The percentage in Mehekar tahsils was below the district average. Among the non-food crops, cotton is the main irrigated crop grown while wheat, Sugarcane, Banana & other fruits vegetables & Chillies are the main irrigated food crops.

Indicator No.6 - Increase in Agricultural
Credit and Outstanding dues

The Co-operative credit structure has been developed for financing the agriculturists according to their needs. Special facilities are also being made available to the agriculturists through the Co-operative credit structure for participating in the schemes implemented by Govt. in the Five Year Plan period. The short & medium term loans are given by the District Central Co-operative Bank through the primary agricultural credit societies and service Co-operatives long term finance is however advanced by the District Land Development Bank through its branches.

The following table shows tahsilwise primary agricultural societies, amount of loan advanced & loan outstanding in 1963-64 & 1975-76.

Sr. No.	Tahsil	No. of credit Societies		Loans Advanced (Rs. '000')		Loans outstanding (Rs. '000')	
		1963-64	1975-76	1963-64	1975-76	1963-64	1975-76
1	2	3	4	5	6	7	8
1.	Jalgaon	65	63	2325	9368	2240	7693
2.	Malkapur	161	142	4700	12570	5172	9280
3.	Khamgaon	98	92	4628	11058	5793	4937
4.	Cnikhali	150	135	5318	21420	5931	16622
5.	Mehekar	149	574	5189	22360	4025	23078
	Dist.Total	623	574	22660	77276	26161	57650

From the above table, it is seen that the No. of credit societies decreased during the year 1975-76. over the number during 1963-64. The total amount of -

Loan advanced has, however, increased by 241.02 percent in 1975-76 over the corresponding figure in 1963-64. The amount of loan outstanding has increased by 120.36 percent in 1975-76 as compared to the loan outstanding in 1963-64.

Indicator No.7 - Agricultural Wage rates

The agricultural wage rate are collected from selected cultivators in selected centres viz. Dongaon, Deulghat & Aslagaon in Mehekar, Chikhli and Jalgaon tahsils respectively. Generally the skilled workers like carpenters, Blackmiths, Cobblers etc. are not employed on daily wages and hence wage rates for these categories are not available. The wage rates are collected fortnightly. As these centres do not represent the district position very correctly, these wage rates may be taken as broad indicator of wage level in the district. The following table gives average wage rates of above selected centres for the year 1963-64 and 1974-75 as the work of collection of these wage rates was started from June 1963.

		(Rs. per day)			
Sr. No.	Centre	1963-64		1974-75	
		Male	Female	Male	Female
1	2	3	4	5	6
	1) Dongaon	1.12	0.65	3.00	2.00
	2) Deulghat	1.44	0.75	3.70	2.90
	3) Asalgaon	1.12	0.62	3.00	1.50
	District Average	1.23	0.67	3.23	2.13

From the above table, it is seen that the agricultural wage rates were highest at Deulghat for males & Females in 1974-75 while the wage rates were lowest at Asalgaon for males & females. The agricultural wage rates have increased by 162.6 percent in case of males and by 217.91 percent in case of females in 1974-75 as compared to the wage rates in 1963-64.

Indicator No.8 - Livestock per hectare of cultivable land

Animals besides providing most of the draught power required for agricultural operations are an important source of organic manure and raw material. The following table gives the livestock population (Ovine & bovine) per hectare of cultivable land in 1960-61 and 1972-73.

Sr. No.	Tansil	Livestock per hectare of cultivable land		Ranking
		1960-61	1972-73	
1	2	3	4	5
1.	Jalgaon	1.04	0.92	5
2.	Malkapur	0.99	0.99	3
3.	Khamgaon	0.95	0.93	4
4.	Chikhali	1.09	1.10	1
5.	Mehkar	1.14	1.09	2
Dist. Average		1.05	1.02	

Note :- The above figures are based on the area in 1960-61 and livestock in 1961 and area in 1972-73 and livestock in 1972. The cultivable area includes 1) Culturable waste 2) Land under misc. tree crops 3) Current fallows 4) Other fallows and 5) Net area sown.

From the above table it is seen that the livestock per hectare of land has decreased from 1.05 in 1960-61 to 1.02 in 1972-73. The livestock per hectare

of cultivable land is highest in Chikhli followed by Mehekar tahsil. In other tahsils it was below the district average.

Indicator No. 9 - Poultry as compared to population

The total poultry population in the district according to 1972 livestock census was 1,20,348 which decreased by about 22.1 percent as compared to the corresponding number as per 1961 livestock census. The following table gives tahsilwise poultry population per 100 persons in Buldana District.

Sr.No.:	Tahsil	Poultry per 100 persons:		Ranking
		1961	1972	
1	2	3	4	5
	1. Jalgaon	14	9	3
	2. Malkapur	7	6	5
	3. Khamgaon	7	9	4
	4. Chikhali	19	11	2
	5. Mehkar	23	13	1
	District Average	14.6	9.53	

The poultry population in District has decreased by 22.1 percent during 1972 as compared to the poultry population in 1961. This decrease has been observed in all tahsils of the district except Khamgaon. The poultry per 100 persons was found to be above the district average in Chikhali & Mehkar tahsils while it was below the district average in other tahsils in the district in 1972. It was highest in Mehkar tahsil and lowest in Malkapur.

Indicator No. 10 - Per Capita Consumption of Electricity

The demand for electricity in the district is on rapid increase for boosting agricultural production. In all 624 villages and 9 towns were electrified by the end of 1975-76.

The following table shows the per capita consumption of electricity in 1961-62 and 1975-76.

sr. No.	Purpose	Per capita consumption in K.W.H.	Per capita consumption in 1975-76	% increase (+) or decrease (-)
1	Domestic	1.09	3.61	(+) 231.1
2	Commerical light & Small Power	0.94	1.71	(+) 81.9
3	Industrial Power	3.97	12.98	(+) 226.9
4	Public Lighting	0.46	0.88	(+) 91.3
5	Other purposes including Agril.	0.85	11.97	(+) 1308.2
Total -		7.31	31.15	(+) 326.1

It is observed from the above table that the per capita consumption of electricity in 1975-76 has increased by 326.1 percent over the corresponding consumption in 1961-62. The per capita consumption has increased mainly due to the increase in number of villages electrified under the Rural Electrification programme upto 1975-76. The per capita consumption has rapidly increased in the consumption classified

under other purposes due to increase in the electric pump sets for agriculture. Industrial & Domestic consumption has also shown remarkable increase in 1975-76 over the year 1961-62.

Indicator No.11 - Increase in the number of candidates enrolled in Employment Exchange and Vacancies

The following table gives the number of 1) registrations 2) Vacancies notified and 3) Placements in the district in 1960-61 and 1975-76.

Year	Registration	Vacancies notified	Placements
1	2	3	4
1960-61	4750	754	438
1975-76	5181	407	132

It is seen from the above table that number of registrations has increased by 109.07 percent in 1975-76 as compared to 1960-61. However, the vacancies notified and placements/respectively. The number on live register in 1960-61 & 1975-76 was 2,049 & 3191. The percentage of vacancies notified to the registration 1960-61 & 1975-76 was 15.87 & 7.85 respectively. The percentage of placements to the vacancies notified during the year 1960-61 & 1975-76 was 58.10 and 42.26 respectively.

- 10 -

Indicator No.12 - Increase in indoor and out-door patients treated in Hospitals

The general aim of the health programme is to expand the existing health services, to bring them within the reach of the people and to promote a progressive improvement in the level of natural health. -
/for organising health services, family planning provision of adequate institutional facilities/etc. were important health programme included in the Annual Plan 1975-76 for improving the health standard.

The following table gives number of indoor & outdoor patients treated in each tahsil of the district during 1960 & 1975 in the medical institutions available there.

Sr. No.	Tahsil	No. of indoor patients treated		No. of outdoor patients treated	
		1960	1975	1960	1975
1	2	3	4	5	6
1.	Jalgaon	114	370	63381	25000
2.	Malkapur	316	3000	74839	112000
3.	Khamgaon	12712	73000	131609	323000
4.	Chikhli	3302	91000	125305	276000
5.	Mehekar	117	577	79681	84000
Dist. Total		16621	172947	474815	825000

From the above table, it is seen that the indoor patients treated in various public institutions has increased by 940.5 percent in 1975 as compared to the indoor patients treated in 1960. The increase is mainly due to the increase in the number of institutions (Public Health centre) treating indoor patients in rural areas. The number of out-door patients.

treated in the public institutions has also increased in the year 1975 as compared to the year 1960. The increase is 73.7 percent.

Indicator No.13 - Increase in the number of students in different categories

According to 1971 population census 37.31 (51.3 % males & 22.77 females) of the population of this district was literate as against the literacy percentage of 37.4 (49,577 males & 24.87 females) and 39.1 % (51.17 males & 26.4 % females) of Vidarbha and Maharashtra respectively.

In this district, the compulsory primary education was governed by primary education Act. of 1950 and amended Act. of 1956 of the Ex. M.P. Govt. In 1955 the compulsion was introduced in Vidarbha for age group under the education Act. of the region. Due to compulsion, the No. of schools & enrolment rose very rapidly in all tahsils. At the end of the year 1972-73 every village in the district was within the vicinity of primary school or had a primary school in it. The following table gives the number of pupils enrolled in different categories of education for the year 1960-61 & 1975-76 in the district.

Year :	Enrolment in								
	Primary Schools			Secondary Schools			Higher Education		
	Boys	Girls	Total	Boys	Girls	Total	Boys	Girls	Total
1960-61	12	33	45	15	6	21	8	9	17
1975-76	61108	26533	87641	18234	4043	22277	1063	98	1161

From the above table, it is seen that enrolment in Primary schools, Secondary Schools & higher institutions has increased by 89.76, 125.99 & 244.96 respectively in 1975-76 as compared to the enrolment in 1960-61. The increase in enrolment of girls was however more for all categories due to increase in educational institutions in rural areas & due to change in the outlook of people towards the female education.

Indicator No.14 - Increase in Road length Per 100 Sq. Kms.

The Road Development Programme in the fourth & fifth Five year Plan has been formulated in accordance with the broad objectives laid down in the 'Wagpur Plan' of 1961-81. The broad objectives of this plan were that no village in the developed and agricultural area should remain more than four miles away from metal road and more than 1½ miles away from any type of road. The following table indicates road length per 100 square kilometers and per lakh of population in the district during 1960-61 & 1975-76.

Sr. No.	Year ending 31st March	Road length per 100 Sq. Kms.	Road length per lakh of population in Kms.
1	2	3	4

From the above table, it is observed that the road length per 100 sq. Kms. has increased from 9.56 kms in 1960-61 to 31.06 kms. in 1975-76, while the road length per lakh of population increased from 37.96 kms. in 1960-61 to 239.87 kms. in 1975-76.

Indicator No.15 - Increase in Banking facilities
in proportion to population

Since the nationalisation of the banking business the various banking companies have brought the field of agricultural & Industrial development in their operational field and are advancing loans to the agriculturists and small units of industries. The Co-operative banks also made a remarkable progress in expanding their business in rural areas. There were 10 scheduled banks & 12 co-operative banks functioning in this district during 1960-61. At the end of the year 1975, the number of scheduled banks rose to 31 while there were 47 co-operative banks in Buldana district. The following table gives the No. of banks and population per banking office during the year 1960-61 and 1974-75.

Sr. No.	Year	No. of banking offices	Banking offices per lakh of population	Population per banking offices
1	2	3	4	5
1)	1960-61	22	2.08	43168
2)	1974-75	78	6.17	16192

From the above table, it is seen that the No. of banking offices per lakh of population increased from 2.08 in 1960-61 to 6.17 in 1974-75. During the year 1975 a banking office could cater to the needs of 16192 persons as against 43,168 persons in 1960-61. The banking

facilities were available at 37 places in various parts in the District covering a population of 3,43,395 at the end of the year 1975.

Indicator No.16 - Prices

Since the declaration of emergency in the country in 1962, Price quotations for the some important commodities from all district headquarters are collected on weekly basis by the District Statistical Office. The prices of different commodities are collected from selected shops & for selected varieties on each Friday & do not fully represent the district position, but the data may still prove useful as a broad indicator of the trend in changes in retail prices over a period of time in the district. The table below indicates the average prices of some important commodities collected at Buldana town for the year 1963 & 1975.

Sr. No.	Commodity	Unit	Average prices		% increase (+) decrease (-) during 1975 over 1963
			for the year Rs.		
			1963	1975	
1	2	3	4	5	6
1.	rice (Medium)	Kg.	0.80	3.95	(+) 393.75
2.	Wheat	"	0.56	2.17	(+) 287.50
3.	Jowar	"	0.39	1.71	(+) 338.46
4.	Bajra	"	0.49	N.A.	
5.	Gram Dal	"	0.57	2.95	(+) 417.54
6.	Tur Dal	"	0.79	2.79	(+) 253.16
7.	mung Dal	"	0.70	3.32	(+) 374.28
8.	Sugar	"	1.21	4.76	(+) 293.33
9.	Gur	"	1.07	2.28	(+) 113.03
10.	Groundnut Oil	"	1.95	7.37	(+) 303.58
11.	Goat Meat	"	3.00	9.58	(+) 219.33
12.	Eggs	Dozen	1.87	5.75	(+) 207.48

(43)

1	2	3	4	5	6
13.	Turmeric	Kg.	2.05	5.37	(+) 161.95
14.	Dry Chillies	"	2.33	12.91	(+) 343.26
15.	Potatos	"	0.54	1.05	(+) 94.44
16.	Onion	"	0.36	0.97	(+) 169.44
17.	salt	"	0.12	0.27	(+) 125.00
18.	Plantatins	Dozen	0.33	1.23	(+) 223.63
19.	Tea leaf	Kg.	7.09	16.49	(+) 132.53
20.	Kerosene	Litre	0.46	1.18	(+) 156.52
21.	Firewood	40Kg.	1.62	4.54	(+) 130.24
22.	Dhoti	Pair	14.33	45.84	(+) 219.33
23.	Sari	single	25.84	45.40	(+) 75.69
24.	supari	Kg.	7.37	11.00	(+) 49.25
25.	Ciggarett	10 Nos.	0.34	1.50	(+) 341.17
26.	Bidi	25 Nos.	0.14	0.46	(+) 223.57

From the above table it will be seen that prices of all the commodities have increased upto 1975 as compared to the prices in 1963. The increase is remarkable in almost-all the commodities and particularly in all food grains, sugar, groundnut oil, chillies, patato etc.

---*---

C H A P T E R - I VANNUAL PLAN 1975-76

Adverse climate conditions during 1970-71 and unfavourable monsoon in 1971-72, 72-73, 73-74 have adversely affected the agricultural production which necessitate the reorientation of plan priorities and programme. After careful re-appraisal of plan priorities, specific programme for securing social justice, promoting the economic progress of weaker section of community, backward areas have been initiated during the year 1975-76.

During the year 1975-76 an amount of Rs. 432.41 lakhs was utilised under different district level schemes in this district, out of which Rs. 315.02 lakhs were expended in the state sector and Rs. 117.39 lakhs were spent in local sector.

The table No.71 of this publication gives plan expenditure utilized under different development scheme & head & sub-headwise during 4th five year plan and 1974-75 & 1975-76 implemented in this district under state sector and local sector separately. The following, table gives amount spent under different heads of development during the year 1975-76 in this district.

(Rs. in 0.00 Lakhs)

Sr.No.:	Head of development	Amount incurred in 1975-76		
		State Sector	Local Sector	Total
1	2	3	4	5
1.	Agricultural Programme	105.63	44.39	150.02
2.	Co-operation & Community Development	-	4.31	4.31
3.	Irrigation & Power	63.57	-	63.57
4.	Industry and Mining	7.60	-	7.60
5.	Transport & Communication	16.82	30.79	47.61
6.	Social Services	44.40	37.90	82.30
7.	Miscellaneous	76.99	-	76.99
	Total	315.02	117.39	432.40

Agricultural and allied programme have been given high priority in the programmes for 1975-76. Out of the total amount incurred in 1975-76 about 34.69 percent of the total amount incurred was spent under agriculture programme followed by social service (19.03 percent) Miscellaneous (17.81), Irrigation & Power (14.70), Transport & Communication (11.01), Industry and Mining (1.76), Co-operation and Community Development (1.00 percent).

The achievement under different heads of development are summarised below :

Agricultural Programme / Agricultural Production

Under this sub-head expenditure of Rs.4.27 lakhs was on schemes relating to seed farms. Development of local manurial resources, plant protection and integrated area development programme including community wells.

2) Minor Irrigation

Under this sub-head minor irrigation, subsidy was given to 11 new wells and 8 pumping sets, under the M.I. works 2, local sector tank work and L.I. schemes are in progress under the M.I. work whereas in state sector 21 works are in progress.

3) Soil Conservation

Under the sub-head soil conservation bunding of 29189 hectares was completed and plantation in 25 hectares for afforestation for soil conservation was completed.

4) Ayacut Development

Under this Programme 1110 hectares of land was developed & made suitable for irrigation purposes.

5) Animal Husbandary

The amount incurred under this sub-head was mainly on veterinary dispensary and aid centres.

6) Forest

Under the sub-head forest plantation, plantation of general utility imber in 6 hect,^{ares} Pre-monsoon works in 20 hectares, Farm. orastry in 35 hectares, fodder development in 25 hectares and plantation of quick growing species in 25 hect.^{ares} was completed.

7) Power Project

Under this sub-head of R.E.C.II 249 pumps and Normal development 911 pumps were connected.

8) Co-operation & Community Development

Under this programme subsidy to Nil - societies was provided.

9) Community Development

The amount under this sub-head was incurred mainly on Community Development Block and A.N.P. in three panchayat samities.

10) Industry and Mining

Under this sub-head Industry and mining Rs. 7.60 lakhs were spent during the year 1975-76.

11) Transport and communication

Under the programme at 'Road development' the work of construction of about 42.70 k.m. of road under state and local sector was completed.

Social Services12) General Education

Under this programme construction of 13 -

(47)

rooms of primary schools was completed during this year. For development and expansion of Non-govt. - Secondary schools, 5 schools were granted financial assistance during the year 1975-76. In addition to this open merit scholarship to 6 pupils in colleges upgradation of I.E.M. school into full fledged school and financial assistance to 17 secondary schools for improvement of science teaching was provided during the year 1975-76.

13) Water Supply and drainage

Under this programme 24 rural water supply schemes are under progress and under special measures 13 schemes were completed and 3 urban water supply schemes are under progress during the year 1975-76.

14) Welfare of Backward Classes

Under this programme various schemes for the benefit of backward classes were implemented during the year 1975-76.

C O N T E N T S

Statistical Abstract for the year 1975-76

Sr.No. of Table	Subject	Page No.
1	2	3

I. Area & Population

1. Panchayat samitiwise area, Houses and population in 1971 census.	1
2. Decadal variation in population since 1951	4
3. Panchayat samitiwise classification of villages according to population range in 1971 census.	6
4. Talukawise classification of towns according to 1971 census.	8
5. Number of workers & Non-Worker in each Panchayat samiti, according to 1971 census.	9
6. Distribution of population according to (A) Age Group (B) Mother tongue (C) Religion	13
7. Scheduled castes & scheduled tribes & Neo-Buddhist according to 1971 census.	14

II. Climate

8. No. of Rainy days & total Rainfall at selected centres.	18
9. Maximum & minimum temperature at selected centres.	20

III. Agriculture

10. Land Utilisation	21
11. Area under different crops in each taluka.	23
12. Yield per hectare & outturn of principal crops.	26
13. Area Irrigated by different sources in each taluka.	27
14. Area irrigated under different crops in each taluka	28
15. No. of Irrigation & other wells in each Taluka.	31

1	2	3
16.	Availability of under ground water	32
17.	Minor Irrigation works	36
18.	Major & Medium irrigation projects.	37
19.	Agricultural Wage rates	39
20.	Agricultural Census Operational Holding, 1970	42
21.	Agricultural implements in each panchayat samiti	44
22.	Famine, Scarcity and Akin to Scarcity data	47
23.	Determination of precarious and other scarcity area according to history of scarcity.	48
<u>IV. Animal Husbandary</u>		
24.	Live stock in each Panchayat samiti.	49
25.	Veterinary Statistics in each panchayat Samiti.	52
26.	Disease wise livestock mortality	53
27.	No. of recognised slaughter houses and animal slaughtered in each slaughter houses.	59
28. (A)	Forest area in District.	60
28. (B)	Major & Minor Forest Products in District.	61
29 (A)	Inland Fisheries in District	61 (A)
<u>V. Employment, Industry, Mining & Electricity</u>		
30.	No. of factories & average daily Employment workers.	62
31.	Industry wise distribution of working factories according to working strength	64
32.	Distribution of factories according to Nos. of days worked.	66
33.	Statistics relating to A.S.I.	67
34.	Employment Exchange Statistics.	70
35.	Occupational distribution of total Registration & placement in Employment Exchange.	71
36.	Works undertaken in E.G.S.	72
37.	Employment of different Industries.	74
38.	Consumption of Electricity	75
39.	No. of towns & villages electrified and population covered in district.	76

VI -Co-operation

40. Number of different types of Co-operative Societies.	78
41. Statistics relating to co-operative Bank	80
42. Primary Agricultural Credit Societies in each panchayat samiti	81
43. Other Co-operative Societies of different types.	83
44. Operation of Central & primary Co-operative of different types.	85
45. Operation of Other Co-op. So. of different types	87
46. Operation of regulated marketing in each panchayat samiti.	88
47. Number of Registered money lenders and loans advanced by them.	90

VIII . Medical & Public Health

48. Medical Facilities available through public and public aided bodies in each taluka.	91
49. No. of births & deaths registered.	93
50. No. of deaths due to important causes.	94
51. Vaccination Statistics & Cholera Inoculation.	95
52. No. of Family Planning Centres operating in District.	96

VIII. Education

53. Literacy in each taluka according to 1971 census.	97
54. Education in rural areas in each taluka according to 1961 census.	98
55. Education in urban areas of the District according to 1961 census.	99
56. No. of Institutions, Pupils & Teachers.	101
57. No. of Backward class beneficiaries	103
58. Economically Backward class concessions of free education.	104
59. Expenditure on Primary Education by way of grants in-aids in local bodies.	106

IX. Transport & Communications

60 (A) Length of Railway Route	107
61. Road length according to category and surface classification.	108
62. Motor vehicles in operation	109
63. Operational Statistics of Nationalised road transport.	110
64. Traffic census on important roads.	111
65. Information of Postal & Telegraph and Telephone statistics.	115
66. Rural Broad-casting statistics.	116

X - Local Bodies

67. Income & Expenditure of local bodies.	117
68. Income & Expenditure of village panchayats	118
69. A) headwise receipts of zilla Parishad	121
69. B) Government Grants to zilla Parishad.	123
69. C) Headwise expenditure of zilla Parishad.	124
70. Income & Expenditure of Municipal Councils.	126

XI Plan & Community Development

71. Plan expenditure under different development head/ Sub-heads.	128
72. Important Physical achievements under Plan	131
73. Statement showing C.D. Programme.	138
74. Expenditure incurred in different stages of blocks.	139
75. Physical achievements on selected items in all blocks.	140

XII - Prices

76. Wholesale prices of certain Agricultural commodities.	144
77. Average retail prices of important commodities at District head quarter.	157
