DISTRICT	STATISTICAL	ABSTRACT	1 to 162
	1976-77		

CHAPTER No. I

I N T R O D U C T I O N . . . . .

1.1 (1) Introduction and Location :- In ancient times the town Parbhani was known as Prabhavati on account of the existence of a beautiful and massive temple of goddess Prabhavati. Out of the twelve jotirlings in the country and three in Marathwada region, the district is sanctified by the existence of one jotirling namely Lord Nagnath at Aundha village in Hingoli taluka.

1.1 (2) Parbhani district with an east-west of 128.72 km (80 miles) and north-south extension of 104.58 Km. (65 miles) stretches between  $18.57^{\circ}$  and  $20.20^{\circ}$  north latitude and between  $76.70^{\circ}$  and  $77.29^{\circ}$  longitude. The district as a whole belongs to the Godavari peninsular basin situated on the northern side of Marathwada region. The Godavari has converted southern portion of the district comprising Pathri, Parbhani and Gangakhed talukas in to a very fertile vally. The Purna which is a tributary of the Godavari and the Dudhana which is a tributary of the Purna drain the talukas of Jintur and Basmath.

1.2 Boundaries :- In shape, Parbhani is a compact district. It has natural boundaries of the Penganga river with a stretch of 160.93 Km. in the north-east and of the Godavari river with a stretch of 64.37 Km. in the south-west. Administratively it is bounded on the north by Buldhana, Akola and Yeotmal districts of Vidarbha region and on the east by Nanded district. On the south it is surrounded by Osmanabad and Bhir district and on the west by Aurangabad district.

Contd..

1.3: AREA.

1.3 (1):- Parbhani district stretches over an area of 12,489.0 square kilometres of which 12,267.7 Sq. kilometres is rural and the remaining 221.3 square kilometre urban. In term of area and population respectively it is the eleventh and nineteenth largest district, in Maharashtra State. According to 1971 Census the district accounts for 4.1 % and 3.00 % of the States area and population, respectively.

1.3 (2): Territorial Changes :- During 1905, the northern villages of Nanded taluka of Nanded district were added to Kalamnuri taluka of this district. Besides, eight villages from Ambad taluka of Aurangabad district were transferred to Pathri taluka of this district in exchanges of six villages of Pathri taluka transferred to Ambad taluka of Aurangabad district. There after there were no territorial changes till the end of 1955. Consequent upon the re-organisation of the States of 1-11-1956, the district was transferred to the then Bombay State. Since 1st May, 1960 it forms part of Maharashtra State and Aurangabad revenue division.

1.4 : Topography :- Being a part of the Deccan plateau, the land in the district has a general elevation of about 457.60 metres (1,560 ft.) above the sea level, its highest and lowest levels being 579.73 metres ( 1,902 ft.) in Jintur range about 12.87 Km. (8 miles ) north of Charthana village and lowest level being around 366.0 metres (1,200 ft.) above sea level on the Godavari bank near the point where the river crosses over the district boundary. Topographically the talukas of Pathri, Gangakhed, Parbhani and Partur ( excepting northern part) are plain while

Contd..

the talukas of Jintur, Hingoli, Kalamnuri and northern parts of Basmath and Partur are all hilly and mountainous in nature.

1.5 : Hills :-

1.5 (1) :- The main hill ranges of the district are Ajantha hills which emanate from the main Sahyadris. These run through Partur, Jintur, Hingoli and Kalamnuri talukas. The crest line consists of flat tops with an average elevation of 534 metres (1,750 ft) above sea level.

1.5 (2) Malhura Hills :- There are west-east hill ranges separately the Penganga valley from that of Kadhu to its south. The tops record heights ranging between 542 metres (1,775 ft) in the west and 488 metres (1,600 ft.) in the east.

1.5 (3) - Balaghat Hills :- A section of Balaghat range transverse member of Sahyadris, stretches over Southern portion of the district comprising Gangakhed taluka. Its general elevation is 534 metres (1,750 ft.) with a few peaks, recording heights above 549 (1,800 ft.).

1.5 (4) : Isolated Hills :- These stand mainly in the under-taking black soil plain of the Godavari and the Purna rivers having an average height of 468 metres (1,533 ft.).

1.5 (5) :- River System :- (1) The Godavari is the most important river of the district. With its entrenched and meandering course it is the master stream that flows through Marathwada to enrich its economic resources, but at the same time impeding its communications. It winds its course into the district from west and after running a distance of about 180 Km. (112 miles) through Gangakhed taluka enters the adjoining district of Nanded.

Contd.

The Purna rises from the Ajantha hills and enters the district from the north-west corner, makes its course in the south-eastern direction for major length through Jintur, Hingoli, Basmath and Parbhani talukas and then falls in to the Godavari. The river Dudhana takes its rise in the amphitheatre of Khuldabad-Mahismal range and runs into the district in the south-eastern direction like the Purna for nearly 161 Km. (100 miles) to join it. The Penganga river also rises in the Ajantha hills a little to the south-west of Buldhana town and winds its course in the likewise manner. Its distinctive feature over other rivers is that all among its courses of about 80 Km. (60 miles) it acts as a district boundary. The river Kaidhu popularly known as Kayad, enters the Hingoli taluka after rising from the hills scrap of Risod town in Akola district and covers a distance of about 113 Km. (70 miles) in Hingoli and Kalamnuri talukas.

(2) Besides, there are several minor streams in the district more important amongst which are the Karpara, the Kansur, the Wan, the Borna, the Machili, the Galati, the Indrayani and the Dhond all being the tributaries of Godavari.

1.5 (6) : Soil :- The soil of the district is known as "Black cotton" Soil or "Regur" as it is popularly called. The district is essentially a region of black soil gully erosion, uneven surface, furrowed by large and small streams and meandering water course. The uneven black soil plain is, however, interrupted by occasional basaltic knolls. The soil is rich in plant nutrients such as Lime, Magnesia, Iron, Alkalines,

Contd..

It swells and becomes, stricky on wetting by rains and develops several craks while becoming dry. (It varies widely in texture and depth from place to place. In the hilly tracks in the north it is shallow and poor, while) towards the south it is relatively richer and deeper.

In the Godavari and theurna valleys and especially along the courses of these rivers it is very deep and fertile making the central belt an economically well developed part of the district

1.5 (7) : Minerals :- The district is devoid of any mineral wealth worth the name. Inferior quality of stone used for construction of buildings and other minor minerals are, however, extracted in this district. Black asphalt and granites are available every where and are used for buildings and road metalling.

1.6 : Climate, Temperature and Rainfall :

1.6 (1) Climate :- The climate in general is dry through out the district except during south-west Monsoon season. The year is divided into three seasons, rainy season starts from June and lasts up to the end of September, it is followed by cool-dry season from October to January and hot-dry season from February to May.

1.6 (2) : Temperature :- The Meteorological observatory is located at the district headquarters only and the meteorological data regarding temperature etc. recorded at this station may be taken as representative of the climate conditions over the

Contd..

district as a whole. During the hot-dry season in May 1976 the maximum temperature was 41.8 centigrade.

The minimum temperature during the cool-dry season was 12.8 centigrade in the month of January 1976. The table below indicates the maximum and minimum temperature recorded during the year 1976 in Parbhani Centre.

TABLE No. 1

Monthwise temperature during the different Seasons in 1976.

Sr. No.	Season	Months	Temperature (in centigrade)	
			Maximum	Minimum
1	2	3	4	5
1.	Warm wet season	June	35.9	24.0
		July	31.8	23.3
		August	30.7	22.8
		September	31.9	21.9
2.	Cool-dry season	October	34.9	20.6
		November	32.4	20.4
		December	30.9	16.7
		January	28.3	12.8
3.	Hot-dry season	February	33.0	15.6
		March	37.7	20.7
		April	39.7	24.4
		May	41.8	26.3

1.6 (3) Rainfall :- The district gets the bulk of the rainfall from south-west, Monsoons. Generally, the monsoon starts in the month of June and lasts upto mid October.

But the district also receives rainfall from mid October to December through North-East monsoons. All the parts of the district do not receive uniform rains. The normal rainfall of the district is 827 mm. The table below gives talukawise number of rainy days and rainfall during the year 1976.

Contd.

TABLE No. 2

Number of rainy days and rainfall during 1976 in Parbhani district

Sr. No.	Name of the Taluka	1976	
		No. of rainy days	Rain fall
1	2	3	4
1.	Parbhani	49	809
2.	Jintur	58	952
3.	Hingoli	49	823
4.	Kalamnuri	48	736
5.	Basmath	53	835
6.	Gangakhed	44	583
7.	Pathri	65	670
8.	Partur	43	614
District 1975		75	1,285
Average 1976		51	753

It may be seen from the above table that the rain fall during 1976 is substantially less than 1975 and also less than usual district normal rainfall particularly Jintur, Basmath had received comparably more rainfall than the normal one.

1.7 : Important Economic Development :

In the Fifth Five Year Plan of Parbhani district Jaikwadi Irrigation Project has been given top priority and substantial funds were provided for completion of the canal works in the district. The work of canal excavation is under progress and with a view to accelerate the completion of the project the funds under Employment Guarantee Scheme are also being spent. The above irrigation project would bring a massive and significant changes in the agricultural development of the district. Besides, the works on Masoli and Borna Medium Irrigation Projects which located in Gangakhed taluka and in Beed district making way of 1,220 hectares of command in Parbhani district respectively are in progress and being completed expeditiously.

Contd..

Agra Industries :-

1.7 (1) Co-operative Sugar Factories :-

The first sugar factory in the Co-operative sector at Village Dongarkada taluka Kalamnuri known as Dongerkada Sahakari Sakhar Karkhana has been established and going into production from October, 1976. This sugar factory is likely to provide employment to about, 5000 persons. In addition to this, two more sugar factories are coming up in the talukas of Pathri and Basmath of this district. Both these factories would be functioning in the command areas of the major irrigation project decided to provide adequate outlays for the completion of the above factories.

1.7 (ii) Dairy Development :- Under the Town Milk supply scheme of Parbhani district, a dairy federation has been formed and one milk chilling plant at Parbhani is under installation.

For the construction of dairy, substantial funds are being provided, in the Annual Plan of the district. As a result of establishment of dairy at Parbhani the requirement of milk to Parbhani town would be met at reasonable prices.

1.7 : (iii) Spinning Mills : Recently, one co-operative spinning mill has been proposed to be established at Parbhani. This would be the first such mill to be established in the district and would generate considerable employment potential.

In addition to the above there are about 27 cotton ginning pressing and bailing factories working in the district. Out of which four are functioning under the co-operative sector. These factories would feed the raw material to the proposed spinning Mill. One more co-operative spinning Mill had been registered during 1976-77.

Moreover, few of the Dal Mills and Oil Ghans are also functioning in the district.

Rauf

CHAPTER - II  
EXPLANATORY NOTES ON SCOPE AND LIMITATIONS OF THE STATISTICS  
IN STATISTICAL ABSTRACT

1. Purpose :- The Abstract of the publication presents statistics on important socio economic indicators of development. In the last publication for which the reference year was 1975-76 figures for the previous year 1974-75 were furnished in almost all tables besides providing data for 1975-76. However, in case of a few tables where data was not available the figures for the latest available year were incorporated.

The tables on population are displayed in the Abstract as per 1971 Census. The tables on livestock statistics are based on 1972 livestock census. The data compiled in the tables are collected from the office of the State Government, Central Government, Local Bodies and other Agencies.

2. District At-A-Glance :- The table on "District-At-A-Glance" indicates the important data in respect of the district obtained from the various tables of the Abstract. The table also provides the data for State for comparison with the district figures.

The explanatory notes summarising the contents of the tables presented in the Abstract with particular reference to scope and limitations of data compiled are given for each subject as under :-

I. Area and Population :- Table Nos. 1 to 7 deal with area, houses total population, decadal variation in population since 1951, classification of towns and villages in the district according to population ranges, number of workers and non workers in the district, population according to age-groups, mother tongue and religion and population of scheduled castes, scheduled tribes and Neo-Buddhists in the district.

Contd..

II. Rainfall and Climate :- Table Nos. 8 and 9 deal with number of rainy days and rainfall and monthly temperature at the selected centres in the district. Table No. 8 shows monthly and annual rainfall and number of rainy days for 1976 recorded at all the eight taluka headquarter.

III. Agriculture :- In table Nos. 10 to 21 Statistics relating to agriculture are presented. The tables next to agricultural statistics are 22 and 23 in which data regarding famine and scarcity are displayed. The table on land utilization gives distribution of total geographical area in each taluka of the district according to various uses for the year 1974-75 and 1975-76. The next table dealing with area under different crops indicates talukawise area under different crops grown in the district during the years 1974-75 and 1975-76.

Table No. 12 indicates the yield and outturn of principal crops in the district for the years 1974-75 and 1975-76. The table regarding area irrigated in the district gives talukawise net area irrigated by different sources of irrigation for the years 1974-75 and 1975-76. Area irrigated more than once and the gross area irrigated are also shown in this table. The next table pertains to the area irrigated under different crops in each taluka for the years 1974-75 and 1975-76.

The table No. 15 shows total number of irrigation wells, irrigation wells in use, irrigation wells not in use and other wells during the years 1974-75 and 1975-76. Table Nos. 16, shows the availability of underground water in the district. Table No. 17 and 18 deals with minor irrigation works and major and medium irrigation projects respectively.

The table on major and medium irrigation projects provides projectwise details.

Contd..

The table No. 19 on agricultural wage rates gives month wise agricultural wage rates of skilled and unskilled agricultural labourers at the 3 selected centres in the district for the calender year 1976 .

Table No. 20 shows the data regarding operational holding and area operated as per the agricultural census 1970. Table No.21 gives number of agricultural implements in each taluka of Parbhani district as per Livestock Census 1972.

Table No.22 indicates talukawise position of the famine, scarcity and akin to scarcity conditions prevailing during 1976-77 and in table No.23 scarcity area according to the history of scarcity in each taluka of Parbhani district are shown from 1970-71 to 1976-77 .

#### IV. Animal Husbandry, Forest and Fisheries :-

Information about animal husbandry is displayed in table Nos. 24 to 27. Table No. 24 presents data regarding total number of livestock in each taluka of Parbhani district as per Livestock Census 1972.

Table No. 25 on veterinary statistics indicates the number of veterinary hospitals, dispensaries, (aid-centres with the number of animals treated therein in each taluka of Parbhani district during the year 1976-77.

Data on diseasewise livestock mortality in Parbhani district in 1976-77 is presented in table number 26 and the last table on the above subject shows the total number of animals slaughtered in each of the recognised slaughter houses in the district during 1976-77.

The information regarding forests is presented in table Nos. 28-A and 28-B . The table No. 28-A indicates the area under forest in 1976-77 according to its administrative jurisdiction and table No. 28-B presents information regarding major and minor

Cont'd..

Forest products in Parbhani district in the year 1976-77.

The table No. 29-A pertains to inland fisheries and displays the data regarding length of rivers, total area for fish culture and fish products etc.

V. Employment, Mining and Electricity and Industry :-

The information on employment and industries is indicated in table Nos. 30 to 37. Table No. 30 deals with average daily employment and No. of factories by categories for the year 1975.

Table No. 31 deals with industrywise distribution of working factories according to working strength under major groups of industry during the year 1975 in Parbhani district.

Table No. 32 presents the distribution of factories according to number of days worked in Parbhani district in 1975. Major groups of industries are indicated in this table.

Table No. 33 dealing with Annual Survey of Industries, gives industrywise number of registered factories, productive capital employment, gross output and value added.

Table No. 34 on employment exchange gives monthwise number of registration, vacancies notified and number of live register during the year 1976-77 at Parbhani Employment Exchange.

In table No. 35 total registration and placements in employment during 1976-77 at Parbhani Employment Exchange are presented according to national classification of occupation.

Table No. 36 shows the number of works undertaken under Employment Guarantee Scheme, employment guaranteed and expenditure incurred during the financial year 1976-77.

Table No. 37 deals with employment under important categories of industries as on 31st March 1977.

Table No. 38 indicates the consumption of Electrical energy for different categories in Parbhani district.

Contd..

during the year 1976-77 and table No. 39 indicates the data regarding electrification of towns and villages in the district by Maharashtra State Electricity Board as at the end of March 1961, 1966, 1970, 1975, 1976 and 1977.

VI. Co-operation :- Table Nos. 40 to 47 pertain to co-operative statistics. The first table in the above groups is an abstract showing number of different societies functioning in the district during 1976-77. The table dealing with statistics of co-operative banks indicates number of branches, members and financial position of District Central Co-operative Bank, District Industrial Co-operative Bank, Maharashtra State Land Development Bank and Urban Banks for the year 1976-77.

The table dealing with primary agricultural societies gives talukawise number of such societies and their membership and their financial position during the year 1976-77. Operations of co-operative societies other than primary agricultural credit and banks are shown in table No. 43.

Table No. 44 relates to co-operative marketing societies which gives talukawise number of these societies and their memberships, value of purchase and value of sales both as owner and as agents.

Table dealing with operations of other co-operative societies gives societywise achievements under important items during the year 1976-77. The data regarding annual turn over of the regulated agricultural produce markets in Parbhani district is compiled in table No. 46 which shows the data regarding arrival and value of the agricultural produce brought at the above markets during 1976-77. The last table on co-operation shows number of registered money lenders and loans advanced by them during 1976-77 in each taluka of Parbhani district.

VII. Medical and Public Health :- Statistics relating to medical facilities available in the district, number of births, and deaths and infant mortality, deaths due to important causes, vaccinations

and cholera inoculations and family planning are presented in table Nos. 48 to 52.

VIII. Education :- Table No. 53 to 59 deal with literacy and extension of educational activities in Parbhani district.

Table No. 53 deals with literacy in Parbhani district according to 1971 Census. Table No. 54 to 55 deal with education in rural and urban areas as per 1961 Census.

Table No. 56 indicates the number of different educational institutions, sexwise number of students separately and number of teachers in each category of the institutions in Parbhani district for the years 1975-76 and 1976-77.

Table on backward class beneficiaries indicates number of candidates belonging to scheduled castes, scheduled tribes and other backward class according to various educational levels during the years 1975-76 and 1976-77.

Table No. 58 deals with concessions to economically backward classes at various levels of education. The last table on education indicates normal and plan expenditure on primary education incurred by different local bodies during the years 1975-76 and 1976-77.

IX. Transport and Communications :- Table Nos. 60 to 66 deal with railway length, road length, motor vehicles in operation, statistics on nationalised road transport, traffic census data postal statistics and rural broadcasting statistics.

Table on road length indicates length of roads according to classification of roads such as national high ways, state highways major district roads, other district roads, village roads etc. Simultaneously length of roads is also shown as classified according to type of surface. The length of roads under the administrative control of public works department and Zilla Parishad is shown separately. Table on motor vehicle statistics presents number of

Contd..

all types of motor vehicles operating in Aurangabad Division as on 31st March 1977. The figures for the district are not available separately.

Table No.63 indicates number of routes, route distance, number of passengers travelled per day and total traffic receipts during the year 1976-77 of Maharashtra State Road Transport Corporation for Parbhani division. Table on traffic census gives number of vehicles per day according to categories enumerated on important roads as on 31st December, 1975 alongwith location of count post, type of surface and total traffic intensity in tons per 24 hours are also given in the table. Another table in the group provides, postal statistics for the year 1961-62, 1965-66, 1970-71, 1974-75, 1975-76 and 1976-77.

The data relating to rural broadcasting services in Parbhani district as on 31st March 1977 are displayed in table No.66.

X. Local Bodies :- The data pertaining to finances, i.e. income and expenditure of local bodies such as Zilla Parishad, Village Panchayats and Municipal Councils is indicated in the table Nos. 67 to 70.

Table No.67 shows income and expenditure of the above mentioned three types of local bodies for the years 1965-66, 1968-69, 1970-71 to 1976-77.

Village Panchayats :- Table No. 68 indicates talukawise income and expenditure of village panchayats according to sources of income and items of expenditure during the year 1976-77.

Zilla Parishad :- Table No.69-A, 69-B and 69-C deal with the data relating to income and expenditure of Zilla Parishad Parbhani.

Cotnd...

In these tables figures for three years viz; 1975-76(actual) 1976-77 ( revised) and 1977-78 ( estimates) are shown according to heads of accounts.

Municipal Councils :- Data on income and expenditure pertaining to Municipal councils are furnished in table No. 70 for the year 1976-77.

XI. Plan and Community Development :- Table Nos. 71 and 72 deal with the Plan expenditure and physical achievements during 1975-76 and 1976-77. Table on expenditure indicates figures of expenditure incurred on plan schemes implemented in Annual Plans 1975-76 and 1976-77.

Table Nos. 73,74 and 75 deal with community development Programme expenditure and physical achievements in C.D. Blocks in Parbhani district as at the end of March 1977.

Table on C.D. programme indicates number of blocks as per C.P.A pattern, area, number of villages and population covered by various types of blocks by the end of 31st March 1977.

XII. Prices :- Table Nos. 76, 77 and 78 deal with average wholesale and retail prices and consumer price indices for working class in Aurangabad and Nanded centres.

Table on wholesale prices gives commoditywise wholesale prices of selected agricultural commodities at the regulated market centres in Parbhani district for the year 1976.

Table No. 78 in consumers price index gives monthly indicates for working class in Aurangabad and Nanded centres for the year 1976-77 alongwith average for the preceeding year.

XIII. Miscellaneous :- Table Nos. 79 to 81 deal with police force and crime statistics and data on work disposed off in civil and criminal cour

Last eleven tables from Nos. 82 to 92 deal with statistics relating to cinemas, banking, scheduled banks and deposits therein, Joint-stock companies, insurance, small savings, land revenue collections presses, journals quantity of food grains distributed to fair price shops, demand procurement of levy and trends in selected indicators .

XXXXXXXXXX

Rauf/

## CHAPTER NO. III

## Indicator No. 1

Percentage of Gross cropped area to net area sown

1.1 The percentage of gross cropped area to net area sown indicates the area under double cropping in Parbhani district the percentage of gross cropped areas to net area sown increased from 104.2 in 1960-61 to 108.7 in the year 1965-66 and 110.9 in 1975-76. The table below shows the percentage of gross cropped area to net area sown in each taluka of Parbhani district during 1960-61, 1965-66 and 1975-76.

TABLE NO. III-1

Table showing the percentage of gross cropped area to net area sown in each taluka of Parbhani district.

Sr No.	Taluka	Percentage of gross cropped area to net area sown			Increase (+) or decrease (-) over	
		1960-61	1965-66	1975-76	1960-61 and 1965-66	1965-66 and 1975-76
1	2	3	4	5	6	7
1.	Parbhani	100.00	114.3	107.3	(+) 14.1	(-) 6.8
2.	Jintur	107.6	107.4	110.8	(-) 0.2	(+) 3.4
3.	Hingoli	104.5	102.2	111.8	(-) 2.3	(+) 9.6
4.	Kalamnuri	102.1	104.1	108.2	(+) 2.0	(+) 4.1
5.	Basmath	100.2	107.0	105.3	(+) 6.2	(-) 1.7
6.	Gangakhed	107.0	109.0	110.8	(+) 2.0	(+) 1.8
7.	Pathri	106.0	109.6	116.0	(+) 3.6	(+) 6.4
8.	Partur	106.4	114.4	115.2	(+) 8.0	(+) 0.8
District Total		104.2	108.7	110.9	(+) 4.5	(+) 2.2

1.2 It will be seen from the above table that gross cropped area has increased in the talukas of Jintur, Hingoli, Kalamnuri, Gangakhed, Partur indicating the increase of 3.4 %, 9.6% 4.1% 1.7 % , 6.4% 0.8 % respectively, during the year 1975-76. Whereas during the same period the gross cropped area decreased in Parbhani & Basmath taluka indicating the decrease of 6.8 % and 1.6 % respectively.

Contd.

Indicator No. 2Productivity of Important Crops

2.1 The productivity of the crops mainly depends upon the agro-climatic condition and also on the irrigation facilities. The following table shows the yield per hectare and out-turn of Principle crops in Parbhani district during the year 1961-62, 1965-66 and 1975-76.

TABLE No. III.2

Table showing the yield per hectare and out-turn of important crops in Parbhani district.

Sr. No.	C r o p s	Yield per hectare (in kg)			Out-turn in '000' (Metric tonnes)		
		1961-62	1965-66	1975-76	1961-62	1965-66	1975-76
1	2	3	4	5	6	7	8
1.	Rice	492	335	1,656	8	5	26
2.	Wheat	541	203	1,032	35	11	72
3.	Jowar	437	426	901	159	146	176
4.	Bajra	254	-	222	1	-	4
5.	Total cereals	452	391	558	203	163	278
6.	Grams	337	249	295	13	7	10
7.	Tur	336	451	578	13	20	27
8.	Total pulses	257	297	370	46	56	82
9.	Sugarcane (in terms of Gur)	3,822	6,800	6,667	12	16	20
10	Cotton (interm of bales. 180 kg each)	35	72	30	46	105	37
11.	Groundnut	673	449	598	26	12	10

2.2 From the above table it is seen that under cereals the yield per hectare of Rice, wheat, jowar, and Bajra has considerably increased when compared to the year 1965-66. Similarly the yield per hectare of Tur and Gram under pulses have also increased. The above increases in the productivity of crops are mainly due to the increased in irrigation facilities and applicability of fertilizers in the district.

2.3 During the year 1975-76 the yield per hectare of all commodities have increased except cotton and sugarcane and outturn

Indicator No. 3

Gross Value of Agricultural Production.

3.1 Agriculture is the main source of livelihood of the people and the gross value of the Agricultural production of the district indicates the share of the agriculture in the district income.

3.2 In parbhani district the gross value of Agricultural Production increased from Rs. 2,026.69 lakhs in 1961-62 to Rs. 2,068.74 lakhs in 1965-66 and to Rs. 17,649.03 lakhs in 1975-76. This denoted an increase of Rs. 2.07 % in 1965-66 over the year 1961-62 and of 269.7 % increase in 1975-76 over the year 1965-66.

3.3 The significant increase in the gross value of production during 1975-76 is partly due to increase in the production of various commodities under pulses and oilseeds and partly due to increase in their prices.

Indicator No. 4

Percentage of Irrigated Area :

4.1 The percentage of irrigated area to net area sown indicates the ratio of irrigated area to net area sown. Similarly the percentage of gross irrigated area to net area irrigated shows the area under double irrigation.

4.2 The percentage of net irrigated area to net area sown increased from 1.54 % in 1965-66 to 5.05 % in 1975-76. Thus the net area irrigated increased by 3.51 % in 1975-76 over the year 1965-66.

4.3 In the year 1975-76 the area irrigated for more than once was Nil, while during 1965-66 that was 10 hectares. This was perhaps due to shortage of water resources during 1975-76.

Contd.

## Indicator No. 5

5.1 The cropping pattern of the district depend upon the availbiliary of irrigational facilities, agro-climatic conditions, methods of farming and soil types etc.

5.2 The table below shows the percentage of area under important food crops and non-food crops and also the percentage of irrigated area under food and non-food crops in Parbhani district during 1965-66 and 1975-76.

TABLE No. 3

Table showing the percentage of area under cereals pulses, total food crops, oilseeds and total non-food crops to total gross cropped area in 1965-66 and 1975-76

Sr. No.	Items	% of area to gross cropped area		% increase (+) or decrease (-) over 1965-66.
		1965-66	1975-76	
1	2	3	4	5
1.	Cereals	42.9	42.1	(-) 0.8
2.	Pulses	19.2	22.8	(+) 3.6
3.	Total food crops	63.5	65.9	(+) 2.4
4.	Fibres.	28.0	20.4	(-) 7.6
5.	Oil seeds.	8.5	13.6	(+) 5.1
6.	Total non-food crops	36.5	34.1	(-) 2.4
7.	Percentage of irrigated area under food crops to total irrigated area.	95.3	87.4	(-) 7.9
8.	Percentage of irrigated area under non-food crops to total irrigated area.	4.7	12.6	(+) 7.9

5.3 From the above table it will be seem that during the year 1975-76 the area under food crops increased to 65.9% from 63.5% in 1965-66 indicating the increase of 2.4%. But the area under non-food crops decreased by 2.4% in the year 1975-76. This indicates that the food crops are increasing gradually than the non-food crops in Parbhani district.

5.4 The percentage of irrigated area under food crops to total irrigated area during 1975-76 was 87.4% whereas the percentage during 1965-66 was 95.3% indicated a decrease of 7.9%

(Contd.)

over the same period. The percentage of irrigated area under non-food crops to the total irrigated area increased to 12.6% in 1975-76 from 4.7% in 1965-66 indicating an increase of 7.9%. Thus it is seen that in Parbhani district the use of irrigation facilities are being made increasingly for growing non-food crops.

Indicator No. 6

Increase in the agricultural credit outstanding dues and gross value of agricultural production :-

6.1. Agricultural credit plays an important role in boosting the production. The credit requirement in Parbhani district are mainly met by the District Central Co-operative Bank, Land Development Bank and Primary Agricultural Credit Societies.

6.2. The total amounts of loans advanced by the above agencies increased to Rs. 1,663.12 lakhs in 1976-77 from Rs. 440.90 lakhs in the year 1965-66 indicating an increase of 277.2%. The table below shows the amount of agricultural credit advanced by the various agencies and the gross value of agricultural production in Parbhani district.

TABLE No. III-4

Table showing agricultural credit, outstanding dues, gross value of Agricultural production for the year 1961-62, 1965-66 and 1976-77

Sr. No.	I t e m s	Rs. in lakhs			% increase (+) or decrease (-) over 1965-66
		1961-62	1965-66	1976-77	
1	2	3	4	5	6
<u>1. Loans advance by</u>					
a)	District Central Co-operative Bank.	14481.02	197.02	1193234	(+) 500.6
b)	District Land Development Bank.	12.55	33.95	22.94	(-) 3.24
c)	Primary Agricultural credit societies.	140.61	209.93	456.84	(+) 127.6
	Total (a + c).	297.97	440.90	1663.12	(+) 277.2
2.	Outstanding dues	140.85	272.44	1045.78	(+) 283.8
3.	Gross value of Agricultural production.	2026.69	2068.74	7649.03	(+) 269.7

\* Note :- The figure for the year 1975-76 as the figure for the year 1976-77 is not available.

6.3 The loan advanced by the district central co-operative bank Parbhani increased from Rs. 197.02 lakhs in 1965-66 to Rs. 1,183.34 lakhs in the year 1976-77, showing an increase of 500.6 %. Whereas the loan advanced by the Land Development Bank Parbhani decreased from 33.95 in 1965-66 to 22.94 in 1976-77 indicating an decrease of 3.2 . The loans advanced by the Primary Agricultural Credit societies increased to Rs. 456.84 lakhs in 1976-77 from Rs. 209.93 lakhs in the year 1965-66 indicating an increase of 117.6 % .

6.4 The amount of outstanding dues in the year 1976-77 also increased to Rs. 1,045.78 lakhs from Rs. 272.44 lakhs in 1965-66 showing an increase of 283.8 % .

6.5 The figure of gross value of Agricultural production for the year 1976-77 is not available hence the figures for the year 1975-76 has been reported in table No. III-4. The gross value of Agricultural production also increased to Rs. 7,649.03 in 1976-77 from Rs. 2,068.74 lakhs in 1965-66 denoting an increase of 269.7 % .

Indicator No. 7

7.1 The average Wage rate for various categories of labourers are collected from selected centres namely Kanergaon Naka in Hingoli tahsil, Palam in Gangakhed tahsil and Mantha in Partur tahsil during 1975 and 1976. The distribution of the average wage rates according to centres and categories of the labourers is given into following table .

TABLE NO. III-5

Average wage rates of various categories of Agricultural labourers during the year 1975 and 1976.

Sr. No.	Category of Labourers	Name of the centre	Average wage rates (in Rs.)	
			1975	1976
1	2	3	4	5
1.	Carpenter (Skilled)	Palam	5.00	5.00
		Kanergaon Naka	5.00	5.00
		Mantha	3.00	3.87
2.	Blacksmith (Skilled)	Palam	3.00	3.00
		Kanergaon naka	5.00	5.00
		Mantha	3.00	3.00

(Contd. Table No. III-5)

1	2	3	4	5
3.	Cobbler (Skilled)	Palam	2.00	2.00
		Kanergaon Naka	4.29	4.00
		Mantha	2.42	3.00
4.	Field labour (Male)	Palam	3.00	3.00
		Kanergaon	2.40	3.00
		Naka		
		Mantha	2.71	3.00
5.	Other Agrigultural Labourers (Male)	Palam	3.00	--
		Kanergaon	2.38	3.00
		Naka		
		Mantha	--	--
6.	Herdsmen	Palam	--	3.00
		Kanergaon	1.92	2.50
		Naka		
		Mantha	2.42	3.87

7.2 From the above table it would be seen that under category of skilled labour the wage rates paid to the Carpenters, Blacksmith and Cobblers during 1976 compared to 1975 are stable except a slight increase in Mantha centre for skilled Carpenter and skilled cobbler and a slight decrease at Kanergaon Naka centre for skilled Cobbler.

7.3 More or less in skilled categories Field labourers (Male), Other Agricultural Labourers (Male) and Herdsman there is a slight increase in their average wage rates paid during 1976 compared with 1975, except the stabilization for Palam centre for Field labour (Male).

In general it can be said that the wage rates had been increased under unskilled components than skilled components of agricultural labourers during 1976 compared with 1975.

Contd..

Indicator No. 8Bovine and ovine population compared to Cultivable area:

8.1 Livestock is the big source of power for the Agriculturist. Hence the comparison of the livestock population (Ovine and Bovine) with cultivable area in the district indicates the ratio of availability of livestock population per hectare of cultivable area. The table below indicates the taluka ratio of livestock population, with the cultivable area in Parbhani district.

TABLE No. III-6

## Livestock population compared to cultivable area.

Sr. No.	Name of the Taluka	Livestock of Bovine and Ovine Population per hectare of cultivable area		
		1961-62	1965-66	1975-76
1	2	3	4	5
1.	Parbhani	0.82	0.69	0.66
2.	Jintur	0.82	0.80	0.70
3.	Hingoli	0.74	0.80	0.86
4.	Kalamnuri	0.81	0.79	0.89
5.	Basmath	0.83	0.77	0.84
6.	Gangakhed	0.86	0.71	0.89
7.	Pathri	0.68	0.60	0.59
8.	Partur	0.69	0.63	0.62
	DISTRICT TOTAL	0.78	0.72	0.75

8.2 From the above table it will be seen that the ratio of ovine and bovine population per hectare of cultivable area for the district was 0.75 in the year 1975-76 and 0.72 in the year 1965-66. Thus there was a slight increase (0.03 %) in the ratio of Livestock population in the year 1975-76 over the year 1965-66.

Contd..

Indicator No. 9Poultry Compared to Population

9.1 Comparison of Poultry with human population is an essential indicator to assess the position at a point of time. The following table reviews the Poultry per thousand population in Parbhani district during 1966 and 1972.

TABLE NO. III-7

Table showing Poultry per thousand persons during 1966 and 1972 Livestock Census in Parbhani district.

Sr. No.	Taluka	Poultry per thousand persons	
		1966	1972
1	2	3	4
1.	Parbhani	111	80
2.	Jintur	93	132
3.	Hingoli	95	95
4.	Kalamnuri	143	130
5.	Basmath	58	58
6.	Gangakhed	112	132
7.	Pathri	86	88
8.	Partur	76	110
	DISTRICT TOTAL	98	105

9.2 From the above table it can be seen that the ratio of poultry per thousand population increased from 98 during 1966 to 105 during 1972. But while comparing the talukawise position in the district the highest ratio for the year 1972 are for Jintur (132), Gangakhed (132) and Kalamnuri (130) and the lowest being from the same year is for Basmath with (58).

9.3 While comparing the trend of increase from 1966 to 1972 the substantial increase is in Jintur tahsil followed by Partur tahsil and at the same the high rate of decrease is found in Parbhani tahsil followed by Kalamnuri tahsil. It can be said that a better development of poultry compared with the population is visible in Jintur tahsil from 1966 to 1972.

#### Indicator No. 10

##### Per capita consumption of Electricity

10.1 The per capita consumption of electricity indicates general level of economic growth in the district. The total number of villages electrified in the district increased to 695 during 1976-77 as against Nil during 1960-61. The per capita consumption of electricity also increased to 26.50 KWH. in the year 1976-77 as against 0.29 KWH. during the year 1960-61.

10.2 Electrical consumption during 1976-77 for industrial and Agricultural purposes was 21.8 % and 49.9 % respectively as against 23.2 % and 44.7 % respectively during 1975-76.

#### Indicator No. 11

##### Increase in the number of candidates in the employment exchange and vacancies notified.

11.1 In the year 1976-77 the number of candidates enrolled at the Employment Exchange was 7,677. The same was 2,015 during 1960-61. This shows an increase of 281.0 % during 1976-77 compared with 1960-61.

11.2 The total number of vacancies notified to the Employment Exchange was 982 during 1976-77 and 335 during 1960-61 which indicates an increase of 193 % in Parbhani district.

Contd.

Indicator No. 12

Increase in the number of indoor and outdoor patients treated in the Hospital/ Dispensaries etc.  
 =====

12.1 The total number of patients treated (including out-door and in-door) indicates the number of people availing the medical facilities in various medical institutions.

12.2 It is clearly observed that the patients treated indoor rapidly increased than the patients treated out-door within a spell of 15 years. The total number of in-door patients treated in Parbhani district were 4,457 during 1961, 5,453 during 1966 and 82,132 during 1976, which indicates an increase of 22.3 % for 1966 over 1961, and 1,406.2 % during 1976 over 1966. Similarly the out-door patients treated during 1961, 1966 and 1976 were 3,80,656, 6,51,813 and 9,30,000 which indicates an increase of 71.2 % during 1966 over 1961 and 42.7 % during 1976 over 1966. This means that the facilities in all the types of dispensaries have been increased so as to accommodate and keep the patients in the dispensaries.

12.3 During the year 1976 the highest number of indoor patients i.e. 44.1 % was treated in Parbhani taluka. This is mainly because there is only one hospital in the district and which has been located at Parbhani proper where the major facilities are made available for in-door treatment. Considering this point the indoor treatment for the patients for remaining tahsils are considerably less. Specially the Partur taluka has accounted 0.5 % for indoor treatment of patients.

12.4 Considering the hospital facilities at proper Parbhani 45.6 % of outdoor Patients were treated in Parbhani taluka alone during 1976. The lowest percentage i.e. 5.9 % was for Kalamnuri taluka during the same year for out-door patients treated.

Contd.,

Indicator No. 13Increase in the number of students in different categories

13.1 The total number of students in all the categories of educational institution increased from 89,055 in 1961-62 to 1,50,113 in 1965-66 and to 1,94,171 in 1976-77. This shows an increase of 68.6 % in 1965-66 over 1961-62 and 29.3% in 1976-77 over the year 1965-66. The following table shows the sex-wise number of students in different categories during 1961-62, 1965-66 and 1976-77.

TABLE No. III-8

Table showing the Sex-wise number of Students in different categories during the year 1961-62, 1965-66 and 1976-77 in Parbhani district.

Sr.No.	Category	1961-62	1965-66	1976-77	Increase(+) decrease(-) over 1965-66

	c) Total	549	491	--	-

13.2 From the above table it would be seen that the number of student in Pre-Primary schools increased to 1,028 in the year 1976-77 from 221 in the year 1965-66 denoting an increase of 365.2 %. Under the category of Primary schools the total number of students increased to 1,41,047 in 1976-77 from 1,10,153 in 1965-66. Showing the percentage increase of 28.0 %.

13.3 In Secondary school the total number of students also increased to 46,269 in 1976-77 from 38,422 in 1965-66 showing an increase of 20.4 %. Similarly the strength of college going students went upto 5827 in 1976-77 from 826 in 1965-66 indicating an increase of 605.4 %.

Contd..

INDICATOR No. 14

Increase in road length per 100 square kilometre

14.1 The total road length in Parbhani district increased from 405.34 kilometers in 1961 to 981.19 Kms. in 1966 and 4134.62 Kms. in 1977. Thus the road length per 100 square kilometer of geographical area increased from 3.72 kilometres in 1961 to 7.85 kilometres in 1966 and 33.11 kilometres in 1977. This indicates the percentage increase in road length by 110.9% in 1966 over 1961 and 321.496 in 1977 over 1966.

14.2 The increase in road length during the period from 1966 to 1977 was significant because during scarcity period, large number of road works were undertaken and completed.

INDICATOR NO. 15

Increase in Banking facilities in proportion to population

15.1 The total number of banking offices functioning in the district and the population served by them shows the average population covered by the banking offices in the district.

15.2 The total number of banking offices in Parbhani district increased from 14 in the year 1962 to 28 in 1966 and 71 in the year 1976. This indicated an increase of 100% in 1966 over 1962, and 154% in 1976 over the year 1966. The average population covered by each banking office was 86,159 in 1962, 43,079 in 1966 and 42,963 in 1976.

15.3 Out of the total 71 banking offices in the district 41 are co-operative banks and remaining 30 are scheduled banks. The majority of the co-operative banks are located in rural areas of the district and thus serve the rural population by financing agricultural credits to the farmers and stimulating savings.

CHAPTER NO. IV  
P L A N N I N G

The Annual Plan 1976-77 was the third year of Fifth Five Year Plan. After adopting district as a unit of Planning by the Government the Annual Plan 1976-77 like previous Annual plans, was formulated by the District Planning and Development Council, Parbhani district. While formulating the Annual Plan, the District Planning & Development Council had considered all the problems pertaining to the heads of the developments in the district. The overall size of the Annual plan for the year 1976-77 was determined on the basis of the financial ceiling fixed by the Govt.

During the first two years of the Fifth five year Plan i.e. 1974-75 and 1975-76, the actual expenditure was of Rs. 514.516 lakhs and Rs. 377.707 lakhs respectively against the plan outlays of Rs. 411.410 lakhs and Rs. 546.150 lakhs respectively. The actual expenditure for 1975-76 was of Rs. 110-507 lakhs over "Agricultural Programme", Rs. 33.482 lakhs over cooperation and community development Rs. 72.220 lakhs over irrigation & Power, Rs. 0.763 Lakhs over industry and mining, 18.697 lakhs over transport & communications, Rs. 104-874 lakhs over social services and Rs. 27.164 lakhs on miscellaneous which includes expenditure over employment gurantee shchem works. It would be seen from the above figures of expenditure, the maximum expenditure incurred over agricultural programme i.e. 29.26% of the total expenditure second highest being social services sector with 27.77% of the total expenditure and the third highest being irrigation & Power sector with 19.12% of the total expenditure. Next to these, in order the percentages of expenditure were according to the heads of development of miscellaneous 9.84% co-operation

contd

& community development 8.86 % transport and communications 4.95% and lastly the industry & mining 00.20%. It is evident that more emphasise was laid down on the schemes falling under agricultural programme and irrigation & power., so that important object of the plan i.e. increase in agricultural production and creating employment potential, to be successful.

It can also be observed from the above figures of expenditure the expenditure over industries & mining, head was quite insignificant because this district predominantly depends upon agriculture. as far as resources are concerned. The natural resources of development of the industries in the district are extremely limited. However, during the Fifth Five year Plan an attempt is being made to tap over the existing nature resources and establish agro-based industries like sugar factories and spinning Mills.

ANNUAL PLAN 1976-77

The Plan outlay for the year 1976-77 was of Rs. 516.00 lakhs and actual expenditure over the plan was of Rs. 583.370 lakhs. The table below shows the total expenditure according to heads of the development during the year under report.

TABLE No. IV-1

Table showing total expenditure on different heads of development during the year 1976-77 (Rs. in lakhs)

Sr. No.	Heads of development	Expenditure incurred on schemes		
		State sector	Local Sector	Total
1	2	3	4	5
1.	Agricultural programme	141.053	29.800	170.853 (29.29)
2.	Co-operation & community development.	1.452	5.087	6.539 (1.12)
3.	Irrigation & Power	136.950	-	136.950 (23.47)
4.	Industries & Mining	7.338	-	7.338 (1.26)
5.	Transport & communications	11.470	13.671	25.141 (4.31)
6.	Social Services	120.268	30.574	150.842 (25.86)
7.	Miscellaneous	85.707	-	85.707 (14.69)
	Total	504.238	79.132	583.370 (100.00)

(Figures in bracket showing percentage)

From the above table it can be seen that the top priority was given to the development head " agricultural programme" wherein 29.29 % of the total expenditure was accounted . The second priority was given to the social services head which accounted 25.85% of the total expenditure. The development head " irrigation & power" accounted 23.47 % of total expenditure with third in priority. Next to these, the heads of the development were miscellaneous with 14.69 % transport and communications with 4.31 %, industries & mining with 1.26 % and co-operation & community development with 1.12% of the total expenditure over the plan for the year 1976-77. Actually there is an increase of 54 % over the plan expenditure during the year 1976-77 than 1975-76. All the development heads accounted higher expenditure except co-operation and community development head. From the above table it can easily be seen that the most emphasise was given over the development heads as agriculture programme and irrigation & power, so as to increase agricultural production in the district. Similarly, Rs. 85.707 lakhs was spent over employment guarantee scheme works so as to provide employment to agricultural labourers. At the same, under the social services head the expenditure has increased during 1976-77 than 1975-76 for upliftment of socially backward class people.

Agricultural Programme.

Considering its priority during 1976-77, Rs. 170.853 lakhs was spent and distribution of the same as per sub-head, development heads is given in the following table.

TABLE No. IV-2

Table showing the sub-headwise expenditure under the agriculture programme during 1976-77

Sr. No.	Sub-head of development	(Rs. in lakhs)		
		State sector	Local sector	Total
1	2	3	4	5
1.	Agril. Production.	0.120	3.590	3.710 (2.17)
2.	Minor Irrigation	36.620	24.230	60.850 (35.62)

Contd.

1	2	3	4	5
3.	Soil Conservation	15.500	-	15.500 (9.07)
4.	Ayacut development	61.975	-	61.975 (36.27)
5.	Animal husbandry	00.880	1.980	2.860 (1.67)
6.	Dairy development	15.429	-	15.429 (9.03)
7.	Forests	8.909	-	8.909 (5.22)
8.	Fisheries	1.160	-	1.160 (0.68)
9.	Warehousing & Marketing	00.460	-	0.460 (0.27)
	Total	141.053	29.800	170.853 (100.00)

(N.B:- Figures in bracket showing percentages)

The sub-heads of development ayacut development and minor irrigation accounted for 36.27% and 35.62% of the total expenditure respectively according to priorities. After this, the other sub-heads of developments accounted 9.07%, 9.03%, 5.21%, 2.17%, 1.67%, 0.68% and 0.27% respectively for soil conservation, dairy development, forests, agricultural production, animal husbandry, fisheries and warehousing and marketing of the total expenditure under agricultural programme.

Important physical achievements under various sub-heads of all the development heads.

I. Agriculture programme :-

1. Agricultural production :- Under the scheme subsidy for pesticides and racticides thousand hectares had been covered for seed treatment programme, 29,183 hectares under Midzefly control and 20,580 hectares under rat control. Under the integrated area development scheme for small holders including community wells, 700 hectares have been covered with distribution of seeds, fertilizers, insecticides on 50% subsidy, and 590 small farmers and agricultural labourers had been provided with 50% subsidy for purchase of sheep and goats.

2. Minor Irrigation :- Under the sub-head irrigation potential of 868 hectares was created under both state and local sectors. 92 wells were constructed and 18 pump sets were installed under two different programmes under this subsector.

3. Soil Conservation :- 6,717 hectares of area was bunded and 8,723 hectares area was rectified. 825 hectares have covered under afforestation of soil conservation.

4. Ayacut development :- Under the scheme of ayacut development 9,501 hectares were covered during the reporting year.

5. Animal husbandry :- Under this sub-head Rs. 2.860 lakhs were spent to provide 90 Hifers under the scheme for providing subsidy for cross breed hifers, so establishment of 4 veterinary dispensaries and for providing 2,100 cross breed cows for the protection and control of foot and mouth diseases.

6. Dairy development :- Under this sub-head Rs. 15.429 lakhs were spent for achieving 3,000 litres of milk per day under town milk scheme and 8 federation societies had been provided.

Contd..

with management subsidy under the programme of "Organisation of milk producers" federations, managerial subsidy and financial assistance.

7. Forests :- Under the sub-sector of forests about 20 hectares of land was covered under the development of minor forest produce.

8. Fisheries :- Under the sub-head 4 fishery youths were trained and 245 kg. nylon twines were distributed among the fishermen. Managerial subsidy to the development of 3 fishery co-operative societies were provided. Spawn production was reached to 3.13 crores during this year under report.

9. Warehousing & Marketing :- Under the programme of development of agricultural marketing, loans had been provided to 2 agricultural marketing and 12 Agricultural produce Market committees were covered with subsidy for propoganda publicity and supervisory work.

## II. Co-operation & Community Development :-

1. Co-operation :- Under this sub-head Rs. 1.452 lakhs was spent in meeting outright grants to 28 societies under the programme of outright grants to village credit societies and District Central Co-operative Bank for credit of bad debts reserves, Management subsidy was provided to one farmers credit society, share capital contribution provided through ginning & pressing units and to the three wholesale agencies.

2. Community Development :- Under this sub-sector the expenditure was mainly incurred on continuation of C.D. blocks in the district, and 156 of works were got completed. Besides these, under the scheme of " Gramsafai Programme" 279 latrine sets were provided to the selected village panchayats.

## III. Irrigation & Power :-

1. Irrigation :- Rs. 4.990 lakhs under Karpura project was spent for modification of tail channel and land acquisition payment and Rs. 2.00 lakhs was spent over the Borna Project, for soil

Contd.

~~testing and temporary buildings and T&P purchases.~~ Under Masli Project Rs. 58.490 lakhs was spent over earth work earthen dam and masonry work and preparing of 14.5 Km. canal work.

2. Power :- Rs. 70,960 lakhs was spent for the rural electrification work of 45 villages and for the installation of 571 electric pumps and under normal development and system improvement 715 agricultural pumps were provided with electricity. Besides this, 100 pumps were electrified in Harijan Bastis.

#### IV. Industries & Mining :

1. Under the small scale industries financial assistances was provided to 15 units under S.A.I. rules. Rebate subsidy was provided to handloom unit under the scheme "development of handloom societies". 41 beneficiaries were assisted under the development of khadi craft. Under the employment promotion programme, 405 persons were assisted under seed money assistance, and 136 persons were trained under the training programme. Grant-in-aid to 8 Balutedar Societies was also provided.

#### V. Transport & Communications :

Under the local and state sectors 25.74 Kms. new roads were constructed and 56 minor community development works & 10 community development works were completed during the year under report. Besides this, under minimum need programme new roads measuring 33.00 Km. and 10 minor land development works were completed.

#### VI. Social & Community Services :

Under this sector an amount of Rs. 150.842 lakhs was spent during the year 1976-77. The details of expenditure incurred on different sub-sectors are shown in the following table.

Contd..

TABLE No. IV-3

Table showing the sub-headwise expenditure under social services during 1976-77

Sr. No.	Sub-head of development	Expenditure incurred on the schemes under		
		State Sector	Local sector	Total
1	2	3	4	5
1.	General Education	2,364	17,040	19,404 (12.86)
2.	Technical education	0.150	-	0.150 (0.10)
3.	Health	5,210	7,845	13,055 (8.65)
4.	Nutrition	--	0.178	00.178 (0.12)
5.	Water supply and drainage	79,903	3,930	83,833 (55.58)
6.	Urban Development	10,000	-	10,000 (6.63)
7.	Housing	12,785	-	12,785 (8.45)
8.	Welfare of backward classes	5,609	1,522	7,131 (4.73)
9.	Social Welfare	--	0.059	00.059 (0.04)
10.	Labour and labour welfare	4,247	-	4,247 (2.81)
	Total	120,268	30,574	150,842 (100.00)

(Figures in the bracket are showing percentages)

From the above table it can be seen the maximum expenditure had incurred over the sub-head water supply and drainage accounting to 55.58 % of the total expenditure over the development head social and community services. Then general education, health, housing, urban development and welfare of backward classes accounted 12.86%, 8.65%, 8.48%, 6.63% and 4.73% respectively of the total expenditure over the development head.

1) General education: Under this sub-sector two part time classes for age-group 11 to 14 were opened under the programme of book banks in primary and secondary schools. 30,502 beneficiaries were covered.

Seven higher secondary schools were developed into Junior

Contd.

colleges. Under in service training programme to the primary school teachers 3 courses were taken at one centre., 150 secondary teachers attended subject wise summer institute under training of teachers in work experience, 100 teachers were covered. An education concession for economically backward class pupils, 10,408 students were covered. 25 sons and daughters of primary teachers enjoyed free education.

2. Technical education :- Under the scheme of vocational higher secondary technical education, Xth standard was introduced

3. Health :- Under this sub-sector expansion facilities in Civil Hospital, Parbhani by starting a building for the pathology and 30 nurses quarters were started and in progress. 14 primary health centres and 117 sub-centres were increased in medicine grants.

4. Nutrition :- Under A.N.P. Rs. 0.178 lakhs were spent in one block.

5. Water supply & Drainage :- During the year under report for the improvement of Parbhani town water supply scheme was in progress. 8 schemes of rural piped water supply scheme were also in progress. 84 dry latrines were converted into flush of water borne latrines. Under the boaring operation of G.S.D.A 29 boars were dug.

6. Housing :- Under the housing programme, 4,904 huts were constructed and distributed to the landless agricultural labourers in rural area. Besides this, 4 hectares of land was acquired in 3 villages for house sites against the scheme of extension of gacthan and provision of house sites.

7. Urban Development :- 4 Municipal Councils were supplied with financial assistance for the implementation of development of plan.

9. Welfare of Backward classes :- Under the sub-sector of development 471 backward class students were granted tuition and examination fees, 59 backward class students were studying in high schools were provided scholarships, and 23 backward class students studying in I.T.I. were given stipends. 233 students from Nomadic Tribes, Vimukta Jatis and Scheduled tribes awarded with post S.S.C. scholarships. 20 backward class aided hostels with 997 students, the grant-in-aid was provided. 5 irrigation wells have been constructed under the programme of construction of new irrigations wells for backward class. Financial assistance to 5 industrial co-operative societies of backward classes was provided. 19 pump sets were installed in Adiwasi area. Financial assistance to the co-operative housing of backward class was provided for 46 tenements.

9. Social Welfare :- Rs. 5,900 were spent over the sub-sector as aid to the desitute children and expansion work under the Probation of Offenders Act for staff expenditure.

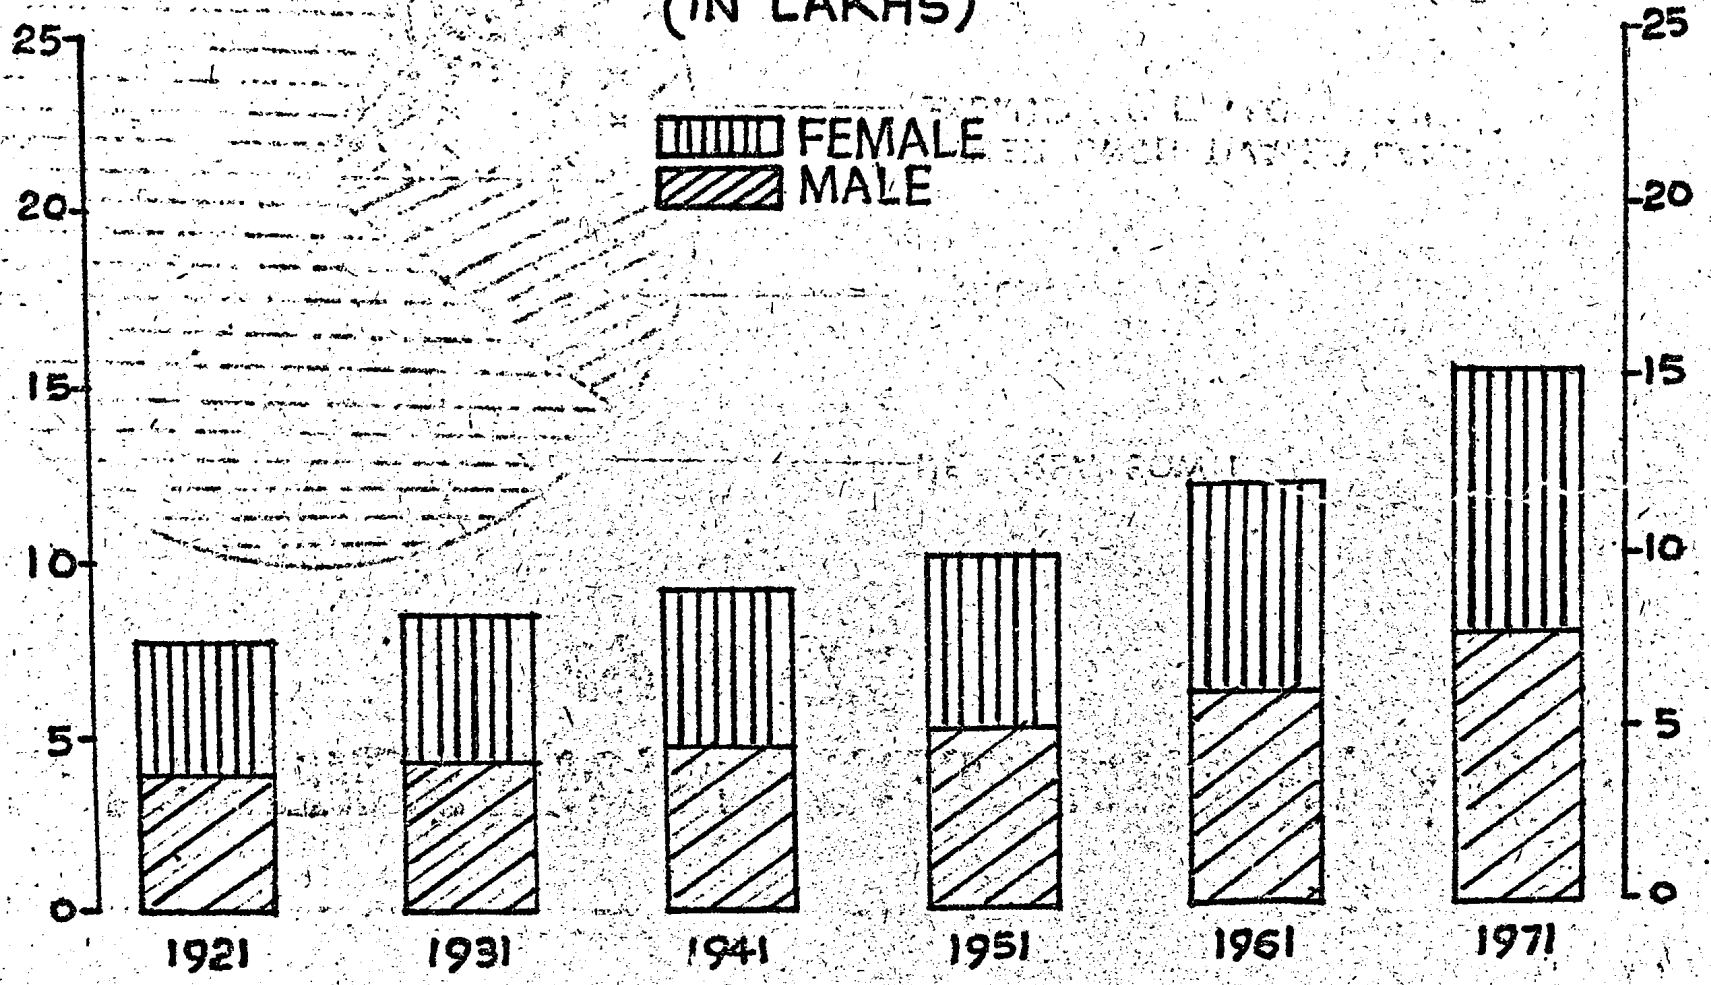

10. Labour and Labour Welfare :- Rs. 1.732 lakhs were spent under the programme of consolidation of making good deficiency in Industrial Training Institute. Under the programme of introduction of popular trade by replacing unpopular trade with eleven new staff members and 24 seats. Appr-enticeship training programme was introduced with 7 staff and 7 students.

VII. Miscellaneous

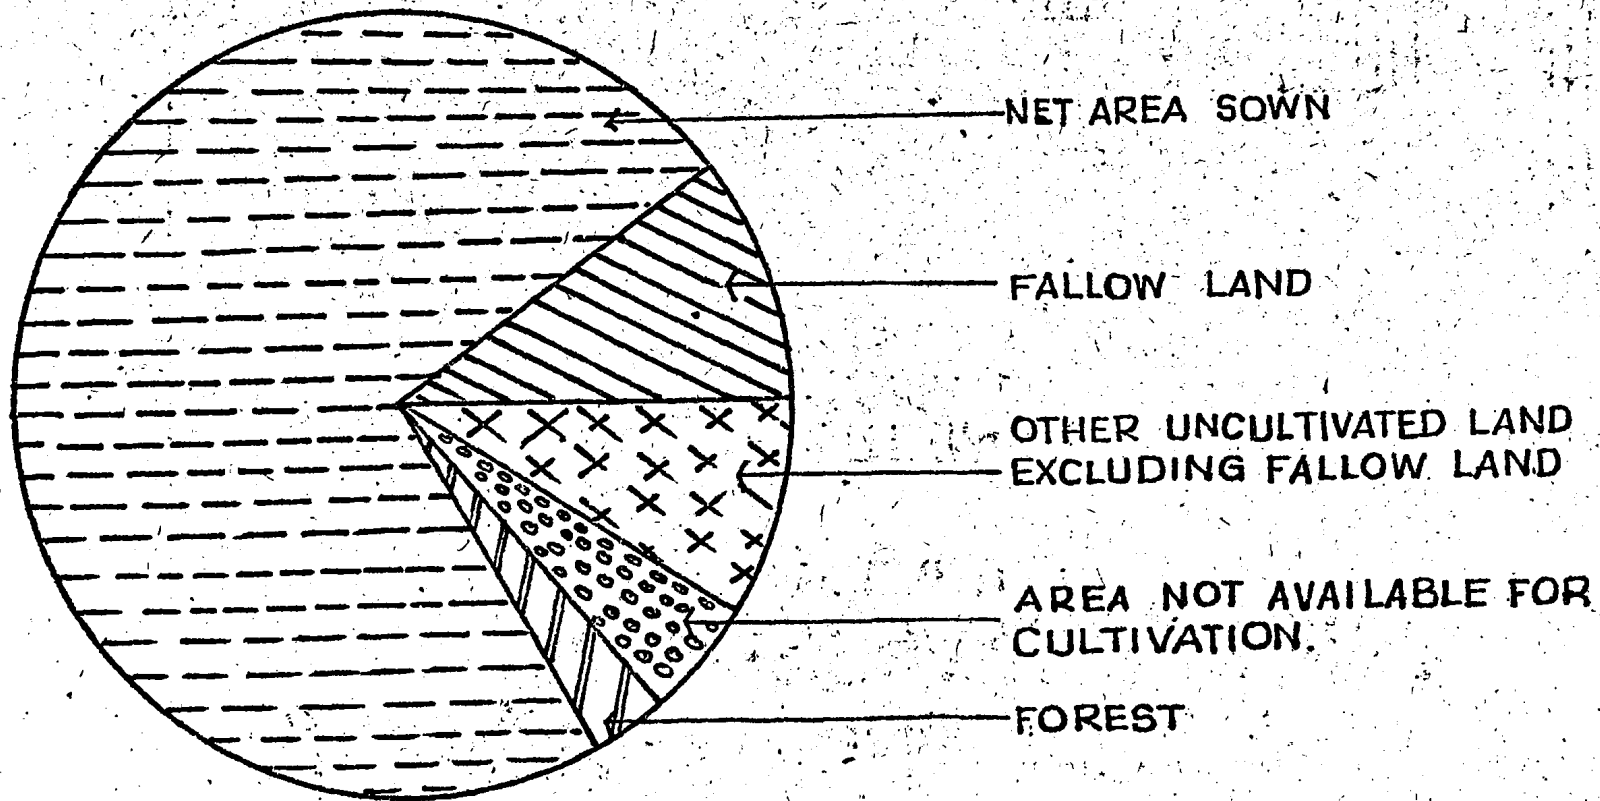

1. Employment Guarantee Scheme :- The E.G.S. was included in the Annual Plan with the main objectives to provide employment to the persons demanding employment. Accordingly, under the scheme the employment was generated by the Govt. to the persons who ask for manual work. Only productive works were allowed to undertake with 60% labour component and 40% material component under the scheme and Rs. 85.707 lakhs was spent during the reporting year to provide 3,76,926 mandays employment potential.

Sr. No. of Tables	S u b j e c t	Page Nos.
1	2	3
	<u>1. Area and Population</u>	
1.	Talukawise area, houses, and population in 1971 Census.	1
2.	Decadal Variation in Population since 1951	3
3.	Talukawise classification of villages according to population ranges in 1971 Census.	5
4.	Talukawise classification of towns, according to 1971 Census.	6
5.	No. of workers and non-workers in each taluka according to 1971 census.	7
6.	Distribution of population according to (A) Age groups, (B) religions.	9
7.	Scheduled caste and scheduled tribes according to 1971 Census.	10
	<u>2. Climate</u>	
8.	No. of rainy days and total rainfall at selected centres.	12
9.	Maximum and Minimum Temperature at selected centres.	14
	<u>3. Agriculture</u>	
10.	Land Utilization	15
11.	Area under different crops in each taluka	17
12.	Yield per hectare and out-turn of principal crops.	21
13.	Area irrigated by different sources in each taluka.	22
14.	Area irrigated under different crops in each taluka.	23
15.	Number of irrigation and other wells in each taluka.	25

1	2	3
16.	Availability of underground water	26
17.	Minor irrigation works	27
18.	Major and Medium Irrigation project.	28
19.	Agricultural Wage rate.	30
20.	Agricultural Census Operational holding.	33
21.	Agricultural implements.	35
22.	Famine, Scarcity and akin to scarcity.	36
23.	Determination of precarious and other scar- city areas according to history of scarcity	38
24.	4. Animal Husbandry, Forest and Fisheries Livestock in each taluka.	40
25.	Veterinary statistics in each taluka.	43
26.	Dis easewise livestock mortality .	44
27.	No. of slaughter houses.	45
28.(A)	Forest area in the district.	46
28.(B)	Major and Minor forest products in the dist.	47
29.	Inland fisheries in the district.	48
30.	5. Employment, Industry, Mining and Electricity No. of factories and average daily employment of workers .	49
31.	Industriwise distribution of working factories according to working strength	51
32.	Distribution of factories according to No. of days worked.	53
33.	Statistics relating to Annual survey of Industries.	55
34.	Employment Exchange statistics.	57
35.	Occupational distribution of total registra- tion and placement in employment exchange.	58
36.	Works undertaken in Employment Guarantee Scheme.	59
37.	Employment in different industries.	60

1	2 =	3
38.	Consumption of Electricity	61
39.	No. of towns and villages electrified and population covered in district.	62
	<u>6. Co-operation</u>	
40.	No. of different types of Co-operative societies.	64
41.	Statistics relating to Co-operative banks	65
42.	Primary Agricultural credit societies.	66
43.	Other Co-operative societies of different types.	68
44.	Operation of Central and primary co operative marketing societies.	69
45.	Operation of other co operative societies of different types.	71
46.	Operation of regulated markets.	72
47.	No. of registered Money Lenders and Loans advanced by them.	76
	<u>7. Medical and Public Health. --</u>	
48.	Medical facilities available through public and public aided bodies in each taluka.	77
49.	No. of birth and death registered.	79
50.	No. of death due to different causes	80
51.	Vaccination Statistics and cholera inoculation	81
52.	No. of Family Planning centres operating in the district.	82
	<u>8. Education</u>	
53.	Literacy in each taluka.	83
54.	Education in rural area in each taluka according to 1961 census.	84
55.	Education in Urban area according to 1961 census.	85
56.	No. of Institutions, pupils and teachers.	86
57.	No. of backward class beneficiaries.	87
58.	Economically backward class concession for free education.	88
59.	Expenditure on primary education by way of grant in -aids to local bodies.	89
	<u>9. Transport and Communications --</u>	
60.	Length of railway route.	90
61.	Road length according to category and surface classification.	91

1	2	3
62.	Motor vehicles in operation.	92
63.	Nationalised road transport.	93
64.	Traffic census on important roads.	94
65.	Information of post, telgraph and telephone statistics.	96
66.	Rural Broadcasting statistics.	97
	<b>10. Local Bodies.</b>	
67.	Income and expenditure of local bodies.	98
68.	Income and expenditure of Village Panchayats.	99
69 (A)	Headwise receipt of Zilla Parishad.	101
69 (B)	Government Grants to Zilla Parishad.	103
69 (C)	Headwise expenditure of Zilla Parishad	104
70	Income and expenditure of Zilla Parishad.	106
	<b>11. Plan and community development.</b>	
71.	Plan expenditure under different development heads / sub-heads.	108
72.	Important physical achievements under plan.	111
73.	Statement showing the C.D. Programme.	114
74.	Expenditure incurred on different stages of Blocks.	115
75.	Physical achievements in selected items in all blocks.	116
	<b>12. Prices</b>	
76.	Wholesale prices of certain agricultural commodities at selected centres.	118
77.	Average retail prices of important commodities at district headquarter.	132
78.	Consumer price Index number (revised series for working class).	140

1	2	3
79.	13. <u>M i s c e l l a n e o u s</u> Strength of police force statistics.	141
80.	Crime statistics.	142
81.	Work disposed off in Civil and criminal courts.	144
82.	Cinema Statistics.	145
83.	No. of Banking Offices.	146
84.	No. of Scheduled Bank	147
85.	No. of Joint stock Companies.	148
86.	No. of Insurance Policies issued and amount insured.	149
87.	Collection of Small Savings.	150
88.	Land Revenue collection in each taluka.	151
89.	No. of Presses, News Papers and Periodical published.	152
90.	Quantity of Rice, Wheat and Sugar issued to Fair Price Shops.	153
91.	Demand & procurement of levy in Parbhani dist.	154
92.	Statistics relating to General Elections held in 1972 and 1977.	155
93.	Trends in Selected indicators.	157.
