CHAPTER - I.

I. Introduction :

1.1 Brief History & Location :

Chandrapur district forming part of the Kingdom of Raghuji Bhonsale was finally Annexed by the East India Company in 1854. The Bhonsale dynasty had acquired the district from the Gond Kings and ruled the territory from 1751 to 1853 when Raghuji Bhonsale died heirless in 1853 and Nagpur district was created for administrative purposes by the company. Prior to the region of Bhonsale dynasty, the district was under the rule of the Gond King from about 1240 to 1751. The Gond King Ballarshah founded the Chanda Fort. The early history of Chandrapur district, Prior to the rule of the Gond Kings, has to be pieced together from different inscriptions found in the district. The Gond King occupied this territory from Mana Kings of Wairagarh. Earlier to Manas, Buddhist King known as Kosala kings were ruling over this part whose capital according to one source was at Chanda and from other source was at Bhadrawati and Wairagarh. However, it is in connection with Kosalas that we arrive at the first authentic historical record in the history about the district. Hiuen Tsiang, the Chinese pilgrim records that he visited the capital of Kosalas in 639 A.D. It is also conjectured that a strong Kingdom ruled in the early days at Bhadrawati with flourishing civilisation existing there.

Chandrapur district lies in Godavari basin and was formed as an independent district in 1854. Upto 1874 the district comprised only the three tahsils of Mul, Warora and Bramhapuri. In 1874 upper Godavari district of Madras was abolished and four talukas were adjoined to Chandrapur district to form one tahsil with Sironcha as its headquarters. The Zamindari estates from Bramhapuri and Chandrapur were merged into new tahsil with headquarters at Gadchiroli. In 1907, three tahsils of Cherala, Albaka and Nagpur were transferred to Madras State.

In 1956 with the reorganisations of States, the district was transferred from former Madhya Pradesh to Bilingual Bombay State. At present district is a part of Nagpur Division of Maharashtra State since 1st May 1960.

In March 1959, Rajura tahsil of Nanded district was transferred to Chandrapur district and was notified as an independent district and division under the Collector, Chandrapur and the Commissioner, Nagpur Division, Nagpur respectively. Now Rajura has become a tahsil of Chandrapur district and its connection with the Aurangabad Division is completely revoked.

The district with a population comprising the Marathi, Telugu and Gonds is of peculiar interest from linguistic and anthropological point of view. It has also many other claims to distinction. In mineral wealth it is remarkably rich, at it possesses vast Forests and its area under Govt:

Forests is bigger than the entire area of a few other districts in Maharashtra.

Its system of Agriculture is usually varying and in some respect, unique in the Division. The system of irrigation is very extensive and its sporting possibilities, though no longer what they were in the Past, are still unsurpassed in few parts of the country.

The district, lies between 18.41' and 20.50' north latitude and 78.48' and 80.55' east longitude.

1.2 Boundries :

Chandrapur district is bounded by Wardha, Nagpur and Bhandara districts on the north; Madhy Pradesh on the East Andhra Pradesh on the south and South-west; Yeotmal and Wardha districts towards the West and North-west. The whole of the western and Southern border is uninterruptedly bounded by the Wardha, the Pranhita and the Godavari Rivers. The Indrawati river flows along south east boundry of the district.

The Wainganga, river cuts the district into two halves. The eastern portion comprises, Sironcha and Gadchiroli Talukas which are in term of area, two largest talukas in the State, Occupying together 59.1 % of the total area of the district. The western portion consists of four talukas viz: Bramhapuri, Chandrapur, Warora and Rajura and accounts for the remaining 40.9% of the area occupied by the district.

1.3 Area :

The district occupies a total area of 25,641 Sq.Kms. or 10088.3 Sq. Miles having 3373 Villages (2840 inhabited and 533 uninhabited), 7 towns distributed amongst six talukas or Revenue sub-Divisions with population of 16,40,137 persons with density of 64 persons per Sq. Km.

The length at the northern extremity from East to West is about 192 Kms, while the length from Southern point to the Northern base is about 240 Kms. In term of area the district is biggest in the whole of Maharashtra State and second biggest in

India as stands next to Bastar district of Madhya Pradesh. The population according to 1971 Census and percentages of area and population of each taluka represented in table below :-

Sr. No.	Taluka	Head quarters.	Area in Sq.Kms/ Sq.Miles	No.of inhabited villages.	No.of Towns	1971 population.	% of area to total area	% of population to total population
1.	2.	3.	4.	5.	6.	7.	8.	9.

1.	2.	3.	4.	5.	6.	7.	8.	9.
6.	Rajura	Rajura	2010.6 (776.3)	249	2	125935	7.7	7.7
District Total.		Chandra-@ pur.	26128.7 (10088.3)	2840	7	1640137	100.0	100.0

Note:- (1) Figures in brackets in col: 4 denote are in Sq. Kms.

- ⊙ (2) This comprises the area of 25641.0 Sq.Kms. i.e. :- (i) Chandrapur district 23649 Sq.Km. and (ii) Rajura district 1992 Sq.Km. as reported by the Surveyour General of India.

1.4 Topography :

The district is broader on the north and gradually tapers down towards the south. Topographically the district can be divided into the following four zones-

(i) The plain fertile region in the West in the Wardha valley with its rich black soil and moderate rainfall with cotton, Jowar and Wheat as the main crops which covers half of Warora and Chandrapur talukas and whole of Rajura taluka.

(ii) The Western upland hilly region lies between Wardha and Chandrapur talukas and a major part of Bramhapuri Taluka. It has sandy Soil and sufficient rainfall being Rice and Jowar are the main Crops. Numerous hills have facilitated the construction of irrigation tanks in this zone.

(iii) The Wainganga basin comprises of the eastern parts of Bramhapuri and Chandrapur Talukas and Western part of Gadchiroli taluka. It has a fertile black soil with sufficient rainfall Rice being a maincrop.

(iv) The eastern upland comprises major part of Gadchiroli taluka and whole of Sironcha talukas. It has a hilly area with thick forests, heavy rainfall and large tribal population Rice being the main crop. It covers nearly half of the total area of the district.

1.5 Hills, Rivers and Soil.:

The whole of eastern portion of the district and the southern portion all along the eastern border is hilly and forms part of the eastern upland natural Zone. The important hill ranges lie in the south. They are mainly Tipagarh Range, the Sirkonda range near Sironcha, the Gadulgatta hills and the Surjagarh hills. To the South-West of Surgagarh hills beyond Indrawati river lies the famous Bhamragarh hills which has overlook confluence of three mountain rivers and noted as unrivalled beauty spot in the district.

The Tipagarh range rises to an elevation of 609 metres and Sirkonda range is 548 metres above sea level. The other hill ranges in Sironcha taluka attain a height of 609 to 914 metres. The highest peak in the district is in the Gadulgatta ranges i.e. 967 metres.

The Western upland comprises the main ranges of Chimur and Mul hills. They are of little height while serve as watersheds of the Wardha and the Wainganga rivers. The Chimur hills commence east of Chimur in the north of Warora taluka and stretch southwards with breaks from north to south

with an average elevation of 237 metres above the surrounding plain. The range is 32 Kilometres in length and 9.6 Kilometres in breadth. The highest peak is of 409 metres.

The Mul hills run east and parallel to Ghimur hills and form a boundry between Warora and Bramhapuri Tahsils.

The general height of the plain country in district is about 274 metres above sea level in the north falling to 200 metres at Chanda and 649.6 metres at Sironcha.

The main rivess of the district are the Wainganga, the Wardha, the Pranhita, the Indrawati and Godavari. During its course in the south easternly direction, the Wardha river receives the Wainganga at village Seoni on the right bank and the Erai on the left. After the confluence with the Wainganga, the combined stream is known as the Pranhita. The Pranhita join the Godavari near Sironcha. The Indrawati flows into the Godavari along the south east boundry of the district.

The Wainganga enters the district near the Centre of the northern boundry and slices the district into two unequal parts. The Wainganga is the receipient of numerous tributaries on either banks and ultimately received the drainage of the entire Central portion of the district. The main rivers flowing from north to south are the Kathani and the Potphodi meeting from the left and the Andhari on the right.

The Wardha, the Pranhita and the Godavari are the perennial rivers of the district.

The soil of the district falls into clearly defined tracts and each of these tracts display cropping pattern of wholly different kind. The most fertile tracts are found in the Wardha and the Wainganga Valleys. The varieties of soil in the district are numerous and are known by many local names which could be grouped under the representative classes viz: Kali, Kanhar, Barsi-Kanhar, Morand, Khurdi, Wardi, Retari or Bardi, Pandhari and Kachhar which is found in Sironcha taluka along the banks of Godavari. The soil of the district falls into different kinds from that of its immediate neighbours.

On the extreme West, on the left bank of the Wardha and the Godavari, there is a broad strip of black soil known as Kali which is retentive of Moisture and suitable for Cotton, Wheat, Gram, Jowar and Linseed. Further in the interior but immediately adjoining this open tract there is a range of small hills with poor soil at their feet and in the intervening strips. This soil is of little use without irrigation.

It is an ideal soil for Rice and Sugarcane. Further eastwards and on the either bank of river Wainganga the black loam reappears and is accompanied by few Rice growing villages.

Towards the east of Wainganga valley, the soil becomes poor and hills are abundant. Rice is the staple crop of this tract.

1.6 Climate, Temperature and Rainfall :

Chandrapur district is considered to be one of the hottest district of Maharashtra. Chandrapur district headquarters is slightly hot than Nagpur City. The highest temperature on record is 48.4 degrees centigrades on 18th May 1997. The nights are uncomfortable in the months of May & June which are considered to be the hottest months of the year. The immense heat combined with high percentage of humidity due to the large forests in the district makes the climate uncomfortable. The nights are cool upto end of April. Winter is equally severe. The lowest temperature on record is 2.8 degrees centigrades as recorded on 10th January, 1899.

Generally, May is the hottest month of the year. The temperature recording is done at Chandrapur, Bramhapuri and Sironcha. The highest temperature recorded during the year 1976 at all these three centres was ^{44.2, 42.7 and 41.9} centigrades ^{respectively}. The minimum temperature recorded during 1976 at these three centres was ^{23.8, 11.7 and 13.2} respectively. Winter is more severe in December.

The South Western Mansoons are the Chief Source of rain in the district which is divided into three rainfall Zones viz:-

(1) The eastern Zone comprising Gadchiroli, Sironcha and Bramhapuri talukas having heavy and assured rainfall, the mean rainfall being about 1524 milimetre or 60 inches.

(2) The Central Zone comprising Chandrapur and Rajura talukas with sufficient rains having normal rainfall 1302 millimetres or 50 inches.

(3) The western zone comprising Warora Taluka having moderate rainfall with normal rainfall 1143 millimetre of 45 inches.

The monthwise rainfall in six centres of taluka headquarters is indicated in Table No. 8.

1.7 The Development of the District :

The district is wellknown for its vastness, rich forest and mineral wealth. Though the Chandrapur district endowed with rich soil, Water and mineral resources, favourable climate, adequate manpower and low density population it is paradoxically a backward area with low income and high unemployment. This calls for immediate measures to harness the resources of the district and optimise their use. Much efforts are being made in recent era of planning in this district. Some special plans are especially prepared for all out development of the district.

1. TOTAL ECO-SYSTEM Development Plan for Chandrapur:

The Govt: in planning Department have set up Four Task Forces to examine the various aspects of the comprehensive Development Plan for Chandrapur district for exploitation of the vast resources in the district.

The Four Task-forces set up for are:-

- (i) Task Force on Mining and Mineral based industries.
- (ii) Task Force on Forest based industries.

(iii) Task Force on Agro-Cattle Fisheries based industries.

(iv) Task Force on Infrastructure.

The Task Forces analyse SWOT- (Strength, Weakness, Opportunitites and Treats) pertaining to the concerned sectors and proposed appropriate development projects in the context of the existing and untapped resources of the sectors concerned.

2. Integrated Rural Development for Chandrapur District :-

A working group set up in May 1976 by the Department of Rural Development Govt: of India selected Chandrapur district from Maharashtra State for setting up Integrated Rural Development (IRD) Project on the criteria fixed for selecting the districts. The task of preparing a portfolio of action plan was assigned to the Panjabrao Krishi Vidyapeet, Akola. Action plan was thus prepared by the Panjabrao Krishi Vihyapeeth Akola and I.R.D. Project for Chandrapur district is completed for implementing the schemes.

3. Small Farmers Development Agency. (SFDA).

Under Page Yojana this district was taken up for implementation of I.A.D.P.-Integrated Area Development Project. Bramhapuri and Naghid Panchayat Samiti areas were selected for implementation of the schemes under I.A.D.P. Besides, this district is entrusted with S.F.D.A. Project during 1976-77. Sixteen blocks are being covered under S.F.D.A. Project for implementation of schemes benefiting to the Small holders.

... 12 ...

4. Integrated Tribal Development Projects : (I.T.D.Ps.)

Being more concentration of Tribals in this district Govt: has identified the Adiwasi areas in Chandrapur district covering 2129 Villages from Sironcha, Gadchiroli and Rajura Talukas under Tribal Sub-plan and from Chandrapur, Bramhapuri and Warora Talukas under Additional Tribal Sub-Plan Area.

Government has asked to prepare a detailed "Integrated Tribal Development Project Reports" for Tribal Sub-Plan Areas. Three I.T.D. Projects Viz; (1) Sironcha-covering 650 villages of Sironcha taluka i.e. Whole of Sironcha Taluka (2) Gadchiroli-Covering 743 Villages of Gadchiroli Taluka and (3) Rajura- covering 181 Villages of Rajura Taluka have been formulated in the district. Three Project Officers one each for Sironcha, Gadchiroli and Rajura I.T.D.P.s are posted in these three project areas for implementing the schemes and development of these Tribal areas and Adivasis.

Besides these three Projects one more projects for additional Tribal Sub-plan area has also been established in this district at Chimur in Warora Taluka covering Additional Tribal Sub-plan Villages in Chandrapur, Bramhapuri and Warora Talukas.

//*****//

CHAPTER - II.

(Explanatory notes on the scope and limitations of the Statistical Data presented in the Part-II of District Statistical Abstract).

I. Purpose :- The abstract part of this publication gives exhaustive statistical data on important Socio-Economic indicators of development. Tables on almost all important topics are presented in this part, so that the publication could serve as a reference book. Taluka-wise data have been displayed as far as possible for inter taluka comparison. It has been further decided to display Panchayat Samitiwise data, wherever possible, in the tables of abstract. In most of the tables data for 1976-77 have been indicated while for few tables comparative data for 1975-76 and 1976-77 or even for earlier years are given. In the tables wherein data for 1976-77 could not be presented the same for the latest years, for which that was available have been shown. In case of population 1971 and Livestock 1972, the data for latest census have been presented. All the data are collected from the State & Central Government Offices, Local ^{Bodies}, and other relevant agencies. The footnotes below each table indicate the source from which the data have been collected.

II. District at a Glance: This table presents a birds eye-view of the Socio-Economic Indicators of development in Chandrapur district and Maharashtra State under different heads, such as area,

population, agriculture, animal husbandry, education, transport and communication, plan and C.D. Programme, Local Bodies and Other miscellaneous Statistics. Reference year of the data is also indicated in the table.

III. Concepts, Scope and limitation :

The Statistical tables presented in the District Statistical Abstract are grouped into 13 parts. The concepts of the tables and the scope and limitations of the data presented under each group are explained below :

1. Area and Population :

In all 7 Tables i.e. Table No.1 to 7 are included in this section. Data for 1971 population Census for the district as a whole as made available from the Primary Census Abstract of 1971 is given in all the tables. Reference period of 1971 population census was sunrise of 1st July, 1971.

The Table No.1 indicates area in Sq.Km. Population density per Sq. Km. number of inhabited and uninhabited villages number of towns, number of occupied residential houses, number of households and sexwise population as per 1971 Census for the rural and urban areas for the district as a whole. The area of the district as supplied by the Surveyor General of India is less than the area of 1961 Census and is therefore, to be treated as provisional.

Table No.2 shows decadal variation in population of the district since 1951.

Table No.3 gives classification of inhabited villages according to different population ranges. The term village (i.e. rural area) used in the table denote a statutory recognised village having a well defined boundry and seperate land records. Hamlets, Wadis or Padas have, therefore, not been shown seperately as villages. On the other hand, statutory recognised villages having no population have been shown seperately as "Uninhabited" villages. Villages also includes forest villages comprising mostly of Forest Labourers and their families. Total population of the villages in each range is also indicated inthe table.

Table No.4 gives classification of towns and urban area according to different population ranges. Total population of the towns and urban area in each range is also indicated.

For any place to be recognised as an urban area (town) for the 1971 Census, it was to have a municipal corporation or an area under a municipal council or a contonment or a Civil line. It did not have any of these urban local bodies to administer it affairs, the following empirical tests were applied, (a) a minimum population of 5,000 (estimated for 1971) ; (b) a density of not less than 400 per per Km² (1,000 per sq.mile) ; (c) 75 percent of the male working population pursuing occupations falling outside agriculture; (d) the place should have according to the Director of Census Operations

of the State, a few pronounced urban Characteristics and amenities.

The towns having municipalities are suffixed with letter "M" whereas the urban areas without municipalities are not suffixed with any letter.

Table No.5 gives number of Workers classified into 9 categories alongwith total number of non-workers.

Table No.6 gives distribution of population according to (A) Age groups and (B) Religion seperately for Rural and Urban areas, and for the district as a whole as per 1971 Census.

Table No.7 gives scheduled Castes and Scheduled Tribes population in rural and urban areas in the district according to 1971 Census.

2. Climate:

Only two tables are included in this section pertaining to rain fall and temperature at the selected centres in Chandrapur district.

The Table No.8 gives monthly rainfall and number of rainy days in each month at the selected Centres for the year 1976. The data is collected through Revenue Agency. A day is treated as "Rainy day" if during the 24 hours, the rainguage recorded a minimum of 2.5 M.M.of rainfall. Annual rainfall for each centre is also indicated in the table. "Normal rainfall is the average rainfall over a period of 10 years.

Table No.9 gives monthwise "Maximum" and "Minimum" and also annual temperature as recorded at selected centres for the year 1976. The data is supplied by the Govt: of India's Regional Meterological Centre Nagpur. The maximum and minimum temperature recorded daily during the month at selected centres.

3. Agriculture:

In all 14 Tables i.e. Table No.10 to 23 are included in this section.

Table No.10 indicates talukawise figures of land utilisation under the standard heads of land uses for the years 1974-75 and 1975-76. Against each taluka the break-up of the total geographical area according to different types of land uses is shown. Major constituents of the Geographical area are Forests, area not available for cultivation i.e. land put to non-agricultural uses, Barren and uncultivable land. Other uncultivated land excluding fallow land i.e. cultivable waste, permanent pastures and other grazing lands, lands under miscellaneous tree crops etc. not included in area sown; Fallow land i.e. current fallows, other fallows and lastly net area sown, area under Forest included all actual forest areas of lands classed or administered as forests under any legal enactment dealing with forests whether State owned or Private. If any portion of such land is not actually wooded but put to some agricultural use, that portion is

included under the appropriate heading of cultivated or uncultivated land as the case may be. 'Land put to non-agricultural uses stands for all land occupied by buildings, roads and railways or under water e.g. rivers and canals and other land put to uses, other than agriculture. "Barren and unculturable Land" covers all barren and unculturable land like mountains deserts etc; Land which can not be brought under cultivation unless at a high cost is classified as 'Barren and unculturable' land', whether such land is in isolated blocks or within cultivated holdings. 'Culturable waste includes all land available for cultivation whether not taken up for cultivation or taken up for cultivation once, but not cultivated during the current year and last five years and more in succession. Such lands may be either fallow or covered with shrubs and jungles which are not put to any use. They may be assessed are not assessed and may lie in isolated blocks or within cultivated holdings. Permanent pastures and other grazing lands cover all grazing lands, whether they are permanent pastures and meadows or not. Village common and grazinglands within forest areas are included under this head. 'Land under miscellaneous tree crops etc. not included in the net area sown' includes all cultivable land, which is not included under net area sown, but is put to some agricultural use. Land under casurina trees, thatching grass, bamboo bushes and other for fuel etc; which are not included under 'Orchards' are

classed under this category. Current fallow comprises of cropped areas, which are kept fallow during the current year. 'Other fallow' land includes all lands which were taken up for cultivation, but are temporarily out of cultivation for a period of not less than one year and not more than five years. The 'Gross cropped area' represents the sum total of area under all crops. The difference between the total gross cropped area and net area sown is accounted for by the area sown more than once during the same year with the same or different crops.

The Table No.12 gives yield per hectare and outturn in hundred metric tonnes for important crops for the years 1974-75 and 1975-76. The yield rates and outturn for 1975-76 are worked out on the revised forecast. The production of sugarcane is in terms of Gur while cotton production is in term of bales of 180 Kgs. each.

Data about availability of under ground water in the district is presented in table No.16. Table No.17 gives the information about Minor Irrigation while Table No.18 gives the information on Major and Medium Irrigation Projects in this district. Both completed and incomplete projects have been covered in this table. Position in this table is as it was on 30th June, 1976. The cost of Medium Projects ranges between Rs. 20 Lakhs to 5 crores, whereas that of a Major irrigation Project, it is Rs.5/- crores and above.

The table No.19 deals with monthly agricultural wage rates in 1976. This data is collected fortnightly throughout the year from three selected rural Centres viz.(1) Sindewahi (2) Mul. and (3) Kothari in the district.

Table No.20 gives information about operational holdings as per Agricultural Census,1970.

Table No.21 provides livestock data as per Livestock Census, 1972. Table No.22 provides famine and scarcity data in each taluka giving the no.of villages affected during the year 1970-71 to 1976-77. The data in table No.23 is related to Agriculture year while data in table No.22 is for financial year. Hence villages affected as given in Table No.22 will not tally with table No.23.

4. Animal Husbandry :

In all six tables i.e. table No.24 to 29 are included in this section. Table No.24 to 27 provides Panchayat Samitiwise data.

Table No.24 gives number of various types of Livestock and Poultry as enumerated in the district in the livestock Census 1972. Table No.25 provides veterinary Statistics during 1976-77. Table No.26 gives information about livestock mortality diseasewise during 1976-77 while Table No.27 gives information about no.of slaughter houses and no.of animals slaughtered during 1976-77.

Table No. 28(A) gives details of area in different types of Forests during the year 1976-77. Data regarding Forests under the control of State Government's Forest Department are shown separately. The areas under forests are classified according to legal Status into reserved, protected and unclassed forests. The legal status refers to the classification of Forests under the Indian Forest Act XVI of 1927. Reserved Forests are those that are intended mainly for timber production, wherein the rights of grazing and cultivation are seldom allowed.

In protected forests, the restrictions are not so rigid. Right of grazing or cultivation is allowed, but certain limitations and restrictions are imposed. The unclassed forest refer to the inaccessible forest or uncounted waste. The forests which are taken up by Govt: from local bodies or private individuals for management on lease basis are called leased Forests. There is no classification of Exproprietary Forests as such but in Nagpur Division some private lands containing valuable forests are taken over by Govt: under section 29 of the Indian Forests Act, which are not yet classified as per ~~tripartite~~ tripartite classification and they are termed as exproprietary. The Forest area shown in Table No.28(A) may not tally with the area under Forest shown in table No.10. The two sets of figures differ due to the following reasons.

(i) In the Indian Forest Statistical Returns the whole area including non-wooden area under the

control of the Forest Deptt: is taken as area under forests, while in agricultural Statistics, it is classified according to its actual utilisation.

(ii) The Forest Department returns are meant to serve a definite administrative purpose to indicate the ownership of the forest areas and the actual utilisation of these areas is not so important from the point of view of Forest Deptt: as it is in the land utilisation Statistics under Agriculture.

(iii) The Forest Deptt: returns relate to financial year while the Agricultural statistics relate to the agricultural year.

Table No.29(A) in this section gives information related to Inland Fisheries, and provides data about fish production.

5. Employment, Industry, Mining and Electricity :

In all 10 tables i.e. Table No. 30 to 39 are included in this section.

The Factory statistics shown in Table No. 30, 31 & 32 cover following types of factories registered under the Factories Act, 1948:

(1) Those employing ten or more workers with the aid of power (Section 2 (i)).

(2) Those employing twenty or more workers and working without the aid of Power (Section 2(ii) and

(3) Those registered under section 85 of the Act, under which the State Government makes applicable the provision of the Act, even though the

above conditions are not fulfilled.

Table No. 33 provides information based on Annual Survey of Industries. Table No. 34 regarding Employment Exchange Statistics gives information relating to No. of Registration, vacancies, Employers using exchange and candidates placed in employment. Table No. 35 gives occupational distribution of total registrations and placements in the Employment Exchange for the year 1976-77 and according to standard National classification.

Table No. 36 provides works undertaken in Employment Guarantee Scheme during 1976-77.

6. Co-operation :

In all 8 tables i.e. Table No. 40 to 47 are included in this section.

Table No. 42 gives panchayat Samitiwise number of Primary Agricultural Credit Societies, Their membership, share capital, Reserve and other Funds working capital, loans advanced and recovered, Loans outstanding and overdue and percentage of recovery to total loan advanced for the year 1976-77. 'Working Capital' includes paid up share capital, deposits and borrowings. Loans outstanding include outstanding in respect of Loans, Cash credits and overdrafts and the amount of outstanding bills purchased or discontinued. 'Overdues' referred to amount of loan or instalments which were due for collection but which were not actually collected and for the repayment of which no extension has been granted by a competent authority.

The table No. 47 gives Panchayat Samitiwise number of Registered Money lenders and loans advanced by them during 1976-77. The separate figures of loans advanced to traders and Non-Traders have been furnished in the table. The transactions of Money lending in the State are regulated under the provision of Bombay money lenders Act. The information for loans advanced to traders and non-traders relates to those money lenders who have submitted the returns.

7. Medical and Public Health :

In all 5 Tables i.e. Table No.48 to 52 are included in this section.

Table No. 48 given in this section indicates Panchayat Samiti-wise number of hospitals, dispensaries, Maternity and P.H.C.s doctors, Nurses, vaidyas, beds and total no.of indoor and outdoor Patients treated for the year 1976. The Table covers all the State and Central Govt. medical institutions and also institutions owned by municipalities and local bodies engaged in providing medical facilities. Private clinics run by private bodies or individuals are however, not included in this table.

The Table No.49 provides Vital Statistics about number of registered births and deaths in the district during 1976. Table No.52 relates to Family Planning Programme for the year 1976-77 in this district.

8. Education :

In all 7 Tables i.e. Table No.53 to 59 are included in this section. Table No.53 gives sexwise number of literates and percentage of literacy separately for rural and urban areas and for males and females. As per 1971 Census definition, a person was classified as a literate if he was able to read or write a simple letter in any language. Education level in rural and urban areas are shown in Table No.54 & 55 separately according to 1961 census as this data for 1971 census is not yet available.

Table No.56 gives information regarding No.of educational institutions according to types for the year 1975-76 and 1976-77(Provisional). Sexwise enrolment and no.of trained and untrained teachers in these institutions, is also included in this table. The classification of institutions according to type is slightly different from stage of education. There are at present many secondary schools, which also impart education in primary course. Nevertheless, the entire enrolment of students is included under 'Secondary Education'. Primary institutions provide education for standard I to IV or ~~xix~~ standards I to VII/VIII or less and teach the curriculum approved by the Education Deptt: The secondary institutions Coach the students for standard VIII to X/XI with or without lower standards, Higher Education is education after passing secondary school certificate examination, which leads to a Degree examination.

The table No.57 presents data on the no.of beneficiaries amongst backward classes such as S.C./S.T. and other Backward classes for the year 1975-76 and 1976-77. Beneficiaries for this table are persons who are getting educational concessions of either type such as scholarships, freships etc;

9. Transport and Communications :-

In all 7 Tables i.e. Table No.60 to 66 are included in this section.

Table No.60 gives total railway length as at the end of March 1977 according to type of routes- Broad Guage, Meter Guage and Narrow Guage. The Railway length is measured between the first and the the last stations within the district boundry. The figures of length of each type of route are, therefore, approximate and not accurate.

The table No.63 deals with operational Statistics of Nationalised Road Transport in Chandrapur S.T. Division.

The Table No. 64 presents the results of the traffic Census of important roads conducted by Building and Communication Deptt., Govt: of Maharashtra. Data of the number of vehicles is according to categories and location of count-post. Type of surface and total traffic intensity in tons per 24 hours are also indicated in the Tables.

10. Local Bodies :

In all 4 Tables i.e. Table No. 67 to 70 are included in this section.

The Table no.67 gives abstract of income and expenditure of local bodies such as village Panchayats, Zilla Parishads and Municipal Councils for the financial years 1965-66 and 1968-69 to 1976-77. The number of village panchayats includes number of individual village Panchayats as well as group village Panchayats.

11. Plan & Community Development:

In all 5 Tables i.e. Table No.71 to 75 are included in this section.

The Table No.71 gives total expenditure during Fourth Five Year Plan and during 1975-76 and 1976-77. Similarly Table No.72 provides important physical achievements during Fourth Five Year Plan and for the year 1975-76 & 1976-77.

12. Prices.

In all 3 tables viz: Table No.76 to 78 are included in this section.

Table No. 76 gives month and spot wholesale Prices of the important agricultural commodities for the year 1976 for each of the regulated markets.

Table No.77 gives monthly average retail prices of various commodities at district head quarters, Chandrapur. The average Prices under each commodity are shown from the month of January to December for the year 1976 alongwith units and varieties of commodities for which prices have been quoted. The data is regularly collected

on every Friday by visit to selected shops from District Statistical Office. As the information collection for the given commodities is restricted to only one quotation and that too only for one shop at District Headquarters, the average price for individual Commodity cannot be said to be fully representative, but the data may prove useful as a broad indicator of the trend in changes in retail prices over the period of time.

Table No.78 gives consumer Price Index Numbers (Revised series) for working class of Nagpur Centre published by the Office of the Commissioner of Labour, Bombay. Monthwise data for the year 1976-77 commencing from April and also average for the year 1976-77 have been given in this table. The base year for calculating price Index (Revised Series) is 1960. The Index Number of wholesale Prices are issued by the Economic Advisor to the Govt. of India. The base year for the same is 1952-53. The method of construction of the index is given in the Appendix to Index Numbers of wholesale Prices in India Revised series (1956) issued by the Office of the Economic Advisor Govt. of India. The equivalent of old Index Numbers can be obtained by multiplying the new index by 5.22 as multiplier.

13. Miscellaneous:

In all 15 Tables viz: Table No. 79 to 93 are included in this section.

Table No.82 gives panchayat wise cinema statistics for the year 1976-77. Number of Permanent, Semi-permanent and Touring talkies and the seating capacity per show has been indicated in this table.

Table No.84 provides data on no. of banking offices deposits and advance in the district as on 31 st December 1975.

Table No.90, 91 and 92 are three New Tables included in this abstract, Table No. 90 and 91 provides data on quantity of Rice, Wheat and Sugar issued to Fair Price shops and Demand and procurement of levy in Chandrapur district respectively. Similarly Table No.92 provides data on General Elections.

Table No.93 provides Trends in selected indicators for 1950-61, 1960-61 and 1966-67 and 1970-71, 1974-75 and 1975-76 and 1976-77 about level of development in Chandrapur district.

@@@@@

CHAPTER - III.

Important Indicators of Development.

In this chapter an attempt has been made to present certain important indicators of Development by presenting certain selected trends to indicate the impact of development and the disparity, if any, between talukas. The Indicators worked out show the comparative position during the year 1960-61, the year before the commencement of the Third Five Year Plan, and the year 1976-77 or 1975-76 in a few cases, where the data for the year 1976-77 is not available.

Indicator No. 1: Percentage of Gross Area Sown to Net Area Sown:

The proportion of gross area sown to net area sown indicates the extent of area sown more than once. The double cropping is solely related to availability of irrigation facilities, mainly from tanks and the paddy fields which retain sufficient moisture after monsoon to enable the cultivators to take second crop of Wheat, Gram, Lakh and linseed. The second crop is locally known as "Utera" and sown by broadcasting method including crops like linseed, lakh and other pulses. The district has got a large number of small size tanks which are locally named as "Bodies" but all these tanks are only able to irrigate paddy crop in Kharif season and used as a protective measure. Double irrigated crop is not very much practiced and second crop is generally taken in the irrigated area of paddy fields. Comparative

percentage of gross area sown to net area sown for the year 1960-61 and 1975-76 are given in the following table :

Sr. No.	Taluka	Percentage of Gross Area Sown to Net area sown.	
		1960-61	1975-76
1.	2.	3.	4.
1.	Chandrapur	106.33	106.77
2.	Warora	102.17	103.82
3.	Bramhapuri	127.03	129.32
4.	Gadchiroli	112.81	120.02
5.	Sironcha	101.33	101.34
6.	Rajura	100.00	100.22
District Total :-		107.76	110.19

It can be seen from the above table that there is no improvement in taking second crop in a period of fifteen years except in Gadchiroli Taluka. The percentage of double cropping appears to be more practiced in all the paddy grown talukas. As Rajura being the non paddy crop area the double cropping appears to be very slightly practiced. The percentage of gross cropped area to net area sown is higher in Bramhapuri and Gadchiroli talukas than the district average. Though Sironcha Taluka is mainly the paddy growing tract the double cropping appears to be not practiced in that area. The fact that the cultivators who are mostly tribals do not understand the economical aspect of double cropping.

Indicator No. 2:- Productivity of Important Crops:

Agriculture is the most important activity and amongst the least productive, though it

is the primary occupation of 80 percent of the working population.

The programme for agricultural development have all along received a high priority. The average annual food grains production from the First Plan period rose from 2.62 lakh Metric Tonnes to 3.18 lakh metric Tonnes by the end of Third plan period and the same was increased to 3.46 lakh Metric Tonnes upto the year 1970-71. The increase in food production was mainly due to increase in area under improved agricultural practices. A comparative picture for the base year 1960-61 and 1975-76 of some important crops is shown in the following table.

Production of Important Crops in Chandrapur District.

Sr. No.	Crop	Area in hundred hectares		Percentage increase (+) or decreased (-)	Outturn in Hundred Tonnes		Percentage increase (+) or decrease (-)
		1960-61	1975-76		1960-61	1975-76	
1.	2.	3.	4.	5.	6.	7.	8.
1.	Rice	2054	2512	(+) 22.30	1559	4180	(+)168.12
2.	Wheat	382	444	(+) 16.23	154	334	(+)116.88
3.	Jowar	1957	2025	(+) 3.47	919	740	(-)19.48
4.	Total Cereals	4445	5054	(+) 13.70	2647	5291	(+)99.89
5.	Gram	101	149	(+) 47.52	30	52	(+)73.33
6.	Tur	73	107	(+) 47.57	69	71	(+) 2.90
7.	Total Pulses	991	910	(-) 8.17	293	369	(+)25.94
8.	Total Food Grains	5436	5964	(+) 9.71	2940	5660	(+)92.51
9.	Cotton	252	395	(+) 56.74	103	131	(+)27.18
10.	Sesamum	451	292	(-) 35.25	84	68	(-)19.05
11.	Linseed	303	450	(+) 48.51	71	N.A.	-

The area of foodgrains has shown increased i.e. 9.71 percent in the year 1975-76 over the year 1960-61. The production of rice increased by 168.12 percent over the year 1960-61. Wheat, Gram, Tur, Cotton shows increase in production in the year 1975-76 over the year 1960-61, while the production of Jowar, Sesamum, declined in the year 1975-76 over the year 1960-61. There is very little scope for extending the crop area in this district. However the area under irrigation can be increased considerably and would significantly increase the production capacity of the land.

Indicator No. 3:- Gross value of Agriculture Products:-

Though the district ranks second in whole of Maharashtra in case of percentage of Gross area irrigated to Gross area sown, it stands 22nd in case of Gross value of Agricultural products per hectare. The data available for the year 1967-68 reveals that the gross value of agricultural product per hectare is Rs.402 for this district as against Rs.540 for the State as a whole. The main factor responsible for such poor productivity of land is that a majority of cultivators are small holders having land less than 5 acres, who are unwilling to adopt the methods of improved agricultural practices because of uneconomic holding size.

Indicator No.4 :- Percentage of Irrigated Area.

The district has high percentage of area under irrigation and stands second in rank in whole of Maharashtra. The paddy is the main crop of

the district and irrigation to this crop is adopted as a protective measure after the monsoon season is over.

High percentage of area under irrigation in the year 1975-76 is found in Bramhapuri (31.17), Chandrapur (21.60) and Gadchiroli (15.24) talukas than the district average 13.39. The Table below shows talukawise percentage of net area irrigated to net area cultivated during the years 1960-61 and 1975-76.

Sr. No.	Taluka	Percentage of net irrigated area to net area cultivated.	
		1960-61	1975-76
1.	2.	3.	4.
1.	Chandrapur	20.52	21.60
2.	Warora	7.21	7.30
3.	Bramhapuri	42.12	31.17
4.	Gadchiroli	22.65	15.24
5.	Sironcha	5.50	3.83
6.	Rajura	0.15	0.32
District Total:-		15.88	13.39

It appears from the above table that the percentage of net area irrigated to net area cultivated declined from 15.88 in 1960-61 to 13.39 in 1975-76 in the district as a whole. A significant rise in the percentage of net area irrigated to net area sown is observed in Chandrapur Taluka only. In Sironcha taluka the percentage of net area irrigated to net area sown is decreased from 5.50 in 1960-61 to 3.83 in 1975-76. Percentage decrease

may be due to sigeable increase in net area sown wh
as the net irfigated area shows decrease in the year
1975-76 over the year 1960-61.

The table below shows talukewise
percentage of gross irrigated area to net irrigated
area during the year 1960-61 and 1975-76.

Sr. No.	Taluka	Percentage of Gross Irrigated area to net irrigated area.	
		1960-61	1975-76
1.	2.	3.	4.
1.	Chandrapur	100.51	100.00
2.	Warora	100.55	101.80
3.	Bramhapuri	100.72	114.15
4.	Gadchiroli	100.20	120.70
5.	Sironcha	104.93	109.35
6.	Rajura	100.00	100.00
District Total:-		100.58	109.41

It is seen from the above table that
the practice of taking two successive irrigated crops
is not in vogue in major part of this district and
hence the percentage of gross irrigated area to net
irrigated area is found to be only 109.42 during the
year 1975-76. The practice of taking two successive
irrigated crops does not appear to be followed in
Chandrapur, and Rajura talukas because the water
resources which are available at present are just ~~enough~~
enough to irrigate any single crop. It is however
possible to irrigate larger area if the efficiency
of water use is increased. There appears to be

considerable scope for reducing the see page and other losses in carrying water from the reservoir to the fields, as well as by reducing the per hectare consumption of water without affecting yields. The potential benefits by way of increase in the area which can be served by the available water resources could be very substantial and could be worthwhile for the district to investigate these possibilities.

Indicator No.5a- Changes in Cropping pattern:

The Chandrapur district mainly grows food crops and has 83.96 percent of the gross cropped area under food crops and remaining 16.04 percent area under non-food crops during the year 1975-76. Among food crops, Rice occupies 41.18 percent of the total food crop area. Jowar is the second major food crop of the district and accounts for 33.20 percent of the total food crop area during 1975-76. Jowar is sown both in Kharif and Rabi seasons. Pulses are also sown in sizeable proportion accounting for 14.92 percent of the total food crop area in 1975-76. Among non-food crops, oil seeds and cotton occupy 64.48 percent and 33.89 percent respectively of the area under non-food crops during the year 1975-76. The following tables give talukawise food and non-food crops for the years 1960-61 and 1975-76.

TABLE (A).

Sr. No.	Taluka	Percentage of food cropped to total gross cropped area.		Percentage of non-food cropped area to total gross cropped area.	
		1960-61	1975-76	1960-61	1975-76
1.	2.	3.	4.	5.	6.
1.	Chandrapur	87.69	85.81	12.31	14.19
2.	Warora	71.69	72.30	28.31	27.70
3.	Bramhapuri	96.44	96.77	3.36	3.23
4.	Gadchiroli	96.08	96.68	3.92	3.32
5.	Sironcha	94.34	91.32	5.66	8.68
6.	Rajura	66.88	62.78	33.12	37.22
District Total:-		84.27	83.96	15.73	16.04

TABLE (B) (Food- Crops)

Sr. No.	Taluka	Year	Percentage of crops to total gross cropped area.					
			Rice	Jowar	Wheat	Total cereals	Total Pulses	Total Food-grains
1.	2.	3.	4.	5.	6.	7.	8.	9.
1.	Chandrapur	1960-61	24.56	45.05	2.72	72.57	13.42	85.90
		1975-76	26.85	44.16	3.10	74.36	10.77	85.13
2.	Warora	1960-61	9.18	35.23	14.26	58.67	10.42	69.09
		1975-76	10.08	33.17	13.22	56.49	12.49	68.98
3.	Bramhapuri	1960-61	49.77	16.84	4.14	70.89	24.10	94.99
		1975-76	52.39	17.17	6.44	77.22	18.08	95.30
4.	Gadchiroli	1960-61	60.64	12.79	2.08	77.82	16.93	94.75
		1975-76	68.20	12.81	4.28	85.76	9.60	95.36
5.	Sironcha	1960-61	59.76	23.83	0.13	86.73	6.74	93.47
		1975-76	54.16	26.12	0.11	84.40	5.83	90.23

1.	2.	3.	4.	5.	6.	7.	8.	9.
6.	Rajura	1960-61	2.62	39.02	3.54	45.77	18.20	63.97
		1975-76	3.24	33.71	4.95	42.61	17.52	60.13
District-		1960-61	31.11	29.64	5.79	67.33	15.02	82.35
Total.		1975-76	34.57	27.87	6.10	69.56	12.52	82.08

TABLE (C) (Non-Food-Crops).

Sr. No.	Taluka	Years	Percentage of crops to total gross cropped area.		
			Cotton	Total Oil Seeds	Other Non-Food-crops.
1.	2.	3.	4.	5.	6.
1.	Chandrapur	1960-61	0.26	11.92	0.13
		1975-76	0.64	13.41	0.01
2.	Warora	1960-61	7.49	20.68	0.14
		1975-76	11.60	15.98	0.07
3.	Bramhapuri	1960-61	-	3.45	0.11
		1975-76	-	3.17	-
4.	Gadchiroli	1960-61	-	3.45	0.47
		1975-76	-	3.18	0.10
5.	Sironcha	1960-61	-	4.48	1.18
		1975-76	-	7.44	1.20
6.	Rajura	1960-61	14.26	18.05	0.91
		1975-76	19.22	17.38	0.11
District Total		1960-61	3.02	11.55	0.36
		1975-76	5.43	10.34	0.15

It is seen from the above tables that

there is a slight change in the cropping pattern of the District and also within talukas since the year 1960-61. An increase in the food cropped area is observed in Warora, Bramhapuri and Gadchiroli talukas in the year 1975-76. A decrease in food cropped area is observed in all other talukas so also in the district in the year 1975-76 over the year 1960-61.

An increase in Rice crop is observed in all talukas except Sironcha taluka while area in Jowar crop increased in Sironcha, Bramhapuri and Gadchiroli talukas in the year 1975-76 over the year 1960-61. There is marked difference in the cropping pattern of eastern and western talukas of the district. The talukas viz:- Bramhapuri, Gadchiroli, Sironcha and Chandrapur have more than 85 percent of the gross cropped area under food crops while in Rajura (62.78) and Warora (72.30) which is less than the district average (83.96). The fact that Warora and Rajura Talukas are the rain shadow areas where cotton and oilseed crops are the major non-food crops which cover sizeable area. It is also observed that within talukas the changes from food crops to non-food crops and vice-versa are marginal and mainly depend upon rainfall.

Indicator No. 6 :- Increases in Agricultural Credits and Outstanding dues.

The Cooperative movement was primarily started to provide easy credit facilities to the cultivators as the inadequacy and high cost of finance are the major obstacles in the way of rapid development of agriculture. To meet this end, extension of Cooperative credit to the village level is made by the District Co-operative Bank through Primary agricultural credit societies (Service Cooperatives) which provide short term loans to the cultivators to facilitate them to carry out different agricultural operations with more ease and confidence. The second

agency engaged in meeting the agricultural needs of the cultivators is the Maharashtra Land Development Bank which finances the cultivators directly by granting them long term loan. The total agricultural credit made available to the cultivators by the Service. Co-operatives and the Maharashtra Land Development Bank together was of the order of Rs.599.19 lakhs in 1976-77. The Table below indicates the loans advanced by the Primary Agril: Credit societies and outstanding dues during the years 1961-62 and 1976-77.

(Rs. in Lakhs).

Sr. No.	Year	No. of Primary Agril: Credit Societies.	Loans Advances.	Loans Outstanding.
1.	2.	3.	4.	5.
1.	1961-62	1271	61.60	149.93
2.	1976-77	813	494.19	617.08
3.	Percentage increase	X	(+) 702.26	(+) 311.57

The Primary Agril: Credit Societies had advanced loan to their members to the tune of Rs. 494.19 lakhs in the year 1976-77 showing an increase of 702.26 percent over the year 1961-62. Whereas the amount of loans outstanding in the year 1976-77 was to the tune of Rs. 617.08 lakhs thus, showing an increase of 311.57 percent over the year 1961-62. As the scarcity conditions were prevailing in the consecutive three years from 1971-72 to 1973-74 in this district and the policy of agricultural upliftment was undertaken the loan advanced and amount of loan outstanding show a steep rise.

Indicator No. 7 :- Agricultural Wage Rates

Agricultural labour is one of the important class of workers. As per 1971 census the percentage of Agricultural labourers to total workers was 35.17. The data on agricultural wage rates are being collected from selected cultivators in the three centres viz: Kothari, Mul and Sindewahi in Chandrapur District. The annual average of wage rates for the years 1964 and 1976 collected from these three centres are shown in the table below:-

Sr. No.	Name of the Centre	Average Agril: wage Rates		Percentage (+) Increase			
		1964	1976	Male	Female		
1.	2.	3.	4.	5.	6.	7.	8.
1.	Kothari	1.78	0.89	4.33	2.13	(+)142.69	(+)139.33
2.	Sindewahi	2.03	1.03	4.13	2.67	(+)103.45	(+)159.22
3.	Mul	2.11	0.87	3.71	2.13	(+)75.83	(+)144.83

It is seen from the above table that agricultural wage rates of male and female workers indicate a noticeable increase at all centres in the year 1976 over the year 1964. The increase in Agricultural wage rates in case of male and female Agril: workers at Kothari centre is due to the fact that Kothari Centre is surrounded by Cash crop area of Chillies and cotton and hence the wage rates of male and female workers appears to be higher. While in case of Mul centre the wage rates of Male workers increased due to growing tendency of the centers towards urban-isation.

Indicator No. 8 :- Livestock per hectare of Land:

Animals, besides providing most of the draught power required for agricultural operations, are an important source of food and raw material. Bovins population comprises the population of buffaloes and cattle where as ovine population comprises the population of sheep and goats. The following table gives total livestock (excluding Pigs, horses & Ponies) per hectare of cultivable land in each taluka.

Sr. No.	Taluka	Total Livestock (Bovine & Ovine Only)		Total Cultivable area in hectares		Livestock per hectare of cultivable land.	
		1961	1972	1961	1972	1961	1972
1.	2.	3.	4.	5.	6.	7.	8.
1.	Chandrapur	230297	268897	174553	174900	1.32	1.54
2.	Warora	245258	276471	213730	214400	1.15	1.29
3.	Bramhapuri	180926	195972	119506	118100	1.51	1.64
4.	Gadchiroli	348940	393032	234325	235100	1.49	1.67
5.	Sironcha	180875	234383	107104	107700	1.69	2.18
6.	Rajura	107598	157950	112577	128200	0.95	1.23
District Total:		1293804	1526705	961795	978400	1.34	1.56

Livestock per hectare of Cultivable land is found to be higher in Sironcha, Gadchiroli and Bramhapuri talukas than the district average. The reasons for higher ratio are that (1) the talukas viz: Bramhapuri, Gadchiroli and Sironcha are mainly paddy growing tracts where the requirement of draught animals is generally higher than other tracts and (2) the

(2) the percentage of cultivable area is comparatively much less because of most of the area is covered with forest.

Indicator No. 9 :- Poultry as compared to Population:

Development of Poultry is essentially a cottage industry without being linked up with commercial hatcheries, commercial feed industry and organised marketing of poultry products. Much stress has been given in the plan periods in popularising poultry keeping specially in rural areas as an additional source of income and also to bridge over food shortage.

As per 1961 livestock census poultry keeping was flourishing well in Chandrapur District accounting for 319 birds per 100 Households. Per Capita poultry during the year 1961 worked out to 0.66. However poultry in 1972, as per livestock census, decreased considerably. The per capita poultry in 1972 was worked out to 0.51. The table below gives talukawise position of poultry per 100 Households in 1961 and 1972. The number of households enumerated in 1961 and 1971 census have been adopted for working out poultry birds kept per 100 Households.

Sr. No.	Taluka	Poultry per 100 Households	
		1961	1972
1.	2.	3.	4.
1.	Chandrapur	270	181
2.	Warora	83	208
3.	Bramhapuri	275	212
4.	Gadchiroli	432	363

1.	2.	3.	4.
5.	Sironcha	384	317
6.	Rajura	258	309
District total:		319	254

The poultry keeping appears to be more popular in Tribal Areas viz: Gadchiroli, Sironcha and Rajura Talukas having tribal population where birds per 100 households are more than the district average in 1972. In almost all talukas except Warora and Rajura number of poultry birds per 100 households shows considerable decline in the year 1972 over the year 1961. The overall decrease may probably be the result of lack of market facilities to promote the industry and also due to gap between the rate of consumption with the rate of production.

Indicator No. 10 :- Per Capita consumption of Electricity :

Rural Electrification has a special significance in the development of the Rural Economy. Apart from providing power for agricultural purposes to small consumers industries and domestic use, it helps in modernising the outlook of people living in Rural Areas.

The district has not made any significant progress in Rural Electrification as compared to other districts of the state. By 31 March 1961 only 353 Villages and 5 towns were electrified, whereas on 31st March, 1977 their corresponding number increased to 563 villages and 7 towns.

The per capita consumption of electricity for domestic purposes as well as total electricity consumption inclusive of all purposes for the years 1960-61 and 1976-77 are shown in the table given below:-

Sr. : No.	Year	Per capita electricity Consumption (KWH)	
		Domestic Consum- ption	Total Elec- tric consum- tion.
1.	2.	3.	4.
1.	1960-61	0.88	21.51
2.	1976-77	7.09	241.22
3.	Percentage increase over 1960-61.	(+) 705.68	(+) 1021.43

It can be seen from the above table that per capita consumption of electricity in the year 1976-77 was 241.22 K.W.H. which is some what high because of heavy electrical consumption for industrial purpose viz. Ballarpur paper Mill, A.C.C. Factory, Ghugus, Defenced Project, Bhadrawati and other industries developed recently in the district. However per capita domestic consumption during 1976-77 is 7.09 K.W.H. The percentage increase in per capita domestic consumption during the year 1976-77 over the year 1960-61 is mainly due to increase in number of household consumers.

Indicator No.11:- Increase in number of candidates enrolled in Employment Exchange.

The media of Employment Exchange is being utilized both by employment seekers as well as

employees. Due to increase in number of educated persons and due to various employment avenues created in the development process, the number of registrants and the number of vacancies have increased considerably after 1960-61. The comparative figures of registrations, vacancies notified and placements during the year 1960-61 and 1976-77 are as follows:-

Sr. No.	Item	Years		Percentage Increase(+) or Decrease(-)
		1960-61	1976-77	
1.	Registrations	5262	22823	(+)333.73
2.	Vacancies - Notified.	912	3357	(+)268.09
3.	Placements	690	2134	(+)209.28

Thus it can be seen that percentage increase in number of Registration is very high over 1960-61 level. Similarly, corresponding percentage increased in number of vacancies notified and number

of placement is also very high over 1960-61 level. The facts that increase in registrations with the Employment Exchange is mainly due: to (1) the growth of population (2) Changes in the age composition of the population and (3) the behaviour of participation rates because of spread of education. The rapid industrialisation of the district since Third and Fourth plan period increased the number of vacancies and placements which shows immense increase in percentage of registrations, vacancies notified and placements during 1976-77 over 1960-61.

Indicator No. 12:- Increase in the Outdoor and Indoor Patients treated:

The district has made significant progress in providing curative and preventive health Services over last two decades. Life expectancy has increased considerably and the death rate has declined to 13 per one thousand population as compared to the year 1947. The achievement has been mainly due to better availability of medical and health facilities in the district as compared to pre independence period.

In table No.48 the data on the Indoor and Outdoor patients treated in Public sector hospitals, dispensaries, primary health centres and maternity homes is compiled and given for the year 1976. As the data prior to the year 1963 was not available taluka-wise and also because of incomplete coverage, the data for the year 1963 is treated as base year for comparison with the year 1976. The table below gives information accordingly for the year 1963 and 1976.

Sr. No.	Taluka	Patients Treated				Percentage increase (+) or Decrease(-)	
		1963		1976			
		Indoor	Outdoor	Indoor	Outdoor	Indoor	Outdoor
1.	2.	3.	4.	5.	6.	7.	8.
1.	Chandrapur	6056	187085	95426	526421	(+)1475.73	(+) 181.38
2.	Warora	1069	196828	2678	187123	(+) 150.51	(-) 4.93
3.	Bramhapuri	384	127304	798	130513	(+) 106.97	(+) 2.52
4.	Gadchiroli	251	107945	876	210316	(+) 249.00	(+) 94.84
5.	Sironcha	48	48197	199	83115	(+) 314.58	(+) 72.45
6.	Rajura	40	51070	170	44562	(+) 325.00	(-) 12.55
Distt: Total:-		7848	718429	100147	1182150	(+)1176.08	(+) 64.55

The above table indicates that number of Indoor patients treated show a upward trend in all Talukas. An increase in indoor patients treated may be due to increase in number of beds during the corresponding year 1976. The indoor patients treated per bed during the years 1963 and 1976 worked out as 16 and 214 respectively. Similarly there is an increase in outdoor patients treated in 4 talukas viz: Chandrapur, Gadchiroli, Sironcha and Bramhapuri in district while decrease in Rajura and Warora Talukas in the year 1976 over the year 1963.

Indicator No. 13:- Increase in number of students in different categories :

Much stress was emphasised on the development of education during plan periods. The primary education was made compulsory during the Third Plan. As such tremendous increase in both the number of Institutions and pupils enrolled is noticed since 1960-61. Remarkable progress was also noticed in education of females where the percentage increase in number of students was 248.81 and 477.32 respectively for Primary and Secondary standards in the year 1976-77 over the year 1960-61. The increase in number of ~~Primary~~ female students is mainly due to increase in number of Primary and Secondary schools in rural areas and also because of change in traditional outlook of villagers who were not very much keen in the past to send their wards to schools. The comparative figures of number of institutions and number of students for the years 1960-61 and 1976-77 are given below:

Category	Years		Percentage increase
	1960-61	1976-77	
1.	2.	3.	4.
I. <u>Primary Education.</u>			
i) <u>Institutions.</u>	1059	2041	(+) 92.73
ii) <u>Students.</u>			
a) Boys	54110	108104	(+) 99.78
b) Girls	19411	67708	(+) 248.81
c) Total	73521	175812	(+) 139.13
II. <u>Secondary Education:</u>			
i) <u>Institutions.</u>	61	145	(+) 137.70
ii) <u>Students.</u>			
a) Boys	14010	35776	(+) 136.36
b) Girls	2919	16852	(+) 477.32
c) Total	16929	52628	(+) 210.87
III. <u>Higher Education.</u>			
I) <u>Institutions.</u>	2	14	(+) 600.00
ii) Students	486	7029	(+) 1346.29

The above table indicates growth of Primary and Secondary education in the district by March, 1977, over the position as on March, 1961. The Primary and Secondary schools increased by 92.73 and 137.70 percent respectively by March, 1977 over March, 1961. The percentage increase in students during the period of 15 years in 139.13 and 210.87 percent respectively in Primary and Secondary education. The colleges education facilities have also been abnormally increased during the said period.

Number of Higher educational institutions rose from 2 to 14 by March, 1977. The percentage increase in students attending higher education was 1346.29 by end of March, 1977 over the year 1960-61.

Indicator No. 14 :- Increase in Road Mileage Per 100 Sq. Kilometers :

The road development programme during Third and Fourth Plans was formulated in accordance with the broad objectives laid down in Twenty years Road Development Plan of 1951-81. The said plan was drawn up by the Chief Engineers of the State and Central Government. The broad objectives of this road plan was that no village in a developed and agricultural area should remain more than four miles from a metalled road and more than one and half miles from any type of road.

In Chandrapur district Transport and Communications facilities are very poor. In fact, this is one of the main reasons for the economic backwardness of this district or otherwise this district is potentially rich. The position of road development has been considerably improved in comparison to 1960-61. The Road length per 100 Sq. Kms. of area rose from 2.54 Kms. as on 31.3.1961 to 16.18 Kms. as on 31.3.1977 comparative figures for the years of these two reference periods are given in the table below :

Sr. : No.	Category	: Road length in Kms. per 100 Sq. Kms.	
		As on 31.3.61	As on 31.3.1977
1.	2.	3.	4.
1.	Cement Concrete	-	-
2.	Black Topped	0.47	1.72
3.	Water Bound Mecadam	1.37	3.91
4.	Granular Material	-	0.98
5.	Lower Type	0.71	9.54
Total Type		2.54	16.18

The above table reveals that road length per 100 Sq.Kms. increased in all types of road in this district during the period of 16 years. Indicator No. 15 :- Increase in Banking facilities in proportion to population:

There is a substantial increase in number of scheduled banks and its branches since 1961 as the number of scheduled banks increased from 7 as on 21.12.1960 to 39 as on 31.12.1976, showing the percentage increase of 457.14. Similarly the Cooperative Banks increased by 13 during the said period accounting the percentage increase of 65.00. The comparative position of Banks and population served by those banks during these two reference period is shown in the following table.

REGISTRATION OF BANKING OFFICES IN THE DISTRICT

Sr. No.	Reference period	No. of scheduled Banks.	No. of Coop-ve Banks.	Total Banking Offices	No. of Banking Offices per lakh of population.
1.	31st December, 1960.	7	20	27	2.13 (As per 1961 Census)
2.	31st December, 1976.	39	33	72	4.38 (As per 1971 Census)

It is seen from the above Table that though the number of banking offices show a noticeable increase, the corresponding figure of banking Offices per lakh of population does not show a sizeable increase. The fact that, due to increase in population in the last decade the number of banking offices per lakh of population show a marginal increase. It is also found that out of 72 banking Offices 26 banking Offices are located in 5 urban towns and remaining 46 banking offices are located in 30 villages.

Indicator No. 16 :- Prices :

The price collection work at the district headquarters was started in November, 1962 since the declaration of emergency in the country. The prices of some important essential commodities are obtained every week ending Friday from the selected shops. These price quotations are concerned to selected shops only and hence those can not be said to be fully representative, but still these serve as

broad indicator of trends in the prices over a period of time. The following table indicates the yearly average prices for the year 1963 and 1976 respectively of some important commodities.

Sr. No.	Commodity	Unit	Average yearly prices (Rs.)		Percentage increase (+)
			1963	1976	
1.	2.	3.	4.	5.	6.
1.	Rice(Luchai No.1)	Kg.	0.57	2.58	(+)285.07
2.	Wheat(Medium)	"	0.63	1.84	(+)192.06
3.	Wheat(Course)	"	0.52	1.69	(+)225.00
4.	Gramdal	"	0.60	1.83	(+)205.00
5.	Arhardal	"	0.92	2.09	(+)127.17
6.	Moongdal	"	0.73	2.35	(+)221.91
7.	Udid dal	"	1.02	3.01	(+)195.09
8.	Masur dal	"	0.75	2.06	(+)174.66
9.	Gur	"	1.28	4.72	(+)268.75
10.	Gur	"	0.95	2.26	(+)137.89
11.	Ground nut Oil	"	2.04	6.45	(+)216.17
12.	Meat	"	3.08	9.89	(+)221.10
13.	Washing Soap(Tata)	Per Bar	1.52	2.98	(+) 96.05

The prices of Rice, Wheat all types and of Pulses except Udiddal, Sugar and Meat in 1976 were more than thrice the prices prevailing in 1963 while the prices of Groundnut Oil in 1976 was abnormally increased and was four times more in comparison to the year 1963. The prices of gur and washing soap were double in 1976 than those prevailing in 1963. Thus the the prices of all most all commodities have shown sizeable increase in the year 1976 over the year 1963.

CHAPTER - IV.

ANNUAL PLAN - 1976-77.

GENERAL : The Fourth Five Year Plan has been officially announced to have commenced from 1st April, 1969. However, the process of Planning is continued through Annual Plan keeping in view the broad policies and programmes contemplated for the Fourth Five Year Plan during 1969-70 to 1973-74. During the Fourth Five Year Plan period Chandrapur district has also witnessed scarcity in the successive three years i.e. 1970-71, 1971-72 & 1972-73, like various parts of the State. About 1193, 509 & 764 villages in this district were affected by scarcity during these three years respectively. In the fifth year 1973-74 of the Fourth Five Year Plan agricultural production particularly the paddy crop was slightly higher than normal expectations because of sufficient and timely rainfall. The cultivators were encouraged to take the second crop of summer paddy as the irrigation tanks were full even after the Kharif harvest.

Fourth Five Year Plan (1969-74):

In the Fourth Five Year Plan total expenditure of Rs. 949.53 Lakhs was incurred in this district on district level schemes. Out of which on the Major Head Agricultural Programme Rs.406.80 Lakhs; on Cooperation and Community Development Rs.59.05 on Irrigation and Power Rs.27.94 lakhs; On Industry & Mining Rs.5.01 lakhs; Transport and Communications Rs.133.45 lakhs; Social Services Rs.305.42 lakhs and

Miscellaneous Rs.11.26 lakhs were incurred respectively in this district.

On the Agricultural Programme Rs.426.80 lakhs were incurred. Out of which on Minor Irrigation Rs.186.18 lakhs; Soil Conservation Rs.107.25 lakhs; Forest Rs.74.05 lakhs; Agricultural Production Rs.30.21 lakhs; Fisheries Rs.5.63 lakhs; Ware-housing and Marketing Rs.2.81 lakhs and on Animal Husbandry Rs.0.67 lakhs were incurred respectively in this district.

The Programme of Agriculture, Co-operation and community Development shared 49.06 percent of the total expenditure in Fourth Plan. Social Services accounted for 32.17 percent; Transport & Communications 14.06 percent; Irrigation & Power 2.94 percent; Industry & Mining 0.59 percent and Miscellaneous Programme shared 1.18 percent respectively of the total Fourth Five Year Plan expenditure.

Fifth Five Year Plan :(1974-79):

District Planning :- The importance of the District Planning has all along been emphasised by the Planning Commission for ensuring rational utilisation of resources, reduction of intra-State imbalances as well as proper Co-ordination and implementation of development programmes. For which Govt: has established District Planning Boards at the district level. Resources Surveys of district were carried out to facilitate District Planning which would an important feature of the Fifth Five year plan. The District Planning Boards have been requested to prepare district plans incorporating schemes *

to be financed from State resources within the allocations for the districts.

District Planning and Development Board has formulated Draft Fifth Five Year Plan (1974-79) within the allocations of Chandrapur distt.

Draft Fifth Five year plan thus formulated has accorded high priority to the Development of Agriculture, Irrigation and Power as well as to the National Programme for Minimum Needs and 15-Point Programme.

In consequences of the National Five Year Plan not having been finalised, the State Five Year Plan as well as District Five Year Plan not having been finalised and may have to be modified in the course of time, taking into account the changes in the policy which have emerged subsequent to the preparation of the Draft Fifth Five Year Plan.

It was only during the Fifth Five Year Plan that any serious attempt was made in the direction of District Planning. But even so, during the first year of the Fifth Plan, the States Annual Plan was finalised in the absence of all the District Annual Plans. It was only in the 2nd year 1975-76 the District Annual Plans were fully integrated with the State Plan. District Planning is an evolving process which has to undergo constant modifications. The role of District Planning got sharp edge when the District Planning and Development Councils engaged themselves very actively in the formulation of Annual Plans.

TRIBAL - Sub-Plan :

In addition to the exercise in District Planning with district as the basic Unit Govt: has also undertaken the task of formulating development plans on area basis for certain special areas like the Tribal and Hilly inaccessible areas in this district with an aim to integrate development of this area for accelerating Socio-Economic development of the people living in Tribal Areas. For the purpose of formulation of the Tribal Sub-plan and for overseeing the implementation thereof "Special Executive Committee" of Tribal Sub-plan of the District Planning and Development Council has been constituted in this district.

Annual Plan 1974-75:

The Outlay of the Annual Plan 1974-75 for the district level Programmes of this district was of the order of Rs.465.85 lakhs, against which the total expenditure incurred amounted to Rs.425.77 lakhs. Irrigation and Power were given the highest priority in this district. About 38 percent of the total Annual Plan outlay was earmarked for the various Irrigation Projects & Power. The Programme for Agriculture Cooperation and Community Development shared 28 percent of the total outlay. Social Services accounted for 15 percent, Industry and Mining shared 10 percent, Transport & Communications 4 percent and Miscellaneous Programme including Employment Guarantee scheme shared 10 percent respectively of the total Annual Plan outlay 1974-75 in this district.

Expenditure incurred was for Irrigation & Power Rs.162.24 lakhs. (38.1 percent), Agriculture, Cooperation and Community Development Rs.106.97 lakhs (25.1 percent). Social Services Rs.79.04 lakhs (18.6 percent). Industry & Mining Rs.27.39 lakhs (6.4 percent); Transport and Communications Rs. 18.07 lakhs (4.3 percent) & E.G.S. Rs.32.05 lakhs (7.5 percent) respectively of the total Annual Plan expenditure of Rs.425.77 lakhs during 1974-75.

The overall performance during the year 1974-75 under various programme was substantial. The provisions set aside for all most all programmes were spent except Industry and Mining and Miscellaneous Programme. Under Irrigation and Power and ~~Soc~~ Social Services expenditure was over and above the outlay placed during the Annual Plan 1974-75.

Annual Plan 1975-76 :

The Annual Plan outlay for 1975-76 was of Rs.665.67 lakhs for the district level programmes of Chandrapur District. Against which the total expenditure incurred amounted to Rs.552.08 lakhs. Irrigation & Power was given the highest priority. About 36 percent of the plan outlay was earmarked for various Irrigation Projects and Power. The Programme for Agriculture, Cooperation and Community Development shared 24 percent of the total plan outlay. Social Services accounted about 15 percent of the outlay. Transport & Communications shared 12 percent while miscellaneous including Employment Guarantee

4 percent respectively of total Annual Plan outlay 1975-76.

Expenditure incurred was for Irrigation & Power Rs.166.18 lakhs (20.10 %); Agriculture Cooperation and Community Development Rs.131.47 lakhs (23.81 %). Social Services Rs.91.38 lakhs (16.55 %). E.G.S. Rs.73.50 Lakhs (13.32 %). Transport and Communications Rs.61.56 lakhs (11.15 %) and Industry & Mining Rs. 27.96 lakhs (5.07 %) respectively of the total Annual Plan expenditure 1975-76.

The overall performance under various programmes was substantial. The provisions for most of the programme were spent except in Irrigation & Power and Transport and Communications. Expenditure under Industry & Mining and Employment Guarantee Scheme was over and above the outlay placed for in Annual Plan 1975-76.

Annual Plan 1976-77.

Total outlay of the Annual Plan 1976-77 was of Rs.643.00 lakhs for district level programmes in this district against which the total expenditure of Rs. 633.62 lakhs was incurred during the year. Irrigation and Power was given the highest priority so also to Agriculture, Cooperation and Community Development which shared 24 percent of the total plan outlay respectively. Social Services shared 20 percent of outlay. Industry & Mining and Communications shared 19 percent of the outlay and Employment Guarantee Scheme shared 13 percent of the outlay.

The overall performance under various programme was substantial. The Expenditure under Irrigation & Power and Employment Guarantee scheme was over and above the outlay placed during the year.

AGRICULTURAL PROGRAMME:

The various schemes under Agricultural Programme were specially aimed at improvement of Agricultural productivity. The district was covered under intensive cultivation of food crops particularly of paddy crop because of its maximum irrigation potential for increasing food production. Minor Irrigation works, Soil Conservation, Animal Husbandry, Dairy Development, Forest and Fisheries were the other programmes that were implemented in the district under Agricultural Programme. The following table indicates the outlay and expenditure under these sub-heads of Agricultural Programme.

Sr. No.	Sub-head	Outlay 1976-77 (Lakhs Rs.)	Expendi- ture 1976-77 (Lakhs Rs.)
1.	2.	3.	4.
1.	Agricultural Production	5.50	1.34
2.	Minor Irrigation	74.84	57.49
3.	Soil Conservation	74.00	11.40
4.	Ayacut Development	-	-
5.	Animal Husbandry	3.45	1.92
6.	Dairy Development	5.52	4.66
7.	Forest	23.77	21.18
8.	Fisheries	6.39	6.92
9.	Warehousing & Marketing.	1.50	1.50
TOTAL:-		134.97	106.41

Agricultural Production :

The sub-head of Agricultural production under Crop husbandry was provided with an outlay of Rs.5.50 lakhs during 1976-77, against which an expenditure of Rs.1.34 lakhs was incurred. Over Integrated Area Development Scheme for Small holders including Community Wells (Rs.0.87 lakhs); Plant protection Subsidy (Rs.0.15 lakhs) and on resettlement of Agricultural Labourers (Rs.0.32 lakhs). The details of important achievements under various activities were as follows :-

Sr. No.	Item	Unit	Achievement 1976-77
1.	2.	3.	4.
I. Improved Seed Distribution:			
1.	Paddy	Qunital	820
2.	Wheat	-do-	559
3.	Jowar	-do-	254
4.	Gram	-do-	80
5.	Cotton	-do-	152
6.	Oil Seeds	-do-	4
II. Distribution of Fertilizers and Manures.			
1.	Ammonium Sulphate	Tonnes	10,700
2.	Urea		
3.	Super Phosphate		
4.	Fertilizer Mixture		
5.	Other Chemical Fertilizer.		
6.	Green Manure Seed.	-do-	2

Under the scheme for Small holders 1756 Small holders were benefitted while under the scheme of plant protection 273 P.P. equipments were distributed to the cultivators.

Minor Irrigation:

Minor Irrigation works play an important role in the agricultural economy in this district. There are large number of Ex-Malguzari Tanks in this district. The programme of renovation and repairs of these tanks launched on a large scale for providing quick irrigation facilities. New Irrigation wells and repairs to old wells were also taken. In all 152, New Irrigation Wells constructed during the year. Besides 1 lift Irrigation scheme has also been completed. Irrigation potential of 1395 hectares covered under local sector Minor Irrigation works.

Total expenditure of Minor Irrigation works was of Rs.57.49 lakhs against provision of Rs.74.84 lakhs during the year.

Soil Conservation:

Under the Soil Conservation measures bunding and terracing programme was undertaken and an area of 2160 hectares was contour banded and 931 hectares was terraced. The total expenditure incurred was of Rs. 11.40 lakhs against plan outlay of Rs.14.00 lakhs.

Animal Husbandry and Dairy Development:

During 1976-77, 20 premium Bulls were distributed, 12495 animals were castrated and 2152 improved birds were supplied. Expenditure of Rs.1.92 lakhs was incurred against outlay of Rs.3.45 lakhs during the year.

Under Dairy Development Town Milk & Supply scheme including Chilling plant and condensed milk plan was undertaken. In which Rs.4.66 lakhs was incurred against the outlay of Rs.5.52 lakhs during the year.

FORESTS:

Forests form one of the most important resources of the district and its abundance is a striking feature. Forests cover about 56 percent of the districts total area as against 20 percent in the State. The Development programme of forest was therefore of quite importance. In all Rs.21.18 lakhs were expended on the various schemes of forests in the district against total allocation of Rs.23.77 lakhs earmarked during the year. All the Forests schemes in this district were covered under Tribal-sub-plan. Plantation of valuable trees was completed on 1401 hectares during the year. In addition to this plantation area under fodder crops was 69 hectares in the year 1976-77. Under Forrest Communications Black Topping 5.00 Kms. Improvement of 10.00 Kms; 2 C.D. Works and 1 Bridge completed during the year.

FISHERIES:

The aim of the Fisheries development Programme was to increase fish production and to improve Socio Economic conditions of the fishermen working in the field. The District is endowed with good potential of Water resources. District has 5 perennial rivers all measuring to 672 Kms. In addition to above there are 4 seasonal rivers in the district. There

are 2380 tanks brought under pisciculture covering a suitable 13110 hectares out of which total area brought under pisciculture was of 10,616 hectares during 1976-77. Inland Fish production during the year was of 914 M.Ton. Value of Catch products was of Rs.45.70 lakhs carp Fry used for pisciculture imported was 59.71 lakhs. The Fingerlings stocked was 81.43 lakhs during the year and 664 M.Ton fish was netted. Besides financial assistance of Rs.50 Thousand was extended to the fishermen.

An expenditure of Rs.6.92 lakhs was incurred on various schemes as against total outlay of Rs.6.39 lakhs earmarked during 1976-77.

Cooperation and Community Development :

Cooperation:

Cooperative movement has taken tremendous strides in Maharashtra. The State's Five Year Plan have sought the promotion of Cooperative Organisation through financial supports, for undertaking different economic activities in the form of subsidies, share capital investment and advancing loan according to needs. The Programme was continued during the fifth plan and was concentrated mainly development of Cooperative Marketing credit facilities were taken up to the doors of the Agricultural Cooperatives and Cooperative Farmings. Formation of Adiwasi Cooperative Societies in Tribal Areas was also taken under Tribal-Sub-plan during 1976-77.

An outlay of Rs.4.59 lakhs was specifically earmarked during 1976-77 against which an expenditure of Rs.11.02 lakhs was incurred. This was due to new scheme of Adiwasi Cooperatives in Tribal Areas taken up latter. On the scheme of warehousing & marketing Rs.1.50 lakhs were spent. On Adiwasi Cooperative scheme Rs.9.30 lakhs were incurred on formation of 46 Adiwasi Cooperatives, financial assistance for Construction of 16 Godowns and Development of one Agril: Processing society.

Short term loan of Rs.390.85 lakhs was distributed to the members of Agril: Credit societies and Adiwasi Cooperative Societies. Medium Term loan of Rs.97.35 lakh & Long Term Loan of Rs.1.05 lakh was also distributed during the year.

Community Development :

Community Development was described as a method of rural extension and as an agency through which the transformation of the Social & Economic life in village was to be initiated. The concept of rural extension has broadened into that of Panchayat Raj. One of the principal tasks in the Fourth Plan was to ensure the growth and working of Panchayat Raj so as enable each area to realise its maximum development potential on the basis of local man-power and other resources, Cooperative self help and community efforts and effective use of the available resources and manpower.

During the Annual Plan 1976-77 the blocks as shown below were functioning.

(1) Stage I - Nil (2) Stage II - 1.00 (3) Post Stage II - 13.50 and (4) M.D.P. & T.D. Block - 6.00.

During the plan year 1976-77 the provision of Rs.6.67 lakhs was made. Whereas expenditure incurred was of Rs.6.56 Lakhs under C.D. Projects including block grants and local development works and Gram Safai Programme in which 98 Latrine seats were distributed in Villages.

Major and Medium Irrigation Projects:

As high priority was given to the irrigation projects during the Fifth Plan, Outlay of Rs.120.20 Lakhs was earmarked for Medium Irrigation projects in the District. Against which expenditure of Rs.141.82 lakhs was incurred during the year for continuing Medium Irrigation Projects viz: Dina Chargaon Nalla, Amal-Nalla and Chandai Nala Projects and two New Medium Projects viz: Chenna Nadi and Labhan sarad Nala Projects.

Power Projects:

Under this sub-head Rs.54.06 lakhs were incurred during the Annual Plan 1976-77 against outlay of Rs.32.00 lakhs fixed for initially. The schemes undertaken were Normal Development & System improvement, Rural Electrification-(Plan) and (REC) and Special Scheme of Electification of Tribal Villages.

Under Rural Electrification Programme 11 villages have been electrified and 273 Electric Pumpsets have been installed during the year 1976-77.

INDUSTRY AND MINING :

Medium and Small Scale Industries:

Development Programme for Medium and Small Scale Industries aimed at assisting the medium industries under package Scheme of Incentives (SICOM) and to the small scale & Cottage industries to overcome the handicaps such as special resources, modern technical know-how, method of production and improvement of marketing of products. The provision made for this sub-head was of Rs.32.25 lakhs against which expenditure of Rs.7.64 lakhs was incurred during the year 1976-77. Under Employment Promotion programme seed money assistance Rs.4.97 lakhs were spent and 217 beneficiaries were provided with seed money assistance. Under the scheme Assistance to Block level Village Artisans multipurpose Coop.Societies Rs.2.57 lakhs were incurred during 1976-77. Financial Assistance of Rs.0.10 lakhs was provided to S.S.I. under S.A.I. rules in the year 1976-77.

Transport and Communications:

Road Transport has much significance in this district as it is only the major means of Communications since railway facility is very meagre and illequipped. The total road length in the district as on 31st March, 1977 was 4150.43 Kms. which is in other words meant 16.18 Kms. of road per 100 Kms. of Area.

During Annual Plan 1976-77 the provision made under the programme was to the tune of Rs.91.00 Lakhs against which expenditure of Rs.94.23

lakhs was incurred. During the fifth plan scheme of Rural Roads was to be covered under minimum needs programme. Provision of Rs.5.00 lakhs was made for this scheme in 1976-77 against which expenditure of Rs.6.21 lakhs was incurred i.e. over and above the plan outlay fixed. New Roads of 61.54 Kms. completed in the year 1976-77. Besides, 41 Kms. of Rural Roads also completed under M.N.F.37 Culverts completed in the year 1976-77 also.

SOCIAL SERVICES:

General Education:

The Programme of General Education was emphasised as an important aspect of Socio Economic Development. Elementary education was included as an item of Minimum Needs Programme during fifth plan as of national importance. During the Annual plan 1976-77 total amount of Rs.29.24 lakhs was spent on sub-head of General Education against total outlay of Rs.31.13 lakhs. During the year under review 38 Rooms in school buildings completed. No. of pupils increased in Primary Schools were 8720 and in Secondary Schools were 1836 respectively. Adults made literate during the year were 2203 in the district.

HEALTH AND FAMILY PLANNING:

During the Annual Plan 1976-77 Rs.4.75 lakhs were spent on Medical and Public Health against plan outlay of Rs.15.19 lakhs. During the year 54 family planning units were functioning. Total 24920 Family Planning Sterilisation operations were performed in 1976-77.

Nutrition Programme:

Under the scheme of Special Nutrition Programme implemented in 11 Block in the district for pre-school children and lactating mothers Rs.1.56 lakhs were spent in Annual plan 1976-77 covering 47623 beneficiaries and Rs.1.25 lakhs were spent on Applied Nutrition Programme implemented in 7 blocks during the year.

Water Supply and Drainage:

Under this sub-head the Annual Plan Outlay was of Rs.35.68 lakhs against which Rs.30.19 lakhs were spent under rural and Urban water supply schemes. The amount spent of Rural Water supply scheme i.e. Rural Piped water, Wells constructions (Simple measures) and construction of wells in new inhabited villages for landless labourers was Rs.18.60 lakhs during 1976-77 in the district. 258 New Drinking Water Wells were constructed in the year under reference. Under Boaring operation of G.S.D.A. scheme drilling of 37 Boreholes completed 32 Hand pumps were installed. Besides rural water supply scheme urban water supply scheme in 3 Municipal Areas executed during the year 1976-77.

Housing:

Under this sub-head, out of total Annual Plan provision during 1976-77 of Rs.9.11 lakhs the amount of Rs.1.38 lakhs was spent. Under the scheme Tiling of roofs of huts 20 thatched roofs of huts were replaced by tiles. Under low Income Group Housing scheme (including sweepers housing scheme) 20 tenaments were taken for construction.

Welfare of Backward Classes :

Under this sub-head, out of the Annual Plan 1976-77 outlay of Rs.21.79 lakhs, expenditure of Rs.18.80 Lakhs was incurred. The Programme such as Grant of Tuition and examination fees to B.C. Students, Awards of scholarships, award of stipends, award of post S.S.C. scholarships, construction of B.C. Hostels, construction of New Irrigation Wells, Grant of loan-subsidy to B.Cs. Installation of Irrigation Pumpsets, were the major schemes undertaken during the year.

Besides above B.C. Welfare Programme, for launching 15 point Programme opening and maintenance of Ashram School complexes with an area development approach for the welfare of Adiwasis in Tribal Areas was undertaken. During the year 5 post Basic Ashram Schools were undertaken for opening and development, 3 Ashram Schools maintained and 2 new Ashram Schools opened. Four Hostels for B.C. Boys and Girls maintained during the year. Under grant of tuition and examination fees 315 students of B.C. were benefitted. 20 B.C. students were awarded stipends in the Industrial Training Institute. Post S.S.C. scholarship was award to 559 students of B.Cs. 51 Electric Pumps were installed in Adiwasi areas. 18 Oil engines with pumpsets were distributed to the tribal beneficiaries during the year.

Urban Development:

Under this programme one Municipal local Body has been benefitted for preparation and

implementation of development plan with an expenditure of Rs.0.50 lakhs under the scheme.

Social Welfare:

Under this sub-head, out of plan outlay of Rs.0.40 lakhs, in Annual Plan 1976-77, the amount of Rs.0.57 lakhs was spent that is over and above the provision made. 1 Remand Home was assisted in expansion work under Children Act. 260 cases under expansion work in Probation of Offender's Act were taken. One Institution of Physically handicapped was assisted was benefitted under social welfare programme during 1976-77.

Labour and Labour Welfare:

Under this sub-head provision of 4.87 lakhs was made in Annual plan 1976-77 against which Rs.3.33 lakhs were spent. Under the Programme apprentice-ship Training Mining Sardar and shot firer courses were taken in the I.T.I.

Employment Guarantee Scheme:

Providing employment in manual work for the rural population was included under 15-Point programme.. Accordingly Employment Guarantee Scheme was under-taken for implementation. In Annual Plan 1976-77 provision of Rs.82.00 lakhs was made in this district against which Rs.120.31 lakhs were spent that is over and above the provision made. In the district employment was provided on Irrigation Projects, Soil conservation works, Forest works and roadworks under-taken in the year.
