C H A P T E R - I  
I N T R O D U C T I O N

LOCATION : Akola district is located roughly at south-west part of Nagpur Division, and lies between 19°51 and 21°16 North latitudes and 76°38 and 77°44 East longitudes. The district covered an area of 10,567 sq. kms. of which, rural and urban area is 10,414.9 and 152.1 sq.kms. respectively. According to the village papers, the area covered is 10,55,998 hectares. As per the 1971 population census, the Akola district is 4th in regard to size and 5th in regard to population among the districts of Vidarbha division. The total population as per 1971 census works out to 142.0 per square kms. (112 per sq.km. as per 1961 census). Total population of the district as per 1971 census forms 3 % of the total population of Maharashtra State. There are 1,489 populated villages (1,507 as per 1961 census) and 9 towns in the district as per 1971 census. Of the total population 76.47 % resides in rural areas, while the remaining 23.53 % resides in urban areas. There are 6,00,142 workers in the district, as per 1971 census, details of which are given below :

|  | Persons  | Males    | Females  |
|--|----------|----------|----------|
| 1. Total workers.                        | 6,00,142 | 4,03,513 | 1,96,629 |
| a) Cultivators.                          | 1,49,279 | 1,20,693 | 28,586   |
| b) Agril. labours.                       | 3,40,373 | 1,81,189 | 1,59,184 |
| c) Workers other than (a) and (b) above. | 1,10,490 | 1,01,631 | 8,859    |

BOUNDARIES : The North of this district is surrounded by Melghat Tahsil of Amravati district. The Daryapur, Amravati, and Chandur tahsils of Amravati district and Darwaha and Pusad tahsils of Yavatral district bound the East side of the district. Parbhani district of Marathwada division lies to the South, while Buldhana district forms the Western boundary of this district.

AREA & POPULATION : Akola district has an area of 10,567 sq.kms. and measures nearly 144.81 kms. in length from North to south. As already mentioned earlier, the district accounts for 3.43 % and 3 % of the area and population of the area and population of the Maharashtra State respectively. As per 1951 census, the population of the district was 7.89 lakhs which rose to 11.89 lakhs, in 1961 and further increased upto 15.01 lakhs as per 1971 census.

There are 9 Municipal towns in the district, which are distributed in the following population ranges.

| Ranges.             | No. of towns | Percentage of total urban population of the district. |
|---------------------|--------------|---|
| 1. 1 lakh & above.  | 1            | 48  |
| 2. 50,000 to 99,999 | nil          | -   |
| 3. 20,000 to 49,999 | 5            | 42  |
| 4. 10,000 to 19,999 | 2            | 7   |
| 5. less than 9,999  | 1            | 3   |

TOPOGRAPHY & SOILS : The northern part of the district in the Furna valley, is itself an part of Tapi river basin. The Furna, which is a Chief tributary of the river Tapi, has formed a fertile basin in the four talukas of the district, viz; Akot, Balapur, Akola and Murtizapur. This portion of the district is known as "PAYANGHAT". The southern part is known as "BALAGHAT" and is drained by Penganga, a tributary of Godavari and by its tributaries.

The Soil are basically derived from volcanic trap rock and are quite fertile. The great plain of the payanghat occupies the northern half of the district and contains chiefly rich, black soil. The central part of the Washim taluka and north-western part of Mangrulpur taluka have also good soils. On plateau in the south, the soil are shallow with murum substratum. Bready the soils are classified into three categories as coarse shallow found in the south medium black soils found in the plain and deep black soil found in the river vallys. The area in acres for these types of soils is as follows :

| Type of soils  | area in acres | percentate to total |
|--|---------------|---------------------|
| 1. Coarse shallow soil (high level in the south).            | 4,44,789      | 16.99               |
| 2. Medium black soil (Plain, central portion trap original). | 18,95,542     | 72.39               |
| 3. Deep black soils (vallys northern portion trap original). | 2,77,993      | 10.62               |

The talukawise description of the soils is as follows :.

i) Murtizapur taluka :- The greater portion of the taluka is a rich black soil plain gradually rising towards the south. In the vicinity of the hills on the southern border, along the eastern boundary and also in the north-eastern portion, the soils become shallow, stony, and less productive.

ii) BALAFUR : Roughly speaking three quarters of Balapur taluka may be said to consist of deep black soil of a fertile description. The rich portion lying towards the north. Near the hills, lighter soils predominate. This area is more dependent upon the rainfall.

iii) MANGRULPIR : The northern half of the Mangrulpir taluka consists of an undulating table land containing black soil of a productive nature, it is, however, very variable in depth. The southern portion is mountainous and rough, soil being mostly poor & shallow.

iv) AKOLA : Akola taluka is an open widely cultivated tract, possessing rich deep black soil. East of the Katepurna river, the tract is stony. Near the hills on the southern border shallow and inferior soils predominate.

v) A K O T : Akot taluka is the most fertile portion of the Purna valley and possesses rich black soil. It is well cultivated, thickly populated and well wooded with Mangroves.

vi) WASHIM : In Washim taluka, soils very considerably both in nature and depth, the richest portion being the centre of the taluka where there are extensive black soils, plains devoted chiefly to the growth of wheat and other winter crops. In the most of the taluka the soil is lighter and shallow.

HILLS AND RIVER : There are no mountains of importance in the district, but Cawilgad hills are spread over the northern part of the district. These hills are bordering the district at the north and are part of Satpura ranges. The central part of the district is plain. To the south in Washim taluka are the ranges of Ajanta mountains which have formed a plateau. This plateau is known as "BALAGHAT".

The Purna is the Chief river of the district. Rising in Betul district of Madhya Pradesh, it enters the district from Amaravati district and flows west across Akola district in Buldhana district.

It forms the northern boundary of Murtizapur, Akola and Balapur talukas and the southern boundary of Akot, Taluka. The chief tributaries of the Purna on the south bank are the Pendhi, Uma, Katepurna, Lonar, Morna, Nirguna and Man. The Katepurna largest of all the tributaries, rises within a few miles of Washim and flows across the eastern side of Akola taluka and the north-western corner of Murtizapur. All the streams of the northern part of the district flow into the Purna. The Penganga, which flows south-east across Washim Taluka maintains its current throughout the year. The Aran, Arnavati and PUS rise in Washim taluka and flow through part of M'pir taluka finally joining the Painganga. The rivers Katepurna, Morna, Nirguna are harnessed by construction of major and medium irrigation projects, while projects to harness Van and Uma rivers are in the offing.

CLIMATE AND RAIN FALL : The climate of the district is severe i.e. very hot in summer and much cold in the winter. However, nights in summer are cooler and tolerable. The temperature during the month of May is generally high and reaches 48° centigrade and at times crosses 50° centigrade.

Akola district falls in the medium rainfall zone of Maharashtra State having an average rainfall between 750 to 1000 mms. The rainfall is more in the southern part i.e. the Mangrulpir and Washim talukas than in the north. The reliability of rainfall in Akola district is said to have been moderate and as such, the district has suffered from scarcity on very few occasions. The talukawise normal rainfall and the rainfall for the year 1976 as follow :

| Taluka         | normal rainfall | Rainfall for 1976 |
|----------------|-----------------|-------------------|
| 1. Akola.      | 802.4           | 777               |
| 2. Akot.       | 861.1           | 596               |
| 3. Murtizapur. | 818.8           | 926               |
| 4. Mangrulpir. | 861.1           | 1142              |
| 5. Washim.     | 907.3           | 815               |
| 6. Balapur.    | 907.3           | 716               |

PLACE OF INTEREST : Although, not included in the State list of places of interest, the places of interest in the district are the Hill-Fort of Narnala in Akot tahsil, the fort of Balapur two "VIHARICUT." in rocky hill near Patur and various Hemad Panthi temples,

the best of which is at Barshi-takli in Akola taluka. In addition to above temples and places of interest, the district has famous " B A L A J I " Temple at Washim, Narsinha Saraswati (Datta Guru) temple at Karanja, India fame JAIN TEMPLE at Shirpur (Washim tahsil), temple at Dawha and Sakharam Maharaj at Loni.

The achievements in Akola district for important sectors have been described below :

IRRIGATION : In 1960-61, 3300 hectares of land were only irrigated out of total net cropped area of 763906 hectares. That is only 0.43 percent of land was under irrigation. On account of completion of six medium irrigation projects, number of minor irrigation tanks and irrigation wells, the land under irrigation has been increased. The net area under irrigation has rise to 18334 hectares of land out of net cropped area of 826161 hectares in 1975-76. The percentage of total land under irrigation works to 2.2.

INDUSTRY : In Akola district as on 1975, 120 factories were established out of which, 73 were submitting returns, out of 120 factories, 57 were established for cotton ginning and pressing, 24 for manufacture of other edible oils and fats, 7 for grain mill products, 3 for cotton spinning weaving, 1 for hydrogenated oil vanspati ghee and 4 others small agro based factories. The remaining 24 factories were pertaining to printing press, tools, electric goods, motors etc. The total workers employed in reporting 73 factories were on average 7222 per day.

P O W E R : As on 1960-61, 8 towns, 52 villages were only electrified. Due emphasis laid on electrification programme during various plans, the number of towns electrified increased to 9 and that of villages to 769 as on 1976-77. Though 100 % urban places have been electrified. The percentage for rural places (Villages) works out to 45. Due to emphasis laid on electrification programme in 5th Plan; more villages will be electrified during remaining period of 5th Plan.

C H A P T E R - I I

Explanatory notes on the scope and limitations of the Statistical data presented in part-II (Statistical Abstract).

I. PURPOSE : The abstract part of this publication (part-II) gives exhaustive statistical data on important socio-economic indicators of development. Tables on most of the important topics are presented in this part, so that the publication shall be able to serve as a reference book. Talukawise and panchayat samitiwise data have been displayed as far as possible for inter-taluka and panchayat samiti comparison. In most of the tables, the data for the calendar year 1976 or for the financial year 1976-77 have been presented, however, the data for Agriculture pertains to the agriculture year 1974-75 and 1975-76. In a few cases comparative figures for two years are given, while in some tables where 1976-77 data could not be presented, the same for the latest year, for which they are available have been shown. In case of population 1971 population census data has been considered. The latest census figures have been taken into account of live-stock 1972. All the data have been collected from the State and Central Government Offices, Local bodies like Zilla Parishad and Municipalities and autonomous board like Maharashtra State Electricity Board. The source from which the data have been collected has been mentioned just below the table.

II. DISTRICT AT A GLANCE : This table given in the beginning present a birds-eye-view of the socio-economic indicators of development in Akola district with comparative data for Maharashtra State as a whole, under different heads such as area, population, Medical and Public Health, Transport and communication, local bodies, community Development, Plan and Miscellaneous statistics. Reference year of the data is also indicated against each item under the table

III. CONTENTS, SCOPE & LIMITATIONS : The statistical tables presented in the district statistical abstract are grouped into 13 parts. The contents of the tables and the scope and limitations of the data displayed under each group are explained below :

Two villages namely Wadhavi and Isapur from Akola tahsil were transferred to Murtizapur tahsil, as such the corresponding area and number of villages of Akola tahsil are reduced in 1971

and there is an increase in the area and number of villages of Murtizapur tahsil.

The figures of occupied residential houses shown in table no.1 under col.9 are those of census houses actually used as residence-cum-other use on census day. The number of residential houses thus includes besides residential house, workshops, factorics, garages, shops, drivers, depots etc; where one or more persons (like watchmen, peons, attendants etc) were found to be residing at the time of census,. On the other hand, it does not include houses, which are residential houses, but which at the time of census were either vacant or where no person was found to be residing i.e. these exclusively used for non-residential purposes).

According to the definition as per 1971 census, a household comprises of a group of persons living in the same house and eating from the same kitchen. Those persons may not necessarily belong to the same family or be blood relations.

The total number of villages at the time of 1961 census were ~~XX~~ 1,712(1507 inhabited and 205 deserted). However, the total number of villages in 1971 census decreased to 1,708(1,489 inhabited villages and 219 deserted). The reasons for decrease are as under:

- i) Following villages which were partly included in urban areas in 1961 census are fully included in urban area in 1971 census.
- i) Sukapur (Akola tahsil)
- ii) Mamdabad ( Akot tahsil)
- iii) Nurbad -do-
- iv) Satkabad -do-
- v) Telhara kh. -do-
- vi) Telhara bk. -do-
- vii) Khanapur Trimbakpur. -do-
- viii) Washim (Washim tahsil)

1. AREA & POPULATION : In all seven tables i.e. table no.1 to 7 are included in this section. Data for 1971 population census have been shown in all the tables. Reference period of 1971 census was sunrise of 1st July 1971.

Table no.1 indicates panchayat samitiwise and talukawise population per square km. inhabited and uninhabited villages, number of towns, number of occupied residential house, number of households and sexwise population as per 1971 census for the rural and urban areas.

In 1971 census, the area figures for the district is based on the area figures supplied by the Surveyor General of India.

The surveyor General's figures are not available, for below district level. The urban area for the district and tahsils are based on those supplied by the local bodies for their respective areas. The rural area for the district is derived by subtracting urban area from the total area figures for the district supplied by the Surveyor General. The tahsils rural areas are arrived at by adding area figures of the villages within the respective tahsils. Similarly, urban area in tahsils are arrived at by adding the areas of the towns falling within tahsils. The total area of the tahsils is the sum total of rural and urban areas so derived. The total and rural areas of each tahsil will not add to the district total and rural areas given against district total under col.4 of the table. Thus there are three sets of area figures for the district as shown below :

| Source   | Area in sq.km. |
|--|----------------|
| 1. District areas as supplied by Surveyor General of India.  | 10,521.72      |
| 2. District area as supplied by Director of Land records at the time of 1961 census and as adopted for tahsils in 1971 census. | 10,595.7       |
| 3. District area (Geographical area) as reported in the season and crop report (Table 10 of the abstract)                      | 10,559.9       |

II. Three villages given below are newly formed.

- i) Kasmari (Akola taluka)
- ii) Umarwadi (Balapur taluka)
- iii) Kalakamtha (Washim taluka)

III. (iv) The village Mangrulpir, which was shown as fully merged in urban area in 1961 census is shown as partly merged village in urban area in 1971 census.

Table no. 2 show decadal variation in population since 1951 by sex and by rural and urban characteristics.

Table no.3 gives classification of inhabited villages according to different population ranges. For purposes of the census rural area has always been defined negatively. The urban area is.

defined meticulously and the remaining area is treated as rural area. A village in 1971 census is thus a revenue village having defined boundaries and a separate set of land records. Hamlets, Wadis or Padas have therefore, not been shown separately as villages. Villages also include forest villages comprising mostly forest labourers and their families.

Table no.4 gives classification of towns according to population ranges as per 1971 census in Akola district. A town or urban area is defined as a place which has :

- 1) A Municipal council, a Contonment or Civil lines or :
  - i) A population of 5,000
  - ii) A density of not less 400 per sq.km.
  - iii) 75 percent of the male working population pursuing occupation falling outside agriculture.
  - iv) The place should have according to the Director of Census -- Operation of the State, a few pronounced urban characteristics and amenities. All the 9 towns in this district fall in the first category.

Table no.5 gives talukawise figures of number of workers classified into nine broad industrial categories alongwith total number of non-workers as per 1971 census. Information is given for rural, urban and total. The main economic activity returned by a person was the basis on which he was classified as worker or non-worker. A worker is defined as a person whose main activity is participation in any economically productive work through his physical or mental activity work involves not only actual work, but effective supervision and direction of work. In case of regular work in trade, profession, service or business, a person was considered as a worker, if, he had participated in such regular work, but absent temporarily during the last week due to reasons like illness, holiday, strike etc. was treated as worker. In the case of perennial work, such as ~~an~~ cultivation, livestock, plantation, household industries, a person was treated as worker by ascertaining whether he had participated any time during the last one year, even if, he was not economically active in the week prior to enumeration. Persons, primarily engaged in household duties, or boys and girls attending school, but, helps the family's economic activity, but not as a full time worker, where not treated as worker

for the main activity. On the other hand, if a person is primarily engaged in some economic activity, but at the same time does also attend to some household duties or attended a night-school was treated as worker. Persons like beggars, pensioners, rent receivers who earn an income, but who are not participating in any productive work were treated as non-workers. Table no.6 gives distribution of population according to (A) Age group (B) Religion, separately for rural and urban and for the district as a whole as per the 1971 census.

The table no. 7 gives details of scheduled castes and scheduled tribes for each taluka and panchayat samiti as per 1971 census. The scheduled castes notified for the district are as follow :

- |            |             |              |
|------------|-------------|--------------|
| 1. Bahana  | 6. Bhangi   | 11. Ganda    |
| 2. Balahi. | 7. Chambhar | 12. Kaikadi. |
| 3. Sansi.  | 8. Dohar.   | 13. Katia.   |
| 4. Basor.  | 9. Dom.     | 14. Khatik.  |
| 5. Bedar.  | 10. Ghasi.  | 15. Madgi.   |
|            |             | 16. Mahar.   |

SCHEDULED TRIBES : No area of the district is notified as scheduled tribe area for this district as such, no scheduled tribes population is enumerated in the district in 1971 census.

2. CLIMATE : Only two tables are included under this section pertaining to 'Rainfall' and 'Temperature' at the selected centres in Akola district. The table no.8 gives monthly rainfall and number of rainy days in each month at the selected centres for the year 1976. The data are collected through Revenue agency. A day is treated as 'Rainy day' if, during the 24 hours the rain-guage recorded a minimum of 2.5 mm' rainfall. Annual rainfall for each centre is also indicated in the table.

The table no.9 gives monthwise 'Maximum and Minimum' and also annual temperature as recorded at the selected centres for the year 1976. The data are supplied by the Regional Meteorological centre Nagpur. The maximum and minimum temperature denotes the maximum and minimum temperature, recorded during the month.

3. AGRICULTURE : In all 12 tables i.e. table nos.10 to 21 are included in this section. The table no.10 indicates talukawise figures of Land utilisation under the standard heads of land uses for the year 1974-75 and 1975-76. Against each taluka, the breakup of the total geographical area according to different types of land uses is shown. Major constituents of the Geographical area are forests, land put to non-agricultural uses, barren and unculturable land, cultivable wastes, permanent pastures, land under miscellaneous tree crops not included in area sown, old and current fallows and lastly net area sown. Under 'Forests' area of land classed or administered as forest under any legal enactment dealing with forests whether state owned or private. If any portion of such land is not actually wooded, but put to some agriculture use, that portion is included ~~under~~ under the appropriate heading of cultivated land as the case may be. 'Land put to non-agricultural uses' stands for all lands, occupied by buildings, roads and railways or under water e.g. rivers and canals and other land put to uses other than agriculture. Barren and unculturable land covers all barren unculturable land like mountains deserts, etc; land which can not be brought under cultivation unless at a high cost is classed as barren and unculturable land whether such land is in isolated blocks or within cultivated holdings. Culturable waste includes all lands available for cultivation, whether not taken up for cultivation or taken up for cultivation once, but, not cultivated during the current year and last Five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles, which are not put to any use. They may be assessed or not assessed and lie in isolated blocks or within cultivated holdings. Permanent pastures and other grazing lands cover all lands, whether they are permanent pastures and meadows or not. Village common and grazing lands within forest areas are included under this head. Land under miscellaneous tree crops etc; not included in the net area sown, includes all cultivable lands, which is not included under net area sown, but, is put to some agricultural use. Land under Casurina tree, thatching grass, bamboo bushes, and other for fuel etc; which are not included under 'Orchards' are classed under the category

'Current fallow' comprise of cropped area, which is kept fallow during the current year. 'Other fallow' includes all lands which were taken up for cultivation. But, are temporarily out of cultivation for a period of not less than one year, and more than five years. The (net area sown consists of net area sown with crops and orchards, area sown more than once being counted only, once. The gross cropped area represent the sum total of area under all crops. The difference between the total or gross cropped area and net area sown is accounted for by the area sown more than once during the June with the same or different crops. The table no.12 gives yield per hectare in kg. and outturn in hundred metric tonnes for important crops for the year 1974-75 and 1975-76. The production for sugar-cane is in terms of gur while for cotton, the production is in terms of bales of 180 kg. each.

The table no.16 shows availability of under ground water and activities of ground water and Development Agency during the year 1976-77.

Table no.17 shows minor irrigation works in use and not in use in the district net area brought under irrigation during 1975-76 was 2,924 hectares.

The table no.18 gives the information on major and medium projects in this district. Both completed and incomplete projects have been covered in this table. Position in this table is as it was on 30th June 1976. The cost of medium irrigation project ranges between Rs.20 lakhs to Rs.5 crores. Whereas that of a major irrigation project, it is Rs.5 crores and above.

The table no.19 deals with monthly agricultural wage rates in 1976. The data is collected fortnightly, throughout the year from three selected rural centres viz. 1) Dorgaon 2) Chohatta and 3) Ansing.

Table no.20 deals with information of operational Holdings and area operated and holdings reporting irrigation and nature of ownership.

Table no.23 provides the history of scarcity areas under revenue circles in each taluka by giving the number of villages affected for the year 1970-71 to 1976-77.

4. ANIMAL HUSBANDRY & FOREST :

A. ANIMAL HUSBANDRY : In all 4 tables i.e. table no.24 to 27 included in this section.

Table no.24 gives talukawise number of various types of livestock census 1972. The census is conducted throughout the country on an uniform basis of concepts and methods of enumeration once in 5 years. During the livestock census operation, the livestock and poultry were enumerated by house to house enquiry. Particular care was taken to enumerate livestock in slaughter house, stray animals and animals in transit. Sex and age groupwise classification of the livestock is also indicated in the table.

B. FOREST : The table no.28-A gives details of area in different types of forests during the year 1976-77. Data regarding forest ~~and~~ under the control of the State Governments Revenue department are shown separately. The areas under forest are classified according to legal status into reserve forest protected forest, and unclassed forest. The legal status refers to the classification of forests under the Indian forest Act, XVI of 1927. Reserved forests are these that are intended mainly for timber production, wherein the rights of grazing and cultivation are seldom allowed. In protected forest the restriction are not so rigid. Right of grazing and of cultivation is allowed, but certain limitations and restrictions are imposed. The unclassed forest refers to the inaccessible forests or unoccupied waste. The forests which are taken by Government from local bodies or private individuals for management of lease basis are classed as leased forests. There is no classification of expropriatory forest but, in Nagpur division, some private lands containing valuable forest are taken over by Government under section 29 of the India forests Act, which are not yet classified and they are termed as expropriatory. The forest area shown in the table no.28-A may not tally with the area under forest shown in table no.10.

I. In the Indian forest statistics returns, the whole area including non-wooded area under the control of forest department is taken as area under forests, while in agricultural statistics, it is classified according to its actual utilisation.

II. The forest department returns are meant to serve a definite administrative purpose and indicate the ownership of the forest areas and the actual utilisation of these areas is not so important from the point of view of forest department, as it is in the land utilisation statistics under agricultural statistics.

III. The forest department returns relate to the financial year and agriculture statistics relate to the agriculture year.

5. EMPLOYMENT INDUSTRY & ELECTRICITY : In all 11 tables, i.e. 29 to 39 are included in this section.

Table no.29 provides information regarding inland fisheries area brought under pisciculture and fish production.

The Factory statistics shown in table no.30, 31 and 32 cover following types of factories registered under the Factories act 1948.

1. These employing ten or more workers working with the aid of power (section-2I).
2. These employing twenty or more workers and working without the aid of power (Section-2ii) and
3. These registered under section 85 of the act, under which the State Government makes applicable the provisions of the act, even though the above conditions are not fulfilled. However, statistics of the Defence Factories are excluded.

The data in table 33 gives the registered number of factories their productive capital, employment, gross output and value added by manufacture. However, these figures are based on the actuals of the reporting of census sector factories and estimates of sample sector factories. A detail note about the limitations has been given just below the table.

The table no.34 gives the employment exchange statistics for the year 1976-77. The data has presented for number of vacancies notified, placements, registration etc; The table no.35 gives occupational distribution of total registrations and placement in the employment exchange for the year 1976-77, according to the standard National classification. Table no.37 presents the volume of employment in different Industries as on 31st March 1977, classified under major description like quarrying, manufacturing, trade & commerce, services etc;•

The consumption of electricity by type of generation in Akola district has been presented in table no.38 for the year 1976-77, while table no.39 gives the number of towns and villages electrified as on 31st March 1961, 1966, 1971, 1973 to 1977.

6. COOPERATION : In all 8 tables i.e. table nos.40 to 47 are included in this section. The table no.41 gives details of share capital, working capital and loan advances by the cooperative Banks. The loan and advances in a bank can be classified into two broad categories depending on the period viz. short term and medium term. Short term outstandings are those which relate to loans and advances repayable within a period not exceeding 15 months, and include the outstandings under cash credits and overdrafts, and bills (and hundies), purchased or discounted. Loans for periods exceeding 15 months and upto 5 years are medium term loans. In a few cases, the period of repayment may extend beyond 5 years. The table no.42 gives panchayat samiti and talukawise membership, share capital, reserve and other funds, working capital, loans advanced and recovered, loans outstanding and over dues and percentage of recovery to total loans advanced for the year 1976-77. 'Working capital' hitherto included paid-up share capital, reserve and other funds, deposits and borrowings. It is however, contended that some other items appearing on the liabilities side of the balance sheet such as interest payable, unclaimed dividends, provisions for income tax and for bonus to staff undistributed profit etc; are also utilised in the business of an institution and as such, they also form part of the working capital. The term working capital has, therefore, been redefined as the total of all items appearing on the liabilities side of the balance sheet including balance of profit, if any, but, excluding the certain items such as bills for collection, State partnership fund, staff provident fund deposited with provident fund Commissioner. Loans outstanding include in respect of loans, cash credits and overdrafts and the amount of outstanding bills purchased or discounted. 'Overdues' refer to amount of loans or instalments which were due for collection, but which were not actually collected and for the repayment of which no extension has been granted by a competent authority.

The table no.47 gives talukawise number of registered money lenders in each taluka and loans advanced by them during 1976-77. Separate figures of loans advanced to traders and non-traders have been furnished in the table. The transactions of money lending in the State are regulated under the provisions in Bombay money lenders act 1946.

According to the act, no money lender shall carry on the business of money lending except in the area for which he has been granted licence and except in accordance with the terms and conditions of licence.

7. MEDICAL AND PUBLIC HEALTH : In all 5 tables i.e. table no.48 to 52 are included in this section.

The table no.48 given in this section indicates talukawise number of hospitals, dispensaries, maternity homes, health centres, doctors, nurses, number of beds and total number of indoor and - outdoor patients for the year 1976. The table covers all the State and central Government medical institutions, and also institutions owned by Municipalities and local bodies, autonomous boards engaged in providing medical facilities, and also such institutes which are given grant by Government.

Private clinics run by private bodies or individuals and however, not included in the table.

The table no.49 gives vital statistics such as number of registered births and deaths, infant deaths in this district for the year 1976. Table no.50 presents the causes of deaths due to some important diseases like cholera, small pox, Malaria etc; table no.50 deals with family planning information.

8. EDUCATION : In all 7 tables i.e. table no.53 to 59 are included in this section.

The table no.53 gives sexwise number of literates and percentage of literacy separately for rural and urban areas of each taluka according to 1971 census population. As per 1971 census definition, a person was classified as a literate if he was able to read or write a simple letter in any language. The data on education in rural and urban areas for giving the distribution of literates according to educational standards, as per the 1971 census are not available.

\*

As subh, two tables on this subject are given as per 1961 census. The table no.56 gives information regarding number of educational institutional institutions according to types for the year 1975-76. Sexwise enrolment and number of trained and untrained, teachers in these institutions is also indicated in this table. The classification of institutions according to type is slightly different from stage of education. There are at present many Secondary schools, which also impart education in primary course.

Never-the-less, the entire enrolment of students is included under 'Secondary' education for standards, I to IV or standard I to VII/VIII or less according to curriculum approved by the education department. The secondary institution coach students for standard VIII to X/XI with or without lower standards. Higher education is an education after passing Secondary school certificate examination, which leads to a Degree examination.

The table no.58 presents data on the number of beneficiaries among backward classes, such as scheduled caste, scheduled tribes and other backward classes for the year 1975-76, and 1976-77, beneficiaries for this table are persons who are getting educational concessions of either type such as scholarships, freeships etc;.

9. TRANSPORT & COMMUNICATION : In all 7 tables i.e. table nos.60 to 66 are included in this section. The table no.60 gives total x railway length as on 31st March 1977, according to type of routes, Broad guage, metre guage and Narrow guage. The railway length is measured between the first and last station within the district boundary. The figures of length of each type of route are, therefore, approximate and not exact.

The table no.61 gives the data of categorywise road length in kms. so also Muncipal road length as on 31st March 1977.

Table no.63 deals with operational statistics of Nationalised roads transport in Akola division. For this table, the State Transport Division Comprises of Akola district only.

Table no.64 presents the results of the traffic census on important road conducted by building and communication department, Government of Maharashtra, Data on number of vehicles is according to categories and location of countpost type of surface and total traffic intensity in terms of number of vehicles (Fast and slow)

moving. Table no.65 deals with number of post offices, telegraph offices, number of letter boxes, number of postmen, telephones, radio licenses issued.

10. LOCAL BODIES : In all 4 tables i.e. table nos.57 to 70 are included in this section. The table no.67 gives abstract of Income and expenditure of local bodies such as village panchayats, Zilla Parishad and Municipalities for the financial years 1965-66 to 1976-77. The number of village panchayats includes number of independent village panchayats as well as group village panchayats.

11. PLAN & COMMUNITY DEVELOPMENT : In all 5 tables i.e. table no.71 to 75 are included in this section. In table no.73 number of villages covered under block is given as per 1971 census. Population coverage is given as per 1961 and 1971 censuses.

12. P R I C E S : The table no.77 gives monthly average retail prices of various commodities at district headquarters Akola. The average prices under each commodity are shown from the month of January to December for the year 1976, alongwith units and varieties of commodities for which prices have been quoted. The data are regularly collected by district Statistical Office, every week on Friday by visiting the selected shops. The average prices of each commodity for the year is also shown in the table. As the information collected for the given commodities is restricted to only one quotation and that too only from one shop at district headquarter, the average price for individual commodity can not be said to be fully representative, but the data may prove useful as a broad indicator of the trend in changes in retail prices over the period of time.

... 19...

The table no.78 gives consumer price index numbers (Revised-series) for working class of Nagpur centre published by the office of the Commissioner of labour, Bombay. Monthwise data for the year 1976-77, commencing from April and also average for the year 1976-77 have been given in this table. The base year for calculating price index(new series) is 1960. The index number of wholesale prices are issued by the economic Advisor to the Government of India. The base year for the same is 1952-53. The method of construction of the index is given in the appendix to index number of wholesale prices in India revised series 1956 issued by the office of the Economic Advisor to Government of India. The equivalent of old index numbers can be obtained by multiplying the new index by 5.22 as multiplier.

13. MISCELLANEOUS : In all 11 tables i.e. table nos.79 to 91 are included in this section. The table no.79 gives information on strength of police force, crime statistics, work disposed off in civil and criminal court, Cinema, number of banking offices, joint stock companies, insurance policies small savings, land revenue collection and printing presses, Two more new tables are added in this group. Table no.90 gives quantity of rice, wheat and sugar issued for fair price shops in Akola district and table no.91 gives the data of important indicators in the district. The table no.91 gives demand and procurement of levy in Akola district from 1970-71 to 1976-77.

C H A P T E R - I I I

IMPORTANT INDICATORS OF DEVELOPMENT

In this chapter, an attempt has been made to present certain important indicators to depict certain trends and to indicate impact of development and also to indicate disparity if any, between the talukas. The indicators worked out show the comparative position during 1960-61, the year before the commencement of the Third Five year plan and the year 1975-76 in a few cases, where data for the year 1976-77 is not available.

INDICATOR NO. 1 : Percentage of gross area sown to net area sown

The proportion of the gross cropped area to the net cropped area indicates the extent of area sown more than once. The double cropping is mainly related to the irrigation facilities available assured and timely rainfall for the Rabi season so also the fertility of the soil. Akola district is lagging behind in all the above things and as such, the scope of double cropping is limited.

The table below indicates the percentage of gross cropped area to net cropped area in the district. It can be seen from the given figures that the position of taking double crop has not much changed over the decade and the percentage of gross cropped area rose from 100.40 in 1960-61 to 102.69 in the year 1975-76.

| Sr.No.:               | Taluka      | Y E A R S     |         |               |         |
|-----------------------|-------------|---------------|---------|---------------|---------|
|                       |             | 1960-61       | Ranking | 1975-76       | Ranking |
| 1.                    | Akola.      | 100.12        | 5       | 102.69        | 3       |
| 2.                    | Akot.       | 100.32        | 3       | 102.99        | 2       |
| 3.                    | Murtizapur. | 100.15        | 4       | 101.84        | 4       |
| 4.                    | Mangrulpir. | 100.55        | 2       | 101.72        | 5       |
| 5.                    | Washim.     | 100.96        | 1       | 104.47        | 1       |
| 6.                    | Balapur.    | 100.03        | 6       | 101.14        | 6       |
| <u>District total</u> |             | <u>100.00</u> |         | <u>102.70</u> |         |

It can be seen from the above table that there is no change in the place of Washim of Washim tahsil, which is first in the district in taking double crops. Akot taluka stands the second, while Akola is placed at the third number, because of the usage of irrigation facilities.

INDICATOR NO. 2 : Productivity of important crops

The productivity of the crops generally depend upon the timely rains, its adequacy and also equitable distribution throughout the season. The climatic condition and the facility of soil also play an important role in the productivity of crops. Apart from the above natural factors, the productivity can be pushed up through application of improved seeds, fertilizers, and improved practices. Irrigation also pushes the productions.

However, the rains play the major role in this district and the lack of timely rains and its unequitable distribution, the production of most of the crops other than wheat, Jawar, cotton has decreased abnormally during the last decade although the cultivators are practising improved practices like usage of improved seeds and fertilizers and application of insecticides to check the diseases etc.

The following table gives the cutturn of some of the principal crops for the year 1960-61 and 1975-76.

| Sr.No.: | Crops                                  | Production in  |         | Percentage increase over 1960-61. |
|---------|--|----------------|---------|-----------------------------------|
|         |  | hundred tonnes |         |                                   |
|         |  | 1960-61        | 1975-76 |                                   |
| 1.      | Rice.                                  | 46             | 59      | + 19.30                           |
| 2.      | Wheat.                                 | 203            | 662     | + 226.10                          |
| 3.      | Jawar.                                 | 1,700          | 1625    | + 4.42                            |
| 4.      | Bajra.                                 | 41             | 26      | - 36.59                           |
| 5.      | Gram                                   | 418            | 51      | - 24.39                           |
| 6.      | Tur.                                   | 425            | 346     | - 18.59                           |
| 7.      | Cotton lint-bales<br>(actual).1,85,500 | 159775         |         | - 98.98                           |
| 8.      | Ground-nut.                            | 267            | 265     | - 0.75                            |
| 9.      | Sugarcane.                             | 5              | 52      | + 9.40                            |

INDICATOR NO. 3 : Gross value of Agricultural Production

The gross value of agricultural production could not be calculated for the district as the relevent price statistics required is not presently available.

INDICATOR NO. 4 : Percentage of irrigated area

Akola district does not have much irrigation facilities. As such, the district has only 2.29 percent of the net area sown under the irrigation during the year 1975-76. The table below gives talukawise

percentage of net area irrigated to net area sown alongwith the percentage of gross irrigated area to net irrigated area.

| Sr.No.:         | Tahsil      | Percentage of net irrigated area to net area sown. |              | Percentage of gross irrigated area to net irrigated area. |              |
|-----------------|-------------|--|--------------|---|--------------|
|                 |             | 1960-61  | Rank-1975-76 | 1960-61   | Rank-1975-76 |
| 1.              | Akola.      | 0.25   | 6            | 2.52  | 3            |
| 2.              | Akot.       | 0.43   | 3            | 3.56  | 1            |
| 3.              | Murtizapur. | 0.54   | 2            | 2.62  | 2            |
| 4.              | Mangrulpir. | 0.36   | 4            | 2.01  | 4            |
| 5.              | Washim.     | 0.57   | 1            | 1.64  | 5            |
| 6.              | Balapur.    | 0.34   | 5            | 1.48  | 6            |
| District total. |             | 0.43   | 2.29         | 100.00  | 100.00       |

Among the talukas, the Akot taluka has more than 5 percent of net irrigated area to net cropped area of the talukas. However, there is a considerable increase in the percentage of irrigated area in all the talukas.

INDICATOR NO. 5 ;                      Change in the crop pattern

In Akola district, a major part of the cultivable land is occupied by the Kharif crops. Due to less irrigation facilities and less rainfall, Rabi crops are grown to a lesser extent in this district. The district is known for its area under Cotton with rotation as Jowar. During the year 1975-76, the district has 56.20 percent of the total cropped area under food crops. Among food-crops, Jowar occupies a major percentage of the area under food-crops. The talukas in the south having less fertile land grow food crops of which, the Jowar is the main crop on the contrary the talukas of north grow non-food crops deminated by cotton.

The table below gives the percentage of area under food-crops and non-food crops in each taluka of the district.

| Sr. No.      | Taluka      | Percentage of area under food crops to gross cropped area |         | Percentage of irrigated area under food-crops to gross irrigated area |         |
|--------------|-------------|---|---------|---|---------|
|              |             | 1960-61   | 1975-76 | 1960-61   | 1975-76 |
| 1.           | Akola.      | 49.08   | 54.30   | 99.89   | 87.16   |
| 2.           | Akot.       | 43.80   | 44.86   | 84.87   | 91.76   |
| 3.           | Murtizapur. | 48.19   | 50.76   | 100.00  | 99.00   |
| 4.           | Mangrulpir. | 50.73   | 55.59   | 100.00  | 98.11   |
| 5.           | Washim.     | 64.02   | 68.34   | 80.30   | 84.50   |
| 6.           | Balapur.    | 47.00   | 57.17   | 97.05   | 98.55   |
| Distt. Total |             | 51.57   | 56.20   | 90.95   | 92.31   |

NON-FOOD CROPS

|              |             |       |       |       |       |
|--------------|-------------|-------|-------|-------|-------|
| 1.           | Akola.      | 50.92 | 45.03 | 0.11  | 12.83 |
| 2.           | Akot.       | 56.20 | 54.00 | 15.13 | 8.23  |
| 3.           | Murtizapur. | 51.81 | 48.53 | -     | 0.99  |
| 4.           | Mangrulpir. | 49.27 | 43.23 | -     | 1.88  |
| 5.           | Washim.     | 35.99 | 30.52 | 19.70 | 15.49 |
| 6.           | Balapur.    | 53.00 | 41.57 | 2.95  | 1.44  |
| Distt. Total |             | 48.43 | 42.79 | 9.05  | 7.68  |

It will be seen from the above table that during the year 1960-61, there was 51.57 percent of the gross cropped area under food crops, which decreased up to 56.20 in 1975-76. This may be because of the percentage of irrigated area increased. During 1975-76, only Murtizapur taluka have more than 50 % of the gross cropped area under food ~~grains~~ crops. The percentage of area under non-food crops is 42.79 in the year 1975-76, which is less to the percentage of food crops.

The percentage of irrigated area under food crops to gross irrigated area is exceeding 90 %. The irrigation of food crops included wheat and vegetable and fruits and hence, this percentage seems to be much high. The cultivators have now started irrigating non-food crops like ~~xxx~~ ~~xxxx~~ cotton since the introduction of Hybrid cotton like H-4, Warlaxmi etc.

INDICATOR NO.6 : Increase in Agricultural credit & outstanding loans

The cooperative movement was primarily started to provide easy credit facilities to cultivators. The primary agricultural credit societies fulfilling this aim, thus constitute the base of the cooperative credit structure in the district so also in the State. The service cooperative societies previously known as Primary agriculture credit societies provide short-term loans, so also medium-term loans to the cultivator members for carrying out different agricultural operations. The credit advanced by these service societies increased considerably since the Third Five Year Plan, when the scheme of strengthening of cooperative structure was implemented. Talukawise figures are not available. However, the district figures of loans advanced and loans outstanding of the agricultural credit societies is given below.

| Name of district | Number of societies |         | Percentage increase or decrease | loan advanced          |                        | Percentage increase or decrease |
|------------------|---------------------|---------|---------------------------------|------------------------|------------------------|---------------------------------|
|                  | 1961-62             | 1976-77 |                                 | 1961-62 (Rs. in lakhs) | 1976-77 (Rs. in lakhs) |                                 |
| 1                | 2                   | 3       | 4                               | 5                      | 6                      | 7                               |
| Akola            | 835                 | 841     | +0.84                           | 126.09                 | 900.85                 | +614.85                         |

It will be seen from the above table that the number of societies in the district as a whole increased by 7 only, percentage increase being 0.84 only.

INDICATOR NO. 7 : Agricultural wage rates

Agriculture labour constitute a sizeable portion of the district population i.e. 22.67 % and thus, are considered as an important component of the population playing a vital role in the rural economy. The wages paid to the agricultural labour are studied since 1964, and comparative picture of wages structure of different agricultural labours for the year 1964 and 1976 is given below :

| Sr. No.:     | Centre | Year | (Wages in-Rs:0:00) |             |                  |              |           |      |
|--------------|--------|------|--------------------|-------------|------------------|--------------|-----------|------|
|              |        |      | Skilled labour     |             | Unskilled labour |              |           |      |
| 1            | 2      | 3    | 4                  | 5           | 6                | 7            | 8         | 9    |
|              |        |      | Car-penter         | Black-smith | Cobb-lers        | Field labour | Herds-man |      |
|              |        |      |                    |             |                  | Male         | Female    |      |
| 1. Ansing.   | 1964   |      | 3.45               | 2.80        | 2.96             | 2.33         | 0.83      | 1.00 |
|              | 1976   |      | 10.87              | 10.91       | n.a.             | 3.00         | 2.35      | 3.02 |
| 2. Chohotta. | 1964   |      | 3.89               | 3.86        | 2.00             | 1.35         | 0.82      | 1.02 |
|              | 1976   |      | 5.00               | 6.00        | n.a.             | 3.04         | 1.79      | 3.00 |
| 3. Borgaon.  | 1964   |      | 3.00               | 2.69        | 2.06             | 1.52         | 0.74      | 1.25 |
|              | 1976   |      | 5.50               | 6.73        | n.a.             | 3.25         | 2.04      | 2.81 |

It will be seen from above table that wage rates of both skilled and unskilled labourers increased considerably, since 1964. The wages of unskilled field labour are comparatively less in Chohatta centre, as compared to other two centres. The wages for unskilled labours have also shown increase in 1976 over 1964.

INDICATOR NO. 8 : Livestock per Hectare of Cultivable land

Livestock play an important role in the rural economy as they are the source of draught power, provide manures, milk and mutton. Livestock raising also yields a supportive income to the cultivators. As such, the indicator of livestock per hectare of cultivable area is worked out. As per 1972 livestock census, there were 843,948 livestock in Akola district of which, 543,149 were cattle 89,873 buffaloes. The table below indicates the livestock population per hectare of cultivable land in each taluka of the district.

| Sr.No.:        | Taluka      | Livestock per hectare cultivable land |      |
|----------------|-------------|---------------------------------------|------|
|                |             | 1961                                  | 1972 |
| 1.             | Akola.      | 1.03                                  | 0.92 |
| 2.             | Akot.       | 0.89                                  | 0.76 |
| 3.             | Murtizapur. | 0.88                                  | 0.91 |
| 4.             | Mangrulpir. | 1.09                                  | 1.31 |
| 5.             | Washim.     | 0.88                                  | 1.04 |
| 6.             | Balapur.    | 1.17                                  | 0.98 |
| District total |             | 0.97                                  | 0.98 |

It will be seen from the above table that livestock per hectare of cultivable area for the district as a whole remained almost stationary in 1972 over 1961. However, this proportion increased in the three talukas viz. Murtizapur, Mangrulpir and Washim while it has decreased in the talukas of Akola, Akot and Balapur.

INDICATOR NO. 9 : Poultry as compared to population

Poultry includes domestic birds like fowls, ducks, improved-fowls, and Geese. Of these, fowls form the major category. Poultry in general is reared as a subsidiary occupation giving an additional income specially to the rural folk. It also provides food by way of eggs and meat.

During 1972, there were 1,75,127 birds in Akola district and has increased by 28.82 % over 1966 livestock census figures.

The following table shows the number of poultry birds per 100 persons and per capita poultry birds in each taluka of Akola district.

| Sr. No.         | Taluka      | Poultry birds per 100 persons |       | Poultry birds per person |      |
|-----------------|-------------|-------------------------------|-------|--------------------------|------|
|                 |             | 1961                          | 1972  | 1961                     | 1972 |
| 1.              | Akola.      | 10.71                         | 9.67  | 0.11                     | 0.10 |
| 2.              | Akot.       | 14.36                         | 7.31  | 0.15                     | 0.07 |
| 3.              | Murtizapur. | 14.46                         | 16.75 | 0.14                     | 0.17 |
| 4.              | Mangrulpir. | 18.89                         | 20.07 | 0.19                     | 0.20 |
| 5.              | Washim.     | 17.69                         | 8.92  | 0.18                     | 0.09 |
| 6.              | Balapur.    | 14.13                         | 12.44 | 0.14                     | 0.12 |
| District total- |             | 14.71                         | 11.66 | 0.15                     | 0.12 |

It will be seen that the per capita poultry birds kept decreased from 0.15 in 1961 to 0.12 in 1972. Among the talukas, the figures of per capita poultry birds increased slightly in 1972 over 1961 level in the two talukas only viz. Murtizapur and Mangrulpir in rest of the talukas, the per capita poultry birds decreased in 1972 as compared to 1961 level.

**INDICATOR NO. 10 : Per capita consumption of Electricity**

There is sufficient expansion of electric lines during last decade as the number of villages and towns electrified has gone up. from 61 prior to 1961 to 769 by the end of the March 1977. However, 45.00 % of the villages are still to be covered under this programme.

The usage of electricity by the country gives the indication of the increased standard of living and hence, it will be rather beneficial to see the per capita consumption of electricity in the district.

| Years               | Per capita consumption of electricity in K.Wh. |
|---------------------|--|
| 1960-61             | 15.48  |
| 1976-77             | 45.75  |
| percentage increase | 195.54   |

It can be seen from above figures, that the per capita consumption of electricity has increased, roughly tribled i.e. from 15.48 to 45.75 K.Wh. in last 15 years, the reasons being installation of electric pumps and expansion of industrial units in the district. No ~~is~~ doubt, the increase is also due to change of habits of people towards the usage of electricity.

INDICATOR NO. 11 : Increase in number of candidates Enrolled and vacancies notified in employment exchanges

The media of employment exchange is being utilised both by employment seekers as well as by employers. Due to increase in number of educated personnel as a result of increased educational facilities provided though the scheme of Five Year Plans and due to various employment avenues created in the development process both the registrations and vacancies notified by the employers have been increased considerably after 1960-61. The comparative figures of registrations, vacancies notified and placements for the year 1960-61 and 1976-77 alongwith the percentage increase are given below :.

| Particulars            | 1960-61 | 1976-77 | Percentage increase or decrease. |
|------------------------|---------|---------|----------------------------------|
| 1. Registrations.      | 7,863   | 10,783  | + 37.13                          |
| 2. Vacancies notified. | 741     | 1,174   | + 58.43                          |
| 3. Placements.         | 605     | 700     | + 15.70                          |

Thus, it can be seen that the registration in 1976-77 have gone up to 10,703 from 7,863 in 1960-61. By the end of March 1977, there were 24,290 persons on the live register of employment exchange. Similarly, the vacancies notified have been increased by 58.43 % i.e. 741 in 1960-61 to 1174 in 1976-77. The same is the case with placements also. The figures of placements show an increase of 15.70 % Incre: in 1976-77 over 1960-61.

The employment position somewhat tightened in 1976-77 due to economy orders of Government as 1174 vacancies were notified during 1975-76. So also the placement have decreased from 978 in 1975-76 to 700 in 1976-77.

INDICATOR NO. 12 : Increase in Indoor & Outdoor patients treated in Public & public aided hospitals & Dispensaries.

Rapid expansion of institutional health services and curative facilities in the district has improved the general health standards of the people to a considerable extent. Campaigns for the eradication of number of fatal diseases were also undertaken due to which, the death rate has also gone down.

The following table shows the percentage increase or decrease in the number of patients treated over the year 1960

| Sr. No.      | Taluka     | No. of Indoor patients treated | 1960   | 1976     | Percentage increase + decrease in 1976 over 1960 | Out-door patients treated | 1960     | 1976 | Percentage increase or decrease in 1976 over 1960 |
|--------------|------------|--------------------------------|--------|----------|--|---------------------------|----------|------|---|
| 1.           | Akola      | 12,188                         | 164062 | +1164.00 | 203165   | 768824                    | + 278.42 |      |   |
| 2.           | Akot       | 970                            | 503    | -- 48.14 | 131467   | 110823                    | - 15.70  |      |   |
| 3.           | Murtizapur | 2,020                          | 20335  | + 906.68 | 107205   | 181329                    | + 69.14  |      |   |
| 4.           | Mangrulpir | 185                            | 184    | - 0.55   | 122970   | 57035                     | - 53.61  |      |   |
| 5.           | Washim     | 544                            | 2342   | + 330.51 | 95822  | 200406                    | + 109.14 |      |   |
| 6.           | Balapur    | 853                            | 205    | -- 75.39 | 57532  | 49960                     | - 13.16  |      |   |
| Distt. Total |            | 46,760                         | 177631 | + 959.85 | 837738   | 1368377                   | + 63.34  |      |   |

It will be seen from the above table that the number of Indoor patients treated in the district rose from 16,760 in 1960 to 177631 in 1976, percentage increase being 959.85. The talukas of Akot and Balapur showed a decrease in number of indoor patients treated which may be due to high figures in 1960 and because these two places are near to Akola, where specialised treatment is available in the main Hospital.

The increase in outdoor patients treated is 63.34 % in 1976 over 1960. The number of outdoor patients treated in Akot and Mangrulpir and Balapur taluka decreased in 1976 over 1960 level, while all the other talukas showed an increase.

INDICATOR NO. 13 : Increase in number of students in different Categories.

After independence, the importance of education was realised and in the Plan periods concentrated efforts were undertaken to raise the level of education.

In the Third Plan, the primary education was made compulsory for the age group 6-11. Considerable expansion of schooling facilities contributed to the increase in enrollment of students. Various incentives were also offered like educational concessions to the economically backward class students to increase the attendance of students at all levels.

| Categories                                | Y E A R S |           | percentage increase + |
|---|-----------|-----------|-----------------------|
|   | : 1960-61 | : 1976-77 |                       |
| i) Institutions.                          | 1,230     | 1,595     | + 29.67               |
| I. <u>PRIMARY.</u> ii) <u>Students</u>    |           |           |                       |
| i) Boys.                                  | 74,939    | 1,31,558  | + 75.55               |
| ii) Girls.                                | 39,646    | 93,911    | + 136.87              |
| Total                                     | 1,14,585  | 2,25,469  | + 96.77               |
| i) Institutions.                          | 65        | 180       | + 179.92              |
| II. <u>SECONDARY.</u> ii) <u>Students</u> |           |           |                       |
| i) Boys.                                  | 18,637    | 47,714    | + 156.01              |
| ii) Girls.                                | 5,599     | 23,766    | + 324.46              |
| Total                                     | 24,236    | 71,480    | + 194.93              |
| i) Institutions.                          | 5         | 18        | + 260.00              |
| III. <u>HIGHER</u> ii) <u>Students</u>    |           |           |                       |
| i) Boys.                                  | 1,518     | 5,709     | + 276.08              |
| ii) Girls.                                | 161       | 1,565     | + 872.04              |
| Total                                     | 1,679     | 7,274     | + 333.23              |

It will be seen from the above table that the Primary Schools, which were only 1230 in 1960-61 rose to 1595 in 1976-77 indicating the percentage increase of 29.67. Secondary schools rose from 65 in 1960-61 to 180 in 1976-77, percentage increase being 179.92. The number of Higher institutions showed considerable increase i.e. 260.00 %. The number of institutions rose to 18 in 1976-77 from 5 in 1960-61. The increase in students is also remarkable at all levels. The percentage increase in 1976-77 for the primary students enrolled was 96.77 while for Secondary students percentage increase was 194.93. The number of students attending higher institutions rose by 333.23 in 1976-77 over the year. 1960-61 it will be seen particularly that the attendance, of girls in higher institutions increased by 872.04 in 1976-77 over the year 1960-61.

INDICATOR NO. 14 : Increase in road length per 100 sq.km. of area

Roads are supposed to be the nerves of the nation and are essential for the rapid economic, industrial and social development. The programme of construction of roads was given due stress in the Five Year Plans and as such, the road length in the district rose from 851.64 km. by the end of March 1961 to 3130.30 km. by the end of March 1977. The road length per 100 sq.km. of area was only 8.06 km. by the end of 1960-61 and has gone upto 29.74 km. by the end of March 1977. The comparative position of different types and categories of roads as on 31-3-1961 as on 31-3-1977 is as follows :

| Type of road             | Length of road per 100 sq.km. of road |              | Categories of road | Length of road per 100 sq.km. |              |
|--------------------------|---------------------------------------|--------------|--------------------|-------------------------------|--------------|
|                          | 31-3-61                               | 31-3-77      |                    | 31-3-61                       | 31-3-77      |
| 1. National Highway.     | 1.34                                  | 0.94         | Cement             | -                             | -            |
| 2. State Highways.       | 3.95                                  | 5.92         | Black topped       | 3.63                          | 7.78         |
| 3. Major Dist. Roads.    | 1.99                                  | 6.59         | W.B.M.             | 4.43                          | 8.12         |
| 4. O.D.R.                | 0.63                                  | 6.67         | Granular material. | -                             | -            |
| 5. Village & other roads | 0.15                                  | 9.52         | Lower type         | -                             | 13.71        |
| <b>Total</b>             | <b>8.06</b>                           | <b>29.62</b> | <b>Total</b>       | <b>8.06</b>                   | <b>29.62</b> |

The district is connected with all important cities like Bombay, Nagpur, Aurangabad, Poona and to Indor in Madhya Pradesh.

INDICATOR NO. 15 :- Increase in Banking facilities in proportion to population

The Nation's economic prosperity can only be measured by the savings of the people. The banking institutions help to promote trade, commerce and industries by assisting them in their financial information regarding increase in banking facilities and problems. The following table gives the information regarding increase in banking facilities and banking offices per lakh of population.

| Sr. No. | Category of Banking institutions.      | No. of branches at the beginning of the year. |      | Percentage increase + decrease |
|---------|--|---|------|--------------------------------|
|         |  | 1960  | 1977 |                                |
| 1.      | Scheduled banks.                       | 11  | 42   | + 281.81                       |
| 2.      | Co-operative banks.                    | 13  | 51   | + 292.30                       |
| 3.      | Total.                                 | 24  | 93   | + 287.50                       |
| 4.      | Banking offices per lakh of population | 2.02  | 6.19 | + 206.43                       |

The above table shows that there were 24 banking offices in 1960 providing facilities to 50,000 population per office. The number of these institutions has increased from 24 in 1960 to 93 at the end of 1976. The ratio of banks per lakh of population increased from 2.02 at the beginning of the year in 1961 to 6.19 at the end of 1976. This increase is due to opening of new branches of banks.

INDICATOR NO. 16 : P R I C E S

Since 1962, prices of some important commodities are collected on weekly basis in the district. The prices are collected every Friday from the selected shops. To compare the trend of prices at district headquarter, the prices of 18 commodities of daily consumption have been selected and the average prices for the year 1963 and 1976 have been shown in the following table with percentage of their increase or decrease.

| Sr. No. | Commodities.   | Variety       | Unit       | Average price during |       | Percentage increase + decrease |
|---------|----------------|---------------|------------|----------------------|-------|--------------------------------|
|         |                |               |            | 1963                 | 1976  |                                |
| 1       | 2              | 3             | 4          | 5                    | 6     | 7                              |
| 1.      | Rice           | medium        | kg.        | 0.65                 | 2.09  | + 221.53                       |
| 2.      | Wheat.         | Vijaya medium | ,,         | 0.52                 | 1.77  | + 240.38                       |
| 3.      | Jowar.         | Yellow        | ,,         | 0.46                 | 1.33  | + 189.13                       |
| 4.      | Gram dal       | Goarani       | ,,         | 0.56                 | 1.79  | + 219.14                       |

1 9 7 6 - 7 7

The progress of planning in the country was started since 1951 with the formulation of Nation's First Five Year Plan. Subsequently, Second and Third plan have followed as close of the preceding Plans. However, the 4th Plan could not be started immediately after the close of the 3rd Plan and has officially been brought into implementation since 1969-70.

The State Plan of Maharashtra were formulated in the light of approaches and priorities fixed under the National Plans. The First and Second Plans of the State were formulated keeping in view the overall needs of the State and less attention was paid to the specified needs of the district. However, the Third Plan made provisions for the scheme purely benefitting the district apart from the schemes implemented at the State and Divisional levels, benefitting more than a district. The Third Plan ended in 1966-67, and had firmly settled the course of economic development. The Annual plan for the intervening period of three years immediately after the close of the Third plan continued the process of Planning. The Annual plans from 1969-70 onwards were formulated keeping in view the broad policies and programmes contemplated in the Fourth Five year plan, which has come to an end of March 1974. During the Fourth Plan, an amount of Rs. 1179.35 lakhs was spent on district level plan schemes.

In conformity with National and State's approach to the 5th Five year plan which specifically lays stress on removal of poverty, minimum needs programme and the 15 points programme, the drafts Fifth Five year Plan of Akola district has been prepared with allocation of Rs.36.62 crores and the same is being implemented through annual plan. In 1976-77 which was the Third year of Fifth Plan, an amount of Rs.647.89 lakhs was spent on district level plan schemes.

The year 1976-77 was <sup>the</sup> Third year of the Fifth plan. The financial and physical progress of the district level plan schemes included in the annual plan 1976-77 are discussed in this chapter.

... 22 ...

A budget provision of Rs.523.00 lakhs was provided for district level schemes for the year 1976-77. However, a higher expenditure was booked during 1976-77, i.e. Rs. 647.89 lakhs, thus representing 124 % performance. The plan expenditure incurred on different heads of development during the year 1976-77 under State and Local sector are given below table.

| Sr. No. | Heads of Development.                  | Expenditure incurred |               |              |              | Total         |

|         |  |                      |               |              |              | 581.79        |
|         | <b>Total</b>                           | <b>494.16</b>        | <b>574.03</b> | <b>87.63</b> | <b>73.76</b> | <b>647.89</b> |

In the annual plan of 76-77 year, importance was given to social services, Agriculture and allied activities, irrigation and power and Employment guarantee scheme, out of Rs.523 lakhs annual plan budget Rs.454.00 lakhs was provided to the above mentioned sectors, which forms 88.72 % of budget provision for the year 1976-77.

**I-AGRICULTURE PROGRAMME :**

The economy of the district like that of the State is based on Agriculture as such, the development of agriculture is given the due priority. Stress on the development of agriculture is also given to achieve self sufficiency in food production. Therefore, this head of development was provided with the substantial share from the total allocation i.e. 27 %. Among the various sub-heads included under this head of development, priorities and importance were

given to minor irrigation works, Soil conservation works and Ayacut-development under the command area of the completed irrigation projects. The sub-headwise provisions and expenditure under this head for the year 1976-77 are as under:

**AGRICULTURAL PRODUCTION :** The sub-head of agricultural production had been provided an amount of Rs.4.22 lakhs against which an expenditure of Rs.3.42 lakhs had been incurred, percentage of expenditure over the budget being 81.04%. In order to improve the economic conditions of the small farmers, the scheme of integrated area development scheme taken up in the year 1971-72 was continued. The following improved animals and implements were distributed on subsidised rates to enable the small farmers to undertake better cultivation and also to raise their income by way of rearing milch animals.

| ITEMS                     | Units  | Achievement |
|---------------------------|--------|-------------|
| 1. Supply of seeds.       | 1000   | 130         |
| 2. Supply of fertilizers. | Tonnes | 181         |
| 3. Supply of Buffaloes.   | Number | 31          |
| 4. Supply of pump-sets.   | Number | 5           |
| 5. New wells.             | Number | 3           |

The scheme is under implementation in Balapur and Patur blocks of Balapur tahsil.

**AREA DEVELOPMENT :** The programme of area development including bunding, construction of water courses etc. in the command area of completed irrigation projects undertaken in the earlier years was continued by the special soil conservation division opened for this purpose. Against a budget of Rs.15.25 lakhs, an expenditure of Rs.13.96 lakhs had been incurred over this scheme.

**MINOR IRRIGATION :** The programme of construction of minor irrigation works was taken in this district in order to increase area under irrigation to boost up agricultural production. An amount of Rs.65.20 lakhs was provided for this sub-head for the year 1976-77 against which, an expenditure of Rs.63.23 lakhs was incurred. The programme of construction of irrigation wells and installation of pump-sets was undertaken by way of loans by the Land development bank. Subsidy to small holders was given under the plan scheme.

Against a budget of Rs.35.00 lakhs for minor irrigation tanks under State Sector an expenditure of Rs.27.55 lakhs was incurred during 1976-77 for completing 25 tanks and Four tanks are in progress. While in local Sector, 12 tanks have been completed during 1976-77 and an expenditure of Rs.35.00 lakhs against a budget of Rs.30.00 lakhs.

SOIL CONSERVATION : The programme of construction of graded bunding under soil conservation measures started in the Third plan was continued during 1976-77. The sub-head has been provided an amount of Rs.18.15 lakhs for the year 1976-77 against which, an expenditure of Rs.21.56 lakhs was incurred. Bunding has been done in an area of 17038 hectares during the year under report.

DAIRY DEVELOPMENT : The Akola town milk supply scheme had been provided a budget of Rs.25.70 lakhs against which, an expenditure of Rs.25.27 lakhs was incurred during 1976-77. The milk scheme had handled on an average of 26429 litres of milk per day. The financial assistance in the shape of managerial subsidy was given to twenty dairy cooperatives incurring an expenditure of Rs.20 lakhs.

F O R E S T : For the development of forest in this district, an amount of Rs.4.00 lakhs was provided for the year 1976-77 against which, an expenditure of Rs.2.42 lakh was incurred. Twelve hectares of plantation was undertaken during the year under the scheme of plantation of general utility timber, while 85 hectares of plantation was done under the scheme of plantation of quick growing species. Third year operations were performed in 122 hectares of fodder plantation.

F I S H E R I E S : An amount of Rs.2.87 lakhs was provided for the fishery development for the year 1976-77 against which, an expenditure of Rs.1.00 lakh was incurred. The scheme of fish rearing impounded water is continued from the earlier years and 23.41 lakhs of fingerlings were stocked in different tanks in the district. Construction of fish nurseries near the completed irrigation projects was continued during the year, incurring an expenditure of Rs.0.60 lakh. An expenditure of Rs.0.10 lakh was incurred under the scheme of financial assistance for fishery requisites and financial

assistance to fishery cooperative societies under which, 119 kgs. of nylon twine were purchased and one societies were assisted during the year.

WARE HOUSING & MARKETING : Thirteen market committies were given financial assistance for development of market yards incurring an expenditure of Rs.1.73 lakh against a provision of Rs.2.00 lakhs for the year 1976-77.

## II. CO-OPERATION & COMMUNITY DEVELOPMENT :

i) COOPERATION : The sub-head of development cooperation was provided an amount of Rs.2.22 lakhs for the year 1976-77 for giving financial assistance to different types of cooperative societies. An expenditure of Rs.2.88 lakhs was incurred during the year. Under the scheme of strengthening cooperative structure, an amount of Rs.0.25 lakh was spent. Financial assistance worth Rs.0.28 lakh was also given to 5 cotton ginning and pressing factories established under cooperative sector.

ii) COMMUNITY DEVELOPMENT : All the 13 panchayat samities in this district have entered post-stage-II, some of them have been provided with the inspent balance of stage-II, while the rest were given ad-hoc grants under post-stage-II. The total block grants during 1976-77 amounted to Rs.0.74 lakh. An amount of Rs.0.17 lakh was also spent on purchase of 220 latrine seats under Gram Safai programme.

## III. IRRIGATION & POWER :

i) IRRIGATION : A provision of Rs.52.60 lakhs was made under this head during the year 1976-77. The expenditure incurred on this head is Rs.46.95 lakhs, thus showing 89 % of amount spent over budget provision. An amount of Rs.0.60 lakh was spent on Adan river project, which is mainly benefiting Yavatmal district. An amount of Rs.25.86 lakhs was spent on Sonal River project. Rs.9.79 lakhs were spent on Katepurna river project.

### ii) P O W E R :

#### RURAL ELECTRIFICATION :

The Maharashtra State Electricity Board had been provided an amount of Rs.52.86 lakhs for new and normal development works under rural electrification programme. During the year 1976-77. The total expenditure on this programme was Rs.57.96 lakhs during 1976-77, about 1395 agricultural pump-sets had been energised

and 41 villages electrified.

IV. INDUSTRY & MINING :

LARGE & MEDIUM INDUSTRIES

During the year 1976-77, the expenditure of Rs.10.64 lakhs was incurred against the provision of Rs.21.20 lakhs under this head. Under the scheme of seed money assistance to the Educated unemployed worth Rs.6.83 lakhs was given for the year 1976-77.

SMALL SCALE INDUSTRIES :

The sub-head envisages financial assistance to small scale industries and their cooperatives. There was a provision of Rs.6.64 lakhs for this sub-head for the year 1976-77 against which, an expenditure of Rs.10.95 lakhs was incurred. Subsidy worth Rs.1.24 lakh was given to 13 palutedar societies.

V. TRANSPORT & COMMUNICATION :

R O A D :

A provision of Rs.40.00 lakhs was provided for the road development of this district in annual plan 1976-77. Of this provision, Rs.21.21 lakhs were provided for the schemes of district roads implemented in the State Sector, while Rs.20.83 lakhs were for the schemes in the local sector. For the construction of road and bridges under district roads, Rs.3.94 lakhs were budgeted for the roads under State sector. For roads works Rs.8.36 lakhs were utilised on these roads during the year. Similarly, Rs.10.65 lakhs were provided for district roads in the local sector. About 15.60 kms. of roads were completed utilising Rs.10.83 lakhs for the year. For the development of roads in hilly areas Rs.0.70 lakh were provided for roads under local sector, while Rs.0.15 lakh were spent in the local sector. Block topping in 8 kms. of roads was undertaken under the scheme of roads of economic importance. An expenditure of Rs.1.75 lakh was incurred on this scheme in 1976-77. Under the scheme of minimum needs programme, an expenditure of Rs. 4.09 lakhs was made on rural roads during 1976-77.

VI. SOCIAL SERVICES : The head of development social services was provided with an outlay of Rs.29.86 lakhs for the year 1976-77 of which, greater share had gone to the sub-heads Education and Water supply having a provision of Rs.35.22 lakhs and Rs.106.59 lakhs respectively.

GENERAL EDUCATION : The programmes under this sub-head envisage development of primary, secondary and Higher education in the district. The following schemes were implemented during 1976-77. One Balbhavan was started during the year 1976-77 and a grant of Rs.0.01 lakh was paid to it. Under the scheme of attaching of standards V to VII to Secondary school, 46 sections were opened during the year under review. Under the scheme of development and expansion of Non-Government Secondary schools, non-government Schools were paid grants for opening 172 additional sections in their schools. An amount of Rs.1.93 lakhs was spent in the above two schemes. Under the programme of construction of schools buildings by Zilla Parishad, 25 rooms were completed and an amount of Rs.1.00 lakh was spent during 1976-77. Two I.E.M.Schools were upgraded into Secondary schools and an amount of Rs.1.03 lakh was spent on them. 150 Secondary schools teachers were trained in subjectwise summer institutions, incurring an expenditure of Rs.0.21 lakh during 1976-77. Four centres were opened under the scheme of expansion of school complexes and an expenditure of Rs.0.06 lakh was incurred during the year 1976-77. Open merit scholarships worth Rs.0.01 lakh were given to 26 students studying in arts, science and Commerce colleges during the year 1976-77. Free education was made available to 2735 students belonging to economically backward classes and expenditure of Rs.3.37 lakhs was incurred on the scheme during the year 1976-77. Under the scheme of free education to sons and daughters of primary schools teachers, 20 students received free education and the expenditure incurred on them during 1976-77 is Rs.0.05 lakh. For giving grants to 18 new Higher secondary schools, an amount of Rs.6.65 lakhs was spent during the year under review.

NUTRITION PROGRAMME : During the year 1976-77, nutrition programme in panchayat samities were undertaken and Rs.0.40 lakh were spent on the programme against the provision of Rs.0.42 lakh.

H E A L T H : The sub-head was provided an amount of Rs.11.15 lakhs during 1976-77 against which, an expenditure of Rs.10.41 lakhs was incurred. During the year 1976-77, the construction works of primary health centre, Kamargaon were in progress. The expenditure of Rs.3.20 lakhs was incurred on these works. During the year 1976-77, an amount

of Rs.1.01 lakh was spent for supplying more medicine to primary Health centres and sub-centres. A cholera combat team was established on which, an Expdtr. of Rs.1.62 lakh was incurred in 1976-77.

WATER SUPPLY : Water supply schemes were given special attention for providing drinking water facility in the saline tract of the northern portion of the district. The Regional piped water supply scheme was, therefore, undertaken to provide drinking water supply in the saline tract. Rs. 189.95 lakhs were spent for this purpose during 1976-77. An amount of Rs.0.19 lakh was spent for construction of 12 drinking water wells during the year 1976-77 under simple measures.

Government water supply schemes in Akola, Karanja and Washim Municipal areas were in progress and an expenditure of Rs.175.73 lakhs was incurred on these schemes during 1976-77. Works on Municipal Water supply schemes of Murtizapur, Balapur, Washim and Mangrulpir were also in progress by end of 1976-77 and an expenditure of Rs.8.57 lakhs was incurred during 1976-77. 49 bore wells were dug and expenditure of Rs.4.50 lakhs was incurred.

H O U S I N G : The scheme of huts construction was in progress and expenditure of Rs.15.98 lakhs was incurred during 1976-77 and 6085 huts were constructed as targetted.

BACKWARD CLASS WELFARE : The sub-head was provided an outlay of Rs.4.35 lakhs during the year 1976-77 against which, an expenditure of Rs.3.96 lakhs was incurred. The programmes under this sub-head aim at economic and educational development of backward classes by way of giving loans and subsidy on various schemes. Under the scheme Balwadi, an expenditure of Rs.0.10 lakh was incurred, for opening five Balwadis. Educational concessions to 500 pupils of backward classes were given during 1976-77 incurring an expenditure of Rs.0.10 lakh. Backward class hostels were given grants of Rs.0.38 lakh. 60 Secondary school students of scheduled tribes and Vimukta Jatis were given scholarships incurring expenditure of Rs.0.05 lakh. Two Ashram shala complex was started during 1976-77 and an expenditure of Rs.0.64 lakh was incurred for the same.

LABOUR & LABOUR WELFARE : There was only one scheme under this sub-head viz. consolidation and making good deficiencies in existating I.T.I. on which Rs.1.77 lakh were spent during 1976-77.

MISCELLANEOUS :

Government had taken the guarantee of Employment in rural areas and as such, under the scheme of Employment Guarantee, labour oriented works were started in the off season to provide employment in the rural areas. During 1976-77 an amount of Rs.73.78 lakhs was spent over this scheme and employment given to labourers was of order of Rs.73.18 lakhs mandays.
